BILLING CODE 6210-01-F

Mahaska Investment Company, et al.; Acquisitions of Companies Engaged in Permissible Nonbanking Activities

The organizations listed in this notice have applied under § 225.23(a)(2) or (f) of the Board's Regulation Y (12 CFR 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1643(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated for the application or the offices of the Board of Governors not later than January 20, 1994.

A. Federal Reserve Bank of Chicago (James A. Bluemle, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. Mahaska Investment Company, Oskaloosa, Iowa; to acquire On-Site Commercial Services, Oskaloosa, Iowa, and thereby engage in making and servicing loans/factoring through the purchase and management of the account receivables of small to medium size companies pursuant to § 225.25(b)(1)(v); and data processing services by providing bookkeeping services pursuant to § 225.25(b)(7) of the Board's Regulation Y.

B. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. First Bank, Inc., Clayton, Missouri; to acquire Heartland Savings Bank, F.S.B., St. Louis, Missouri, and thereby engage in operating a savings and loan association § 225.25(b)(9); and in insurance activities pursuant to § 225.25(b)(8)(i) of the Board's Regulation Y.

C. Federal Reserve Bank of Minneapolis (James M. Lyon, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. Norwest Corporation, Minneapolis, Minnesota, and Norwest Financial Services, Inc., Des Moines, Iowa; to acquire Community Credit Co., Edina, Minnesota, and thereby engage in the consumer finance business, predominately automobile financing pursuant to § 225.25(b)(1); and credit insurance activities pursuant to § 225.25(b)(8) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, December 21, 1993.

Jennifer J. Johnson,

Associate Secretary of the Board.

[FR Doc. 93-31724 Filed 12-28-93; 8:45 am]

BILLING CODE 6210-01-F

Marshall & Ilsley Corporation; Formation of, Acquisition by, or Merger of Bank Holding Companies; and Acquisition of Nonbanking Company

The company listed in this notice has applied under § 225.14 of the Board's Regulation Y (12 CFR 225.14) for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) to become a bank holding company or to acquire voting securities of a bank or bank holding company. The listed company has also applied under § 225.23(a)(2) of Regulation Y (12 CFR 225.23(a)(2)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies, or to engage in such an activity. Unless otherwise noted, these activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than January 20, 1994.

A. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. Marshall & Ilsley Corporation, Milwaukee, Wisconsin; to merge with Valley Bancorporation, Appleton, Wisconsin, and thereby indirectly acquire Valley Bank, Madison, Wisconsin; Valley Bank, La Crosse, Wisconsin; Valley Bank, Menomonie, Wisconsin; Valley Bank East Central, Kewaskum, Wisconsin; Valley Bank Janesville, Janesville, Wisconsin; Valley Bank Milwaukee, Thiensville, Wisconsin; Valley Bank, N.A., Watertown, Wisconsin; Valley Bank, Northeast, Green Bay, Wisconsin; Valley Bank of Oshkosh, Oshkosh, Wisconsin; Valley Bank of Shawano, Shawano, Wisconsin; Valley Bank, Southwest, Spring Green, Wisconsin; Valley First National Bank, Rhinelander, Wisconsin; Valley First National Bank of Ripon, Ripon, Wisconsin; Valley Western Bank, Appleton, Wisconsin; and Pierce County Bank and Trust Company, Ellsworth, Wisconsin.

In connection with this application, Applicant also proposes to acquire Valley Bancorporation, Appleton, Wisconsin, and thereby indirectly acquire Valley Trust Company, Appleton, Wisconsin, and thereby engage in providing trust services pursuant to § 225.25(b)(3); Valley United Bank, S.S.B., Sheboygan, Wisconsin; and Valley Bank Western, F.S.B., Sparta, Wisconsin, and thereby operate a savings association pursuant to § 225.25(b)(9); Valley Real Estate Services Corporation, Sheboygan, Wisconsin, and thereby engage in providing residential 1-4 family mortgage loan servicing to Valley Bank subsidiaries pursuant to § 225.25(b)(1); Community Life Insurance Company, Phoenix, Arizona, and thereby engage in underwriting credit-related insurance in connection with loans originated by Valley Bank subsidiaries pursuant to § 225.25(b)(8)(i) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, December 21, 1993.

Jennifer J. Johnson,

Associate Secretary of the Board.

[FR Doc. 93-31725 Filed 12-28-93; 8:45 am]

BILLING CODE 6210-01-F

Rodney Barrett Scarborough, et al.; Change in Bank Control Notices; Acquisitions of Shares of Banks or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. Once the notices have been accepted for processing, they will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than January 17, 1994.

A. Federal Reserve Bank of Richmond (Lloyd W. Bostian, Jr., Senior Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. Rodney Barrett Scarborough, Timmonsville, South Carolina; to acquire an additional 14 percent, for a total of 29 percent, of the voting shares of Pee Dee Bankshares, Inc., Timmonsville, South Carolina, and thereby indirectly acquire Pee Dee State Bank, Timmonsville, South Carolina.

B. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. Craig L. Campbell to acquire 0.77 percent, Douglas L. Campbell to acquire 2.07 percent, and Scott L. Campbell to acquire 1.92 percent, of the voting shares of Peotone Bancorp, Inc., Peotone, Illinois, and thereby indirectly acquire Peotone Bank and Trust Company, Peotone, Illinois; Rock River Bank, Rock River, Illinois; Worth Bank and Trust, Worth, Illinois; Mount Greenwood Bank, Chicago, Illinois; First National Bank of Danville, Danville, Illinois; Sun City Bank, Sun City, Arizona; and Founders Bank of Arizona, Scottsdale, Arizona.

C. Federal Reserve Bank of Minneapolis (James M. Lyon, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. David J. Flo, to acquire an additional 4.53 percent for a total of 25.06 percent; The Donald B. Flo Credit Trust to acquire an additional 5.78 percent for a total of 45.37 percent; Signe M. Flo, as trustee of the Donald B. Flo Credit Trust, to acquire an additional 5.78 percent for a total of 45.37 percent of the voting shares of South Central Financial Services, Inc., Bricelyn, Minnesota, and thereby indirectly acquire State Bank of Bricelyn, Bricelyn, Minnesota.

D. Federal Reserve Bank of San Francisco (Kenneth R. Binning, Director, Bank Holding Company) 101 Market Street, San Francisco, California 94105:

1. Frank and Rosaline Kiang, Oakland, California; to acquire an additional 9.36 percent, for a total of 49.71 percent, of the voting shares of Met Financial Corporation, Oakland, California, and thereby indirectly acquire Metropolitan National Bank, Oakland, California.

Board of Governors of the Federal Reserve System, December 21, 1993.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-F

FEDERAL TRADE COMMISSION

[Dkt. 9231]

Revlon, Inc., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent Order.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, a New York-based corporation and its subsidiary to have scientific evidence to support any future claims regarding the effectiveness of cellulite treatments or sunscreen products. Respondents also are required to disclose the sun protection factor value in any sunscreen advertisement in which it proclaims the ability of the product to protect against the sun's rays.

DATES: Amended Complaint and Order issued November 17, 1993.[1]

FOR FURTHER INFORMATION CONTACT: Phoebe Morse, Boston Regional Office, Federal Trade Commission, 10 Causeway St., room 1184, Boston, MA. 0222. (617) 565-7240 or Brinley Williams, Cleveland Regional Office, Federal Trade Commission, 668 Euclid Ave., suite 520-A, Cleveland, OH. 44114. (216) 4207.

SUPPLEMENTARY INFORMATION: On Thursday, September 9, 1993, there was published in the **Federal Register**, 58 FR 47463, a proposed consent agreement with analysis In the Matter of Revlon, Inc., et al., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of the order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made

[1] Copies of the Complaint and the Decision and Order are available from the Commission's Public Reference Branch, H-130, 6th Street & Pennsylvania Avenue, NW., Washington, DC 20580.

its jurisdictional findings and entered an order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

Authority: Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45, 52.

Donald S. Clark,

Secretary.

[Dkt. 9255]

Trans Union Corporation; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent Order.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, an Illinois-based consumer reporting agency to require, in its contracts, that those who obtain consumer reports from the company, in the form of lists developed through credit prescreening, make a firm offer of credit to each person on the list, and to take reasonable steps to enforce those contract provisions. In addition, the respondent is required to provide company officials with a copy of the order, and obtain their signature acknowledging receipt.

DATES: Complaint issued December 15, 1992. Order issued November 18, 1993.[1]

FOR FURTHER INFORMATION CONTACT: David Medine, FTC/S-4429, Washington, DC 20580. (202) 326-3224.

SUPPLEMENTARY INFORMATION: On Thursday, September 9, 1993, there was published in the **Federal Register** 58 FR 47466, a proposed consent agreement with analysis In the Matter of Trans Union Corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of the order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered an order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Head Start Program; Proposed Program Instruction

AGENCY: Administration on Children, Youth and Families (ACYF), Administration for Children and Families (ACF), Department of Health and Human Services (HHS).

ACTION: Notice of Proposed Program Instruction.

SUMMARY: The Administration on Children, Youth and Families is issuing this Notice of Proposed Program Instruction to obtain public comments on an instruction that would require all Head Start programs to provide a smoke-free environment for children and adults who participate in their program.

DATES: In order to be considered, comments on this proposed Program Instruction must be received on February 28, 1994.

ADDRESSES: Please address comments to the Acting Associate Commissioner, Head Start Bureau, Administration on Children, Youth and Families, PO Box 1182, Washington, DC 20013.

Beginning 14 days after close of the comment period, comments will be available for public inspection in room 2224, 330 C Street, SW., Washington, DC 20201, Monday through Friday between the hours of 9 a.m. and 4 p.m.

FOR FURTHER INFORMATION CONTACT: Madelyn Schultz, Head Start Bureau, (202) 205-8398.

SUPPLEMENTARY INFORMATION:

I. Program Purpose

Head Start is authorized under the Head Start Act (the Act), Section 635 of Pub. L. 97-35, the Omnibus Budget Reconciliation Act of 1981, as amended (42 U.S.C. 9801 *et seq.*) It is a national program providing comprehensive developmental services primarily to low-income preschool children, age three to the age of compulsory school attendance, and their families. To help enrolled children achieve their full potential, Head Start programs provide comprehensive health, nutritional, educational, social and other services. Additionally, Head Start programs are required to provide for the direct participation of the parents of enrolled children in the development, conduct, and direction of local programs. Parents also receive training and education to foster their understanding of and involvement in the development of their children. In fiscal year 1992, Head Start served 621,078 children through a network of 1,370 grantees and 575 delegate agencies, each of which has an approved written agreement with a grantee to operate a Head Start program.

II. Authority for Proposed Program Instruction

The authority for this Proposed Program Instruction which interprets 45 CFR 1304.2-3 is derived from section 644(c) of the Head Start Act (42 U.S.C. 9839c). The ACYF's authority to issue interpretations of its regulations is a corollary to its obligation under section 644(c) of the Act to make rules and regulations which supplement the administrative requirements and standards set forth in section 644(a).

The Proposed Program Instruction is being issued in the manner prescribed by section 644(d) of the Act. This Section requires that "at least 30 days prior to their effective date, all rules, regulations, guidelines, instructions and application forms shall be published in the **Federal Register** and shall be sent to each grantee with the notification that each such grantee has the right to submit comments to * * * the Secretary prior to the final adoption * * *."

III. Proposed Program Instruction

To: Head Start Grantees and Delegate Agencies.

Subject: Establishing a Smoke-Free Environment in Head Start Programs.

Legal and Related References: The Head Start Act, as amended, 42 U.S.C. 9801 *et seq.*; 45 CFR 1304.2-3.

Purpose: The purpose of this Program Instruction is to set forth Head Start policy requiring Head Start grantees and delegate agencies to create a smoke-free environment and to eliminate exposure to tobacco smoke by children, staff and parents in the Head Start program. Information on the adverse effects of tobacco smoke on the health of children and adults is provided in this Instruction.

Background: There has been a growing concern in America about the harmful effects of exposure to tobacco smoke on both young children and adults. Recent research, cited below, has established that non-smokers can suffer health damage from exposure to tobacco smoke. This is known as passive smoking or environmental tobacco smoking (ETS) and comes from exposure to the smoke given off by burning cigarettes, cigars and pipes and the smoke exhaled by someone who is smoking.

Passive smoking or ETS is one of the most harmful indoor air pollutants according to an officially released scientific report published by the U.S. Environmental Protection Agency (EPA) in 1992, entitled "Respiratory Health Effects of Passive Smoking: Lung Cancers and Other Disorders." The report reveals that ETS contains 43 carcinogenic (cancer causing) compounds. These compounds are known to produce lung cancer and other respiratory complications in adults and children.

The EPA Fact Sheet entitled "Respiratory Effects of Passive Smoking" (January, 1993) reports the following conclusions based on scientific evidence:

- ETS is responsible for approximately 3,000 lung cancer deaths annually among U.S. adult non-smokers;
- Between 150,000 to 300,000 of the lower respiratory tract infections reported annually in infants and young children under 18 months of age are attributable to ETS exposure;
- ETS exposure increases the prevalence of fluid in the middle ear in children, which is a sign of chronic middle ear disease;
- ETS exposure in children irritates the upper respiratory tract and is associated with a small but significant reduction in lung functioning; and
- ETS exposure in children increases the frequency of episodes and severity of symptoms in asthmatic children. An estimated 200,000 to 1,000,000 asthmatic children have their condition worsened by exposure to ETS.

The detrimental effects of maternal smoking upon prenatal development are widely recognized (National Academy of Sciences Committee to Study the Prevention of Low Birthweight (1985), *Preventing Low Birthweight*, National Academy Press, Washington, DC). Maternal smoking increases the likelihood of low birth weight which correspondingly increases risks for developmental and health impairment. Lactating mothers who continue to smoke after giving birth not only place their children at risk due to the environmental effects of passive smoking, but also expose their children to toxic substances through breast feeding.

Many Head Start centers are required to comply with State and local regulations regarding smoke-free environments for child-care facilities.

Most States have regulations limiting smoking in child day care centers, although few require the centers to be completely smoke-free (Nelson, D.E., Sacks, J.J. and Addiss, D.G. (1993), "Smoking Policies of Licensed Child/Day Care Centers in the United States," *Pediatrics* 91:460-463). However, the American Academy of Pediatrics and the American Public Health Association have recently published guidelines recommending that day care centers adopt smoke-free indoor policies (in "Caring for Our Children—National Health and Safety Performance Standards: Guidelines for Out of Home Child Care Programs," (1992)).

A number of Head Start programs have already initiated policies regarding a smoke-free environment. Policy councils, parents, and staff of these agencies have endorsed the initiatives and are to be commended for their leadership.

Instruction: Because there is considerable evidence that environmental tobacco smoke is harmful to children and adults; and because Head Start has the mission of promoting the healthy development of the children and families it serves, it is imperative that all Head Start programs create smoke-free environments.

Therefore, we are requiring all grantees to work with their Policy Councils, Health Advisory Committees, parents, and staff in order to establish and enforce written policies which will ensure that, effective 60 days from the date of this issuance in its final form, their Head Start program center-based sites will be smoke-free.

The Head Start smoke-free environment policies must prohibit smoking at all times in all space utilized by the program. This includes classrooms, staff offices, kitchens, restrooms, parent and staff meeting rooms (used in the evenings as well as during the day), hallways, outdoor play areas, and vehicles used for transporting children. The policies should also address home visits and group socialization activities (which include field trips, neighborhood walks or other outdoor group activities) so that parents and staff refrain from smoking when Head Start activities are taking place.

For Head Start programs that share a building with other occupants, grantees should take steps to reduce children's exposure to smoke from other sources in the building, for example, by modifying ventilation, altering traffic patterns, and/or establishing a "smoke-free zone" around the Head Start site. If necessary, the Regional Offices (including the American Indian Programs Branch and the Migrant Programs Branch) should be contacted regarding the use of program funds to address this problem.

We expect that a smoke-free environment will increasingly be recognized as a basic safety and health requirement of any program serving children. We know that Head Start programs will continue their tradition of being in the forefront of advocacy and best practice in promoting the healthy development of young children by establishing a smoke-free environment.

Implementation: This Program Instruction is effective 60 days from the date of the issuance in its final form. Please be advised that a smoke-free environment will be one of the requirements monitored during on-site program reviews. Evidence of compliance will include:

- The posting of written policies, approved by Policy Councils, regarding a smoke-free environment;
- Evidence that all staff have been informed about these policies;
- Correspondence and meeting notices advising parents and staff of the new policies;
- Evidence of compliance with a no-smoking policy through physical inspection of the facility; and
- For programs that share space in a building with other occupants, evidence of efforts to limit the introduction of environmental tobacco smoke (ETS) from outside sources into the Head Start space.

To assist Head Start programs in their efforts to provide a smoke-free environment for Head Start children and their families, a listing of Federal and private information resources (such as an annotated bibliography regarding smoke-free environments and ETS, guides to implement smoke-free environments, additional sources of Federal information, etc.) will be made available by the Administration on Children, Youth and Families, following publication of this Program Instruction in its final form.

III. Impact Analysis

Paperwork Reduction Act

Under the Paperwork Reduction Act of 1980, Pub. L. 96-511, all Departments are required to submit to the Office of Management and Budget (OMB) for review and approval any reporting or record-keeping requirement inherent in a proposed or final rule, program announcement, or program instruction. This program instruction does not contain information collection requirements or increase Federal paperwork burden on the public or private sector. Thus, no submission to OMB is required.

(Catalog of Federal Domestic Assistance Program Number 93.600, Project Head Start)

Dated: August 27, 1993.

Joseph A. Mottola,

Acting Commissioner, Administration on Children, Youth and Families.

BILLING CODE 4184–01–M

Centers for Disease Control and Prevention

Advisory Committee on Childhood Lead Poisoning Prevention: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–436), the National Center for Environmental Health (NCEH) of the Centers for Disease Control and Prevention (CDC) announces the following committee meeting.

NAME: Advisory Committee on Childhood Lead Poisoning Prevention.

TIMES AND DATES: 1 p.m.–5 p.m., February 14, 1994. 8:30 a.m.–4 p.m., February 15, 1994.

PLACE: Sheraton Century Center Hotel, 2000 Century Boulevard, NE., Atlanta, Georgia 30345–3377.

STATUS: Open to the public, limited only by the space available.

SUPPLEMENTARY INFORMATION: In October 1991 the Secretary of the Department of Health and Human Services released the CDC policy statement, "Preventing Lead Poisoning in Young Children." This statement is used by pediatricians and lead screening programs throughout the United States, and great progress has been made in implementing the statement. Copies of this statement may be requested from the contact person listed below.

MATTERS TO BE DISCUSSED: Since the release of this statement, new data have become available and some information gaps have been identified. The committee met in June 1993 to discuss this new research data and information on management of lead toxicity and make recommendations concerning revision of the statement. The committee will discuss progress to date on draft chapters and other issues related to revising the statement, specifically, screening issues, environmental management, diagnostic evaluation and medical management, lead hazards in the community, and the plan for completing the statement.

Agenda items are subject to change as priorities dictate.

Persons wishing to make written comments regarding additions or changes to the statement should provide such written comments to the contract person no later than February 9, 1994.

Persons wishing to make oral comments on the statement at the meeting should notify the contact person in writing or by telephone no later than close of business February 8, 1994. All requests to make oral comments should contain the name, address, telephone number, and organizational affiliation of the presenter. Depending on the time available and the number of requests, it may be necessary to limit the time of each presenter.

CONTACT PERSON FOR MORE INFORMATION: Barbara Nelson, Program Analyst, Lead Poisoning Prevention Branch, Division of Environmental Hazards and Health Effects, NCEH, CDC, 4770 Buford Highway, NE., (F42), Atlanta, Georgia 30341–3724, telephone 404/488–7330, FAX 404/488–7335.

Dated: December 22, 1993.

Elvin Hilyer,

Associate Director for Policy Coordination, Centers for Disease Control and Prevention (CDC).

[FR Doc. 93–31750 Filed 12–28–93; 8:45 am]

BILLING CODE 4160–18–M

CDC Advisory Committee on the Prevention of HIV Infection (CDC ACPHI): Executive Subcommittee: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following subcommittee meeting.

NAME: CDC ACPHI Executive Subcommittee.

TIME AND DATE: 9:30 a.m.–2:30 p.m., January 18, 1994.

PLACE: Henry J. Kaiser Family Foundation, Board Room, 2400 Sand Hill Road, Menlo Park, California 94025.

STATUS: Open to the public, limited only by the space available.

PURPOSE: The Executive Subcommittee will review the final reports of the five subcommittees which conducted an external review of CDC's HIV prevention programs. In-depth discussions will lead to the development of a list of recommendations which will be presented to the full advisory committee at a meeting tentatively scheduled for late February. Agenda items are subject to change as priorities dictate.

CONTACT PERSON FOR MORE INFORMATION: Connie Granoff, Committee Assistant, Office of the Associate Director for HIV/AIDS, CDC, 1600 Clifton Road, N.E, Mailstop E–40, Atlanta, Georgia 30333, telephone (404) 639–2918.

Dated: December 22, 1993.

Elvin Hilyer,

Associate Director for Policy Coordination, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4160–18–M

Food and Drug Administration

Advisory Committee; Notice of Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration (FDA). This notice also summarizes the procedures for the meeting and methods by which interested persons may participate in open public hearings before FDA's advisory committees.

MEETING: The following advisory committee meeting is announced:

Vaccines and Related Biological Products Advisory Committee

Date, time, and place. January 27 and 28, 1994, 8 a.m., Versailles Ballrooms I and II, Holiday Inn Bethesda, 8120 Wisconsin Ave., Bethesda, MD.

Type of meeting and contact person. Open public hearing, January 27, 1994, 8 a.m. to 8:45 a.m., unless public participation does not last that long; open committee discussion, 8:45 a.m. to 3:15 p.m.; closed committee deliberations, 3:15 p.m. to 3:45 p.m.; open committee discussion, 3:45 p.m. to 6 p.m.; open public hearing, January 28, 1994, 8 a.m. to 8:45 a.m., unless public participation does not last that long; open committee discussion, 8:45 a.m. to 9:30 a.m.; closed committee deliberations, 9:30 a.m. to 10 a.m.; open committee discussion, 10 a.m. to 6 p.m.; Nancy T. Cherry or Stephanie A. Milwit, Center for Biologics Evaluation and Research (HFM–21), Food and Drug Administration, 1401 Rockville Pike, Rockville, MD 20852, 301–594–1054.

General function of the committee. The committee reviews and evaluates data on the safety and effectiveness of vaccines intended for use in the diagnosis, prevention, or treatment of human diseases.

Agenda—Open public hearing. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those desiring to make formal presentations should notify the contact person before January 20, 1994, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time required to make their comments.

Open committee discussion. On January 27, 1994, the committee will: (1) Discuss the influenza virus vaccine formulation for 1994–1995; (2) review safety and efficacy data for a vaccine for the prevention of varicella; and (3) discuss indications for use of such a product. On January 28, 1994, the committee will review safety and efficacy data for a vaccine for the prevention of hepatitis A. The committee will also discuss alternative immunization schedules for hepatitis B vaccines.

Closed committee deliberations. The committee will review trade secret and/or confidential commercial information relevant to pending product licensing applications. These portions of the meetings will be closed to permit discussion of this information (5 U.S.C. 552b(c)(4)).

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairperson determines will facilitate the committee's work.

Public hearings are subject to FDA's guideline (subpart C of 21 CFR part 10) concerning the policy and procedures for electronic media coverage of FDA's public administrative proceedings, including hearings before public advisory committees under 21 CFR part 14. Under 21 CFR 10.205, representatives of the electronic media may be permitted, subject to certain limitations, to videotape, film, or otherwise record FDA's public administrative proceedings, including presentations by participants.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this **Federal Register** notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairperson's discretion.

The agenda, the questions to be addressed by the committee, and a current list of committee members will be available at the meeting location on the day of the meeting.

Transcripts of the open portion of the meeting may be requested in writing from the Freedom of Information Office (HFI–35), Food and Drug Administration, rm. 12A–16, 5600 Fishers Lane, Rockville, MD 20857, approximately 15 working days after the meeting, at a cost of 10 cents per page. The transcript may be viewed at the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857, approximately 15 working days after the meeting, between the hours of 9 a.m. and 4 p.m., Monday through Friday. Summary minutes of the open portion of the meeting may be requested in writing from the Freedom of Information Office (address above) beginning approximately 90 days after the meeting.

The Commissioner has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. The Federal Advisory Committee Act (FACA) (5 U.S.C. app. 2, 10(d)), permits such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed, however, shall be closed for the shortest possible time, consistent with the intent of the cited statutes.

The FACA, as amended, provides that a portion of a meeting may be closed where the matter for discussion involves a trade secret; commercial or financial information that is privileged or confidential; information of a personal nature, disclosure of which would be a clearly unwarranted invasion of personal privacy; investigatory files compiled for law enforcement purposes; information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action; and information in certain other instances not generally relevant to FDA matters.

Examples of portions of FDA advisory committee meetings that ordinarily may be closed, where necessary and in accordance with FACA criteria, include the review, discussion, and evaluation of drafts of regulations or guidelines or similar preexisting internal agency documents, but only if their premature disclosure is likely to significantly frustrate implementation of proposed agency action; review of trade secrets and confidential commercial or financial information submitted to the agency; consideration of matters involving investigatory files compiled for law enforcement purposes; and review of matters, such as personnel records or individual patient records, where disclosure would constitute a clearly unwarranted invasion of personal privacy.

Examples of portions of FDA advisory committee meetings that ordinarily shall not be closed include the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices; consideration of labeling requirements for a class of marketed drugs or devices; review of data and information on specific investigational or marketed drugs and devices that have previously been made public; presentation of any other data or information that is not exempt from public disclosure pursuant to the FACA, as amended; and, deliberation to formulate advice and recommendations to the agency on matters that do not independently justify closing.

This notice is issued under section 10(a)(1) and (2) of the Federal Advisory Committee Act (5 U.S.C. app. 2), and FDA's regulations (21 CFR part 14) on advisory committees.

Dated: December 22, 1993.

David A. Kessler,

Commissioner of Food and Drugs.

[FR Doc. 93–31769 Filed 12–28–93; 8:45 am]

BILLING CODE 4160–01–F

National Institutes of Health

Government-Owned Inventions; Availability for Licensing

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

The inventions listed below are owned by agencies of the U.S. Government and are available for licensing in the U.S. in accordance with 35 U.S.C. 207 to achieve expeditious commercialization of results of federally funded research and development. Foreign patent applications are filed on selected inventions to extend market coverage for U.S. companies and may also be available for licensing.

ADDRESSES: Licensing information and copies of the U.S. patent applications listed below may be obtained by writing to the indicated Licensing Specialist at the Office of Technology Transfer, National Institutes of Health, Box OTT, Bethesda, Maryland 20892 (telephone 301/496–7735; fax 301/402–0220). A signed Confidentiality Agreement will be required to receive copies of the patent applications. Issued patents may be obtained from the Commissioner of Patents, U.S. Patent and Trademark Office, Washington, DC 20231.

A Process of Making Tetrahydropteroylpoly-L-Glutamic Acid Derivatives

Fitzhugh, A. (NCI)
Serial No. 07/558,535
Filed 27 Jul 90
US Patent 5,153,309 issued 6 Oct 92; and

A Process of Separating the Diastereomers of (6R,6S)-5,6,7,8-Tetrahydrofolic Acid Derivatives

Fitzhugh, A.L., Akee, R.K. (NCI)
Serial No. 07/977,008
Filed 16 Nov 92
Licensing Specialist: Carol Lavrich

Together these processes allow the large scale, purely chemical synthesis of 6S(or 6R)-tetrahydropteroyl-poly-L-glutamic acid, without the use of enzymes or of special chiral separation steps. Derivatives of the 6S product are useful as substrates or inhibitors of folic acid enzymes, and, have use in cancer treatment. U.S. patent 5,153,309 concerns a simple, inexpensive, purely chemical synthesis of the poly-glutamic acid product starting from the mono-glutamic acid. The patent application 07/977,008 concerns a simple, inexpensive process of resolving the 6S and 6R diesteromers of the mono-glutamic acid starting material by using a simple esterification procedure, then resolution using normal separation techniques such as HPLC, non-chiral column chromatography or fractional crystallization.

Mammalian Bilirubin UDP-Glucoronosyltransferase Clones and Methods of Use Thereof

Owens, I.S., Ritter, J.K. (NICHD)
Serial No. 07/639,453
Filed 10 Jan 91
Licensing Specialist: Carol Lavrich

This invention provides cDNA clones which encode mammalian bilirubin UDP-glucoronosyltransferase. These cDNA clones may be used in gene therapy for patients with the fatal Crigler-Najjar Type I Syndrome and in the development of a gene-based prenatal diagnostic probe for fetuses at risk for this syndrome. Liver transplantation is currently the only treatment for Crigler-Najjar Type I Syndrome. These cDNA clones may also be used as inexpensive diagnostic probes for patients with other hyperbilirubinemic syndromes such as Gilbert's Disease and Type II Crigler-Najjar Syndrome.

Qualification of Indicators of Fibrosis

Striker, G., Striker, L.J. (NIDDK)
Serial No. 07/963,475
Filed 10 Oct 92
Licensing Specialist: Carol Lavrich

This invention involves a method for the early diagnosis and monitoring of the progression of fibrotic diseases and glomerulonephritis. Accurate early diagnosis and evaluation of treatment of a fibrosing condition is important. At present, there is a severe lack of adequately diagnostic capability of fibrotic diseases. This invention utilizes a combination of reverse transcription, polymerase chain reaction, and microdissection to diagnose and monitor a fibrosing condition at the molecular level. This invention overcomes obstacles encountered with accurately diagnosing fibrotic diseases quickly and inexpensively.

Reducing Cytopathicity in T Cells Infected by Lentivirus

Cohen, D.I., Samelson, L.E., Lane, H.C., Tani, Y. (NIAID)
Serial No. 07/899,210
Filed 16 Jan 92
Licensing Contact: Mark D. Hankins

A new process capable of limiting T-cell death (also termed T-cell syncytium formation) initiated by HIV–1 infection has been discovered. It is believed that such cell death may be due to intracellular signals transmitted when HIV–1 envelope glycoproteins interact with their cellular receptor, CD4, and other receptors on a second cell. When certain intercellular signals associated with HIV–1 envelope are blocked, the cellular changes triggered by HIV are also dramatically inhibited. These experiments employed a new T-cell line (HIVenv2–8) stably transfected to express all of the HIV envelope glycoproteins, including gp160, gp120, and gp41. This cell line has been used to find that a specific inhibitor of protein tyrosine kinases, herbimycin A, reduced HIV enveloped-associated synctium formation and thus may be a basis for treatment of HIV infection.

Composition and Method for Weight Reduction in Mammals

Yeh, S.Y. (NIDA)
Serial No. 08/010,343 [CIP of 07/906,945 (ABN)]
Filed 28 Jan 93
Licensing Specialist: Carol Lavrich

Substituted hydroxybenzylalcohols, including (alpha)-methylepinephrine, (alpha)-methylnorepinephrine, metaraminol and N-substituted (alpha)-methylnorepinephrines, have been discovered to be useful as weight reducing agents in mammals. The derivatives exhibit potent anorectic activity without having strong CNS stimulatory properties. Animal studies demonstrate the effectiveness of these compounds for body weight reduction. Pharmaceutical compositions, some novel compounds, and methods are claimed.

Muscarinic Receptor Fusion Proteins and Subtype-Specific Antisera

Levey, A.I., Stormann, T., Brann, M.R. (NINDS)
Filed 26 Apr 93
Serial No. 08/053,292 [FWC of 07/654,971 (ABN)]
Licensing Specialist: Arthur Cohn

Recombinant proteins and protein-generated antibodies directed against the five human muscarinic receptors have been developed. These receptors mediate acetylcholine function in the normal nervous system and are believed to be critical in the pathogenesis and/or treatment of many neurological and psychiatric disorders. Recombinant expression plasmids which encode unique regions of the inner third (i3) cytoplasmic loops of the human muscarinic receptors, m1–m5, were made. The expressed fusion proteins were used to produce polyclonal antisera. The novel antibodies selectively react with the five receptors *in vitro* and therefore may be useful in localizing and measuring muscarinic receptors in cells and tissues. Prior technologies include antibodies raised to short, synthetic oligopeptides that are limited in their ability to recognize native proteins and receptors. The new recombinant proteins and antibodies are proposed for use in basic research, drug development, and possibly as diagnostic tools.

Method and Use of Trichohyalin and Transglutaminase-3

Steinert, P.M., Lee, S–C, In-Gyu, K. (NIAMS)
Serial No. 08/056,200
Filed 30 Apr 93
Licensing Specialist: Carol Lavrich

The invention relates to the discovery of the DNA and RNA sequences of several proteins which are involved in forming structural components of the hair follicle and epidermis: human trichohyalin, human transglutaminase-3 and mouse transglutaminase-3. Human trichohyalin is an ideal substrate for cross-linking to other proteins by transglutaminase enzymes. Cross-linking forms a tough, fibrous, and insoluble gel. Differing amounts of crosslinking can form products of differing degrees of flexibility and/or rigidity. Trichohyalin and transglutaminase-3 proteins can be used to form gels for medicinal, food and cosmetic purposes. Another aspect of the invention is directed to a method of facilitating the healing of wounds using the trichohyalin and transglutaminase proteins.

Metalloproteinase Peptides

Stetler-Stevenson, W.G., Liotta, L.A., Krutzsch, H.C. (NCI)
Serial No. 08/075,855 (FWC of 07/837,102)
Filed 10 Jun 93
Licensing Specialist: Daniel Passeri

Inappropriate degradation of extracellular matrix molecules by metalloproteinases plays an important role in a wide variety of pathologic conditions including neoplasia and arthritis. This invention is an isolated protein of approximately 23,000 daltons in size which binds to metalloproteinases with high affinity, can be purified using affinity chromatography on solid phase metalloproteinases, and is potentially useful for therapy of pathologic conditions involving the inappropriate production of metalloproteinases.

Neutralizing Monoclonal Antibody to Human Alpha PDGF Receptors

LaRochelle, W., Pierce, J., Jensen, R., Aaronson, S.A. (NCI)
Serial No. 08/081,216
Filed 25 Jun 93
Licensing Specialist: Daniel Passeri

These monoclonal antibodies specifically bind to an epitope on α PDGFR, inhibit PDGF binding with PDGF, antagonize PDGF, and does not bind β PDGFR receptor. A hybridoma cell line producing such a monoclonal antibody, methods of *in vivo* imaging of a pathological condition, and methods of inhibiting the growth of a neoplasia expressing α PDGFR which use these monoclonal antibodies are also described. *In vitro* assays for detecting the presence of α PDGFR and for evaluating the binding affinity of a test compound are also described.

Cloning of the recA Gene from Thermus Aquaticus YT–1

Camerini—Otero, R.D., Angov, E. (NIDDK)
Filed 26 Jul 93
Serial No. 08/097,831 [CIP of 08/041,341 and 08/089,910]
Licensing Specialist, Arthur Cohn

An oligonucleotide encoding the *Thermus aquaticus* recA protein, vectors containing the gene, and a purified *T. aquaticus* recA protein have been isolated. The recA protein is a critical component in recombinational DNA repair, homologous genetic recombination and the cellular SOS response which occurs in response to DNA damage. Unlike previously cloned recA proteins, a thermostable analogue, such as the one provided in the present invention, will be suitable for various procedures which require the enzyme to act at higher temperatures. The methods provided include: hybridizing a primer to a template with increased binding affinity at higher temperatures, improving the accuracy of sequencing DNA by the DNA chip method, and producing a oligonucleotide that is complementary to a DNA template, e.g., as part of a gene amplification technique, such as Polymerase Chain Reaction (PCR), self–sustained sequence replication (3SR), beta–Q replicase (βQR), first strand synthesis with DNA polymerase, and ligation amplification reaction or ligase-based amplification system (LAR/LAS). The recA protein of this invention will also be useful in the practice of the related patent applications disclosing methods of constructing three-stranded DNA (see U.S. Patent Applications 07/611,268, 07/733,744, 08/041,341 and 08/089,910.

Pre-Binding of Retroviral Vector Particles With Complement Components to Enable the Performance of Human Gene Therapy in Vivo

Mason, J.M. (NHLBI)
Serial No. 08/098,944
Filed 28 Jul 93
Licensing Specialist: Carol Lavrich

This invention relates to an improvement in the use of retroviral vectros in gene therapy. Most gene therapy protocols involve treating cells from the patient *ex vivo* and then reintroducing the cells into the patient. *In vivo* gene therapy treatment is preferred because the gene can be introduced into the cells without removing the cells from the patient. The use of retroviral gene therapy vectors *in vivo* has been limited because many retroviruses are inactivated in the circulatory system of primates and humans by the complement system. This invention specifically discloses the use of C1 complement subcomponents or of antibody fragments to protect retroviral vector particles from attack by primate complement systems *in vivo*. The invention has been shown to work in human serum. Pharmaceutical compositions containing retroviral vector particles prebound with C1 complement subcomponents or with antibody fragments, as well as gene therapy methods, are part of this invention.

Method of Stimulating Immunity by Peripheral Delivery of Non-Peptide Opioids

Weber, R.J. and Rice, K.C. (FDA)
Serial No. 08/107,192
Filed 17 Aug 93
Licensing Specialist: Carol Lavrich

This invention concerns a method of stimulating the immune system by administering either a) a non-peptide opioid incapable of passing the blood-brain barrier (exemplified by noroxymorphone) or b) the same type of non-peptide opioid and interleukin-2 (IL–2). Mice given either a) or b) had spleen cells which proliferated in response to nitrogens with at least a 2-fold enhancement over control animals. The same mice were shown to have natural killer cells with twice the normal activity as measured by a standard chromium release assay with a mouse lymphoma cell line as targets. Administration of b) resulted in a synergistic effect and means that coadministration of the non-peptide opioid reduces the dose of IL–2 needed. Applications include treating immunodeficiency conditions and any other where IL–2 is indicated.

Convection-Enhanced Drug Delivery System

Laske, D.W., Oldfield, E.H., Bobo, R.H., Dedrick, R.L., Morrison, P.F. (NINDS)
Serial No. 08/112,370
Filed 27 Aug 93
Licensing Specialist: John Fahner-Vihtelic

This application describes an apparatus and method of convention-enhanced delivery of drugs into the brain and other solid tissue structures. The method involves positioning the tip of an infusion catheter within a tissue structure and supplying an agent

through the catheter while maintaining a pressure gradient from the tip of the catheter during infusion. The catheter is connected to a pump which delivers the desired drug and maintains a desired pressure gradient throughout delivery of the agent. Agent delivery at rates of 0.5 to 4.0 microliters/minute have been used experimentally with infusion distances greater than 1 cm. from the delivery source. This technology addresses the problem of delivering high molecular weight polar molecules such as: growth factors, enzymes, antibodies, protein conjugates, and genetic vectors.

Use of Synthetic Peptides to Modify the Cytoskeleton of Cells

Steinert, P.M., Goldman, R.D., DiGovanna, J.J. (NIAMS)
Serial No. 08/112,783
Filed 25 Aug 93
Licensing Specialist: Daniel Passeri

Synthetic peptides corresponding to different regions of the human keratin 1 chain can disassemble preformed keratin intermediate filaments or inhibit filament assembly both *in vitro* and *in vivo*. The disruption of keratin filaments may have therapeutic applications in the treatment of epithelial abnormalities.

Dated: December 14, 1993.

BILLING CODE 4140–01–M

John E. Fogarty International Center for Advanced Study in the Health Sciences; Meeting of the Fogarty International Center Advisory Board

Pursuant to Public Law 92–463, notice is hereby given of the twenty-sixth meeting of the Fogarty International Center (FIC) Advisory Board, February 8, 1994, in the Lawton Chiles International House (Building 16), at the National Institutes of Health.

The meeting will be open to the public from 8:30 a.m. to 2:15 p.m. the morning agenda will include a report by the Director, FIC; a report of December 1 meeting of the Advisory Committee to the Director, NIH; and presentations on the NIH Office of AIDS Research, and the World Bank's World Development Report—1993.

The afternoon agenda will include reports on FIC's Long-Range Plan, the Board's Biennial Report to Congress, and the Inclusion of Women and Minorities in NIH Research.

In accordance with the provisions of Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. and section 10(d) of Public Law 92–463, the meeting will be closed to the public from 2:45 p.m. to adjournment for the review of applications to the International Research Fellowship and Senior International Fellowship, and Fogarty International Research Collaboration Awards programs; and nominations to the Scholars-in-Residence program and proposals for Scholar's conferences.

Myra Halem, Committee Management Assistant, Fogarty International Center, Building 31, room B2C08, National Institutes of Health, Bethesda, Maryland 20892 (301–496–1491), will provide a summary of the meeting and a roster of the committee members upon request.

Dr. Coralie Farlee, Assistant Director for International Legislation and Advisory Activities, Fogarty International Center (Executive Secretary), Building 31, room B2C08, telephone 301–496–1491, will provide substantive program information.

Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact Ms. Halem at least 2 weeks in advance of the meeting.

(Catalog of Federal Domestic Assistance Program No. 93.989, Senior International Awards Program, and 93.934, Fogarty International Research Collaboration Award.)

BILLING CODE 4140–01–M

National Cancer Institute; Biometry and Epidemiology Contract Review Committee; Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Biometry and Epidemiology Contract Review Committee, National Cancer Institute, National Institutes of Health, February 3–4, 1994, at the Executive Plaza North Building, Conference room G, 6130 Executive Boulevard, Rockville, Maryland 20852.

This meeting will be open to the public from 9 a.m. to 10 a.m. on February 3 to discuss administrative details. Attendance by the public will be limited to space available.

In accordance with provisions set forth in secs. 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92–463, the meeting will be closed to the public on February 3 from 10 a.m. to recess and on February 4 from 9 a.m. to adjournment for the review, discussion, and evaluation of individual contract proposals. These proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the proposals, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

The Committee Management Officer, National Cancer Institute, Executive Plaza North, room 630E, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20892–9903, Tel. (301) 496–5708, will provide a summary of the meeting and a roster of the committee members upon request.

Dr. Harvey P. Stein, Scientific Review Administrator, Contracts Review Branch, Division of Extramural Activities, National Cancer Institute, National Institutes of Health, Executive Plaza North, room 601C, 9000 Rockville Pike, Bethesda, Maryland 20892–9903, Tel. (301) 496–7030, will furnish substantive program information.

Individuals who plan to attend and need special assistance such as sign language interpretation or other reasonable accommodations should contact Ms. Alma O. Carter at (301) 496–7523 in advance of the meeting.

National Institute on Deafness and Other Communication Disorders; Meeting of the Communication Disorders Review Committee

Pursuant to Public Law 92–463, notice is hereby given of a meeting of the Communication Disorders Review Committee on February 17–18, 1994. The Committee will meet at the Hyatt Regency-Bethesda, One Bethesda Metro Center, Bethesda, Maryland 20814. Notice of the meeting room will be posted in the hotel lobby.

The Committee meeting will be open to the public from 8 a.m. until approximately 8:30 a.m. on February 17 to discuss administrative details relating to Committee business. Attendance by the public will be limited to space available.

The meeting of the Committee will be disclosed to the public from approximately 8:30 a.m. on February 17 until adjournment on February 18 in accordance with provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C. and section 10(d) of Public Law 92–463, for the review, discussion, and evaluation of individual grant applications. These deliberations could reveal confidential trade secrets or commercial property, such as patentable material, and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Further information concerning the Committee meeting may be obtained from Dr. Craig A. Jordan, Scientific Review Administrator, National Institute on Deafness and Other Communication Disorders, room 400B Executive Plaza South, Bethesda, Maryland 20892, 301–496–8683. For individuals who plan to attend and need special assistance such as sign language interpretation or other reasonable accommodations, please contact Dr. Jordan two weeks prior to the meeting.

BILLING CODE 4140–01–M

National Institute on Drug Abuse; Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the National Advisory Council on Drug Abuse, National Institute on Drug Abuse on January 25–26, 1994, at the National Institutes of Health, Building 1, Wilson Hall, 9000 Rockville Pike, Bethesda, Maryland 20892.

The meeting will be open to the public on January 25 from 9 a.m. to 1 p.m. and on January 26 from 9 a.m. to 5 p.m. for announcements and reports of administrative, legislative, and program developments in the drug abuse field.

In accordance with provisions set forth in section 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92–463, the meeting will be closed to the public on January 25 from 1 p.m. to 5 p.m. for the review, discussion, and evaluation of grant applications. These applications and discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

A summary of the meeting and a roster of committee members may be obtained from Ms. Camilla L. Holland, NIDA Committee Management Officer, National Institutes of Health, Parklawn Building, room 10–42, 5600 Fishers Lane, Rockville, Maryland 20857 (301/443–2755).

Substantive program information may be obtained from Ms. Eleanor C. Friedenberg, room 10–42, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857 (301/443–2755).

Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact the contact person named above in advance of the meeting.

BILLING CODE 4140–01–M

Public Health Service

Notice Regarding Section 602 of the Veterans Health Care Act of 1992 Entity Guidelines

AGENCY: Public Health Service, HHS.

ACTION: Notice.

SUMMARY: Section 602 of Public Law 102–585, the "Veterans Health Care Act of 1992" (the "Act"), enacted section 340B of the Public Health Service Act ("PHS Act"), "Limitation on Prices of Drugs Purchased by Covered Entities." Section 340B provides that a manufacturer who sells covered outpatient drugs to eligible entities must sign a pharmaceutical pricing agreement (the "Agreement") with the Secretary of Health and Human Services in which the manufacturer agrees to charge a price for covered outpatient drugs that will not exceed the amount determined under a statutory formula.

The purpose of this notice is to inform the covered entities of recent decisions regarding program implementation. Further, covered entities who wish to participate in the drug discount program have certain responsibilities created by the Agreement and section 340B of the PHS Act. These include the prohibition against selling or transferring section 340B discounted drugs to persons who are not patients of the entity, (section 340B(a)(5)(B) of the PHS Act) and generating Medicaid rebates while accepting section 340B discounts on the same drugs, (section 340B(a)(5)(A) of the PHS Act). The Department has developed guidelines related to these prohibitions, and this notice discusses the proposed guidelines and invites public comment.

Section II contains a description of the mechanism to prevent duplicate discounts and rebates and methods for its implementation. The mechanism was published on May 7, 1993, and public comments were submitted at that time. We are not inviting further comment on this section.

DATES: The public is invited to submit comments on the proposed covered entity guidelines (all sections except II which was subject to an earlier notice inviting public comment) by January 28, 1994. Subject to consideration of the comments submitted, the Department intends to publish a final notice regarding these entity guidelines.

FOR FURTHER INFORMATION CONTACT: Marsha Alvarez, R. Ph., Chief Pharmacy Officer, Attn: Drug Pricing Program, Bureau of Primary Health Care, Health Resources and Services Administration, East West Towers Rm 10–3A1, Bethesda, Maryland 20814, Phone: (301) 594–4353.

ADDRESSES: Comments should be submitted to Marsha Alvarez at the address listed above.

SUPPLEMENTARY INFORMATION: The PHS Act and the Agreement contain several important prohibitions for covered entities.

(I). Confidential Drug Pricing Information

Section III(f) of the Public Health Service (PHS) Pharmaceutical Pricing Agreement states that "[t]he Secretary shall require, under a reasonable schedule of implementation, that covered entities not reveal confidential drug pricing information." "Confidential drug pricing information" includes both "best price" and "average manufacturer price." The quoted price or the actual price given by the manufacturer to the covered entity is not confidential.

(II). Duplicate Discount/Rebate Potential

There is a potential for a drug purchased by a covered entity at the statutory discount to be subject to a Medicaid rebate under section 1927 of the Social Security Act, if the drug is reimbursed by the Medicaid program. Accordingly, the PHS Act directs the Secretary of HHS to establish a mechanism to avoid the potential double price reduction.

In consultation with the Health Care Financing Administration (HCFA), which is responsible for the administration of the Medicaid program, the PHS developed a mechanism. The proposed mechanism was published in the **Federal Register** on May 7, 1993, and the Department requested public comment. The comments were addressed in a final notice published on June 23, 1993, at 58 FR 34058, which adopted the proposed mechanism without substantive change. The Department began implementation of the mechanism on July 1, 1993. The mechanism is as follows:

(a). Billing Per Encounter

For all-inclusive rates (either per encounter or visit), drug purchases are not billed as separate cost items; therefore, there is no opportunity for a Medicaid rebate to be sought. To the extent that covered entities are reimbursed by Medicaid through all-inclusive rates, there is no possibility that the duplicate discount and rebate can occur. These entities included on the initial list of covered entities may request drug discounts retroactive to December 1, 1992, if appropriate documentation of drug purchases is presented to the manufacturer.

(b). Billing on a Cost Basis for Drugs

For other entities billing on a cost basis for drug purchases, PHS is providing a list of participating covered entities to State Medicaid agencies with the Medicaid provider numbers for each covered entity in the respective State. Based on the provider number, the State Medicaid agency will create a separate provider file for claims from covered entities. They will exclude data from these provider files when generating the rebate bills to the manufacturers under the Medicaid rebate program.

The entity must provide the Drug Pricing Program with the Medicaid provider number so that State Medicaid agencies can create the appropriate exclusion files. The first group of State Medicaid provider numbers was mailed to the State Medicaid agencies on June 25, 1993. The Department will create a separate computer file on the Electronic Data Retrieval System which will list those entities and their Medicaid provider numbers which were added to the eligibility list and entities which chose to withdraw from the program. From October 1993, until June 30, 1994, the computer file will be updated on a quarterly basis. Thereafter, the file will be updated annually.

There are large facilities which house several different clinics. Some of these clinics are covered entities eligible for the section 340B discounts and others are not eligible. Because the exclusion file (i.e., flagging or marking the entity file for exclusion from Medicaid rebate program) will effectively eliminate all of the facility's outpatient drug purchases from the Medicaid rebate program, the facility must request from its respective State Medicaid agency a separate Medicaid provider number for the eligible clinics. With this separate number, only the outpatient drug purchases from the eligible clinics will be excluded from the Medicaid rebate program. For those States which cannot generate additional Medicaid provider numbers for entities, covered entities must discuss an alternative arrangement with the States to accomplish this objective.

A covered entity which bills Medicaid separately for covered outpatient drugs can accept a discount on those drugs for which no claims for Medicaid reimbursement were sent to its respective State Medicaid agency. For drugs reimbursed by Medicaid, the covered entity may accept the discounted price once its Medicaid provider number is received by the Drug Pricing Program, and the Program provides the number to the respective State Medicaid agency through the regularly scheduled updates to the covered entity file. If a covered entity has adequate documentation proving drugs purchased at the section 340B discount were not billed separately to Medicaid or did not generate Medicaid rebates, the entity may accept the discount and also request discounts retroactive to December 1, 1992. For retroactive adjustments, the entity must have been listed on the initial eligibility list.

(c). Billing Medicaid at Acquisition Cost

When a covered entity submits a bill to the State Medicaid agency for a drug purchase by or on behalf of a Medicaid beneficiary, the amount billed may not exceed the entity's actual acquisition cost for the drug, as charged by the manufacturer at a price consistent with the Veterans Health Care Act of 1992, plus a reasonable dispensing fee established by the State Medicaid agency. This will assure that the cost savings to the covered entity will be passed on to the State Medicaid agency, offset the loss of the collection of the rebate by that agency, and prevent the duplicate discount/rebate by the drug manufacturer. This mechanism is consistent with the Veterans Health Care Act and the limitations established in the Medicaid regulations, 42 CFR 447.331–447.334, which limit the amount the Medicaid State agency may reimburse providers.

(III). Eligibility for Retroactive Discounts

Until November 30, 1993, or 30 days after publication of the final entity guidelines, whichever is later, eligible covered entities included on the initial eligibility list may request retroactive discounts (discounts, rebates, or account credit) for covered outpatient drugs purchased retroactive to December 1, 1992. Only those entities on the initial eligibility list that (1) bill covered outpatient drugs using an all-inclusive rate (either per visit or per encounter), (2) have not billed Medicaid for those covered outpatient drugs since December 1, 1992, or (3) have adequate documentation proving that drugs for which a retroactive discount is being requested have not generated Medicaid rebates, may request the retroactive discount.

(IV). Entity Guidelines Regarding Drug Diversion

Section 340B contains a number of prohibitions related to drug diversion which might require entities to develop alternate systems. These systems will be necessary to avoid diversion and will provide adequate documentation for audit purposes.

(a). Diversion to Nonpatients of the Covered Entity

Covered entities are required not to resell or otherwise transfer outpatient drugs purchased at the statutory discount to an individual who is not a patient of the entity. If individuals, other than patients of the covered entity obtain covered outpatient drugs from the pharmaceutical dispensing facility, the entity must take affirmative steps to prevent their receipt of discounted drugs. The entity must develop and institute adequate safeguards to prevent the transfer of discounted outpatient drugs to individuals who are not eligible for the discount (e.g., separate purchasing accounts and dispensing records).

(b). Diversion to Ineligible Entities Within the Same Facility

Section 340B(a)(6) of the PHS Act recognizes that a covered entity may be part of a larger facility and states that the larger facility (e.g., a hospital) will not be considered eligible for the discounted drug prices unless it is listed as a covered entity. Only the covered entity (e.g., the eligible clinic) housed within the hospital organization will be eligible for section 340B drug discounts. Another example is a department of health that contains an eligible family planning clinic but itself is not covered. Only the family planning clinic is eligible for section 340B discounts. Therefore, the facility which contains an eligible entity within its structure is required to establish separate purchasing accounts and maintain separate dispensing records for the eligible entity.

(c). Diversion to Excluded Services of the Covered Entity

Section 340B mandates the statutory price only for outpatient drugs; therefore, the covered entity must use these discounted drugs only in connection with outpatient services. Because the covered entity may not use the covered outpatient drug in excluded services such as inpatient, a separate method for purchasing and dispensing the discounted drugs (or alternate systems as approved by the Secretary) is required.

(d). Adequate Systems To Safeguard Against Diversion

Developing a separate purchasing system, including separate purchase number and a separate dispensing system for outpatient drugs, should

provide a sufficient audit trail to prove the prevention of drug diversion.

The covered entity may, at its option, develop an alternative system, short of tracking each discounted drug through the purchasing and dispensing process, by which it can prove compliance. If an alternate system of tracking is proposed to be used, this system must meet criteria developed by the Drug Pricing Program. These criteria will be developed at a later date. The Drug Pricing Program welcomes comments or suggestions concerning alternative tracking systems that could be included in the program.

(V). Audit Requirements

All entities receiving statutory prices are required to maintain records of purchases of covered outpatient drugs and of any claims for reimbursement submitted for such drugs under title XIX of the Social Security Act. The entity must permit HHS and the manufacturer to audit any record of a covered drug purchase that was subject to the discount. Manufacturer audits will be conducted in accordance with procedures developed by the Secretary of HHS. Until these guidelines are developed and published in the **Federal Register**, entities are not required to permit audits by manufacturers except as approved by the Secretary. This notice addresses only audits related to purchases as a covered entity; it does not address other audit requirements related to participation in State Medicaid programs or receipt of Federal grant funding.

(VI). Entity Participation

Covered entity participation in the section 340B drug discount program is voluntary. Once an entity has elected to participate in the program and has submitted its Medicaid provider number to the Drug Pricing Program, the entity must wait to withdraw from the program until the next official updating of the eligible entity list. The entity must comply with all requirements of the discount program until the date it is removed from the eligibility list. This date can be obtained from the Office of Drug Pricing Program. This restriction does not apply to entities that use all-inclusive rates or that do not bill Medicaid for covered outpatient drugs.

(VII). Group Purchasing

(a). Disproportionate Share Hospitals

The Department has interpreted the group purchasing restriction of section 340B(a)(4)(L)(iii) regarding disproportionate share hospitals ("DSH") that are covered entities as follows: (1) A DSH may participate in a group purchasing arrangement for inpatient drug use without affecting its eligibility to purchase section 340B discounted drugs. (2) If a DSH participates in a group purchasing organization (GPO) or arrangement for covered outpatient drugs, the DSH will no longer be an eligible covered entity and cannot purchase covered outpatient drugs at the section 340B discount prices. This is a new policy approach which we are considering adopting for two reasons. First, this approach appears to carry out more fully the legislative intent. Section 340B(a)(4)(l) states that a hospital is a covered entity if it meets three criteria. This first two criteria deal with the public nature of the hospital and the level of its disproportionate share adjustment percentage. The third criterion states that the hospital must not "obtain covered outpatient drugs through a group purchasing organization or other group purchasing arrangement," section 340B(a)(4)(l)(iii). The proposed policy would appear to achieve the Congressional intent better than the earlier interpretation.

Second, the earlier interpretation which allowed DSHs to participate both in the section 340B discount program and also in a GPO resulted in Federal dollars being lost. When a DSH elected to participate in the program, it provided its Medicaid provider number to allow the State Medicaid agency to exclude it from the Medicaid rebate mechanism. The result was that GPO drugs were excluded from rebate mechanism, with Medicaid losing the statutory rebate it would otherwise receive. Thus, while the DSH could obtain comparable price reductions for outpatient drugs purchased through a GPO, the corresponding Federal savings would be lost.

(b). Group Purchasing Arrangements - Other

States, or other groups, which purchase drugs for covered entities (other than disproportionate share hospitals) are not included on the list of covered entities; however, they are eligible to purchase at the section 340B discount if the following requirements are met: (1) The group purchasing arrangement must be comprised of only covered entities, or (2) if group purchasing arrangements contain entities which are not eligible for the discount, separate purchasing accounts and dispensing/distribution must be maintained.

(VIII). Purchasing Agents

A covered entity is permitted to use a purchasing agent without forfeiting its right to the section 340B drug discounts. If a purchasing agent is used, the arrangement must be in writing and the terms of the agent's relationship with the entity must be clearly defined. The entity and the agent should decide whether the agent simply negotiates the drug purchasing contracts on behalf of the entity or actually receives drug shipments for distribution to the entity If the latter, the transfer of purchased pharmaceuticals from an agent to the entity would not be viewed as drug diversion. This paragraph does not supersede the statutory limitations that DSHs eligible to receive the section 340B drug discounts may not participate in group purchasing arrangements.

(IX). Definition of Covered Outpatient Drug

The Department has adopted an interpretation of the statutory definition of "covered outpatient drug" developed by the Health Care Financing Administration ("HCFA"). Section 1927(k)(2) of the Social Security Act defines "covered outpatient drug" to include most drugs and biologicals which may be dispensed only by prescription and which require approval by the Food and Drug Administration or a license under section 351 of the PHS Act. Section 1927(k)(3) limits the definition of "covered outpatient drug" to exclude certain settings (e.g., such services as emergency room, hospice, dental, physician, nursing facilities, x-ray, lab, and renal dialysis) in some instances. In these settings, if a covered drug is included in the per diem rate (i.e., bundled with other payments in an all-inclusive, per visit, or an encounter rate), it will not be included in the section 340B discount program. However, if a covered drug is billed and paid for instead as a separate line item as an outpatient drug in a cost basis billing system, this drug will be included in the program.

(X). Dealing Direct or Through a Wholesaler

Under the PHS Agreement signed by each manufacturer participating in the Medicaid program, the manufacturer has the option of dealing either directly with the covered entity or through a wholesaler (the Agreement, section II(a)(3)). If purchasing through a wholesaler, the entity will be required to provide the manufacturer with information necessary to arrange for such purchases consistent with the terms of the Agreement.

The purpose of the option for direct or wholesaler purchases was to allow manufacturers, when dealing with covered entities, to continue their usual business practices. If a manufacturer has customarily dealt directly with a particular covered entity, "then requiring the continuation of this form of purchasing with the covered entity is reasonable. When dealing directly with a covered entity, manufacturers must offer covered outpatient drugs at or below the section 340B discount prices. If a manufacturer customarily uses a wholesaler as a means of distribution, then it may continue this practice. If the manufacturer's drugs are available to covered entities through wholesalers, the discount must be made available through that avenue.

Manufacturers may not single out covered entities from their other customers for restrictive conditions that would undermine the statutory objective. Manufacturers must not place limitations on the transactions (e.g., minimum purchase amounts) which would have the effect of discouraging entities from participating in the discount program.

(XI). Manufacturer's Contracts Requiring Entity Compliance

A manufacturer may not condition the offer of statutory discounts upon an entity's assurance of compliance with section 340B provisions. The enforcement of section 340B provisions is a Federal responsibility. Covered entity assurances regarding the following activities may not be required: (1) Eligibility to participate in the program; (2) utilization of covered outpatient drugs only in authorized services; (3) maintaining the confidentiality of the drug pricing information; (4) permitting the manufacturers to audit purchase, inventory, and related records prior to the publication of approved PHS guidelines; and (5) submitting information related to drug acquisition, purchase, and inventory systems. Entities are not required to sign agreements assuring manufacturers of their compliance with section 340B provisions. (If a manufacturer asks a covered entity whether the entity is in fact participating in the section 340B discount program, the entity must supply the manufacturer with this information).

Dated: December 21, 1993.

William A Robinson,

Acting Administrator, Health Resources and Services Administration.

BILLING CODE 4160–15–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N–93–3686; FR–3584–N–01]

Community Development Work Study Program

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice of funding availability.

SUMMARY: This notice invites applications from institutions of higher education, area-wide planning organizations, and States for grants under the Community Development Work Study Program (CDWSP). The CDWSP, authorized by the Housing and Community Development Act of 1974, as amended, assists economically disadvantaged and minority students participating in work study programs in such institutions. This notice announces HUD's intention to award up to $3 million from FY 1994 appropriations (plus any additional funds recaptured from prior appropriations) to fund work study programs to be carried out from August, 1994 to September, 1996.

DATES: Applications may be requested beginning on January 8, 1994. The application submission deadline date and time will be in the application kit.

FOR FURTHER INFORMATION CONTACT: James H. Turk, Technical Assistance Division, Office of Technical Assistance, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410, Telephone (202) 708–3176 (Voice). The TDD number for the hearing impaired is (202) 708–2564. These are not toll-free numbers. Application packages (requests for grant application) may be obtained by written request from the following address: Processing and Control Branch, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street SW., room 7255, Washington, DC 20410.

SUPPLEMENTARY INFORMATION:

A. Background

Section 107(c) of the Housing and Community Development Act of 1974, as amended, (the Act) authorizes the CDWSP. Under this section, HUD is authorized to provide grants to institutions of higher education, either directly or through area-wide planning organizations or States, for the purpose of providing assistance to economically disadvantaged and minority students, including students with disabilities, who participate in community development work study programs and are enrolled in full-time graduate or undergraduate programs in community or economic development, community planning, or community management. Two-year institutions are not eligible applicants for funding under this program. This notice announces HUD's intention to award up to $3 million from FY 1994 appropriations (plus any additional funds recaptured from prior appropriations). Awards will be made under the HUD implementing regulations at 24 CFR 570.400 and 570.415 and the provisions of this Notice.

B. Eligible Applicants

The following are eligible to apply for assistance under the program subject to the conditions noted below:

1. Institutions of higher education offering graduate degrees in a community development academic program.

2. Institutions of higher education offering undergraduate degrees in a community development academic program if no institutions of higher education in the standard metropolitan statistical area (SMSA) or non-SMSA area in which they are located offer graduate degrees in a community development academic program. (Note: Two-year institutions of higher education are not eligible applicants for funding under this program.)

3. Area-wide planning organizations (APOs) which apply on behalf of two or more institutions of higher education located in the same SMSA or non-SMSA area as the APO.

4. States which apply on behalf of two or more institutions of higher education located in the State. If a State is approved for funding, institutions of higher education located in the State are not eligible recipients. If an APO is approved for funding, institutions of higher education located in the SMSA or non-SMSA non-metropolitan area served by the APO are not eligible recipients.

C. Threshold Requirements

To be eligible for ranking, applications must meet each of the following threshold requirements:

1. The application must be filed in the application form prescribed by HUD, and within the required time prescribed by the Request For Grant Application (RFGA) released pursuant to this notice.

2. The application must demonstrate that the applicant is eligible to participate.

3. The applicant must demonstrate that each institution of higher education participating in the program as a recipient has the required academic programs and faculty to carry out its activities under CDWSP. Each work placement agency must have the required staff and community development work study program to carry out its activities under CDWSP.

4. Institutions of higher education, APOs, and States must maintain at least a 50 percent rate of graduation of students from the FY 1991 funding round which covered school years September 1991 to September 1993 in order to participate in the current round of CDWSP funding. Institutions of higher education, APOs, and States funded under the FY 1991 CDWSP funding round which did not maintain such a rate will be excluded from participating in the FY 1994 funding round. Such institutions, APOs, and States are eligible to participate in the 1995 round.

D. Selection Factors for Institutions of Higher Education (110 points)

The following factors will be considered by the Department in evaluating applications received from institutions of higher education in response to the solicitation.

1. Academic Program (53 points, as allocated below).

Each application will be reviewed for evidence of the school's commitment to administering a CDWSP and the overall strength of its commitment to meeting the needs of minority and economically disadvantaged individuals, including students with disabilities. This commitment will be evaluated in the following areas:

a. Relative quality of the academic program offered by the institution of higher education.

(1) Quality of the academic program in terms of community and economic development course offerings and academic requirements for students. (8 points)

(2) Appropriateness of the curriculum to prepare students for careers in the community and economic development field. (8 points)

(3) Qualifications of the faculty and the percentage of time they will teach in the academic area. (6 points)

b. Quality of academic supervision—Qualifications of the academic supervisor and the percentage of time they will commit to the students. (7 points)

c. Amount of resources to be committed by the institution to the academic program.

(1) Appropriateness and adequacy of the resources (facilities and equipment) that will be devoted to the academic area. (2 points)

(2) The degree to which the applicant is able to contribute funds to support the total cost of the project. (5 points)

(3) The degree to which the applicant will utilize faculty and staff administrators on staff. (7 points)

d. Rate of graduation—Applicant's success rate in graduating students previously enrolled in the HUD CDWSP or similar work study program. (10 points)

2. *Student Work Placement Assignment* (9 points, as allocated below)

a. The extent to which the participating students will receive a sufficient number and variety of work placement assignments. (3 points)

b. The extent to which the assignments will provide practical and useful experience to students participating in the program. (3 points)

c. The extent to which the assignments will further the participating students' preparation for professional careers in community or economic development, community planning, or community management. (3 points)

3. *Seminars* (4 points)

The degree to which the proposed seminars will (a) relate the experience provided under the work placement assignments with the educational experience provided under the academic programs and (b) address career planning and permanent job placement. (4 points)

4. *Placement Opportunities* (13 points, as allocated below)

a. Extent to which the institution's educational program (based on past experience) leads directly and immediately to career opportunities in the community and economic development fields. (6 points)

b. The applicant's success in assisting graduates of the HUD CDWSP or similar work study program to find permanent employment in community development funded agencies. (7 points)

5. *Program Coordination and Administration* (16 points, as allocated below)

a. The applicant's ability to track and monitor the progress of the students previously enrolled in the HUD or similar work study program, including the students who drop out of the program. (4 points)

b. The degree to which the Program Director has clear responsibility, ample percentage of time, and sufficient institutional or academic authority to coordinate the overall administration of the program. (8 points)

c. The adequacy of the applicant's plan for placing students on rotating assignments in community development work placement assignments and keeping track of students during the two-year academic period and the internship. (4 points)

6. *Institution's Commitment* (15 points, as allocated below)

a. The extent to which the applicant has a recruitment program that demonstrates an active, aggressive, and imaginative effort to identify and attract qualified minorities and economically disadvantaged students, including students with disabilities. (2 points)

b. The success of past and current efforts in preparing these students for careers in community and economic development. (6 points)

c. The extent to which the CDWSP award will result in a net increase of these students in each academic area. (3 points)

d. The extent to which the CDWSP award will not result in a decrease in the amount of the institution's own financial support available for minority and economically disadvantaged students in the academic areas or the institution as a whole. (2 points)

e. The extent to which the applicant has provided reasonable accommodations for students with disabilities to enable them to participate in the college/university's academic and work-study programs. (2 points)

E. Selection Factors for Area-Wide Planning Organizations and States (110 points)

The following factors will be considered by the Department in evaluating applications received from area-wide planning organizations and States in response to this NOFA. Each application must contain sufficient technical information to be reviewed for its technical merit.

1. *Academic Program* (53 points, as allocated below)

a. Relative quality of the academic program offered by the institutions of higher education.

(1) Quality of the academic program in terms of community and economic development course offerings and academic requirements for students. (8 points)

(2) Appropriateness of the curriculum to prepare students for careers in the community and economic development field. (8 points)

(3) Qualifications of the faculty at each college/university listed in the submission and the percentage of time they will teach in the academic area. (6 points)

b. Qualifications of the academic area supervisor at each college/university listed in the submission and the percentage of time they will commit to the students. (7 points)

c. The applicant's and institution's plan for the use of its facilities, equipment and financial resources in support of the CDWSP. (2 points)

d. The degree to which each college/university listed in the application is able to contribute funds to support the total cost of the project. (5 points)

e. The degree to which each college/university listed in the application will utilize faculty and staff administrators on staff. (7 points)

f. The success rate of each institution of higher education applying under the applicant in graduating students previously enrolled in the HUD CDWSP or similar work study program. (10 points)

2. *Student Work Placement Assignment* (9 points, as allocated below)

a. The extent to which the participating students will receive a sufficient number and variety of work placement assignments. (3 points)

b. The extent to which the assignments will provide practical and useful experience to students participating in the program. (3 points) and

c. The extent to which the assignments will further the participating students' preparation for professional careers in community or economic development, community planning, or community management. (3 points)

3. *Seminars*

The degree to which the proposed seminars will (a) relate to the experience provided under the work placement assignments with the educational experience provided under the academic program and (b) address career planning and permanent job placement. (4 points)

4. *Placement Opportunities* (13 points, as allocated below)

a. The extent to which the educational program for each college/university listed in the application (based on past experience) leads directly and immediately to career opportunities in the community and economic development fields. (6 points)

b. The applicant's success in assisting graduates of the HUD Community Development Work Study Program (CDWSP) or similar work study program to find permanent employment in community development funded agencies. (7 points)

5. *Program Coordination and Administration* (16 points, as allocated below)

a. The extent to which the applicant has established a committee to coordinate activities between program participants to advise the recipient on policy matters, to assist the recipient in ranking and selection of participating students, and to review disputes concerning compliance with program agreements and performance. (8 points)

b. The applicant's ability to track and monitor progress of students enrolled in the program and those who drop out. (4 points)

c. The adequacy of the applicant's plan for placing students in work placement assignments and keeping track of students during the two-year academic period and during the internship, respectively. (4 points)

6. *Institution's Commitment* (15 points, as allocated below)

a. The extent to which the applicant has a recruitment program that demonstrates an active, aggressive, and imaginative effort to identify and attract qualified minorities and economically disadvantaged students, including students with disabilities. (2 points)

b. The success of past and current efforts of colleges/universities listed in the application in preparing these students for careers in community and economic development. (6 points)

c. The extent to which the CDWSP award will result in a net increase of these students in each academic area. (3 points)

d. The extent to which the CDWSP award will not result in a decrease in the amount of the institutions's own financial support available for minority and economically disadvantaged students in the academic areas or the institution as a whole. (2 points)

e. The extent to which the applicant has provided reasonable accommodations for students with disabilities to enable them to participate in the college/university academic and work-study program. (2 points)

F. Program Policy Factors

HUD may provide assistance to support a number of students that is less than the number requested under applications in order to provide assistance to as many highly rated applications as possible. In addition, HUD might recommend a lower funding level than the requested amount for tuition, work stipend, books and additional support.

G. Obtaining Application

For an application kit, contact the Processing and Control Branch, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 7255, Washington, DC 20410. Applications may be requested beginning on January 8, 1994. Requests for application kits must be in writing, but may be faxed to (202) 708–3363 (This is not a toll-free number). Please refer to FR–3584, and provide your name, address (including zip code) and telephone number (including area code).

H. Submitting Applications and Deadline Date

Applications for funding under this NOFA must be complete and must be physically received in the place designated in the application kit for receipt, by the deadline date and time specified in the application kit. The deadline date and time specified in the kit will be firm as to date and hour. In the interest of fairness to all competing applicants, the Department will treat as ineligible for consideration any application that is received after the deadline. Applicants should take this practice into account and make early submission of their materials to avoid any risk of loss of eligibility brought about by unanticipated delays or other delivery related problems. The application submission deadline contained in the application kit will be no less than 60 days after the initial date on which application kits are made available to requestors.

Following the expiration of the application submission deadline, HUD will review and rank applications in a manner consistent with the procedures described in this Notice and the provisions of the program regulations at 24 CFR 570.425. Applicants awarded a CDWSP grant from FY 1994 appropriations will be notified approximately 40 days after the deadline date for applications set out in the application kit.

1. Application Content

Applicants must complete and submit applications in accordance with instructions contained in the application kit. The following is a checklist of the application content that will be specified in the RFGA:

(a) Transmittal letter.
(b) A completed and signed Standard Form 424, Application For Federal Assistance.
(c) Abstract.
(d) Table of Contents.
(e) Proposal narrative statement addressing the factors for award.
(f) Sample copy of student/recipient binding agreement.

(g) Sample copy of recipient/student work placement agreement.
(h) Management/Workplan Guidelines.
(i) Resumes of Key staff and faculty.
(j) Budget for resident and non-resident students.
(k) Tuition and fee Schedule.
(l) Audit/financial management system information.
(m) Certification by IPA or cognizant audit agency of applicant's financial management system.
(n) If applicable, document verifying a 50 per cent rate of graduation of students from the FY 1991 funding round.

2. Certifications and Exhibits

Applications must also include the following:

(a) Drug-Free Workplace Certification.
(b) Certification prohibiting excessive force against nonviolent civil rights demonstrators, pursuant to 42 U.S.C. 5304 (applies only to applicants that are units of general local government).
(c) Certification on HUD Form 2880, Applicant/Recipient Disclosure, Update Report, disclosing receipt of at least $200,000 in covered assistance during the fiscal year, pursuant to 24 CFR part 12, subpart C, Accountability in the Provision of HUD Assistance.
(d) Disclosure of Lobbying Activities on SF–LLL must be used to disclose lobbying with other than Federally appropriated funds at the time of application if the applicant deems it applicable.

J. Corrections to Deficient Applications

After the submission deadline date, HUD will screen each application to determine whether it is complete. If an application lacks certain technical items or contains a technical error, such as an incorrect signatory, HUD will notify the applicant in writing that it has 14 calendar days from the date of HUD's written notification to cure the technical deficiency. If the applicant fails to submit the missing material within the 14-day cure period, HUD will disqualify the application.

This 14-day cure period applies only to non-substantive deficiencies or errors. Any deficiency capable of cure will involve only items not necessary for HUD to assess the merits of an application against the factors specified in this NOFA.

K. Other Matters

1. Federalism Impact The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, *Federalism*, has determined that the policies and procedures contained in this notice will not have substantial direct effects on States or their political subdivisions, or the relationship between the federal government and the States, or on the distribution of power and responsibilities among the various levels of government. As a result, the notice is not subject to review under the Order.

2. Impact on the Family The General Counsel, as the Designated Official under Executive Order 12606, *The Family*, has determined that this notice will likely have a beneficial impact on family formation, maintenance, and general well-being. Accordingly, since the impact on the family is beneficial, no further review is considered necessary.

3. Accountability in the Provision of HUD Assistance

HUD has promulgated a final rule to implement section 102 of the Department of Housing and Urban Development Reform Act of 1989 (HUD Reform Act). The final rule is codified at 24 CFR part 12. Section 102 contains a number of provisions that are designed to ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. On January 16, 1992, HUD published at 57 FR 1942, additional information that gave the public (including applicants for, and recipients of, HUD assistance) further information on the implementation, public access, and disclosure requirements of section 102. The documentation, public access, and disclosure requirements of section 102 are applicable to assistance awarded under this NOFA as follows:

a. Documentation and Public Access

HUD will ensure documentation and other information regarding each application submitted pursuant to this NOFA are sufficient to indicate the basis upon which assistance was provided or denied. This material, including any letters of support, will be made available for public inspection for a five-year period beginning not less than 30 days after the award of the assistance. Material will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations at 24 CFR part 15. In addition, HUD will include the recipients of assistance pursuant to this NOFA in its quarterly Federal Register notice of all recipients of HUD assistance awarded on a competitive basis. (See 24 CFR 12.14(a) and 12.16(b), and the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942), for further information on these requirements.)

b. HUD Responsibilities—Disclosures

HUD will make available to the public for five years all applicant disclosure reports (HUD Form 2880) submitted in connection with this NOFA. Update reports (also Form 2880) will be made available along with the applicant disclosure reports, but in no case for a period less than three years. All reports, both applicant disclosures and updates, will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations at 24 CFR part 15. (See 24 CFR part 12, subpart C, and the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942), for further information on these disclosure requirements.)

c. State and Unit of General Local Government Responsibilities—Disclosures

States and units of general government receiving assistance under this NOFA must make all applicant disclosure reports available to the public for three years. Required update reports must be made available along with the applicant disclosure reports, but in no case for a period less than three years. Each State and unit of general local government may use HUD Form 2880 to collect the disclosures, or may develop its own form. (See 24 CFR part 12, subpart C, and the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942) for further information on these disclosure requirements.)

4. Prohibition Against Advance Information on Funding Decisions

HUD's regulation implementing section 103 of the HUD Reform Act, codified as 24 CFR part 4, applies to the funding competition announced today. The requirements of the rule continue to apply until the announcement of the selection of successful applicants.

HUD employees involved in the review of applications and in the making of funding decisions are restrained by part 4 from providing advance information to any person (other than an authorized employee of HUD) concerning funding decisions, or from otherwise giving any applicant an unfair competitive advantage. Persons who apply for assistance in this competition should confine their inquiries to the subject areas permitted under 24 CFR part 4.

Applicants who have questions should contact the HUD Office of Ethics (202) 708–3815 (voice), (202) 708–1112 (TDD). These are not toll-free numbers. The Office of Ethics can provide information of a general nature to HUD employees, as well. However, a HUD employee who has specific program questions, such as whether particular subject matter can be discussed with persons outside the Department, should contact his or her Regional or Field Office Counsel, or Headquarters counsel for the program to which the question pertains.

5. Prohibition Against Lobbying of HUD Personnel

Section 112 of the HUD Reform Act added a new section 13 to the Department of Housing and Urban Development Act (42 U.S.C. 3531 et seq.). Section 13 contains two provisions dealing with efforts to influence HUD's decisions with respect to financial assistance. The first imposes disclosure requirements on those who are typically involved in these efforts—those who pay others to influence the award of assistance or the taking of a management action by the Department and those who are paid to provide the influence. The second restricts the payment of fees to those who are paid to influence the award of HUD assistance, if the fees are tied to the number of housing units received or are based on the amount of assistance received, or if they are contingent upon the receipt of assistance.

HUD regulations implementing section 13 are at 24 CFR part 86. If readers are involved in any efforts to influence the Department in these ways, they are urged to read the regulation, particularly the examples contained in appendix A of the rule.

Any questions about the rule should be directed to the Office of Ethics, room 2158, Department of Housing and Urban Development, 451 7th Street, SW., Washington, DC 20410–3000. Telephone: (202) 708–3815 (voice), (202) 708–1112 (TDD). (These are not toll-free numbers.) Forms necessary for compliance with the rule may be obtained from the local HUD office.

6. Prohibition Against Lobbying Activities

The use of funds awarded under this NOFA is subject to the disclosure requirements and prohibitions of Section 319 of the Department of Interior and Related Agencies Appropriations Act for Fiscal Year 1990 (31 U.S.C. 1352) and the implementing regulations at 24 CFR part 87. These authorities prohibit recipients of federal contracts, grants, or loans from using appropriated funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a specific contract, grant, or loan. The prohibition also covers the awarding of contracts, grants, cooperative agreements, or loans unless the recipient has made an acceptable certification regarding lobbying. Under 24 CFR part 87, applicants, recipients, and subrecipients of assistance exceeding $100,000 must certify that no federal funds have been or will be spent on lobbying activities in connection with the assistance.

7 The information collection requirements contained in this NOFA have been approved by the Office of Management and Budget, under section 3504(h) of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501–3520) and assigned OMB control number 2506–0104.

8. The assistance under this NOFA is categorically excluded from review under the National Environmental Policy Act, pursuant to 24 CFR 50.20(b).

L. The Catalog of Federal Domestic Assistance program:

The Catalog of Federal Domestic Assistance Number is 14.234.

Authority: 42 U.S.C. 5301–5320; 42 U.S.C. 3535(d); 24 CFR 570.402.

Dated: December 21, 1993.

Andrew Cuomo,

Assistant Secretary for Community Planning and Development.

[FR Doc. 93–31848 Filed 12–28–93; 8:45 am]

BILLING CODE 4210–29–P

Office of the Assistant Secretary for Public and Indian Housing

[Docket No. N–93–3527; FR–3362–N–02]

Public and Indian Housing Drug Elimination Program; Announcement of Funding Awards for FY 1993

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Announcement of funding awards.

SUMMARY: In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, this announcement notifies the public of funding decisions made by the Department in a competition for funding under the NOFA for Public and Indian Housing Drug Elimination Program. This announcement contains the names and addresses of the award winners and the amount of the awards.

FOR FURTHER INFORMATION CONTACT: Malcolm E. Main, Drug-Free Neighborhoods Division, Office of Resident Initiatives, Public and Indian Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 708–1197 or 708–3502. A telecommunication device for hearing or speech impaired persons (TDD) is available at (202) 708–0850. (These are not toll-free telephone numbers.)

SUPPLEMENTARY INFORMATION: The purpose of the competition was to provide funds to Public and Indian Housing Drug Elimination Program for use in eliminating drug-related crime. This program is authorized under chapter 2, subtitle C, title V of the Anti-Drug Abuse Act of 1988 (42 U.S.C. 11901 *et. seq.*), and regulations at 24 CFR part 961). The Department published a Fiscal Year 1993 NOFA announcing the availability of $145,525,000 for Drug Elimination.

The 1993 awards announced in this Notice were selected for funding in a competition announced in a **Federal Register** Notice published on January 19, 1993 (58 FR 5150). Applications were scored and selected for funding based on criteria contained in the Notice.

In accordance with section 102 (a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, the Department is publishing in the names, addresses, and the amount of funds awarded, as set out at the end of this Notice.

Dated: December 13, 1993.

Michael B. Janis,

General Deputy Assistant Secretary for Public and Indian Housing.

PUBLIC AND INDIAN HOUSING RECIPIENTS OF FINAL FUNDING DECISIONS

[Fiscal Year 1993; Program name: Public and Indian Housing Drug Elimination Program (PHDEP); Statute: Public Law 100–690, November 18, 1988]

Public and Indian Housing Drug Elimination Program, Announcement of Funding Awards for FY 1992

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Announcement of funding awards.

SUMMARY: In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, this announcement notifies the public of funding decisions made by the Department in a competition for funding under the NOFA for Public and Indian Housing Drug Elimination Program. This announcement contains the names and addresses of the award winners and the amount of the awards.

FOR FURTHER INFORMATION CONTACT: Malcolm E. Main, Drug-Free Neighborhoods Division, Office of Resident Initiatives, Public and Indian Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 708-1197 or 708-3502. A telecommunication device for hearing or speech impaired persons (TDD) is available at (202) 708-0850. (These are not toll-free telephone numbers.)

SUPPLEMENTARY INFORMATION:

The purpose of the competition was to provide funds to Public and Indian Housing Drug Elimination Program for use in eliminating drug-related crime. This program is authorized under chapter 2, subtitle C, title V of the Anti-Drug Abuse Act of 1988 (42 U.S.C. 11901 *et. seq.*), and regulations at 24 CFR part 961. The Department published a Fiscal Year 1992 NOFA announcing the availability of $140,550,000 for Drug Elimination.

The 1992 awards announced in this Notice were selected for funding in a competition announced in a Federal Register Notice published on April 30, 1992 (57 FR 18774) and an extension Notice published on May 22, 1992 (57 FR 21819). Applications were scored and selected for funding based on criteria contained in the Notice.

In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, the Department is publishing the names, addresses, and the amount of funds awarded, as set out at the end of this Notice.

Dated: December 13, 1993.

Michael B. Janis,

General Deputy Assistant Secretary for Public and Indian Housing.

BILLING CODE 4210–33–P

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

[Docket No. N–93–3556; FR–3357–N–02]

Flexible Subsidy Program: Announcement of Funding Awards for FY 1993

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Announcement of funding awards.

SUMMARY: In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, this announcement notifies the public of funding award decisions made by the Department under its Flexible Subsidy Program for Fiscal Year 1993. The announcement contains the names and addresses of the award winners and the amount of the awards.

FOR FURTHER INFORMATION CONTACT: Program Support Branch, Office of Multifamily Housing Management, 451 Seventh Street SW., Washington DC 20410, telephone (202) 708–2654 (voice) or (202) 708–3938 (TDD for hearing-impaired). (These are not toll-free telephone numbers.)

SUPPLEMENTARY INFORMATION: The Department's Flexible Subsidy Program provides assistance to multifamily projects experiencing extreme financial difficulty. The Flexible Subsidy Program consists of two components:

(1) *Operating Assistance*—Operating assistance, provided in the form of a deferred loan and, in conjunction with other resources, is designed to restore or maintain the physical and financial soundness of eligible projects.

(2) *Capital Improvement Loans*—Capital improvement loans are provided for projects that need capital improvements to achieve physical soundness, and that cannot be funded from project reserve funds without jeopardizing other major repairs or replacements that are reasonably expected to be required in the near future.

The Flexible Subsidy Fund is comprised of excess rental receipts paid to HUD from owners of section 236 projects, interest earned on the fund, repayment of Operating Assistance loans made by the Department in past fiscal years, and amounts appropriated by Congress, if any, to carry out the purposes of the Flexible Subsidy Program.

On June 7, 1993 (58 FR 32022), HUD published a Notice of Funding Availability (NOFA) which announced the availability of $69,600,000 in funding for HUD's Flexible Subsidy Program. Of this amount, $12,000,000 was made available for Capital Improvement Loans, and $57,600,000 was made available for Operating Assistance.

In accordance with section 102 (a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, the Department is publishing the names and addresses of the projects awarded funds under the FY 1993 Flexible Subsidy NOFA, and the amount of funds awarded to each project. This information is provided in Appendix A to this document.

Dated: December 20, 1993.

Nicolas P. Retsinas,

Assistant Secretary for Housing—Federal Housing Commissioner.

Office of the Assistant Secretary for Public and Indian Housing

[Docket No. N–93–3619; FR–3506–N–02]

Public and Indian Housing Drug Elimination, Technical Assistance Program; Announcement of Funding Awards for FY 1993

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Announcement of funding awards.

SUMMARY: In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, this announcement notifies the public of funding decisions made by the Department in a competition for funding under the NOFA for Public and Indian Housing Drug Elimination, Technical Assistance Program. This announcement contains the names and addresses of the award winners and the amount of the awards.

FOR FURTHER INFORMATION CONTACT: Elizabeth Cocke, Drug-Free Neighborhoods Division, Office of Resident Initiatives, Public and Indian Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 708–1197. A telecommunication device for hearing or speech impaired persons (TDD) is available at (202) 708–0850. [These are not toll-free telephone numbers.]

SUPPLEMENTARY INFORMATION: The purpose of the competition was to provide funds to Public and Indian Housing Drug Elimination, Technical Assistance Program for short-term technical assistance to public housing agencies, Indian housing authorities, resident management corporations, and incorporated resident councils that are combating abuse of controlled substances in public housing communities. This program have been appropriated by the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1993 (Pub. L. 102–389, approved October 6, 1992). The Department published a Fiscal Year 1993 NOFA announcing the availability of $600,000 for technical assistance in public housing.

The 1993 awards announced in this Notice were selected for funding in a competition announced in a **Federal Register** Notice published on June 4, 1993 (58 FR 31870). Applications were scored and selected for funding based on criteria contained in the Notice.

In accordance with section 102 (a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, the Department is publishing in the names, addresses, and the amount of funds awarded, as set out at the end of this Notice.

Dated: December 13, 1993.

Michael B. Janis,

General Deputy Assistant Secretary for Public and Indian Housing.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA–060–5440–10 B021]

Availability of Supplemental Draft Environmental Statement for Bolo Station Landfill, San Bernardino County

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of supplemental draft environmental impact statement.

SUMMARY: Notice is hereby given that the Bureau of Land Management and the County of San Bernardino have prepared a joint Federal-County supplemental draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the Rail-Cycle proposed Class III Bolo Station landfill disposal site, near Amboy, California. A draft EIR/EIS was distributed in December, 1992. With the collection of additional data and additional analysis on Air Quality, Geology and Groundwater, and Purpose and Need, it was determined that a supplemental EIR/EIS be prepared for public review. The public review period for the supplemental EIR/EIS begins December 23, 1993 and will continue to February 21, 1994. All comments must be in writing.

DATES: Written comments will be accepted, if dated on or before February 21, 1994.

ADDRESSES: Comments should be sent to Bureau of Land Management, California Desert District Office, Attn: Rail-Cycle, 6221 Box Springs Blvd., Riverside, CA 92507.

FOR FURTHER INFORMATION CONTACT: Douglas Romoli, Environmental Specialist, California Desert District—909–697–5230.

Dated: December 21, 1993.

Henri R. Bisson,

District Manager.

Intent to Prepare an Environmental Impact Statement; Wild and Scenic River Study; Squirrel River, AK.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Intent to prepare an Environmental Impact Statement (EIS); Wild and Scenic River Study, Squirrel River, Alaska.

SUMMARY: The Bureau of Land Management (BLM), Kobuk District Office, is preparing an Environmental Impact Statement for the study of the Squirrel River for possible inclusion in the national wild and scenic rivers system. This proposed action was authorized by the Alaska National Interest Lands Conservation Act of December 2, 1980 (ANILCA, Pub. 96–487). The Squirrel River, a tributary of the Kobuk River in northwest Alaska, was studied in 1985 by the National Park Service (NPS) for possible inclusion in the national wild and scenic river system. After publication of a draft EIS, further action by NPS was deferred for several reasons. One of these reasons included the delegation of authority to BLM to conduct wild and scenic river studies on rivers under its management.

The proposed action in the NPS study called for designation of the federally-administered portion of the Squirrel River, plus the lower 6 miles of the river's North Fork and the lower 15 miles of the Omar River. BLM is now proceeding at the scoping level in order to obtain maximum public input on the study. Preliminary review of the draft EIS published by NPS in 1985 indicates potential issues may now include mineral development in the region, identification of transportation corridors, and subsistence lifeways in the area. Information received as a result of current scoping on this action will be used to update the NPS draft EIS and produce a new Squirrel River draft EIS.

DATES: Comments and requests to be placed on the mailing list will be accepted on or before January 31, 1994.

ADDRESSES: Comments and mailing requests should be sent to the District Manager, Kobuk District Office, Bureau of Land Management, 1150 University Avenue, Fairbanks, Alaska 99709–3844.

FOR FURTHER INFORMATION CONTACT: Susan Will (907) 474–2338 or Curtis Wilson (907) 272–5546.

Dated: December 21, 1993.

Public Meeting on Air Force Proposed Withdrawal Adjacent to Nellis Range Complex; Nevada

December 21, 1993.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice sets forth the schedule for a public meeting to be held on the Air Force's proposed withdrawal application N–57922. This meeting will provide an opportunity for public involvement in the proposed withdrawal processing. The purpose of the withdrawal is to ensure the public safety and the safe and secure operation of activities in the Nellis Range Complex.

FOR FURTHER INFORMATION CONTACT: Curtis Tucker, Area Manager, BLM Caliente, Caliente, Nevada 702–726–8100.

SUPPLEMENTARY INFORMATION: The Notice of Proposed Withdrawal for the Air Force proposed withdrawal was published in the **Federal Register** on October 18, 1993, and a correction notice was published on November 5, 1993. The same notice was also published in the Las Vegas Review Journal.

A public meeting to gather information as to the proposed withdrawal will be held as follows:

Meeting address	Date	Time
VFW Hall, Caliente, Nevada.	January 31, 1994.	7–9 p.m. PST.

This meeting will be open to all interested persons, including those who desire to be heard in person and those who desire to submit written statements on the proposed withdrawal. Oral statements will be limited to 5 minutes. Written comments can also be submitted at the meeting.

Robert G. Steele,

Deputy State Director, Operations.

Fish and Wildlife Service

Reopening of Comment Period on the Draft Recovery Plan for the Moapa Dace

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Reopening of comment period on the draft recovery plan for the Moapa dace (Moapa coriacea).

SUMMARY: The U.S. Fish and Wildlife Service (Service) gives notice that the comment period will be reopened on the draft revised recovery plan for the endangered Moapa dace (*Moapa coriacea*). The reopening of the comment period will allow comments on this plan to be submitted from all interested parties.

COMMENTS: Must be received by February 14, 1994, to receive consideration by the Service.

ADDRESSES: Persons wishing to review the draft recovery plan may obtain a copy by contacting the Field Supervisor, U.S. Fish and Wildlife Service, Nevada Ecological Services Field Office, 4600 Kietzke Lane, Building G–125, Reno, Nevada 89502–5093 (telephone: 702–784–5227). Written comments and materials regarding the plan should be addressed to Mr. David L. Harlow, Field Supervisor, at the above Reno, Nevada, address. Comments and materials received will be available on request for public inspection, by appointment, during normal business hours at the above Reno, Nevada, address.

FOR FURTHER INFORMATION CONTACT: Ms. Selena Werdon at the above Reno, Nevada, address (telephone: 702–784–5227).

SUPPLEMENTARY INFORMATION:

Background

Moapa dace are endemic to the Warm Springs area of the Muddy (Moapa) River system, Clark County, Nevada. Their historical range includes approximately 25 springs and 16 km of headwater tributary and main stem Muddy River habitat. Currently, Moapa dace are restricted to the upper 3 km of the Muddy River and five tributary spring systems. In 1987, the population was estimated at 2,800 individuals. The principle causes of decline for this species are habitat modification and non-native fish introductions. Recovery efforts will focus on maintaining and enhancing the existing population, rehabilitating historical habitats, and eliminating threats from non-native species. Historical habitat is currently public land administered by the Service and private lands.

The comment period on the draft recovery plan originally closed on December 6, 1993 (58 FR 51844). Written comments may now be submitted until February 14, 1994, to the above Reno, Nevada address.

Author

The author of this notice is Ms. Selena Werdon (See above Reno, Nevada, address (telephone: 702–784–5227)).

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: December 20, 1993.

William E. Martin,

Region 1, Acting Regional Director, Fish and Wildlife Service.

BILLING CODE 4310–55–M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–351]

Certain Removable Hard Disk Cartridges and Products Containing Same; Commission Determination Not to Review an Initial Determination Adding One Respondent and Designating the Investigation "More Complicated"

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge's (ALJ) initial determination (ID) adding one respondent and designating the above-captioned investigation "more complicated." The deadline for completion of this investigation is November 28, 1994.

FOR FURTHER INFORMATION CONTACT: Rachele R. Valente, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202–252–3089.

SUPPLEMENTARY INFORMATION: On October 26, 1993, complainant Syquest Technology, Inc. filed a motion to amend the complaint and the notice of investigation to add one respondent, Iomega Corporation, and to designate the investigation more complicated. On October 28, 1993, respondent Nomai, S.A. responded to Syquest's motion, opposing the more complicated designation, but consenting to the addition of Iomega as a respondent, contingent upon adherence to the existing hearing schedule. On October 29, 1993, the Commission investigative attorney filed a response in support of Syquest's motion. On November 1, 1993, the presiding ALJ issued an ID (Order No. 11) granting Syquest's motion.

Pursuant to Commission interim rule 210.59(a), a more complicated investigation refers to an investigation that is of an involved nature owing to the subject matter, difficulty in obtaining information, the large number of parties involved, or other significant factors. This investigation was designated more complicated owing to difficulties in obtaining information and complainant Syquest's need for more time to put on its case at the hearing.

No petitions for review of the ID were filed.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, and Commission interim rule 210.53, 19 CFR 210.53.

Copies of the ID and all other nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone 202–205–2000. Hearing-impaired persons are advised that information on the matter can be obtained by contacting the Commission's TDD terminal on 202–205–2648.

Dated: December 21, 1993.

By order of the Commission.

Donna R. Koehnke,

Secretary.

BILLING CODE 7020–02–P

[Investigations Nos. 731–TA–671–674 (Preliminary)]

Silicomanganese From Brazil, The People's Republic of China, Ukraine, and Venezuela; Import Investigation

Determination

On the basis of the record [1] developed in the subject investigations, the Commission unanimously determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured, or threatened with material injury, by reason of imports from Brazil, the People's Republic of China, Ukraine, and Venezuela of silicomanganese (ferrosilicon manganese), provided for in subheading 7202.30.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Background

On November 12, 1993, a petition was filed with the Commission and the Department of Commerce by Elkem Metals Company, Pittsburgh, PA, and the Oil, Chemical and Atomic Workers, Local 3–639, Belpre, OH, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of silicomanganese from Brazil, the People's Republic of China, Ukraine, and Venezuela. Accordingly, effective November 12, 1993, the Commission instituted antidumping investigations Nos. 731–TA–671–674 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the Federal Register of November 23, 1993 (58 FR 61919). The conference was held in Washington, DC, on December 3, 1993, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on December 27, 1993. The views of the Commission are contained in USITC Publication 2714 (December 1993), entitled "Silicomanganese from Brazil, the People's Republic of China, Ukraine, and Venezuela: Investigations Nos. 731–TA–671–674 (Preliminary)."

Dated: December 23, 1993.

By order of the Commission.

Donna R. Koehnke,

Secretary.

[Investigation No. 337–TA–350]

Certain Sputtered Carbon Coated Computer Disks and Products Containing Same, Including Disk Drives; Initial Determination Terminating Respondent on the Basis of Settlement Agreement

AGENCY: U.S. International Trade Commission.

[1] The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

ACTION: Notice is hereby given that the Commission has received an initial determination from the presiding administrative law judge in the above captioned investigation terminating the following respondent on the basis of a settlement agreement: Tosoh Corporation.

SUPPLEMENTARY INFORMATION: This investigation is being conducted pursuant to section 337 of the Tariff Act of 1930 (19 U.S.C. 1337). Under the Commission's rules, the presiding officer's initial determination will become the determination of the Commission thirty (30) days after the date of its service upon the parties, unless the Commission orders review of the initial determination. The initial determination in this matter was served upon parties on December 21, 1993.

Copies of the initial determination, the settlement agreement, and all other nonconfidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 205–2000. Hearing impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205–1810.

WRITTEN COMMENTS: Interested persons may file written comments with the Commission concerning termination of the aforementioned respondents. The original and 14 copies of all such documents must be filed with the Secretary to the Commission, 500 E Street, SW., Washington, DC 20436, no later than 10 days after publication of this notice in the Federal Register. Any person desiring to submit a document (or portions thereof) to the Commission in confidence must request confidential treatment. Such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why confidential treatment should be granted. The Commission will either accept the submission in confidence or return it.

FOR FURTHER INFORMATION CONTACT: Ruby J. Dionne, Office of the Secretary, U.S. International Trade Commission, Telephone (202) 205–1802.

Issued: December 21, 1993.

BILLING CODE 7020–02–P

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 32411]

Transtar Holdings, L.P.—Corporate Family Exemption—Transtar, Inc.

Transtar Holdings, L.P. (Transtar Holdings), formerly known as Blackstone Transportation Partners L.P. (BTP), and Blackstone Capital Partners L.P. (BCP) have filed a notice of exemption for a transaction within their corporate family. The transaction was expected to be consummated on or after December 6, 1993.

The Commission previously exempted the control of Transtar, Inc. (Transtar), by BTP and BCP (collectively referred to as Blackstone) through ownership of 51% of its voting stock.[1] Transtar in turn controls eight carriers regulated by the Commission.[2] Blackstone plans to reorganize its holdings of Transtar's voting stock. BCP will transfer its voting shares of Transtar (24.9%) to Transtar Holdings, BTP will be renamed Transtar Holdings and then Transtar Holdings will hold the 51% of Transtar's voting stock.

A new corporation will be formed, Blackstone Transportation Company, Inc. (Blackstone Transportation), which will become the general partner of BTP, replacing Blackstone Management Associates L.P. (BMA). Blackstone Transportation's sole shareholders are Peter G. Peterson, Stephen A. Schwarzman, David A. Stockman, James R. Birle, Lawrence D. Fink, and James Mossman, who were the same general partners of BMA.

This is a transaction within a corporate family of the type specifically exempted from prior review and approval under 49 CFR 1180.2(d)(3). The transaction will not result in adverse changes in service levels, significant operational changes, or change in the competitive balance with carriers outside applicants' corporate family. The purpose of the transaction is to consolidate Blackstone's holdings in Transtar into one partnership, Transtar Holdings. This restructuring will facilitate a series of transactions that will effect: (i) A substantial reduction of the interest rate payable with respect to Transtar's long term debt; (ii) the repayment of Transtar's 13¾% Junior Subordinated Payment-In-Kind notes held by USX; and (iii) the issuance by Transtar Holdings of senior discount notes, which senior discount notes will not be an obligation of, or guaranteed by, Transtar.

To ensure that all employees who may be affected by the transaction are given the protection afforded under 49 U.S.C. 10505(g)(2) and 49 U.S.C. 11347, the labor conditions set forth in New York Dock Ry.—Control—Brooklyn Eastern Dist., 360 I.C.C. 60 (1979), are imposed.

Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction. Pleadings must be filed with the Commission and served on: Anne D. Smith, 1747 Pennsylvania Avenue, NW., Washington, DC 20006.

Decided: December 21, 1993.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

[FR Doc. 93–31811 Filed 12–28–93; 8:45 am]

BILLING CODE 7035–01–P

[1] See Finance Docket No. 31363, Blackstone Capital Partners L.P., Blackstone Transportation Partners L.P. and USX Corporation—Exemption From 49 U.S.C. 10746, 11321, and 11343, (not printed) served December 23, 1988.

[2] The Commission granted an exemption for the acquisition of control of the following carriers: Bessemer & Lake Erie Railroad Company; Birmingham Southern Railroad Company; Duluth, Missabe & Iron Range Railway Company; Elgin, Joliet & Eastern Railway Company; Lake Terminal Railroad Company; and Warrior & Gulf Navigation Union Railroad Company.

[Docket No. AB–290 (Sub-No. 128X)]

Norfolk Southern Railway Co. Abandonment Exemption; Between Brickdale and Greenwood, In Greenwood County, SC

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Commission exempts from the prior approval requirements of 49 U.S.C. 10903–10904 the abandonment by Norfolk Southern Railway Company of its Brickdale-Greenwood line in Greenwood County, SC. The 17.9-mile line is located between milepost V–71.0 in Brickdale, SC, and milepost new V–86.6 in Greenwood, SC, and milepost V–80.1 and milepost old V–82.4, in Greenwood. The exemption is subject to historical and standard employee protective conditions.

DATES: Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on January 28, 1994. Formal expressions of intent to file an offer [1] of financial assistance

[1] See Exempt. of Rail Abandonment—Offers of Finan. Assist., 4 I.C.C.2d 164 (1987).

under 49 CFR 1152.27(c)(2) must be filed by January 8, 1994, petitions to stay must be filed by January 13, 1994, and petitions for reconsideration must be filed January 24, 1994. Requests for a public use condition must be filed by January 18, 1994.

ADDRESSES: Send pleadings referring to Docket No. AB–290 (Sub-No. 128X) to (1) Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423 and (2) Robert J. Cooney, Norfolk Southern Corporation, Three Commercial Place, Norfolk, VA 23510–2191.

FOR FURTHER INFORMATION CONTACT: Richard Felder (202) 927–5610. [TDD for the hearing impaired (202) 927–5721.]

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Dynamic Concepts, Inc., room 2229, Interstate Commerce Commission Building, Washington, DC 20423. Telephone: (202) 289–4357/4359. [Assistance for the hearing impaired is available through TDD service (202) 927–5721].

Decided: December 20, 1993.

By the Commission, Chairman McDonald, Vice Chairman Simmons, Commissioners Phillips and Philbin.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035–01–P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Barton J. Adams, D.O.; Revocation of Registration

On March 18, 1993, the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration (DEA), issued an Order to Show Cause to Barton J. Adams, D.O., 261 Lalo Street, Kahului, Hawaii, proposing to revoke his DEA Certificate of Registration, AA2833641, and to deny any pending applications for renewal of such registration as a practitioner under 21 U.S.C. 823(f). The proposed action was predicated on Dr. Adams' lack of authorization to handle controlled substances in the State of Hawaii. 21 U.S.C. 824(a)(3).

A returned registered mail receipt indicates that the Order to Show Cause was received on March 30, 1993. More than thirty days have passed since the Order to Show Cause was received and the Drug Enforcement Administration has received no response thereto. Therefore, the Acting Administrator concludes that Dr. Adams has waived his opportunity for a hearing on the issues raised in the Order to Show Cause and, pursuant to 21 CFR 1301.54(d) and 1301.54(e), enters this final order based on the information contained in the DEA investigative file.

The Acting Administrator finds that in 1984, Dr. Adams was licensed as an osteopathic physician by the Hawaii Board of Osteopathic Examiners. On March 29, 1990, Dr. Adams sexually assaulted a patient. Criminal proceedings were filed in the Circuit Court of the Second Circuit, State of Hawaii. On January 30, 1992, a jury returned a guilty verdict on three counts of sexual assault in the second degree in violation of HRS Section 707–731(1)(a). On May 7, 1992, Dr. Adams was sentenced to ten years incarceration and a psychological evaluation.

As a result of the conviction and other allegations of sexual assault, the Hawaii Department of Commerce and Consumer Affairs filed an Ex Parte Motion for Summary Suspension and a Petition for Disciplinary Action against Dr. Adams. On February 24, 1992, Dr. Adams' medical license was summarily suspended by the Hawaii Board of Osteopathic Examiners (Board). On May 15, 1992, a hearing was held by the Board. At the conclusion of the hearing, the board issued an Interim Order in which it temporarily revoked Dr. Adams' medical license. On July 10, 1992, the Board issued its Findings of Fact, Conclusions of Law and Final Order and revoked Dr. Adams' medical license.

The Acting Administrator additionally finds that on June 30, 1992, Dr. Adams' state controlled substance registration expired. The Acting Administrator concludes that DEA does not have the statutory authority under the Controlled Substances Act to maintain the registration of a practitioner who is not duly authorized to handle controlled substances in the state in which he conducts his business. See 21 U.S.C. 802(21), 21 U.S.C. 823(f) and 824(a)(3). This prerequisite has been consistently upheld. *Steven K. Campbell, M.D.*, 57 FR 56512 (1992); *Bobby Watts, M.D.*, 53 FR 11919 (1988); *Robert F. Witek, D.D.S.*, 52 FR 47770 (1987) and cases cited therein.

The Acting Administrator further finds that as a result of Dr. Adams' conviction, on February 23, 1993, the Office of the Inspector General, United States Department of Health and Human Services, excluded Dr. Adams from participation in the Medicare program for a period of ten years pursuant to 42 U.S.C. 1320a–7(a). Such exclusion provides a second statutory basis for the revocation of Dr. Adams' DEA registration. 21 U.S.C. 824(a)(5); *Nelson Ramirez-Gonzalez, M.D.*, 58 FR 52787 (1993).

Having considered the facts and circumstances in this matter, the Acting Administrator concludes that Dr. Adams' DEA Certificate of Registration should be revoked due to his lack of authorization to handle controlled substances in the State of Hawaii and his exclusion from the Medicare program.

Accordingly, the Acting Administrator of the Drug Enforcement Administration, pursuant to the authority vested in him by 21 U.S.C. 823 and 824 and 28 CFR 0.100(b), hereby orders that DEA Certificate of Registration, AA2833641, previously issued to Barton J. Adams, D.O. be, and it hereby is, revoked. The Acting Administrator further orders that any pending applications for the renewal of such registration, be, and they hereby are, denied. This order is effective January 28, 1994.

Dated: December 21, 1993.

Stephen H. Greene,

Acting Administrator of Drug Enforcement

BILLING CODE 4410–09–M

DEPARTMENT OF LABOR

Employment and Training Administration

[TA–W–28,798]

Hermitage Hospital Products A/K/A Keilei International, Niantic, Connecticut; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on October 20, 1993, applicable to all workers of Hermitage Hospital Products, Niantic, Connecticut. The certification notice was published in the **Federal Register** on November 9, 1993 (58 FR 59490).

At the request of the State Agency, the Department reviewed the certification for workers of the subject firm. The investigation findings show that Hermitage Hospital Products was purchased by Keilei International and meets all the requirements of a successor-in-interest firm.

Accordingly, the Department is amending the certification to properly reflect the correct worker group.

The amended notice applicable to TA–W–28,798 is hereby issued as follows:

All workers of Hermitage Hospital Products, Niantic, Connecticut, also known as (a/k/a) Keilei International, Niantic, Connecticut, who became totally or partially separated from employment on or after June 9, 1992 are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974.

Signed at Washington, DC, this December 20, 1993.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 93–31657 Filed 12–28–93; 8:45 am]

BILLING CODE 4510–30–M

Mine Safety and Health Administration

Fee Adjustments for Testing, Evaluation, and Approval of Mining Products

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice of fee adjustments.

SUMMARY: This notice revises the Mine Safety and Health Administration's (MSHA) user fees for testing, evaluation, and approval of certain products manufactured for use in underground mines. These fees are based on fiscal year 1993 data and reflect changes in approval processing operations as well as costs incurred to process approval actions.

DATES: These fee schedules are effective from January 1, 1994 through December 31, 1994. Approval applications postmarked before January 1, 1994 will be chargeable under the fee schedules as published on December 21, 1992.

FOR FURTHER INFORMATION CONTACT: Peter M. Turcic, Chief, Approval and Certification Center, R.R. 1, Box 251, Triadelphia, West Virginia 26059.

SUPPLEMENTARY INFORMATION: In general, MSHA has computed the revised fees based on the cost to the government to provide testing, evaluation, and approval of products manufactured for use in underground mines. On May 8, 1987 (52 FR 17506), MSHA published a final rule, 30 CFR Part 5—Fees for Testing, Evaluation, and Approval of Mining Products, which established the specific procedures for fee calculation, administration, and revisions. This revised fee schedule is established in accordance with the procedures of that rule.

The final rules for 30 CFR part 7, Subpart J—Electric Motor Assemblies and Subpart K—Electric Cables, Signaling Cables and Cable Splice Kits were issued February 22, 1993. Subpart J has a 3-year phase-in period. Subpart K has a 1-year phase-in period; therefore, applications for electric cables, signaling cables and cable splice kits postmarked after February 22, 1994, must be submitted under part 7.

Fees under part 18, action codes 47 and 48, Permit for Extension of Time and Permit Modification, represent programs previously in effect under action code 26, Permits. These have been separated to reflect the difference in expended time and cost. Action code 47 is subject to a flat rate and action code 48 is subject to an hourly rate.

A new approval program being introduced during fiscal year 1994 is Material Acceptance. This acceptance is subject to an hourly rate and is included under the schedule for part 75, action code 15.

Under the provisions of part 5, one approval area has been converted from an hourly rate to a flat rate: Dust Collector Approval with Certification of Performance. All flat rate approvals require payment to the MSHA Division of Finance, P.O. Box 25367, Denver, CO 80225, at the time of application submittal to the MSHA Approval and Certification Center.

Dated: December 22, 1993.

Richard L. Brechbiel,

Acting Assistant Secretary Mine Safety and Health.

FEE SCHEDULE EFFECTIVE JANUARY 1, 1994

[Based on FY 1993 data]

	Action title	Hourly rate	Flat rate	Application fee
30 CFR	Part 7—Product Testing by Third Party:

[1] Electric motor assemblies final rule was issued February 22, 1993. The phase-in period for this program is 3 years.
[2] Applications for electric cables, signaling cables, and splice kits postmarked after February 22, 1994, must be submitted under 30 CFR, Part 7—Third Party Testing. Applicable fees are listed under the part 7 fee schedule.
[3] Full approval fee consists of evaluation cost plus applicable test costs.
[4] Fee covers SRA application accompanied by up to five documents.
[5] Fee based upon the approval schedule in effect at the time of retest.

NOTE: When testing and evaluation are required at locations other than MSHA's premises, the applicant shall reimburse MSHA for traveling, subsistence, and incidental expenses of MSHA's representation in accordance with standardized government travel regulations. This reimbursement is in addition to the fees charged for evaluation and testing.

BILLING CODE 4510-43-P

Pension and Welfare Benefits Administration

[Application No. D-9460, et al.]

Proposed Exemptions; G. Robert Taylor Individual Retirement Account, et al.

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Notice of Proposed Exemptions.

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restriction of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or request for a hearing on the pending exemptions, unless otherwise stated in the Notice of Proposed Exemption, within 45 days from the date of publication of this Federal Register Notice. Comments and request for a hearing should state: (1) The name, address, and telephone number of the person making the comment or request, and (2) the nature of the person's interest in the exemption and the manner in which the person would be adversely affected by the exemption. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing.

ADDRESSES: All written comments and request for a hearing (at least three copies) should be sent to the Pension and Welfare Benefits Administration, Office of Exemption Determinations, room N-5649, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Attention: Application No. stated in each Notice of Proposed Exemption. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefits Administration, U.S. Department of Labor, room N-5507, 200 Constitution Avenue, NW., Washington, DC 20210.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of proposed exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in 29 CFR part 2570, subpart B (55 FR 32836, 32847, August 10, 1990). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of proposed exemption are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

G. Robert Taylor Individual Retirement Account (the Account) Located in Chattanooga, Tennessee

[Application No. D-9460]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 4975(c)(2) of the Code and in accordance with the procedures set forth in 29 CFR part 2570, subpart B (55 FR 32836, 32847, August 10, 1990). If the exemption is granted, the sanctions resulting from the

application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale for cash of certain shares of stock from the Account to R. Scott Taylor, a disqualified person with respect to the Account, provided that the following conditions are met:

1. The fair market value of the stock is established by an appraiser independent of G. Robert Taylor (Taylor);

2. The buyer pays no less than current fair market value for the stock;

3. The transaction is entirely for cash; and

4. The Account pays no fees or commissions in regard to the sale.

Summary of Facts and Representations

1. The Account was established in March 1987 for the benefit of Taylor. The custodian for the Account is Merrill Lynch, Pierce, Fenner & Smith. The Account was initially funded with rollover proceeds from a qualified profit sharing plan in the amount of $271,484. Taylor also made a cash contribution of $1,216 to the Account at that time. All the assets of the Account were subsequently used to purchase 27,270 shares of common stock of the Bank of Cleveland, Tennessee (the Bank) at a price of $10 per share.

2. The shares of the Bank were acquired in June 1987 when the Bank was organized. The purchase of Bank stock by the Account originally accounted for 9.4 percent of the total outstanding shares of the Bank. Taylor was one of the organizers of the Bank and has held the position of chairman and chief executive officer of the Bank since the time of its formation.[1]

In January 1989, the shares of Bank stock held by the Account were exchanged in a tax-free reorganization for an equal number of shares of Bradley County Financial Corporation, a one bank holding company (the Holding Company) which became the parent company of the Bank. The shares of Holding Company stock held by the Account currently account for 7.5 percent of the total Holding Company shares outstanding. The applicant represents that 70.5 percent of the total shares outstanding of the Holding Company are held by investors unrelated to Taylor. Taylor is presently the chairman of the Holding Company.

[1] The Department notes that, in proposing this exemption for the sale of the Bank stock by the Account, it is expressing no opinion concerning whether the past acquisition of such stock violated the provisions of any other law. In particular, we are not ruling on the interpretation or application of the exclusive benefit rule under section 406(a) of the Internal Revenue Code. The Internal Revenue Service has sole responsibility for that section.

3. Taylor obtained an appraisal dated April 12, 1993, on the Holding Company stock from Casey M. Stuart of Hazlett, Lewis and Biester (the Appraiser), a firm of certified public accountants located in Chattanooga. The applicant represents that the Appraiser is independent of Taylor and the Holding Company, except for an annual audit of the Holding Company which represents under one percent of the Appraiser's business. According to the Appraiser, there is no established market for the Holding Company stock. The Appraiser considered, among other factors, capitalization of earnings, capitalization of book value, and recent sales of stock of the Holding Company. Accordingly, the Appraiser estimated that, as of the date of the appraisal, the Holding Company stock had a fair market value of $24 per share.

4. The Holding Company stock is not widely traded and currently produces no income for the Account. Taylor proposes to have the Account sell the shares to his son, R. Scott Taylor. The buyer will pay no less than the fair market value of the Holding Company stock at the time of sale, based on an updated independent appraisal. The transaction will be entirely for cash, and the Account will pay no fees or commissions in regard to the sale. The Account will reinvest the proceeds of the sale in income producing assets.

5. In summary, the applicant represents that the proposed transaction will satisfy the statutory criteria of section 4975(c)(2) of the Code because:

(1) The Holding Company stock is not liquid and currently produces no income;

(2) the buyer will pay no less than current fair market value for the stock, based on an updated independent appraisal;

(3) the sale will be entirely for cash;

(4) the Account will pay no fees or commissions in connection with the transaction; and

(5) the proceeds of the sale will be reinvested in assets which produce income for the Account.

General Motors Hourly-Rate Employees Pension Plan; and the General Motors Retirement Program for Salaried Employees (together, the Plans) Located in New York, New York

[Application Nos. D–8402 and D–8405]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975).

Section I—Transactions

If the exemption is granted, the restrictions of section 406(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (D) of the Code, shall not apply to the following transactions if the conditions set forth in Section II below are met:

(a) The acquisition or sale of a net profits interest (NPI), a royalty interest (Royalty), or a production payment contract (Production Payment), in oil and gas properties (the Properties) between the Plans and oil and gas companies or their affiliates that are parties in interest with respect to the Plans (collectively, the Companies);

(b) any loan by the Plans to the Companies where such loans are secured by interests in the Properties, including loans with conversion rights to acquire a NPI, Royalty, or Production Payment in the Properties;

(c) The acquisition or sale between the Plans and the Companies of any stock, or debt securities which are convertible into such stock, issued by the Companies (Company Securities); and

(d) The acquisition or sale between the Plans and the Companies of any interests in certain limited partnerships which invest in such Properties where the Company is a general partner and/or operating owner for the Properties (Company Partnership Interest), or interests in certain joint ventures which invest in such Properties where the Company is a joint venturer and/or operating owner for the Properties (Company Venture Interest).

Section II—Conditions

(a) A "qualified oil and gas investment manager" (as defined below) fully reviews each transaction before recommending the transaction to the Pension Investment Committee of General Motors Corporation (the PIC) or, as of December 1, 1992, to the General Motors Investment Management Corporation (GMIMCo), fiduciaries of the Plans. The decision to enter into the transaction is made by the PIC or GMIMCo, which retains final approval authority over the transaction. The "qualified oil and gas investment manager" negotiates the transaction and manages the oil and gas investments for the Plans, in its capacity as a fiduciary for the Plans, and monitors all

transactions on behalf of the Plans in order to take any appropriate action necessary to safeguard the interests of the Plans.

(b) The Companies and their affiliates are independent of and unrelated to:

(i) The General Motors Corporation (GMC);

(ii) Any person directly or indirectly controlling, controlled by, or under common control with GMC;

(iii) Any officer or director of GMC or any of its subsidiaries or affiliated companies;

(iv) Any partnership in which GMC is a 10 percent or more (directly or indirectly in capital or profits) partner; and

(v) Any "qualified oil and gas investment manager" which acts for the Plans with respect to an oil and gas transaction covered by the proposed exemption, or any other person who exercises discretionary authority, responsibility or control or who provides investment advice for the investment of the Plans' assets involved in oil and gas transactions.

(c) In any transaction where the Plans acquire a NPI, Royalty, Production Payment, Company Security, Company Partnership Interest, or Company Venture Interest from the Companies, the Plans pay a purchase price which is no greater than the fair market value of such interests or securities based on an appraisal developed by the Plans' fiduciaries or an independent, qualified appraiser selected by the Plans' fiduciaries.

(d) In any transaction where the Plans sell a NPI, Royalty, Production Payment, Company Security, Company Partnership Interest, or Company Venture Interest to the Companies, the Plans receive a price which is no less than the fair market value of such interests or securities based on an appraisal developed by the Plans' fiduciaries or an independent, qualified appraiser selected by the Plans' fiduciaries.

(e) In instances involving the acquisition of the Properties by a Company from a third party with a simultaneous sale of a NPI, Royalty, or Production Payment by the Company to the Plans, the Plans pay a purchase price which reflects the fair market value of the interest as agreed to by the Plans' fiduciaries in arm's-length negotiations directly involving the Plans, the Company, and the third party seller.

(f) In instances involving the sale of a NPI, Royalty, or Production Payment by the Plans to a Company in connection with the Company's simultaneous sale of a WI in the Properties to a third party, the Plans receive a sales price which reflects the fair market value of the interest as agreed to by the Plans' fiduciaries in arm's-length negotiations directly involving the Plans, the Company, and the third party buyer.

(g) In any loan by the Plans to a Company in connection with an oil and gas investment, the Plans obtain terms which include: (i) an interest rate that is commensuate with the prevailing market rate for such loans at the time of the transaction, as determined by the Plans' fiduciaries in accordance with rates quoted by established commercial lenders offering similar loans; and (ii) a security interest in designated oil and gas investment interests in the Properties, which have a fair market value that equals at least 150% of the amount loaned by the Plans throughout the duration of such loan, based on an appraisal of such interests developed by the Plans' fiduciaries or by an independent, qualified appraiser selected by the Plans' fiduciaries.

(h) All other terms of each such transaction are not less favorable to the Plans than the terms generally available in an arm's-length transaction between unrelated parties.

(i) The amount of each Plan's total assets involved in all transactions with the Companies represents no more than three percent (3%) of such Plan's total assets as of the date of approval of each transaction by the PIC or GMIMCo.

(j) No investment management fee, advisory fee, underwriting fee, brokerage or sales commission, or similar compensation is paid to the Companies by the Plans with regard to the transactions.

(k) GMC maintains for the duration of each transaction and for six years thereafter records necessary to enable persons described below in subsection (l) to determine whether the conditions of this exemption have been met, except that (1) a prohibited transaction will not be considered to have occurred if, due to circumstances beyond the control of GMC or an affiliate, the records are lost or destroyed prior to the end of the six-year period, and (2) no party in interest, other than GMC and its affiliates, shall be subject to the civil penalty that may be assessed under section 502(i) of the Act or to taxes imposed by section 4975(a) and (b) of the Code if the records are not maintained or are not available for examination as required by subsection (l) below; and

(l)(1) Except as provided in subsection (l)(2) and notwithstanding any provisions of section 504(a)(2) and (b) of the Act, the records referred to in subsection (k) are unconditionally available at their customary location for examination during normal business hours by—

(i) Any duly authorized employee or representative of the Department or the Internal Revenue Service, and

(ii) Any participant or beneficiary of the Plans or duly authorized representative of such participant or beneficiary.

(2) None of the persons described in subsection (l)(1)(ii) shall be authorized to examine trade secrets of the Companies or any commercial or financial information which is privileged or confidential.

Section III—Definitions

For purposes of this proposed exemption:

(a) The term "Company" means a publicly or privately owned oil and gas exploration, development and operating company or partnership which is independent of and unrelated to GMC, its affiliates, and various Plan fiduciaries described in Section II(a) above.

(b) The term "affiliate" of a Company means any entity directly or indirectly, through one or more intermediaries, controlling, controlled by, or under common control with the Company.

(c) The term "control," for purposes of the above definition, means the power to exercise a controlling influence over the management or policies of an entity.

(d) The term "qualified oil and gas investment manager" means a fiduciary as defined in section 3(21) of the Act which: (i) Is independent of and unrelated to any of the Companies and their affiliates (as defined above); (ii) is a financial institution or business organization that in the normal course of business advises institutional investors regarding oil and gas investments; (iii) acknowledges in writing to the Plans that it will manage specific oil and gas investments on behalf of the Plans, in its capacity as a fiduciary of the Plans, as designated by the PIC or GMIMCo; and (iv) satisfies the definition of "qualified professional asset manager" (QPAM) under Section V(a) of Prohibited Transaction Exemption 84–14 (PTE 84–14, 49 FR 9494, March 13, 1984), except for the fact that either the PIC or GMIMCo retains final approval authority for all oil and gas investments recommended by such fiduciary.

(e) The term "Property" or "Properties" means any oil and gas properties such as long-term leasehold interests in oil and gas producing fields and the oil and gas in place on the properties. Such "Property" may

include an interest in the oil and gas wells, platforms, wellheads, piping, as well as the gas gathering system or processing facility through which gas produced from the wells is either transported to the gas pipeline for shipment to various end users or treated before delivery to the end users.

EFFECTIVE DATE: If the proposed exemption is granted, the exemption will be effective May 8, 1990.

TEMPORARY NATURE OF EXEMPTION: This proposed exemption, if granted, will be effective for all transactions described herein which have been entered into by the Plans and the Companies since May 8, 1990. However, this proposed exemption will not apply to any transactions which are entered into with the Companies after five years from the date on which the Final Grant of this proposed exemption is published in the Federal Register.

Summary of Facts and Representations

1. The Plans were established by GMC to provide retirement benefits for eligible hourly and salaried employees of GMC and its affiliates. The aggregate fair market value of the assets of the Plans was approximately $34.5 billion, as of November 30, 1992. The Plans covered a total of approximately 821,169 active and retired participants, as of June 30, 1992.

Bankers Trust Company of New York (Bankers Trust) is the trustee of each of the Plans. Bankers Trust has no discretionary authority over the investment management of the assets held in the Plans relating to the subject transactions.

2. Prior to December 1, 1992, the Finance Committee of the Board of Directors of GMC (the Finance Committee), as named fiduciary of the Plans, delegated to the PIC the responsibility for allocating funds among trustees and investment managers, determining asset mix in accordance with the broad investment guidelines established by the Finance Committee, and overseeing in-house investing for a portion of the assets of the Plans. The PIC is comprised of officers of GMC, all of whom are independent of the Companies. However, as of December 1, 1992, the PIC delegated various duties and responsibilities to GMIMCo, a wholly-owned subsidiary of GMC. GMIMCo is a registered investment adviser under the Investment Advisers Act of 1940 which now has overall responsibility for managing investments for the assets of the Plans, recommending to the PIC certain asset allocation changes and investment policy guidelines, appointing and terminating external investment managers, allocating assets among investment managers, and engaging in private market investment transactions and related public securities (including all oil and gas investments made by the Plans).

3. The applicant represents that the PIC decided in 1988 to allocate a certain portion of the assets of the Plans to oil and gas investments, particularly through the acquisition of NPIs or Royalties in certain Properties from the Companies.[2] In both instances, the Companies would be the owner of a working interest (i.e. WI) in the Properties.[3] The applicant states that the Companies are or would become parties in interest with respect to the Plans as a result of the NPI investments (see Item #9 below).

4. On September 12, 1988, RPI Institutional Services, Inc. (RPI) was appointed by the PIC to serve as the initial "qualified oil and gas investment manager" for the Plans pursuant to the terms of an investment management agreement (the Agreement). RPI is an experienced oil and gas investment manager providing a full range of services to various institutional investors, including employee benefit plans. The applicant states that RPI is unrelated to, and independent of, any of the Companies.

Under the Agreement, RPI reviewed and recommended oil and gas investments to the PIC, prior to December 1, 1992. RPI currently performs such functions for GMIMCo which, as the PIC's delegate within GMC's in-house investment staff, retains final approval authority for any oil and gas investments proposed by RPI. RPI retains qualified professional engineers to review the investments, prepares financial projections on the expected rate of return, and reviews the reputation and financial strength of the parties involved in the investment. The applicant states that either RPI or another qualified, independent appraiser chosen by RPI, appraises the fair market value of the underlying Properties as well as the NPI, Royalty, or Production Payment involved prior to RPI's recommendation of the investment to GMIMCo.[4] In addition, if the proposed investment is approved by the GMIMCo, RPI negotiates the structure, terms and conditions of the proposed investment, and manages the investment on behalf of the Plans.

The applicant represents that RPI does not satisfy the definition of a QPAM under PTE 84–14 because either the PIC or GMIMCo has retained final approval authority for all oil and gas investments recommended by RPI. Further, the assets of the Plans managed by RPI represent more than 20% of RPI's total assets under management (see Part I(e) of PTE 84–14). Therefore, the relief provided in PTE 84–14 is unavailable for transactions engaged in by RPI on behalf of the Plans. The applicant states that GMIMCo may appoint other "qualified oil and gas investment managers" in the future which, like RPI, would not meet the requirements of PTE 84–14 but which would be engaged under agreements with terms and conditions similar to the Agreement (see Item #12 below).

5. The Companies, including any affiliates thereof, are either publicly or privately owned oil and gas exploration, development and operating companies or partnerships which are independent of and unrelated to GMC and its affiliates. As the WI owner of the Properties in which the Plans acquire a NPI, Royalty, or Production Payment, the Companies are obligated to pay all of the costs, as well as operate, supervise and maintain the production of oil and gas from the Properties. The Companies calculate the amount of net income for the NPI or gross income for the Royalty or Production Payment to be received by the Plans, subject to review by RPI. In managing the investment for the Plans, RPI monitors the oil and gas production from the Properties as well as the marketing of all oil and gas products by the Companies. RPI reviews each Company's calculation of the net income for the NPI or gross income for the Royalty or Production Payment. With respect to the Plans' NPI investment, RPI has certain oversight responsibilities regarding the operation of the Properties by the Companies, such as decisions which are made by a Company to increase oil and gas production from a particular Property. RPI monitors a Company's operating decisions through its normal ongoing due diligence review of the Company's activities on behalf of the Plans. RPI can negotiate changes in the Company's operating decisions, pursuant to terms and conditions agreed to by the parties, to resolve any disputes or other activities concerning the Properties.

6. The acquisition of the Properties by the Company usually occurs in the form of an acquisition of a long-term leasehold interest in certain oil and gas producing fields. The Properties are acquired by the Company from an unrelated party. Contemporaneously with the acquisition by the Company, the Plans normally acquire either a NPI, Royalty or Production Payment in the Properties from the Company. Such interests are acquired by paying a specified percentage (for example, 95%) of the total costs incurred by the Company in connection with its acquisition of the Properties.

The acquisition of a NPI is effected by a Conveyance of Net Profit Overriding Royalty Interest (the Conveyance), an agreement executed by the Plans and the Company, which enumerates the terms of the transaction. The Conveyance empowers the Company to manage the Properties, subject to the interests of the NPI owner, and imposes on the Company certain reporting and disclosure duties. These reporting and disclosure duties are intended to apprise the Plans, as NPI owner, of the Company's operating decisions. The Conveyance sets forth the Plans' entitlement to a specified percentage of the net income from the production of oil and gas derived from the Properties (for example, 90% of net income). The applicant states that it is customary in this type of oil and gas transaction for an investor, such as the Plans, to receive a NPI in the Properties reflecting a percentage less than the investor's actual share of the total costs incurred by the Company in acquiring the Properties. The Company receives the percentage of net income higher than the Company's share of the acquisition costs as compensation for operating and developing the Properties as the WI owner.[5]

The Company does not receive any separate fee or other compensation for services rendered to the Plans with respect to the operation of the Properties. In this regard, the Company establishes a net profits account (the NP Account) which is credited with the gross proceeds received from the sale of oil and gas associated with the Properties to unrelated parties during each month of operation, in accordance with the level of production determined by the Company as WI owner. The NP Account is debited by an amount equal to the sum of all permissible costs, expenses, and disbursements associated with the operation of the Properties under the terms of the Conveyance. The Plans' NPI share is wire transferred each month from the NP Account to the Plans' account at Bankers Trust, the Plans' trustee, and the Company, as WI owner, contemporaneously receives the remaining amount. The applicant states that at no time is the Company, as WI owner, allowed to unilaterally spend monies held in the NP Account, other than payment of the above costs and expenses, prior to such distribution.

The Company furnishes RPI with a detailed statement each month on the status of the NP Account. Such monthly reports identify all costs the Company has incurred in managing and operating the Properties which have resulted in reductions, debits or credits to the NP Account as well as the quantities of oil and gas produced, the volume and prices at which such quantities were sold and the taxes paid. The Company also provides the Plans with an annual report containing detailed information on the Company's activities with respect to the Properties during the preceding year, as well as an annual financial statement regarding the status of the NP Account, which is audited by an independent accounting firm.

In addition, the Conveyance requires the Company to defend the Plans' title to the NPI from any claims against the Properties by creditors. The Conveyance provides the Plans with a recourse mechanism to challenge calculation of the NPI or the "wellhead value" of the oil and gas produced from the Properties and receive adjustments if such calculations prove to be erroneous.[6] The Conveyance also requires that the Company operate the Properties as a "reasonably prudent operator" in accordance with industry standards. The applicant states that the Company's failure to fulfill this "prudent operator standard" would mean a cause of action by the Plans to recover monetary damages for losses sustained by the Plans through the Company's breach of the standard. Any disputes arising under the Conveyance regarding the determination and proper payments of net profits by the Company may be submitted to an independent arbitrator. Other matters not related to the determination or payment of net profits, that are viewed as a breach of the Conveyance, may be remedied by the Plans at law or in equity.

The Conveyance allows the Plans a right to assign, exchange, sell, transfer or otherwise convey the NPI in the Properties to a third party. Therefore, if the Company does not perform its activities as WI owner in a prudent manner or if the oil and gas wells located on the Properties are no longer profitable, RPI may recommend and GMIMCo may approve the sale or assignment of the NPI. The applicant states that the Plans' NPI will be marketable to third parties and that all decisions concerning whether to sell the NPI will be made by GMIMCo. The Conveyance states such a sale or assignment by the Plans would be subject to the prior written consent of the Company, which consent may not be unreasonably withheld. In this regard, the Plans must provide the Company with notice of the proposed sale or assignment within 30 days of the transaction.

The Conveyance also states that the Company must notify the Plans within 30 days of the Company's intent to release, assign, surrender or abandon any interest in the Properties. In such instances, the Plans will convey the NPI to the Company contemporaneously with the Company's negotiated sale or auction of the WI to a third party buyer if GMIMCo determines that the transaction would be in the Plans' best interest. The Plans will receive from the sale proceeds an amount reflecting the value of the NPI, as determined by arm's-length negotiations directly involving the Plans' fiduciaries, the Company, and the third party buyer. However, the Plans may choose not to sell the NPI back to the Company and, in such instances, will continue to hold the NPI with a new WI owner.

7. With respect to the acquisition by the Plans of a Royalty, the Company does not transfer the Royalty pursuant to a Conveyance. Instead, the parties agree through a Sale and Assignment of the Royalty to pay the Plans a specified percentage of gross income from the oil and gas production from the Properties (for example, 85% of gross income). As with the NPI, it is customary for the Plans to receive a Royalty in the Properties reflecting a percentage less than the Plans' actual share of the total costs incurred by the Company in acquiring the Properties. The Company receives a percentage of gross income higher than the Company's share of the acquisition cost as compensation for operating and developing the Properties as the WI owner. Payment of the Royalty continues during the term of a producing oil and gas lease for the Properties or for a stated period. The Royalty owner, like the NPI owner, is not liable for losses or for the cost of exploration, development and operations associated with the Properties. The applicant states that a

[2] A NPI is a non-operating interest entitling the owner to a share of the gross production from an oil and gas property measured by the net profits derived from such property. A Royalty is a similar interest which entitles the owner to a percentage of gross profits derived from the property.

[3] A working interest or WI is a leasehold, operating, or cost-bearing interest in an oil and gas property under which the owner bears all costs and receives all revenues, net of taxes and those revenues payable to nonoperating interests.

[4] The applicant states that all services performed by RPI for the Plans and fees paid by the Plans for such services satisfy the conditions of section 408(b)(2) of the Act and the regulations thereunder

[5] The "wellhead value" is the price paid to the Company for the oil and gas sold from the Properties.

VOL 58 ISS 248 DE 29 1993 UMI

Royalty is similar to a NPI, but with far less involvement by the WI owner of the Properties in the calculation or payment of the Royalty proceeds. The calculation of the Royalty payments by the Company is a fraction of the gross proceeds from the sale of oil and gas associated with the Properties, in accordance with the level of production determined by the Company as WI owner. As with a NPI, the Company does not receive any separate fee or other compensation from the Plans for the operation of the Properties.

The Royalty may be sold or assigned by the Plans to a third party, subject to the Company's prior consent, upon 30 days notice to the Company. The Company will also notify the Plans of the Company's intent to release, assign, surrender or abandon any interest in the Properties. In such instances, the Plans may sell the Royalty back to the Company contemporaneously with the Company's negotiated sale of the WI to a third party buyer. As with the NPI, the Plans will receive from the sale proceeds an amount reflecting the value of the Royalty, as determined by arm's-length negotiations directly involving the Plans' fiduciaries, the Company, and the third party buyer. The Plans may also choose not to sell the Royalty back to the Company and, in such instances, will continue to hold the Royalty with a new WI owner.

With respect to the acquisition by the Plans of a Production Payment, the applicant states that such an interest is transferred through a sale and assignment that is very similar to a Royalty. A Production Payment is a non-operating interest in oil and gas produced from the Properties, providing the owner with a fractional share of the gross proceeds from the oil and gas produced, free of the costs of production. However, unlike a Royalty, a Production Payment will terminate at a pre-determined point in time or when a pre-determined specified dollar amount or volume of oil and gas production has been realized from the Properties by the Production Payment owner (i.e. the Plans). The Production Payment owner is also not liable for losses or for the costs of exploration, development and operations associated with the Properties. The applicant represents that RPI will ensure that all other conditions and safeguards which are present with a Royalty acquired from a Company will be present in any Production Payment.

8. All acquisitions of the Properties relating to either the Plans' acquisition of a NPI, Royalty, or Production Payment are negotiated at arm's-length between the Company, the Plans and the third party-seller of the Properties. The Plans' experts and the Company's experts, acting separately, gather information on the Properties to determine the appropriate offering price for the Properties. The Company cannot acquire any Properties for a simultaneous Conveyance of a NPI or assignment of a Royalty or Production Payment to the Plans without the approval of GMIMCo. The terms of any Conveyance of a NPI or assignment of a Royalty or Production Payment are negotiated by RPI pursuant to separate arm's-length negotiations with the Company. The Company has no control, discretion or influence with regard to the decision of the Plans' fiduciaries to acquire any interest in the Properties or to engage in any subsequent transactions with the Company (see Item #9 below).

9. The applicant represents that with respect to the acquisition by the Plans of a NPI in any Properties, the total activities that are conducted by the Company pursuant to the terms of the Conveyance create a sufficient level of services on the part of the Company in favor of the Plans' NPI in the Properties as to make the Company a party in interest with respect to the Plans as a service provider for the Plans.[6] Therefore, any subsequent acquisition of a NPI by the Plans from the Company, or the acquisition by the Plans of a Royalty or Production Payment from the Company, would be a prohibited transaction under the Act. In addition, a sale of either a NPI, Royalty or Production Payment by the Plans back to the Company would be a prohibited transaction under the Act. Moreover, RPI may recommend that the Plans acquire an additional NPI, Royalty or Production Payment from the Company by first making a loan to the Company where the Plans will have a right to convert the loan into such an interest in a particular Property at a later date. Under such circumstances, the loan and the future conveyance of the NPI, Royalty or Production Payment to the Plans by the Company would be prohibited transactions under the Act. The applicant states that RPI may also recommend to the GMIMCo an acquisition of a Company Security, on a private placement basis, from the Company or a sale of the Company Security back to the Company. Such a Company Security would be either stock issued by the Company or an affiliate, as defined above, or a debt security issued by the Company or an affiliate which is convertible into such stock at the option of the owner at a later date. The acquisition or sale of the Company Security, where the Company is a party in interest with respect to the Plans, would be a prohibited transaction under the Act. Finally, RPI may recommend to GMIMCo an acquisition or sale of a Company Partnership Interest or a Company Venture Interest. These transactions would involve entities where the Company could be either a general partner or a joint venturer as well as an operating owner for certain Properties. In such instances, the Plans would acquire a nonoperating oil and gas investment interest in the entity directly from the Company or would sell such an interest back to the Company. All such transactions by the Plans with the Company, where the Company is a party in interest with respect to the Plans, would be prohibited transactions under the Act.

10. RPI, as the Plans' qualified oil and gas investment manager, will negotiate the terms of each transaction with the Companies, will review each transaction for the Plans based on a thorough analysis of the Companies and the Properties involved, and will recommend approval of the transaction to GMIMCo. RPI's analysis will include a review of all relevant documents, including engineering reports and financial statements relating to the Properties as well as appraisals of the fair market value of the Properties. GMIMCo will approve each transaction based on RPI's recommendations and will make its own independent analysis of the terms of the transaction and the suitability of the transaction as an investment for the Plans' portfolio.

The applicant states that the terms of each transaction described above will be at least as favorable to the Plans as the terms generally available in an arm's-length transaction between unrelated parties. When the Plans decide to acquire a NPI, Royalty or Production Payment from a Company, RPI will negotiate the terms of the acquisition in arm's-length negotiations with the Company. Such transactions will generally involve Properties which were acquired by the Company on the open market with a simultaneous assignment of the interest by the Company to the Plans. RPI will ensure that the acquisition documents include terms and conditions which are favorable to the Plans. If at any time the Plans decide to sell the NPI, Royalty or Production Payment back to the Company, RPI will negotiate for a price which reflects the fair market value of the interest, as determined by the Plan's fiduciaries based on appraisals of the Properties made by qualified, independent appraisers. In this regard, GMIMCo retains the right to choose either RPI or another qualified, independent appraiser to appraise the Properties to determine the fair market value of the Plans' interest prior to the sale. However, if the Plans cannot obtain from the Company a price for the interest which reflects the fair market value of such interest, the Plans' fiduciaries will not sell the interest back to the Company and will sell the interest on the open market.

If the Plans choose to sell a NPI, Royalty or Production Payment back to the Company in connection with the Company's sale of the WI to a third party buyer, RPI will negotiate for a price which reflects the fair market value of the interest, as agreed to by the Plans' fiduciaries in arm's-length negotiations directly involving the Plans, the Company, and the third party buyer.

If the Plans determine that it would be appropriate to engage in a loan transaction with a Company, RPI will negotiate for terms which reflect interest rates that are commensuate with the prevailing market rates quoted by established commercial lenders for similar loans. RPI will ensure that the loan is secured by interests in Properties which will have a significant value to the Plans in case of foreclosure or in case the Plans exercise a conversion option to acquire a NPI, Royalty or Production Payment in such Properties. The applicant represents that the designated oil and gas investment interests in the Properties used as collateral for a loan will have a fair market value of at least 150% of the loan amount throughout the duration of the loan, as determined in accordance with appraisals of such Properties by RPI or another an independent, qualified appraiser selected by RPI.

If the Plans decide to acquire or sell any Company Securities, Company Partnership Interests, or Company Venture Interests from or to a Company, RPI will negotiate the terms of such transactions with the Company at arms-length. RPI will ensure that the price paid or received by the Plans for such securities or interests reflects their fair market value, based on appraisals developed by RPI or other qualified, independent appraisers selected by RPI.

RPI will monitor all transactions on behalf of the Plans and will take appropriate actions to safeguard the interests of the Plans. RPI's actions will include: Negotiating a correction with the Company of any activities by the Company which adversely affect the Plans' NPI; recommending to GMIMCo a sale of any NPI, Royalty, or Production Payment involving the Properties; monitoring the fair market value of the Properties or interests therein used to secure a loan made by the Plans; and exercising conversion rights with respect to any debt interests or securities held by the Plans which allow the Plans to obtain either a NPI, Royalty or Production Payment in certain Properties or stock in a Company.

The Plans will not pay any commissions or other expenses with respect to the transactions with the Companies. The applicant states that no investment management fee, advisory fee, underwriting fee, sales commission or similar compensation will be paid to the Companies by the Plans in connection with any of the transactions. In addition, the applicant represents that the Company's only compensation for operating and developing the Properties as the WI owner, under any Conveyance of a NPI or assignment of a Royalty or Production Payment, will be its share of the income from the Properties under the terms of the transaction (as discussed in Item 6 above).

11. RPI represents that direct investments in interests in the Properties offer the Plans unusual potential for long-term appreciation and profit. RPI states that the oil and gas investments described in the proposed exemption are in the best interests of the Plans and their participants and beneficiaries. RPI states further that the annualized cash return to the Plans, through June 30, 1993, for those oil and gas investments supervised and managed by RPI, on behalf of the Plans, was averaging approximately 17%.

12. The applicant states that GMIMCo may decide to appoint other oil and gas investment managers for the Plans in the future. Therefore, the applicant requests that the proposed exemption apply to trustees or investment managers other than RPI that are "qualified oil and gas investment managers" as defined herein. Such fiduciaries will be entities that would otherwise satisfy the definition of a QPAM under Section V(a) of PTE 84–14 except for the fact that GMIMCo retains final approval authority for all oil and gas investments recommended by such fiduciaries (see Section I(c) of PTE 84–14). In addition, the assets of the Plans managed by such a fiduciary may represent more than 20% of the fiduciary's total assets under management (see Section I(e) of PTE 84–14). However, the applicant represents that otherwise such fiduciaries:

(i) Will be independent of and unrelated to the Companies and will have significant experience in evaluating and managing oil and gas investments for institutional investors, such as the Plans;

(ii) Will provide oil and gas investment advisory services to the Plans pursuant to a management agreement or trust agreement containing similar due diligence requirements as exist with respect to RPI;

(iii) Will perform the oil and gas investment advisory services pursuant to investment guidelines reviewed and approved by GMIMCo that are substantially similar to RPI's investment guidelines;

(iv) Will actively manage the investment on behalf of the Plans after the investment is made and will monitor the activities of the Company and provide reports to the GMIMCo similar to those prepared and delivered by RPI;

(v) Will be subject to significant review and oversight by GMIMCo;

(vi) Will review and recommend to GMIMCo any transaction between the Plans and the Company in a manner substantially similar to RPI's activities on behalf of the Plans;

(vii) Will negotiate terms and conditions of any transaction between the Plans and the Company which are no less favorable to the Plans than the terms generally available in an arm's-length transaction between unrelated parties; and

(viii) Will consummate any transaction between the Plans and the Company only if the safeguards set forth in the proposed exemption are met.

[6] The applicant states that a NPI is a distinct property interest which does not reflect an equity interest in any underlying assets (i.e. other oil and gas investment interests in the Properties or the Properties themselves). Thus, the applicant maintains, there is no "look-through" to the underlying oil and gas Properties and such Properties are not "plan assets" by virtue of the Plans' ownership of a NPI, under the Department's "plan asset" regulation (see 29 CFR 2510.3–101). The applicant states that the Company's party in interest status under section 3(14) of the Act is obtained solely through the services it provides to the Plans as a NPI owner, pursuant to the Conveyance, but not as a result of any services provided to the Plans as a Royalty or Production Payment owner.

The Department expresses no opinion as to whether: (1) The Plans' ownership of either a NPI, Royalty or Production Payment would establish a party in interest relationship with the Company; (2) the Properties are considered "plan assets" by virtue of the Plans' ownership of any NPI, Royalty or other interest; or (3) the Companies are considered fiduciaries with respect to the Plans under section 3(21) of the Act by virtue of their management and operation of the Properties as WI owners. Accordingly, the proposed exemption extends only to those transactions discussed herein and does not extend to any prohibited transactions under section 406(a) or 406(b) which may result from operating decisions made by the Companies with respect to the Properties or from any services provided by the Companies with respect to the Plans' interests in the Properties.

VOL 58 ISS 248 DE 29 1993 UMI

VOL 58 ISS 248 DE 29 1993 UMI

13. The applicant states that the amount of each Plan's total assets involved in all transactions with the Companies has represented, and will continue to represent, no more than three percent (3%) of such Plan's total assets as of the date of approval of each such transaction by the PIC or GMIMCo.

14. On May 8, 1990, the Plans acquired through a Conveyance an 88% NPI in certain Properties from Callon Offshore Production, Inc. (Callon), an oil and gas exploration and development company whose principal offices are located in Natchez, Mississippi. The Properties are located in Louisiana. The applicant states that Callon had contemporaneously acquired the Properties from Chevron U.S.A., Inc., an unrelated party. The Plans paid approximately 98% of the $28 million purchase price of the Properties to Callon for the Plans' NPI. The Plans had acquired a NPI from Callon in certain other Properties prior to the time of the Plans' acquisition of an NPI from Callon on May 8, 1990. Therefore, the applicant states that Callon was a party in interest with respect to the Plans on such date. The applicant states further that the Plans have purchased additional NPIs in other Properties, as well as Royalties in certain Properties, from Callon and other Companies since May 8, 1990, and that all such transactions have met the safeguards and protections incorporated in the exemption application. Accordingly, the applicant requests that the exemption be effective as of May 8, 1990, and apply to all other transactions with Companies as described herein that are parties in interest with respect to the Plans at the time of such transactions.

15. In summary, the applicant represents that the transactions meet the statutory criteria contained in section 408(a) of the Act and section 4975(c)(2) of the Code because:

(a) Each transaction engaged in by the Plans and the Companies with respect to the oil and gas investments described herein has been and will continue to be reviewed and recommended by a "qualified oil and gas investment manager" acting on behalf of the Plans which is independent of the Companies, and has been and will be approved by either the PIC or GMIMCo to ensure that the transaction meets the investment objectives of the Plans and that each transaction is in the best interests of the Plans;

(b) The Companies have not had, and will not have, any authority or control over the decisions of the Plans' fiduciaries to acquire any NPI or other interest in the Properties or to engage in any subsequent oil and gas transactions described herein with the Companies;

(c) The terms of each transaction have been and will continue to be no less favorable to the Plans than the terms generally available in an arm's-length transaction between unrelated parties;

(d) No investment management fee, advisory fee, underwriting fee, brokerage or sales commission, or similar compensation has been or will be paid by the Plans to the Companies with regard to the transactions;

(e) A "qualified oil and gas investment manager" will continue to monitor all transactions on behalf of the Plans and will take any appropriate actions necessary to safeguard the interests of the Plans; and

(f) The amount of each Plan's total assets involved in oil and gas transactions with the Companies will not represent more than three percent (3%) of such Plan's total assets.

FOR FURTHER INFORMATION CONTACT: Mr. E. F. Williams of the Department at (202) 219–8194. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest of disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(b) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan;

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete and accurately describe all material terms of the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new exemption may be made to the Department.

Signed at Washington, DC, this 23rd day of December, 1993.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

[FR Doc. 93–31793 Filed 12–28–93; 8:45 am]

BILLING CODE 4510–29–P

[Prohibited Transaction Exemption 93–83; Exemption Application No. D–9213, et al.]

Grant of Individual Exemptions; Texas Instruments Employees Pension Plan, et al.

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Grant of individual exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, DC. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of proposed exemption were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in 29 CFR part 2570, subpart B (55 FR 32836, 32847, August 10, 1990) and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

Texas Instruments Employees Pension Plan (the Plan) Located in Dallas, Texas

[Prohibited Transaction Exemption No. 93–83; Application No. D–9213]

Exemption

The restrictions of section 406(a)(1)(A), 406(a)(1)(D), 406(a)(2), 406(b)(1), 406(b)(2), and 407(a)(1) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the leasing by the Plan to Texas Instruments, Inc. (the Employer) of either or both of two parcels of improved real property located in Dallas, Texas (the Dallas Parcels) and to the continued holding by the Plan of the Dallas Parcels, effective upon the sale, lease, or other disposition to third parties of another parcel owned by the Plan, located in a suburb of Detroit, Michigan (the Michigan Parcel), or upon the expiration of the existing lease between the Plan and the Employer on the Michigan Parcel. This exemption is conditioned upon the adherence to the material facts and representations described herein and upon the satisfaction of the following requirements:

(a) An independent qualified fiduciary (the I/F), acting on behalf of the Plan, determines that the transactions are feasible, in the interest of, and protective of the Plan;

(b) The I/F manages the Dallas Parcels on an on-going basis and is empowered to take whatever action it deems appropriate to serve the best interest of the Plan and its participants and beneficiaries, including but not limited to the retention, leasing, or sale of the Dallas Parcels;

(c) The fair market value of the Dallas Parcel(s) will at no time exceed twenty-five percent (25%) of the value of the total assets of the Plan;

(d) The I/F negotiates, reviews, and approves the terms of the leases with the Employer on the Dallas Parcels;

(e) The terms and conditions of each of the leases with the Employer on the Dallas Parcels will be no less favorable to the Plan than those obtainable by the Plan under similar circumstances when negotiated at arm's length with unrelated third parties;

(f) An independent qualified appraiser determines the fair market value of the rental on each of the Dallas Parcels;

(g) The I/F monitors compliance with the terms of the leases on the Dallas Parcels to the Employer throughout the duration of such leases and is responsible for legally enforcing the payment of the rent and the proper performance of all other obligations of the Employer under the terms of the leases on the Dallas Parcels;

(h) The Plan incurs no fee, costs, commissions, or other charges or expenses as a result of its participation in the transactions, other than the fee payable to the I/F; and

(i) The I/F ensures that the terms and conditions described herein are at all time satisfied.[1]

Written Comments

In the Notice of Proposed Exemption (the Notice), the Department invited all interested persons to submit written comments and requests for a hearing on the exemption. All comments and requests for hearing were due by November 29, 1993.

The Department received three letters from interested persons commenting on the exemption; none of these comment letters contained a request for a hearing.

With respect to the written comments submitted by interested persons, the Department forwarded copies of the comment letters to the applicant and requested that the applicant address the concerns raised by the commentators in writing. In this regard, one of the commentators expressed the belief that the exemption should not be granted, as the transaction would jeopardize the soundness of the Plan. The other commentator expressed concern that as a result of the exemption, she would no longer be entitled to receive benefits.

With respect to the first comment that the transactions might jeopardize the soundness of the Plan, the applicant stated that there are sufficient safeguards in the transactions to protect the Plan and its participants and beneficiaries. The applicant noted that the exemption protects the Plan from having to dispose of the Dallas Parcels, to lease to third parties, or to acquire real property for reasons other than investment considerations. With respect to the second comment, the applicant asserts that the commentator's arguments addressing her entitlement to early retirement benefits are not relevant to the transactions which are the subject of the exemption.

The applicant also submitted a comment in a letter, dated November 29, 1993, seeking clarifications of the language, as set forth in condition (h) on page 53579 and page 53583 of the Notice, which states that the Plan may incur "no fee, costs, commissions, or other charges or expenses as a result of its participation in the transactions, other than the fee payable to the I/F." The applicant interprets this condition as not precluding the payment by the Plan of the broker's commission on the sale by the Plan of the real property in Michigan to unrelated third parties. In the view of the applicant, as the transactions involve the leasing by the Plan to the Employer of either or both of two parcels of improved real property located in Dallas, Texas and the continued holding by the Plan of such parcels, the payment by the Plan of brokerage commission does not arise as a result of its participation in the transactions; but rather is a cost incurred in connection with the sale of the real estate in Michigan to unrelated third parties. The Department concurs in this interpretation.

Accordingly, after giving full consideration to the record, including the comments by commentators and the responses of the applicant, the Department has determined to grant the exemption, as described herein. In this regard, the comments submitted to the Department have been included as part of the public record of the exemption application. The complete application file, including all supplemental

[1] For purposes of this exemption, references to specific provisions of Title I of the Act, unless otherwise specified, refer also to the corresponding provisions of the Code.

submissions received by the Department, are made available for public inspection in the Public Documents Room of the Pension Welfare Benefits Administration, room N–5507, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the Notice published on October 15, 1993, 58 FR 53578.

FOR FURTHER INFORMATION CONTACT: Angelena C. Le Blanc of the Department, telephone (202) 219–8883 (This is not a toll-free number.)

Packaging Systems, Inc. 401(k) Profit Sharing Plan (the Plan) Located in Des Plaines, Illinois

[Prohibited Transaction Exemption No. 93–84; Application No. D–9355]

Exemption

The restrictions of sections 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply for a period of 5 years from the date of publication of this exemption to (1) the purchase by the Plan of certain leases of equipment (the Leases) from Rapak, Inc., an affiliate of Packaging Systems, Inc. (the Employer), and (2) the agreement by the Employer to indemnify the Plan against any loss relating to the Leases and also to repurchase any leases that are in default in accordance with paragraph (E) below, provided that the following conditions are met:

A. Any sale of Leases to the Plan will be on terms at least as favorable to the Plan as an arm's length transaction with an unrelated third party would be.

B. The acquisition of a lease from Rapak, Inc. shall not cause the Plan to hold immediately following the acquisition (i) more than 20% of the current value (as that term is defined in section 3(26) of the Act) of Plan assets in Leases sold by Rapak, Inc., or (ii) more than 5% of Plan assets in Leases of any one lessee.

C. Prior to the purchase of each Lease, an independent, qualified fiduciary must determine that the purchase is appropriate and suitable for the Plan and that any Lease purchase is a fair market value transaction.

D. The independent fiduciary, on behalf of the Plan, will monitor the terms of the Leases and the exemption and take whatever action is necessary to enforce the rights of the Plan.

E. Upon default by the lessee on any payment due under a Lease, the Employer has agreed to repurchase the Lease from the Plan at the face value as of the date of the default, without discount, and to indemnify the Plan for any loss suffered. The occurrence of any of the following events shall be considered events of default for purposes of this section: The lessee's failure to pay any amounts due hereunder within five days after receipt of written notice from the Plan's independent fiduciary, or the lessee's failure to pay any amounts due hereunder within 30 days after payment becomes past due, if earlier; the lessee's failure to perform any other obligation under this agreement within ten days of receipt of written notice from the Plan's independent fiduciary; abandonment of the equipment by the lessee; the lessee's cessation of business; the commencement of any proceeding in bankruptcy, receivership or insolvency or assignment for the benefit of creditors by the lessee; false representation by the lessee as to its credit or financial standing; attachment or execution levied on lessee's property; or use of the equipment by third parties without lessor's prior written consent.

F. The Plan receives adequate security for the property underlying the Lease. For purposes of this exemption, the term adequate security means that the property leased is secured by a perfected security interest which will name the Plan as the secured party.

G. Insurance against loss or damage to the leased property from fire or other hazards will be procured and maintained by the lessee and the proceeds from such insurance will be assigned to the Plan.

H. The Plan shall maintain for the duration of any Lease which is sold to the Plan pursuant to this exemption, records necessary to determine whether the conditions of this exemption have been met. The records referred to above must be unconditionally available at their customary location for examination, for purposes reasonably related to protecting rights under the Plan, during normal business hours by the Internal Revenue Service, the Department of Labor, Plan participants, any employer organization any of whose members are covered by the Plan, or any duly authorized employee or representative of the above described persons.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the notice of proposed exemption published on October 29, 1993 at 58 FR 58198.

Temporary Nature of Exemption

The exemption is temporary and will expire five years from the date this Final Grant is published in the **Federal Register** with respect to the Plan's purchase of a Lease. The Plan may hold the Leases pursuant to the terms of the exemption subsequent to the end of the five year period.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemptions does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application are true and complete and accurately describe all material terms of the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new exemption may be made to the Department.

Signed at Washington, DC, this 23rd day of December, 1993.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

[FR Doc. 93–31792 Filed 12–28–93; 8:45 am]

BILLING CODE 4510–29–P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.C. 3303a(a).

DATES: Request for copies must be received in writing on or before February 14, 1994. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESSES: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, Washington, DC 20408. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of the agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

Schedules Pending

1. Department of Justice, Federal Bureau of Investigation (N1–65–93–3). Headquarters Electronic Surveillance Manual entries for disposable case files which have been entered into an automated index.

2. Department of Transportation, Federal Highway Administration (N1–406–94–1). Copies of Motor Carrier Safety Assistance program grant files.

3. ACTION (N1–362–94–5). Accessibility certifications and general administrative records.

4. Commission on National and Community Service (N1–220–94–3). Completed Grants and Deputy Director Correspondence.

5. National Archives and Records Administration (N2–032–93–1). Purchase orders, semi-monthly construction reports, and rental housing) statements, 1917–1920 from the United States Shipping Board.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 93–096]

NASA Advisory Council (NAC), Aeronautics Advisory Committee (AAC); Meeting

AGENCY: National Aeronautics and Space Administration.
ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Aeronautics Advisory Committee, Aviation Safety Reporting System Subcommittee.

DATES: January 26, 1994, 9 a.m. to 5:30 p.m.

ADDRESSES: National Business Aircraft Association, suite 200, 1200 18th Street, NW., Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Dr. William Reynard, Office of Aviation Safety Reporting System, National Aeronautics and Space Administration, Ames Research Center, Moffett Field, CA 94035, 415/969–3969.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:
—Operations Overview
—Research Report
—Database Development
—Make/Model Identification
—International Activities

Dated: December 22, 1993.
Timothy M. Sullivan,
Advisory Committee Management Officer.
[FR Doc. 93–31781 Filed 12–28–93; 8:45 am]
BILLING CODE 7510–01–M

[Notice 93–095]

NASA Advisory Council, Space Science Advisory Committee (SScAC); Meeting

AGENCY: National Aeronautics and Space Administration.
ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, the National Aeronautics and Space Administration announces a meeting of the NASA Advisory Council, Space Science Advisory Committee.

DATES: January 18, 1994, 8:30 a.m. to 5:15 p.m.; January 19, 1994, 8:30 a.m. to 6 p.m.; and January 20, 1994, 8:30 a.m. to 3 p.m.

ADDRESSES: The National Aeronautics and Space Administration, 300 E Street, SW., 5th Floor Conference Room, MIC–5, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Dr. Lawrence J. Caroff, Code SZF, National Aeronautics and Space Administration, Washington, DC 20546, 202/453–0351.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. The agenda for the meeting is as follows:
—Overview of Office of Space Science Status
—Strategic Planning
—Divisional Reports
—Subcommittee Reports
—Hubble Servicing Highlights
—Mission Operations and Data Analysis Issues
—Integrated Technology Plan

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: December 22, 1993.
Timothy M. Sullivan,
Advisory Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

Office of Polar Programs; Permit Issued Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.
ACTION: Notice of permits issued under the Antarctic Conservation Act of 1978, Public Law 95–541.

SUMMARY: The National Science Foundation (NSF) is require to publish notice of permits issued under the Antarctic Conservation Act of 1978. This is the required notice.

FOR FURTHER INFORMATION CONTACT: Thomas F. Forhan, Permit Office, Office of Polar Programs, National Science Foundation, Washington, D.C. 20550.

SUPPLEMENTARY INFORMATION: On November 17, 1993 a notice in the **Federal Register** of permit applications received. Permit to enter import into USA-Port of Entry Honolulu and enter site of special scientific interest, was issued to David R. Marchant on December 20, 1993.

Thomas F. Forhan,
Permit Officer, Office of Polar Programs.

Special Emphasis Panel in Research, Evaluation, and Dissemination; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Research, Evaluation, and Dissemination.
Date and Time: January 26, 1994; 8:30 a.m. to 5:30 p.m. January 27, 1994; 8:30 a.m. to 4 p.m.
Place: Room 310, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.
Type of Meeting: Closed.
Contact Person: Ms. Barbara Lovitts, Assistant Program Director, 4201 Wilson Boulevard, room 855, Arlington, VA 22230. Telephone (703) 306–1652.
Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.
Agenda: To review and evaluate proposals and provide advice and recommendations as part of the selection process for proposals submitted to the Research in Teaching and Learning Program.
Reason for Closing: Because the proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with proposals, the meetings are closed to the public. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Dated: December 22, 1993.
M. Rebecca Winkler,
Committee Management Officer.

BILLING CODE 7555–01–M

Special Emphasis Panel in Science Resources Studies: Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Science Resources Studies.
Date and Time: January 20, 1994, from 6 p.m. to 8 p.m.; and January 21, 1994, from 8:30 a.m. to 5:00 p.m.
Place: National Science Foundation, 4201 Wilson Boulevard, room 390, Washington, DC.
Type of Meeting: Open.

Contact Person: Jennifer Sue Bond, Program Director, Science and Engineering Indicators Program, Division of Science Resources Studies, room 965, National Science Foundation, Arlington, Va. 22230, (703) 306–1777.
Purpose of Meeting: Provide advice and suggestions regarding technical reports. Review the methodology report and a detailed codebook for the 1993 Joint NSF/NIH survey of Public Understanding of Science.
Agenda: Review draft methodology report; review codebook and draft analytical report for questionnaire 2 concerning public attitudes toward and understanding of biomedicine and behavioral sciences.
Minutes. May be obtained from contact person listed above.

Dated: December 22, 1993.
M. Rebecca Winkler,
Committee Management Officer.

BILLING CODE 7555

NUCLEAR REGULATORY COMMISSION

Gulf States Utilities Co.; Environmental Assessment and Finding of No Significant Impact

[Docket No. 50–458]

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption to Facility Operating License No. NPF–47, issued to Gulf States Utilities Company (GSU), for operation of the River Bend Station, Unit 1, located in West Feliciana Parish, Louisiana.

Environmental Assessment

Identification of Proposed Action

The proposed exemption would extend the schedule for performing certain Type C local leak rate tests required by 10 CFR part 50, appendix J, section III.D.3, to be completed within a two-year time interval.

The Need for the Proposed Action

The exemption is requested on a one-time only basis to support the current refueling outage schedule. Requiring a plant shutdown solely to perform surveillance tests would cause an unnecessary thermal transient on the plant and could result in unnecessary exposure to personnel.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed exemption. The proposed exemption would allow GSU to conduct the local leak rate tests during the next refueling outage, an extension of 29 days. There will be no changes to the facility or the environment as a result of the exemption.

Alternative to the Proposed Action

It has been determined that there is no impact associated with the proposed exemption; any alternatives to the exemption will have either no environmental impact or will have a greater environmental impact.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for River Bend Station, Unit 1 dated January 1985.

Agencies and Persons Consulted

The NRC staff reviewed GSU's request and consulted with the Louisiana State official. The State official had no comments regarding the NRC's proposed action.

Finding of No Significant Impact

Based on the foregoing environmental assessment, the Commission has concluded that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed exemption.

For further details with respect to this action, see the exemption request dated November 18, 1993, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, Lower Level, 2120 L Street NW., Washington, DC 20555, and at the local public document room, located at the Government Documents Department, Louisiana State University, Baton Rouge, Louisiana 70803.

Dated at Rockville, Maryland, this 22nd day of December 1993.

For the Nuclear Regulatory Commission.
Suzanne C. Black,
Director, Project Directorate IV–2, Division of Reactor Projects III/IV/V, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

[Docket 70–3070]

Louisiana Energy Services, L.P.; Extension of Commeat Period for the Draft Environmental Impact Statement for the Claiborne Enrichment Center, Homer, LA

By Federal Register Notice published November 24, 1993 (58 FR 62148), the U.S. Nuclear Regulatory Commission (the Commission) announced the availability of the Draft Environmental Impact Statement (DEIS) (NUREG–1484) regarding the proposed construction and operation of the Claiborne Enrichment Center to be located near Homer, Louisiana, with comments on the DEIS from interested persons due to the Commission by January 10, 1994.

In order to ensure that sufficient time is allowed for public comment, the Commission hereby extends the comment period for the DEIS for an additional 15 days, with comments due for the Commission's consideration by January 25, 1994. Comments received after January 25, 1994, will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received on or before this date. Comments on the DEIS should be sent to the Chief, Enrichment Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, Mail Stop 4–E–4, U.S. Nuclear Regulatory Commission, Washington, DC 20555. All comments received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, DC, and the Local Public Document Room at the Claiborne Parish Library, 901 Edgewood Drive, Homer, Louisiana.

FOR FURTHER INFORMATION, CONTACT: Merri Horn, Enrichment Branch, Division of Fuel Cycle Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone (301) 504–2606.

Dated at Rockville, Maryland, this 22nd day of December 1993.

For the Nuclear Regulatory Commission.
John W. N. Hickey,
Chief, Enrichment Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590–01–P

[Docket No. 50–302]

Forida Power Corp., (Crystal River Nuclear Generating Plant, Unit 3); Exemption

I

Florida Power Corporation (FPC or the licensee) is the holder of Facility Operating License No. DPR–72, which authorizes operation of the Crystal River Unit 3 Nuclear Generating Plant (CR–3 or the facility) at steady-state reactor power level not in excess of 2544 megawatts thermal. The license provides, among other things, that it is subject to all rules, regulations and

Orders of the Nuclear Regulatory Commission (the Commission or NRC) now or hereafter in effect. The facility consists of one pressurized water reactor located at the licensee's site in Citrus County, Florida.

II

Section 50.54(q) of 10 CFR part 50 requires a licensee authorized to operate a nuclear power reactor to follow and maintain in effect emergency plans which meet the standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR part 50. Section IV.F.2 of Appendix E requires that each licensee annually exercise its emergency plan. Section IV.F.3 of Appendix E requires that each licensee shall exercise with offsite authorities such that the State and local emergency plans are exercised biennially.

The NRC may grant exemptions from the requirements of the regulations which, pursuant to 10 CFR 50.12(a) are (1) authorized by law, will not present an undue risk to the public health and safety, and are consistent with the common defense and security; and (2) present special circumstances. Special circumstances exist when application of the regulation in the particular circumstance would not serve the underlying purpose of the rule or is not necessary to achieve the underlying purpose of the rule [10 CFR 50.12(a)(2)(ii)]. The underlying purpose of 10 CFR part 50, Appendix E, Sections IV.F.2 and IV.F.3, is to demonstrate that the emergency plans are adequate and capable of being implemented, and that the state of emergency preparedness provides reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency. In addition, special circumstances exist when the exemption would provide only temporary relief from the applicable regulation and the licensee has made good faith efforts to comply with the regulation [10 CFR 50.12(a)(2)(v)].

III

By letter dated October 27, 1993, the licensee requested an exemption from the requirements of 10 CFR 50.47 and Appendix E to conduct an annual exercise of the CR–3 Radiological Emergency Plan in 1993. The licensee had planned to conduct a full-participation exercise involving the State of Florida and local response organizations on November 3, 1993. The licensee requested that an exemption be granted because the State and local government agencies requested a delay of the 1993 annual exercise from November 3, 1993 to January 20, 1994. The request to move the exercise date was originated by the Citrus County Sheriff's Department (Emergency Management Section) because they would be unable to participate on November 3rd as a result of a conflicting community issue which could have necessitated their involvement at that time. The licensee states that the issue involved the well-being of Citrus County residents. This proposed delay will prevent the licensee from meeting the annual requirements to exercise the CR–3 Radiological Emergency Plan as specified in Appendix E to 10 CFR part 50, and, therefore, FPC requested a schedular exemption.

The previous emergency preparedness exercise at Crystal River was successfully conducted on November 5, 1992, and included the participation of State and local agencies. The licensee had scheduled, planned, and coordinated the 1993 exercise with participating Federal, State, and local agencies for early November. The scope and objectives, and the final scenario documentation for the November 1993 exercise were submitted to the NRC on August 19, 1993 and September 17, 1993, respectively, which is within the timeframes established for their submittal in support of a November 1993 exercise. In addition, the licensee states that a training exercise with the State of Florida and local agencies was conducted on October 1, 1993, which activated all emergency facilities and included participation from all major responder groups.

The schedule for future exercises will not be affected by this exemption. FPC has stated it will conduct the previously scheduled 1994 exercise the week of October 24, 1994, as planned. In that the 1993 exercise was to be evaluated by the Federal Emergency Management Agency (FEMA), concurrence for the revised date of January 20, 1994 has been received from FEMA.

Therefore, the licensee demonstrated a good faith effort in attempting to comply with the regulation, and the exemption will provide only temporary relief from the regulation.

The most recent NRC Systematic Assessment of Licensee Performance (SALP) report for CR–3, issued on January 12, 1993, for the period April 28, 1991 through August 22, 1992, indicated that the licensee has demonstrated an effective response capability for dealing with emergency situations during the full State and local participation exercises. The licensee has consistently maintained a Category 1 rating in the functional area of emergency preparedness. Additionally, the June 18, 1993, inspection report (50–302/93–12) of the CR–3 Emergency Preparedness Program, conducted May 10–19, 1993, indicates the emergency response program is fully capable of being effectively implemented in the event of an emergency and that the emergency preparedness program activities were organized and adequately documented.

IV

Based upon a review of the licensee's request for an exemption from the requirement to conduct an exercise of the Crystal River Emergency Plan in 1993, the NRC staff finds that the underlying purpose of the regulation will not be adversely affected by the reschedule of the November 3, 1993 exercise to January 20, 1994. The effective response capability demonstrated by the licensee during the 1992 emergency preparedness exercise, the activities in preparation for the 1993 exercise, including the comprehensive training exercise conducted with offsite authorities on October 1, 1993, and the readiness of the licensee's emergency preparedness program as reflected in its SALP rating and the most recent inspection report, provide assurance that the resources and personnel necessary for proper emergency response are in place to respond to a nuclear emergency at the Crystal River site. Thus, an exercise in 1993 is not necessary to achieve the underlying purpose of the rule and the requested exemption from the requirement in 10 CFR part 50, Appendix E, Section IV.F, to defer the performance of an exercise of the CR–3 Radiological Emergency Plan until January 20, 1994, will not adversely affect the overall state of emergency preparedness at the Crystal River site.

For these reasons, the Commission has determined that, pursuant to 10 CFR 50.12, the exemption requested by the licensee's letter dated October 27, 1993, as discussed above, is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security and that special circumstances are present as set forth in 10 CFR 50.12(a)(2) (ii) and (v).

Pursuant to 10 CFR 51.32, the Commission has determined that granting this exemption will have no significant impact on the environment (58 FR 66385). This exemption is effective upon issuance.

Dated at Rockville, Maryland this 22nd day of December 1993.

For the Nuclear Regulatory Commission.

Jose A. Calvo,

Acting Director, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–33365; File No. SR–DTC–93–14]

Self-Regulatory Organizations; The Depository Trust Co.; Filing of Proposed Rule Change Relating to a Clarification of Rule 5

December 21, 1993.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on December 20, 1993, The Depository Trust Company ("DTC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by DTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

This rule filing will clarify that Rule 5 of DTC's Rules does not in any way require DTC to determine whether securities, when deposited with DTC, may be lawfully transferred by book-entry in light of Federal securities laws.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, DTC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The DTC has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to clarify the meaning of Rule 5 of DTC's Rules. On December 13, the Commission issued an order approving a proposed rule change by DTC relating to the eligibility of Rule 144A securities at DTC.[2] In the order, the Commission suggested that Rule 5, Section 1 of DTC's Rules requires that DTC must determine whether "in light of the Federal securities laws, particularly the provisions of Rules 144, 144A, and 145, the securities, when deposited with DTC, may be lawfully transferred by book-entry."[3] The purpose of this rule change is to clarify that, contrary to the implication of the aforementioned language in the Commission's order, Rule 5 of DTC's Rules does not in any way require DTC to determine whether securities, when deposited with DTC, may be lawfully transferred by book-entry in light of Federal securities laws.[4]

The proposed rule change is consistent with section 17A[5] of the Act and the rules and regulations thereunder applicable to DTC because the proposed rule change is designed to promote the prompt and accurate clearance and settlement of securities transactions.

B. Self-Regulatory Organization's Statement on Burden on Competition

DTC does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

DTC has neither sought nor received comments on the proposed rule change from participants.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which DTC consents, the Commission will:

(A) By order approve such proposed rule change; or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of DTC. All submissions should refer to File No. SR–DTC–93–14 and should be submitted by January 19, 1994.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.[6]

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 93–31775 Filed 12–28–93; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 34–33366; File No. SR–MCC–93–05]

Self-Regulatory Organization; Midwest Clearing Corp.; Filing and Immediate Effectiveness of Proposed Rule Change To Modify MCC's Fund/Serv Rules

December 31, 1993.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934,[1] notice is hereby given that on October 6, 1993, the Midwest Clearing Corporation ("MCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by MCC, a self-regulatory organization ("SRO"). The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

---

[1] 15 U.S.C. 78s(b)(1) (1988).

[2] Securities Exchange Act Release No. 33327 (December 13, 1993), FR _____ (File No. SR–DTC–90–06).

[3] *Id.* n. 22 and accompanying text.

[4] In the near future, DTC plans to adopt and file with the Commission as a proposed rule change revisions to Rule 5 that will, in part, further clarify the meaning of the rule.

[5] 15 U.S.C. 78q–1 (1988).

[6] 17 CFR 200.30–3(a)(12) (1992).

[1] 15 U.S.C. 78s(b)(1) (1988).

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change modifies MCC's Mutual Fund Settlement, Entry, and Registration Verification ("Fund/Serv") service to provide for the automated transfer of mutual fund assets in the form of eligible book-entry shares.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, MCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. MCC has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, the Proposed Rule Change

On January 31, 1989, the Commission approved a proposed rule change by MCC to establish facilities for MCC participants use of the Fund/Serv service.[2] Under Fund/Serv, MCC participants generally exchange data with the National Securities Clearing Corporation ("NSCC"), MCC's Fund/Serv facilities manager.

On November 20, 1989, the Commission approved a proposed rule change by NSCC to provide for the automated transfer of mutual fund assets in the form of eligible book-entry shares that are transferred through Fund/Serv (i.e., to link Fund/Serv to the automated Customer Account Transfer Service ["ACATS"]).[3] Although NSCC's participants currently have access to this linkage, MCC's participants have been unable to transfer Fund/Serv eligible assets in a client's account from one brokerage firm to another using the ACATA service.

The proposed rule change adds Section 16 (ACATS/Transfers) to Article VI, Rule 9 (Mutual Fund Settlement, Entry and Registration Verification) of MCC Rules to provide for an ACATS automated transfer of mutual fund assets between brokerage firms in the form of eligible book entry shares. The ACATS-Fund/Serv link will provide an interface and thereby will provide automatic settlement of eligible mutual fund securities transferred through the ACATS system. This procedure, MCC believes, will alleviate certain problems currently encountered in the settlement of account transfers of mutual funds. MCC notes that input and output time frames under the proposal will be identical to the current ACATS and Fund/Serv system. MCC states that the purpose of the proposed rule filing is to give MCC participants greater control over the transfer of Fund/Serv eligible assets.

MCC believes that the proposed rule change is consistent with section 17A of the Act[4] in that it promotes the prompt and accurate clearance and settlement of mutual fund transactions.

(B) Self-Regulatory Organization's Statement on Burden on Competition

MCC does not believe that the proposed rule change will have an impact on or impose a burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

MCC has not solicited or received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act[5] and Rule 19(b)–4(e)(4) thereunder[6] because the proposal effects a change in an existing service of MCC which does not adversely affect the safeguarding of securities or funds of the custody or control of MCC or for which it is responsible and does not significantly affect the respective rights or obligations of MCC or persons using the services.

At any time within sixty days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submissions, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of MCC. All submissions should refer to File No. SR–MCC–93–05 and should be submitted by January 19, 1994.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.[7]

Self-Regulatory Organizations; Midwest Stock Exchange, Inc.; Order Approving Proposed Rule Change Relating to Amendments To Exchange Rules Regarding the Authority of the Exchange's Floor Procedure Committee and the Composition and Authority of its Subcommittees

December 21, 1993.

On June 3, 1993, the Midwest Stock Exchange Inc. ("MSE" or "Exchange")[1] submitted to the Securities and Exchange Commission ("SEC" or "Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[2] and Rule 19b–4 thereunder,[3] a proposal to amend two Exchange Rules—Article IV, Rule 3 and Article XII, Rule 3—which address the authority of the Exchange's Floor Procedure Committee and the composition and authority of its subcommittees.

Notice of the proposal appeared in the **Federal Register** on September 21, 1993.[4] No comments were received on the proposal.

I. Proposal

The Exchange proposes to amend two exchange rules[5] dealing with the authority of the Exchange's Floor Procedure Committee and the authority and composition of its subcommittees. The Floor Procedure Committee ("Committee") has general supervision of the conduct and dealings on the Exchange floor and recommends rules and regulations necessary for the convenient and orderly transaction of business on the Exchange floor.[6] The amendments primarily concern the sanctions that can be imposed by the Committee and its subcommittees for violations of conduct rules, and the appropriate levels of review for actions taken against the membership.

In order to accomplish its stated goals, the Exchange amended Article IV, Rule 3 to permit Floor Procedure Committee subcommittees to be composed of Exchange members who are not members of the full Floor Procedure Committee. The Chairman of each subcommittee, however, shall be a member of the full Floor Procedure Committee. This change is intended to permit the Floor Procedure Committee to function more effectively and efficiently as a policy making group with fewer members than it has done in the past. The Floor Procedure Committee believes that it can carry out its policy making goal and oversee its other responsibilities without having various subcommittee members involved in all aspects of Floor Procedure Committee work.

The amendments to Article XII, Rule 3 increase the maximum amount of a summary fine to $2,500 from the previous $500 maximum, and increase the time a member can be excluded from Exchange premises to a maximum of five days, up from the previous maximum of two days. The amendment also extends the authority to impose these sanctions, previously limited to the Floor Procedure Committee only, to an appropriately designated subcommittee of the Floor Procedure Committee.

A new interpretation to Article XII, Rule 3 sets out two types of violations of decorum rules: Class A, representing more serious violations such as fighting, threatening speech, and other conduct which is detrimental to the interest or welfare of the Exchange, and Class B violations, involving less serious offenses such as dress code and speed violations.

Article XII, Rule 3 is further amended by permitting a member of the Committee or a member of its appropriately designated subcommittee, for the purpose of assuring decorum on Exchange premises, to summarily fine a member for violative conduct classified as a Class B offense in an amount up to $100. For violative conduct classified as a Class A offense, any member of the Floor Procedure Committee or member of its appropriately designated subcommittee, with the concurrence of two other floor officials (floor governors if immediately available) may summarily fine a member up to $2,500 and summarily exclude a member from exchange premises for the remainder of the trading day. With respect to this type of summary exclusion, another interpretation to the rule states that a member so summarily excluded can petition for reinstatement after a "cooling-off" period.

Finally, the amended rule permits a member adversely affected by a determination by anyone other than the full Floor Procedure Committee (other than a summary exclusion discussed above) to appeal the sanction to the full Floor Procedure Committee within five days, by written request. The Floor Procedure Committee's determination is final for any fine not greater than $100. Other sanctions may be further appealed to the Executive Committee upon written request within 10 days of the Floor Procedure Committee's determination. The Executive Committee's decision is final. Any action appealed is stayed until the appeal is decided. The Floor Procedure Committee and the Executive Committee may increase or diminish the sanctions appealed but may not impose a fine greater than $2,500 or exclusion for more than five days.

The Exchange states that the purpose of the proposed rule change is to increase the deterrent effect that potential fines and exclusions from the trading floor have on the membership for violations of the Exchange's decorum rules as well as for other improper conduct. The Exchange believes that the Floor Procedure Committee, on its own initiative or through its appropriate subcommittee, must be able to take fair but meaningful remedial action for conduct which is disruptive, threatening to individual safety or Exchange facilities, or otherwise detrimental to the welfare of the Exchange. The Exchange asserts that the current level of fines and exclusions from the trading floor do not carry a forceful deterrent effect not do they adequately address an offending member's behavior commensurate with the type of misconduct involved.

With respect to immediate exclusion from the Exchange floor, the Exchange believes that three appropriate individuals should have authority to take this action without having to convene the entire Floor Procedure Committee. The Exchange does not believe that any one individual should unilaterally be empowered to impose fines in excess of $100 or to exclude a member from the premises. The Exchange believes that the concurrence of three appropriate individuals will ensure against arbitrary and capricious sanctions.

II. Discussion

The Commission finds the proposed rule change to be consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and in particular, with the requirements of sections 6(b)(5), 6(b)(6) and 6(b)(7) of the Act.[7] Section 6(b)(5) of the Act, requires that, inter alia, the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices and to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling and processing information with respect to, and facilitating transactions in securities, and in general, to protect investors and the public interest. The Commission believes that the proposed changes will provide for increased fines and an increased ability to enforce the decorum rules through less cumbersome procedures, thereby facilitating

[1] As of July 8, 1993, the MSE changed its name to the Chicago Stock Exchange, Inc. See Securities Exchange Act Release Nos. 32488 (June 18, 1993), 58 FR 34284 (June 24, 1993) (File No. SR–MSE–93–13) (immediate effectiveness of proposed rule change relating to amendments to the MSE's Certificate of Incorporation and Constitution to effect a name change) and 32489 (June 18, 1993), 58 FR 34285 (June 24, 1993) (File No. SR–MSE–93–16) (immediate effectiveness of proposed rule change relating to amendments to the MSE's Rules to make conforming changes in accordance with its name change).

[4] See Securities Exchange Act Release No. 32885 (September 14, 1993), 58 FR 49072 (September 21, 1993).

[5] The Exchange proposes to amend Article IV, Rule 3 and Article XII, Rule 3 of its Rules.

[6] The MSE's Floor Procedure Committee is comprised of not less than seven members (at least three of whom shall be active on the floor of the Exchange as specialists, odd-lot dealers or floor brokers) in addition to the ex-officio members. See MSE Article IV, Rule 3.

[7] 15 U.S.C. 78f(f)(b)(5)(1), (f)(b)(6) and (f)(b)(7) (1988).

transactions effected on the Exchange floor

Section 6(b)(6) provides that the rules of the Exchange should provide that exchange members and persons associated with its members be appropriately disciplined for violation of the provisions of the Act or rules and regulations thereunder or the rules of the exchange by expulsion, suspension, limitation of activities, functions, and operations, fine, censure, being suspended or barred from being associated with a member, or any other fitting sanction. The Commission believes that the proposed changes are consistent with section 6(b)(6) in that they provide for appropriate fines or other sanctions for violations of the conduct rules or other improper conduct. The changes will increase the deterrent effect that fines and exclusions from the trading floor have on the membership for violations of the Exchange's decorum rules or other similar improper conduct. The Commission also believes that it is appropriate that the Exchange have authority to take immediate action against a member to protect individual safety and Exchange facilities. To accomplish these objectives, the proposed changes appropriately increase permissible summary fines and permissible exclusion from the trading floor. In addition, the Exchange has created two classes of fines so that the more serious minor offenses are separated from and treated differently than the less serious minor offenses, thereby making it easier to expedite such minor offenses. Overall, the changes in procedures will put Exchange members on notice that minor rule violations are being taken more seriously by the Exchange and the changes will make it easier for the Exchange to make decisions about such minor rule violations.

Similarly, section 6(b)(7) of the act provides, inter alia, that the rules of an exchange must provide a fair procedure for the disciplining of members and persons associated with members. The Commission believes that, overall, the changes create fair and equitable procedures for disciplining members for floor decorum violations because the violations are clearly outlined in the Exchange rules and the punishment is commensurate with the nature of the violation. The Commission also believes that it is appropriate for disciplinary action to be taken by a subcommittee of at least three members of the Exchange since this provision creates a smaller decision making group which will help to ensure that decisions are made more quickly and effectively, and since this provision provides for adequate review of such subcommittee action. The Commission also believes that the rules permitting summary action by a Committee member or subcommittee member, in conjunction with two other floor officials, represent an appropriate balance between the need for summary action and the avoidance of arbitrary or capricious sanctions.

In addition, the changes provide for the appeal of sanctions and exclusions to the full Floor Procedure Committee and then to the Executive Committee. The proposed changes provide that the reviewing body may affirm, reverse, or modify a previous determination. The Commission believes that the proposed rule changes will, therefore, create fair procedures for review of decisions on appeal in accordance with the Act as two levels of review are put in place.

III. Conclusion

For the reasons discussed above, the Commission finds that the proposed changes to the Exchange's floor decorum provisions are consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, the requirements of section 6 and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act,[8] that the proposed rule change (SR–MSE–93–15) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[9]

Margaret H. McFarland,

Deputy Secretary.

Self-Regulatory Organizations; Filing and Immediate Effectiveness of Proposed Rule Change by National Association of Securities Dealers, Inc. Relating to Assessments and Fees on Members

December 21, 1993.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on December 2, 1993, the National Association of Securities Dealers, Inc. ("NASD" or "Association") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the NASD. The NASD has designated this proposal as one establishing or changing a fee under section 19(b)(3)(A)(ii) of the Act, which renders the rule effective upon the Commission's receipt of this filing. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The NASD is proposing a rule change to amend Schedule A to the By-Laws to adjust the amount of credit applied to the entire calendar year 1993 as set forth in Subsection 1(d) of Schedule A, which is currently 62%, to 67%, and to credit the adjusted increase against member firms' 1994 assessments.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Pursuant to Article VI of the By-Laws of the Corporation, the NASD requires its members to pay an annual assessment fee based on gross income as defined by Schedule A, Section 1 to the By-Laws.[1] The NASD also allows a credit against such assessment pursuant to Subsection 1(d). In accordance with the NASD's shift from a fiscal to a calendar budget year in 1991, the NASD calculates the gross income assessment from the gross income reported for the calendar or fiscal year preceding the NASD's calendar budget year. Based on final gross income reports for 1992, the NASD in 1993 amended the amount of credit set forth in Subsection 1(d) of Schedule A to the By-Laws from 59% to 62% to reflect the assessment revenue budgeted for 1993.[2]

However, because overall 1993 revenue for the NASD is exceeding budget projections, the NASD believes that the credit against the gross income assessment should be raised from 62% to 67%. This increase will result in an adjustment to 1993 member assessments which will be credited against member firms' 1994 assessments. This proposed rule change, therefore, amends the amount of the credit set forth in Section 1(d) of Schedule A to the By-Laws from 62% to 67% to reflect the need for lower assessment revenue for 1993 in view of the realization of higher revenues than budgeted from other sources, principally corporate financing and Nasdaq issuer entry fees. The practical effect of the proposed rule change is that members will be assessed a smaller amount on 1992 gross income to cover 1993 operating costs, and this amount will be realized by members in 1994 in the form of a credit against 1994 assessments.

The NASD believes that the proposed rule change is consistent with the provisions of section 15A(b)(5) of the Act,[3] which require that the rules of the Association provide for the equitable allocation of reasonable dues, fees, and other charges among members in that the proposed rule change equitably returns on a pro-rata basis to members a portion of revenues not needed for 1993 operations or corporate financing goals.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing For Commission Action

The foregoing rule change has become effective upon filing pursuant to section 19(b)(3)(A)(ii) of the Act and Subparagraph (e) of Rule 19b–4 promulgated thereunder in that it constitutes a due, fee, or other charge imposed by a self-regulatory organization.

At any time within 60 days of the filing of a rule change pursuant to section 19(b)(3)(A) of the Act, the Commission may summarily abrogate the rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to the file number in the caption above and should be submitted by January 19, 1994.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30–3(a)(12).

Margaret H. McFarland,

Deputy Secretary.

Self-Regulatory Organizations; Order Granting Approval and Notice of Filing and Order Granting Accelerated Approval of Amendment No. 1 to a Proposed Rule Change by the New York Stock Exchange, Inc. Relating to European Portfolio Market Index Target-Term Securities

December 22, 1993

I. Introduction

On November 3, 1993, the New York Stock Exchange, Inc. ("NYSE" or "Exchange"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and Rule 19b–4 thereunder,[2] filed with the Securities and Exchange Commission ("SEC" or "Commission") a proposed rule change to list and trade Market Index Target-Term Securities ("MITTS"),[3] the return on which is based upon a portfolio of securities of European companies ("European Portfolio").[4] Notice of the proposal appeared in the **Federal Register** on November 15, 1993.[5] No comment letters were received on the proposed rule change. On December 16, 1993, the NYSE filed Amendment No. 1 to the proposed rule change.[6] This order approves the proposal.

II. Description of the Proposal

Under Section 703.19 of the Exchange's Listed Company Manual ("Manual"), the NYSE may approve for listing securities which can not be readily categorized under the listing criteria for common and preferred stocks, bonds, debentures, and warrants.[7] The NYSE is now proposing under Section 703.19 of the Manual to list for trading MITTS based on the

[1] 15 U.S.C. 78s(b)(1) (1988).

[2] 17 CFR 240.19b–4 (1992).

[3] "MITTS" and "Market Index Target-Term Securities" are service marks of Merrill Lynch & Co., Inc. ("Merrill Lynch").

[4] The European Portfolio is a static portfolio consisting of 24 equity securities listed as (1) common shares outside of the United States in the countries having the greatest trading volume for the shares; (2) common shares in the United States; or (3) as American Depositary Receipts ("ADRs") in the United States. An ADR is a negotiable receipt which is issued by a depositary, generally a bank, representing shares of a foreign issuer that have been deposited and are held, on behalf of holders of the ADRs, at a custodian bank in the foreign issuer's home country. The securities which comprise the European Portfolio are securities issued by corporations formed under the laws of France, Germany, Italy, Netherlands, Spain, Sweden, Switzerland, and United Kingdom.

[5] See Securities Exchange Act Release No. 33168 (November 9, 1993), 58 FR 60227 (November 15, 1993).

[6] Amendment No. 1 to the proposed rule change altered the European Portfolio by replacing the five securities that were ADRs traded on the OTC Bulletin Board Service operated by the National Association of Securities Dealers, Inc. ("NASD Bulletin Board"), with the equity securities underlying such ADRs. Four of these new component shares trade in Germany (Bayer AG, Deutsche Bank AG, Hoechst AG, and Siemens AG) and one trades in Switzerland (Nestle, S.A.). Amendment No. 1 also states that if Merrill Lynch, Pierce, Fenner & Smith Inc. ("MLPFS"), the affiliate of Merrill Lynch which will calculate the value of the European Portfolio, is required to use the bid and offer price for a portfolio security to determine the market price of such portfolio security, then MLPFS will not use any bid or offer price announced by MLPFS or any other affiliate of Merrill Lynch. See Letter from William Massey, Brown & Wood, to Richard Zack, Branch Chief, Office of Derivatives Regulation, Division of Market Regulation, Commission, dated December 16, 1993 ("December 16 Letter").

[7] See Securities Exchange Act Release Nos. 29229 (May 23, 1991), 56 FR 24852 (May 31, 1991), and 28217 (July 18, 1990), 55 FR 30056 (July 24, 1990) ("Hybrid Approval Orders").

European Portfolio ("European Portfolio MITTS").[8]

As with the Global Telecommunications MITTS, the European Portfolio MITTS will conform to the listing guidelines under Section 703.19 of the Manual, which provide that: (1) Issues must have a minimum public distribution of one million securities; (2) a minimum of 400 shareholders; (3) a minimum duration of one year; (4) a market value of at least $4 million; and (5) otherwise comply with the NYSE's initial listing criteria.[9] In addition, the Exchange will monitor the European Portfolio MITTs to verify compliance with the Exchange's continued listing criteria.[10] MITTs are non-callable senior hybrid debt securities of Merrill Lynch that provide for a single payment at maturity, and will bear no periodic payments of interest. At maturity, a holder of a MITT is entitled to receive from the issuer 90% of the principal amount plus an amount based upon the change in the market value of a stock index or portfolio. European Portfolio MITTS are cash-settled in that they do not give the holder any right to receive a portfolio security or any other ownership right or interest in the portfolio securities, although the return on the investment is based on the aggregate portfolio value of the European Portfolio securities.

According to the NYSE, European Portfolio MITTS will allow investors to combine the protection of a portion of the principal amount of the MITTS with potential additional payments based upon the performance of a portfolio of securities representing 24 highly capitalized companies throughout Europe encompassing a wide variety of products and services. In particular, the proposed European Portfolio MITTS will provide 90 percent principal protection of the original issue price at maturity with the opportunity to participate in any upside appreciation of the underlying European Portfolio. European Portfolio MITTS will mature in June 1999.

The European Portfolio consists of securities of 24 European companies that have significantly different levels of market capitalization, ranging from a high of approximately US$57.8 billion for Royal Dutch Petroleum Company to a low of approximately US$2.3 billion for Benetton Group S.p.A.[11] The securities in the European Portfolio include the ADRs of 17 European companies,[12] the stocks of two European companies listed and trading on the Exchange,[13] and the stocks of five other European companies listed and trading outside of the United States.[14] The average daily trading volume for the components of the European Portfolio for the period from July 1, 1993, through August 31, 1993, ranged from a high of approximately 1.36 million ADR shares for Royal Dutch Petroleum Company, to a low of approximately 3,100 ADR shares for Unilever plc. In addition, the public float[15] as of December 6, 1993 for the securities comprising the global portfolio ranged from a high of approximately US$55.5 billion for Royal Dutch Petroleum Company to a low of approximately US$583 million for Benetton Group S.p.A.[16]

At the outset, each of the securities in the European Portfolio will have equal representation. Specifically, each security included in the portfolio will be assigned a multiplier on the date of issuance so that the security represents an equal percentage of the value of the entire portfolio on the date of issuance. The multiplier indicates the number of shares (or fraction of one share) of a security, given its market price, to be included in the calculation of the portfolio. Accordingly, each of the 24 companies included in the European Portfolio will represent approximately 4.167 percent of the total portfolio at the time of issuance.

The multiplier for each security in the European Portfolio will generally remain unchanged except for limited adjustments that may be necessary as a result of stock splits or stock dividends.[17] There will be no adjustments to the multipliers to reflect cash dividends paid with respect to a portfolio security. In addition, no adjustments of any multiplier of a portfolio security will be made unless such adjustment would require a change of at least 1% in the multiplier then in effect.

If the issuer of a security included in the European Portfolio no longer exists, whether for reason of a merger, acquisition or similar type of corporate control transaction, then Merrill Lynch will assign to that security a value equal to the security's final value for the purposes of calculating portfolio values. For example, if a company included in the portfolio is acquired by another company, Merrill Lynch shall thereafter assign a value to the shares of the acquired company's securities equal to the value per share at which time the acquisition takes place.

If the issuer of a portfolio security is in the process of liquidation or subject to a bankruptcy proceeding, insolvency, or other similar adjudication, such security will continue to be included in the European Portfolio so long as a market price for such security is available. If a market price is no longer available for a portfolio security, including, but not limited to, liquidation, bankruptcy, insolvency, or any other similar proceeding, then the value of the portfolio security will be assigned a value of zero in connection with calculating the daily portfolio value and the closing portfolio value of the European Portfolio, for so long as no market price exists for that security.[18]

The value of the European Portfolio will initially be calculated once a day by MLPFS. These values will be disseminated to investors once a day after 5 p.m. Eastern Standard Time. The portfolio value, for any day, will equal the sum of the products of the most recently available market prices and the applicable multipliers for the portfolio securities.[19] In addition, the Securities Pricing Service ("SPS"), a division of MLPFS, will calculate and regularly publish the portfolio value during the term of the European Portfolio MITTS. Moreover, MLPFS and SPS have undertaken to implement certain surveillance and compliance procedures with respect to the dissemination of the portfolio value, requiring that the portfolio value be announced only through public dissemination and restricting the access of the MLPFS trading desk to the portfolio value determined by SPS.

European Portfolio MITTS will be denominated in U.S. dollars[20] and will entitle the owner at maturity[21] to receive an amount based upon the percentage change in the value of the European Portfolio from the date of issuance to the "final calculation period," subject to a minimum repayment amount of 90% of the original principal amount. The "final calculation period" is a specified number of days prior to the maturity date.[22] The average value of the European Portfolio during the final calculation period will be used in calculating the amount holders will receive upon maturity.[23]

If the market value of the portfolio has declined, the holder will receive not less than 90% of the original principal amount of the security. For example, if the market value of the portfolio used to calculate the amount payable at maturity has declined more than ten percent, the holders of the European Portfolio MITTS will receive 90 percent of the principal amount of the securities. The payment in addition to the minimum principal amount at maturity is based on changes in the value of the European Portfolio, but does not reflect the payment of dividends on the securities that comprise the European Portfolio.

Like the Global Telecommunication MITTS listed on the NYSE, European Portfolio MITTS may not be redeemed prior to maturity and are not callable by the issuer. Holders of European Portfolio MITTS will be able to cash-out of their investment by selling the security on the NYSE. The Exchange anticipates that the trading value of the security in this secondary trading market will depend in large part on the value of the securities comprising the European Portfolio and also on such other factors as the level of interest rates, the volatility of the value of the European Portfolio, the time remaining to maturity, dividend rates, and the creditworthiness of the issuer, Merrill Lynch.[24]

Because European Portfolio MITTS are linked to a portfolio of equity securities, the NYSE's existing equity floor trading rules will apply to the trading of European Portfolio MITTS. First, pursuant to NYSE Rule 405, the Exchange will impose a duty of due diligence on its members and member firms to learn the essential facts relating to every customer prior to trading European Portfolio MITTS.[25] Second, consistent with NYSE Rule 405, the Exchange will further require that a member or member firm specifically approve a customer's account for trading European Portfolio MITTS prior to, or promptly after, the completion to the transaction. Third, European Portfolio MITTS will be subject to the equity margin rules of the Exchange. Fourth, in accordance with the NYSE's Hybrid Approval Orders, the Exchange will prior to trading European Portfolio MITTS, distribute a circular to the membership providing guidance with regard to member firm compliance responsibilities (including suitability recommendations) when handling transactions in European Portfolio MITTS and highlighting the special risks and characteristics of the European Portfolio MITTS.[26]

III. Commission Findings and Conclusions

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities

---

[8] The Commission recently approved the listing and trading on the Exchange of MITTS based upon a global portfolio of securities representing telecommunications companies ("Global Telecommunications MITTS"). See Securities Exchange Act Release No. 32840 (September 2, 1993), 58 FR 47485 (September 9, 1993) ("Exchange Act Release No. 32840").

[9] The hybrid listing standards in Section 703.19 of the Manual are intended to accommodate listed companies in good standing, their subsidiaries and affiliates, and non-listed equities which meet the Exchange's original listing standards. Domestic issuers must also meet the earnings and net tangible assets criteria set forth in Section 102.01 and 102.02 of the Manual. Specifically, the minimum original listing criteria requires that issuers have: (1) 2,000 holders holding 100 shares or more or have 2,200 holders with an average monthly trading volume of 100,000 shares; (2) a public float of 1.1 million shares; (3) an aggregate public market value of $18 million or total net tangible assets of $18 million; and (4) earnings before taxes of $2.5 million in the latest fiscal year and earnings before taxes of $2 million in each of the preceding two fiscal years, or earnings before taxes of $6.5 million in the aggregate for the last three fiscal years with a $4.5 million minimum in the most recent fiscal year (all three years are required to be profitable).

[10] The continued listing criteria for capital or common stock requires that: (1) The number of holders of 100 shares or more is equal to or greater than 1,200; (2) the number of publicly-held shares is equal to or greater than 600,000; (3) the aggregate market value of publicly-held shares is equal to or greater than $5 million; (4) the aggregate market value of shares outstanding (excluding treasury stock) is equal to or greater than $6 million and average net income after taxes for the past three years is equal to or greater than $600,000; and (5) net tangible assets available to common stock are equal to or greater than $8 million and average net income after taxes for the past three years is equal to or greater than $600,000. In addition, the continued listing standards for bonds require that outstanding publicly-held bonds have an aggregate market value or principal amount equal to or greater than $1 million. See Section 602 of the Manual.

[11] These values are as of December 6, 1993.

[12] Each of the ADRs is either listed or traded on, or traded over the facilities of, U.S. securities markets. The ADRs represent Alcatal Alsthom Compagnie Generale d'Electricite; Banco Santander, S.A.; Benetton Group S.p.A.; British Petroleum Company, plc; British Telecommunications plc; Cadbury Schweppes plc; Grand Metropolitan, plc; Hanson plc; L.M. Ericsson Telephone Co., Inc.; Reuters Holding plc; Rhone-Poulenc S.A.; Societe Nationale Elf Acquitane; Telefonica de Espana; Total S.A.; Unilever plc; Vodaphone Group plc; and Waste Management International plc.

[13] Philips Electronics N.V., and Royal Dutch Petroleum Company.

[14] The five foreign stocks, none of which are listed or trading on, or traded over the facilities of, U.S. securities markets, represent Bayer AG; Deutsche Bank AG; Hoechst AG; Nestle S.A.; and Siemens AG. ADRs representing each of these companies trade in the U.S. through the NASD Bulletin Board, however, none of those ADRs are subject to last sale reporting requirements and therefore, for purposes of calculating the settlement value of the European Portfolio, the underlying stock values have been substituted for the ADRs in the European Portfolio pursuant to Amendment No. 1. See December 16 Letter, *supra* note 6.

[15] As used herein, "public float" is defined as total outstanding shares less treasury stock, minority interests, and insider holdings. *Id.*

[16] *Id.*

[17] Merrill Lynch will adjust the multiplier of any portfolio security if the security is subject to a stock split or reverse split or similar adjustment in the case of an ADR, to equal the product of the number of shares issued with respect to one share of the portfolio security, or the number of receipts issued with respect to an ADR, and the prior multiplier. In the case of a stock dividend, the multiplier will be adjusted so that the new multiplier will equal the former multiplier plus the product of the number of shares of such portfolio security issued with respect to one share of the portfolio security and the prior multiplier.

[18] Merrill Lynch will not attempt to find a replacement stock or to compensate for the extinction of a security due to bankruptcy or a similar event.

[19] The procedure for determining the value of the European Portfolio will be the same as that approved by the Commission for Global Telecommunications MITTS (see Exchange Act Release No. 32840, *supra* note 8). See December 16 Letter, *supra* note 6. Specifically, the market price used for calculation of the portfolio value is the last reported sale price if the portfolio security is listed and traded on a national securities exchange, or is traded through the National Association of Securities Dealers, Inc. ("NASD") Automated Quotation ("NASDAQ") system's National Market System ("NMS"). If the portfolio security is a security of a foreign issuer or is an ADR that is not listed in a national securities exchange in the U.S. or is not a NASDAQ–NMS security, then the market price is the last reported sale price on the securities exchange on which the portfolio security is listed having the greatest volume of trading for the preceding calendar month as determined by MLPFS, provided that if such last reported sale price is for a transaction that occurred more than 4 hours prior to the close of such exchange, then the market price is the average of the last available bid and offer price on such exchange. If a foreign-issued portfolio security is not listed or trading on any securities exchange or if the last reported sale price or bid and offer are not obtainable, then the market price is the last reported sale price on the OTC market with the greatest volume of trading as determined by MLPFS. However, if such last reported sale price is for a transaction which occurred more than 4 hours prior to when trading in such OTC market typically ends, then the market price is the average of the last available bid and offer price of the three most active dealers, as selected by MLPFS. If MLPFS is required to use the bid and offer price for a portfolio security to determine the market price of such portfolio security, then MLPFS will not sue any bid or offer price announced by MLPFS or any other affiliate of Merrill Lynch. See December 16, 1993 Letter, *supra* note 6.

[20] The prices of the foreign stock components of the European Portfolio are quoted in currencies other than U.S. dollars. Therefore, investments in securities indexed to the value of non-U.S. securities may involve greater risks, subject to fluctuations of foreign exchange rates, future foreign political and economic developments, and the possible imposition of exchange controls or other foreign governmental laws or restrictions applicable to such investments.

[21] The maturity date for European Portfolio MITTS will be in June 1999.

[22] In particular, the final calculation period for European Portfolio MITTS will consist of the 90 business days prior to maturity of the security. Within this time period, Merrill Lynch will use for calculation purposes, the first 45 business days that occur without a market disruption event.

[23] The closing value for the European Portfolio will be determined by MLPFS and will equal the sum of the products of the average market price and the applicable multiplier for each portfolio security over the final calculation period.

[24] Merrill Lynch will deposit registered global securities representing European Portfolio MITTS with its depository, the Depository Trust Company ("DTC"), so as to permit book-entry settlement of transactions by participants in DTC.

[25] NYSE Rule 405 requires that every member member firm or member corporation use due diligence to learn the essential facts relative to every customer and to every order or account accepted.

[26] See Hybrid Approval Orders, *supra* note 7

VOL 58 ISS 248 DE 29 1993 UMI

exchange, and, in particular, the requirements of section 6(b)(5). Specifically, the Commission believes that providing for exchange-trading of European Portfolio MITTS will offer a new and innovative means of participating the market for European securities. In particular, the Commission believes that European Portfolio MITTS will permit investors to gain equity exposure in European companies, while at the same time, limiting the downside risk of the original investment. For the reasons discussed in the Commission's order approving the Global Telecommunications MITTS, the Commission finds that the listing and trading of European Portfolio MITTS is in the public interest.[27]

As with Global Telecommunications MITTS, European Portfolio MITTS are not leveraged instruments, however, their price will still be derived and based upon the underlying linked security. Accordingly, the level of risk involved in the purchase or sale of a European Portfolio MITTS is similar to the risk involved in the purchase or sale of traditional common stock. Nonetheless, as with the Global Telecommunications MITTS, the Commission has several specific concerns regarding the trading of this type of product.

The Commission notes that the Exchange's rules and procedures that address the special concerns attendant to the trading of hybrid securities will be applicable to European Portfolio MITTS. In particular, by imposing the hybrid listing standards, suitability, disclosure, and compliance requirements noted above, the Commission believes the Exchange has addressed adequately the potential problems that could arise from the hybrid nature of European Portfolio MITTS. Moreover, the Exchange will distribute a circular to its membership calling attention to the specific risks associated with European Portfolio MITTS.

The Commission notes that MLPFS intends to publish the value of the European Portfolio once each business day after 5 p.m. Eastern Standard Time for dissemination to electronic reporting services as well as to newspapers and trade publications. As with the Global Telecommunications MITTS, Merrill Lynch asserts that the value of a MITT does not necessarily correlate with the intra-day price moves related to the underlying component securities, largely as a result of the time value to maturity of the MITT.[28]

As a general matter, the Commission continues to believe that for new derivative products, real-time dissemination of the value of the underlying instrument should be provided to all investors. Nevertheless, the Commission has determined to permit European Portfolio MITTS to trade without real-time dissemination at this time for several reasons. First, a MITT is not a leveraged product that has its value determined primarily from the underlying individual security or security index but rather guarantees recoupment of 90% of the principal amount. Second, factors such as the creditworthiness of the issuer, in addition to price movements in the underlying securities will be relevant in pricing the European Portfolio MITTS. Third, the European Portfolio MITTS should, at least prior to expiration, trade more like a bond or debt security, based on the issuer's ability to perform rather than the value of the European Portfolio.[29] Accordingly, the Commission believes that real-time dissemination of the aggregate market value of the underlying European Portfolio is not necessary at this time but would nevertheless expect Merrill Lynch, along with the NYSE, to monitor the product to determine if increased reporting is necessary especially as the product approached maturity.[30]

The Commission realizes that European Portfolio MITTS are dependent upon the individual credit of the issuer, Merrill Lynch. To some extent this credit risk is minimized by the Exchange's continued listing standards which require issuers to maintain an aggregate market value of $5 million for its publicly-held shares.[31] In addition, the Exchange's hybrid listing standards further require that European Portfolio MITTS have at least $4 million in market value. In any event, financial information regarding Merrill Lynch, in addition to the information on the issuers of the underlying securities comprising the European Portfolio, will be publicly available.[32]

The Commission also has a systemic concern, however, that a broker-dealer, such as Merrill Lynch, or a subsidiary providing a hedge for the issuer will incur position exposure. As discussed in the approval order for the Global Telecommunications MITTS, the Commission believes this concern is minimal given the size of European Portfolio MITTS issuance in relation to the net worth of Merrill Lunch.[33]

The Commission believes that the listing and trading of European Portfolio MITTS should not unduly impact the market for the underlying securities comprising the European Portfolio. First, the underlying securities comprising the portfolio are either well-capitalized stocks, or in the case of ADRs, represent in dollar terms substantial market value.[34] Second, the issuers of the underlying securities comprising the European Portfolio are subject to reporting requirements under the Act, and the majority of the portfolio securities are either listed or traded on, or traded over the facilities of, U.S. securities markets.[35] Third, the Exchange has surveillance agreements in place for a large percentage of the securities in the European Portfolio for the sharing of market information.[36] This in addition to the NYSE's surveillance procedures will serve to deter as well as detect any potential manipulation. Fourth, Merrill Lynch will not include quotations made by or through Merrill Lynch or its affiliates when calculating the value of the European Portfolio. Lastly, MLPFS has agreed to restrict information with respect to all calculations of portfolio securities so that individuals trading such securities at MLPFS will only be able to receive such information through public means and not prior to its release to the public.[37]

The Commission finds good cause for approving Amendment No. 1 to the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the Federal Register. The Commission finds that the proposal, as amended, is substantially similar to the Global Telecommunications MITTS which were previously approved by the Commission. Additionally, the Commission has not received any comments, and has not been made aware of any problems that have arisen with respect to the trading of the Global Telecommunications MITTS. Furthermore, Amendment No. 1 further minimizes any regulatory concerns the Commission might have with respect to the pricing of the components of the European Portfolio. By substituting the underlying foreign stocks for the five ADRs originally proposed, each of the securities in the European Portfolio will be subject to last sale reporting requirements either in the U.S. (for the 17 ADRs and the two NYSE-listed component securities) or in the country where the greatest volume of trading for the previous calendar month has occurred (for the five securities traded outside of the U.S.).[38] Finally, the Exchange's original Global Portfolio MITTS proposal as well as this proposal were each published in the Federal Register for the full 21-day comment period without any comments being received by the Commission. Therefore, the Commission believes it is consistent with section 6(b)(5) of the Act to approve Amendment No. 1 to the proposed rule change on an accelerated basis.

Interested persons are invited to submit written data, views and arguments concerning Amendment No. 1 to the proposed rule change. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld form the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW., Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the NYSE. All submissions should refer to File No. SR–NYSE–93–44 and should be submitted by January 19, 1994.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[39] that the proposed rule change (File No. SR–NYSE–93–44) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[40]

Margaret H. McFarland,

Deputy Secretary.

[27] See Exchange Act Release No. 32840, *supra* note 8.

[28] *Id.*

[29] As the Global Telecommunications MITTS, Merrill Lynch has agreed to monitor the volatility of the market price of the European Portfolio MITTS in relation to the underlying European Portfolio and to discuss with the Commission the need to implement more frequent portfolio value dissemination in the event of an increase in intra-day volatility. See Letter from Markus Wiltshire, Brown & Wood, to Brad Ritter, Attorney, Office of Derivatives Regulation, Division of Market Regulation, Commission, dated December 22, 1993 ("December 22 Letter").

[30] Notwithstanding the above, the Commission still believes that it is useful and beneficial for all investors and market participants to have access to the value of the portfolio on a real-time basis and encourages the NYSE and Merrill Lynch to further explore the possibilities in this area.

[31] See *supra* note 10.

[32] The companies that comprise the European Portfolio are either reporting companies under the Act or subject to a limited exemption under Rule 12g3–2(b) of the Act. See December 22 Letter, *supra* note 29.

[33] See Exchange Act Release No. 32840, *supra* note 8.

[34] *See* supra note 11 and accompanying text.

[35] The Commission notes that 19 of the 24 component securities are traded on either the NYSE or NASDAQ–NMS.

[Investment Company Act Rel. No. 19970; 811–5247]

SunAmerica Multi-Asset Portfolios, Inc.; Application for Deregistration

December 21, 1993.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for deregistration under the Investment Company Act of 1940 ("Act").

APPLICANT: SunAmerica Multi-Asset Portfolios, Inc.

RELEVANT ACT SECTION: Section 8(f).

SUMMARY OF APPLICATION: Applicant seeks an order declaring that it has ceased to be an investment company.

FILING DATE: The application was filed on December 14, 1993.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on January 18, 1994 and should be accompanied by proof of service on applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request such notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicant, 733 Third Avenue, New York, New York 10017.

FOR FURTHER INFORMATION CONTACT: James E. Anderson, Staff Attorney, at (202) 272–7027, or C. David Messman, Branch Chief, at (202) 272–3018 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee from the SEC's Public Reference Branch.

Applicant's Representations

1. Applicant is a diversified open-end management investment company organized as a Maryland corporation. On July 20, 1987, applicant (then known as Integrated Multi-Asset Portfolios, Inc.) filed a notification of registration pursuant to section 8(a) of the Act and a registration statement pursuant to the Securities Act of 1933. The registration statement became effective on November 19, 1987, and applicant commenced its initial public offering on that date.

2. On March 31, 1993, applicant's board of directors approved a plan of reorganization whereby applicant agreed: (a) To transfer all of its assets and liabilities of its SunAmerica Total Return Fund series ("Total Return") to SunAmerica Balanced Assets Fund ("Balanced Assets"), a newly created portfolio of SunAmerica Equity Funds, in exchange for shares of beneficial interest of Balanced Assets; and (b) to transfer all of its assets and liabilities of its SunAmerica Diversified Income series ("Diversified Income") to SunAmerica Diversified Income Fund ("Income Fund"), a newly created portfolio of SunAmerica Income Funds, in exchange for shares of beneficial interest of Income Fund. In accordance with rule 17a–8 of the Act, applicant's directors determined that the sale of applicant's assets to the acquiring funds was in the best interests of applicant's shareholders, and that the interests of the existing shareholders would not be diluted as a result.[1]

3. Preliminary proxy materials soliciting shareholder approval of the reorganization were filed with the SEC on May 17, 1993 for Total Return, and on June 17, 1993 for Diversified Income. Definitive proxy materials for both series were filed with the SEC on July 29, 1993. Proxy materials were distributed to the applicant's shareholders of record on or about July 29, 1993. The reorganization was approved, in accordance with Maryland law, by applicant's shareholders at meetings held on September 23, 1993.

---

[1] Applicant and the acquiring funds may be deemed to be affiliated persons of each other by reason of having a common investment adviser, common directors, and common officers. Although purchases and sales between affiliated persons generally are prohibited by section 17(a) of the Act, rule 17a–8 provides an exemption for certain purchases and sales among investment companies that are affiliated persons of each other solely by reason of having a common investment adviser, common directors, and/or common officers.

4. Immediately prior to the reorganization, applicant had 2,058,959.461 shares of common stock of Total Return outstanding (having an aggregate net asset value of $32,675,686.64 and a per share net asset value of $15.87) and 17,887,412.246 shares of common stock of Diversified Income outstanding (having an aggregate net asset value of $90,331,431.84 and a per share net asset value of $5.05). On September 24, 1993, applicant transferred all of the assets and liabilities of Total Return to Balanced Assets. In exchange, applicant received 2,058,959.461 shares of common stock of Balanced Assets, having an aggregate net asset value of $32,675,686.64 and a per share net asset value of $15.87. On October 1, 1993, applicant transferred all of the assets and liabilities of Diversified Income to Diversified Fund. In exchange, applicant received 17,887,412.246 shares of common stock of Diversified Fund, having an aggregate net asset value of $90,331,431.84 and a per share net asset value of $5.05. The shares received in exchange for applicant's assets were distributed to applicants shareholders *pro rata* in accordance with their respective interests in applicant.

5. The expenses in connection with the reorganization consisted of legal, accounting, printing, and proxy materials expenses, which are not expected to exceed $50,000 for each of Total Return and Diversified Income. These expenses were borne by applicant and the acquiring funds.

6. As of the date of the application, applicant had no shareholders, assets, or liabilities. Applicant is not a party to any litigation or administrative proceeding. Applicant is not presently engaged in, nor does it propose to engage in, any business activities other than those necessary for the winding up of its affairs.

For the SEC, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8025–01–M

Interest Rates

The interest rate on section 7(a) Small Business Administration direct loans (as amended by Pub. L. 97–35) and the SBA share of immediate participation loans is 6⅝ percent for the fiscal quarter beginning January 1, 1994.

On a quarterly basis, the Small Business Administration also publishes an interest rate called the optional "peg" rate (13 CFR 122.8–4(d)). This rate is a weighted average cost of money to the government for maturities similar to the average SBA loan. This rate may be used as a base rate for guaranteed fluctuating interest rate SBA loans. For the January—March quarter of FY 94, this rate will be 5⅝ percent.

John R. Cox,

Acting Assistant Administrator for Financial Assistance.

BILLING CODE 8025–01–M

DEPARTMENT OF STATE

[Public Notice 1922]

Shipping Coordinating Committee Subcommittee for the Prevention of Marine Pollution; Meeting

The Subcommittee for the Prevention of Marine Pollution (SPMP), a subcommittee of the Shipping Coordinating Committee, will conduct an open meeting on March 2, 1994, at 9:30 a.m. in room 2415 of U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, DC.

The purpose of this meeting will be to review the agenda items to be considered at the thirty-fifth session of the Marine Environment Protection Committee (MEPC 35) of the International Maritime Organization (IMO) to be held from March 7–11, 1994. Proposed U.S. positions on the agenda items for MEPC 35 will be discussed.

The major items for discussion will be the following:

1. Prevention of oil pollution. Work will continue on guidelines for implementation of Regulations 13F and 13G to Annex I of The International Convention for the Prevention of Pollution from Ships (MARPOL 73/78). This will include guidelines for structural and operational requirements for existing ships, equivalencies for double-hulls for new ships, and guidelines for enhanced inspections.

2. Implementation of the International Convention on Oil Pollution Preparedness, Response and Cooperation (OPRC). An IMO working group will address topics such as development of model pollution response courses and the practical application of OPRC to hazardous and noxious substances.

3. Follow-up action to the United Nations Conference on Environment and Development (UNCED). An MEPC working group will examine IMO's role in implementation of UNCED.

4. Unwanted aquatic organisms in ballast water. A working group will discuss a possible technical annex to MARPOL 73/78 to prevent the introduction of exotic species through discharge of ballast water.

5. Enforcement of Pollution Conventions. A working group will consider refuse recordkeeping amendments to Annex V of MARPOL 73/78 proposed by the United States.

6. The future work program of the MEPC.

Members of the public may attend these meetings up to the seating capacity of the room.

For further information or documentation pertaining to the SPMP meeting, contact Lieutenant Commander M. L. McEwen, U.S. Cost Guard Headquarters (G–MEP–3), 2100 Second Street, SW., Washington, DC 20593–0001, Telephone: (202) 267–0423.

Dated: December 15, 1993.

Geoffrey Ogden,

Chairman, Shipping Coordinating Committee.

DEPARTMENT OF TRANSPORTATION

Aviation Proceedings; Agreements filed during the Week Ended December 17, 1993

The following Agreements were filed with the Department of Transportation under the provisions of 49 U.S.C 412 and 414. Answers may be filed within 21 days of date of filing.

Docket Number: 49312
Date filed: December 15, 1993
Parties: Members of the International Air Transport Association
Subject: TC3 Reso Reso/P 0560 dated December 10, 1993, TC3 (except US Territories) Expedited Resos R–1 R–26
Proposed Effective Date: January 31, 1994

Docket Number: 49313
Date filed: December 15, 1993
Parties: Members of the International Air Transport Association
Subject: TC31 Reso/P dated November 16, 1993, Circle Pacific resos, r–1—001ff r–2—07c
Proposed Effective Date: April 1, 1994

Docket Number: 49319
Date filed: December 16, 1993
Parties: Members of the International Air Transport Association
Subject: TC2 Reso/P 1504 dated November 5, 1993, Within Europe (Not applicable-EC) r–1 to r–25; TC2 Reso/P 1505 dated November 5, 1993, Within Europe (Applicable-EC) r–26 to r–42; TC2 Reso/P 1506 dated November 5, 1993, Within Europe (Applicable–EC) r–43 to r–51
Proposed Effective Date: April 1, 1994

Docket Number: 49320
Date filed: December 16, 1993
Parties: Members of the International Air Transport Association
Subject: TC23 Reso/P 0622 dated November 5, 1993, Middle East–TC3 Resos r–1 to r–29
Proposed Effective Date: April 1, 1994

Docket Number: 49321
Date filed: December 16, 1993
Parties: Members of the International Air Transport Association
Subject: TC3 Reso/P 0562 dated December 14, 1993, TC3 (US Territories) r–1 to r–3
Proposed Effective Date: January 31, 1994

Docket Number: 49322
Date filed: December 16, 1993
Parties: Members of the International Air Transport Association
Subject: TC3 Reso/P 0563 dated December 14, 1993, Expedited TC3 (US Territories) Reso 085t
Proposed Effective Date: February 1, 1994

Docket Number: 49323
Date filed: December 16, 1993
Parties: Members of the International Air Transport Association
Subject: TC3 Reso/P 0561 dated December 14, 1993, Expedited TC3 (except US Territories) Resos r–1 to r–5
Proposed Effective Date: February 1, 1994

Docket Number: 49324
Date filed: December 16, 1993
Parties: Members of the International Air Transport Association
Subject: COMP Telex Mail Vote 662, Amend Rounding Units for Iceland
Proposed Effective Date: January 5, 1994

BILLING CODE 4910–62–P

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q during the Week Ended December 17, 1993

The following Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits were filed under subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 et. seq.). The due date for Answers, Conforming Applications, or Motions to Modify Scope are set forth below for each application. Following the Answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Docket Number: 49325
Date filed: December 17, 1993
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: January 14, 1994
Description: Application of Presidential Air, pursuant to section 401(d)(3) of the Act, and subpart Q of the Regulations, requests authority to engage in interstate and overseas charter air transportation of persons, property, and mail, between any point in any state or the United States or the District of Columbia, or any territory or possession of the United States and any point outside thereof.

Docket Number: 49326
Date filed: December 17, 1993
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: January 14, 1994
Description: Application of Volga-Dnepr J.S. Cargo Airlines, pursuant to section 402 of the Act and subpart Q of the Regulations applies for a foreign air carrier permit to engage in scheduled and charter cargo service between the Russian Federation and the United States.

Docket Number: 48265
Date filed: December 14, 1993
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: January 11, 1994
Description: Amendment No. 1 to the application of LTE International Airways, S.A., pursuant to section 402 of the Act and subpart Q of the Regulations, requests amendment of Exhibits 8 and 11 to its original application with respect to Ownership and Management

Docket Number: 45059
Date filed: December 13, 1993
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: January 10, 1994
Description: Motion of Continental Micronesia, Inc., pursuant to Rules 5 and 18 of the Department's rules of practice, and section 401 of the Act and subpart Q of the regulations, moves for leave to adopt Continental's application in this docket as its own and to amend the application to give Continental Micronesia the same authority Continental had sought to secure flexible route authority available under the U.S. Philippines bilateral air transport agreements.

Phyllis T. Kaylor,

Chief, Documentary Services Division.

BILLING CODE 4910–62–P

Federal Aviation Administration

Proposed Advisory Circular 21.24–T.B.D.: Primary Category Aircraft

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability.

SUMMARY: The FAA has prepared a proposed Advisory Circular (AC) to provide guidance in complying with the procedures to certificate primary category aircraft. The proposed AC discusses type, production, and airworthiness certification, and associated maintenance procedures and operating limitations that are unique to primary category aircraft.

DATES: Comments must be received on or before February 28, 1994.

ADDRESSES: Comments on proposed AC 21.24–T.B.D. may be mailed or delivered to: Federal Aviation Administration, Aircraft Certification Service, Aircraft Engineering Division, Policy and Procedures Branch, AIR–110; 800 Independence Avenue, SW., room 805; Washington, DC 20591. Copies of the proposed AC may be obtained from

Policy and Procedures Branch, Aircraft Engineering Division, AIR–100.

FOR FURTHER INFORMATION CONTACT: Manuel Macedo, Policy and Procedures Branch, AIR–110, 800 Independence Ave., SW., room 804; Washington, DC 20591, telephone (202) 267–8566.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to submit such written data, views, or arguments as they may desire. Communications must identify the AC number and must be submitted to the address specified above. All communications received on or before the closing date for comments will be considered before issuing AC 21.24–T.B.D.

Background

On March 7, 1989, the FAA issued a Notice of Proposed Rulemaking (NPRM), No. 89–7 (54 FR 9738), proposing the adoption of a new category of aircraft to be known as primary category aircraft. These aircraft were proposed to be of simple design and intended for pleasure and personal use only. As described in the notice, primary category aircraft (airplanes, gliders, rotorcraft, manned free balloons, etc.) would be unpowered or powered by a single naturally aspirated engine having a certificated takeoff rating of 200 shaft horsepower or less, would have a maximum weight of 2,500 pounds or less, and would have an unpressurized cabin. The notice proposed to permit pilot-owners of primary category aircraft to do certain maintenance procedures, including inspections, on their own aircraft after receiving the appropriate training. The notice also proposed to permit the conversion of aircraft that are within the primary category engine and weight limits from standard category to primary category. The notice proposed to allow the use of primary category aircraft for pilot training and to prohibit the use of all primary category aircraft for compensation or hire.

On August 1, 1991, the FAA issued a Supplemental Notice of Proposed Rulemaking (SNPRM) (56 FR 36972), to correct a statement in the original NPRM that indicated that Part 36 noise requirements do not apply to primary category aircraft. The SNPRM explained that the FAA has no discretion in the application of noise requirements; Part 36 applies to primary category aircraft.

On August 1, 1991, the FAA also published Notice No. 89–7A (56 FR 36976), reopening the comment period to address new information and proposals presented to the FAA. The reopening was based on a February 1990 meeting between representatives of the Experimental Aircraft Association (EAA), the Aircraft Owners and Pilots Association, and the FAA. Because of that meeting and subsequent EAA comments, the FAA reopened the comment period to solicit comments on several EAA-requested changes from the original March 1989 NPRM. Those proposed changes were: changing the maximum weight criteria from 2,500 to 2,700 pounds; replacing the 200-horsepower engine limitation with a 61-knot stall speed limitation for airplanes and a 6-pound per square foot main rotor disc maximum load for rotorcraft; allowing the use of primary category aircraft for primary pilot training and for rental if the aircraft is maintained by an FAA-certificated mechanic or repair station; and allowing the use of primary category aircraft that are maintained by the pilot-owner, rather than an FAA certificated mechanic or repair station, to provide limited checkouts for other primary category pilots.

The final rule, Amendments 21–70, 36–19, 43–34, 91–230, and 147–6 to FAR Parts 21, 36, 43, 91, and 147, was published on September 9, 1992 (57 FR 41360), and was effective December 31, 1992.

This AC provides an acceptable means, but not the only means, of complying with the primary category aircraft type certification requirements. This AC discusses type, production, and airworthiness certification, and associated maintenance procedures and operating limitations unique to primary category aircraft. This guidance material is neither mandatory nor regulatory in nature and does not constitute a regulation in itself. The Federal Aviation Regulations referenced in this AC are those that have been modified to include requirements unique to primary category aircraft. This AC does not discuss other general certification requirements that are common to all aircraft that also apply to primary category aircraft. Their absence from this AC may not be construed to imply that these other requirements are not applicable to primary category aircraft.

Comments received on the proposed AC may be examined before and after the closing date in Room 804, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591, between 8:30 a.m. and 4:30 p.m., weekdays.

How to Obtain Copies:

A copy of proposed AC 21.24–T.B.D., Primary Category Aircraft, may be obtained by contacting the person under "FOR FURTHER INFORMATION CONTACT."

Issued in Washington, DC on December 21, 1993.

John K. McGrath,

Manager, Aircraft Engineering Division, Aircraft Certification Service.

BILLING CODE 4910–13–M

Request for Comments Regarding the Issuance of Experimental Airworthiness Certificates for the Purpose of Exhibition or Air Racing and Special Flight Authorizations (SFA)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Request for public comments.

SUMMARY: On July 9, 1993, the FAA established a moratorium on the processing of applications relating to non-type certificated aircraft, manufactured outside the United States, for experimental airworthiness certificates for the purpose of air racing or exhibition and requests for SFA. This action was necessary because of a proliferation of such applications and requests, which raised concerns that the FAA could not adequately surveil the aircraft. The FAA began a study to determine if adequate surveillance could be achieved through its current directives, policy statements, and advisory material. On August 18, 1993, the FAA lifted the moratorium and established interim requirements for certification and operations which are imposed as limitations on the operation of the subject aircraft. This notice requests public comment on what factors should be considered in establishing new limitations.

DATES: Comments must be submitted on or before February 14, 1994.

FOR FURTHER INFORMATION CONTACT: Mr. John Hozella, Aircraft Manufacturing Division (AIR–200), Aircraft Certification Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591, telephone (202) 267–7990.

SUPPLEMENTARY INFORMATION: There has been a recent dramatic increase in applications to the FAA for issuance of experimental airworthiness certificates under § 21.191(d), Exhibition, and § 21.191(e), Air Racing, of the Federal Aviation Regulations (FAR), as well as Special Flight Authorizations (SFA) under § 91.715 of the FAR, for non-U.S. manufactured aircraft for which type certificates under FAR § 21.29 have not been issued.

Little was known by the FAA concerning the design, manufacturing processes, safety record, maintenance, or service history of these aircraft. Moreover, the FAA was concerned that these aircraft may be used for a purpose other than the purpose for which they were certificated, in violation of § 91.319(a)(1) of the FAR. The surge of applications and requests raises the prospect of a large increase of these aircraft operating in U.S. airspace, a dramatically different situation than when there were only a handful of these aircraft requiring FAA surveillance. The increase in requests for experimental airworthiness certificates and SFA's had an obvious impact on the FAA's limited resources, due to the necessity for FAA original airworthiness certification and surveillance of continued airworthiness and proficiency. With these limited resources available, if strong enforcement measures are imposed, "selective" enforcement would probably result due to the lack of inspector resources.

The FAA, therefore, has determined that, in the interest of safety, it must re-assess the standards and limitations applicable to these aircraft. On July 9, 1993, the FAA placed a moratorium on the issuance of experimental airworthiness certificates and SFA's. Thereafter, the FAA studied how it could best resolve its safety concerns using existing directives, policy statements, and advisory material. On August 18, 1993, the FAA lifted the moratorium by establishing interim limitations on the operation of the subject aircraft.

This notice requests public comment on what factors need to be considered in order to address the safety concerns described above. Members of the public have suggested several possible means: limiting the number of aircraft certificated per year; appointing additional FAA designees to make findings of compliance for some certification functions; and limiting the purposes for which SFA's will be issued.

Another question revolves around the purpose of exhibition as stated in FAR § 21.191(d), "Exhibiting the aircraft's flight capabilities, performance, or unusual characteristics at air shows, motion picture, television, and similar productions, and the maintenance of exhibition flight proficiency, including (for persons exhibiting aircraft) flying to and from such air shows and productions." As noted above, operation of an experimental aircraft is limited to the purpose for which it was certificated. The FAA recognizes that aviation enthusiasts want to see a wide variety of aircraft based on historical significance or uniqueness, but there is a question as to how many aircraft are necessary to fill this need. Many of the aircraft being imported are the same model, e.g. Aero Vodochody L–29, Antonov AN–2, Mikoyan M–15, Yakovlev Y–18, etc. The FAA also has been questioned as to what would constitute a reasonable limit on the number of aircraft that should be certificated for the purpose of exhibition, i.e., when does a particular model of aircraft cease to be unique?

Another concern is the fact that experience in the areas of certification, continued airworthiness, and pilot skills for these aircraft, both in the FAA and the general aviation public, is limited. The FAA solicits comments as to the appropriate minimum experience and training requirements necessary to properly maintain and pilot these aircraft. In the same vein, the FAA solicits comments as to how the continued airworthiness of these aircraft can be maintained, i.e., what is the availability (now and in the future) of replacement parts, what level of detail for the FAA-approved inspection program is necessary? The FAA also requests input on a means by which the applicant/FAA can identify which parts have life-limits and determine the current status of those life-limited parts.

There are no type ratings issued for these aircraft. Instead, the FAA issues a letter of authorization to a pilot for a specific model of aircraft. Some of these aircraft are piston-powered (over 800 hp) or turbine powered and were flown as fighter/tactical aircraft by the military of the country of origin. Considering the complexity, performance characteristics, and operational environment of these aircraft, it may be appropriate, in the interest of safety, to establish semi-annual flight reviews, a requirement for a first- or second-class medical certificate, and/or a currency requirement similar to the 90-day requirement in FAR § 61.57.

The FAA has received reports of experimental exhibition aircraft that are being used for purposes other than exhibition, e.g., executive/private transportation, used for compensation and hire, carrying passengers, cargo, sky diving. This is an abuse of the experimental aircraft regulations, which exist solely for the purpose described. Aircraft used for other purposes must be certificated to the appropriate design standards in the FAR. The FAA requests comments concerning any known abuses and comments regarding if this might suggest whether the purposes of experimental airworthiness certification should be expanded or further limited.

Some of the aircraft currently certificated for the purpose of exhibition or air racing are not flown for these purposes. A proposal has been made to "grandfather" a few of these aircraft that received airworthiness certificates prior to the July 9, 1993, moratorium. The FAA requests input on a whether and how aircraft should be grandfathered, i.e., based on category or particular model of aircraft, date of original U.S. airworthiness certification. Additionally, comments are requested as to what specific operating limitations must be developed to define when and how the aircraft may be flown, i.e., only within 100 miles of the aircraft's base of operations, day visual flight rules (VFR) only.

The FAA welcomes comments on these issues and will take any comments received into consideration in revising the procedures and planning any future initiatives, including, when appropriate, instituting rulemaking. Comments must be submitted on or before the date stated in the "DATES" caption in this Notice. Interested parties can express their views by submitting written comments to the FAA, Aircraft Manufacturing Division (AIR–200), 800 Independence Ave., SW., Washington, DC, 20591.

Issued in Washington, DC on December 21, 1993.

Thomas E. McSweeny,

Director, Aircraft Certification Service.

BILLING CODE 4910–13–M

Aircraft Overflight Issues in the State of Hawaii; Public Meeting

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of meeting.

SUMMARY: The Federal Aviation Administration (FAA) is investigating complaints regarding flight safety, aircraft noise and possible intrusive flights of helicopters in Hawaii. The FAA will conduct four public meetings in Hawaii on the islands of Oahu, Kauai, Maui and Hawaii on January 24, through January 27, 1994. The purpose of these meetings is to gather information relevant to aircraft safety and the impact of aircraft operations on Hawaiian residential communities, National and State parks, wildlife refuges areas, state natural area reserves, sanctuaries and areas of significant historic value. Interested persons will be given an opportunity to present their views, recommendations and comments concerning these issues in this public forum. All comments received will be considered in any future FAA actions, rules, or policy developments on aircraft operation and airspace use.

DATES: The public meetings will be held on January 24, 1994 on Oahu; January 25, 1994 on Kauai; January 26, 1994 on Maui; and January 27, 1994 on Hawaii. Written statements are invited and must be received by the FAA on or before February 15, 1994.

ADDRESSES: The public meetings will be held as follows:.

Monday January 24, 1994, 5:30 pm to 8:30 pm; Oahu; Federal Aviation Administration, Flight Standards District Office, Honolulu International Airport, 135 Nakolo Place, Honolulu, Hawaii

Tuesday January 25, 1994, 5:30 pm to 8:30 pm; Kauai; Kauai War Memorial Convention Hall, 4191 Hardy Street, Lihue, Hawaii

Wednesday January 26, 1994, 5:30 pm to 8:30 pm; Maui; County Building (8th floor), 200 S. High Street, Wailuki, Hawaii

Thursday January 27, 1994, 5:30 pm to 8:30 pm; Hawaii; Hilo County Building, room 201, 25 Aupuni Street, Hilo, Hawaii

Persons unable to attend the meetings may mail their comments (in triplicate) to: Air Traffic Rules Branch, ATP–230, ATTN: Melodie De Marr, Aircraft Overflight Issues in the State of Hawaii, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC, 20591.

FOR FURTHER INFORMATION CONTACT: Requests to present a statement at a meeting or questions regarding the subject matter of the meetings should be directed to Melodie De Marr, Air Traffic Rules Branch, ATP–230, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC, 20591 telephone (202) 267–8783; telefax (202) 267–5809. Hawaiian residents may call John Gordon, the FAA Western Pacific Regional Office Representative, for additional information at (808) 541–1238.

SUPPLEMENTARY INFORMATION:

Background

The FAA will be conducting four meetings in Hawaii to provide the opportunity for the public to present their concerns and recommendations concerning aircraft overflight issues to officials for consideration in any future policy and regulatory action.

The majority of flights conducted by helicopter companies in Hawaii are commercial air tour/sightseeing operations. Recent complaints have spurred a plea for congressional action, through proposed legislation, that would require rulemaking by the FAA.

Issues such as air traffic congestion, aircraft noise, flight safety, and airport constraints near scenic areas are sometimes exacerbated by the growth of air tour/sightseeing activity and the associated increase in the number of flights conducted over a given area. The source of some complaints thought to be from sightseeing helicopter activity may actually come from other aviation operations such as military, police, drug interdiction or other government agency activity.

Commercial air tour and sightseeing flights are normally conducted under part 91 or part 135 of the Federal Aviation Regulations (FAR). Section 135.1(b)(2) of the FAR excepts nonstop sightseeing flights that begin and end at the same airport and are conducted within a 25-statute mile radius of that airport from the requirements of part 135. These flights are permitted to be conducted entirely under part 91 regardless of whether or not the flight is conducted for hire. Presently, operators flying only under part 91 do not hold an operating certificate, and do not have FAA reporting requirements. Part 91 sightseeing flights might include flights conducted by private individuals or small companies that provide only occasional rides in the local area of their home airport or heliport. The FAA has received recommendations that all air tour-sightseeing flights be conducted under FAR part 135 with certificated operators.

Helicopters are limited by regulation to a minimum altitude based on safety of flight that will permit, in the event of a power failure, an emergency landing without undue hazard to persons or property on the surface. Commercial helicopter flights conducted under Federal Aviation Regulation part 135 are restricted to no less than 300 feet above the surface when operating over a congested area. The Helicopter Association International (HAI) of Alexandria, Virginia founded the voluntary "fly neighborly" program. The program is widely supported by the helicopter industry to mitigate complaints about low-flying helicopters. The Hawaii Helicopter Operators Association (HHOA) operates with similar goals to fly neighborly in Hawaii. The HHOA has expanded the HAI fly neighborly concept with a structured member compliance program that includes a minimum standoff/altitude rule of 1500 feet.

The FAA has received requests for special regulations in Hawaii to include special air tour routes and marked areas where overflights of all aircraft are limited by altitude. Community groups have expressed their desire to limit the frequency of overflights and to have no-fly time slots. The FAA has met with representatives of local citizen groups and the helicopter industry in Hawaii regarding all of these important issues and will now conduct public meetings to gather further information in the State of Hawaii.

Participation at the Meeting

Requests from persons who wish to present oral statements at the public meetings should be submitted to Melodie De Marr at the address listed in the section entitled **FOR FURTHER INFORMATION CONTACT** no later than January 21, 1994. Such requests should include a written summary of remarks to be presented and an estimate of time needed for the presentation. Requests received after the date specified above will be scheduled if there is time available during the meeting; however, the names of those individuals may not appear on the written agenda. The FAA will prepare an agenda of speakers that will be available at the meeting. To accommodate as many speakers as possible, the amount of time allocated to each speaker may be less than the amount of time requested.

Meeting Procedures

The following procedures are established to facilitate the meeting:

(a) There is no admission fee or other charge to attend or to participate in the meeting.

(b) This meeting will be informal in nature and will be conducted by designated representatives of the Administrator. Each participant will be given an opportunity to deliver comments or make a presentation.

(c) Any person wishing to make a presentation at the meeting must notify the FAA prior to the meeting and provide an estimate of the time needed for the presentation. This procedure will permit allocation of an appropriate amount of time for each presenter. The FAA may allocate the time available for each presentation to accommodate all speakers. Everyone who has provided advance notice will have the opportunity to address the meeting panel. Time will also be set aside for brief, unscheduled comments. The meeting will be adjourned at any time if all persons present have had the opportunity to speak.

(d) Any person who wishes to present a position paper to the FAA, pertinent to the issues associated with aircraft overflights in the State of Hawaii, may do so. Persons wishing to distribute pertinent position papers to the attendees should present 10 copies of all materials to the panel members.

Additional copies of each handout should be available for other attendees.

(e) Materials relating to issues associated with aircraft overflights in the State of Hawaii will be accepted at the meeting. Every reasonable effort will be made to hear every request for presentation consistent with a reasonable closing time for the meeting. Persons may submit written comments by February 15, 1994, regardless of intent to attend the meetings.

(f) Statements made by members of the meeting panel are intended to facilitate discussion of the issues or to clarify issues. Any statement made during the meeting by a member of the panel is not intended to be, and should not be construed, as a position of the FAA.

(g) The meeting is designed to solicit public views and more complete information on aircraft overflight issues in the State of Hawaii. Therefore, the meeting will be conducted in an informal and non-adversarial manner. No individual will be subject to cross-examination by any other participant; however, panel members may ask questions to clarify a statement and to ensure a complete and accurate record.

(Authority: 49 U.S.C. App. 1302, 1303, 1348, 1354(a), 1421(a), 1424, 2451 et. seq.; 49 U.S.C. 106(g)).

Issued in Washington, DC, on December 22, 1993.

Willis C. Nelson,

Acting Manager, Airspace-Rules and Aeronautical Information Division.

BILLING CODE 4910–13–M

Intent to Rule on Application to Impose and Use and Impose Only the Revenue From a Passenger Facility Charge (PFC) at Pullman-Moscow Regional Airport, Pullman, Washington

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Pullman-Moscow Regional Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Pub. L. 101–508) and part 158 of the Federal Aviation Regulations (14 CFR part 158).

DATES: Comments must be received on or before January 28, 1994.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address:

J. Wade Bryant, Seattle Airports District Office, SEA–ADO, Federal Aviation Administration, 1601 Lind Avenue SW., Suite 250, Renton, WA 98055–4056.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Mr. David Crowner, airport Manager at the following address:

Pullman-Moscow Regional Airport, 3200 Airport Complex N., Pullman, WA 99163.

Air carriers and foreign air carriers may submit copies of written comments previously provided to Pullman-Moscow Regional Airport under § 158.23 of part 158.

FOR FURTHER INFORMATION CONTACT: Ms. Mary Vargas, (206) 227–2660; Seattle Airports District Office, SEA–ADO; Federal Aviation Administration; 1601 Lind Avenue SW., Suite 250, Renton, WA 98055–4056. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Pullman-Moscow Regional Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Pub. L. 101–508) and Part 158 of the Federal Aviation Regulations (14 CFR part 158).

On December 20, 1993, the FAA determined that the application to impose and use the revenue from a PFC submitted by the City of Pullman, WA and the City of Moscow, ID was substantially complete within the requirements of section 158.25 of Part 158. The FAA will approve or disapprove the application, in whole or in part, no later than March 22, 1994.

The following is a brief overview of the application.

Level of the proposed PFC: $3.00

Proposed charge effective date: April 1, 1994

Proposed charge expiration date: October 31, 1997

Total estimated PFC revenue: $169,287.65

Brief description of proposed project(s): Impose and Use projects: Runway 5/23 rehabilitation, runway and taxiway signage, lighting upgrade and runway 5 safety area stabilization, master plan update, aircraft rescue and fire fighting (ARFF) vehicle acquisition and storm water pollution prevention plan development, modify ARFF building and expand general aviation (GA) apron.

Class or classes of air carriers which the public agency has requested not be required to collect PFCs: Air taxi/commercial operator filing FAA form 1800–31, commuters or small certificated air carriers filing DOT Form 298–C schedule T1 or E1 and large certificated route air carriers filing RSPA Form T–100.

Any person may inspect the application in person at the FAA office listed above under **"FOR FURTHER INFORMATION CONTACT"** and at the FAA regional Airports office located at: Federal Aviation Administration, Northwest Mountain Region, Airports Division, ANM–600, 1601 Lind Avenue SW, Suite 540 Renton, WA 98055–4056.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the City of Pullman.

Issued in Renton, Washington on December 20, 1993.

Edward G. Tatum,

Manager, Airports Division, Northwest Mountain Region.

BILLING CODE 4910–13–M

National Highway Traffic Safety Administration

[Docket No. 93–93; Notice 1]

Century Products Company; Receipt of Petition for Determination of Inconsequential Noncompliance

Century Products Company (Century) of Macedonia, Ohio has determined that some of its child safety seats fail to comply with the flammability requirements of 49 CFR 571.213, "Child Restraint Systems," Federal Motor Vehicle Safety Standard (FMVSS) No. 213, and has filed an appropriate report pursuant to 49 CFR Part 573, "Defect and Noncompliance Reports." Century has also petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.*) on the basis that the noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition is published under Section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Paragraph S5.7 of FMVSS No. 213 states that "[e]ach material used in a

child restraint system shall conform to the requirements of S4 of FMVSS No. 302 (571.302)." Paragraph S4.3(a) of FMVSS No. 302 states that "[w]hen tested in accordance with S5, material described in S4.1 and S4.2 shall not burn, nor transmit a flame front across its surface, at a rate of more than 4 inches per minute." Paragraph S4.2.1 of FMVSS No. 302 states that "[a]ny material that does not adhere to other material(s) at every point of contract shall meet the requirements of S4.3 when tested separately."

During the period of December 1991 to May 1993, Century manufactured and sold 192,824 Model 4594 and 4595 child safety seats that do not comply with the flammability requirements of FMVSS No. 213. On June 7, 1993, NHTSA informed Century that, when its Model 4595 child safety seat was tested, the fabric seat cover failed to meet the Standard No. 213 flammability requirements (Century's Model 4594 has the same construction as its Model 4595, and therefore is also at issue). Calspan tested six samples of the seat covers for NHTSA, yielding burn rates of between 6.3 and 7.6 inches per minute (Agency Investigation File NCI 213–DTL–93–036).

The subject child seats are constructed of fabric, fiberfill, and backing. The covers on these seats are formed by sewing three sections together: The left side, the right side, and the center. Each section is fully sewn around its perimeter and the three sections are sewn together. The entire perimeter of the cover is then permanently and completely sewn together with an overlock to assure that the layers are securely attached. There is additional stitching surrounding the buckle opening and belt loop areas. Because of the construction of the seats, Century felt that composite testing, or testing the fabric, fiberfill, and backing together, would be the most accurate means of determining the flammability of the product.

Century supports its petition for inconsequential noncompliance with the following (Century also submitted test reports which are available for review in the NHTSA docket.):

Under the National Traffic and Motor Vehicle Safety Act (the "Act"), 15 U.S.C. § 1391 *et seq.*, each FMVSS that is promulgated is required to be practicable, and designed to "meet[ ] the need for motor vehicle safety." 15 U.S.C. 1391(2). The definition of "motor vehicle safety" is as follows:

> "Motor vehicle safety" means the performance of motor vehicles or motor vehicle equipment in such a manner that the public is protected against *unreasonable risk of accidents* occurring as a result of the design, construction or performance of motor vehicles and also protected against *unreasonable risk of death or injury* to persons in the event that accidents do occur, and includes nonoperational safety of such vehicles. 15 U.S.C. 1391(1) (emphasis added by Century).

Section 157 of the Act, 15 U.S.C. 1417, exempts manufacturers from the Act's notice and remedy requirements when the Secretary determines that a defect or noncompliance is inconsequential as it relates to motor vehicle safety. By enacting section 157, Congress acknowledged that there are circumstances where a manufacturer has failed to comply with a FMVSS and yet the impact on motor vehicle safety is so slight that an exemption from the notice and remedy requirements of the Act is justified. Century submits that this is one of those cases.

Under FMVSS No. 213, section S5.7, "each material used in a child restraint system shall conform to the requirements of S4 of FMVSS No. 302." 49 CFR 571.213 S5.7 (1992). FMVSS No. 302 sets the standard for the flammability of materials used in the interior of motor vehicles. The purpose of FMVSS No. 302 is to "reduce the deaths and injuries to motor vehicle occupants caused by vehicle fires, especially those originating in the interior of the vehicle from sources such as matches or cigarettes."

When FMVSS No. 302 was originally proposed, materials used in the interior of motor vehicles were to be tested separately regardless of how the materials were used. FMVSS No. 302 was revised prior to its release to require testing as a composite if the surface material is "bonded, sewed or mechanically attached to the underlying material." 36 FR 290 (1971). The purpose of the revision was to eliminate "an element or complexity found unnecessary for safety purposes." Under this version of FMVSS No. 302, Century's infant restraint would have been tested as a composite and readily passed the standard.

However, in 1975, the testing procedure was again revised, and the standard now in place was adopted. 40 FR 14,318 (1975). Under the revised standard, materials are tested as a composite only if the material "adhere[s] to other materials(s) at every point of contact." 49 CFR 571.302 S4.2.1. The standard was revised to take into account some omission in the testing scheme "and to reduce the complexity of testing single and composite materials." 40 FR 14,319 (1975). The standard was *not* revised because former FMVSS No. 302 was found to be inadequate to meet the safety standards of the Act, but to reduce the complexity of the testing.

The current version of FMVSS No. 302 may go further than necessary to prevent the "unreasonable risk of injury or death." This is evidenced by the results of a study completed by Failure Analysis Associates in March 1991. A study of the U.S. CPSC NEISS database and the NHTSA Complaint File back to 1978 revealed *not one* instance in which an infant or child was injured because a car seat ignited. Failure Analysis Associated, Inc., *Flammability Tests and Examination of Accident/Injury and Complaint Data* 11 (1991). A study conducted by James H. Shanley, Jr. in conjunction with Fisher-Price's petition for determination of inconsequential noncompliance also found no instances in which a vehicle fire started in a child safety seat. *Fisher-Price*, Dkt. No. 93–79, 58 FR 59,511 (1993) (Notice of Receipt of Petition for Determination of Inconsequential Noncompliance). Century realizes that the facts in their case are different from Fisher-Price and only cites the document for the purpose stated in this Petition. Moreover, in 1971 a much larger portion of our society smoked. Now, with fewer and fewer Americans smoking, the risks that an infant or child restraint could be set on fire by lighted cigarettes or matches is becoming ever more remote.

The Agency could submit that the reason there have been no fires is because of FMVSS 302 and their aggressive enforcement of the standard. But, it is important to remember that the Agency standard does not require nonflammable materials; it only requires material which burns slowly. Hence, the standard, while admirable, would not explain the fact that there has been no recorded evidence of a fire.

The frequency of incidents involving nonconforming or defective equipment is a factor in determining whether defects or noncompliance has an impact on safety. See, *e.g.*, *United States* v. *General Motors Corp.*, 656 F. Supp. 1555 (D.D.C. 1987), *aff'd*, 841 F.2d 400 (D.C. Cir. 1988) (premature wheel lockup in 1980 X-cars was not a "safety related defect" when the risk of failure was no worse than, and in most instances better than, the rate for all cars); *United States* v. *General Motors Corp.*, 561 F.2d 923 (D.C. Cir. 1977), *cert. denied*, 434 U.S. 1033 (1978) (government presented evidence of a disproportionately high number of replacement parts (35,366) and inferred, in the absence of challenge by General Motors, that replacement part sales were due to a disproportionately high rate of failures and concluded that defect

safety-related). The fact that no child has been injured by fire caused by a child car seat for the last 15 years militates strongly against a finding that Century's noncompliance has an effect on safety.

NHTSA has recognized that some technical violations of NHTSA standards do not affect safety and [has] exempted manufacturers from the notice and remedy requirements of the Act. See, *e.g.*, *General Motors Corp.*, Dkt. No. 92–23, 57 FR 45,866 (1992) (one test point on side reflex reflector failed to meet standard, but when values for reflector considered overall, noncompliance inconsequential). Another example, in *General Motors Corp.*, Dkt. No. 91–10–IP–No. 2, 56 FR 33,323 (1991), NHTSA found that the technical violation at issue had an inconsequential effect on safety because the potential hazards were so remote.

In *General Motors Corp.*, General Motors' high beam telltale in its 1990 Oldsmobile Toronado was not in compliance with NHTSA standards because when the cigar lighter was in use, the telltale dimmed or extinguished. The Agency granted GM's petition for inconsequential noncompliance because problems would occur only under a particular set of circumstances:

> The noncompliance could only manifest itself during upper beam use when the cigar lighter was also in use. But only a comparatively small portion of driving occurs at night, the time of headlamp activation. Because of State and local laws prohibiting upper beam use, only a very small percentage of nighttime driving is performed using the upper beam. The 25-second use of the cigar lighter would comprise only a limited amount of the time the upper beam is in use. The safety hazard most likely to be created by the noncompliance is glare in the eyes of oncoming driver on a two or three-lane road, but, if discomforted, the instinctive reaction of that driver would be to flash the upper beams, alerting the noncompliant vehicle to lower that vehicle's upper beams. *The probability of all these facts occurring simultaneously is low.* [Emphasis added.] *Id.* at 33,324.

[Century asserts that] the "probability of all these facts occurring simultaneously" in this Century case is exceedingly low. When tested as a composite, Century's Model 4594 and 4595 infant restraints fall within NHTSA burning rate. The components of the infant restraint are securely sewn together. In order for Century's infant restraint to pose a hazard to a passenger, (1) the seat would have to have somehow torn apart around the numerous sewn seams; (2) the fabric would have to be frayed in such a way that the fabric is sticking up away from the fiberfill; and (3) the source of ignition would have to land on the exposed fabric. Again, the "probability of all these facts occurring simultaneously" is low. Coupling the need for these unlikely probabilities with the fact that there has never been a fire caused by a child car seat ignition should make this a case where fairness requires a granting of the Petition.

Under the standard as enacted in 1971, Century's infant restraint would have been tested as a composite, and therefore, would be in compliance with NHTSA standards. FMVSS No. 302 was revised in 1975, not to address safety concerns, but simply for purposes of administrative ease. The fact that the requirements of FMVSS No. 302 are in excess of those needed to ensure the safety of the restraint's occupants was dramatically demonstrated by the results of a study performed by Patrick Kennedy, an expert retained by Fisher-Price. Mr. Kennedy's study revealed that typical children's clothing burns at a rate far in excess of the standard imposed by FMVSS No. 302.

Therefore, an infant sitting in Century's infant restraint is at far greater risk from the clothing he or she wears than from the infant restraint itself.

Century's infant restraints do not pose an unreasonable risk to the infants they hold. The question of whether Century's infant restraint meets the objectives of the Act could be phrased in this fashion: Would a reasonable parent, after being made aware of all the facts and circumstances surrounding this noncompliance, still be willing to place his or her infant in the Model 4594 or 4595 infant restraint? Century is satisfied that a reasonable parent would use their Model 4594 and 4595 restraints without any hesitation.

Century understands how serious the flammability issue is to the Agency and commends the Agency for its vigilance. Century is also serious about the issue, and would not consider selling a product that would place a child at risk. Century strongly believes that if there is a risk in this case, it is not an unreasonable risk as required by the Act. As Century's tests have shown, the seat pad on the infant restraint as a composite burns well within the burn rate acceptable to the Agency. Furthermore, the seat pad is constructed in a way that makes tears unlikely. Because Century's infant restraints meet the objectives of the Act, Century noncompliance is inconsequential as it relates to motor vehicle safety. For these reasons, Century respectfully requests that NHTSA grant its petition for exemption.

Interested persons are invited to submit written data, views, and arguments on the petition of Century, described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, room 5109, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that six copies be submitted.

All comments received before the close of business on the closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date, will also be filed and will be considered to the extent possible. When the petition is granted or denied, the notice will be published in the **Federal Register** pursuant to the authority indicated below.

Comment closing date: January 28, 1994.

Authority: 15 U.S.C. 1417; delega ions of authority at 49 CFR 1.50 and 49 CFR 501.8.

Issued on December 22, 1993.

Barry Felrice,

Associate Administrator for Rulemaking.

List of Countries Requiring Cooperation With an International Boycott

In order to comply with the mandate of section 999(a)(3) of the Internal Revenue Code of 1986, the Department of the Treasury is publishing a current list of countries which may require participation in, or cooperation with, an international boycott (within the meaning of section 999(b)(3) of the Internal Revenue Code of 1986).

On the basis of the best information currently available to the Department of the Treasury, the following countries may require participation in, or cooperation with, an international boycott (within the meaning of section 999(b)(3) of the Internal Revenue Code of 1986):

Bahrain
Iraq
Jordan
Kuwait
Lebanon
Libya
Oman
Qatar
Saudi Arabia
Syria
United Arab Emirates
Yemen, Republic of

Dated: December 22, 1993.

Samuel Y. Sessions,

Deputy Assistant Secretary for Tax Policy.

BILLING CODE 4810-25-M

Fiscal Service

[Dept. Circ. 570, 1993 Rev., Supp. No. 6]

Surety Companies Acceptable on Federal Bonds; Western Atlantic Reinsurance Corp.

A Certificate of Authority as an acceptable reinsurer on Federal Bonds is hereby issued to the following company under sections 9304 to 9308, title 31, of the United States Code. Federal bond-approving officers should annotate their reference copies of the Treasury Circular 570, 1993 Revision, on page 35824 to reflect this addition:

Western Atlantic Reinsurance Corporation. BUSINESS ADDRESS: 380 Madison Avenue, New York, NY, 10017. PHONE: (212) 973-5800. UNDERWRITING LIMITATION *b*: $9,110,000.

Certificates of Authority expire on June 30 each year, unless revoked prior to that date. The Certificates are subject to subsequent annual renewal as long as the companies remain qualified (31 CFR, part 223). A list of qualified companies is published annually as of July 1 in Treasury Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information.

Copies of the Circular may be obtained from the Surety Bond Branch, Funds Management Division, Financial Management Service, Department of the Treasury, Washington, DC 20227, telephone (202) 874-6602.

Dated: December 23, 1993.

Charles F. Schwan III,

Director, Funds Management Division, Financial Management Service.

BILLING CODE 4810-35-M

DEPARTMENT OF VETERANS AFFAIRS

Privacy Act of 1974; Reporting Matching Program

ACTION: Notice of matching program.

SUMMARY: Notice is hereby given that the Department of Veterans Affairs (VA), Veterans Health Administration (VHA), intends to conduct a recurring computer matching program matching Internal Revenue Service (IRS) and Social Security Administration (SSA) income records with VA patient income data contained in the patient medical record. The goal of these matches is to compare income, social security number, and employment status as reported to VHA with income records maintained by IRA and SSA. For the information of all concerned, a summary report of the VHA matching program, describing the computer matches follows. In accordance with 5 U.S.C. 552a(o)(2), copies of the matching agreements are being sent to both houses of Congress. These matches are expected to commence not sooner than 40 days after agreements by the parties are submitted to Congress and the Office of Management and Budget and not sooner than 30 days from the date of publication of this notice, or 40 days from the date this notice was approved, whichever is later. The matches may be extended by the involved Data Integrity Boards for a twelve month period provided all agencies involved certify to the Data Integrity Boards, within three months of the termination date of the original match, that the matching programs will be conducted without change and the matching programs have been conducted in compliance with the original matching agreements. The matches will not continue past the date the legislative authority to obtain this information expires.

ADDRESSES: Interested individuals may comment on the matches by writing to the Director, Administration Services Office (161), Veterans Health Administration, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT:

Celia Winter (202) 535-7437, Program Analyst, Medical Administration Services.

SUPPLEMENTARY INFORMATION: Further information regarding the matching program is provided below. This information is required by Title 5 U.S.C. 552a(e)(12), the Privacy Act of 1974, as amended. A copy of this notice has been provided to both houses of Congress and the Office of Management and Budget.

Approved: December 13, 1993.

Jesse Brown,

Secretary of Veterans Affairs.

Report of Matching Program

Department of Veterans Affairs Patient Medical Records with Income Records Maintained by the Internal Revenue Service and the Social Security Administration

a. **Authority:** Title 38 U.S.C. 5106 and 5317; Pub. L. 101-508 as amended by Pub. L. 102-568.

b. **Program Description:**

(1) *Purpose:* (a) The Department of Veterans Affairs (VA), Veterans Health Administration (VHA) plans to match the household income information contained in the medical records of certain nonservice-connected veterans, with the income records for those persons maintained by the Internal Revenue Service (IRS) and the Social Security Administration (SSA). Those nonservice-connected veterans subject to income verification matching are those veterans who are receiving VA medical care in a mandatory eligibility category due to a finding of low-income subsequent to means testing.

(b) Currently, information about a veterans household income (i.e., veteran and spouses receipt of wage, self-employment and other income as well as employment status, health insurance coverage and number of dependents) is obtained when the veteran makes application for medical care at a VA medical care facility. The household income and dependent data is evaluated in a "means test" which takes into account deductions of certain income not counted as such for Veterans Health Administration eligibility purposes. Once a net income for the veteran is established, it is applied against means test thresholds, or levels of income establishing mandatory or discretionary eligibility for medical care. If the veterans' net income falls below the applicable means test threshold, he or she is eligible for mandatory care (i.e., no-cost care); however, if the net income falls over the applicable threshold, the veteran is given a discretionary eligibility. Veterans who are eligible for discretionary care are provided care if the VA medical facility has the resources to treat discretionary veterans, and if the veteran agrees to make a co-payment for such care. The proposed matching programs will enable VA to verify the accuracy of reported income and employment status and therefore more accurately determine eligibility for medical care.

(2) *Procedures:* VA's Veterans Health Administration has established an Income Verification Match (IVM) Center. The IVM Center will electronically extract demographic and income data from each VA medical care facility's database on nonservice-connected veterans found eligible for mandatory care based solely on low income. The VHA IVM extract file will be matched against IRS and SSA income records. If a VHA record and SSA or IRS record match on social security number and name, the IVM Center will begin an extensive case development and verification process. This process will assure the validity of the matched cases by verifying the IRS/SSA reported income amount with the payer(s) and recipients of the income. Each veteran and/or spouse identified by the match will be contacted in order to notify the veteran and/or spouse of the income discrepancy identified by the match, to verify the discrepancy, and to advise him or her of potential changes to the veterans' medical care eligibility at the VA medical center, and the potential billing action for co-payments. Before any adverse action is taken, the individual(s) identify by the match will be given the opportunity to contest the findings. Where there are reasonable grounds to believe that there has been a violation of criminal laws, the matter will be referred for prosecutive consideration in accordance with existing VA policies.

c. **Records to be Matched.** The VA records involved in the match are patient medical records maintained in the "Patient Medical Record—VA (24VA136)" contained in the Privacy Act Issuances, 1991 Compilation, Volume II, and amended at 57 FR 28003, June 23, 1992; 57 FR 45419; October 1, 1992; 58 FR 29853, May 24, 1993, and 58 FR 40852, July 30, 1993. The IRS records are from the Wage and Information Returns (IRP) Master File, Privacy Act System Treas/IRS 22.061. The SSA records are from the Earnings Recording and Self-Employment Income System, HHS/SSA/OSR 09-60-0059.

d. **Period of Match.** The initial data exchanges are expected to begin 40 days after the matching agreements are signed by the Data Integrity Boards (DIB's) and Congressional Offices and OMB have been notified, and 30 days from the date of publication of notice in the **Federal Register** or 40 days from the date this notice is approved, whichever is later. These matches may be extended by the involved DIB's for a twelve month period provided the agencies participating in the match certify to the Data Integrity Boards, within three months of the termination date of the original match, that the matching programs will be conducted without change and the matching programs have been conducted in compliance with the original matching agreements. The matches will not continue past the date of legislative authority to obtain this information expires.

BILLING CODE 8320-01-M

VOL 58 ISS 248 DEC 29 1993 UMI

Sunshine Act Meetings

Federal Register
Vol. 58, No. 248
Wednesday December 29, 1993

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

BOARD FOR INTERNATIONAL BROADCASTING

TIME AND DATE: 11:00 a.m., January 3, 1994.

PLACE: 1001 Pennsylvania Avenue, NW., suite 500, Great Lakes Room, Washington, DC 20004.

CLOSED MEETING: The members of the Board for International Broadcasting will meet in closed session to discuss potential measures for achieving budget reductions consistent with the broad foreign policy objectives of the United States. The meeting will be closed pursuant to 5 U.S.C. 552b(c)(1), (2), and (9)(B), and 22 CFR 1302.4 (a), (b), and (h), because premature disclosure of the information discussed would be likely to significantly frustrate implementation of a proposed agency action, including but not limited to negotiations abroad. The closed meeting will be followed by a closed meeting of the Board of Directors of RFE/RL, Inc., a nonprofit private corporation.

CONTACT PERSON FOR MORE INFORMATION: Patricia Sowick, Program Officer, Board for International Broadcasting, suite 400, 1201 Connecticut Avenue, NW., Washington, DC 20036.

Dated: December 27, 1993

Richard W. McBride,

Executive Director

Privacy Act of 1974; Annual Publication of Systems of Records

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Office of the Assistant Secretary for Health; Privacy Act of 1974; Annual Publication of Systems of Records Notices

AGENCY: Public Health Service, HHS.

ACTION: Publication of minor changes to systems of records notices.

SUMMARY: In accordance with Office of Management and Budget Circular No. A–130, Appendix I, "Federal Agency Responsibilities for Maintaining Records About Individuals," the Office of the Assistant Secretary for Health (OASH) in the Public Health Service (PHS) has reviewed its system notices and determined that there are no changes.

SUPPLEMENTARY INFORMATION: OASH has completed the annual review of its systems of records. Since the publication of December 31, 1992, OASH has made no changes to its inventory of systems of records that affect the public's right or need to know. A Table of Contents of active systems of records is published below. The complete text of the system notices was last published in the Office of the Federal Register's 1991 biennial Compilation of Privacy Act Issuances.

Dated: November 12, 1993.

Wilford J. Forbush,

Director, Office of Management.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Health Care Policy and Research

Privacy Act of 1974; Annual Publication of Systems of Records

AGENCY: Department of Health and Human Services (HHS); Public Health Service (PHS); Agency for Health Care Policy and Research (AHCPR).

ACTION: Annual Publication of Revisions to PHS Privacy Act System Notices.

SUMMARY: The Agency for Health Care Policy and Research (AHCPR) is publishing this notice in accordance with Office of Management and Budget Circular No. A–130, Appendix I, "Federal Agency Responsibilities for Maintaining Records About Individuals," which requires that agencies review each system of records annually and publish any minor changes in the **Federal Register**.

The AHCPR has completed the annual review of its systems of records and is publishing below (1) a table of contents which lists all active systems of records in AHCPR, and (2) those minor changes which an individual needs to know to obtain access to his or her records, such as changes in the system location of records or the address of system managers.

Dated: November 1, 1993.

J. Jarrett Clinton,

Administrator.

Table of Contents

09–35–0001 Agency for Health Care Policy and Research, Grants Information and Tracking System with Contracts Component (GIAnT), HHS/AHCPR/OM.
09–35–0002 National Medical Expenditure Survey, HHS/AHCPR/CGHSIR.
09–35–0003 AIDS Cost and Services Utilization Survey (ACSUS), HHS/AHCPR/CGHSER.
09–35–0004 Medical Treatment Effectiveness Program (MEDTEP), HHS/AHCPR.

09–35–0002

SYSTEM NAME:

National Medical Expenditure Survey, HHS/AHCPR/CGHSIR.

Minor changes have been made to this system notice. The following categories are hereby revised:

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Individuals and members of households selected by probability sampling techniques to be representative of the civilian noninstitutionalized population of the United States; health care providers, staff responding on behalf of health insurers and the employers of members of sampled households; (2) residents and next-of-kin of such residents of nursing and personal care homes, selected by probability sampling techniques to be representative of residents of such homes, and facilities and the staff responding on behalf of such facilities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records containing information on: (1) The incidence of illness and accidental injuries, prevalence of diseases and impairments, the extent of disability, the use, expenditures and sources of payment for health care services, and other characteristics of individuals obtained in household interviews (demographic and socioeconomic characteristics such as age, marital status, education, occupation and family income) and the names, telephone numbers and addresses of the responding staffs of health care providers, health insurers, and employers; (2) the utilization of long-term care, nursing home care, care in personal care homes through data on residents (demographic and social characteristics, health status and charges and sources of payment for care); through data facility characteristics (general characteristics, certification, services offered and corresponding expenses), and through data on next-of-kin or representatives of residents (demographic and social characteristics, health status, and expenditures for health care of residents); and (3) Medicare claims records of members of sampled households and of sampled residents of nursing and personal care homes.

RECORD SOURCE CATEGORIES:

Respondents in the survey samples including: Members of households, physicians, hospitals, health insurers, employers, staff of nursing and personal care homes, the next-of-kin of residents of such homes and facilities, and Systems 09–70–0005, Medicare Bill File (Statistics), HHS/HCFA/BDMS.

09–35–0003

SYSTEM NAME:

AIDS Cost and Services Utilization Survey (ACSUS), HHS/AHCPR/CGHSER.

Minor changes have been made to this system notice. The following category is hereby revised:

SYSTEM MANAGER AND ADDRESS:

Director, Division of Cost and Financing, Center for General Health Services Extramural Research, Agency for Health Care Policy and Research, Executive Office Center, Suite 502, 2101 East Jefferson Street, Rockville, Maryland 20852–4908

09–35–0004

SYSTEM NAME:

Agency for Health Care Policy and Research, Medical Treatment Effectiveness Program (MEDTEP), HHS/AHCPR.

Minor changes have been made to this system notice. The following categories are hereby revised.

SYSTEM LOCATION:

Office of the Forum for Quality and Effectiveness in Health Care, Agency for Health Care Policy and Research, Willco Building, Suite 310, 6000 Executive Boulevard, Rockville, Maryland 20852–3883, (301) 594–4015

Bureau of Data Management and Strategy, Office of Computer Operations, The Health Care Financing Administration, 6325 Security Boulevard, Baltimore Maryland 21218

Division of Computer Research and Technology (DCRT), National Institutes of Health, Building 12A, Room 4037, 9000 Rockville Pike, Bethesda, Maryland 20892

Parklawn Computer Center (PCC), Public Health Service, Parklawn Computer Center, Rockville, Maryland 20857

Inactive records will be stored at: Washington National Records Center, Room 125, 4205 Suitland Road, Suitland, Maryland 20409

A current list of contractor sites is available by writing to the System Manager at the address below: Director, Cost Analysis and Evaluation Unit, Office of the Forum for Quality and Effectiveness in Health Care, Agency for Health Care Policy and Research, Willco Building, Suite 310, 6000 Executive Boulevard, Rockville, Maryland 20852–3883, (301) 594–4015

SAFEGUARDS:

1. *Authorized users:* These records will be maintained on the Health Care Financing Administration's (HCFA) computer in Baltimore, MD, National Institutes of Health's (NIH)—DCRT mainframe computer in Bethesda, MD, at the Parklawn Computer Center (PCC) in Rockville, MD, or on AHCPR contractor computers, and access is by password known only to authorized users who are AHCPR staff or contractors or their employees responsible for the conduct of authorized research.

2. *Physical safeguards:* Access to computer systems where data are stored electronically is restricted to individuals with special identification codes and accounts. The data set names are known only to those individuals with a need to know for authorized research. Inactive records in hard copy or on magnetic media are stored at the Federal Records Storage Facility with Records Management approval and with the safeguards and security provided by the facility. Rooms where records are stored are double locked when not in use. During regular business hours rooms are unlocked but access is controlled by on-site personnel.

3. *Procedural and technical safeguards:* Approval for access and use of the HCFA, NIH, PCC and contractors mainframe computers is required prior to issuing a user ID and account. A password is required to access the terminal and a data set name controls the release of data only to authorized users. All users of confidential information in connection with the performance of their research (see Authorized Users, above) protect information from public view and from unauthorized personnel entering an unsupervised office. Records maintained at the Federal Records Storage Facility cannot be released without proper procedure and only to authorized individuals in AHCPR. AHCPR staff monitors contractor compliance with the provisions of the Privacy Act, as well as compliance with the confidentiality protection in 42 U.S.C. 299a-1(c). Contractor system security must be commensurate with the use and sensitivity of the records.

RETENTION AND DISPOSAL:

After completion of the proposed studies, AHCPR staff and contractors will retire hard copy records and/or records on magnetic media to a Federal Records Center. Contractors will delete all records from their computer systems upon completion of the specified studies and retain no copies of any of these records. Records may be retired to a Federal Records Center and subsequently disposed of in accordance with the AHCPR Records Control Schedule. The records control schedule and disposal standard for these records may be obtained by writing to the system manager at the address below.

Policy-Coordinating Official:

Director, Cost Analysis and Evaluation Unit, Office of the Forum for Quality and Effectiveness in Health Care, Agency for Health Care Policy and Research, Willco Building, Suite 310, 6000 Executive Boulevard, Rockville, Maryland 20852–3883, (301) 594–4015.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Cost Analysis and Evaluation Unit, Center for Medical Effectiveness Research, Agency for Health Care Policy and Research, Executive Office Center, 2101 East Jefferson Street, Suite 605, Rockville, Maryland 20852–4908, (301) 594–1485

Project Officer, Pediatric Gastroenteritis Research, Center for Medical Effectiveness Research, Agency for Health Care Policy and Research, Executive Office Center, 2101 East Jefferson Street, Suite 605, Rockville, Maryland 20852–4908, (301) 594–1485

Project Officer, C-Section Research, Center for Medical Effectiveness Research, Agency for Health Care Policy and Research, Executive Office Center, 2101 East Jefferson Street, Suite 605, Rockville, Maryland 20852–4908, (301) 594–1485

Project Officer, Schizophrenia Research, Center for Medical Effectiveness Research, Agency for Health Care Policy and Research, Executive Office Center, 2101 East Jefferson Street, Suite 605, Rockville, Maryland 20852–4908, (301) 594–1485

Project Officer, Low Birth Weight Research, Center for Medical Effectiveness Research, Agency for Health Care Policy and Research, Executive Office Center, 2101 East Jefferson Street, Suite 605, Rockville, Maryland 20852–4908, (301) 594–1485

Project Officer, Stroke Research, Center for Medical Effectiveness Research, Agency for Health Care Policy and Research, Executive Office Center, 2101 East Jefferson Street, Suite 605, Rockville, Maryland 20852–4908, (301) 594–1485

Public Health Service

Substance Abuse and Mental Health Services Administration Privacy Act of 1974; Annual Publication of Revisions to Systems Notices

AGENCY: Public Health Service, DHHS.

ACTION: Privacy Act: Annual Publication of Revisions to System Notices.

SUMMARY: The Substance Abuse and Mental Health Services Administration (SAMHSA) is publishing this notice in accordance with the Office of Management and Budget Circular No A–130, Appendix I, "Federal Agency

Responsibilities for Maintaining Records about Individuals," which requires that agencies review each system of records annually and publish any minor changes in the **Federal Register**. SAMHSA is publishing (1) a table of contents which lists all active systems of records in SAMHSA, and (2) those minor changes, such as systems names, legislative authorities, system locations, and addresses of system managers, that improve clarity and are a result of the reorganization of the Alcohol, Drug Abuse, and Mental Health Administration (ADAMHA).

SUPPLEMENTARY INFORMATION: On October 1, 1992, ADAMHA was reorganized into SAMHSA as mandated by the ADAMHA Reorganization Act of 1992, Pub. L. 102–321. As required by law, SAMHSA consists of the Office of the Administrator and three Centers, which administer the prevention and treatment services programs formerly in ADAMHA—the Center for Substance Abuse Prevention, the Center for Substance Abuse Treatment, and the Center for Mental Health Services. The research Institutes formerly at ADAMHA—the National Institute of Alcohol Abuse and Alcoholism, the National Institute on Drug Abuse, and the National Institute of Mental Health—became components of the National Institutes of Health.

Table of Contents

09–30–0023—Records of Contracts Awarded to Individuals, HHS/SAMHSA/OA; published **Federal Register**, Vol. 49, No. 106, p. 22713.
09–30–0027—Grants and Cooperative Agreements: ADM Services Evaluation, Training, Service, Education, Demonstration, Fellowship, Clinical Training, Community Services, HHS/SAMHSA/OA; published **Federal Register**, Vol. 49, No. 106, p. 22714.
09–30–0029—Records of Guest Workers, HHS/SAMHSA/OA; published **Federal Register**, Vol. 48, No. 230, p. 53823.
09–30–0033—Correspondence Files, HHS/SAMHSA/OA; published **Federal Register**, Vol. 48, No. 230, p. 53825.
09–30–0036—Alcohol, Drug Abuse, and Mental Health Epidemiologic Data HHS/SAMHSA/OA; published **Federal Register**, Vol. 49, No. 206, p. 42639.
09–30–0047—Patient Records on Chronic Mentally Ill Merchant Seamen Treated at Nursing Homes in Lexington, Kentucky, (1942 to Present), HHS/SAMHSA/CMHS, published **Federal Register**, Vol. 51, No. 226, p. 42395.
09–30–0049—Consultant Records Maintained by ADAMHA Contractors, HHS/SAMHSA/OA; published **Federal Register**, Vol. 52, No. 195, p. 37660.

09–30–0023—

SYSTEM NAME:

Records of Contracts Awarded to Individuals, HHS/SAMHSA/OA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Substance Abuse and Mental Health Services Administration, Office of the Administrator, Office of Management, Planning, and Communciations, SAMHSA Contracts Office, Room 13C–20, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

An individual who receives a contract as well as individuals who apply or compete for an award but do not receive the award and their consultants.

CATEGORIES OF RECORDS IN THE SYSTEM:

Curriculum vitae, salary information, evaluations of proposals by contract review committees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

SAMHSA: Public Health Service Act, sections 301 (42 U.S.C. 241), 322 (42 U.S.C. 249(c)), and 501–05 (42 U.S.C. 290aa et seq.). CSAT: Center for Substance Abuse Treatment, section 507–12 (42 U.S.C. 290bb et. seq.). CSAP: Center for Substance Abuse Prevention, section 515–8 (42 U.S.C. 290bb–21 et seq.). CMHS: Center for Mental Health Services, sections 506 (42 U.S.C. 290aa–5) and 520–35 (42 U.S.C. 290bb–31 et seq.). Protection and Advocacy for Individuals with Mental Illness Act of 1986 as amended (42 U.S.C. 10801 et seq.); Refugee Education Assistance Act of 1980, section 501(c) (8 U.S.C. 1522 note), Pub. L. 96–422; Executive Order 12341; and Disaster Relief Act of 1974, section 413, Pub. L. 93–288, as amended by section 416 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Pub. L. 100–107.

PURPOSE(S):

To document the history of each contract procurement action and award made within SAMHSA to an individual. The records are also used by contract review committee members when evaluating a proposal submitted by an individual.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from the congressional office made at the written request of that individual.

2. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided however, that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

3. A record from this system may be disclosed to the following entities in order to help collect a debt owed the United States:

(a) To another Federal agency so that agency can effect a salary offset;

(b) To another Federal agency so that agency can effect an administrative offset under common law or under 31 U.S.C. 3716 (withholding from money payable to, or held on behalf of, the individual);

(c) To the Treasury Department to request his/her mailing address under I.R.C. 6103(m)(2) in order to locate him/her or in order to have a credit report prepared;

(d) To agents of the Department and to other third parties to help locate him/her in order to help collect or compromise a debt;

(e) To debt collection agents under 31 U.S.C. 3718 or under common law to help collect a debt; and

(f) To the Justice Department for litigation or further administrative action.

Disclosure under part (d) of this routine use is limited to the individual's name, address, Social Security number, and other information necessary to identify him/her. Disclosure under parts (a)–(c) and (e) is limited to those items; the amount, status, and history of the claim; and the agency or program under which the claim arose. An address obtained from IRS may be disclosed to a credit reporting agency under part (d) only for purposes of preparing a commercial credit report on the individual. Part (a) applies to claims or debts arising or payable under the Social Security Act if and only if the employee consents in writing to the offset.

4. SAMHSA may disclose information from its records in this system to consumer reporting agencies in order to obtain credit reports to verify credit worthiness of contract applicants. Permissible disclosures include name, address, Social Security number or other information necessary to identify the individual; the funding being sought; and the program for which the information is being obtained.

5. When a debt becomes partly or wholly uncollectible, either because the time period for collection under the statute of limitations has expired or because the Government agrees with the individual to forgive or compromise the debt, a record from this system of records may be disclosed to the Internal Revenue Service to report the written-off amount as taxable income to the individual.

6. A record from this system may be disclosed to another Federal agency that has asked the Department to effect an administrative offset under common law or under 31 U.S.C. 3716 to help collect a debt owed the United States.

Disclosure under this routine use is limited to: name, address, Social Security number, and other information necessary to identify the individual, information about the money payable to or held for the individual, and other information concerning the administrative offset.

7. SAMHSA may disclose from this system of records to the Department of Treasury, Internal Revenue Service (IRS): (1) A delinquent debtor's name, address, Social Security number, and other information necessary to identify the debtor; (2) the amount of the debt; and (3) the program under which the debt arose, so that IRS can offset against the debt any income tax refunds which may be due to the debtor.

DISCLOSURES TO CONSUMER REPORTING AGENCIES:

Disclosures may be made from this system to "consumer reporting agencies" as defined in the Fair Credit Reporting Act (15 U.S.C. 1681 (F)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)). The purpose of such disclosures is to provide an incentive for debtors to repay delinquent Federal Government debts by making these debts part of their credit records. Information disclosed will be limited to name, Social Security number, address, other information necessary to establish the identity of the individual, and amount, status, and history of the claim, and the agency or program under which the claim arose. Such disclosures will be made only after the procedural requirements of 31 U.S.C. 3711(f) have been met.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

Storage: Documents filed in folders in enclosed and/or locked file cabinets.

Retrievability: By contract number and cross indexed by individual's name.

SAFEGUARDS:

1. *Authorized users:* Federal contract and support personnel, Federal contract review staff and outside consultants acting as peer reviewers of the project.

2. *Physical safeguards:* All folders are in file cabinets in a room that is locked after business hours in a building with controlled entry (picture identification). Files are withdrawn from cabinet for Federal staff who have a need to know by a sign in and out procedure.

3. *Procedural safeguards:* Access to records is strictly limited to those staff members trained in accordance with the Privacy Act.

4. *Implementation guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual.

RETENTION AND DISPOSAL:

Records are retired to a Federal Records Center and subsequently disposed of in accordance with the SAMHSA Records Control Schedule. The records control schedule and disposal standard for these records may be obtained by writing the System Manager at the address below.

SYSTEM MANAGER(S) AND ADDRESS:

SAMHSA Contracts Officer, Substance Abuse and Mental Health Services Administration, Office of the Administrator, Office of Management, Planning, and Communications, Room 13C–20, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the appropriate System Manager at the address above. An individual may learn if a record exists about himself/herself upon written request with notarized signature. The request should include, if known, contractor's name, contract number, and approximate date contract was awarded. An individual may also request accounting of disclosures that have been made of his/her record, if any.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should reasonably specify the record contents being sought. An individual may also request an accounting of disclosures of his/her record, if any.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above and reasonably identify the record, specify the information being contested, the corrective action sought, along with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Contract proposals and supporting contract documents, contract review committees, site visitors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–30–0027

SYSTEM NAME:

Grants and Cooperative Agreements ADM Services Evaluation, Training, Service, Education, Demonstration, Prevention, Fellowships, Clinical Training, Community Programs, HHS/SAMHSA/OA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Substance Abuse and Mental Health Services Administration, Office of the Administrator, Office of Management, Planning, and Communications, SAMHSA Grants Management Office, Room 13C–20, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Principal investigators, program directors, trainees, fellows, and other employees of applicant or grantee institutions.

CATEGORIES OF RECORDS IN THE SYSTEM:

Grant and cooperative agreement applications and review history, including curriculum vitae, salary information, summary of review committee deliberations and supporting documents, progress reports, financial records, and payback records of clinical training awardees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

SAMHSA: Public Health Service Act, sections 301 (42 U.S.C. 241), 303 (42 U.S.C. 242(a)), 322 (42 U.S.C. 249(c)),

501 (42 U.S.C. 290aa), 503 (42 U.S.C. 290aa–2), and 505 (42 U.S.C. 290aa–4). CSAT: Center for Substance Abuse Treatment, section 507–12 (42 U.S.C. 290bb et. seq.). CSAP: Center for Substance Abuse Prevention, section 515–18 (42 U.S.C. 290bb–21 et. seq.). CHMS: Center for Mental Health Services, sections 506 (42 U.S.C. 290aa–5) and 520–35 (42 U.S.C 290bb–31 et. seq.). Protection and Advocacy for Individuals with Mental Illness Act of 1986 as amended (42 U.S.C. 10801 et. seq.); Refugee Education Assistance Act of 1980, section 501(c) (8 U.S.C. 1522 note), Pub. L. 96–422; Executive Order 12341; and Disaster Relief Act of 1974, section 413, Pub. L. 93–288, as amended by section 416 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Pub. L. 100–107.

PURPOSE(S):

Records are maintained as official documentation relevant to the review, award, and administration of grant programs. Specifically, records are: 1. Used by staff program and management specialists for purpose of awarding and monitoring grant funds; 2. used to maintain communication with former trainees/fellows who have incurred an obligation for clinical training, Public Health Service Act, section 303 (42 U.S.C. 242a).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to qualified experts not within the definition of Department employees for opinion during the application review process.

2. Disclosure may be made to SAMHSA contractors for the purpose of providing services related to the grant review or for carrying out quality assessment, program evaluation, and management reviews. Contractors are required to maintain Privacy Act safeguards with respect to the records.

3. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal (e.g., the Department of Justice) or State (e.g., the State's Attorney's Office), charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto for litigation.

4. Disclosure may be made to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the record is relevant and necessary to the requesting agency's decision on the matter.

5. Where Federal agencies having the power to subpoena other Federal agencies' records, such as the Internal Revenue Service or the Civil Rights Commission, issue a subpoena to the Department for records in this system of records, the Department will make such records available.

6. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from the congressional office made at the written request of that individual.

7. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided however, that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

8. A record from this system may be disclosed to the following entities in order to help collect a debt owed the United States:

(a) To another Federal agency so that agency can effect a salary offset;

(b) To another Federal agency so that agency can effect an administrative offset under common law or under 31 U.S.C. 3716 (withholding from money payable to, or held on behalf of, the individual);

(c) To the Treasury Department to request his/her mailing address under I.R.C. 6103(m)(2) in order to locate him/her or in order to have a credit report prepared;

(d) To agents of the Department and to other third parties to help locate him/her in order to help collect or compromise a debt;

(e) To debt collection agents under 31 U.S.C. 3718 or under common law to help collect a debt; and

(f) To the Justice Department for litigation or further administrative action.

Disclosure under part (d) of this routine use is limited to the individual's name, address, social security number and other information necessary to identify him/her. Disclosure under parts (a)-(c) and (e) is limited to those items; the amount, status, and history of the claim; and the agency or program under which the claim arose. An address obtained from IRS may be disclosed to a credit reporting agency under part (d) only for purposes of preparing a commercial credit report on the individual. Part (a) applies to claims or debts arising or payable under the Social Security Act if and only if the employee consents in writing to the offset.

9. SAMHSA may disclose information from its records in this system to consumer reporting agencies in order to obtain credit reports to verify credit worthiness of grant/cooperative agreement applicants. Permissible disclosures include name, address, Social Security number or other information necessary to identify the individual; the funding being sought; and the program for which the information is being obtained.

10. When a debt becomes partly or wholly uncollectible, either because the time period for collection under the statute of limitations has expired or because the Government agrees with the individual to forgive or compromise the debt, a record from this system of records may be disclosed to the internal revenue service to report the written-off amount as taxable income to the individual.

11. A record from this system may be disclosed to another Federal agency that has asked the Department to effect an administrative offset under common law or under 31 U.S.C. 3716 to help collect a debt owed the United States.

Disclosure under this routine use is limited to: name, address, Social Security number, and other information necessary to identify the individual, information about the money payable to or held for the individual, and other information concerning the administrative offset.

12. SAMHSA may disclose from this system of records to the Department of Treasury, Internal Revenue Service (IRS): (1) A delinquent debtor's name, address, Social Security number, and other information necessary to identify the debtor; (2) the amount of the debt; and (3) the program under which the debt arose, so that IRS can offset against the debt any income tax refunds which may be due to the debtor.

DISCLOSURES TO CONSUMER REPORTING AGENCIES:

Disclosures may be made from this system to "consumer reporting agencies" as defined in the Fair Credit Reporting Act (15 U.S.C. 1681(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)). The purpose of such disclosures is to provide an incentive for debtors to repay delinquent Federal Government debts by making these debts part of their credit records. Information disclosed will be limited to name, Social Security number, address, other information necessary to establish the identity of the individual, the amount, status, and history of the claim, and the agency or program under which the claim arose. Such disclosures will be made only after the procedural requirements of 31 U.S.C. 3711(f) have been met.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Noncomputerized documents are filed in folders in enclosed file cabinets and open shelves. Information on 3×5 cards in file cabinets. Computerized records exist in tape and disk form.

RETRIEVABILITY:

By grant numbers and cross-indexed by name.

SAFEGUARDS:

1. *Authorized users:* Access is limited to the SAMHSA Grants Management Officer and staff authorized by him/her: Grants specialists, grants technicians, program officials, assigned computer personnel, and possibly contractor staff including the project director and research associates.

2. *Physical safeguards:* Records are maintained in a secured area. During normal work hours, area is staffed by authorized personnel who must show identification for entry. At other times, the computer area is locked. Hard copy files are stored in rooms which are locked at night. A 24-hour security guard patrols building.

3. *Procedural safeguards:* Computer records are password protected; passwords are changed periodically. Contractors working on computerized records are given passwords to access data only on a need-to-know basis.

4. *Implementation guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf 45–13 of the General Administration Manual and Part 6, "ADP System Security" of the ADP Systems Security Manual.

RETENTION AND DISPOSAL:

Records are retired to a Federal Records Center 2 years after termination of support and the completion of final audit.

SYSTEM MANAGER(S) AND ADDRESS:

SAMHSA Grants Management Officer, Substance Abuse and Mental Health Services Administration, Office of the Administrator, Office of Management, Planning, and Communications, Room 13C–20, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the appropriate System Manager at the above address. Verifiable proof of identity is required.

RECORD ACCESS PROCEDURES:

Same as notification procedure. Requesters should also reasonably specify the record contents being sought, and should provide the official grant number when possible. An individual may also request an accounting of disclosures of his/her record, if any.

CONTESTING RECORD PROCEDURES:

Contact the appropriate System Manager at the address specified above and reasonably identify the record, specify the information being contested, the corrective action sought, along with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Applicants, grantees, fellows, trainees, personnel at grantee institution on whom the record is maintained, Federal advisory committees, site visitors, consultants, references.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–30–0029

SYSTEM NAME:

Record of Guest Workers, HHS/SAMHSA/OA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Substance Abuse and Mental Health Services Administration, Division of Personnel Management, Room 15C–21, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals using SAMHSA facilities who are not employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personal information including name, address, date and place of birth, education, employment, purpose for which SAMHSA facilities are desired, outside sponsor and SAMHSA sponsor.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Health Service Act, section 301 (42 U.S.C. 241).

PURPOSE(S):

To document individual's presence at SAMHSA and as a record that the individual is not performing services for SAMHSA and is therefore not an employee.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to the U.S. Office of Personnel Management for program evaluation purposes.

2. Disclosure may be made to institutions providing financial support for subject individual.

3. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from the congressional office made at the written request of that individual.

4. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided however, that in each case, HHS determines that such disclosure is

compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in file folders.

RETRIEVABILITY:

Retrieved by name.

SAFEGUARDS:

1. *Authorized users:* Authorized employees of the Division of Personnel Management and SAMHSA managers and supervisors with legitimate interest in guest workers.

2. *Physical safeguards:* Records are stored in locked rooms.

3. *Procedural safeguards:* Authorized individuals have been trained in accordance with the Privacy Act.

4. *Implementation guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual.

RETENTION AND DISPOSAL:

Retained for 2 years after completion of visit, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Personnel Management, Substance Abuse and Mental Health Services Administration, Office of the Administrator, Office of Management, Planning, and Communications, Room 15C–21, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

To determine if a record exists, contact the System Manager at the address above. Individuals who request notification in person must supply one proof of identity containing individual's complete name and one other identifier with picture (e.g., driver's license, building pass). Individuals who request notification by mail must supply notarized signature as proof of identity.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. An individual may also request an accounting of disclosures of his/her record, if any.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under Notification Procedures above and reasonably identify the record, specify the information to be contested, and state the corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Subject individual and SAMHSA sponsor.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–30–0033

SYSTEM NAME:

Correspondence Files. HHS/SAMHSA/OA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Substance Abuse and Mental Health Services Administration, Office of the Administrator, Executive Secretariat, Room 12C–12, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857

Center for Substance Abuse Prevention, Office of the Director, Room 9D10, Rockwall II Building, 5600 Fishers Lane, Rockville, Maryland 20857

Center for Substance Abuse Treatment, Office of the Director, Room 10–75, Rockwall II Building, 5600 Fishers Lane, Rockville, Maryland 20857

Center for Mental Health Services, Office of the Director, Room 15–105, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who request information on SAMHSA programs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

SAMHSA: Public Health Service Act, sections 301 (42 U.S.C. 241), 322 (42 U.S.C. 249(c)), and 501–05 (42 U.S.C. 290aa et seq.). CSAT: Center for Substance Abuse Treatment, section 507–12 (42 U.S.C. 290bb et seq.). CSAP: Center for Substance Abuse Prevention, section 515–8 (42 U.S.C. 290bb–21 et seq.). CMHS: Center for Mental Health Services, sections 506 (42 U.S.C. 290aa–5) and 520–35 (42 U.S.C. 290bb–31 et seq.). Protection and Advocacy for Individuals with Mental Illness Act of 1986 as amended (42 U.S.C. 10801 et seq.); Refugee Education Assistance Act of 1980, section 501(c) (8 U.S.C. 1522 note), Pub. L. 96–422; Executive Order 12341; and Disaster Relief Act of 1974, section 413, Pub. L. 93–288, as amended by section 416 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Pub. L. 100–107.

PURPOSE(S)

To provide reference retrieval and control to assure timely and appropriate attention.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from the congressional office made at the request of that individual.

2. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided however, that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Correspondence records maintained in hard copy; control records maintained on computer printout, tape, and disk.

RETRIEVABILITY:

Hard copy records indexed alphabetically by name and date of outgoing correspondence, by subject, and/or by computerized numerical code. Records are cross-referenced in detail on computer.

SAFEGUARDS:

1. *Authorized users:* Authorized correspondence control staff in each location and managers and supervisors on a need-to-know basis.

2. *Physical safeguards:* Records are maintained in file cabinets in a locked, secure location; computer system records are secured through the use of passwords which are changed frequently.

3. *Procedural safeguards:* Only authorized personnel have access to files and passwords.

4. *Implementation guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual and Part 6, "ADP System Security" in the HHS ADP Systems Security Manual.

RETENTION AND DISPOSAL:

Records are retired to the Federal Records Center after 3 years.

SYSTEM MANAGER(S) AND ADDRESS:

Same as location.

NOTIFICATION PROCEDURE:

An individual may learn if a record exists about himself or herself by contacting the applicable System Manager at the address above. Give name and approximate date of records requested. Individuals who request notification in person must supply one proof of identity containing individual's complete name and one other identifier with picture (e.g., driver's license, building pass). Individuals who request notification by mail must supply notarized signature as proof of identity.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. An individual may also request an accounting of disclosures of his/her record, if any.

CONTESTING RECORD PROCEDURES:

Contact the appropriate official at the address specified under Notification Procedures above and reasonably identify the record. Specify the information to be contested, and state the corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Records are derived from incoming and outgoing correspondence.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–30–0036

SYSTEM NAME:

Alcohol, Drug Abuse, and Mental Health Epidemiologic Data, HHS/SAMHSA/OA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Records are located at facilities which collect or provide service evaluations for this system under contract to the agency. Contractors may include, but are not limited to, research centers, clinics, hospitals, universities, research foundations, national associations, and coordinating centers. Records may also be located at the Office of Applied Studies, Center for Substance Abuse Prevention, the Center for Substance Abuse Treatment, and the Center for Mental Health Services. A current list of sites is available by writing to the appropriate System Manager at the address below.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who are the subjects of epidemiologic, methodologic, services evaluations, and longitudinal studies and surveys of mental health and alcohol and drug use/abuse. These individuals are selected as representative of the general adult and/or child population or of special groups. Special groups include, but are not limited to, normal individuals serving as controls; clients referred for or receiving medical, mental health, and alcohol and/or drug abuse related treatment and prevention services; providers of services; demographic subgroups as applicable, such as age, sex, ethnicity, race, occupation, geographic location; and groups exposed to hypothesized risks, such as relatives of individuals who have experienced mental health and/or alcohol, and/or drug abuse disorders, life stresses, or have previous history of mental, alcohol, and/or drug abuse related illness.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains data about the individual as relevant to a particular study. Examples include, but are not limited to, items about the health/mental health and/or alcohol or drug consumption patterns of the individual; demographic data; social security numbers (voluntary); past and present life experiences; personality characteristics; social functioning; utilization of health/mental health, alcohol, and/or drug abuse services; family history; physiological measures; and characteristics and activities of health/mental health; alcohol abuse, and/or drug abuse care providers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

SAMHSA: Public Health Service Act, sections 301 (42 U.S.C. 241), 322 (42 U.S.C. 249(c)), 501 (42 U.S.C. 290aa), 503 (42 U.S.C. 290aa–2), and 505 (42 U.S.C. 290aa–4). CSAT: Center for Substance Abuse Treatment, section 507–12 (42 U.S.C. 290bb et. seq.). CSAP: Center for Substance Abuse Prevention, section 515–18 (42 U.S.C. 290bb–21 et seq.). CMHS: Center for Mental Health Services, sections 506 (42 U.S.C. 290aa–5) and 520–35 (42 U.S.C. 290bb–31 et seq.). Protection and Advocacy for Individuals with Mental Illness Act of 1986 as amended (42 U.S.C. 10801 et seq.); Refugee Education Assistance Act of 1980, section 501(c) (8 U.S.C. 1522 note), Pub. L. 96–422; Executive Order 12341; and Disaster Relief Act of 1974, section 413, Pub. L. 93–288, as amended by section 416 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Pub. L. 100–107

PURPOSE(S):

The purpose of the system of records is to collect and maintain a data base for health services evaluations activities of the Center for Substance Abuse Prevention, the Center for Substance Abuse Treatment, and the Center for Mental Health Services. Analyses of these data involve groups of individuals with given characteristics and do not refer to special individuals. The generation of information and statistical analyses will ultimately lead to a better description and understanding of mental, alcohol, and/or drug abuse disorders, their diagnosis, treatment and prevention, and the promotion of good physical and mental health.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. A record may be disclosed for an evaluation purpose, when the Department:

(a) Has determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected, or obtained; e.g., disclosure of alcohol or drug abuse patient records will be made only in accordance with 42 U.S.C. 290 (dd–2).

(b) Has determined that the study purpose (1) cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring;

(c) Has required the recipient to—(1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, and (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the health services evaluation project, unless the recipient has presented adequate justification of

an analytical or health nature for retaining such information, and (3) make no further use or disclosure of the record except—(A) in emergency circumstances affecting the health or safety of any individual, (B) for use in another health service research or evaluation project, under these same conditions, and with written authorization of the Department, (C) for disclosure to a properly identified person for the purpose of an audit related to the evaluation project, if information that would enable study subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (D) when required by law; and

(d) Has secured a written statement attesting to the recipient's understanding of, and willingness to abide by, these provisions.

2. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from a congressional office made at the written request of that individual.

3. In the event of litigation, where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee; the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected (e.g., disclosure may be made to the Department of Justice or other appropriate Federal agencies in defending claims against the United States when the claim is based upon an individual's mental or physical condition and is alleged to have arisen because of the individuals' participation in activities of a Federal Government supported research project).

4. The Department contemplates that it will contract with a private firm for the purpose of collecting, analyzing, aggregating, or otherwise refining records in this system. Relevant records will be disclosed to such contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records may be stored on index cards, file folders, computer tapes and disks, microfiche, microfilm, and audio and video tapes. Normally, the factual data, with study code numbers, are stored on computer tape or disk, while the key to personal identifiers is stored separately, without factual data, in paper files.

RETRIEVABILITY:

During data collection stages and follow up, if any, retrieval by personal identifier (e.g., name, social security number) (in some studies), or (medical record number), is necessary. During the data analysis stage, data are normally retrieved by the variables of interest (e.g., diagnosis, age, occupation).

SAFEGUARDS:

1. *Authorized users:* Access to identifiers and to link files is strictly limited to the authorized personnel whose duties require such access. Procedures for determining authorized access to identified data are established as appropriate for each location. Personnel, including contractor personnel, who may be so authorized include those directly involved in data collection and in the design of research studies, e.g., interviewers and interviewer supervisors; project managers; statisticians involved in designing sampling plans.

2. *Physical safeguards:* Records are stored in locked rooms, locked file cabinets, and/or secured computer facilities. Personal identifiers and link files are separated as much as possible and stored in locked files. Computer data access is limited through the use of key words known only to authorized personnel.

3. *Procedure safeguards:* Collection and maintenance of data is consistent with legislation and regulations in the protection of human subjects, informed consent, confidentiality, and confidentiality specific to drug and alcohol abuse patients where these apply. When an Institute Division or a contractor provides anonymous data to research scientists for analysis, study numbers which can be matched to personal identifiers will be eliminated, scrambled, or replaced by the agency or contractor with random numbers which cannot be matched. Contractors who maintain records in this system are instructed to make no further disclosure of the records. Privacy Act requirements are specifically included in contracts for survey and evaluation activities related to this system. The HHS project directors, contract officers, and project officers oversee compliance with these requirements.

4. *Implementation guidelines:* DHHS Chapter 45– and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual and Part 6, "ADP System Security" of the HHS ADP Systems Security Manual.

RETENTION AND DISPOSAL:

Personal identifiers are retained only as long as they are needed for the purposes of the current evaluation project, and for follow-up studies generated by the present study. Removal or disposal of identifiers is done according to the storage medium (e.g., erase computer tape, shred or burn index cards, etc.). A staff person designated by the System Manager will oversee and will describe and confirm the disposal in writing.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Applied Studies, Office of the Director, Room 615, Rockwall II Building, 5600 Fishers Lane, Rockville, Maryland 20857

Center for Substance Abuse Prevention, Office of the Director, Room 9D10, Rockwall II Building, 5600 Fishers Lane, Rockville, Maryland 20857

Center for Substance Abuse Treatment, Office of the Director, Room 10–75, Rockwall II Building, 5600 Fishers Lane, Rockville, Maryland 20857

Center for Mental Health Services, Office of the Director, Room 15–105, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the appropriate System Manager at the address above. Provide individual's name; current address; date of birth; date, place and nature of participation in specific evaluation study; name of individual or organization administering the study (if known); name or description of the study (if known); address at the time of participation; and a notarized statement by two witnesses attesting to the individual's identity.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. An individual may also request an accounting of disclosures of his/her record, if any.

An individual who requests notification of, or access to, a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, a child's or incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

CONTESTING RECORD PROCEDURE:

Contact the appropriate official at the address specified under System Manager(s) above and reasonably identify the record, specify the information being contested, and state corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

The system contains information obtained directly from the subject individual by interview (face-to-face or telephone), by written questionnaire, or by other tests, recording devices or observations, consistent with legislation and regulation regarding informed consent and protection of human subjects. Information is also obtained from other sources, such as health, mental health, alcohol, and/or drug abuse care providers; relatives; guardians; and clinical medical research records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–30–0047

SYSTEM NAME:

Patient Records on Chronic Mentally Ill Merchant Seamen Treated at Nursing Homes in Lexington, Kentucky, (1942 to the present), HHS/SAMHSA/CMHS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

CONTRACTOR: Commonwealth of Kentucky, Department of Mental Health/Mental Retardation, Mental Health Branch, Cabinet for Human Resources, 275 E. Main Street, Frankfort, Kentucky 40621

SUBCONTRACTORS: Homestead Nursing Center, Inc., 1608 Versailles Road, Lexington, Kentucky 40505

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Chronic mentally ill former merchant seamen originally treated at PHS Hospitals in Fort Worth, Texas, and Lexington, Kentucky, and now in nursing homes in Lexington, Kentucky (1942 to the present).

CATEGORIES OF RECORDS IN THE SYSTEM:

Administrative records, such as admission and release dates; name, address, Social Security number, and other demographic data; medical records, such as, but not limited to, psychological, medical and social evaluations as well as treatment information, any laboratory test, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 9079 (1942) authorizes the care and treatment of these individuals.

PURPOSE(S):

The records are used to facilitate patient care, to monitor progress, and to ensure quality and continuity of care.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. In the event of litigation where the defendant is (a) the Department, and component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected.

2. Disclosure may be made to the Center for Mental Health Services (CMHS) contractors and subcontractors, including nursing home staff, for the purpose of carrying out and maintaining quality care. Contractors maintain, and are also required to ensure that the subcontractors maintain, Privacy Act safeguards with respect to the records.

3. Disclosure may also be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual or his legally authorized representative.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Hard copy files stored in locked file cabinets in the State office. In the nursing homes records are hard copy maintained at nursing stations.

RETRIEVABILITY:

The records are retrieved by patient name.

SAFEGUARDS:

1. *Authorized users:* Only the System Manager and designated staff, designated contractor staff and appropriate subcontractor staff at the nursing home.

2. *Physical safeguards:* The State records are stored in locked file cabinets. These cabinets are in a room within a building that is locked at night after business hours. Patient records of subject individuals at the nursing homes are commingled with the records of other patients at nursing stations under the supervision of the attendant on duty.

3. *Procedural safeguards:* Only the System Manager, contractor staff and appropriate nursing home staff have access to the files. Only those authorized personnel are allowed to gain access to material in the locked file cabinets.

4. *Implementation procedures:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 in the General Administration Manual.

RETENTION AND DISPOSAL:

The administrative and medical records will be retained for 25 years after last treatment or after the death of a patient, and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

James E. Pittman, Construction Monitoring Branch, Center for Mental Health Services, Substance Abuse and Mental Health Services, Administration, Room 15C-05, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the System Manager at the address above. An individual or his legally authorized representative may learn if a record exists about himself upon written request with notarized signature. The request should include full name or any alias used and birth date.

An individual or his legally authorized representative who requests notification of, or access to, a medical record shall, at the time the request is made, designate a family physician or other health professional (other than a family member) to whom the record will be released. The representative must verify relationship to the individual as well as his/her own identity

RECORD ACCESS PROCEDURES:

Same as Notification Procedures. Requestors should also reasonably specify the record contents being sought. An individual or his legally authorized representative may also request an accounting of disclosures that have been made of the subject individual's records, if any.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under Notification Procedures above and reasonably identify the record, specify the information to be contested, and state the corrective action sought with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Patients; legally authorized representatives; nursing home and hospital personnel.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-30-0049

SYSTEM NAME:

Consultant Records Maintained by SAMHSA Contractors, HHS/SAMHSA/OA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Records are located at various contractor sites. A list of specific contractor sites is available from the appropriate system manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Consultants who participate in Substance Abuse and Mental Health Services Administration (SAMHSA) conferences, meetings, evaluation projects, or technical assistance at site locations arranged by contractors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names, addresses, Social Security numbers, qualifications, curricula vitae, travel records, and payment records for consultants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

SAMHSA: Public Health Service Act, sections 301 (42 U.S.C. 241), 322 (42 U.S.C. 249(c)), and 501–05 (42 U.S.C. 290aa et seq.). CSAT: Center for Substance Abuse Treatment, section 507–12 (42 U.S.C. 290bb et seq.). CSAP: Center for Substance Abuse Prevention, section 515–8 (42 U.S.C. 290bb–21 et seq.). CMHS: Center for Mental Health Services, sections 506 (42 U.S.C. 290aa–5) and 520–35 (42 U.S.C. 290bb–31 et seq.). Protection and Advocacy for Individuals with Mental Illness Act of 1986 as amended (42 U.S.C. 10801 et seq.); Refugee Education Assistance Act of 1980, section 501(c) (8 U.S.C. 1522 note), Pub. L. 96–422; Executive Order 12341; and Disaster Relief Act of 1974, section 413, Pub. L. 93–288, as amended by section 416 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Pub. L. 100–107.

PURPOSE(S):

This umbrella system of records covers a varying number of separate sets of records used in different projects. These records are established by contractors to organize programs, obtain and pay consultants, and to provide necessary reports programs for SAMHSA. SAMHSA personnel may use records when a technical assistance consultant is needed for a specialized area of research, review, advice, etc.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other litigation and would help in the effective representation of the governmental party, provided, however, that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

2. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from the congressional office made at the written request of that individual.

3. SAMHSA proposes to contract with private firms for the purposes of handling logistics for conferences, reviews, development of training materials, and of obtaining the services of consultants. Relevant records will be disclosed to such a contractor or may be developed by the contractor for use in the project. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

4. Information in this system of records is used routinely to prepare W–2 and 1099 Forms to submit to the Internal Revenue Service and applicable State and local governments those items to be included as income to an individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records may be stored in file folders, on index cards, computer tapes and disks, microfiche, microfilm.

RETRIEVABILITY:

Information will be retrieved by name.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location. Each site implements personnel, physical, and procedural safeguards such as the following:

1. *Authorized users:* Only SAMHSA personnel working on these projects and personnel employed by SAMHSA contractors to work on these projects are authorized users as designated by the system managers.

2. *Physical safeguards:* Records are stored in locked rooms, locked file cabinets, and/or secured computer facilities.

3. *Procedural safeguards:* Contractors who maintain records in this system are instructed to make no further disclosure of the records except as authorized by the system manager and permitted by the Privacy Act. Privacy Act requirements are specifically included in contracts and in agreements with grantees or collaborators participating in research activities supported by this system. HHS project directors, contract officers, and project officers oversee compliance with these requirements.

4. *Implementation guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual, and Part 6, "ADP System Security" in the HHS Information Resource Management Manual.

RETENTION AND DISPOSAL:

Records will be destroyed 3 years after they are no longer used, or, if payment is involved, 3 years after closeout of the contract.

SYSTEM MANAGER(S) AND ADDRESS:

The policy coordinating official for this system of records is also the System Manager. SAMHSA Contracts Officer, Substance Abuse and Mental Health Services Administration, Office of the Administrator, Office of Management, Planning, and Communications, Room 13C–20, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the appropriate System Manager at the address above. Provide notarized signature as proof of identity. The request should include as much of the following information as possible: (a) Full name; (b) title of project individual participated in; (c) SAMHSA project officer, and (d) approximate date(s) of participation.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request an accounting of disclosures of their records, if any.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under Notification Procedures above and reasonably identify the record, specify the information being contested, and state the corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Information gathered from individual consultants and from assignment or travel documents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Readers who notice any errors or omissions in the SAMHSA systems of records notices are invited to bring them to my attention at the following address: Substance Abuse and Mental Health Services Administration, 5600 Fishers Lane, Room 12–105, Rockville, Maryland 20857.

Dated: December 17, 1993.

Richard Kopanda,

Acting Executive Officer, Substance Abuse and Mental Health Services Administration.

[FR Doc. 93–31242 Filed 12–28–93; 8:45 am]

BILLING CODE 4162–20

National Institutes of Health

Privacy Act of 1974; Annual Publication of Systems of Records

AGENCY: Public Health Service, DHHS.

ACTION: Privacy Act: Annual republication of notices of revised systems of records.

SUMMARY: The National Institutes of Health (NIH) has conducted a comprehensive review of all Privacy Act systems of records and is publishing the resulting revisions. None of the revisions meet the OMB criteria for a new or altered system of records requiring an advance period for public comment. These changes are in compliance with Circular A–130, Appendix 1. The notices republished below are complete and accurate as of November 29, 1993.

SUPPLEMENTARY INFORMATION: The following information summarizes the current status of systems of records which had minor modifications during 1993 and lists all systems maintained by NIH:

A. SYSTEM NAME.

The following systems have been updated to reflect a change in the name of the system:

09–25–0105, Administration: Health Records of Employees, Visiting Scientists, Fellows, Contractors and Relatives of Inpatients, HHS/NIH/ORS.
09–25–0106, Administration: Office of the NIH Director and Institute/Center/Division Correspondence Records, HHS/NIH/OD.
09–25–0108, Personnel: Guest Researchers, Special Volunteers, and Scientists Emeriti, HHS/NIH/DPM.
09–25–0134, Clinical Research: Epidemiology Studies, National Institute of Environmental Health Sciences, HHS/NIH/NIEHS.
09–25–0156, Records of Participants in Programs and Respondents in Surveys Used to Evaluate Programs of the Public Health Service, HHS/PHS/NIH/OD.
09–25–0170, Diabetes Clinical Data System, HHS/NIH/NIDDK.

B. SYSTEM LOCATION.

The following systems have been updated to reflect a change in the system locations. These changes do not affect the access by the individual to the individual's records.

09–25–0005, Administration: Library Operations and User I.D. File, HHS/NIH/OD.
09–25–0007, Administration: NIH Safety Glasses Issuance Program, HHS/NIH/ORS.
09–25–0031, Clinical Research: Serological and Virus Data in Studies Related to the Central Nervous System, HHS/NIH/NINDS.
09–25–0060, Clinical Research: Division of Cancer Treatment Clinical Investigations, HHS/NIH/NCI.
09–25–0069, NIH Clinical Center Admissions of the National Cancer Institute, HHS/NIH/NCI.
09–25–0105, Administration: Health Records of Employees, Visiting Scientists, Fellows, Contractors and Relatives of Inpatients, HHS/NIH/ORS.
09–25–0106, Administration: Office of the NIH Director and Institute/Center/Division Correspondence Records, HHS/NIH/OD.
09–25–0108, Personnel: Guest Researchers, Special Volunteers, and Scientists Emeriti, HHS/NIH/DPM.
09–25–0112, Grants and Cooperative Agreements: Research, Research Training, Fellowship and Construction Applications and Related Awards, HHS/NIH/OD.
09–25–0158, Administration: Records of Applicants and Awardees of the NIH Intramural Research Training Awards Program, HHS/NIH/OD.
09–25–0165, National Institutes of Health Acquired Immunodeficiency Syndrome (AIDS) Research Loan Repayment Program, HHS/NIH/OD.
09–25–0208, Drug Abuse Treatment Outcome Study (DATOS), HHS/NIH/NIDA.

C. CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM.

The following systems have been updated to reflect a change in the categories covered by the system. This change does not alter the character or purpose of the system.

09–25–0106, Administration: Office of the NIH Director and Institute/Center/Division Correspondence Records, HHS/NIH/OD.
09–25–0156, Records of Participants in Programs and Respondents in Surveys Used to Evaluate Programs of the Public Health Service, HHS/PHS/NIH/OD.
09–25–0161, Administration: NIH Consultant File, HHS/NIH/DRG.
09–25–0208, Drug Abuse Treatment Outcome Study (DATOS), HHS/NIH/NIDA.

D. CATEGORIES OF RECORDS.

The following systems have been updated to reflect a change in the categories of records in the system. This change does not alter the character or purpose of the system.

09–25–0161, Administration: NIH Consultant File, HHS/NIH/DRG.

E. AUTHORITY.

The following system has been updated to reflect a change in the authority. This change does not alter the character or purpose of the system.

09–25–0156, Records of Participants in Programs and Respondents in Surveys Used to Evaluate Programs of the Public Health Service, HHS/PHS/NIH/OD.

F. STORAGE.

The following systems have been updated to reflect a change in system storage practices:

09–25–0134, Clinical Research: Epidemiology Studies, National Institute of Environmental Health Sciences, HHS/NIH/NIEHS.
09–25–0145, Clinical Trials and Epidemiological Studies Dealing with Visual Disease and Disorders in the National Eye Institute, HHS/NIH/NEI.
09–25–0203, National Institute on Drug Abuse, Addiction Research Center, Federal

Prisoner and Non-Prisoner Research Files, HHS/NIH/NIDA.

G. RETRIEVAL:

The following systems have been updated to reflect a change in retrieval practices.

09–25–0105, Administration: Health Records of Employees, Visiting Scientists, Fellows, Contractors and Relatives of Inpatients, HHS/NIH/ORS.
09–25–0161, Administration: NIH Consultant File, HHS/NIH/DRG.

H. SAFEGUARDS:

There are no changes in this category.

I. RETENTION AND DISPOSAL:

The following systems have been updated to reflect a change in retention and disposal:

09–25–0105, Administration: Health Records of Employees, Visiting Scientists, Fellows, Contractors and Relatives of Inpatients, HHS/NIH/ORS.
09–25–0106, Administration: Office of the NIH Director and Institute/Center/Division Correspondence Records, HHS/NIH/OD.

J. SYSTEM MANAGER(S) AND ADDRESSES:

The following systems have been updated to reflect a change in the system manager or the address of the system manager. These changes do not affect the access by the individual to the individual's records.

09–25–0005, Administration: Library Operations and User I.D. File, HHS/NIH/OD.
09–25–0037, Clinical Research: Baltimore Longitudinal Study of Aging, HHS/NIH/NIA.
09–25–0042, Clinical Research: National Institute of Dental Research Patient Records, HHS/NIH/NIDR.
09–25–0046, Clinical Research: Catalog of Clinical Specimens from Patients, Volunteers and Laboratory Personnel, HHS/NIH/NIAID.
09–25–0060, Clinical Research: Division of Cancer Treatment Clinical Investigations, HHS/NIH/NCI.
09–25–0069, NIH Clinical Center Admissions of the National Cancer Institute, HHS/NIH/NCI.
09–25–0106, Administration: Office of the NIH Director and Institute/Center/Division Correspondence Records, HHS/NIH/OD.
09–25–0108, Personnel: Guest Researchers, Special Volunteers, and Scientists Emeriti, HHS/NIH/DPM.
09–25–0112, Grants and Cooperative Agreements: Research, Research Training, Fellowship and Construction Applications and Related Awards, HHS/NIH/OD.
09–25–0115, Administration: Curricula Vitae of Consultants and Clinical Investigators, HHS/NIH/NIAID.
09–25–0118, Contracts: Professional Services Contractors, HHS/NIH/NCI.
09–25–0143, Biomedical Research: Records of Subjects in Clinical, Epidemiologic and Biometric Studies of the National Institute of Allergy and Infectious Diseases, HHS/NIH/NIAID.
09–25–0145, Clinical Trials and Epidemiological Studies Dealing with Visual Disease and Disorders in the National Eye Institute, HHS/NIH/NEI.
09–25–0156, Records of Participants in Programs and Respondents in Surveys Used to Evaluate Programs of the Public Health Service, HHS/PHS/NIH/OD.
09–25–0161, Administration: NIH Consultant File, HHS/NIH/DRG.
09–25–0165, National Institutes of Health Acquired Immunodeficiency Syndrome (AIDS) Research Loan Repayment Program, HHS/NIH/OD.
09–25–0205, Alcohol, Drug Abuse, and Mental Health Epidemiologic and Biometric Research Data, HHS/NIH/NIAAA, HHS/NIH/NIDA and HHS/NIH/NIMH.
09–25–0208, Drug Abuse Treatment Outcome Study (DATOS), HHS/NIH/NIDA.

K. RECORD ACCESS:

The following system has been updated to reflect a change in the record access procedures.

09–25–0112, Grants and Cooperative Agreements: Research, Research Training, Fellowship and Construction Applications and Related Awards, HHS/NIH/OD.
09–25–0156, Records of Participants in Programs and Respondents in Surveys Used to Evaluate Programs of the Public Health Service, HHS/PHS/NIH/OD.

L. NOTIFICATION PROCEDURES:

The following systems have been updated to reflect a change in the office, official, and/or address to write to in order to determine whether or not the system contains a record about the individual.

09–25–0046, Clinical Research: Catalog of Clinical Specimens from Patients, Volunteers and Laboratory Personnel, HHS/NIH/NIAID.
09–25–0115, Administration: Curricula Vitae of Consultants and Clinical Investigators, HHS/NIH/NIAID.
09–25–0143, Biomedical Research: Records of Subjects in Clinical, Epidemiologic and Biometric Studies of the National Institute of Allergy and Infectious Diseases, HHS/NIH/NIAID.
09–25–0158, Administration: Records of Applicants and Awardees of the NIH Intramural Research Training Awards Program, HHS/NIH/OD.

M. THE FOLLOWING SYSTEMS HAVE BEEN CHANGED FOR CLARITY AND EDITING PURPOSES:

09–25–0036, Extramural Awards and Chartered Advisory Committees: IMPAC (Grant/Contract/Cooperative Agreement/Chartered Advisory Committee, HHS/NIH/DRG and HHS/NIH/CMO.
09–25–0037, Clinical Research: Baltimore Longitudinal Study of Aging, HHS/NIH/NIA.
09–25–0038, Clinical Research: Patient Data, HHS/NIH/NIDDK.
09–25–0106, Administration: Office of the NIH Director and Institute/Center/Division Correspondence Records, HHS/NIH/OD.
09–25–0112, Grants and Cooperative Agreements: Research, Research Training, Fellowship and Construction Applications and Related Awards, HHS/NIH/OD.
09–25–0128, Clinical Research: Neural Prosthesis and Biomedical Engineering Studies, HHS/NIH/NINDS.
09–25–0134, Clinical Research: Epidemiology Studies, National Institute of Environmental Health Sciences, HHS/NIH/NIEHS.
09–25–0156, Records of Participants in Programs and Respondents in Surveys Used to Evaluate Programs of the Public Health Service, HHS/PHS/NIH/OD.
09–25–0161, Administration: NIH Consultant File, HHS/NIH/DRG.
09–25–0208, Drug Abuse Treatment Outcome Study (DATOS), HHS/NIH/NIDA.

N. ORGANIZATION NAME CHANGE:

There are no changes in this category.

O. DELETED SYSTEMS OF RECORDS:

The following systems of records which appeared in the January 13, 1993, annual publication are now being deleted because:

09–25–0075, Institutions Submitting Assurances for Protection from Research Risks and Animal Welfare, HHS/NIH/OD/OER.

System records are now filed by organization/institution and are no longer filed under individual names.

09–25–0204, Records of Contracts Awarded to Individuals, HHS/NIH/NIDA, HHS/NIH/NIAAA and HHS/NIH/NIMH.

System records are now filed by organization/institution and are no longer filed under individual names.

09–25–0206, Psychotherapy of Opiate-Dependent Individual, HHS/NIH/NIDA.

Personal identifiers have been deleted from the system.

The following is a list of active systems of records maintained by NIH.

Table of Contents

09–25–0001, Clinical Research: Patient Records, HHS/NIH/NHLBI, published Federal Register, Vol. 55, Number 101, May 24, 1990.
09–25–0005, Administration: Library Operations and User I.D. File, HHS/NIH/OD, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0007, Administration: NIH Safety Glasses Issuance Program, HHS/NIH/ORS, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0010, Research Resources: Registry of Individuals Potentially Exposed to Microbial Agents, HHS/NIH/NCI, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0011, Clinical Research: Blood Donor Records, HHS/NIH/CC, published Federal Register, Vol. 56, Number 247, December 24, 1991.

09–25–0012, Clinical Research: Candidate Normal Volunteer Records, HHS/NIH/CC, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0014, Clinical Research: Student Records, HHS/NIH/CC, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0015, Clinical Research: Collaborative Clinical Epilepsy Research, HHS/NIH/NINDS, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0016, Clinical Research: Collaborative Perinatal Project HHS/NIH/NINDS, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0026, Clinical Research: Nervous System Studies, HHS/NIH/NINDS, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0028, Clinical Research: Patient Medical Histories, HHS/NIH/NINDS and HHS/NIH/NIDCD, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0031, Clinical Research: Serological and Virus Data in Studies Related to the Central Nervous System, HHS/NIH/NINDS, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0033, International Activities: Fellowships Awarded by Foreign Organizations, HHS/NIH/FIC, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0034, International Activities: Scholars-in-Residence Program, HHS/NIH/FIC, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0035 International Activities: Health Scientist Exchange Programs, HHS/NIH/FIC, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0036, Extramural Awards and Chartered Advisory Committees: IMPAC (Grant/Contract/Cooperative Agreement/Chartered Advisory Committee, HHS/NIH/DRG and HHS/NIH/CMO, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0037, Clinical Research: The Baltimore Longitudinal Study of Aging, HHS/NIH/NIA, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0038, Clinical Research: Patient Data, HHS/NIH/NIDDK, published Federal Register, Vol. 58, No. 247, December 24, 1991.
09–25–0039, Clinical Research: Diabetes Mellitus Research Study of Southwestern American Indians, HHS/NIH/NIDDK, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0040, Clinical Research: Southwestern American Indian Patient Data, HHS/NIH/NIDDK, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0041, Research Resources: Scientists Requesting Hormone Distribution, HHS/NIH/NIDDK, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0042, Clinical Research: National Institute of Dental Research Patient Records, HHS/NIH/NIDR, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0044, Clinical Research: Sensory Testing Research Program, HHS/NIH/NIDR, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0046, Clinical Research: Catalog of Clinical Specimens from Patients, Volunteers and Laboratory Personnel, HHS/NIH/NIAID, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0053, Clinical Research: Vision Studies, HHS/NIH/NEI, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0054, Administration: Property Accounting, HHS/NIH/ORS, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0057, Clinical Research: Burkitt's Lymphoma Registry, HHS/NIH/NCI, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0060, Clinical Research: Division of Cancer Treatment Clinical Investigations, HHS/NIH/NCI, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0067, Clinical Research: National Cancer Incidence Surveys, HHS/NIH/NCI, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0069, NIH Clinical Center Admissions of the National Cancer Institute, HHS/NIH/NCI, published Federal Register, Vol. 58, Number 8, January 13, 1993.
09–25–0074, Clinical Research: Division of Cancer Biology and Diagnosis Patient Trials, HHS/NIH/NCI, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0077, Biological Carcinogenesis Branch Human Specimen Program, HHS/NIH/NCI, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0078, Administration: Consultant File, HHS/NIH/NHLBI, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0087, Administration: Senior Staff, HHS/NIH/NIAID, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0091, Administration: General Files on Employees, Donors and Correspondents, HHS/NIH/NEI, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0093, Administration: Administration Authors, Reviewers and Members of the Journal of the National Cancer Institute, HHS/NIH/NCI, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0099, Clinical Research: Patient Medical Records, HHS/NIH/CC, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0100, Clinical Research: Neuropharmacology Studies, HHS/NIH/NINDS, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0102, Administration: Grants Associates Program Working Files, HHS/NIH/DRG, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0105, Administration: Health Records of Employees, Visiting Scientists, Fellows, Contractors and Relatives of Inpatients, HHS/NIH/ORS, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0106, Administration: Office of the NIH Director and Institute/Center/Division Correspondence Records, HHS/NIH/OD, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0108, Personnel: Guest Researchers, Special Volunteers, and Scientists Emeriti, HHS/NIH/DPM, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0112, Grants and Cooperative Agreements: Research, Research Training, Fellowship and Construction Applications and Related Awards, HHS/NIH/OD, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0115, Administration: Curricula Vitae of Consultants and Clinical Investigators, HHS/NIH/NIAID, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0118, Contracts: Professional Services Contractors, HHS/NIH/NCI, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0121, International Activities: Senior International Fellowships Program, HHS/NIH/FIC, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0124, Administration: Pharmacology Research Associates, HHS/NIH/NIGMS, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0126, Clinical Research: National Heart, Lung, and Blood Institute Epidemiological and Biometric Studies, HHS/NIH/NHLBI, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0128, Clinical Research: Neural Prosthesis and Biomedical Engineering Studies, HHS/NIH/NINDS, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0129, Clinical Research: Clinical Research Studies Dealing with Hearing, Speech, Language and Chemosensory Disorders, HHS/NIH/NIDCD, published Federal Register, Vol. 56, No. 247, December 24, 1991.
09–25–0130, Clinical Research: Studies in the Division of Cancer Cause and Prevention, HHS/NIH/NCI, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0134, Clinical Research: Epidemiology Studies, National Institute of Environmental Health Sciences, HHS/NIH/NIEHS, published Federal Register, Vol. 56, No. 8, January 11, 1991.
09–25–0140, International Activities: International Scientific Researchers in Intramural Laboratories at the National Institutes of Health, HHS/NIH/FIC, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0142, Clinical Research: Records of Subjects in Intramural Research, Epidemiology, Demography and Biometry Studies on Aging, HHS/NIH/NIA, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0143, Biomedical Research: Records of Subjects in Clinical, Epidemiologic and Biometric Studies of the National Institute of Allergy and Infectious Diseases, HHS/NIH/NIAID, published Federal Register, Vol. 58, No. 8, January 13, 1993.
09–25–0145, Clinical Trials and Epidemiological Studies Dealing with Visual Disease and Disorders in the

National Eye Institute, HHS/NIH/NEI, published **Federal Register**, Vol. 56, No. 8, January 11, 1991.
09–25–0148, Contracted and Contract-Related Research: Records of Subjects in Clinical, Epidemiological and Biomedical Studies of the National Institute of Neurological Disorders and Stroke and the National Institute on Deafness and Other Communication Disorders, HHS/NIH/NINDS and HHS/NIH/NIDCD, published **Federal Register**, Vol. 56, No. 247, December 24, 1991.
09–25–0151, Administration: Public Health Service ALERT Records Concerning Individuals Under Investigation for Possible Misconduct in Science or Subject to Sanctions for Such Misconduct, HHS/PHS/OSR, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0152, Biomedical Research: Records of Subjects in National Institute of Dental Research Contracted Epidemiological and Biometric Studies, HHS/NIH/NIDR, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0153, Biomedical Research: Records of Subjects in Biomedical and Behavioral Studies of Child Health and Human Development, HHS/NIH/NICHD, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0154, Biomedical Research Records of Subjects: (1) Cancer Studies of the Division of Cancer Prevention and Control, HHS/NIH/NCI; and (2) Women's Health Initiative (WHI) Studies, HHS/NIH/OD, published **Federal Register**, Vol. 58, Number 8, January 13, 1993.
09–25–0156, Records of Participants in Programs and Respondents in Surveys Used to Evaluate Programs of the Public Health Service, HHS/PHS/NIH/OD, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0158, Administration: Records of Applicants and Awardees of the NIH Intramural Research Training Awards Program, HHS/NIH/OD, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0160, United States Renal Data System (USRDS), HHS/NIH/NIDDK published **Federal Register**, Vol. 56, No. 8, January 11, 1991.
09–25–0161, Administration: NIH Consultant File, HHS/NIH/DRG, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0165, National Institutes of Health Acquired Immunodeficiency Syndrome (AIDS) Research Loan Repayment Program, HHS/NIH/OD, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0166, Administration: Radiation Safety Information, HHS/NIH/ORS, published **Federal Register**, Vol. 56, No. 247, December 24, 1991.
09–25–0167, National Institutes of Health (NIH) Transhare Program, HHS/NIH/OD, published **Federal Register**, Vol. 57, No. 171, September 2, 1992.
09–25–0168, Invention, Patent and Licensing Documents Submitted to the Public Health Service by its Employees, Grantees, Fellowship Recipients and Contractors, HHS/PHS/NIH/OTT, published **Federal Register**, Vol. 58, No. 164, August 26, 1993.
09–25–0170, Diabetes Control and Complications Trial (DCCT) Data System, HHS/NIH/NIDDK, published **Federal Register**, Vol. 58, No. 107, June 7, 1993.
09–25–0201, Clinical Research: National Institute of Mental Health Patient Records, HHS/NIH/NIMH, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0202, Patient Records on PHS Beneficiaries (1935–1974) and Civilly Committed Drug Abusers (1967–1976) Treated at the PHS Hospitals in Fort Worth, Texas, or Lexington, Kentucky, HHS/NIH/NIDA, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0203, National Institute on Drug Abuse, Addiction Research Center, Federal Prisoner and Non-Prisoner Research Files, HHS/NIH/NIDA, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0205, Alcohol, Drug Abuse, and Mental Health Epidemiologic and Biometric Research Data, HHS/NIH/NIAAA, HHS/NIH/NIDA and HHS/NIH/NIMH, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0207, Subject-Participants in Pharmacokinetic Studies on Drugs of Abuse, HHS/NIH/NIDA, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0208, Drug Abuse Treatment Outcome Study (DATOS), HHS/NIH/NIDA, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0209, Subject-Participants in Drug Abuse Research Studies Supporting New Drug Applications, HHS/NIH/NIDA, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0210, Shipment Records of Drugs of Abuse to Authorized Researchers, HHS/NIH/NIDA, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0211, Intramural Research Program Records of In- and Out-Patients With Various Types of Alcohol Abuse and Dependence, Relatives of Patients With Alcoholism, and Healthy Volunteers, HHS/NIH/NIAAA, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.
09–25–0212, Clinical Research: Neuroscience Research Center Patient Medical Records, HHS/NIH/NIMH, published **Federal Register**, Vol. 58, No. 8, January 13, 1993.

Dated: December 7, 1993.

Harold Varmus,

Director, National Institutes of Health.

09–25–0005

SYSTEM NAME:

Administration: Library Operations and User I.D. File, HHS/NIH/OD.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

This system of records is an umbrella system comprising separate sets of records located in National Institutes of Health (NIH) facilities in Bethesda, Maryland, or facilities of contractors of the NIH. Write to the appropriate system manager listed below for list of current contractor locations.

National Institutes of Health, Building 10, Room 1L07, 9000 Rockville Pike, Bethesda, MD 20892 and
National Institutes of Health, Building 12A, Room 3018, 9000 Rockville Pike, Bethesda, MD 20892 and
National Institutes of Health, Building 38, Room 1S33, 8600 Rockville Pike, Bethesda, MD 20894 and
National Institutes of Health, Building 38, Room 1N21, 8600 Rockville Pike, Bethesda, MD 20894 and
National Institutes of Health, Building 38, Room B1E21, 8600 Rockville Pike, Bethesda, MD 20894 and
National Institutes of Health, Building 38A, Room 4N419, 8600 Rockville Pike, Bethesda, MD 20894 and
National Technical Information Service, Accounting Department, 8001 Forbes Place, Room 208F, Springfield, Virginia 22151

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Users of Library Services.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, organization, address, phone number, user code and identification number; and when applicable, credit card number and billing information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 301 of the Public Health Service Act, describing the general powers and duties of the Public Health Service relating to research and investigation (42 U.S.C. 241).

PURPOSE(S):

(1) To monitor library material, services, and circulation control; (2) to provide user documentation; (3) to provide copying services (duplication of library materials); and (4) to manage invoice and billing transactions for library services.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

3. Disclosure may be made to contractors and staff to monitor library material, services, circulation control; to provide user documentation; and to process or refine the records. Recipients are required to maintain Privacy Act safeguards with respect to those records.

4. Disclosure may be made for billing purposes to: (a) Contractors providing copying services: and (b) NTIS for Medlars Services.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on computer tape and disc, microfiche, paper and file cards.

RETRIEVABILITY:

Records are retrieved by name, user code and/or identification number.

SAFEGUARDS:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to Library staff members who need to verify that Library identification cards have been issued to those Library users requesting services such as MEDLINE and other computer online bibliographic searches, translations and interlibrary loans. Other one-time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager. The contractor maintains a list of personnel having authority to access records to perform their duties.

2. *Physical safeguards:* The offices housing the cabinets and file drawers for storage of records are locked during all library off-duty hours. During all duty hours offices are attended by employees who maintain the files. The contractor has secured records storage areas which are not left unattended during the working hours and file cabinets which are locked after hours.

3. *Procedural safeguards:* Access to the file is strictly controlled by employees who maintain the files. Records may be removed from files only at the request of the system manager or other authorized employees. Access to computerized records is controlled by the use of security codes known only to authorized users. Contractor personnel receive instruction concerning the significance of safeguards under the Privacy Act.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 8000–D–2, which allows records to be kept until superseded or for a maximum period of 6 years. Refer to the NIH Manual Chapter for specific conditions on disposal.

SYSTEM MANAGERS AND ADDRESS:

The Policy Coordinating Official for this system is the Management Analyst, Office of Administration; National Library of Medicine; Building 38, Room 2N21; 8600 Rockville Pike; Bethesda, MD 20894.
Chief, Reference and Bibliographic Services Section, Library Branch, National Center for Research Resources, National Institutes of Health, Building 10, Room 1L21, 9000 Rockville Pike, Bethesda, MD 20892 and
Chief, Division of Computer Research and Technology Library, National Institutes of Health, Building 12A, Room 3018, 9000 Rockville Pike, Bethesda, MD 20892 and
Supervisory Librarian, Preservation Section, Public Services Division, Library Operations, National Library of Medicine, National Institutes of Health, Building 38, Room B1E21, 8600 Rockville Pike, Bethesda, MD 20894 and
Chief, Public Services Division, Library Operations, National Library of Medicine, National Institutes of Health, Building 38, Room 1S33, 8600 Rockville Pike, Bethesda, MD 20894 and
Head, Prints and Photographs Collection, History of Medicine Division, NLM, NIH, Building 38, Room 1N21, 8600 Rockville Pike Bethesda, MD 20894 and
Chief, Medlars Management Section Bibliographic Services Division, Library Operations, National Institutes of Health, National Library of Medicine, Building 38A, Room 4N419, 8600 Rockville Pike, Bethesda, MD 20894.

NOTIFICATION PROCEDURE:

Write to the System Manager to determine if a record exists. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request an accounting of disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Write to the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested, the corrective action sought, and the reasons for the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Individual, NIH Library ID card data.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0007

SYSTEM NAME:

Administration: NIH Safety Glasses Issuance Program, HHS/NIH/ORS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Building 13, Room G904, National Institutes of Health, 9000 Rockville Pike, Bethesda, MD 20892.

Write to the system manager at the address below for the address of any

Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NIH employees who apply for safety glasses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Explanation of eye impact and hazard occupation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 7902.

PURPOSE(S):

Records are used for proper distribution of safety glasses and for proof of delivery.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has any interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders.

RETRIEVABILITY:

Records are retrieved by name.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project. Each site implements personnel, physical and procedural safeguards such as the following:

1. *Authorized users:* Access is limited to personnel involved in safety glasses issuance program, to supervisors of employees who have requested glasses and to personnel involved in accounting.

2. *Physical safeguards:* Record storage locations are locked when unattended.

3. *Procedural safeguards:* Access to file rooms and files is controlled by system manager or designee.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 1300–B–3, which allows records to be kept for a maximum period of 5 years. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Director, Division of Safety, ORS, Building 31, Room 1C02, 9000 Rockville Pike, Bethesda, MD 20892.

NOTIFICATION PROCEDURE:

Write to the System Manager to determine if a record exists. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURES:

Write to the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested, the corrective action sought, and the reasons for the correction, with supporting information to how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Previous employer and education institutions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0031

SYSTEM NAME:

Clinical Research: Serological and Virus Data in Studies Related to the Central Nervous System, HHS/NIH/NINDS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Building 36, Room 4B07, NIH, 9000 Rockville Pike, Bethesda, MD 20892.

Write to System Manager at the address below for the address of any Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patients with possible perinatal, acute or chronic diseases and normal volunteers in NIH-related studies pertaining to the central nervous system.

CATEGORIES OF RECORDS IN THE SYSTEM:

Clinical records, laboratory test results for viruses, pathology and identifications and characterizations of etiological agents of diseases under study, and curriculum vitae.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241, 289h.

PURPOSE(S):

Clinical research by HHS scientists and their authorized collaborators and research on blood serum, specifically to discover the role of infections (particularly those caused by a virus) in diseases of the central nervous system and also to study the role of vaccines in these diseases.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Clinical research data are made available to approved or collaborating researchers, including HHS contractors and grantees.

2. Certain diseases and conditions, including infectious diseases may be reported to appropriate representatives of State or Federal Government as required by State or Federal law.

3. Information may be used to respond to Congressional inquiries for constituents concerning admission to the NIH Clinical Center.

4. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice or other appropriate Federal agency to enable that agency to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in laboratory notebooks, papers, file folders, cinematography and photography.

RETRIEVABILITY:

Records are retrieved by name and number.

SAFEGUARDS:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant access only to HHS scientists and their assistants and authorized collaborators.

2. *Physical safeguards:* Records are kept in cabinets which are locked at all times that system is not in use, in a location which is also locked when system is not in use.

3. *Procedural safeguards:* Personnel having access to system have been trained in Privacy Act requirements. Records are used in a designated work area and the system location is attended at all times during working hours.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief, Laboratory of Central Nervous Systems Studies, Intramural Research Program, Building 36, Room 5B21, NIH 9000 Rockville Pike, Bethesda, MD 20892.

NOTIFICATION PROCEDURE:

To determine if a record exists, contact: Chief, Administrative Services Branch, NINDS Building 31, Room 8A49, NIH 9000 Rockville Pike, Bethesda, MD 20892.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

An individual who requests notification of or access to a medical/dental record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Hospital records, volunteers and laboratory data.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0036

SYSTEM NAME:

Extramural Awards and Chartered Advisory Committees: IMPAC (Grant/Contract/Cooperative Agreement Information/Chartered Advisory Committee Information), HHS/NIH/DRG and HHS/NIH/CMO.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Westwood Building, 5333 Westbard Avenue, Bethesda, MD 20892 and
Building 12, NIH Computer Center, 9000 Rockville Pike, Bethesda, MD 20892, and
For information pertaining to the chartered advisory committees of the National Institutes of Health: Building 31, Room 3B–55, 9000 Rockville Pike, Bethesda, MD 20892.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicant and Principal Investigators; Program Directors; NRSA Trainees and Fellows; Research Career Awardees; and Chartered Advisory Committee Members.

CATEGORIES OF RECORDS IN THE SYSTEM:

Applications, awards, associated records, trainee appointments, and current and historical information pertaining to chartered advisory committees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241c, 58 Stat. 691 c & d repealed.

PURPOSES:

(1) To support centralized grant programs of the Public Health Service. Services are provided in the areas of grant application assignment and referral, initial review, council review, award processing and grant accounting. The data base is used to provide complete, accurate, and up-to-date reports to all levels of management. (2) To maintain communication with former fellows and trainees who have incurred a payback obligation through the National Research Service Award Program. (3) To maintain current and historical information pertaining to the establishment of chartered advisory committees of the National Institutes of Health and the appointment or designation of their members.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to the National Technical Information Service (NTIS), Department of Commerce, for dissemination of scientific and fiscal information on funded awards (abstract of research projects and relevant administrative and financial data).

2. Disclosure may be made to the cognizant audit agency for auditing.

3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. Disclosure may be made to qualified experts not within the

definition of Department employees as prescribed in Department Regulations for opinions as a part of the application review process.

5. Disclosure may be made to a Federal agency, in response to its request, in connection with the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the record is relevant and necessary to the requesting agency's decision in the matter.

6. A record may be disclosed for a research purpose, when the Department: (A) Has determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected, or obtained; (B) has determined that the research purpose (1) cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring; (C) has required the recipient to (1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except (a) in emergency circumstances affecting the health or safety of any individual, (b) for use in another research project, under these same conditions, and with written authorization of the Department, (c) for disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (d) when required by law; (D) has secured a written statement attesting to the recipient's understanding of, and willingness to abide by these provisions.

7. The Department contemplates that it may contract with a private firm for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor will be required to maintain Privacy Act safeguards with respect to such records.

8. Disclosure may be made to the grantee institution in connection with performance or administration under the conditions of the award.

9. Disclosure may be made to the Department of Justice, or to a court or other tribunal, from this system of records when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has any interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on discs and magnetic tapes.

RETRIEVABILITY:

Records are retrieved by name, application, grant or contract ID number.

SAFEGUARDS:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to PHS extramural and committee management staff. Other one-time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager.

2. *Physical safeguards:* Physical access to DRG work areas is restricted to DRG employees.

3. *Procedural safeguards:* Access to source data files is strictly controlled by files staff. Records may be removed from files only at the request of the system manager or other authorized employee. Access to computer files is controlled by the use of registered accounts, registered initials, keywords, etc. The computer system maintains an audit record of all attempted and successful requests for access.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 4000–A–2, which allows records to be destroyed when no longer needed for administrative purposes. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Information Systems Branch, Division of Research Grants, Westwood Building, 5333 Westbard Avenue, Bethesda, MD 20892 and

For information pertaining to the chartered advisory committees of the National Institutes of Health: NIH Committee Management Officer, Building 31, Room 3B–55, 9000 Rockville Pike,Bethesda, MD 20892

NOTIFICATION PROCEDURE:

To determine if a record exists write to: Privacy Act Coordinator, Division of Research Grants, Westwood Building, Room 449, 5333 Westbard Avenue, Bethesda, MD 20892 and

For information pertaining to the chartered advisory committees of the National Institutes of Health: NIH Committee Management Officer, Building 31, Room 3B–55, 9000 Rockville Pike, Bethesda, MD 20892

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought and the reasons for the correction, with supporting justification. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Individual, individual's educational institution and references.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0037

SYSTEM NAME:

Clinical Research: Baltimore Longitudinal Study of Aging, HHS/NIH/NIA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

National Institutes of Health, Building 12, 9000 Rockville Pike, Bethesda, MD 20892 and

Longitudinal Studies Branch, IRP, NIA, Gerontology Research Center, 4940 Eastern Avenue, Baltimore, MD 21224

Write to System Manager at the address below for the address of the Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Voluntary participants in the Gerontology Research Center (GRC) Longitudinal Study of Aging.

CATEGORIES OF RECORDS IN THE SYSTEM:

Medical histories, psychological and physical test results.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241, 289k–2, k–4. Health Research Extension Act of 1985 Pub. L. 99–158.

PURPOSE(S):

Research on the human aging process.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the research purpose for which the records are collected. The recipients are required to maintain Privacy Act safeguards with respect to these records.

2. Certain diseases and conditions, including infectious diseases, may be reported to appropriate representatives of State or Federal Government as required by State or Federal law.

3. Information may be used to respond to congressional inquiries for constituents concerning admission to the NIH Clinical Center.

4. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example when the claim is based upon an individual's mental or physical condition and is alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders and on computer files, and on microfiche.

RETRIEVABILITY:

Records are retrieved by ID number.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project. Each site implements personnel, physical, and procedural safeguards such as the following:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to the clinical, research and support staff of the GRC. Other one-time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager.

2. *Physical safeguards:* Hard copy files are kept in locked file cabinets.

3. *Procedural safeguards:* Access to manual files is strictly controlled by files staff. Files may be removed only at the request of the system manager or other authorized employee. Access to computer files is controlled through security codes known only to authorized users.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Computer Scientist, Longitudinal Studies Branch, IRP, National Institutes of Health, Gerontology Research Center, GRC, 4940 Eastern Avenue, Baltimore, MD 21224.

NOTIFICATION PROCEDURE:

Write to System Manager to determine if a record exists. The requestor must also verify his or her identity by providing either a notarization of the request or a written certification that the requestor is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

Individuals seeking notification of or access to medical records should designate a representative (including address) who may be a physician, other health professional, or other responsible individual, who would be willing to review the record and inform the subject individual of its contents, at the representative's discretion.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought and the reasons for the correction, with supporting justification. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Individuals, research staff, test results.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0038

SYSTEM NAME:

Clinical Research: Patient Data, HHS/NIH/NIDDK.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

National Institutes of Health, Building 10, Room 9N222, 9000 Rockville Pike, Bethesda, MD 20892.

Write to System Manager at the address below for the address of the Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patients of the National Institute of Diabetes, and Digestive and Kidney Diseases (NIDDK).

CATEGORIES OF RECORDS IN THE SYSTEM:

Patient history, demographic data, miscellaneous correspondence with patients.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241, 281a, 289c.

PURPOSE(S):

(1) Care and treatment of patients with diabetic, endocrine, metabolic, digestive, liver or kidney diseases; (2) Experimentation and investigation on the etiology, treatment and prevention of diabetic, endocrine, metabolic, digestive, liver or kidney diseases; (3) Administration of these clinical and research programs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the research purpose for which the records are collected. The recipients are required to maintain Privacy Act safeguards with respect to these records.

2. Certain diseases and conditions, including infectious diseases, may be reported to appropriate representatives of State or Federal Government as required by State or Federal law.

3. Information may be used to respond to congressional inquiries for constituents concerning admission to the NIH Clinical Center.

4. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice or other appropriate Federal agency to enable that agency to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders and on magnetic tape.

RETRIEVABILITY:

Records are retrieved by name.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location. Each site implements personnel, physical, and procedural safeguards such as the following:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to physicians, scientists and support staff of the NIDDK whose duties require the use of such information. Other one-time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager.

2. *Physical safeguards:* Records are kept in a limited access area. Offices are locked during off-duty hours. Input data for computer files is coded to avoid individual identification.

3. *Procedural safeguards:* Access to manual files is strictly controlled by files staff. Files may be removed only at the request of the system manager or other authorized employee. Access to computer files is controlled through security codes known only to authorized users. Access codes are changed frequently.

These practices are in compliance with the standards of Chapter 45-13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45-13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B-361), item 3000-G-3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESSES:

National Institutes of Health, Chief, Clinical Investigations, NIDDK, Building 10, Room 9N222, 9000 Rockville Pike, Bethesda, MD 20892.

NOTIFICATION PROCEDURES:

To determine if a record exists write to: National Institutes of Health, Administrative Officer, Building 31, Room 9A46, 9000 Rockville Pike, Bethesda, MD 20892.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

An individual who requests notification of or access to a medical/dental record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought and the reasons for the correction, with supporting justification. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Patients.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0042

SYSTEM NAME:

Clinical Research: National Institute of Dental Research Patient Records, HHS/NIH/NIDR.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

National Institutes of Health, Building 10, Room 1B01, 9000 Rockville Pike, Bethesda, MD 20892.

Write to system manager at the address below for the address of the Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patients and other participants in current and past research projects of the National Institute of Dental Research (NIDR).

CATEGORIES OF RECORDS IN THE SYSTEM:

Medical and dental histories, dental pathologies and therapies.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 301, 401, 405 and 453 of the Public Health Service Act (42 U.S.C. 241, 281, 284, 285h). These sections establish the National Institute of Dental Research and authorize the conduct and support of dental and oral research and related activities.

PURPOSE(S):

(1) To record the diagnosis and treatment of patients with diseases of the mouth, tongue, teeth and surrounding tissues; (2) To record the normal condition of the mouth, tongue, teeth and surrounding tissues of individuals referred to the dental clinic; (3) To provide clinical data for research into the etiology, treatment and prevention of oral diseases; (4) For review and planning of the NIDR clinical program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the clinical and research purposes for which the records are collected. The recipients are required to maintain Privacy Act safeguards with respect to these records.

2. Certain diseases and conditions, including infectious diseases, may be reported to appropriate representatives of State or Federal Government as required by State or Federal law.

3. Information may be used to respond to congressional inquiries for constituents concerning admission to the NIH Clinical Center.

4. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example, when a claim is based upon an individual's mental or physical condition and is alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders.

RETRIEVABILITY:

Records are retrieved by name and hospital ID number.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project. Each site implements personnel, physical, and procedural safeguards such as the following:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to dentists, physicians, dental hygienists, dental assistants and other health care personnel involved in the care and treatment of patients in the NIDR dental clinic, and to referring professionals. Other one-time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager.

2. *Physical safeguards:* Records are stored in a cabinet which is locked at all times when not in use.

3. *Procedural safeguards:* Access is controlled by clerical staff of the Dental Clinic during clinic hours, and by the Officer of the Day when the clinic is closed.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B-361), item 3000-G-3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

National Institutes of Health, Deputy Clinical Director, NIDR, Building 10, room 1N-113, 9000 Rockville Pike, Bethesda, MD 20892.

NOTIFICATION PROCEDURE:

To determine if a record exists contact: NIDR Privacy Act Coordinator, building 31, room 2C-35, 9000 Rockville Pike, Bethesda, MD 20892.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine. An individual who requests notification of or access to a medical/dental record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, a child's or

incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought and the reasons for the correction, with supporting justification. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Individual, parents or guardians.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0046

SYSTEM NAME:

Clinical Research: Catalog of Clinical Specimens from Patients, Volunteers and Laboratory Personnel, HHS/NIH/NIAID.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Building 7, Rooms 106 and 202, NIH, 9000 Rockville Pike, Bethesda, MD 20892.

Write to System Manager at the address below for the address of the Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patients, volunteers, laboratory personnel in the National Institute of Allergy and Infectious Diseases (NIAID).

CATEGORIES OF RECORDS IN THE SYSTEM:

Clinical specimens, attendant data and laboratory results.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241, 289a, 289c.

PURPOSE(S):

For diagnostic and epidemiologic studies of viral respiratory diseases and hepatitis, conducted by NIAID staff.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the research purpose for which the records are collected. The recipients are required to maintain Privacy Act safeguards with respect to these records.

2. Certain diseases and conditions, including infectious diseases, may be reported to appropriate representatives of State or Federal Government as required by State or Federal law.

3. Information may be used to respond to congressional inquiries for constituents concerning admission to the NIH Clinical Center.

4. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example, when a claim is based upon an individual's mental or physical condition and is alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in data books.

RETRIEVABILITY:

Records are retrieved by name, patient or study number.

SAFEGUARDS:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to HHS scientists conducting research, and staff whose duties require the use of such information. Other one time and special access by other employees is granted on a need to know basis as specifically authorized by the System Manager.

2. *Physical safeguards:* Data books are kept in locked rooms. Offices are locked during off-duty hours.

3. *Procedural Safeguards:* Access to files is strictly controlled by files staff. Records may be removed from files only at the request of the System Manager or other authorized employee.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESSES:

Chief, Respiratory Viruses Section, LID, NIAID, Building 7, Room 106, NIH, 9000 Rockville Pike, Bethesda, MD 20892 and
Chief, Hepatitis Virus Section, LID, NIAID, Building 7, Room 202, NIH, 9000 Rockville Pike, Bethesda, MD 20892.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to: Privacy Act Coordinator, NIAID, Solar Building, Room 3C–23, 6003 Executive Blvd., Bethesda, MD 20892.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

A parent or guardian who requests notification of, or access to, a child's or incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

RECORD ACCESS PROCEDURE:

Same as notification procedure above. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Write to the official specified under notification procedures above, and reasonably identify the record and

specify the information being contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Information contained in these records is obtained directly from individual participants and from medical records, field study records, and clinical research observations.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0060

SYSTEM NAME:

Clinical Research: Division of Cancer Treatment Clinical Investigations, HHS/NIH/NCI.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

National Institutes of Health, 8601 Old Georgetown Road, Bethesda, MD 20892 and Frederick Cancer Research and Development Center, Building 426, Frederick, MD 21701 and
National Cancer Institute, Biological Response Modifiers Program (BRMP), 501 W. 7th Street, Suite #3, Frederick, MD 21701 and
National Cancer Institute, Navy Hospital, Building 8, Room 3146, Bethesda, MD 21814 and
National Cancer Institute, Pharmaceutical Management Branch, Cancer Therapy Evaluation Program, DCT, Executive Plaza North, Suite 804, Bethesda, MD 20892 and at hospitals and clinics, educational and research institutions, Federal, State or local government agencies, and private facilities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All patients who have been hospitalized or seen in outpatient clinics on treatment research protocols in the National Cancer Institute.

CATEGORIES OF RECORDS IN THE SYSTEM:

Medical records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241, 281, 282.

PURPOSE(S):

(1) Patient care and treatment. (2) Clinical and epidemiological research.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the research purpose for which the records are collected. The recipients are required to maintain Privacy Act safeguards with respect to these records.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. Disclosure may be made to a contractor when the Department contemplates that it will contract with a private firm for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

4. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice or other appropriate Federal agency to enable that agency to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on magnetic tapes, microcomputer disks, index cards, microfiche, and manual paper records.

RETRIEVABILITY:

Records are retrieved by patient name or number.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project. Each site implements personnel, physical, and procedural safeguards such as the following:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to physicians, scientists and support staff of the National Cancer Institute, or its contractors, whose duties require the use of such information. Other one-time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager.

2. *Physical safeguards:* Records are kept in a limited access area. Offices are locked during off-duty hours. Input data for computer files is coded to avoid individual identification.

3. *Procedural safeguards:* Access to manual files is strictly controlled by files staff. Files may be accessed only at the request of the system manager or other authorized employee. Access to computer files is controlled through security codes known only to authorized users. Access codes are changed frequently.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESSES:

Head, Biostatistics and Data Management Section, National Institutes of Health, 8601 Old Georgetown Road, Bethesda, MD 20892, and
Chief, Clinical Research Branch, Biological Response Modifiers Program, Frederick Cancer Research and Development Center, 501 W. 7th Street, Suite #3, Frederick, MD 21701, and

Navy Hospital, Deputy Branch Chief, NCI—Naval Medical Oncology Branch, Building 8, Room 5101, Bethesda, MD 20814, and
Chief, Pharmaceutical Management Branch, Cancer Therapy Evaluation Program, DCT, National Cancer Institute, Executive Plaza North, Suite 804, Bethesda, MD 20892, and
Director, Extramural Clinical Studies, BRB, BRMP, Division of Cancer Treatment, National Cancer Institute, Frederick Cancer Research and Development Center, Fort Detrick, Frederick, MD 21701

NOTIFICATION PROCEDURE:

Write to system manager for the appropriate location to determine if a record exists. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

An individual who requests notification of or access to a medical/dental record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, a child's or incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Hospital medical records, referring physician, referring hospitals, clinical laboratories, patient contact, and Central Tumor Registries.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0099

SYSTEM NAME:

NIH Clinical Center Admissions of the National Cancer Institute, HHS/NIH/NCI.

SECURITY CLASSIFICATION:

SYSTEM LOCATION:

National Institutes of Health, Genetic and Clinical Epidemiology Branches, DCE, Executive Plaza North, Rooms 400 and 439, 6130 Executive Blvd., Bethesda, MD 20892 and
National Institutes of Health, Division of Computer Research and Technology, Building 12A, 9000 Rockville Pike, Bethesda, MD 20892 and
WESTAT, Inc., Manugistics Building, Suite 402, 2115 E. Jefferson Street, Rockville, MD 20852 and
Survey Research Associates, Inc., Manugistics Building, Suite 400, 2115 E. Jefferson Street, Rockville, MD 20852

Write to System Manager at the address below for the address of the Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former cancer patients and their family members admitted to the NIH Clinical Center or the National Cancer Institute (NCI).

CATEGORIES OF RECORDS IN THE SYSTEM:

Medical histories, reports and correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 265a.

PURPOSE(S):

National Cancer Institute physicians and supporting staff are involved in research on the cause and diagnosis of disease and the treatment of patients, requiring the maintenance of working files to chart progress, responses to treatment, etc.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the research purpose for which the records are collected. The recipients are required to maintain Privacy Act safeguards with respect to these records.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. Disclosure may be made to a contractor when the Department contemplates that it will contract with a private firm for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

4. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice or other appropriate Federal agency to enable that agency to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

5. (a) PHS may inform the sexual and/or needle-sharing partner(s) of a subject individual who is infected with the human immunodeficiency virus (HIV) of their exposure to HIV, under the following circumstances: (1) The information has been obtained in the course of clinical activities at PHS facilities carried out by PHS personnel or contractors; (2) The PHS employee or contractor has made reasonable efforts to counsel and encourage the subject individual to provide the information to the individual's sexual or needle-sharing partner(s); (3) The PHS employee or contractor determines that the subject individual is unlikely to provide the information to the sexual or needle-sharing partner(s) or that the provision of such information cannot reasonably be verified; and (4) The notification of the partner(s) is made, whenever possible, by the subject individual's physician or by a professional counselor and shall follow standard counseling practices.

(b) PHS may disclose information to State or local public health departments, to assist in the notification of the subject individual's sexual and/or needle-sharing partner(s), or in the verification that the subject individual has notified such sexual or needle-sharing partner(s).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders and on computer files.

RETRIEVABILITY:

Records are retrieved by identification number.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project. Each site implements personnel, physical and procedural safeguards such as the following:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to physicians, scientists and support staff of the National Cancer Institute and the Clinical Center whose duties require the use of such information. Other one-time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager.

2. *Physical safeguards:* Records are kept in limited access areas. Offices are locked during off-duty hours. Input data for computer files is coded to avoid individual identification.

3. *Procedural safeguards:* Access to manual files is strictly controlled by files staff. Files may be accessed only at the request of the system manager or other authorized employee. Access to computer files is controlled through security codes known only to authorized users. Access codes are changed frequently.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31)

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

National Institutes of Health, National Cancer Institute, Division of Cancer Etiology, Epidemiology and Biostatistics Program, Chief, Genetic Epidemiology Branch, Executive Plaza North, Suite 439, Bethesda, MD 20892 and
Chief, Clinical Genetics Section, Clinical Epidemiology Branch, Executive Plaza North, Suite 400, Bethesda, MD 20892

NOTIFICATION PROCEDURE:

Write to system manager to determine if a record exists. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

An individual who requests notification of or access to a medical/dental record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, a child's or incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Patients' personal physicians, NIH staff treating the patients or performing tests, requested outside records, and patients themselves.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0087

SYSTEM NAME:

Administration: Senior Staff, HHS/NIH/NIAID.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

National Institutes of Health, Building 31, Room 7A32, 9000 Rockville Pike. Bethesda, MD 20892.

Write to System Manager at the address below for the address of the Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former key professional employees of the Institute and consultants.

CATEGORIES OF RECORDS IN THE SYSTEM:

Press releases, curriculum vitae, nominations for awards and photographs.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241(d) 289a.

PURPOSES:

For background records to provide public announcements on National Institute of Allergy and Infectious Diseases (NIAID) research.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in file folders.

RETRIEVABILITY:

Retrieved by name.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project. Each site implements personnel, physical, and procedural safeguards such as the following:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to staff whose duties require the use of such information. Authorized users are located in the Office of the Director, NIAID. Other one time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager.

2. *Physical safeguards:* Records in this system are stored in file folders which are kept in locked cabinets. The room is locked during off-duty hours.

3. *Procedural safeguards:* Access to files is strictly controlled by files staff. Records may be removed from files only at the request of the system manager or other authorized employee.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 1100–G. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Communications, National Institutes of Health, Building 31, Room 7A–32, 9000 Rockville Pike, Bethesda, MD 20892.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to: National Institutes of Health, Privacy Act Coordinator, NIAID, Solar Bldg., Room 3C–23, 6003 Executive Blvd., Bethesda, MD 20892.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Same as record notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the System Manager at the address above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought and the reasons for the correction, with supporting justification. RECORD SOURCE CATEGORIES:

Individuals and newspaper clippings.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0105

SYSTEM NAME:

Administration: Health Records of Employees, Visiting Scientists, Fellows, Contractors and Relatives of Inpatients, HHS/NIH/ORS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Building 10 and 13, NIH, 9000 Rockville Pike, Bethesda, MD. 20892
Westwood Building, 5333 Westbard Ave., Bethesda, MD. 20892
Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857
Rocky Mountain Laboratories, Hamilton, Montana 59840

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees, fellows, visiting scientists, relatives of inpatients, visitors, contractors working on site.

CATEGORIES OF RECORDS IN THE SYSTEM:

Medical records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 7901.

PURPOSE(S):

1. For medical treatment;

2. Upon researcher request with individual's written permission, release of record for research purposes to medical personnel;

3. Upon request by HHS personnel offices for determination of fitness for duty, and for disability retirement and other separation actions;

4. For monitoring personnel to assure that safety standards are maintained.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to Federal, State, and local government agencies for adjudication of benefits under workman's compensation, and for disability retirement and other separation actions.

2. To district office of OPEC, Department of Labor with copies to the U.S. Office of Personnel Management for processing of disability retirement and other separation actions.

3. Upon non-HHS agency request, for examination to determine fitness for duty with copies to requesting agency and to the U.S. Office of Personnel Management.

4. Disclosure may be made to a congressional office from the record of an individual in response to any inquiry from the congressional office made at the request of the individual.

5. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has any interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders.

RETRIEVABILITY:

Records are retrieved by name and SSN.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project.

Each site implements personnel, physical and procedural safeguards such as the following:

1. *Authorized users:* Access is limited to authorized personnel (system manager and staff; Occupational Medicine Service staff; and personnel and administrative officers with need for information for fitness for duty, disability, and other similar determinations.)

2. *Physical safeguards:* Files are maintained in locked cabinets.

3. *Procedural safeguards:* Access to files is strictly controlled by authorized staff.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule, Manual Chapter 1743 (HHS Records Management Manual, Appendix B–361), item 2300–792–3.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Director, Division of Safety, NIH Building 31, Room 1C02, 9000 Rockville Pike, Bethesda, MD 20892
Chief, Rocky Mountain Operations Branch, Rocky Mountain Laboratories (RML), National Institutes of Health Hamilton, MT 59840

NOTIFICATION PROCEDURE:

Contact System Manager at appropriate treatment location listed above, to determine if a record exists. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to 5,000 dollar fine.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requester should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURES:

Write to the official specified under notification procedures above, and reasonably identify the record and specify the information being contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Records contain data resulting from clinical and preventative services provided at treatment location, and data received from individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0106

SYSTEM NAME:

Administration: Office of the NIH Director and Institute/Center/Division Correspondence Records, HHS/NIH/OD.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Executive Secretariat, Office of the Director, Building 1, Room B1–55, 9000 Rockville Pike, Bethesda, MD 20892
Office of Legislative Policy and Analysis, Office of the Director, Building 1, Room 244, 9000 Rockville Pike, Bethesda, MD 20892, and Institute/Center/Division Staff Offices that retain correspondence files.

Write to the appropriate system manager listed in Appendix I for a list of current locations and for the address of the Federal Records Center where records are stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have contacted the NIH Director or his/her subordinates, or have been contacted in writing by one of these officials.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence and other supporting documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 44 U.S.C. 3101.

PURPOSE(S):

1. To control and track all correspondence documents addressed or directed to the NIH Director or his/her subordinates, as well as documents/supporting documents initiated by them, in order to assure timely and appropriate attention.

2. Incoming correspondence and supporting documentation is forwarded to other HHS components when a response from them is warranted.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. Disclosure may be made from this system of records by the Department of Health and Human Services (HHS) to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has any interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored by computer index and in file folders.

RETRIEVABILITY:

Records are retrieved by name, document number, date, and subject.

SAFEGUARDS:

1. *Authorized users:* Access to textual records is limited to authorized personnel (system managers and staff).

2. *Physical safeguards:* Physical access to records is restricted to authorized personnel.

3. *Procedural safeguards:* Access to textual records is strictly controlled by system managers and staff. Records may be removed from files only at the request of system managers or other authorized employees. Computer files are password protected.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records"

VOL 58 ISS 248 DE 29 1993 UMI

(HHS Records Management Manual, Appendix B–361), item 1700–C, which allows records to be kept for a maximum period of 6 years. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

System Managers are listed in Appendix I; each maintains full responsibility for their specific correspondence system.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the appropriate system manager as listed in Appendix I. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought and the reasons for the correction. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Records are derived from incoming and outgoing correspondence.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0108

SYSTEM NAME:

Personnel: Guest Researchers, Special Volunteers, and Scientists Emeriti, HHS/NIH/DPM.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

This system is located in the personnel/administrative offices of individual Institutes/Centers/Divisions of the National Institutes of Health.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals using NIH facilities who are not NIH employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personal information including name, address, date and place of birth, education, employment, purpose for which NIH facilities are desired, outside sponsor, and NIH sponsor.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241(a)(2), 42 U.S.C. 282(b)(10), and 42 U.S.C. 284(b)(1)(k).

PURPOSE(S):

To determine eligibility to use NIH facilities, to document the individual's presence at NIH, and to record that the individual is not an employee.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to U.S. Office of Personnel Management for program evaluation purposes; to General Accounting Office for fund disbursement determinations.
2. Disclosure may be made to institutions providing financial support.
3. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from the congressional office made at the request of that individual.
4. Disclosure may be made to the Department of Justice or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has any interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Records are retrieved by name.

SAFEGUARDS:

For each location and for the particular records maintained in each project. Each site implements personnel, physical and procedural safeguards such as the following:

1. *Authorized users:* Access is granted only to personnel staff, administrative office staff and management officials directly involved in the administration of the Guest Researcher, Special Volunteer and Scientist Emeriti programs.
2. *Physical safeguards:* Record facilities are locked when system personnel are not present.
3. *Procedural safeguards:* Access to files is strictly controlled by system personnel. Records may be removed from the file only with the approval of the system manager or other authorized employees.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 2300–320–3(a), which allows records to be destroyed after a maximum period of 2 years after the individual completes work at NIH. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESSES:

Personnel/Administrative Officers of National Institutes of Health Institutes/Centers/Divisions.

NOTIFICATION PROCEDURE:

To determine if a record exists and where it is located, contact: National Institutes of Health, Division of Personnel Management, Privacy Act Coordinator, Building 31, Room 1C39, 9000 Rockville Pike, Bethesda, MD 20892.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Contact the Personnel Officer or Administrative Officer in whose office the record is located and provide verification of identity as described under notification procedure above. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Write to the official specified under notification procedures above, and reasonably identify the record and specify the information being contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Subject individual, NIH sponsor, funding institution.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0112

SYSTEM NAME:

Grants and Cooperative Agreements: Research, Research Training, Fellowship and Construction Applications and Related Awards, HHS/NIH/OD.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

See Appendix I.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Grant applicants and Principal Investigators; Program Directors; Institutional and Individual Fellows; Research Career Awardees; and other employees of Applicant and/or grantee institutions.

CATEGORIES OF RECORD IN THE SYSTEM:

Grant and cooperative agreement applications and review history, awards, financial records, progress reports, payback records, and related correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

"Research and Investigation," "Appointment and Authority of the Directors of the National Research Institutes," "National Institute of Mental Health," "National Institute on Drug Abuse," " National Institute on Alcohol Abuse and Alcoholism," "National Cancer Institute," "National Heart, Lung and Blood Institute," "National Institute of Diabetes, and Digestive and Kidney Diseases," "National Institute of Arthritis and Musculoskeletal and Skin Diseases," "National Institute on Aging," "National Institute on Allergy and Infectious Diseases," "National Institute of Child Health and Human Development," "National Institute of Dental Research;" "National Eye Institute," "National Institute of Neurological Disorders and Stroke," "National Institute of General Medical Sciences," "National Institute of Environmental Health Sciences," "National Institute on Deafness and Other Communication Disorders," "National Institute of Nursing Research," and the "National Library of Medicine," of the Public Health Service Act. (42 U.S.C. 241, 284, 285, 285(b), (c), (d), (e), (f), (g), (h), (i), (j), (k), (l), (m), 286b–286b–7.

PURPOSE(S):

1. Information provided is used by NIH staff for review, award, and administration of grant programs.
2. Information is also used to maintain communication with former fellows who have incurred an obligation through the National Research Service Award Program.
3. Staff may also use curriculum vitae to identify candidates who may serve as ad hoc consultants or committee and council members in the grant peer review process.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made of assignments of research investigators and project monitors to specific research projects to the National Technical Information Service (NTIS), Department of Commerce, to contribute to the Smithsonian Science Information Exchange, Inc.
2. Disclosure may be made to the cognizant audit agency for auditing.
3. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected.
4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
5. Disclosure may be made to qualified experts not within the definition of Department employees as prescribed in Department Regulations, 45 CFR 56.2, for opinions as a part of the application review and award administration processes.

6. Disclosure may be made to a Federal agency, in response to its request, in connection with the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the record is relevant and necessary to the requesting agency's decision on the matter.

7. A record may be disclosed for a research purpose, when the Department: (A) Has determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected; or obtained; (B) has determined that the research purpose (1) cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring; (C) has required the recipient to (1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except (a) in emergency circumstances affecting the health or safety of any individual, (b) for use in another research project, under these same conditions, and with written authorization of the Department, (c) for disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (d) when required by law; (D) has secured a written statement attesting to the recipient's understanding of, and willingness to abide by these provisions.

8. Disclosure may be made to a private firm for the purpose of collating, analyzing, aggregating or otherwise refining records in a system. Relevant records will be disclosed to such a contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records;

9. Disclosure may be made to the grantee institution in connection with the review of an application or performance or administration under the terms and conditions of the award, or in connection with problems that might arise in performance or administration if an award is made on a grant proposal.

10. Disclosure may be made to the profit institution's president or official responsible for signing the grant application in connection with the review or award of a grant application and in connection with the administration and performance of a grant under the terms and conditions of the awards.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12):

Disclosures may be made from this system to "consumer reporting agencies" as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

The Department may disclose to consumer reporting agencies information on individuals who have failed to meet payback obligations incurred under awards made under authority of the National Research Service Awards Program (41 U.S.C. 289l–1). Information disclosed includes data identifying the individual, the amount, status and history of the obligation, and that the obligation arose from an award made under the National Research Service Awards Program.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in file folders, on computer tapes and discs, cards and in notebooks.

RETRIEVABILITY:

Retrieved by name and grant number.

SAFEGUARDS:

A variety of physical and procedural safeguards are implemented, as appropriate, at the various locations of this system:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to officials whose duties require use of the information. These officials include review groups, grants management staff, other extramural program staff, health science administrators, data processing and analysis staff and management officials with oversight responsibilities for extramural programs. Other one-time and special access is granted on an individual basis as specifically authorized by the system manager. Authorization for access to computerized files is controlled by the system manager or designated official and is granted on a need-to-know basis. Lists of authorized users are maintained

2. *Physical safeguards:* Secured facilities, locked rooms, locked cabinets, personnel screening; records stored in order of grant numbers which are randomly assigned.

3. *Procedural safeguards:* Access to file rooms and files is strictly controlled by files staff or other designated officials; charge-out cards identifying users are required for each file used; inactive records are transferred to controlled storage in Federal Records Center in a timely fashion; retrieval of records from inactive storage is controlled by the system manager or designated official and by the NIH Records Management Officer; computer files are password protected and access is actively monitored by the Computer Center to prevent abuse. Employees are given specialized training in the requirements of the Privacy Act as applied to the grants program.

These particular safeguards are developed in accordance with Chapter 45–13, "Safeguarding Records Contained in Systems of Records," of the HHS General Administration Manual, supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security", of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), items: 4000–B–1; 4000–B–4; 4000–C–1 and, 4600–D–1. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

See Appendix II.

NOTIFICATION PROCEDURE:

Write to official at the address specified in Appendix II to determine if a record exists. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Write to the official at the address specified in Appendix IV to obtain access to a record, and provide the same information as is required under the Notification Procedures above. Requesters should also reasonably specify the record contents being sought.

Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official at the address specified in Appendix II, and reasonably identify the record and specify the information being contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Information submitted by applicant; supplemented by outside reviewers and internal staff.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0115

SYSTEM NAME:

Administration: Curricula Vitae of Consultants and Clinical Investigators, HHS/NIH/NIAID

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

National Institutes of Health, Solar Bldg., Room 3A01, 6003 Executive Blvd., Bethesda, MD 20892 and Ogden BioServices Corporation, 621A Lofstrand Lane, Rockville, MD 20850

Write to the System Manager at the address below for the address of the Federal Records Center where records are stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Consultants and Clinical Investigators under National Institute of Allergy and Infectious Diseases (NIAID) Investigational New Drug Applications.

CATEGORIES OF RECORDS IN THE SYSTEM:

Curriculum vitae.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241, 289g.

PURPOSE(S):

(1) To maintain a record of the investigators under Investigational New Drug (IND) applications, and (2) To appoint consultants to the NIAID Institutional Review Board (IRB).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has any interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in books.

RETRIEVABILITY:

Retrieved by name.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project. Each site implements personnel, physical, and procedural safeguards such as the following:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant regular access only to NIAID staff whose duties require the use of such information. Authorized users are located in the Clinical and Regulatory Affairs Branch, Division of Microbiology and Infectious Diseases, NIAID. Other one-time and special access by other employees is granted on a need-to-know basis as specifically authorized by the system manager.

2. *Physical safeguards:* Building is locked during off-duty hours.

3. *Procedural safeguards:* Access to files is strictly controlled by files staff. Records may be removed from files only at the request of the system manager or other authorized employee.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B-361), item 1100-G. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Clinical and Regulatory Affairs Branch, DMID, NIAID, Solar Bldg., Room 3A-01, 6003 Executive Blvd., Bethesda, MD 20892.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to: NIAID Privacy Act Coordinator, Solar Bldg., Room 3C-23, 6003 Executive Blvd., Bethesda, MD 20892.

The requester must also verify his or her identity by providing either a notarization of the request or a written

certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Same as record notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Write to the official specified under notification procedures above, and reasonably identify the record and specify the information being contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Individuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0118

SYSTEM NAME:

Contracts: Professional Services Contractors, HHS/NIH/NCI.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Building 31, Room 3A52, DCT, 9000 Rockville Pike, Bethesda, MD 20892
Building 31, Room 11A33, OD, 9000 Rockville Pike, Bethesda, MD 20892
Executive Plaza North, Room 604, DEA, 9000 Rockville Pike, Bethesda, MD 20892
Building 31, Room 11A11, DCE, 9000 Rockville Pike, Bethesda, MD 20892
Building 31, Room 10A50, DCPC, 9000 Rockville Pike, Bethesda, MD 20892

Write to System Manager at the address below for the address of the Federal Records Center where records may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals under contract with the National Cancer Institute.

CATEGORIES OF RECORDS IN THE SYSTEM:

Professional Services Contracts.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241(d); 281.

PURPOSE(S):

Used by staff for general administrative purposes to assure compliance with contract program requirements.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in file folders.

RETRIEVABILITY:

Retrieved by name.

SAFEGUARDS:

1. *Authorized users:* Access is limited to authorized personnel (system manager and staff).

2. *Physical safeguards:* Records are maintained in offices which are locked when not in use.

3. *Procedural safeguards:* Access to files is strictly controlled by system manager and staff.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B-361), item 2600-A-4, which allows records to be destroyed after a maximum period of 6 years and 3 months after final payment. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Administrative Officer, DCT, Building 31, Room 3A52, 9000 Rockville Pike, Bethesda, MD 20892
Administrative Officer, OD, National Institutes of Health, Building 31, Room 11A33, 9000 Rockville Pike, Bethesda, MD 20892
Administrative Officer, DEA, Executive Plaza North, Room 604, 9000 Rockville Pike, Bethesda, MD 20892
Administrative Officer, DCE, Building 31, Room 11A11, 9000 Rockville Pike, Bethesda, MD 20892
Administrative Officer, DCPC, Building 31, Room 10A50, 9000 Rockville Pike, Bethesda, MD 20892

NOTIFICATION PROCEDURE:

Write to the appropriate System Manager listed above to determine if a record exists. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, and reasonably identify the record and specify the information to be contested, and state the corrective action sought and the reasons for the correction, with supporting justification. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Individuals in the system.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0120

SYSTEM NAME:

Clinical Research: Neural Prosthesis & Biomedical Engineering Studies, HHS/NIH/NINDS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Federal Building, Room 9C02, 7550 Wisconsin Ave., Bethesda, Md 20892 and: (1) At hospitals and medical centers under contract, and (2) Federal Records Centers. A list of locations is available upon request from the system manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patients and normal volunteers, males and females, participating in clinical studies to determine the feasibility of neural prostheses, and in clinical studies related to the development of instrumentation for diagnosis and treatment of neurological and sensory disorders conducted under contract for the National Institute of Neurological Disorders and Stroke (NINDS).

CATEGORIES OF RECORDS IN THE SYSTEM:

Clinical research data as related to studies which seek to determine the feasibility of neural prostheses and to develop instrumentation for diagnosis and treatment of neurological and sensory disorders.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 421, 289a, 289c.

PURPOSE(S):

(1) Clinical research on the development of neural prosthesis (artificial devices) to enhance function of individuals with various disorders of the central nervous system.

(2) Research on the development of new instruments to improve diagnosis and treatment of disorders of the nervous system.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the research purpose for which the records are collected. The recipients are required to protect such records from improper disclosure.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice or other appropriate Federal agency to enable that agency to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders.

RETRIEVABILITY:

Records are retrieved by name.

SAFEGUARDS:

1. *Authorized users:* Employees who maintain records in this system are instructed to grant access only to HHS scientists and their authorized collaborators.

2. *Physical safeguards:* Records are kept in a locked room when not in use.

3. *Procedural safeguards:* Personnel having access to this system are informed of Privacy Act requirements.

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Fundamental Neurosciences Program, NINDS Federal Building, Room 916 7550 Wisconsin Ave Bethesda, MD 20892

NOTIFICATION PROCEDURE:

Write to: Chief, Administrative Services Branch, NINDS, Building 31, Room 8A49, 9000 Rockville Pike, Bethesda, MD 20892 and ask if a file with your name exists in the Neural Prosthesis or Biomedical Engineering Studies. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

An individual who requests notification of or access to a medical record shall, at the time the request is made, designate in writing, a responsible representative, who may be a physician, who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURES:

Write to system manager and reasonably identify the record and specify the information to be contested, and state the corrective action sought and the reasons for the correction.

RECORD SOURCE CATEGORIES:

Patients, patients' families, hospital records and clinical investigators.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0134

SYSTEM NAME:

Clinical Research: Epidemiology and Clinical Studies, National Institute of Environmental Health Sciences, HHS/NIH/NIEHS.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

National Institute of Environmental Health Services (NIEHS), Epidemiology Branch, P. O. Box 12233, Research Triangle Park, North Carolina 27709, and at hospitals, medical schools, universities, research institutions, commercial organizations, state agencies, and collaborating government agencies. Inactive records may be stored in a Federal Records Center. A list of locations and contracts is available upon request made to the System Manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Adults and minors, both male and female, with known or suspected diseases, maladies, chemical or biological contaminations, as well as normal or non-suspect individuals and minors in control or study groups for the purposes of comparison. Individuals included in this system of records normally have volunteered to participate in the study and voluntarily provided information for inclusion in the system.

The participants may be, but are not limited to, patients; workers subject to specific environments; individuals selected because of social, nutritional, physical, genetic and economic conditions and behavioral characteristics; and members of the general population subject to the variety of contaminants present in the environment.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of a variety of records pertinent to an individual's current health status; Medical history; occupational history and work environments; and selected items of personal data such as smoking habits, family size, family medical history and domiciles. Examples of information which may be included in this system are name, Social Security Number, date of birth, weight, height, sex, race, medical history, blood type, laboratory results, examination findings, current and previous medications received, list of employers, descriptions of the work environment, substances or compounds routinely handled or exposed to, and a history of current and previous residences.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 241.

PURPOSE(S):

National Institute of Environmental Health Sciences uses the data collected to:

1. Determine whether or not general conditions, chemicals and/or other substances found in the environment have effects on the health and well being of individuals or groups of individuals;

2. Determine how these conditions, chemicals or other substances, acting by themselves or in combination, produce adverse effects on health;

3. Identify individual or group characteristics that make a person susceptible to chemical contamination, disease or other adverse health effects from these environmental conditions or agents;

4. Determine whether there is a general or background level of exposure or other chemical effects in a local area, regional area, or nationally as well as within general or specific work environments;

5. Develop and/or validate epidemiologic or laboratory methods for detecting adverse effects due to environmental exposures;

6. Determine the scientific basis for advising regulatory agencies such as the Environmental Protection Agency, the National Institute of Occupational Safety and Health and the Department of Labor's Occupational Safety and Health Administration regarding the adverse health effects of substances and conditions found in the environment;

7. Determine the scientific basis for advising local, state, other governmental agencies and international governments regarding the adverse health effects of substances and conditions found in the environment; and

8. Determine the scientific basis for advising the Congress, industry, workers, scientific or public agencies and other interested parties regarding the known or potential for adverse health effects from exposure to substances or conditions found in the environment.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the research purpose for which the records are collected. The recipients are required to protect such records from improper disclosure.

2. Disclosure may be made to a congressional office from the record of the individual in response to an inquiry from the congressional office, made at the request of the individual, and in the case of a minor, the minor's parent or legal guardian.

3. Referrals may be made of assignments of research investigators and project monitors to specific research projects to the Smithsonian Institution to contribute to the Smithsonian Science Information Exchange, Inc.

4. The Department contemplates that it will contract with a private firm for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

5. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice or other appropriate Federal agency to enable that agency to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information is stored in one of a combination of the following mediums: File folders, data forms, punch card, magnetic tape discs, microfiche/microfilm, and computer tapes.

RETRIEVABILITY:

Information is retrieved by personal identifier such as name or code number. Social security numbers which are supplied on a voluntary basis also are used for retrieval.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for the particular records maintained in each project. Each site implements personnel, physical and procedural safeguards such as the following:

1. *Authorized users:* Use of these records is limited to those persons whose official duties require such access. Access to the information is controlled by the Project Officer or his representative at remote locations. Contractors or collaborating researchers, by formal agreement, comply with the provisions of the Privacy Act and Department regulations.

2. *Physical safeguards:* Hard copy data is maintained in locked file cabinets at the National Institute of Environmental Health Sciences or remote study locations. Information stored in computer systems is accessible only through proper sequencing of signal commands and access codes specifically assigned to the Project Officer or contractor in accordance with Departmental standards and National Bureau of Standards guidelines.

3. *Procedural safeguards:* Subjects directly participating in studies are advised that their identity is known only to those persons involved in conducting the study, and that any

VOL 58 ISS 248 DE 29 1993 UMI

published findings will be in a format which precludes individual identification.

The particular safeguards implemented at each site are developed in accordance with Chapter 45–13, "Safeguarding Records Contained in Systems of Records," of the HHS General Administration Manual, supplementary Chapter PHS.hf: 45–13, and Part 6, "ADP Systems Security", of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Epidemiology Branch, National Institute of Environmental Health Sciences, P.O. Box 12233, Research Triangle Park, North Carolina 27709.

NOTIFICATION PROCEDURE:

Individuals may write to the System Manager to determine if a file exists. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine. In writing, they should provide the following data:

a. Complete name at the time of the study.

b. Birth date.

c. Home address at the time of the study.

d. The facility where the examination was given or information otherwise collected.

e. Date, or approximate dates when information was collected or an examination conducted.

f. Name of study if known.

g. A current name, address and telephone number where they can be reached.

An individual who requests notification of or access to a medical or dental record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's description.

A parent or guardian who requests notification of, or access to, a child's or incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

RECORD ACCESS PROCEDURE:

The same information as outlined under notification procedures is needed for access to records. The request should be addressed to the System Manager. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Write to the System Manager and specify the record and the information to be contested, and state the corrective action sought and the reasons for the correction. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

HHS agencies, institutions under contract to the U.S. Government, universities, medical schools, hospitals, commercial, institutions, labor and trade organizations, State agencies, international agencies, foreign governments, other U.S. Government agencies, patients and normal volunteers, physicians, researchers and other collaborating personnel.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0143

SYSTEM NAME:

Biomedical Research: Records of Subjects in Clinical, Epidemiologic and Biometric Studies of the National Institute of Allergy and Infectious Diseases, HHS/NIH/NIAID.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

At National Institutes of Health facilities in Bethesda, Maryland, and at hospitals, medical schools, universities, research institutions, commercial organizations, state agencies, and collaborating Federal agencies. Inactive records may be retired to Federal Records Centers. A list of locations is available upon request from the System Manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patients with infectious diseases, immunologic diseases involving adverse reactions of the body (e.g., allergic reactions) and related diseases (e.g. Acquired Immunodeficiency Disease Syndrome/AIDS), normal healthy volunteers who serve as controls for comparison with patients, relatives of patients and other individuals whose characteristics or conditions are being studied for possible connections with the occurrence of the diseases under investigation.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of a variety of clinical, medical, and epidemiological information resulting from or contained in direct observations, medical records and other histories, vital statistics reports, records on biological specimens (e.g., blood, urine, etc.), personal interviews, questionnaires, progress reports, correspondence or research findings.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C 241, 289a, 289c.

PURPOSE(S):

This system will be used to support: (1) Epidemiologic, clinical and biometric investigations into the causes, nature (morbidity and mortality), outcome, therapy and cost of infectious, immunologic and related diseases; and (2) Review and evaluation of the progress of these research projects, and identification of and planning for improvements or for additional research.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors, grantees and collaborating researchers and their staff in order to accomplish the research purpose for which the records are collected. The recipients are required to protect such records from improper disclosure.

2. Disclosure may be made to organizations deemed qualified by the Secretary to carry out quality assessments, medical audits or utilization review.

3. A record may be disclosed for a research purpose, when the Department: (A) Has determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected, or obtained; (B) has determined that the

research purpose (1) cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring; (C) has required the recipient to (1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except (a) in emergency circumstances affecting the health or safety of any individual, (b) for use in another research project, under these same conditions, and with written authorization of the Department, (c) for disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (d) when required by law; (D) has secured a written statement attesting to the recipient's understanding of, and willingness to abide by these provisions.

4. In the event the Department deems it desirable or necessary, in determining whether particular records are required to be disclosed under the Freedom of Information Act, disclosures may be made to the Department of Justice for the purpose of obtaining its advice.

5. The Department contemplates that it may contract with one or more private firms for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor will be required to maintain Privacy Act safeguards with respect to such records.

6. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending against a claim based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice or other appropriate Federal agency to enable that agency to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

7. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data may be stored in file folders, computer-accessible forms (e.g. tapes or discs), punched cards, bound notebooks, microfilm, charts, graphs, and X-rays.

RETRIEVABILITY:

Information is retrieved by name and/or participant identification number.

SAFEGUARDS:

1. *Authorized users:* Access to or disclosure of information is limited to collaborating researchers, contractors and NIAID employees who are involved in the conduct, support or review and evaluation of the research activities supported by this system.

2. *Physical safeguards:* Data are kept in secured areas (e.g. rooms which are locked when not in regular use, buildings with controlled access). Data stored in computer-accessible form is accessed through the use of key words known only to principal investigators or authorized personnel; all other information is stored in locked files.

3. *Procedural safeguards:* Contractors and collaborating researchers are required to comply with the provisions of the Privacy Act and with Department regulations.

These and other appropriate safeguards are implemented in each project in accordance with Chapter 45–13, "Safeguarding Records Contained in Systems of Records," of the HHS General Administration Manual, supplementary Chapter PHS.hf: 45–13, and Part 6, "ADP Systems Security", of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESSES:

Chief, Epidemiology and Biometry Branch, DMID, National Institute of Allergy and Infectious Diseases, Solar Building, Room 3A24, Bethesda, Maryland 20892 and

Special Assistant, Clinical Research Program, DAIDS, Room 2C–20, Solar Building, 6003 Executive Blvd., Bethesda, MD 20892

NOTIFICATION PROCEDURE:

To determine if a record exists, write to: NIAID Privacy Act Coordinator, Solar Bldg., Room 3C–23, 6003 Executive Blvd., Bethesda, MD 20892, and provide the following information:

1. System name,
2. Complete name and home address at the time of the study,
3. Birth date,
4. Facility conducting study,
5. Disease type (if known),
6. Approximate dates of enrollment in the research study.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to five thousand dollar fine.

An individual who requests notification of or access to a medical record shall, at the time the request is made, designate in writing, a responsible representative, who may be a physician, other health professional, or other responsible individual, who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, a child's or incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Write to the official specified under notification procedures above, and reasonably identify the record and specify the information being contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Information contained in these records is obtained directly from individual participants, from physicians, research investigators and other collaborating persons and from medical records and clinical research observations at hospitals, HHS agencies, universities, medical schools, research institutions, commercial institutions, state agencies, collaborating Federal agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0145

SYSTEM NAME:

Clinical Research: Clinical Trials and Epidemiological Studies Dealing with Visual Disease and Disorders in the National Eye Institute, HHS/NIH/NEI.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Records included in this system are located in hospitals, universities, research centers, research foundations, and coordinating centers under contract with the National Eye Institute (NEI), and in NEI, National Institutes of Health, Building 10, 9000 Rockville Pike, Bethesda, Maryland 20892.

A current list of contractor sites is available by writing to the System Manager at the address below.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Participants in these studies include (1) individuals who have been or who are presently being treated by the NEI or its contractors for visual disorders or conditions of the eye, (2) individuals who present physiological symptoms usually preceding or evidencing diseases or disorders of the eye, (3) offspring of previously studied populations, (4) populations at high-risk for development of certain eye disorders, such as age-related, and (5) normal volunteers who have agreed to provide control data germane to these studies. Studies are usually five years in duration and follow-up studies may occur in later years if information indicates they are appropriate.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of clinical, medical, and statistical information resulting from or contained in research findings, medical histories, vital statistics, personal interviews, questionnaires, or direct observation. The system also includes records of current addresses of study participants, photographs of structures of the eye, and correspondence from or about participants in these studies. Social security numbers, disclosed voluntarily, are included to assist in locating patients for follow-up studies, or verifying their existence through mortality registers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sec. 301, 401, 405, 455, Public Health Service Act (42 U.S.C. 281, 284, 285i). These sections establish the National Eye Institute and authorize the conduct and support of vision research and related activities.

PURPOSE(S):

1. To monitor and evaluate incidence of visual disorders and/or diseases or the conditions under investigation and the relationship of various factors to the occurrence of these diseases.

2. To monitor the progression of various eye disorders and the efficacy of specific treatments of these disorders.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to affect directly the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending a claim against the Public Health Service based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, disclosure may be made to the Department of Justice to enable that Department to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

3. Disclosure may be made to a private firm or a research institution for the purpose of collating, analyzing, aggregating or otherwise refining records in this system. Relevant records will be disclosed to such a contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

4. A record may be disclosed for a research purpose, when the Department (A) has determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected, or obtained; (B) has determined that the research purpose (1) cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk, if any, to the privacy of the individual that additional exposure of the record might bring; (C) has required the recipient to (1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, and (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except (a) in emergency circumstances affecting the health or safety of any individual, (b) for use in another research project, under these same conditions, and with written authorization of the Department, (c) for disclosure to a properly identified person for an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (d) when required by law; (D) has secured a written statement attesting to the recipient's understanding of, and willingness to abide by these provisions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data may be stored in file folders, on magnetic tapes or discs, bound note books, and/or photographs.

RETRIEVABILITY:

Information is retrieved by a combination of a coded name and patient identification number.

SAFEGUARDS:

1. *Authorized users:* Employees who maintain records in the system are instructed to grant access to principal investigators and other treating physicians, clinic coordinators, and NEI employees whose duties require the use of such information. Measures to prevent unauthorized disclosures are implemented as appropriate for each location and for each record maintained in each project.

2. *Physical safeguards:* Clinics are located in University Hospitals and the Clinical Center, NIH. These clinics are locked and records are kept in locked files with access by keys issued to principal investigators, appropriate physicians and coordinators. There is a security force at each center to avoid unauthorized entries. The computer records are accessed by passwords available only to principal investigators and authorized operators. Data is protected by enforcement of State laws applicable to fire and safety at each facility, as well as ADP Security and the Privacy Act regulations for each state.

3. *Procedural safeguards:* Routine visits are scheduled by the clinic coordinator who is authorized to access records. New records are generated each time a patient is seen by the physician and a copy of the form which is applicable to that visit is added to the patient's medical folder. (Documents forwarded to the data and reading centers do not bear individual identifiers) The folder is then returned to the locked file. Clinics are also locked when patients are not being seen, and medical staff is present when patients are in the clinic. If data is entered in computers as part of the hospital record, Privacy Act and hospital safeguards are enforced by access codes and passwords.

These practices are in compliance with the standards of Chapter 45-13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45-13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B-361), item 3000-G-3, which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions. (Records at contractor sites are retained by the facility consonant with its institutional records retention schedule.)

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Biometry and Epidemiology, National Eye Institute, 9000 Rockville Pike, Building 31, room 6A-52, Bethesda, Maryland 20892.

NOTIFICATION PROCEDURE:

To determine if record exists, write to: NEI Privacy Act Coordinator, 9000 Rockville Pike, Building 31, room 6A-17, Bethesda, MD 20892.

The requestors must verify his/her identity by providing: A written certification that the requestor is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the act, subject to $5,000 fine. An individual who requests notification of, or access to, a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

(1) Name, description of study
(2) Location
(3) Approximate date of participation

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requestors should also reasonably specify the record contents being sought. Individuals may also request an accounting of disclosures that have been made of their records, if any. An individual who requests notification of, or access to, a medical record shall, at the time the request is made, designate in writing a responsible representative who is willing to review the record and inform the subject individual of its contents at the representative's discretion. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURES:

Contact the Privacy Act Coordinator at the address specified under Notification Procedures above and reasonably identify the record, specify the information being contested, and state the corrective action sought and the reason(s) for requesting the correction, along with supporting justification to show how the record is inaccurate, incomplete, untimely, or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Information contained in these records is obtained by the principal investigator, treating physician, or clinic coordinator, directly from individual study participants, by interview to record certain pertinent historical facts, and by physical examination and photographs to record medical data.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE PRIVACY ACT:

None.

09-25-0156

SYSTEM NAME:

Records of Participants in Programs and Respondents in Surveys Used to Evaluate Programs of the Public Health Service, HHS/PHS/NIH/OD.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

This system of records is an umbrella system comprising separate sets of records located either in the organizations responsible for conducting evaluations or at the sites of programs or activities under evaluation. Locations include Public Health (PHS) facilities, or facilities of contractors of the PHS. Write to the appropriate System Manager below for a list of current locations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals covered by this system are those who provide information or opinions that are useful in evaluating programs or activities of the PHS, other persons who have participated in or benefitted from PHS programs or activities; or other persons included in evaluation studies for purposes of comparison. Such individuals may include (1) participants in research studies; (2) applicants for and recipients of grants, fellowships, traineeships or other awards; (3) employees, experts and consultants; (4) members of

VOL 58 ISS 248 DEC 29 1993 UMI

advisory committees; (5) other researchers, health care professionals, or individuals who have or are at risk of developing diseases or conditions studied by PHS; (6) persons who provide feedback about the value or usefulness of information they receive about PHS programs, activities or research results; (7) persons who have received Doctorate level degrees from U.S. institutions; (8) persons who have worked or studied at U.S. institutions that receive(d) institutional support from PHS.

CATEGORIES OF RECORDS IN THE SYSTEM:

This umbrella system of records covers a varying number of separate sets of records used in different evaluation studies. The categories of records in each set depend on the type of program being evaluated and the specific purpose of the evaluation. In general, the records contain two types of information: (1) Information identifying subject individuals, and (2) information which enables PHS to evaluate its programs and services.

(1) Identifying information usually consists of a name and address, but it might also include a patient identification number, grant number, Social Security Number, or other identifying number as appropriate to the particular group included in an evaluation study.

(2) Information used for evaluation varies according to the program evaluated. Categories of evaluative information include personal data and medical data on participants in clinical and research programs; personal data, publications, professional achievements and career history of researchers; and opinions and other information received directly from individuals in evaluation surveys and studies of PHS programs.

The system does not include any master list, index or other central means of identifying all individuals whose records are included in the various sets of records covered by the system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Authority for this system comes from the authorities regarding the establishment of the National Institutes of Health, its general authority to conduct and fund research and to provide training assistance, and its general authority to maintain records in connection with these and its other functions (42 U.S.C. 203, 241, 289l–1 and 44 U.S.C. 3101), and Section 301 and 493 of the Public Health Service Act.

PURPOSE(S):

This system supports evaluation of the policies, programs, organization, methods, materials, activities or services used by PHS in fulfilling its legislated mandate for (1) conduct and support of biomedical research into the causes, prevention and cure of diseases; (2) support for training of research investigators; (3) communication of biomedical information.

This system is not used to make any determination affecting the rights, benefits or privileges of any individual.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to HHS contractors and collaborating researchers, organizations, and State and local officials for the purpose of conducting evaluation studies or collecting, aggregating, processing or analyzing records used in evaluation studies. The recipients are required to protect the confidentiality of such records.

2. Disclosure may be made to organizations deemed qualified by the Secretary to carry out quality assessments, medical audits or utilization review.

3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. The Department may disclose information from this system of records to the Department of Justice, to court or other tribunal, or to another party before such tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the tribunal, or the other party is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however, that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data may be stored in file folders, bound notebooks, or computer-accessible media (e.g., magnetic tapes or discs).

RETRIEVABILITY:

Information is retrieved by name and/or participant identification number within each evaluation study. There is no central collection of records in this system, and no central means of identifying individuals whose records are included in the separate sets of records that are maintained for particular evaluation studies.

SAFEGUARDS:

A variety of safeguards are implemented for the various sets of records in this system according to the sensitivity of the data each set contains. Information already in the public domain, such as titles and dates of publications, is not restricted. However, sensitive information, such as personal or medical history or individually identified opinions, is protected according to its level of sensitivity. Records derived from other systems of records will be safeguarded at a level at least as stringent as that required in the original systems. Minimal safeguards for the protection of information which is not available to the general public include the following:

1. *Authorized users:* Regular access to information in a given set of records is limited to PHS or to contractor employees who are conducting, reviewing or contributing to a specific evaluation study. Other access is granted only on a case-by-case basis, consistent with the restrictions required by the Privacy Act (e.g., when disclosure is required by the Freedom of Information Act), as authorized by the system manager or designated responsible official.

2. *Physical safeguards:* Records are stored in closed or locked containers, in areas which are not accessible to unauthorized users, and in facilities which are locked when not in use. Records collected in each evaluation project are maintained separately from those of other projects. Sensitive records are not left exposed to unauthorized persons at any time. Sensitive data in machine-readable form may be encrypted.

3. *Procedural safeguards:* Access to records is controlled by responsible employees and is granted only to authorized individuals whose identities are properly verified. Data stored in mainframe computers is accessed only through the use of keywords known only to authorized personnel. When personal computers are used, magnetic media (e.g. diskettes) are protected as under Physical Safeguards. When data is stored within a personal computer (i.e., on a "hard disk"), the machine itself is treated as though it were a record, or records, under Physical Safeguards. Contracts for operation of this system of records require protection of the records in accordance with these safeguards; PHS project and contracting officers monitor contractor compliance.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 1100–C–2. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

See Appendix 1.

Policy coordination for this system is provided by: Director, Division of Planning and Evaluation, Office of Science Policy and Legislation, National Institutes of Health, Building 31, room 4B25, 9000 Rockville Pike, Bethesda, MD 20892.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the official of the organization responsible for the evaluation, as listed in Appendix 2. If you are not certain which component of PHS was responsible for the evaluation study, or if you believe there are records about you in several components of PHS, write to: NIH Privacy Act Coordinator, Building 31, room 3B07, 9000 Rockville Pike, Bethesda, MD 20892.

Requesters must provide the following information:

1. Full name, and name(s) used while studying or employed;

2. Name and location of the evaluation study or other PHS program in which the requester participated or the institution at which the requester was a student or employee, if applicable;

3. Approximate dates of participation, matriculation or employment, if applicable.

The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

An individual who requests notification of or access to a medical record shall, at the time the request is made, designate in writing, a responsible representative, who may be a physician, other health professional, or other responsible individual, who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, a child's or incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURES:

Write to the official specified under notification procedures above, and reasonably identify the record and specify the information being contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Information contained in these records is obtained directly from individual participants; from systems of records 09–25–0036, "Grants: IMPAC (Grants/Contract Information), HHS/NIH/DRG;" 09–25–0112, "Grants: Research, Research Training, Fellowship and Construction Applications and Awards, HHS/NIH/OD"; NSF–6, "Doctorate Record File", NSF–43", "Doctorate Work History File" (previously entitled "NSF–43, "Roster and Survey of Doctorate Holders in The United States" and other records maintained by the operating programs of NIH; the National Academy of Sciences, professional associations such as the AAMC and ADA, and other contractors; grantees or collaborating researchers; or publicly available sources such as bibliographies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Appendix 1: System Managers

National Institutes of Health, Office of the Director, Director, Division of Planning and Evaluation, Office of Science Policy and Legislation, Building 31, room 4B25, 9000 Rockville Pike, Bethesda, MD 20892.

National Institutes of Health, Office of the Director, Director, Division of Personnel Management, Building 1, room B1–60, 9000 Rockville Pike, Bethesda, MD 20892.

National Heart, Lung, and Blood Institute (NHLBI), NHLBI Minority Coordinator, Building 31, room 5A07, Bethesda, MD 20892.

National Library of Medicine (NLM), Assistant Director for Planning and Evaluation, Building 38, room 2S18, Bethesda, MD 20894.

National Eye Institute (NEI), Associate Director for Science Policy and Legislation, Building 31, room 6A25, Bethesda, MD 20892.

National Cancer Institute (NCI), Public Health Educator, OCC, NCI, National Institutes of Health Building 31, room 4B43, Bethesda, MD 20892.

National Institute on Aging (NIA), Chief, Office of Planning, Analysis, Technical Information and Evaluation, Federal Building, room 6A09, 7550 Wisconsin Avenue, Bethesda, MD 20892.

National Institute of Allergy and Infectious Diseases (NIAID), Chief, Evaluation and Reporting Section, Policy Analysis and Legislation Branch, Office of Administration Management, Building 31, room 7A–16, Bethesda, MD 20892.

National Institute of Child Health and Human Development (NICHD), Chief, Office of Science Policy and Analysis, Building 31, room 2A10, Bethesda, MD 20892.

National Institute on Deafness and Other Communication Disorders, Chief, Program Planning and Health Reports Branch, Building 31, room 3C35, 9000 Rockville Pike, Bethesda, MD 20892.

National Institute of Dental Research (NIDR), Chief, Office of Planning Evaluation, and Communications, Building 31, room 2C36, Bethesda, MD 20892.

National Institute of Environmental Health Sciences (NIEHS) Program, Analyst, Office of Program Planning and Evaluation, P.O. Box 12233, Research Triangle Park, NC 27709.

National Institute of General Medical Sciences (NIGMS), Chief, Office of Program Analysis, Westwood Building, room 934, 5333 Westbard Avenue, Bethesda, MD 20892.

Fogarty International Center (FIC), National Institutes of Health, Assistant Director for Planning, Evaluation and Public Affairs, Building 31, room B2C32, Bethesda, MD 20892.

Division of Research Grants (DRG), Assistant Director for Special Projects, Westwood Building, room 457, 5333 Westbard Avenue, Bethesda, MD 20892.

National Center for Research Resources (NCRR), Evaluation Officer, Office of Science Policy, Westwood Building, room 8A03, Bethesda, MD 20892.

National Institute of Nursing Research (NINR), Chief, Office of Planning, Analysis and Evaluation, Building 31, room 5B09, Bethesda, MD 20892.

Office of Research Integrity, Policy Analyst, Division of Policy and Education, U.S. Public Health Service, 5515 Security Lane, suite 700, Rockwall-II Building, Rockville, MD 20852.

National Center for Research Resources (NCRR), Evaluation Officer, Office of Science Policy, NIH, Westwood Building, room 8A03, Bethesda, MD 20892.

National Cancer Institute, Privacy Act Coordinator, National Institutes of Health, Building 31, room 10A30, Bethesda, MD 20892.

09–25–0158

SYSTEM NAME:

Administration: Records of Applicants and Awardees of the NIH Intramural Research Training Awards Program, HHS/NIH/OD.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

This system is located in each of the intramural offices and laboratories where the Intramural Research Training Awards (IRTA) Fellow is located and assigned, including the respective Scientific Director's office, the administrative and personnel offices, and in Division of Personnel Management branches responsible for administering the IRTA Program, and Office of Education, Building 10, room 1C125, 9000 Rockville Pike, Bethesda, MD 20892.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for IRTA Fellowships, current IRTA Fellows, and former IRTA Fellows.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to education and training, employment history, scientific publications; research goals; letters of reference; and personal information such as name, date of birth, Social Security number, home address and citizenship; and information related to fellowship awards such as stipend levels, training assignments, training expenses and travel allowances.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 284(b)(1)(C), 286b-3, and 287c-1 authorizes PHS to make awards for biomedical research and research training.

PURPOSE(S):

Records in this system are used to determine individuals' eligibility and evaluate their qualifications for IRTA Fellowships; to document the basis for management actions relating to Fellowships that are awarded; and to provide data for program evaluation.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USE:

1. Disclosure may be made to the Office of Personnel Management for evaluation of NIH Personnel programs.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the written request of that individual.

3. Disclosure may be made to the Department of Justice or to a court or other tribunal from this system of records, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however, that in each case HHS determines that such disclosure is compatible with the purpose for which the records were collected.

4. Disclosure may be made to a Federal, State or local agency maintaining civil, criminal or other pertinent records, such as current licenses, if necessary to obtain a record relevant to an agency decision concerning the selection or retention of a fellow.

5. Disclosure may be made to a Federal agency, in response to its request, in connection with hiring or retention of an employee, the issuance of a security clearance, an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the record is relevant and necessary to the requesting agency's decision on the matter.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders, and on magnetic tapes and disks.

RETRIEVABILITY:

Records are retrieved by name, Social Security number, or institute list number.

SAFEGUARDS:

1. *Authorized Users:* Access is granted only to NIH scientists, administrative office staff, personnel staff and financial management staff directly involved in the administration of the IRTA Program.

2. *Physical Safeguards:* File folders are kept in locked drawers or locked rooms when system personnel are not present.

3. *Procedural safeguards:* Access to file folders is controlled by system personnel. Records may be removed from the files only with the approval of the system manager or other authorized employees. Data stored in the automated system is accessed through the use of keywords known only to authorized personnel.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology

Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 4000–E–3. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Personnel/Administrative Officers of the National Institutes of Health Institutes/Centers/Divisions. Contact the individual listed under Notification Procedure for the name and address of the appropriate System Manager.

NOTIFICATION PROCEDURE:

To determine if a record exists and where it is located, contact: Chief, Staffing Management Branch, Division of Personnel Management, NIH, Building 31, Room 1C31, 9000 Rockville Pike, Bethesda, MD 20892. The requestor must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine.

RECORDS ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Write to the official specified under the notification procedures above, and reasonably identify the record and specify the information being contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is untimely, incomplete, irrelevant or inaccurate. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Applicants, persons and institutions supplying references.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0161

SYSTEM NAME:

Administration: NIH Consultant File, HHS/NIH/DRG.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

This system of records is an umbrella system comprising separate sets of records located in each of the NIH organizational components or facilities of contractors of the NIH.

Division of Computer Research and Technology, Data Management Branch, Building 12A, room 4041B, National Institutes of Health, Bethesda, Maryland 20892.

Write to the appropriate system manager listed in Appendix I for a list of current locations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Consultants who provide the evaluation of extramural grants and cooperative agreement applications and research contract proposals, including the NIH Reviewers' Reserve and/or advise on policy. Consultants who participate in NIH conferences, workshops, evaluation projects and/or provide technical assistance at site locations arranged by contractors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names, addresses, Social Security numbers, resumes, curriculum vitae (C.V.s), areas of expertise, gender, minority status, business status, AREA-eligible status, publications, travel records, and payment records for consultants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 301 of the Public Health Service Act, describing the general powers and duties of the Public Health Service relating to research and investigation, and section 402 of the Public Health Service Act, describing the appointment and authority of the Director of the National Institutes of Health, (42 U.S.C. 241, 282 and 290aa).

PURPOSE(S):

This umbrella system comprises separate sets of records located in each of the NIH organizational components or facilities of contractors of the NIH. These records are used: (1) To identify and select experts and consultants for program reviews and evaluations; (2) To identify and select experts and consultants for the review of special grant and cooperative agreement applications and research contract proposals and (3) To obtain and pay consultants who participate in NIH conferences, workshops, evaluation projects and/or provide technical assistance at site locations arranged by contractors, and (4) To provide necessary reports related to payment to the Internal Revenue Service.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. Disclosure may be made to the Department of Justice or to a court or other tribunal from this system of records, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however, that in each case HHS determines that such disclosure is compatible with the purpose for which the records were collected.

3. Disclosure may be made to contractors to process or refine the records. Contracted services may include transcription, collation, computer input, and other records processing.

4. Information in this system of records is used routinely to prepare W–2 and 1099 Forms to submit to the Internal Revenue Service and applicable State and local governments those items to be included as income to an individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ASSESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records may be stored in file folders, computer tapes and disks, microfiche, and microfilm.

RETRIEVABILITY:

Records are retrieved by name, expertise, gender, minority status, business status, AREA-eligible status and experimental system used.

SAFEGUARDS:

1. *Authorized users:* Data on computer files is accessed by keyword known

only to authorized users who are PHS or contractor employees involved in managing a review or program advisory committee, conducting a review of extramural grant applications, cooperative agreement applications, or research contract proposals, performing an evaluation study or managing the consultant file. Access to information is thus limited to those with a need to know.

2. *Physical safeguards:* Rooms where records are stored are locked when not in use. During regular business hours rooms are unlocked but are controlled by on-site personnel.

3. *Procedural safeguards:* Names and other identifying particulars are deleted when data from original records are encoded for analysis. Data stored in computers is accessed through the use of keywords known only to authorized users. Contractors who maintain records in this system are instructed to make no further disclosure of the records except as authorized by the system manager and permitted by the Privacy Act.

This system of records will be protected according to the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and Part 6, "ADP Systems Security," of the HHS Information Resources Management Manual and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 1100–G. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

The policy coordinator for this system is also the system manager listed for the Division of Research Grants.

Chief, Biological Sciences Review Section, Referral and Review Branch, Division of Research Grants, Westwood Building, room 417, 5333 Westbard Avenue, Bethesda, Maryland 20892, and See Appendix I

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the appropriate system manager as listed in Appendix I.

The requestor must also verify his or her identity by providing either a notarization of the request or a written certification that the requestor is whom he or she claims to be. The request should include: (a) Full name, and (b) appropriate dates of participation.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requestors should also reasonably specify the record contents being sought. Individuals may also request listings of accountable disclosures that have been made of their records, if any.

CONTESTING RECORD PROCEDURE:

Contact the official under notification procedures above, reasonably identify the record, specify the information to be contested, and state the corrective action sought with supporting information. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Subject individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Appendix I: System Managers

Office of the Director (OD), Extramural Programs Management Officer, Building 1, room 328, Bethesda, MD 20892.

National Center for Research Resources (NCRR), Director, Office of Review, Westwood Building, room 8A16, Bethesda, MD 20892.

National Cancer Institute (NCI), Chief, Review Logistics Branch, Executive Plaza North, room 636, Bethesda, MD 20892.

National Eye Institute (NEI), Review and Special Projects Officer, Executive Plaza South, room 350, Bethesda, MD 20892.

National Heart, Lung, and Blood Institute (NHLBI), Associate Director for Review, Westwood Building, room 557A, Bethesda, MD 20892.

National Institute on Aging (NIA), Chief, Scientific Review Office, Gateway Building, Suite 2C212, 7201 Wisconsin Avenue, Bethesda, MD 20892.

National Institute of Allergy and Infectious Diseases (NIAID), Director, Scientific Review Program, Division of Extramural Activities, Solar Bldg., room 3C–16, 6003 Executive Blvd., Bethesda, MD 20892.

National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS), Chief, Grants Review Branch, Westwood Building, room 406, Bethesda, MD 20892.

National Institute of Child Health and Human Development (NICHD), Director, Division of Scientific Review, 6100 Executive Boulevard, room 5E03H, Bethesda, MD 20892.

National Institute on Deafness and Other Communication Disorders (NIDCD), Chief, Scientific Review Branch, Executive Plaza South, room 400B, 620 Executive Boulevard, Rockville, MD 20852.

National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), Chief, Review Branch, Westwood Building, room 603, Bethesda, MD 20892.

National Institute of Dental Research (NIDR), Chief, Scientific Review Section, POB, Westwood Building, room 519, Bethesda, MD 20892.

National Institute of Environmental Health Sciences (NIEHS), Deputy Director, Division of Extramural Research and Training, P.O. Box 12233, Research Triangle Park, NC 27709.

National Institute of General Medical Sciences (NIGMS), Chief, Office of Review Activities, Westwood Building, room 9A18, Bethesda, MD 20892.

National Institute of Neurological Disorders and Stroke (NINDS), Chief, Scientific Review Branch, Federal Building, room 9C10A, Bethesda, MD 20892.

National Institute of Nursing Research (NINR), Chief, Office of Review, Westwood Building, room 740, Bethesda, MD 20892.

National Library of Medicine (NLM), Chief, Biomedical Information Support Branch, Building 38A, room 5S522, Bethesda, MD 20894.

National Center for Human Genome Research (NCHGR), Chief, Office of Scientific Review, Building 38A, room 606, Bethesda, MD 20892.

National Institute of Mental Health, Contract Officer, Contracts Management Branch, ORM, Parklawn Building, room 7C18, 5600 Fishers Lane, Rockville, MD 20857.

National Institute on Alcohol Abuse and Alcoholism, Contract Officer, Contracts Management Branch, OPRM, Parklawn Building, room 14C06, 5600 Fishers Lane, Rockville, MD 20857.

09–25–0165

SYSTEM NAME:

National Institutes of Health Acquired Immunodeficiency Syndrome (AIDS) Research Loan Repayment Program, HHS/NIH/OD.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Office of AIDS Research (OAR), National Institutes of Health, Federal Building, room 102, 7550 Wisconsin Avenue, Bethesda, Maryland 20892 and

Division of Computer Research and Technology (DCRT), National Institutes of Health, Building 12A, room 4037, 9000 Rockville Pike, Bethesda, Maryland 20892 and

Operations Accounting Branch, Division of Financial Management (DFM), National Institutes of Health, Building 31, room B1B55, 9000 Rockville Pike, Bethesda, Maryland 20892.

See Appendix I for a listing of other NIH offices responsible for administration of the AIDS Research Loan Repayment Program. Write to the System Manager at the address below for the address of any Federal Records Center where records from this system may be stored.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have applied for, who have been approved to receive, who are receiving, and who have received funds under the NIH AIDS Research LRP; and individuals who are interested in participation in the NIH AIDS Research LRP.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, Social Security number; service pay-back obligations, standard school budgets, educational loan data including deferment and repayment/delinquent/default status information; employment data; professional and credentialing history of licensed health professionals including schools of attendance; personal, professional, and demographic background information; employment status verification (which includes certifications and verifications of continuing participation in AIDS research); Federal, State and local tax information, including copies of tax returns.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 487A (42 U.S.C. 288–1) of the PHS Act, as amended, directing the NIH to establish and implement a program of educational loan repayment for qualified health professionals who agree to conduct, as employees of NIH, AIDS research. The provisions of section 338B of the PHS Act (42 U.S.C. 2541–1), as amended, governing the NHSC loan repayment program, are incorporated except as inconsistent. The Internal Revenue Code at 26 U.S.C. 6109 requires the provision of the SSN for the receipt of loan repayment funds under the NIH AIDS Research LRP.

PURPOSE(S):

(1) To identify and select applicants for the NIH AIDS Research LRP; (2) To monitor loan repayment activities, such as payment tracking, deferment of service obligation, and default; and (3) To assist NIH officials in the collection of overdue debts owed under the NIH AIDS Research LRP. Records may be transferred to system No. 09–15–0045, "Health Resources and Services Administration Loan Repayment/Debt Management Records System, HHS/HRSA/OA," for debt collection purposes when NIH officials are unable to collect overdue debts owed under the NIH AIDS Research LRP.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USE:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. Disclosure may be made to the Department of Justice or to a court or other tribunal from this system of records, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States of any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided, however, that in each case HHS determines that such disclosure is compatible with the purpose for which the records were collected.

3. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred to the appropriate agency, whether Federal, State, or local, charged with enforcing or implementing the statute or rule, regulation or order issued pursuant thereto.

4. NIH may disclose records to Department contractors and subcontractors for the purpose of collecting, compiling, aggregating, analyzing, or refining records in the system. Contractors maintain, and are also required to ensure that subcontractors maintain, Privacy Act safeguards with respect to such records.

5. NIH may disclose information from this system of records to private parties such as present and former employers, references listed on applications and associated forms, other references and educational institutions. The purpose of such disclosures is to evaluate an individual's professional accomplishments, performance, and educational background, and to determine if an applicant is suitable for participation in the NIH AIDS Research LRP.

6. NIH may disclose information from this system of records to a consumer reporting agency (credit bureau) to obtain a commercial credit report to assess and verify the ability of an individual to repay debts owed to the Federal Government. Disclosures are limited to the individual's name, address, Social Security number and other information necessary to identify him/her; the funding being sought or amount and status of the debt; and the program under which the applicant or claim is being processed.

7. NIH may disclose from this system of records a delinquent debtor's or a defaulting participant's name, address, Social Security number, and other information necessary to identify him/her; the amount, status, and history of the claim, and the agency or program under which the claim arose, as follows:

a. To another Federal agency so that agency can effect a salary offset for debts owed by Federal employees; if the claim arose under the Social Security Act, the employee must have agreed in writing to the salary offset.

b. To another Federal agency so that agency can effect an unauthorized administrative offset; i.e., withhold money, other than federal salaries, payable to or held on behalf of the individual.

c. To the Treasury Department, Internal Revenue Service (IRS), to request an individual's current mailing address to locate him/her for purposes of either collecting or compromising a debt, or to have a commercial credit report prepared.

8. NIH may disclose information from this system of records to another agency that has asked the Department to effect a salary or administrative offset to help collect a debt owed to the United States. Disclosure is limited to the individual's name, address, Social Security number, and other information necessary to identify the individual to information about the money payable to or held for the individual, and other information concerning the offset.

9. NIH may disclose to the Treasury Department, Internal Revenue Service (IRS), information about an individual applying for loan repayment under any loan repayment program authorized by the Public Health Service Act to find out whether the applicant has a delinquent tax account. This disclosure is for the sole purpose of determining the applicant's creditworthiness and is limited to the individual's name, address, Social Security number, other information necessary to identify him/

her, and the program for which the information is being obtained.

10. NIH may report to the Treasury Department, Internal Revenue Service (IRS), as taxable income, the written-off amount of a debt owed by an individual to the Federal Government when a debt becomes partly or wholly uncollectible, either because the time period for collection under the statute of limitations has expired, or because the Government agrees with the individual to forgive or compromise the debt.

11. NIH may disclose to debt collection agents, other Federal agencies, and other third parties who are authorized to collect a Federal debt, information necessary to identify a delinquent debtor or a defaulting participant. Disclosure will be limited to the individual's name, address, Social Security number, and other information necessary to identify him/her; the amount, status, and history of the claim, and the agency or program under which the claim arose.

12. NIH may disclose information from this system of records to any third party that may have information about a delinquent debtor's or a defaulting participant's current address, such as a U.S. post office, a State motor vehicle administration, a professional organization, an alumni association, etc., for the purpose of obtaining the individual's current address. This disclosure will be strictly limited to information necessary to identify the individual, without any reference to the reason for the agency's need for obtaining the current address.

13. NIH may disclose information from this system of records to other Federal agencies that also provide loan repayment at the request of these Federal agencies in conjunction with a matching program conducted by these Federal agencies to detect or curtail fraud and abuse in Federal loan repayment programs, and to collect delinquent loans or benefit payments owed to the Federal Government.

14. NIH may disclose from this system of records to the Department of Treasury, Internal Revenue Service (IRS): (1) A delinquent debtor's or a defaulting participant's name, address, Social Security number, and other information necessary to identify the individual; (2) the amount of the debt; and (3) the program under which the debt arose, so that IRS can offset against the debt any income tax refunds which may be due to the individual.

15. NIH may disclose information provided by a lender to other Federal agencies, debt collection agents, and other third parties who are authorized to collect a Federal debt. The purpose of this disclosure is to identify an individual who is delinquent in loan or benefit payments owed to the Federal Government.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12): Disclosures may be made from this system to "consumer reporting agencies" as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)). The purposes of these disclosures are: (1) To provide an incentive for debtors to repay delinquent Federal Government debts by making these debts part of their credit records, and (2) to enable NIH to improve the quality of loan repayment decisions by taking into account the financial reliability of applicants, including obtaining a commercial credit report to assess and verify the ability of an individual to repay debts owed to the Federal Government. Disclosure of records will be limited to the individual's name, Social Security number, and other information necessary to establish the identity of the individual, the amount, status, and history of the claim, and the agency or program under which the claim arose.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE: Records are maintained in file folders, computer tape, discs, and file cards.

RETRIEVABILITY: Records are retrieved by name, Social Security number, or other identifying numbers.

SAFEGUARDS:

1. *Authorized users:* Data on computer files is accessed by keyword known only to authorized users who are NIH employees responsible for implementing the NIH AIDS Research LRP. Access to information is thus limited to those with a need to know.

2. *Physical safeguards:* Rooms where records are stored are locked when not in use. During regular business hours rooms are unlocked but are controlled by on-site personnel. Security guards perform random checks on the physical security of the data.

3. *Procedural and technical safeguards:* A password is required to access the terminal and a data set name controls the release of data to only authorized users. All users of personal information in connection with the performance of their jobs (see Authorized Users, above) protect information from public view and from unauthorized personnel entering an unsupervised office.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, the Department's Automated Information System Security Handbook and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 2300–537–1. Participant case files are transferred to a Federal Records Center one year after closeout and destroyed five years later. Closeout is the process by which it is determined that all applicable administrative actions and loan repayments have been completed by the LRP and service obligations have been completed by the participant. Applicant case files are destroyed three years after disapproval or withdrawal of their application. Official appeal and litigation case files are destroyed six years after the calendar year in which the case is closed. Other copies of these files are destroyed two years after the calendar year in which the case is closed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, NIH AIDS Research Loan Repayment Program, Office of AIDS Research, National Institutes of Health, Federal Building, room 102, 7550 Wisconsin Avenue, Bethesda, Maryland 20892.

NOTIFICATION PROCEDURES:

To determine if a record exists, write to the System Manager listed above. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be. The request should include: (a) Full name, and (b) appropriate dates of participation. The requester must also understand that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine. Requesters appearing in person must provide a valid driver's license or passport, including photo, and at least one other form of identification.

RECORD ACCESS PROCEDURES:

Write to the System Manager specified above to attain access to records and provide the same information as is required under the Notification Procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request an accounting of disclosure of their records, if any.

CONTESTING RECORD PROCEDURES:

Contact the System Manager specified above and reasonably identify the record, specify the information to be contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Subject individual; participating lending institutions; educational institutions attended; other Federal agencies; consumer reporting agencies/credit bureaus; and third parties that provide references concerning the subject individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0170

SYSTEM NAME:

Diabetes Clinical Data System, HHS/NIH/NIDDK.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Diabetes Clinical Trials Program Office, Division of Diabetes, Endocrinology and Metabolic Diseases, National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, Westwood Building, room 628, Bethesda, Maryland 20892.

DCCT Data Coordinating Center (Contractor), Biostatistics Center, George Washington University, 6110 Executive Boulevard, suite 750, Rockville, MD 20852.

DCCT Central Biochemistry Laboratory (Subcontractor), University of Minnesota Hospital and Clinic, Box 198, Harvard Street at East River Road, Minneapolis, Minnesota 55455–0980.

A list of all contractor/subcontractor locations is available upon request from the System Manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who participated in the Diabetes Control and Complications Trial (DCCT) and are continuing in follow-up studies and family members of these participants.

CATEGORIES OF RECORDS IN THE SYSTEM:

Participant names, addresses, phone numbers; Social Security numbers (voluntary), phone numbers, driver's license numbers, employer information spouse names, study identification numbers, names of medical provider, medical record identification numbers, health and medical record data collected during the DCCT and follow-up studies; the names, addresses and phone numbers of acquaintances and relatives to assist in follow-up; and information pertaining to DCCT stored biologic specimens (including blood, urine and genetic materials).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 301(a) of the Public Health Service (PHS) Act (42 U.S.C. 241(a)), describing the general powers and duties of the Public Health Service relating to research and investigation, and section 426 of the PHS Act (42 U.S.C. 285c) describing the purpose of the National Institute of Diabetes and Digestive and Kidney Diseases to conduct research with respect to, among other areas, diabetes mellitus.

PURPOSE(S):

These records are used to: (1) Conduct follow-up studies (projected follow-up of 7–10 years) on the morbidity and mortality experiences of DCCT participants; and (2) provide relevant demographic, health and medical record data on DCCT participants to biomedical researchers authorized to use DCCT information and stored biologic materials.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USE:

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

2. In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to affect directly the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Department of Justice has agreed to represent such employee, for example, in defending a claim against the Public Health Service, based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

3. NIH may disclose records to Department contractors and subcontractors for the purpose of collecting, compiling, aggregating, analyzing, or refining records in the system. Contractors maintain, and are also required to ensure that subcontractors maintain, Privacy Act safeguards with respect to such records.

4. A record may be disclosed for a research purpose, when the Department: (A) has determined that the use or disclosure does not violate legal or policy limitstions under which the record was provided, collected, or obtained; (B) has determined that the research purpose (1) cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring; (C) has required the recipient to (1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except (a) in emergency circumstances affecting the health or safety of any individual, (b) for use in another research project, under these same conditions, and with written authorization of the Department, (c) for disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (d) when required by law; (D) has secured a written statement attesting to the recipient's understanding of, and willingness to abide by these provisions.

5. Information from this system may be disclosed to Federal agencies, State agencies (including the Motor Vehicle Administration and State vital statistics offices, private agencies, and other third parties (such as current or prior employers, acquaintances, relatives), in order to obtain information on morbidity and mortality experiences and to locate individuals for the follow-up studies. Social Security numbers may be disclosed: (1) To the National Center for Health Statistics to ascertain vital status through the National Death Index; (2) to the Health Care Financing Agency to ascertain morbidities; and (3) to the Social Security Administration to ascertain disabilities and/or location of participants. Social Security numbers may also be given to other Federal agencies, and State and local agencies for purposes of locating individuals for participation in follow-up studies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records may be stored in file folders and computer tapes and diskettes, microfiche, and file cards.

RETRIEVABILITY:

Records are retrieved by name, Social Security number, or other identifying numbers, keywords, and parameters of individual patient health or medical record data.

SAFEGUARDS:

1. *Authorized users:* Data on computer files is accessed by keyword known only to authorized users who are NIH or contractor employees who have a need for the data in performance of their duties as determined by the system manager. Researchers authorized to conduct research on biologic specimens will have access to the system through the use of encrypted identifiers sufficient to link individuals with records in such a manner that does not compromise confidentiality of the individual. Access to information is thus limited to those with a need to know.

2. *Physical safeguards:* Records and data tapes are stored in locked files in secured areas with restricted access. During regular business hours rooms are unlocked but are controlled by on-site personnel. Terminal access is controlled by user ID and keywords; off-site data backup is maintained in a separate building; fire protection is maintained by an on-site fire extinguisher system and fire alarm system present in the computer room.

3. *Procedural and technical safeguards:* Names and other identifying particulars are deleted when data from original records are encoded for analysis. Data stored in computers is accessed through the use of keywords known only to authorized users. A password is required to access the terminal and a data set name controls the release of data to only authorized users. All users of personal information in connection with the performance of their jobs (see Authorized Users, above) protect information from public view and from unauthorized personnel entering an unsupervised office. Contractors and subcontractors who maintain records in this system are instructed to make no further disclosure of the records except as authorized by the System Manager and permitted by the Privacy Act. Privacy Act requirements are specifically included in contracts and in agreements with grantees or collaborators participating in research activities supported by this system. HHS project directors, contract officers, and project officers oversee compliance with these requirements.

These practices are in compliance with the standards of Chapter 45–13 of the HHS General Administration Manual, "Safeguarding Records Contained in Systems of Records," supplementary Chapter PHS hf: 45–13, and the Department's Automated Information System Security Program Handbook, and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

RETENTION AND DISPOSAL:

Records are retained and disposed of under the authority of the NIH Records Control Schedule contained in NIH Manual Chapter 1743, Appendix 1—"Keeping and Destroying Records" (HHS Records Management Manual, Appendix B–361), item 3000–G–3(b), which allows records to be kept as long as they are useful in scientific research. Refer to the NIH Manual Chapter for specific disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Diabetes Clinical Trials Program, DPB, Division of Diabetes, Endocrinology and Metabolic Diseases, NIDDK, National Institutes of Health, Westwood Building, Room 628, 5333 Westbard Avenue, Bethesda, Maryland 20892.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the System Manager listed above. The requester must also verify his or her identity by providing either a notarization of the request or a written certification that the requester is who he or she claims to be and understands that the knowing and willful request for acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Act, subject to a five thousand dollar fine. The request should include: (a) Full name, and (b) appropriate dates of participation.

Individuals who request notification of or access to a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, a child's/incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify their relationship to the child/incompetent person as well as his/her own identity.

RECORD ACCESS PROCEDURE:

Write to the System Manager specified above to attain access to records and provide the same information as is required under the Notification Procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request an accounting of disclosure of their records, if any.

CONTESTING RECORD PROCEDURES:

Contact the System Manager specified above and reasonably identify the record, specify the information to be contested, the corrective action sought, and your reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely or irrelevant. The right to contest records is limited to information which is incomplete, irrelevant, incorrect, or untimely (obsolete).

RECORD SOURCE CATEGORIES:

Subject individual; patient health and medical record data; data generated from the DCCT; Federal, State and local agencies (including the Social Security Administration), and if the person is deceased, from the National Death Index, and/or family members and other knowledgeable third persons.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0205

SYSTEM NAME:

Alcohol, Drug Abuse, and Mental Health Epidemiologic and Biometric Research Data, HHS/NIH/NIAAA, HHS/NIH/NIDA and HHS/NIH/NIMH.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Records are located at the research facilities which collect or provide research data for this system under contract to the agency. Contractors may include, but are not limited to, research centers, clinics, hospitals, universities, research foundations, national associations, and coordinating centers. Records may also be located at the research facilities of the National Institute on Alcohol Abuse and Alcoholism (NIAAA), the National Institute on Drug Abuse (NIDA); and the National Institute of Mental Health (NIMH). A current list of sites is available by writing to the appropriate System Manager at the address below.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who are the subjects of research in epidemiologic, clinical, methodologic, and longitudinal research studies and surveys of mental health and alcohol and drug use/abuse and mental, alcohol, and/or drug abuse disorders. These individuals are selected as representative of the general adult and/or child population or of special groups. Special groups include, but are not limited to, normal individuals serving as controls; clients referred for or receiving medical, mental health, and alcohol and/or drug abuse related treatment and prevention services; providers of services; demographic sub-groups as applicable, such as age, sex, ethnicity, race, occupation, geographic location; and groups exposed to hypothesized risks, such as relatives of individuals who have experienced mental health and/or alcohol, and/or drug abuse disorders, life stresses, or have previous history of mental, alcohol, and/or drug abuse related illness.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains data about the individual as relevant to a particular research study. Examples include, but are not limited to, items about the health/mental health and/or alcohol or drug consumption patterns of the individual; demographic data; social security numbers (voluntary); past and present life experiences; personality characteristics; social functioning; utilization of health/mental health, alcohol, and/or drug abuse services; family history; physiological measures; and characteristics and activities of health/mental health; alcohol abuse, and/or drug abuse care providers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Health Service Act, sections 301 and 405 (42 U.S.C. 241, and 284, General Research and Investigation Authorities); Public Health Service Act, sections 301, 302, 303 and title V, parts A and B (42 U.S.C. 241, 242, 242(a).

PURPOSE(S):

The purpose of the system of records is to collect and maintain databases for research activities. Analyses of these data involve groups of individuals with given characteristics and do not refer to special individuals. The generation of information and statistical analyses will ultimately lead to a better description and understanding of mental, alcohol, and/or drug abuse disorders, their diagnosis, treatment and prevention, and the promotion of good physical and mental health.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. A record may be disclosed for a research purpose, when the Department: (a) As determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected, or obtained; e.g., disclosure of alcohol or drug abuse patient records will be made only in accordance with the restrictions of confidentiality statutes and regulations 42 U.S.C. 290 (dd-3), 42 U.S.C. 241 and 405, 42 CFR part 2, and where applicable, no disclosures will be made inconsistent with an authorization of confidentiality under 42 U.S.C. 242a and 42 CFR part 2a; (b) as determined that the research purpose (1) cannot be reasonably accomplished unless the

record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring; (c) has required the recipient to—(1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, and (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except—(A) in emergency circumstances affecting the health or safety of any individual, (B) for use in another research project, under these same conditions, and with written authorization of the Department, (C) for disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (D) when required by law; and (d) has secured a written statement attesting to the recipient's understanding of, and willingness to abide by, these provisions.

2. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from a congressional office made at the written request of that individual.

3. In the event of litigation, where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee; the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected (e.g., disclosure may be made to the Department of Justice or other appropriate Federal agencies in defending claims against the United States when the claim is based upon an individual's mental or physical condition and is alleged to have arisen because of the individual's participation in activities of a Federal Government supported research project).

4. The Department contemplates that it will contract with a private firm for the purpose of collecting, analyzing, aggregating, or otherwise refining records in this system. Relevant records will be disclosed to such contractor. The contractor shall be required to maintain Privacy Act safeguards with respect to such records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records may be stored on index cards, file folders, computer tapes and disks, microfiche, microfilm, and audio and video tapes. Normally, the factual data, with study code numbers, are stored on computer tape or disk, while the key to personal identifiers is stored separately, without factual data, in paper files.

RETRIEVABILITY:

During data collection stages and followup, if any, retrieval by personal identifier (e.g., name, social security number) (in some studies), or medical record number), is necessary. During the data analysis stage, data are normally retrieved by the variables of interest (e.g., diagnosis, age, occupation).

SAFEGUARDS:

1. *Authorized users:* Access to identifiers and to link files is strictly limited to the authorized personnel whose duties require such access. Procedures for determining authorized access to identified data are established as appropriate for each location. Personnel, including contractor personnel, who may be so authorized include those directly involved in data collection and in the design of research studies, e.g., interviewers and interviewer supervisors; project managers; statisticians involved in designing sampling plans.

2. *Physical safeguards:* Records are stored in locked rooms, locked file cabinets, and/or secured computer facilities. Personal identifiers and link files are separated as much as possible and stored in locked files. Computer data access is limited through the use of key words known only to authorized personnel.

3. *Procedural safeguards:* Collection and maintenance of data is consistent with legislation and regulations in the protection of human subjects, informed consent, confidentiality, and confidentiality specific to drug and alcohol abuse patients where these apply. When an Institute Division or a contractor provides anonymous data to research scientists for analysis, study numbers which can be matched to personal identifiers will be eliminated, scrambled, or replaced by the agency or contractor with random numbers which cannot be matched. Contractors who maintain records in this system are instructed to make no further disclosure of the records. Privacy Act requirements are specifically included in contracts for survey and research activities related to this system. The HHS project directors, contract officers, and project officers oversee compliance with these requirements.

4. *Implementation guidelines:* DHHS Chapter 45- and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual and Part 6, "ADP System Security" of the HHS ADP Systems Security Manual.

RETENTION AND DISPOSAL:

Personal identifiers are retained only as long as they are needed for the purposes of the current research project, and for followup studies generated by the present study. Removal or disposal of identifiers is done according to the storage medium (e.g., erase computer tape, shred or burn index cards, etc.). A staff person designated by the System Manager will oversee and will describe and confirm the disposal in writing.

SYSTEM MANAGER(S) AND ADDRESS:

Privacy Act Coordinator, National Institute of Mental Health, Room 15–81, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

Deputy Director, Division of Biometry and Epidemiology, National Institute on Alcohol Abuse and Alcoholism, Room 14C–26, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

Deputy Director, Division of Clinical and Prevention Research, National Institute on Alcohol Abuse and Alcoholism, Room 14C–10, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

Privacy Act Coordinator, National Institute on Drug Abuse, Room 10A–42, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the appropriate System Manager at the address above. Provide individual's name; current address; date of birth; date, place and nature of participation in specific research study; name of individual or organization administering the research study (if known); name or description of the research study (if known); address at the time of participation; and a notarized statement by two witnesses attesting to the individual's identity.

RECORD ACCESS PROCEDURE:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. An individual may also request an accounting of disclosures of his/her record, if any.

An individual who requests notification of, or access to, a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or guardian who requests notification of, or access to, a child's or incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The parent or guardian must verify relationship to the child or incompetent person as well as his or her own identity.

CONTESTING RECORD PROCEDURE:

Contact the appropriate official at the address specified under System Manager(s) above and reasonably identify the record, specify the information being contested, and state corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

The system contains information obtained directly from the subject individual by interview (face-to-face or telephone), by written questionnaire, or by other tests, recording devices or observations, consistent with legislation and regulation regarding informed consent and protection of human subjects. Information is also obtained from other sources, such as health, mental health, alcohol, and/or drug abuse care providers; relatives; guardians; and clinical medical research records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0307

SYSTEM NAME:

Subject-Participants in Pharmacokinetic Studies on Drugs of Abuse, HHS/NIH/NIDA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

University of California, San Francisco, Langley Porter Psychiatric Institute, San Francisco, California 94143.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Normal, healthy adults who voluntarily participate in studies on the pharmacokinetics of psychoactive drugs at Langley Porter Psychiatric Institute, during the period September 1987 through September 1993.

CATEGORIES OF RECORDS IN THE SYSTEM:

Research records on each subject-participant contain the following information: Name; clinician's records including medical history, laboratory test results, physical examinations, psychological profile, and drug use profile; drug study data including records of drugs administered, exposures to radioactivity, and drug reactions; and date of study in which the subject participated.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Health Service Act, sections 301(a), 503 and 405 (42 U.S.C. 241 and 284).

PURPOSE(S):

The primary purpose of this system is to support research on the pharmacokinetics of drugs of abuse. The term "pharmacokinetics" refers to the manner in which the human body processes a drug.

The clinical investigator used data of a medical nature that is contained in the system to make determinations regarding drug dosages and/or radiochemical exposures appropriate to the individual human subject-participants, in order to preserve and protect the health of each. The system also provides baseline data for studying the drug effects. The Food and Drug Administration (FDA) also may use the records in routine inspections FDA conducts in accordance with its responsibilities to develop standards on the composition, quality, safety, and efficacy of drugs administered to humans, and to monitor experimental usage of drugs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. We may disclose to a congressional office the record of an individual in response to a verified inquiry from the congressional office made at the written request of the individual.

2. NIH contractors, use the records in this system to accomplish the research purpose for which the records are collected. The contractors are required to maintain Privacy Act safeguards with respect to such records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The contractor maintains the records on paper in file folders.

RETRIEVABILITY:

The contractor indexes and retrieves the records by the subject-participant's name.

SAFEGUARDS:

1. *Authorized users:* Only the contract Project Director and his/her research team and the Federal Project Officer and his/her support staff have access to these records.

2. *Physical safeguards:* The contractor keeps all records in a locked metal file cabinet in premises with limited accessibility. Only the clinical investigator (Project Director) has the key to the locked files.

3. *Procedural safeguards:* Only the contract staff have access to the files. Persons other than subject participants who request individually identifiable data from a record, must provide written consent from the subject participant permitting the requested disclosure. The only exception would be for disclosure to persons or organizations permitted by the Privacy Act, section 3(B) to obtain personally identifiable data.

4. *Implementation guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual. In addition, the contract staff complies with contractor's (School of Medicine of the University of North Carolina) standard procedures for safeguarding data.

RETENTION AND DISPOSAL:

The records will be kept no later than September 1998 (5 years after the anticipated completion of the studies). At that time, the NIDA project officer will authorize in writing the clinical investigators to destroy the records by shredding or burning.

SYSTEM MANAGER(S) AND ADDRESS:

Project Officer, Pharmacokinetic Studies on Drugs of Abuse, Medications Development Division, National Institute on Drug Abuse, National Institutes of Health, Room 11A55, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the system manager listed above. Provide the following information:

Subject-participant's full name and a letter of request (or permission, if the requester is not the subject-participant) with notarized signature of the individual who is the subject of the record, approximate date(s) of experiment(s) in which the individual participated, and drug name (if known). In addition, an individual who requests notification of, or access to, a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its content at the representative's discretion.

RECORD ACCESS PROCEDURES:

Same as Notification Procedures. Requesters should also reasonably specify the record contents being sought. An individual may also request an accounting of disclosures of his/her record, if any.

CONTESTING RECORD PROCEDURES:

Contact the System Manager at the address above and reasonably identify the record, specify the information to be contested, the corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

The subject-participants and the contractor personnel conducting the research studies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0208

SYSTEM NAME:

Drug Abuse Treatment Outcome Study (DATOS), HHS/NIH/NIDA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Research Triangle Institute, Center for Social Research and Policy Analysis, Research Triangle Park, North Carolina 27709.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Voluntary adult clients of federally funded treatment programs, including Treatment Alternative Street Crime (TASC) Programs of the Department of Justice, who requested to be included in TOPS from 1979 through 1986. New data collected from voluntary adults/adolescent clients of public and private funded-treatment programs beginning in 1991 and will continue through 1995.

CATEGORIES OF RECORDS IN THE SYSTEM:

The categories are: Demographic data, treatment outcome data, treatment process data, client locator information, and personal identifiers (name and assigned numerical identifier).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Health Service Act, sections 301 and 405 (42 U.S.C. 241 and 284).

PURPOSE(S):

The purpose of the system is to compile information on drug abusers in drug abuse treatment programs in order to derive information on the treatment environments and abusers' behaviors and characteristics subsequent to treatment. Researchers and drug abuse service providers may use the aggregate data to address issues and generate hypotheses to understand better the interactions among the client and community.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Within the restrictions set forth in HHS regulations concerning the confidentiality of drug abuse patient records (42 CFR 2.56), we may disclose a record for a research purpose, when the Department: (a) Has determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected, or obtained; (b) has determined that the research purpose (1) cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring; (c) has required the recipient to (1) establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except: (A) In emergency circumstances affecting the health or safety of any individual, (B) for use in another research project, under these same conditions, and with written authorization of the Department, (C) for disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (D) when required by law; (d) has secured a written statement attesting to the recipient's understanding of, and willingness to, abide by these provisions.

2. The Research Triangle Institute, an NIH contractor, uses the records in this system to accomplish the research purpose for which the records are collected. In the event of followup studies or continuation studies because the contract has been terminated for convenience by the Government, we may disclose records in this system to a subsequent NIH contractor. We would require the new contractor to maintain Privacy Act safeguards with respect to such records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Interview forms, magnetic tapes, and disks.

RETRIEVABILITY:

Records are indexed and retrieved by unique alpha numerical identifier. In order to relate the data collected to specific individuals, one must use the link file discussed under Safeguards.

SAFEGUARDS:

1. *Authorized users:* Contractor personnel, the agency project officer, and agency employees whose duties require the use of the information in the system.

2. *Physical safeguards:* The data management task leader, the project leader, or the project director provide technical supervision of all data collection and processing activities. Individually identified forms are stored in a secure, vault-like room provided for this purpose. Authorized personnel have access to the room by one locked door with controlled entry, i.e., only on the written authority of the professional staff member in charge. Computerized records are kept in a vault area with limited accession.

3. *Procedural safeguards:* Because some of the data collected in this study, such as data on drug use, are sensitive and confidential, special safeguards have been established. A Certificate of Confidentiality has been issued under 42 CFR part 2a. This authorization enables persons engaged in research on mental health, including research on the use and effect of psychoactive drugs, to protect the privacy of research subjects by withholding the names or other identifying characteristics from all persons not connected with the conduct

of the research. Persons so authorized may not be compelled in any Federal, State, or local civil, criminal, administrative, legislative, or other proceedings to identify such individuals. In addition, these records are subject to 42 CFR part 2, the Confidentiality of Alcohol and Drug Abuse Patient Records Regulations (42 CFR 2.56), which state: "Where the content of patient records has been disclosed pursuant to (these regulations) for the purpose of conducting scientific research * * * information contained therein which would directly or indirectly identify any patient may not be disclosed by the recipient thereof either voluntarily or in response to any legal process whether Federal or State."

Another safeguard is that the forms containing subject identification information for client followup and data matching purposes do not include any reference to the purpose of the study. Identification and location information is kept separate from any information that would suggest that the respondent has been in a drug treatment program.

Information on completed forms is entered immediately on the computer. Completed forms and computerized data are released only to authorized persons. Only aggregate data are provided and used in the preparation of necessary and appropriate reports.

A link file system is used. This system has three components: (1) Personal information, (2) data base information, and (3) the link file, which contains identifying number pairs which can be used to match data with individuals. The advantage of this system is that the data base can be used directly for report generation, etc., without the use of decrypting subroutines or access to the personal information or matching link files.

In addition, the computer center being utilized has developed an extensive security system to protect computer account codes and data. This system is described in a publication that is available from the System Manager upon request.

We do not anticipate any disclosure of individually identifiable information to other persons or organizations within the Department of Health and Human Services. Nor does the contractor provide individually identification information to the Department of Justice, with which NIDA has a cooperative agreement for this study.

4. *Implementation Guidelines:* We used the National Bureau of Standards guidelines and Part 6, HHS ADP Systems Security Manual, "ADP System Security" in developing the computer safeguard procedures. Safeguards for nonautomated records are in accordance with DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual. In addition, project staff complies with the contractor's (Research Triangle Institute) standard procedures for safeguarding data.

The contractor provides only aggregate information to NIDA.

RETENTION AND DISPOSAL:

The contractor destroys interview forms by shredding or burning immediately after contractor staff have completed and verified direct entry on magnetic tape or disk storage. The contractor will destroy individual identification and location data by shredding or burning, under the explicit written authorization of the System Manager, which is anticipated to be no longer than 5 years after the termination of the study unless the information is needed for research purposes. We will retain aggregate data tapes for research purposes. These tapes will not have any individually identifiable information. In accordance with the NIH Records Control Schedule, these tapes will be retained for 5 years after completion of the project (approximately 2000). At that time, the tapes will be retired to the Federal Records Center and destroyed when they are 10 years old or when they are no longer needed for research purposes.

SYSTEM MANAGERS AND ADDRESS:

Drug Abuse Treatment Outcome Study (DATOS), Project Officer, Treatment Services Research Branch, Division of Clinical Research, National Institute on Drug Abuse, National Institutes of Health, Room 10A–30, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the System Manager at the address above. An individual may learn if a record exists about himself/herself upon written request, with notarized signature. The request should include, if known, name of the researcher, location of the research site, approximate date of data collection, any alias used, and subject identification number.

An individual who requests notification of a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion.

A parent or legal guardian who requests notification of an adolescent's record shall designate a family physician or other health professional (other than a family member) of the Division of Clinical Research staff to whom the record, if any, will be sent. The parent or legal guardian must verify in writing the relationship to the adolescent as well as his/her own identity.

RECORD ACCESS PROCEDURES:

Same as Notification Procedures. Requesters should also reasonably specify the record contents being sought. An individual may also request an accounting of disclosures of his/her record, if any.

Persons other than subject individuals, who request individually identifiable data from a record must provide written consent from the subject individual permitting the requested disclosure. The only exception (if not in conflict with confidentiality regulations) would be for disclosure to persons or organizations permitted by the Privacy Act, section 3(b), to obtain personally identifiable data.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under Notification Procedures above and reasonably identify the record, specify the information being contested, the corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Research subjects, and staff in participating drug abuse treatment programs, written clinical evaluations, counselors, psychiatrists, psychotherapists, family members, research assistants, hospitals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09-25-0210

SYSTEM NAME:

Shipment Records of Drugs of Abuse to Authorized Researchers, HHS/NIH/NIDA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Research Technology Branch, Division of Basic Research, National Institute on Drug Abuse, Room 10A–19, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

Research Triangle Institute, Research Triangle Park, North Carolina 27709.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individual researchers and organizations who are registered with the Drug Enforcement Administration (DEA), Department of Justice (DOJ), some since 1966, and who have voluntarily submitted documentation to the National Institute on Drug Abuse (NIDA) in order to obtain, through the NIDA Drug Supply Program (DSP), drugs of abuse for use in a research project.

CATEGORIES OF RECORDS IN THE SYSTEM:

While the records in this system are research project-related, they support the eligibility of individual researchers to receive drugs of abuse. Types of information contained in the records are: researcher's name, curriculum vitae, research protocol, DEA and (if applicable) Nuclear Regulatory Commission registration numbers (when a radiolabeled compound is requested and shipped), business address (location of research project) and telephone number, summary of research project(s), requests for substance(s), name and amount of each compound requested and shipped, dates material is shipped and received, shipment numbers, and order form numbers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Health Service Act, sections 301, and 405 (42 U.S.C. 241 and 284); Controlled Substances Act of 1970 (21 U.S.C. 801 et seq.); Atomic Energy Act of 1954, as amended, section 81 (42 U.S.C 2111); and Energy Reorganization Act of 1974, section 201 (42 U.S.C. 5841). Energy Reorganization Act of 1974, section 201 (42 U.S.C. 5841).

PURPOSE(S):

To facilitate operation of DSP which is a centralized research support service through which the United States Government supplies to the national and international scientific community for research purposes, most Schedule I and many Schedule II–V controlled and noncontrolled substances as specified in the Controlled Substances Act (CSA) of 1970 (21 U.S.C. 801 et seq.). Controlled substances are chemicals and other substances, and their immediate precursors, that the Attorney General has determined to have such potential for abuse as to warrant regulation under the CSA. Some of these substances are radiolabeled materials. Radiolabeled materials are substances to which a small amount of radioactivity is added for use in various studies, such as drug metabolism and mechanisms of drug actions.

This system of records was established to facilitate DSP by enabling NIDA:

1. To verify that requests for drugs of abuse, some of which are radiolabeled, are from authorized individuals/organizations for use in a research project;
2. To verify that the amounts of the materials requested by researchers for animal, in vivo, and in vitro research are justified and available;
3. To supply controlled substances in amounts approved by the Food and Drug Administration (FDA) to researchers conducting research with human subjects;
4. To ship these materials securely in accordance with CSA and the Atomic Energy Act; and
5. To maintain records of these transactions.

FDA also may use the records in routine inspections in accordance with FDA's responsibilities to develop standards on the composition, safety, and efficacy of drugs administered to humans, and to monitor experimental usage of drugs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. We may disclose the record of an individual to a congressional office in response to a verified inquiry from the congressional office made at the written request of the individual.
2. We may disclose information to DEA, DOJ, to enable DEA to carry out its responsibilities as described in the Controlled Substances Act of 1970.
3. An NIH contractor routinely uses the records in this system to ship controlled substances to authorized recipients. Such contractor is required to maintain Privacy Act safeguards with respect to these records.
4. An NIH contractor may have access to the records in this system in the performance of its software modification/correction tasks specified in its contract. Such contractor is required to maintain Privacy Act safeguards with respect to these records.
5. The Department of Health and Human Services (HHS) may disclose information from this system of records to the Department of Justice, or to a court or other tribunal, when (a) HHS, or any component thereof; or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the Department of Justice (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the Department of Justice, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental party, provided however, that in each case, HHS determines that such disclosure is compatible with the purpose for which the records were collected.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

NIDA maintains "hard copy" records in file folders and automated records on computer disk.

RETRIEVABILITY:

Authorized NIDA and contractor personnel index and retrieve the computerized records by a researcher code number assigned by a computer program at the time a new record is established. Authorized NIDA personnel index and retrieve "hard copy" records by researcher's name. NIDA maintains a computerized, alphabetical cross-reference list that matches names and numbers.

SAFEGUARDS:

1. *Authorized users:* The Chief, Research Technology Branch and his or her support staff, program assistant and clerk-typist, and the contracts' project directors and their support staffs have access to the records.

2. *Physical safeguards:* The "hard copy" records and main computer are physically located at the Parklawn Building, Rockville, Maryland. The computerized records are kept in a room with limited admittance. The room is locked after working hours. The "hard copy" records are stored in locked file cabinets in a room with very limited admittance. This room is also locked after working hours. The Parklawn Building has a 24-hour guard patrol service.

3. *Procedural safeguards:* The terminals are housed in a secured work area with limited admittance. Contract personnel use a password identification system to obtain access; NIDA changes the passwords periodically.

4. *Implementation guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual, and Part 6, "ADP System Security," in the HHS ADP Systems Security Manual.

RETENTION AND DISPOSAL:

NIDA maintains an individual's record for 5 years after the researcher's last request for, or shipment of, a drug of abuse. We consider the record inactive after that, and erase it from the computer disk by a delete routine. The delete routine automatically deletes the computerized cross-reference as well. We destroy the "hard copy" record by shredding. The system is checked once a year for inactive records.

SYSTEM MANAGER(S) AND ADDRESS:

Project Director, Drug Supply Program, Research Technology Branch, Division of Basic Research, Room 10A–19, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the System Manager at the address above. An individual may learn if a record exists about himself or herself upon written request. The request should include the researcher's name and business address at the time of last shipment. The request must be signed in ink by the individual researcher. Verifiable proof of identity is required.

RECORD ACCESS PROCEDURES:

Same as Notification Procedures. Requesters should also reasonably specify the record contents being sought. An individual may also request an accounting of disclosures of his/her record, if any.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under Notification Procedures above and reasonably identify the record, specify the information being contested, the corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Initial source is the individual researcher. Some of the DEA registration information provided by a researcher is verified through a DEA computer check. FDA provides information concerning type and amount of controlled substance(s) to be shipped to an individual researcher for research projects involving human subjects.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

09–25–0211

SYSTEM NAME:

Intramural Research Program Records of In- and Out-Patients With Various Types of Alcohol Abuse and Dependence, Relatives of Patients With Alcoholism, and Healthy Volunteers, HHS/NIH/NIAAA.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20892.

A list of specific project sites is available from the System Manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

In- and out-patients with alcohol abuse and dependence, alcohol-induced organic brain syndromes; their relatives; and healthy volunteers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Research data of wide variety including biochemical measures, psychophysiological and psychological tests, questionnaires, clinical and behavioral observations and interviews, physical examinations, and correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Health Service Act, as amended, sections 301 (42 U.S.C. 241) and 510 (42 U.S.C. 290bb). These sections authorize the conduct of general health research and research into alcoholism and alcohol abuse.

PURPOSE(S):

These records are used for diagnosis and treatment of patients with alcohol abuse and dependence and related conditions; behavioral research relating to the causes, diagnoses, and treatment of addictions; and basic research on behavioral and biological processes.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Records in this system are covered by section 527 of the Public Health Service Act (42 U.S.C. 290ee-3) and 42 CFR, chapter I, subchapter A, part 2, on confidentiality of alcohol and drug abuse patient records. In accordance with these regulations, the records are confidential and may only be disclosed with the written consent of the patient with specific restrictions, and without the patient's consent in the following instances: (1) To medical personnel to the extent necessary to meet a bona fide emergency; (2) to qualified personnel for the purpose of conducting scientific research; or (3) if authorized by an appropriate order of a court of competent jurisdiction granted after application showing good cause therefore, after certain considerations, and with appropriate safeguards. Routine uses of information in this system are limited to the following:

1. A record may be disclosed for a research purpose, when the Department: (a) Has determined that the use or disclosure does not violate legal or policy limitations under which the record was provided, collected, or obtained; (b) has determined that the research purpose: (1) Cannot be reasonably accomplished unless the record is provided in individually identifiable form, and (2) warrants the risk to the privacy of the individual that additional exposure of the record might bring; (c) has required the recipient to—(1) Establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, and (2) remove or destroy the information that identifies the individual at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the research project, unless the recipient has presented adequate justification of a research or health nature for retaining such information, and (3) make no further use or disclosure of the record except—(A) in emergency circumstances affecting the health or safety of any individual, (B) for use in another research project, under these same conditions, and with written authorization of the Department, (C) for disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or (D) when required by law; (d) has secured a written statement attesting to the recipient's understanding of, and willingness to abide by these provisions.

2. Disclosure may be made to a congressional office from the record of an individual in response to a verified inquiry from the congressional office at the written request of that individual, in accordance with 42 CFR, chapter I, subchapter A, part 2.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records may be stored in file folders, on index cards, computer tapes and disks, microfiche, microfilm and audio and video tapes. Normally the factual data, with study code numbers, are stored on computer tape or disk, while the key to personal identifiers is stored separately, without factual data, in paper files.

RETRIEVABILITY:

During data collection stages and followup, retrieval by personal identifier (e.g., name or medical record number) is necessary. During the data analysis stage, data are normally retrieved by variables of interest, e.g., age, diagnosis, etc.

SAFEGUARDS:

Measures to prevent unauthorized disclosures are implemented as appropriate for the particular records maintained in each project. Depending on the sensitivity of the project, additional safeguards may be added.

1. *Authorized users:* Only NIAAA medical and research staff have access to these records, as authorized by the system manager.

2. *Physical safeguards:* Records are stored in locked rooms, locked file cabinets, and/or secured computer facilities. Personal identifiers and link codes are separated as much as possible and stored in locked files.

3. *Procedural safeguards:* Collection and maintenance of data are consistent with legislation and regulations for protection of human subjects, informed consent, confidentiality, and confidentiality specific to drug and alcohol abuse patients. Computer data access is limited through the use of key words, a series of account numbers, and passwords which are changed frequently and known only to authorized personnel.

4. *Implementation Guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf: 45–13 of the General Administration Manual, and Part 6, "ADP System Security" in the HHS Information Resource Management Manual.

RETENTION AND DISPOSAL:

Records are held for 5 years after completion of the project, retired to a Federal Records Center, and subsequently disposed of after 10 years.

SYSTEM MANAGER(S) AND ADDRESS:

Clinical Director, Laboratory of Clinical Studies, Division of Intramural Clinical and Biological Research, National Institutes of Health, Building 10, Room 3B–19, 9000 Rockville Pike, Bethesda, Maryland 20892.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the System Manager at the address above. Provide notarized signature as proof of identity. The request should include as much of the following information as possible: (a) Full name; (b) nature of illness (if any); (c) title of study; (d) name of researcher conducting study. An individual who requests notification of or access to a medical/dental record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. A parent or guardian who requests notification of child's/incompetent person's record shall at the time the request is made designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent. The designee will receive the record in all cases and upon review will determine whether the record should be made available to the parent or guardian.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought. Individuals may also request an accounting of disclosures of their records, if any.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under Notification Procedures above and reasonably identify the record, specify the information being contested, and state the corrective action sought, with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Information gathered from individuals under study, either patient or normal subject, contract surveys, hospital records, medical and nursing staff notes, and from Privacy Act system of records "90–25–0099, "Clinical Research: Patient Medical Records, HHS/NIH/CC."

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

[FR Doc. 93–30424 Filed 12–30–93; 8:45 am]

BILLING CODE 4101–21–P

Centers for Disease Control and Prevention

Privacy Act of 1974; Annual Publication of Systems of Records

AGENCY: Centers for Disease Control and Prevention, HHS.

ACTION: Publication of minor changes to notices of systems of records.

SUMMARY: In accordance with the Office of Management and Budget Circular No. A–130, Appendix I, "Federal Agency Responsibilities for Maintaining Records About Individuals," the Centers for Disease Control and Prevention (CDC) is publishing the table of contents and minor changes to its notices of systems of records.

SUPPLEMENTARY INFORMATION:

CDC has completed the annual review of its systems of records and is publishing below the table of contents and those minor changes which affect the public's right or need to know, such as clarification of categories of individuals covered by systems, and changes in the system location of records, or the designation and address of system managers.

1. Table of Contents

A. The following CDC active system of records was last published in the **Federal Register**, 57 FR 62812, December 31, 1992:

09–20–0136 Epidemiologic Studies and Surveillance of Disease Problems, HHS/CDC/NCID.

B. The following CDC active systems of records were last published in the **Federal Register**, 51 FR 42449, November 24, 1986:

09–20–0000 Cooperative Mycoses Study, HHS/CDC/NCID.
09–20–0001 Certifying Interpreting Physician File, HHS/CDC/NIOSH.
09–20–0055 Administrative Files for Research/Demonstration and Training Grants, and Cooperative Agreements Applications, HHS/CDC/PGO.
09–20–0059 Division of Training Mailing List, HHS/CDC/NIOSH.
09–20–0089 Studies of Treatment of Tuberculosis and Other Mycobacterioses, HHS/CDC/NCPS.
09–20–0090 Studies of Testing for Tuberculosis and Other Mycobacterioses, HHS/CDC/NCPS.
09–20–0096 Records of Tuskegee Study Health Benefit Recipients, HHS/CDC/NCPS.
09–20–0102 Alien Mental Waiver Program, HHS/CDC/NCPS.
09–20–0103 Alien Tuberculosis Follow-up Program, HHS/CDC/HCPS.
09–20–0106 Specimen Handling for Testing and Related Data, HHS/DCD/NCID.
09–20–0112 Fellowship Program and Guest Researcher Records, HHS/CDC/PMO.
09–20–0113 Epidemic Investigation Case Records, HHS/CDC/NCID.
09–20–0117 Medical and Test Record Results of Individuals Involved in NIOSH Laboratory Studies, HHS/CDC/NIOSH.
09–20–0118 Study at Work Sites Where Agents Suspected of Being Occupational Hazards Exist, HHS/CDC/NIOSH.
09–20–0137 Passport File, HHS/CDC/IHPO.
09–20–0138 Epidemic Intelligence Service Officers Files, HHS/CDC/EPO.
09–20–0147 Occupational Health Epidemiological Studies, HHS/CDC/NIOSH.
09–20–0149 Morbidity Studies in Coal Mining, Metal and Non-metal Mining and General Industry, HHS/CDC/NIOSH.
09–20–0153 Mortality Studies in Coal Mining, Metal and Non-metal Mining and General Industry, HHS/CDC/NIOSH.
09–20–0154 Medical and Laboratory Studies, HHS/CDC/NIOSH.
09–20–0157 Clinical Laboratory Personnel Proficiency Test Results (Medicare), HHS/CDC/PHPPO.
09–20–0159 Records of Subjects in Certification, Testing, Studies of Personal Protective Devices, and Accident Investigations, HHS/CDC/NIOSH.
09–20–0160 Records of Subjects in Health Promotion and Education Studies, HHS/CDC/NCCDPHP.
09–20–0161 Records of Health Professionals in Disease Prevention and Control Training Programs, HHS/CDC/NCPS.
09–20–0162 Records of Subjects in Agent Orange, Vietnam Experience, and Selected Cancers Studies, HHS/CDC/NCEH.

C. The following active CDC systems were last published in the **Federal Register**, 51 FR 42368, November 24, 1986:

09–20–0163 Applicants for National Center for Health Statistics Technical Assistance, HHS/CDC/NCHS. (Formerly numbered 09–37–0009.)
09–20–0168 Curricula Vitae of Consultants to the National Center for Health Statistics, HHS/CDC/NCHS. (Formerly numbered 09–37–0014.)
09–20–0169 Users of Health Statistics, HHS/CDC/NCHS. (Formerly numbered 09–37–0016.)

D. The following CDC active systems were last published in the **Federal Register**, 49 FR 37692, September 25, 1984:

09–20–0164 Health and Demographic Surveys Conducted in Probability Samples of the United States Population, HHS/CDC/NCHS. (Formerly numbered 09–37–0010.)
09–20–0165 Health Manpower Inventories and Surveys, HHS/CDC/NCHS. (Formerly number 09–37–0011.)
09–20–0166 Vital Statistics for Births, Deaths, Fetal Deaths, Marriages, and Divorces Occurring in the United States During Each Year, HHS/CDC/NCHS. (Formerly numbered 09–37–0012.)
09–20–0167 Health Resources Utilization Statistics, HHS/CDC/NCHS. (Formerly numbered 09–37–0013.)

2. The Preventive Health Amendments of 1992 changed the title of the Centers for Disease Control to the Centers for Disease Control and Prevention. This new organizational title represents minor changes in system location and system manager and address categories of all of CDC's systems. These system notice modifications will be shown in this document in those notices in which there are other address changes. The next comprehensive republication of notices will describe all of CDC's systems in their entirety.

In late October of 1993, the Secretary, Department of Health and Human Services, approved the establishment of the National Immunization Program. Elevating the immunization activities of CDC from a division level within the National Center for Prevention Services to a program reporting to the Director, CDC, communicates the Administration's support and commitment to improving the immunization level of children. This new organizational title represents minor changes in the system location and system manager and address categories of systems 09–20–0113 and 09–20–0136, which are shown in their proper sequence in Section 3 below.

3. The following systems are amended to reflect changes in the system location of records or the system manager and address category:

09–20–0089

SYSTEM NAME:

Studies of Treatment of Tuberculosis and Other Mycobacterioses, HHS/CDC/NCPS.

Minor alterations have been made to this system notice. The following categories are revised in their entirety:

* * * * *

SYSTEM LOCATION:

Division of Tuberculosis Elimination, National Center for Prevention Services, Corporate Square, Bldg. 10, Rm. 2208, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333 and Federal Records Center, 1557 St. Joseph Avenue, East Point, GA 30344.

A list of contractor sites where individually identified data are currently located is available upon request to the system manager.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Tuberculosis Elimination, National Center for Prevention Services, Corporate Square, Bldg. 10, Rm. 2313, MS E10, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

* * * * *

09–20–0090

SYSTEM NAME:

Studies of Testing for Tuberculosis and other Mycobacterioses, HHS/CDC/NCPS.

Minor alterations have been made to this system notice. The following categories are revised in their entirety:

* * * * *

SYSTEM LOCATION:

Division of Tuberculosis Elimination, National Center for Prevention Services, Corporate Square, Bldg. 10, Rm. 2208, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333 and Federal Records Center, 1557 St. Joseph Avenue, East Point, GA 30344.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Tuberculosis Elimination, National Center for Prevention Services, Corporate Square, Bldg. 10, Rm. 2313, MS E10, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

* * * * *

09–20–0096

SYSTEM NAME:

Records of Tuskegee Study Health Benefit Recipients, HHS/CDC/NCPS.

Minor alterations have been made to this system notice. The following categories are revised in their entirety:

* * * * *

SYSTEM LOCATION:

National Center for Prevention Services, Corporate Square, Bldg. 11, Rms. 2117, 2118, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333 and Federal Records Center, 1557 St. Joseph Avenue, East Point, GA 30344.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Director, National Center for Prevention Services, Corporate Square, Bldg. 11, Rm. 2106, MS E07, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

* * * * *

09–20–0102

SYSTEM NAME:

Alien Mental Waiver Program, HHS/CDC/NCPS.

Minor alterations have been made to this system notice. The following categories are revised in their entirety:

* * * * *

SYSTEM LOCATION:

Medical Screening Section, Division of Quarantine, National Center for Prevention Services, Corporate Square, Bldg. 10, Rm. 1105, Centers for Disease Control and Prevention, 1600 Clifton

Road, NE, Atlanta, GA 30333 and Federal Records Center, 1557 St. Joseph Avenue, East Point, GA 30344.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Quarantine, National Center for Prevention Services, Corporate Square, Bldg. 10, Rm. 1207, MS E03, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333

* * * * *

09–20–0103

SYSTEM NAME:

Alien Tuberculosis Follow-up Program, HHS/CDC/NCPS.

Minor alterations have been made to this system notice. The following categories are revised in their entirety:

* * * * *

SYSTEM LOCATION:

Office of the Director, Division of Quarantine, National Center for Prevention Services, Corporate Square, Bldg. 10, Rm. 1209, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Quarantine, National Center for Prevention Services, Corporate Square, Bldg. 10, Rm. 1207, MS E03, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

* * * * *

09–20–0106

SYSTEM NAME:

Specimen Handling for Testing and Related Data, HHS/CDC/NCID.

Minor alterations have been made to this system notice. The following categories are revised in their entirety:

* * * * *

SYSTEM LOCATION:

Material, Data and Specimen Handling Section, Scientific Resources Program, National Center for Infectious Diseases, Bldg. 4, Rm. B35, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

San Juan Laboratories, National Center for Infectious Diseases, Centers for Disease Control and Prevention, San Juan, Puerto Rico 00936.

Division of Vector-Borne Infectious Diseases, National Center for Infectious Diseases, Centers for Disease Control and Prevention, Foot Hills Campus, Fort Collins, CO 80522 and Federal Records Center, 1557 St. Joseph Avenue, East Point, GA 30344.

A list of contractor sites where individually identifiable data are currently located is available upon request to the appropriate system manager.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Director, National Center for Infectious Diseases, Bldg. 1, Rm. 6013, MS C12, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

Chief, Dengue Branch, Division of Vector-Borne Infectious Diseases, San Juan Laboratories, National Center for Infectious Diseases, Centers for Disease Control and Prevention, GPO Box 4532, San Juan, Puerto Rico 00936.

Director, Division of Vector-Borne Infectious Diseases, National Center for Infectious Diseases, Centers for Disease Control and Prevention, PO Box 2087 (Foot Hills Campus), Fort Collins, CO 80522.

Policy coordination is provided by: Associate Director for Management and Operations, Bldg. 1, Rm. 2011, MS D15, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

* * * * *

09–20–0112

SYSTEM NAME:

Fellowship Program and Guest Research Records, HHS/CDC/PMO.

Minor alterations have been made to this system notice. The following categories are revised in their entirety:

* * * * *

SYSTEM LOCATION:

Recruitment Branch, Personnel Management Office, Bldg. 1, Rm. B237, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333 and National Personnel Records Center (Civilian Personnel Records), 111 Winnebago Street, St. Louis, MO 63118.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Recruitment Branch, Personnel Management Office, Bldg. 1, Rm. 1043, MS D45, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

* * * * *

09–20–0113

SYSTEM NAME:

Epidemic Investigation Case Records, HHS/CDC/NCID.

Minor alterations have been made to this system notice. The following categories are revised in their entirety:

* * * * *

SYSTEM LOCATION:

National Center for Infectious Diseases, Bldg. 1, Rm. 6013, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

Epidemiology Program Office, Bldg. 1, Rm. 5009, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

National Center for Prevention Services, Corporate Square, Bldg. 11, Rm. 2106, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

National Center for Environmental Health, Chamblee Bldg. 101, Rm. 3116, Centers for Disease Control and Prevention, 4770 Buford Highway, NE, Atlanta, GA 30341–3724.

National Center for Injury Prevention and Control, Koger Davidson Bldg., Rm. 1078, Centers for Disease Control and Prevention, 4770 Buford Highway, NE, Atlanta, GA 30341–3724.

National Immunization Program, Corporate Square, Bldg. 12, Rm. 5113, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333 and Federal Records Center, 1557 St. Joseph Avenue, East Point, GA 30344.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Director, National Center for Infectious Diseases, Bldg. 1, Rm. 6013, MS C12, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

Director, Epidemiology Program Office, Bldg. 1, Rm. 5009, MS C08, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

Director, National Center for Prevention Services, Corporate Square, Bldg. 11, Rm. 2106, MS E07, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, Atlanta, GA 30333.

Director, National Center for Environmental Health, Chamblee Bldg. 101, Rm. 3116, MS F29, Centers for Disease Control and Prevention, 4770 Buford Highway, NE, Atlanta, GA 30341–3724.

4. The Department of Energy (DOE) effected a Memorandum of Understanding with the Department of Health and Human Services (HHS) to transfer its analytic epidemiology research program to HHS. The National Institute for Occupational Safety and Health and the National Center for Environmental Health within the Centers for Disease Control and Prevention have responsibility for epidemiologic studies, including laboratory analysis, of workers exposed to radiation and other physical and chemical hazards at DOE facilities. These are workers who have been employed by DOE and its predecessor agencies and their contractors at 111 sites in over 30 states since the early 1940's. Accordingly, the following system notices have been updated to clarify and more accurately describe the categories of individuals section within the affected systems:

09-20-0136

SYSTEM NAME:

Epidemiologic Studies and Surveillance of Disease Problems, HHS/CDC/NCID.

Minor alterations have been made to this system notice. The following category is revised in its entirety:

* * * * *

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Adults and children with diseases and other preventable conditions of public health significance; also included are control group participants. Workers employed by the Department of Energy and its predecessor agencies and their contractors are also included.

* * * * *

09-20-0147

SYSTEM NAME:

Occupational Health Epidemiological Studies, HHS/CDC/NIOSH.

Minor alterations have been made to this system notice. The following category is revised in its entirety:

* * * * *

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Working populations exposed to physical and/or chemical agents that may damage the human body in any way. Some examples are: (1) Organic carcinogens, (2) inorganic carcinogens, (3) mucosal or dermal irritants, (4) fibrogenic materials, (5) acute toxic agents including sensitizing agents, (6) neurotoxic agents, (7) mutagenic (male and female) and teratogenic agents, (8) bio-accumulating non-carcinogen agents, and (9) chronic vascular disease-causing agents. Also included are those individuals in the general population who have been selected as control groups. Workers employed by the Department of Energy and its predecessor agencies and their contractors are also included.

* * * * *

Dated: November 1, 1993.

Robert L. Foster,

Acting Associate Director for Management and Operations, Centers for Disease Control and Prevention (CDC).

[FR Doc. 93-27226 Filed 12-28-93; 8:45 am]

BILLING CODE 4160-18-P

Health Resources and Services Administration

Privacy Act of 1974; Annual Publication of Systems of Records

AGENCY: Department of Health and Human Services; Public Health Service (PHS); Health Resources and Services Administration (HRSA).

ACTION: Publication of minor changes to systems of records notices.

SUMMARY: In accordance with Office of Management and Budget Circular No. A-130, Appendix I, "Federal Agency Responsibilities for Maintaining Records About Individuals," HRSA is publishing minor changes to its notices of systems of records.

SUPPLEMENTARY INFORMATION: HRSA has completed the annual review of its systems of records and is publishing below those minor changes which affect the public's right or need to know, such as system deletions, title changes, and changes in the system location of records, or the addresses of systems managers.

1. HRSA has added the following systems of records since the last annual review:

09-15-0058 Faculty Loan Repayment Program HHS/HRSA/BHPr. 57 FR 60325-60327, December 18, 1992.

09-15-0059 Health Resources and Services Administration Correspondence Control System, HHS/HRSA/OA. 58 FR 36972-36974, July 9, 1993.

2. New routine users were added to the following systems:

09-15-0044 Health Education Assistance Loan Program (HEAL) Loan Control Master File, HHS/HRSA/BHPr. 58 FR 16537, March 29, 1993.

09-15-0058 Faculty Loan Repayment Program, HHS/HRSA/BHPr. 58 FR 12589, March 5, 1993.

3. The following system of records was altered:

09-15-0037 Public Health Service (PHS) and National Health Service Corps (NHSC) Scholarship/Loan Repayment Participants Records System, HHS/HRSA/BPHC. 58 FR 12968-12973, March 8, 1993.

4. The following system of records has been deleted:

09-15-0006 Emergency Non-PHS Treatment Authorization File, HHS/HRSA/BPHC. This system has not been used since the Public Health Service hospitals and clinics were closed in 1981. Records that were in that system are now included in system of records 09-15-0029 PHS Beneficiary-Contract Medical/Health Care Records, HHS/HRSA/BPHC.

5. Other minor system-notice changes affecting individual categories are published below.

Dated: November 8, 1993.

James A. Walsh,

Associate Administrator for Operations and Management.

Table of Contents

The following table of contents lists all currently active Privacy Act systems of records maintained by the Health Resources and Services Administration:

09-15-0001 Division of Federal Occupational Health Medical and Counseling Records, HHS/HRSA/BPHC.
09-15-0002 Record of Patients' Personal Valuables and Monies, HHS/HRSA/BPHC.
09-15-0003 Contract Physicians and Consultants, HHS/HRSA/BPHC.
09-15-0004 Federal Employee Occupational Health Data System, HHS/HRSA/BPHC.
09-15-0007 Patients Medical Records System PHS Hospitals/Clinics, HHS/HRSA/BPHC.
09-15-0022 Accounts Receivable, HHS/HRSA/OA.
09-15-0026 Medical Fellowships and Educational Loans, HHS/HRSA/OA.
09-15-0028 PHS Clinical Affiliation Trainee Records, HHS/HRSA/BPHC.
09-15-0029 PHS Beneficiary-Contract Medical/Health Care Records, HHS/HRSA/BPHC.
09-15-0037 Public Health Service (PHS) and National Health Service Corps (NHSC) Scholarship/Loan Repayment Participant Records System, HHS/HRSA/BPHC.
09-15-0038 Disability Claims of the Nursing Student Loan Program, HHS/HRSA/BPHC.
09-15-0039 Disability Claims in the Health Professions Student Loan Program, HHS/HRSA/BHPr.
09-15-0040 Health Professions Student Loan Repayment Program, HHS/HRSA/BHPr.
09-15-0041 Health Professions Student Loan Cancellation, HHS/HRSA/BHPr.
09-15-0042 Physician Shortage Area Scholarship Program, HHS/HRSA/BPHC.
09-15-0043 Cuban Loan Program, HHS/HRSA/OA.
09-15-0044 Health Educational Assistance Loan Program (HEAL) Loan Control Master File, HHS/HRSA/BHPr.
09-15-0045 Health Resources and Services Administration Loan Repayment/Debt Management Records Systems, HHS/HRSA/OA.
09-15-0046 Health Professions Planning and Evaluation, HHS/HRSA/OA.
09-15-0052 Nurse Practitioner and Nurse Midwifery Traineeship Program, HHS/HRSA/BHPr.
09-15-0054 National Practitioner Data Bank for Adverse Information on Physicians and Other Health Care Practitioners, HHS/HRSA/BHPr.
09-15-0055 Organ Procurement and Transplantation Network (OPTN) Data System, HHS/HRSA/BHRD.
09-15-0056 National Vaccine Injury Compensation Program, HHS/HRSA/BHPr.
09-15-0057 Scholarships for the Undergraduate Education of Professional Nurses Grant Programs, HHS/HRSA/BHPr.
09-15-0058 Faculty Loan Repayment Program, HHS/HRSA/BHPr.
09-15-0059 Health Resources and Services Administration Correspondence Control System, HHS/HRSA/OA.

Changes

09-15-0001

SYSTEM NAME:

Division of Federal Occupational Health Medical and Counseling Records, HHS/HRSA/BPHC.

Minor changes have been made to this system. In addition to the System Name, the following categories should be revised:

* * * * *

SYSTEM LOCATION:

A current list of health and counseling unit sites is available by writing to the System Manager at the address below.

Data are occasionally located at medical laboratories, medical consultants, or computer processing firm sites. A list of sites where individually identifiable data is currently located is available upon request to the System Manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Federal employees seen in health units under agreements with the Division of Federal Occupational Health (PHS/DFOH) and individuals examined/treated/counseled by PHS/DFOH staff and health professionals under contract to PHS/DFOH.

* * * * *

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

* * * * *

2. In the event of a change in sponsorship of a PHS/DFOH health unit or in the case of a mass transfer of employees covered by a PHS/DFOH health unit to one served by a nondepartmental organization, the health records will be transferred to the custodianship of the new organization, with the approval of PHS/DFOH.

* * * * *

SAFEGUARDS:

1. *Authorized users:* DFOH Health Unit personnel, physicians, nurses, and other allied health professionals.

2. *Physical safeguards:* All users of personal information in connection with the performance of their jobs protect information from the public view and from unauthorized personnel entering an unsupervised office. Access to records is strictly limited to those staff members trained in accordance with the DFOH Manual of Operations. Patient-authorized release of records to a third party will only be accomplished when the third party has a suitable system of records, such as those meeting the requirements of 5 CFR part 293, designed to minimize unauthorized access. Contractors are required to maintain confidentiality safeguards with respect to these records. These safeguards are in accordance with DHHS Chapter 45-13 and supplementary Chapter PHS.hf: 45-13 of the General Administration Manual.

* * * * *

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Federal Occupational Health, Bureau of Primary Health Care, Health Resources and Services Administration, 3rd Floor, West Tower Building, 4530 East West Highway, Rockville, MD 20857.

Washington National Records Center, 4205 Suitland Road, Suitland, MD 20409.

PHS Health Data Center, Gillis W. Long Hansen's Disease Center, Carville, LA 70721.

Records are also located at contractor sites. A list of contractor sites where individually identifiable data are currently located is available upon request to the Policy-Coordinating Official at that individual's address shown in the "System Manager(s) and Address" section of this notice.

Partial records are also located at Department of Health and Human Services (HHS) regional offices. A list of regional offices where individually identifiable data are currently located is available upon request to the Policy-Coordinating Official.

* * * * *

RETENTION AND DISPOSAL:

Applications of individuals not selected for participation in a scholarship program are retained for six months, then destroyed by shredding. Applications, contracts, and other records of NHSC scholarship recipients are retained through the completion or other disposition of the scholarship service obligation, then sent to the Federal Records Center for an additional 15-year retention period and destroyed in accordance with Federal Records Center disposition standards. Automated historical tapes are sent to a Federal Records Center and the initial records are destroyed in accordance with the HRSA Records Control Schedule.

Agency for Toxic Substances and Disease Registry

Privacy Act of 1974; Annual Publication of Systems of Records

AGENCY: Agency for Toxic Substances and Disease Registry, HHS.

ACTION: Publication of minor change to notice of system of records.

SUMMARY: In accordance with the Office of Management and Budget Circular No. A–130, Appendix I, "Federal Agency

Responsibilities for Maintaining Records About Individuals," the Agency for Toxic Substances and Disease Registry (ATSDR) is publishing the table of contents and a minor change to its notice of system of records.

SUPPLEMENTARY INFORMATION: ATSDR has completed the annual review of its system of records and is publishing below the table of contents and the minor change which affect the public's right or need to know: the clarification of categories of individuals covered by the system.

1. Table of Contents

The following system notice currently maintained by ATSDR was published in the Federal Register, 53 FR 30720, August 15, 1988:

09-19-0001 Records of Persons Exposed or Potentially Exposed to Toxic or Hazardous Substances. HHS/ATSDR/DHS.

2. System 09-19-0001 is amended to reflect a clarification of the categories of individuals section of the system:

09-19-0001

SYSTEM NAME:

Records of Persons Exposed or Potentially Exposed to Toxic or Hazardous Substances. HHS/ATSDR/DHS.

Minor alterations have been made to this system notice. The following category is revised in its entirety:

* * * * *

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals exposed or potentially exposed to toxic or hazardous substances may include the following: (1) Selected persons living or having lived near a hazardous waste site, including facilities owned or operated by the United States; (2) Persons exposed or potentially exposed to environmental hazards resulting from ingestion of contaminated drinking water, persons exposed to contaminated soil, persons living on mining wastes, persons inhaling toxic substances (all of which may or may not be the result of contamination by a specified waste site); (3) Participants in health outcome studies (including exposure studies, symptom and disease prevalence studies, cluster investigations), and epidemiologic studies to determine the public health threat of exposure to hazardous or toxic substances; (4) Registry participants with exposures associated with specific chemicals; (5) Participants from sites of emergency activities, and other sites that are the subject of a citizen's petition; (6) Persons working or having worked in response actions at hazardous waste sites or other occupational settings where exposure to hazardous substances occurred. The first five categories of persons above may include children as well as adults.

Department of State

Office of Protocol

Gifts to Federal Employees From Foreign Government Sources in Calendar Year 1992; Notice

VOL 58 ISS 248 DE 29 1993 UMI

DEPARTMENT OF STATE

Office of Protocol

[Public Notice 1923]

Gifts to Federal Employees From Foreign Government Sources Reported to Employing Agencies in Calendar Year 1992

The Department of State submits the following comprehensive listing of the statements which, as required by law, Federal employees filed with their employing agencies during calendar year 1992 concerning gifts received from foreign government sources. The compilation includes reports of both tangible gifts and gifts of travel or travel expenses of more than minimal value, as defined by statute.

Publication of this listing in the **Federal Register** is required by section 7342(f) of title 5, United States Code, as added by section 515(a)(1) of the Foreign Relations Authorization Act, Fiscal Year 1978 (Pub. L. 95–105, August 17, 1977, 91 Stat. 865).

Dated: October 19, 1993.

Richard Moose,

Under Secretary for Management.

AGENCY: EXECUTIVE OFFICE OF THE PRESIDENT

Report of Tangible Gifts—All Gifts Received From Foreign Officials Over Minimum Dollars—Jan. 1 through Dec. 31, 1992

Job Training Partnership Act: Job Corps Program Under Title IV–B; Rule

VOL 58 ISS 248 DEC 29 1993 UMI

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Parts 626 and 638

RIN 1205–AA

Job Training Partnership Act: Job Corps Program Under Title IV–B

AGENCY: Employment and Training Administration, Labor.

ACTION: Final rule.

SUMMARY: The Office of Job Corps of the Employment and Training Administration of the Department of Labor is amending its regulations for operation of the Job Corps program under title IV–B of the Job Training Partnership Act (JTPA). These amendments are required so that the regulations will conform to the Job Training Reform Amendments of 1992 (1992 Amendments). With the amended regulations, Job Corps can implement related portions of the 1992 Amendments.

EFFECTIVE DATE: This final rule is effective on January 28, 1994. Any requirement mandated by the Job Training Reform Amendments of 1992 was implemented by the Department of Labor on July 1, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. Timothy F. Sullivan, Chief, Division of Program Planning and Development, Office of Job Corps, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., room N4510, Washington, DC 20210. Telephone: (202) 219–5556 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION:

A. Introduction

The Employment and Training Administration (ETA) of the Department of Labor (DOL) is amending its regulations for the operation of Job Corps. On June 14, 1993, DOL published in the **Federal Register** at 58 FR 33000 a proposed rule to amend the Job Corps regulations, inviting comments from interested persons through July 14, 1993. The final rule set forth below is being promulgated after full consideration of the comments received in response to that notice of proposed rulemaking. Its purpose is to implement amendments to the Job Training Partnership Act (JTPA or Act) applicable to Job Corps and contained in the Job Training Reform Amendments of 1992 (1992 Amendments), which became effective July 1, 1993. The amendments in this final rule involve: (1) A change in the language related to income eligibility, (2) changes in the definitions of "family" and "family of one," (3) a change in the language defining eligibility for Job Corps through receipt of food stamps, (4) provision for a portion of the total Job Corps enrollment to come from persons who are ages 22 through 24, (5) a change requiring the national performance measurement system to include the establishment of annual performance standards for centers and other program components, (6) provision of a management fee for all Job Corps contractors, (7) addition of language giving priority in nonresidential programs to single parents, (8) provision for concurrent or subsequent enrollment of participants in JTPA titles II and IV–B programs, (9) change in the language related to individuals with handicaps, and (10) provision for child care at centers where practicable.

B. Comments on Proposed Rule and DOL's Responses

The proposed rule to amend the Job Corps regulations was published in the **Federal Register** at 58 FR 33000 (June 14, 1993). Written comments from interested persons were invited through July 14, 1993. The comments, summarized by topic, and DOL's response to those comments, are set forth below.

Job Corps received three comments on the proposed rule. Most were directed to the amended definition of family, income eligibility through receipt of food stamps, and transfer of participants between JTPA titles II and IV–B.

The comments are responses are as follows:

1. Section 638.200 Definitions

a. "Economically Disadvantaged"

Two commentors expressed a concern about the difficulty in determining income eligibility for Job Corps of youth who receive or whose families receive food stamps, or who are eligible for food stamps within the 6-month period before application to Job Corps. The commentors believed that eligibility for food stamps within the 6-month period would be difficult to verify and document. While Job Corps appreciates the difficulty in obtaining such information, the definition is contained in the 1992 Amendments and therefore no revision to this definition is appropriate.

b. "Family"

Two commentors were concerned that the amendment definition of "family" may affect eligibility for Job Corps under the economically disadvantaged criterion. They recognize it is more narrow than the previous regulatory definition and excludes relatives other than spouse, child, parent or legal guardian, with who a youth might live, such as grandparents, aunts, uncles, siblings or cousins. The definitions of "family" is contained in the 1992 Amendments and therefore no revision to this definition is appropriate See 29 U.S.C. 1503(34) (1993 supp.)

One commentor believed that the definition implies that foster children are considered family through "decrees of court" and that this would impact how family income is calculated in determining the eligibility of the foster child. Job Corps regulations, however, state that foster children and wards of the court, on behalf of whom State or local government payments are made, are eligible for Job Corps under the economically disadvantaged criterion, so no income calculation is needed. 20 CFR 638.200, definition of "economically disadvantaged", paragraph (4); see also 29 U.S.C. 1503(8)(E) (1993 supp.).

c. "Income"

One commentor questioned how family members are counted and how income is computed for those who live in the household for only a portion of the 6 months prior to application. The regulations state that income of a family member is counted for only that portion of the period when the person is actually a member of the family. No change will be made in the definition.

With respect to the same definition, one commentor expressed confusion in the use of "individual" and "individual with disabilities." While Job Corps will continue to define a youth who falls within one definition of "family" for income purposes as an "individual," the term "person with disabilities" or other similar nomenclature can easily be substituted for "individual with disabilities" when discussing youth in the context of income eligibility for Job Corps.

d. Section 638.541 Job Corps Training Opportunities

Two commentors indicated that the use of the term "transfer" to apply to the amended language which allows for concurrent or subsequent participation in both title II and title IV–B programs, did not describe the relationship accurately. Job Corps agrees and has revised the language of the regulation to describe the relationship.

One commentor recommended that Job Corps link with state Job Opportunities and Basic Skills (JOBS) programs. See 42 U.S.C. 681 *et seq.*; and 45 CFR part 251. Job Corps regulations already specify development of linkages with "services supporting participants in the Job Opportunities and Basic Skills Training Program [JOBS]." See 20 CFR 638.541 (1993).

One commentor proposed reducing the age of enrollees to 14 for parenting teens. The purpose of Job Corps is to train young adults for placement in jobs. Since the legal age for employment is 16, youth under 16 could not be placed. In addition, Job Corps believes the variation in age and maturity between 14-year-olds and 24-year-olds is too great to mix them in a residential program.

e. Section 638.542 Child Care Services

A comment was received recommending that Job Corps provide day care at all centers. The current policy of Job Corps is to utilize local day care when available. Funding has not been provided for Job Corps to operate day care programs at all centers and the Department has determined that it is not practicable. 29 U.S.C. 1698(e) (1993 supp.). Accordingly, the language contained in the regulation has not been amended.

Regulatory Impact

This final rule applies only to changes in Job Corps regulations required by enactment of the Job Training Reform Amendments of 1992. It does not constitute "a significant regulatory action" within the meaning of Executive Order 12866 of September 30, 1993 (58 FR 51735). For the same reasons, as required by the Regulatory Flexibility Act, the Department of Labor, at the time the proposed rule was published, notified the Chief Counsel for Advocacy, Small Business Administration, and made the certification pursuant to 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction

The final rule contains no new collection of information requirements.

List of Subjects

20 CFR Part 626

Grant programs, Labor, Manpower training programs.

20 CFR Part 638

Contract programs, Labor, Training and employment programs.

Final Rule

Accordingly, 20 CFR chapter V is amended as follows:

PART 626—INTRODUCTION TO THE REGULATIONS UNDER THE JOB TRAINING PARTNERSHIP ACT

1. The authority citation to 20 CFR part 626 continues to read:

Authority: 29 U.S.C. 1579(a); section 6305(f), Pub. L. 100–418, 102 Stat. 1107; 29 U.S.C. 1791i(e).

§ 626.4 [Amended]

2. The consolidated table of contents in § 626.4 is amended by revising the heading for § 638.302 to read as follows:

§ 626.4 Table of contents for the regulations under the Job Training Partnership Act.

* * * * *

638.302 Performance measurement

* * * * *

PART 638—JOB CORPS PROGRAM UNDER TITLE IV–B OF THE JOB TRAINING PARTNERSHIP ACT

3. The authority for part 638 continues to read as follows:

Authority 29 U.S.C. 1579(a).

4. Section 638.200 is amended as follows:

a. In the definition of *"Economically disadvantaged"*, the introductory language in paragraph (2) is revised and paragraph (3) is revised;

b. The definition of *"Family"* is revised;

C. The definition of *"Family income"* is removed and the definition of *"Income"* is added;

d. The definition of *"Individual with handicaps"* is removed and the definition of *"Individual with disabilities"* is added;

e. The definition of *"Family of one"* is removed and the definition of "Individual" is added; to read as follows:

§ 638.200 Definitions.

* * * * *

Economically disadvantaged means an individual who:

* * * * *

(2) Has, or is a member of a family which has received a total income for the 6-month (annualized) period prior to application to the program which, in relation to family size or for an individual, was not in excess of the higher of:

* * * * *

(3) Is receiving (or has been determined within the 6-month period prior to the application for the program involved to be eligible to receive) food stamps pursuant to the Food Stamp Act of 1977, as administered by the U.S. Department of Agriculture;

* * * * *

Family means persons living in a single residence who are related by blood, marriage, or decrees of court and are included in one or more the following categories:

(1) A husband, wife and dependent children,

(2) A parent or guardian and dependent children, and

(3) A husband and wife. A step-child or step-parent is considered to be related by marriage.

* * * * *

Income means all income actually received from all sources by an individual or, in the case of a family, by all members of the family for the 6-month (annualized) period prior to application. Family size is the maximum number of family members during the 6-month period prior to application. When computing family income, income of a spouse and other family members is counted for the portion of the 6-month (annualized) period prior to application that the person was actually a member of the family.

(1) For the purpose of determining an individual's eligibility for participation in the Job Corps program, family income includes:

(i) Gross wages, including wages from community service employment (CSE), work experience, and on-the-job training (OJT) paid from Job Training Partnership Act funds, and salaries (before deductions);

(ii) Net self-employment income (gross receipts minus operating expenses); and

(iii) Other money income received from sources such as interest, net rents, OASI (Old Age and Survivors Insurance) social security benefits, pensions, alimony, and periodic income from insurance policy annuities, and other sources of income.

(2) Family income does not include:

(i) Non-cash income such as food stamps or compensation received in the form of food or housing;

(ii) Imputed value of owner-occupied property, *i.e.*, rental value;

(iii) Public assistance payments;

(iv) Cash payments received pursuant to a State plan approved under title I, IV, X, or XVI of the Social Security Act, or disability insurance payments received under title II of the Social Security Act;

(v) Federal, State, or local unemployment benefits;

(vi) Capital gains and losses;
(vii) One-time unearned income, such as, but not limited to:
(A) Payments received for a limited fixed term under income maintenance programs and supplemental (private) unemployment benefits plans;
(B) One-time or fixed-term scholarship or fellowship grants;
(C) Accident, health, and casualty insurance proceeds;
(D) Disability and death payments including fixed-term (but not lifetime) life insurance annuities and death benefits;
(E) One-time award and gifts;
(F) Inheritance, including fixed-term annuities;
(G) Fixed-term workers compensation awards;
(H) Soil bank payments; and
(I) Agricultural crop stabilization payments;
(viii) Pay or allowance which were previously received by any veteran while serving on active duty in the Armed Forces;
(ix) Educational assistance and compensation payments to veterans and other eligible persons under chapters 11, 13, 31, 34, 35, and 36, of title 38, U.S. Code;
(x) Payments made under the Trade Act of 1974;
(xi) Payments received under the Black Lung Benefits Act (30 U.S.C. 901 *et seq.*);
(xii) Any income directly or indirectly derived from, or arising out of, any property held by the United States in trust for any Indian tribe, band, or group or any individual; per capita payments; and services, compensation or funds provided by the United States in accordance with, or generated by, the exercise of any right guaranteed or protected by treaty; and any property distributed or income derived therefrom, or any amounts paid to or for the legatees or next of kin of any member, derived from or arising out of the settlement of an Indian claim; and
(xiii) Child support payments.

Individual means a person who lives alone, or who lives with unrelated individuals, or who lives in a single residence where no family member claims that person as a dependent. An individual with disabilities has an option of applying and being considered as a member of a family or as an individual.

Individual with disabilities means any person within the definition at 29 CFR part 33 or 34 or 41 CFR part 60–741 as applicable. Although the definition employs the plural form "disabilities," and individual with a single impairment is covered within the definition. See §§ 638.539(g) and 638.811(a).

* * * * *

5. In § 638.301, a new paragraph (j) is added to read as follows:

§ 638.301 Funding procedures.

* * * * *

(j) All Job Corps contractors shall be provided with an equitable and negotiated management fee of not less than 1 percent of the contract amount.

6. Section 638.302 is revised to read as follows:

§ 638.302 Performance measurement.

The Job Corps Director shall establish a national performance measurement system for centers and other program components which shall include annual performance standards.

7. In § 638.400, paragraph (a) is revised to read as follows:

§ 638.400 Eligibility for participation.

* * * * *

(a) Is at least 16 and not yet 25 years of age at the time of enrollment, with the following exceptions:

(1) In the case of an otherwise eligible individual with disabilities, there is no upper age limit;

(2) Not more than 20 percent of the individuals enrolled by Job Corps may be ages 22 through 24; and

(3) Youths 14 to 15 years of age may be eligible for enrollment upon a specific determination by the Job Corps Director to enroll them;

* * * * *

8. In § 638.401, a new paragraph (d) is added to read as follows:

§ 638.401 Outreach and screening of participants.

* * * * *

(d) In enrolling individuals who are to be nonresidential participants, priority shall be given to those eligible individuals who are single parents with dependent children.

* * * * *

9. In § 638.539, paragraph (g)(1) is revised to read as follows:

§ 638.539 Complaints and Disputes.

* * * * *

(1) 29 CFR part 34 and subparts B and C and Appendix A of 29 CFR part 32 for programs receiving financial assistance under JTPA.

* * * * *

10. Section 638.541 is amended by adding a sentence at the end to read as follows:

§ 638.541 Job Corps training opportunities.

* * * Nothing in this part shall be construed to prohibit an individual who has been a participant in Job Corps from concurrently or subsequently participating in programs under title II of JTPA, or to prohibit an individual who has been a participant in programs under title II of JTPA from concurrently or subsequently participating in Job Corps.

11. Section 638.542 is amended as follows:

a. The present undesignated paragraph is redesignated as paragraph (b); and

b. A new paragraph (a) is added, to read as follows:

§ 638.542 Child care services.

(a) Job Corps centers shall, where practicable, arrange for the provision of child care for students with dependent children.

* * * * *

Signed at Washington, DC, this 21st day of December 1993.

Doug Ross,

Assistant Secretary of Labor.

Part V

Department of Commerce

Economic Development Administration

Federal Levee Repair Policy Under Economic Development Assistance for Disaster Relief Activities; Notice

DEPARTMENT OF COMMERCE

Economic Development Administration

[Docket No. 930942-3331]

Federal Levee Repair Policy Under Economic Development Assistance for Disaster Relief Activities

AGENCY: Economic Development Administration (EDA), Department of Commerce.

ACTION: Notice.

SUMMARY: The Economic Development Administration (EDA) is announcing that it will begin receiving requests for assistance through grants to non-Federal facilities for levee repairs in accordance with the Supplementary Notice in 58 FR 54008, October 19, 1993, as part of its economic recovery assistance program for the Midwest Floods of 1993.

In carrying out this program, EDA will collaborate with the U.S. Army Corps of Engineers (Corps) to ensure that the proposed levee repairs will meet all appropriate Corps criteria so that levees repaired under this notice will be eligible in the future for participation in the Corps' program of Emergency Levee Repairs under P.L. 84-99. The final decision as to whether a levee will be repaired with funds available under this Notice shall be solely that of EDA.

DATES: This announcement is effective immediately. Preapplications in accordance with criteria set forth herein, for levee repairs which are needed to protect critical public infrastructure will be received until January 28, 1994.

ADDRESSES: To establish merits of project proposals, interested parties should contact the EDA office for the area (see Appendix A) for a preapplication. Form ED-101P (SF-424). Requests for assistance shall be submitted directly to the EDA regional office that serves the area (see Appendix A).

FOR FURTHER INFORMATION CONTACT: See listing in Appendix A.

SUPPLEMENTARY INFORMATION:

Funding Availability

Funds up to $18 million are available for this levee repair program. These funds are provided from the $200 million for emergency expenses which are appropriated under Public Law 103-75. It is anticipated that the funds announced herein for repairing levees may not be sufficient to repair all the levees for which requests are received.

Grant Rates

The EDA grant rate is 75 percent. The recipient's share of the cost of a levee rehabilitation project for which assistance is made available by EDA shall be:

—To provide all land, easements, rights-of-way, and dredged material disposal areas necessary for the project; and

—To provide 25 percent of the costs of construction on the project of which at least 5 percent shall be paid in cash.

Funding Instrument

Awards will be made as grants in accordance with the requirements of Title I, Title IV, or Title IX of the Public Works and Economic Development Act of 1965, as amended (Pub. L. 89-136; 42 U.S.C. 3121 *et seq.*) (PWEDA). The appropriate program authority for grant application and award will be determined by EDA based on the nature of the project and the eligibility of the area.

Eligible Applicants

Eligible applicants include any of the states or political subdivisions thereof, including municipalities and quasi-public corporations and authorities, Indian tribes, and nonprofit corporations representing an EDA designated area or part thereof located in areas affected by the Midwest Floods of 1993.

Project Criteria

An invitation to submit an application does not assure EDA funding. Factors that will be considered in evaluating proposals include if, and to what extent, the proposed project meets the selection criteria. Selection criteria will not be assigned weights. However, a key selection criterion will be the nature of the critical public infrastructure that is protected by the levee.

Corps of Engineers Criteria

Levees which are within the Corps' geographic area of responsibility (i.e., contributing drainage areas of 400 square miles or greater) that were ineligible to receive assistance because of the lack of participation by a public sponsor prior to the Midwest Floods of 1993, will be eligible for assistance from EDA, provided that:

—It is demonstrated that the levee protests "critical" public infrastructure;

—A public sponsor is identified that can demonstrate sufficient financial capability to comply with the requirements of this section;

—The levee rehabilitation otherwise meets the requirements established by the Corps for design, operation, maintenance;

—It is demonstrated that the benefits derived from repair or reconstruction of the levee will exceed the repair costs; and

—The public sponsor agrees to include its levee in the Corps' program and enters into a written agreement acknowledging that future Federal assistance will be conditional upon the public sponsor's continued participation in the program (future assistance will be forthcoming under the Corps' Public Law 84-99 Emergency Levee Program)

—The proposed work consists primarily and essentially of repairs to an existing levee.

Selection Criteria

It is anticipated that the funds announced herein for repairing levees may not be sufficient to repair all the levees for which requests are received EDA will use the following criteria to select the levees to be repaired: (1) The critical nature of the infrastructure protected by the levee, (2) environmental impact, (3) past performance of the applicant regarding operation and maintenance of the existing levee, (4) the applicant's ability to ensure proper and efficient administration of the levee rehabilitation project and of satisfactory operation and maintenance of the levee in accordance with standards established by the Corps, (5) the feasibility of the project, cost and other factors considered, (6) the potential the project has for assisting in the long-term rehabilitation of the area, and (7) the extent to which the project will directly or indirectly tend to improve opportunities in the area for the establishment or expansion of industrial or commercial facilities or primarily benefit members of low-income families.

Application Process

EDA, working in conjunction and collaboration with the Corps, will screen preapplications to determine whether they can meet the criteria established above before inviting formal applications. After all requests have been screened, EDA will notify the Corps regarding the potential projects for which a site inspection, Damage Survey Report and Cost Benefit Analysis are required.

Following the review of the preapplications and the Damage Survey Reports and Cost Benefit Analysis, EDA will invite those entities whose projects are selected for consideration to submit full applications.

Except as modified herein, application procedures, competitive selection criteria and post approval project implementation information for the applicable assistance are described in the Federal Register of January 11, 1993, (58 FR 3800) announcing EDA's Notice of Availability of Funds for FY 1993.

Dated: December 22, 1993.

Willur F. Hawkins,

Acting Assistant Secretary for Economic Development.

Department of Health and Human Services

Administration for Children and Families

Mitigation of Environmental Impacts to Indian Lands Due to Department of Defense Activities; Availability of Financial Assistance; Notice

VOL 58 ISS 248 DEC 29 1993 UMI

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Program Announcement No. 93612–943, Availability of Financial Assistance for the Mitigation of Environmental Impacts to Indian Lands due to Department of Defense Activities.

AGENCY: Administration for Native Americans, Administration for Children and Families, Department of Health and Human Services.

ACTION: Announcement of availability of competitive financial assistance to assist eligible applicants address environmental problems and impacts from Department of Defense activities to Indian lands.

DEFINITION: For purposes of this program announcement, Indian lands is defined as all lands of American Indian tribes and Alaska Native Villages.

SUMMARY: The Congress has recognized that Department of Defense activities may have caused environmental problems for Indian tribes and Alaska Natives. These environmental hazards can negatively impact the health and safety as well as their social and economic welfare. Accordingly, the Congress has taken steps to help those affected begin to mitigate environmental impacts from Department of Defense activities by assisting them in the planning, development and implementation of programs for such mitigation.

This program announcement is initiated in response to the Department of Defense Appropriations Act (the Act), Public Law 103–139, which was enacted on November 11, 1993. Section 8094A of the Act states, of the funds appropriated to the Department of Defense for Operation and Maintenance, Defense-Wide, not less than $8,000,000 shall be made available until expended to the Administration for Native Americans within 90 days of enactment of this Act only for the mitigation of environmental impacts, including the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation on Indian lands resulting from Department of Defense activities.

The Administration for Native Americans (ANA) and the Department of Defense (DOD) have entered into an Interagency Agreement to facilitate carrying out this Congressional mandate. Through this Interagency Agreement, the ANA and DOD announce the availability of FY 1994 funds for eligible applicants to begin the process of addressing the environmental problems and damage caused from defense activities.

FOR FURTHER INFORMATION CONTACT: Sharon McCully—(202) 690–5780, Rita LeBeau—(202) 690–5790, Administration for Native Americans, Department of Health and Human Services, 200 Independence Avenue, SW., room 348F, Washington, DC 20201–0001.

DATES: The closing date for submission of applications is August 26, 1994.

A. Introduction and Purpose

The program announcement states the availability of fiscal year 1994 financial assistance to eligible applicants using funds provided by the Department of Defense through the Administration for Native Americans for the purpose of mitigating environmental impacts on Indian lands related to Department of Defense activities.

Financial assistance awards made under this program announcement will be on a competitive basis and the proposals will be reviewed against the evaluation criteria in this announcement.

The Federal government recognizes that substantial environmental problems, resultant from defense activities, exist on Indian lands and will geographically range from border to border and from coast to coast. The nature and magnitude of the problems will most likely be better defined when affected Indian tribes and Alaska Natives have completed environmental assessments called for in Phase I of this four-phase program.

The Federal government has also recognized that Indian tribes, Alaska Natives and their tribal organizations must have the opportunity to develop their own plans and technical capabilities and access the necessary financial and technical resources in order to assess, plan, develop and implement programs to mitigate any impacts caused by Department of Defense activities.

The Administration for Native Americans (ANA) and the Department of Defense (DOD) recognize the potential environmental problems created by DOD activities that may affect air, water, soil and human and natural resources (i.e., forests, fish, plants). It is also recognized that potential applicants may have specialized knowledge and capabilities to address specific concerns at various levels within the four phase program. Under this announcement proposals will be accepted for any and all of the four phases or one specific phase.

The following are some known areas of concern. It is expected that applicants may identify additional areas of concerns in their applications:

- Damage to treaty protected spawning habitats caused by artillery practice or other defense activities;
- Damage to Indian lands and improvements (e.g., wells, fences) and facilities caused by bombing practice;
- Damage caused to range and forest lands by gunnery range activities;
- Low-level flights over sacred sites and religious ceremonies which disrupt spiritual activities;
- Operation of dams by the Army Corps of Engineers which has had adverse impacts on spawning beds and treaty fishing rights and water quality due to problems of siltation; reduced stream flows; increased water temperatures; and, dredge and fill problems;
- Leaking of underground storage tanks on lands taken from Indians for temporary war-time use by the Department of Defense;
- Unexploded ordnance from gunnery and bombing practice on Indian lands resulting in significant damage to rangelands, wildlife habitat, stock water wells, etc.;
- Disposal activities related to removal of unexploded ordnance, nuclear waste materials, toxic materials, and biological warfare materials from Indian lands;
- Transportation of live ordnance, nuclear waste, chemical and biological warfare materials from and across Indian lands;
- Seepage of fluids suspected of containing toxic materials onto Indian lands;
- Chlorofluorocarbons (CFC's) resulting from abandoned containers and/or dumping onto Indian lands;
- Polychlorinated biphenyls (PCB's) from transformers which have been abandoned and/or dumped onto Indian lands;
- Public health concerns regarding electromagnetic fields surrounding Defense-related transmission facilities which cross Indian lands; and
- Reclamation activities required to mitigate any or all of the above stated conditions and other activities as they become known.

It is anticipated that mitigation efforts will involve four phases of work: Phase I—assessment of Indian lands to develop as complete an inventory as possible of environmental impacts caused by Department of Defense activities; Phase II—identification and exploration of alternative means for

mitigation of these impacts and determination of the technical merit, feasibility and expected costs and benefits of each approach in order to select one approach; Phase III—development of a detailed mitigation plan, and costing and scheduling for implementation of the design, including strategies for meeting statutory or regulatory requirements and for dealing with other appropriate Federal agencies; and, Phase IV—implementation of the mitigation plan.

B. Proposed Projects to be Funded in FY 1994

The purpose of this announcement is to invite single year or up to thirty-six month proposals from eligible applicants to undertake any or all of the Phases.

Applicants may apply for projects of up to 36 months duration. A multi-year project, requiring more than 12 months to develop and complete, affords applicants the opportunity to develop more complex and in-depth projects. Funding after the first 12 month budget period of an approved multi-year project is non-competitive and subject to availability of funds. (see Part E for further information)

Phase I

The purpose of Phase I is to conduct the research and planning needed to identify environmental impacts to Indian lands caused by Department of Defense activities on or near Indian lands and to plan for remedial investigations to determine and carry out a preliminary assessment of these problems. These activities may include, but not be limited to, the following:

- Conduct site inspections to identify problems and causes related to DOD activities;
- Identify and develop approaches to handle raw data that will assist in performing comprehensive environmental assessments of problems and causes related to DOD activities;
- Identify approaches and develop methodologies which will be used to develop the activities to be undertaken;
- Identify other Federal agency programs, if any, that must be involved in mitigation activities and their requirements;
- Identify potential technical assistance and expertise required to address the activities to be undertaken; and
- Identify other Federal environmental restoration programs that could be accessed to cooperatively coordinate and mobilize resources in addressing short and long-term activities developed under Phase III.

Phase I should result in adequately detailed documentation of the problems and sources of help in solving them to provide a useful basis for examining alternative mitigation approaches in Phase II.

Phase II

The purpose of Phase II activities is to examine alternative approaches for mitigation of the impacts identified in Phase I and to lead toward the mitigation design to be developed in Phase III. Phase II activities may include, but need not be limited to the following:

- Conduct remedial investigation and/or feasibility studies as necessary;
- Plan for the design of a comprehensive mitigation strategy to address problems identified during Phase I which address areas such as land use restoration, clean-up processes, contracting and liability concerns; regulatory responsibilities; and resources necessary to implement clean up actions;
- Design strategies that coordinate with or are complementary to existing DOD cleanup programs such as the defense Environmental Restoration Program which promotes and coordinates efforts for the evaluation and cleanup of contamination at DOD installations;
- Review possible interim remedial strategies that address immediate potential hazards to the public health and environment in order to provide alternative measures i.e., providing alternate water supplies, removing concentrated sources of contaminants, or constructing structures to prevent the spread of contamination;
- Identify specific types of technical assistance and management expertise required to assist in developing specific protocols for environmental assessments, remedial investigations, feasibility studies, interim remedial actions and strategic planning for existing and future mitigation activities;
- Review other types of assessments that need to be considered, reviewed and incorporated into the conduct and/or design process such as:

—Estimates of clean-up cost;
—Estimate of impacts of short-term approach;
—Estimate of impacts of long-term approach;
—Cultural impacts;
—Economic impacts;
—Human health-risk impacts; and

- Document approaches and procedures which have been developed in order to negotiate with appropriate Federal agencies for necessary cleanup action and to keep the public informed.

In establishing the basis for a design process, particularly when there are multiple problems, the applicants may want to consider a prioritization process as follows:

- Emergency situations that require immediate clean-up;
- Time-critical sites, i.e. sites where the situation will deteriorate if action is not taken soon;
- Projects with minimum funding requirements;
- Projects with intermediate-level funding requirements;
- Projects with maximum funding requirements.

Achieving compliance with Federal environmental protection legislation is the driving force behind all Federal clean-up activities. The following is a list of major Federal environmental legislation that should be recognized in a regulatory review as all Federal, state and local regulatory requirements which could have major impacts in the design of mitigation strategies:

- Indian Environmental General Assistance Program Act of 1992,
- Clean Air Act (CAA);
- Clean Water Act (CWA);
- Safe Drinking Water Act (SDWA);
- Surface Mining Control and Reclamation Act of 1977 (SMCRA);
- Marine Protection, Research and Sanctuaries Act of 1972 (MPRSA);
- Toxic Substances Control Act (TSCA);
- Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA);
- Nuclear Waste Policy Act of 1982 (NWPA);
- Comprehensive Environmental Resource Conservation and Liability Act (CERCLA or Superfund);
- Resource Conservation and Recovery Act of 1976 (RCRA);
- Hazardous and Solid Waste Amendments of 1984 (HSWA);
- National Environmental Policy Act of 1969 (NEPA);

Other Federal legislation that should be included in the regulatory review and that should be of assistance are the tribal specific legislative acts, such as:

- American Indian Religious Freedom Act;
- National Historic Preservation Act of 1991;
- Indian Environmental Regulatory Enhancement Act of 1990;

Other regulatory considerations could involve applicable tribal, village, state and local laws, codes, ordinances, standards, etc. which should also be reviewed to assist in planning, the mitigation design, and development of the comprehensive mitigation strategy.

Phase II should result in a carefully documented examination of alternative

VOL 58 ISS 248 DE 29 1993 UMI

approaches and the selection of an approach to be used in the Phase III design process.

Phase III

The purpose of Phase III is the completion of activities initiated under Phase II, the initiation of new activities required to implement programs, and the design of on-site actions required to mitigate environmental damage from DOD activities.

The Phase III activities may include but need not be limited to:

- Development and implementation of a detailed management plan to: Guide corrective action; resolve issues rising from overlapping or conflicting jurisdictions; guide a cooperative and collaborative effort among all parties to ensure there are no duplicative or conflicting regulatory requirements governing the cleanup actions; and, establish a tribal or village framework and/or parameter(s) that will guide the negotiations process for one or multiple cleanup actions;
- Establishment of priorities for mitigation programs when there are multiple clean-up sites; consider at a minimum the nature of the hazard involved: such as its physical and chemical characteristics, including concentrations and mobility of contaminants; the pathway indicating potential for contaminant transport via surface water, ground water and air/soil, and any other indicators that are identified during the environmental assessment, including the prioritization process identified under Phase II;
- Program design and implementation of information dissemination strategies prior to start up of on-site implementation of mitigation program activities;
- Development of a legal and jurisdictional strategy that addresses DOD/contractor liability issues to ensure quality, cost-effective mitigation services, and to evaluate any measures providing equitable risk between the DOD and the remediation contractor, as well as to incorporate Tribal Employment Rights Office (TERO) and other policies and procedures, if required;
- Design of an approval process and other processes necessary for the implementation of tribal and village codes and regulations for current and future compliance enforcement of all mitigation actions;
- Development/design of a documentation strategy to ensure all DOD and contractor cleanup activities are conducted and completed in an environmentally clean and safe manner for the social and economic welfare, as well as public health of Indian and Alaska Native people and the surrounding environment;
- Development and conduct of certified training programs that will enable a local work force to become technically capable to participate in the mitigation activities, if they so choose; and
- Conduct of any other activities deemed necessary to carry out Phase I, II and III activities.

Phase III should result in a comprehensive plan for conducting all aspects of mitigation action contemplated.

Phase IV

The Phase IV activities are the implementation of mitigation plans specified in the detailed plan completed in Phase III.

C. Eligible Applicants

The following organizations are eligible to apply:

- Federally recognized Indian tribes;
- Incorporated Non-Federally and State recognized Indian tribes;
- Alaska Native villages, tribes or tribal governing bodies (IRA or traditional councils) as recognized by the Bureau of Indian Affairs in the **Federal Register** Notice dated October 21, 1993;
- Nonprofit Alaska Native Regional Associations and/or Corporations with village specific projects;
- Nonprofit Native organizations in Alaska with village specific projects;
- Other tribal or village organizations or consortia of Indian tribes.

In addition, current ANA grantees who meet the above eligibility criteria are also eligible to apply for a grant award under this program announcement.

D. Available Funds

Subject to availability of funds, approximately $8 million of financial assistance is available in FY 1994 under this program announcement for eligible applicants.

Each eligible applicant described above (Part C) can receive only *one* grant award under this announcement.

E. Multi-Year Projects

This announcement is soliciting applications for project periods up to 36 months. Awards, on a competitive basis, will be for a one-year budget period, although project periods may be as long as 36 months. Funding after the 12 month budget period of an approved multi-year project is non-competitive. The non-competitive funding for the second and third years is contingent upon the grantee's satisfactory progress in achieving the objectives of the project according to the approved work plan, the availability of Federal funds, compliance with the applicable statutory, regulatory and grant requirements, and determination that continued funding is in the best interest of the Government.

F. Grantee Share of Project

Grantees must provide at least five (5) percent of the total approved cost of the project. The total approved cost of the project is the sum of the Federal share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. Therefore, a project requesting $300,000 in Federal funds (based on an award of $100,000 per budget period), must include a match of at least $15,789 (5% total project cost). Applicants may request a waiver of the requirement for a 5% non-Federal matching share (See 45 CFR part 1336, Subpart E—Financial Assistance Provisions).

It is the policy of ANA to apply the waiver of the non-Federal matching share requirement for the purposes of this particular program announcement.

G. Intergovernmental Review of Federal Programs

This program is not covered by Executive Order 12372.

H. Application Process

(1) Availability of Application Forms: In order to be considered for a grant under this program announcement, an application must be submitted on the forms supplied, including Form-424, and in the manner prescribed by ANA. The application kits containing the necessary forms and instructions may be obtained from: Department of Health and Human Services, Administration for Children and Families, Administration for Native Americans, Room 348F, Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, DC 20201–0001, Attention: Rita LeBeau—(202) 690–5790.

(2) Application Submission: Each application should include one signed original and two (2) copies of the grant application, including all attachments. These include the forms on: drug free workplace; debarment; and anti-lobbying. Assurances and certifications must be completed. The application must be hand delivered or mailed by the closing date to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, Room 341–F–1, Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, DC 20201–0001, Attention: ANA 93612–943.

The application must be signed by an individual authorized: 1) to act for the applicant tribe, village or organization, and 2) to assume the applicant's obligations under the terms and conditions of the grant award.

(3) Application Consideration: The Commissioner of the Administration for Native Americans determines the final action to be taken with respect to each grant application received under this announcement.

The following points should be taken into consideration by all applicants:

- Incomplete applications and applications that do not otherwise conform to this announcement will not be accepted for review. Applicants will be notified in writing of any such determination by ANA.
- Complete applications that conform to all the requirements of this program announcement are subjected to a competitive review and evaluation process. An independent review panel consisting of reviewers familiar with environmental problems of Indian tribes and Alaska Native villages will evaluate each application against the published criteria in this announcement. The results of this review will assist the Commissioner in making final funding decisions.
- The Commissioner's decision will also take into account the comments of ANA staff, state and Federal agencies having performance related information, and other interested parties.
- As a matter of policy the Commissioner will make grant awards consistent with the stated purpose of this announcement and all relevant statutory and regulatory requirements under 45 CFR parts 74 and 92 applicable to grants under this announcement.
- After the Commissioner has made decisions on all applications, unsuccessful applicants will be notified in writing within approximately 120 days of the closing date. Successful applicants are notified through an official Financial Assistance Award (FAA) document. The Administration for Native Americans staff cannot respond to requests for funding decisions prior to the official notification to the applicants. The FAA will state the amount of Federal funds awarded, the purpose of the grant, the terms and conditions of the grant award, the effective date of the award, the project period, the budget period, and the amount of the non-Federal matching share requirement.

I. Review Process and Criteria

Applications submitted by the post-marked date under this program announcement will undergo a pre-review to determine that:

- The applicant is eligible in accordance with the Eligible Applicants Section of this announcement.
- The application materials submitted are sufficient to allow the panel to undertake an in-depth evaluation. (All required materials and forms are listed in the Grant Application Checklist.)

Applications which pass the pre-review will be evaluated and rated by an independent review panel on the basis of the evaluation criteria. These criteria are used to evaluate the quality of a proposed project, and to determine the likelihood of its success. A proposed project should reflect the purposes stated and described in the *Introduction and Program Purpose* (Section A) of this announcement. The evaluation criteria are:

(1) Goals and Available Resources (15 points)

(a) The application presents specific mitigation goals related to the proposed project. It explains how the tribe or village intent to achieve these goals has been identified and clearly documents the involvement and support of the community in the planning process and implementation of the proposed project.

(b) Available resources (other than ANA) which will assist, and be coordinated with the project are described. These resources may be personnel, facilities, vehicles or financial and may include other Federal and non-Federal resources.

(2) Organizational Capabilities and Qualifications (10 points)

(a) The management and administrative structure of the applicant is explained. Evidence of the applicant's ability to manage a project of the proposed scope is well defined. The application clearly demonstrates the successful management of prior or current projects of similar scope by the organization and/or by the individuals designated to manage the project.

(b) Position descriptions or resumes of key personnel, including those of consultants, are presented. The position descriptions and resumes relate specifically to the staff proposed in the Approach Page and in the proposed Budget of the application. Position descriptions very clearly describe the position and its duties and clearly relate to the personnel staffing required for implementation of the project activities Either the position descriptions or the resumes present the qualifications that the applicant believes are necessary for overall quality management of the project.

(3) Project Objectives, Approach and Activities (45 points)

The Objective Work Plan in the application includes project objectives and activities related to the long term goals for each budget period proposed and demonstrates that these objectives and activities:

- Are measurable and/or quantifiable;
- Are based on a fully described and locally determined balanced strategy for mitigation of impacts to the environment;
- Clearly relate to the tribe or village long-range goals which the project addresses;
- Can be accomplished with available or expected resources during the proposed project period;
- Indicate when the objective, and major activities under each objective will be accomplished;
- Specify who will conduct the activities under each objective; and
- Support a project that will be completed, self-sustaining, or financed by other than ANA funds at the end of the project period.

(4) Results or Benefits Expected (20 points)

The proposed project will result in specific measurable outcomes for each objective that will clearly contribute to the completion of the project and will help the tribe or village meet its goals. The specific information provided in the application on expected results or benefits for each objective is the basis upon which the outcomes can be evaluated at the end of each budget year.

(5) Budget (10 points)

There is a detailed budget provided for each budget period requested. (This is especially necessary for multi-year applications.) The budget is fully explained. It justifies each line item in the budget categories in Section B of the Budget Information of the application, including the applicant's non-Federal share and its source. Sufficient cost and other detail is included and explained to facilitate the determination of cost allowability and the relevance of these costs to the proposed project. The funds requested are appropriate and necessary for the scope of the project.

VOL 58 ISS 248 DE 29 1993 UMI

J. Guidance to Applicants

The following is provided to assist applicants to develop a competitive application.

(1) Program Guidance

- The Administration for Native Americans will fund projects that present the strongest prospects for meeting the stated purposes of this program announcement. Projects will not be funded on the basis of need alone.
- In discussing the problems being addressed in the application, relevant historical data should be included so that the appropriateness and potential benefits of the proposed project will be better understood by the reviewers and decision-maker.
- Supporting documentation, if available, should be included to provide the reviewers and decision-maker with other relevant data to better understand the scope and magnitude of the project.
- The applicant should provide documentation showing support for the proposed project from authorized officials, board of directors and/or officers through a letter of support or resolution. It would be helpful, particularly for organizations, to delineate the membership, make-up of the board of directors, and its elective procedures to assist reviewers in determining authorized support.

(2) Technical Guidance

- Applicants are strongly encouraged to have someone other than the author apply the evaluation criteria in the program announcement and to score the application prior to its submission, in order to gain a better sense of its quality and potential competitiveness in the review process.
- ANA will accept only one application under this program announcement from any one applicant. If an eligible applicant sends two applications, the one with the earlier postmark will be accepted for review unless the applicant withdraws the earlier application.
- An application from an Indian tribe, Alaska Native Village or other eligible organization must be submitted by the governing body of the applicant.
- The application's Form 424 must be signed by the applicant's representative (tribal official or designate) who can act with full authority on behalf of the applicant.
- The Administration for Native Americans suggests that the pages of the application be numbered sequentially from the first page and that a table of contents be provided. The page numbering, along with simple tabbing of the sections, would be helpful and allows easy reference during the review process.
- Two (2) copies of the application plus the original are required.
- The Cover Page should be the first page of an application, followed by the one-page abstract.
- Section B of the Program Narrative should be of sufficient detail as to become a guide in determining and tracking project goals and objectives.
- The applicant should specify the entire length of the project period on the first page of the Form 424, Block 13, not the length of the first budget period. ANA will consider the project period specified on the Form 424 as governing.
- Line 15a of the Form 424 should specify the Federal funds requested for the first *Budget period*, not the entire project period.
- Applicants proposing multi-year projects need to describe and submit project objective workplans and activities for each budget period. (Separate itemized budgets for the Federal and non-Federal costs should be included).
- Applicants for multi-year projects must justify the entire timeframe of the project and also project the expected results to be achieved in each budget period and for the total project period.

(3) Projects or activities that generally will not meet the purposes of this announcement

- Proposals from consortia of tribes or villages that are not specific with regard to support from, and roles of member tribes.
- The purchase of real estate or construction.

K. Paperwork Reduction Act of 1980

Under the Paperwork Reduction Act of 1980, Public Law 96–511, the Department is required to submit to the Office of Management and Budget (OMB) for review and approval any reporting and record keeping requirements in regulations including program announcements. This program announcement does not contain information collection requirements beyond those approved for ANA grant applications under the Program Narrative Statement by OMB.

L. Due Date for Receipt of Applications

The closing date for applications submitted in response to this program announcement is August 26, 1994.

M. Receipt of Applications

Applications must either be hand delivered or mailed to the address in Section H, Application Process: Application Submission.

The Administration for Native Americans will not accept applications submitted via facsimile (FAX) equipment.

Deadline

Applications shall be considered as meeting the announced deadline if they are either:

1. Received on or before the deadline date at the place specified in the program announcement, or
2. Sent on or before the deadline date and received by the granting agency in the time for the independent review under DHHS GAM Chapter 1–62 (Applicants are cautioned to request a legibly dated U.S. Postal Service postmark or to obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private Metered postmarks shall not be acceptable as proof of timely mailing.)

Late Applications

Applications which do not meet the criteria above are considered late applications. The granting agency shall notify each late applicant that its application will not be considered in the current competition.

Extension of Deadlines

The granting agency may extend the deadline for all applicants because of acts of God such as floods, hurricanes, etc., or when there is a widespread disruption of the mails. However, if the granting agency does not extend the deadline for all applicants, it may not waive or extend the deadline for any applicants.

a. Typed Name of Authorized Representative	b. Title	c. Telephone number
d. Signature of Authorized Representative		e. Date Signed

Previous Editions Not Usable

Standard Form 424 (REV 4-88)
Prescribed by OMB Circular A-102

Authorized for Local Reproduction

INSTRUCTIONS FOR THE SF 424

This is a standard form used by applicants as a required facesheet for preapplications and applications submitted for Federal assistance. It will be used by Federal agencies to obtain applicant certification that States which have established a review and comment procedure in response to Executive Order 12372 and have selected the program to be included in their process, have been given an opportunity to review the applicant's submission.

Item: Entry:

1. Self-explanatory.
2. Date application submitted to Federal agency (or State if applicable) & applicant's control number (if applicable).
3. State use only (if applicable).
4. If this application is to continue or revise an existing award, enter present Federal identifier number. If for a new project, leave blank.
5. Legal name of applicant, name of primary organizational unit which will undertake the assistance activity, complete address of the applicant, and name and telephone number of the person to contact on matters related to this application.
6. Enter Employer Identification Number (EIN) as assigned by the Internal Revenue Service.
7. Enter the appropriate letter in the space provided.
8. Check appropriate box and enter appropriate letter(s) in the space(s) provided:
   - "New" means a new assistance award.
   - "Continuation" means an extension for an additional funding/budget period for a project with a projected completion date.
   - "Revision" means any change in the Federal Government's financial obligation or contingent liability from an existing obligation.
9. Name of Federal agency from which assistance is being requested with this application.
10. Use the Catalog of Federal Domestic Assistance number and title of the program under which assistance is requested.
11. Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.

Item: Entry:

12. List only the largest political entities affected (e.g., State, counties, cities)
13. Self-explanatory
14. List the applicant's Congressional District and any District(s) affected by the program or project.
15. Amount requested or to be contributed during the first funding/budget period by each contributor. Value of in-kind contributions should be included on appropriate lines as applicable. If the action will result in a dollar change to an existing award, indicate only the amount of the change. For decreases, enclose the amounts in parentheses. If both basic and supplemental amounts are included, show breakdown on an attached sheet. For multiple program funding, use totals and show breakdown using same categories as item 15.
16. Applicants should contact the State Single Point of Contact (SPOC) for Federal Executive Order 12372 to determine whether the application is subject to the State intergovernmental review process.
17. This question applies to the applicant organization, not the person who signs as the authorized representative. Categories of debt include delinquent audit disallowances, loans and taxes.
18. To be signed by the authorized representative of the applicant. A copy of the governing body's authorization for you to sign this application as official representative must be on file in the applicant's office. (Certain Federal agencies may require that this authorization be submitted as part of the application.)

INSTRUCTIONS FOR THE SF-424A

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A,B,C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A,B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary
Lines 1-4, Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in *Column* (a) and the respective catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g.)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

Lines 1-4, Columns (c) through (g.) (continued)

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 — Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Lines 6a-i — Show the totals of Lines 6a to 6h in each column.

Line 6j - Show the amount of indirect cost.

Line 6k - Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

VOL 58 ISS 248 DE 29 1993 UMI

INSTRUCTIONS FOR THE SF-424A *(continued)*

Line 7 – Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program narrative statement the nature and source of income. The estimated amount of program income may be considered by the federal grantor agency in determining the total amount of the grant.

Section C. Non-Federal-Resources

Lines 8-11 – Enter amounts of non-Federal resources that will be used on the grant. If in-kind contributions are included, provide a brief explanation on a separate sheet.

Column (a) – Enter the program titles identical to Column (a), Section A. A breakdown by function or activity is not necessary.

Column (b) – Enter the contribution to be made by the applicant.

Column (c) – Enter the amount of the State's cash and in-kind contribution if the applicant is not a State or State agency. Applicants which are a State or State agencies should leave this column blank.

Column (d) – Enter the amount of cash and in-kind contributions to be made from all other sources.

Column (e) – Enter totals of Columns (b), (c), and (d).

Line 12 — Enter the total for each of Columns (b)-(e). The amount in Column (e) should be equal to the amount on Line 5, Column (f), Section A.

Section D. Forecasted Cash Needs

Line 13 – Enter the amount of cash needed by quarter from the grantor agency during the first year.

Line 14 – Enter the amount of cash from all other sources needed by quarter during the first year.

Line 15 – Enter the totals of amounts on Lines 13 and 14.

Section E. Budget Estimates of Federal Funds Needed for Balance of the Project

Lines 16 - 19 – Enter in Column (a) the same grant program titles shown in Column (a), Section A. A breakdown by function or activity is not necessary. For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants.

If more than four lines are needed to list the program titles, submit additional schedules as necessary.

Line 20 – Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

Section F. Other Budget Information

Line 21 – Use this space to explain amounts for individual direct object-class cost categories that may appear to be out of the ordinary or to explain the details as required by the Federal grantor agency.

Line 22 – Enter the type of indirect rate (provisional, predetermined, final or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

Line 23 – Provide any other explanations or comments deemed necessary.

OMB Approval No. 0348-0040

ASSURANCES — NON-CONSTRUCTION PROGRAMS

Note: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States, and if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§ 4728-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply with the provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), the Copeland Act (40 U.S.C. § 276c and 18 U.S.C. §§ 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally assisted construction subagreements.

Authorized for Local Reproduction

VOL 58 ISS 248 DEC 29 1993 UMI

10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program andto purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§ 1451 et seq.); (f) conformity of Federal actions to State (Clear Air) Implementation Plans under Section 176(c) of the Clear Air Act of 1955, as amended (42 U.S.C. § 7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§ 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.).

14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.

15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. 2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.

16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§ 4801 et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures.

17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984.

18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations and policies governing this program.

U.S. Department of Health and Human Services

Certification Regarding Drug-Free Workplace Requirements

Grantees Other Than Individuals

By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

This certification is required by regulations implementing the Drug-Free Workplace Act of 1988, 45 CFR Part 76, Subpart F. The regulations, published in the May 25, 1990 Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may taken action authorized under the Drug-Free Workplace Act. False certification or violation of the certification shall be grounds for suspension of payments, suspension or termination of grants, or governmentwide suspension or debarment.

Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios.)

If the workplace identified to HHS changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see above).

Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

"Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 USC 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15).

"Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

"Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

"Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All "direct charge" employees; (ii) all "indirect charge" employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace; (2) The grantee's policy of maintaining a drug-free workplace; (3) Any available drug counseling, rehabilitation, and employee assistance programs; and, (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and, (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

VOL 58 ISS 248 DEC 29 1993 UMI

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted:
(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or, (2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;
(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant (use attachments, if needed):

Place of Performance (Street address, City, County, State, ZIP Code)_____

_____

Check __ if there are workplaces on file that are not identified here.

Sections 76.630(c) and (d)(2) and 76.635(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central receipt point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, S.W., Washington, D.C. 20201.

DGMO Form#2 Revised May 1990

Certification Regarding Debarment, Suspension, and Other Responsibility Matters - Primary Covered Transactions

By signing and submitting this proposal, the applicant, defined as the primary participant in accordance with 45 CFR Part 76, certifies to the best of its knowledge and believe that it and its principals:

(a) are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal Department or agency;

(b) have not within a 3-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) are not presently indicted or otherwise criminally or civilly charged by a governmental entity (Federal, State of local) with commission of any of the offenses enumerated in paragraph (1) (b) of this certification; and

(d) have not within a 3-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

The inability of a person to provide the certification required above will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the Department of Health and Human Services(HHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

The prospective primary participant agrees that by submitting this proposal, it will include the clause entitled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion - Lower Tier Covered Transaction. " provided below without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

VOL 58 ISS 248 DEC 29 1993 UMI

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions
(To Be Supplied to Lower Tire Participants)

By signing and submitting this lower tier proposal, the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

(a) are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

(b) where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal.

The prospective lower tier participant further agrees by submitting this proposal that it will include this clause entitled "certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion - Lower Tier Covered Transactions. "without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

Certification Regarding Lobbying

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

VOL 58 ISS 248 DEC 29 1993 UMI

State for Loan Guarantee and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the require statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

DISCLOSURE OF LOBBYING ACTIVITIES

Approved by OMB 0348-0046

Complete this form to disclose lobbying activities pursuant to 31 U.S.C. 1352
(See reverse for public burden disclosure.)

1. Type of Federal Action:
☐ a. contract
☐ b. grant
☐ c. cooperative agreement
☐ d. loan
☐ e. loan guarantee
☐ f. loan insurance

2. Status of Federal Action:
☐ a. bid/offer/application
☐ b. initial award
☐ c. post-award

3. Report Type:
☐ a. initial filing
☐ b. material change
For Material Change Only:
year _____ quarter ____
date of last report _____

4. Name and Address of Reporting Entity:
☐ Prime ☐ Subawardee
Tier ____, if known:
Congressional District, if known:

5. If Reporting Entity in No. 4 is Subawardee, Enter Name and Address of Prime:
Congressional District, if known:

6. Federal Department/Agency:

7. Federal Program Name/Description:
CFDA Number, if applicable: _____

8. Federal Action Number, if known:

9. Award Amount, if known:
$

10. a. Name and Address of Lobbying Entity (if individual, last name, first name, MI):

b. Individuals Performing Services (including address if different from No. 10a) (last name, first name, MI):

(attach Continuation Sheet(s) SF-LLL-A, if necessary)

11. Amount of Payment (check all that apply):
$ _____ ☐ actual ☐ planned

12. Form of Payment (check all that apply):
☐ a. cash
☐ b. in-kind; specify: nature _____
value _____

13. Type of Payment (check all that apply):
☐ a. retainer
☐ b. one-time fee
☐ c. commission
☐ d. contingent fee
☐ e. deferred
☐ f. other; specify: _____

14. Brief Description of Services Performed or to be Performed and Date(s) of Service, including officer(s), employee(s), or Member(s) contacted, for Payment Indicated in Item 11:

(attach Continuation Sheet(s) SF-LLL-A, if necessary)

15. Continuation Sheet(s) SF-LLL-A attached: ☐ Yes ☐ No

16. Information requested through this form is authorized by title 31 U.S.C. section 1352. This disclosure of lobbying activities is a material representation of fact upon which reliance was placed by the tier above when this transaction was made or entered into. This disclosure is required pursuant to 31 U.S.C. 1352. This information will be reported to the Congress semi-annually and will be available for public inspection. Any person who fails to file the required disclosure shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Department of Transportation

Federal Aviation Administration

14 CFR Part 73

Establishment of Warning Areas in the Airspace Overlying the Waters Between 3 and 12 Nautical Miles From the United States; Rule

VOL 58 ISS 248 DEC 29 1993 UMI

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 73

[Docket No. 25767; Special Federal Aviation Regulation (SFAR) No. 53–3]

Establishment of Warning Areas in the Airspace Overlying the Waters Between 3 and 12 Nautical Miles From the United States Coast

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule; extension of expiration date; request for comments.

SUMMARY: This action continues for an additional 24 months the effectiveness of warning areas established in airspace subject to FAA jurisdiction in order to reflect presidential action extending the territorial sea of the United States, for international purposes, from 3 to 12 nautical miles from the coast of the United States. The warning areas were established in the same location as nonregulatory warning areas previously designated over international waters. The Department of Defense (DOD) conducts hazardous military flight activities in these areas. The warning areas were established for an initial period of 1 year to permit the FAA to consider the need for rulemaking action to meet military training needs in this airspace. The establishment of those areas was extended by subsequent rulemakings to allow the DOD sufficient time to analyze its needs in the affected airspace and present its recommendations to the FAA. At this time, the DOD has not finalized its airspace analysis and usage projections. This action, therefore, continues the effectiveness of warning areas while airspace analyses and rulemaking efforts are ongoing.

DATES: Effective date: December 27, 1993. Expiration date: January 15, 1996. Comment date: Comments must be received on or before February 28, 1994.

ADDRESSES: Comments on this notice should be mailed, in triplicate, to: Federal Aviation Administration Office of the Chief Counsel; Attention: Rules Docket (AGC–200), Docket No. 25767, 800 Independence Avenue, SW., Washington, DC 20591. Comments delivered must be marked Docket No. 25767. Comments may be examined in room 915G weekdays between 8:30 a.m. and 5 p.m., except on Federal holidays.

FOR FURTHER INFORMATION CONTACT: Melodie De Marr, Air Traffic Rules and Regulations, ATP–230, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, Telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION

Comments Invited

Interested persons are invited to participate in the rulemaking process by submitting such written data, views, or arguments as they may desire. Comments relating to the environmental, energy, federalism, or economic impact that might result from adopting the proposals in this amendment are also invited. Substantive comments should be accompanied by cost estimates. Comments should identify the regulatory docket or amendment number and should be submitted in triplicate to the Rules Docket address specified above. All comments received on or before the closing date for comments specified will be considered by the Administrator. This final rule may be changed in light of comments received. All comments received will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with Federal Aviation Administration (FAA) personnel concerned with this rulemaking will be filed in the docket. Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must include a preaddressed, stamped postcard on which the following statement is made: "Comments to Docket No. 25767." The postcard will be date stamped and mailed to the commenter.

Availability of Document

Any person may obtain a copy of this document by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA–230, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267–3484. Communications must identify the number of this SFAR. Persons interested in being placed on a mailing list for future rules should also request a copy of Advisory Circular No. 11–2A which describes the application procedure.

Background

Presidential Proclamation No. 5928, signed on December 27, 1988, extended the sovereignty of the United States government, for international purposes, over the territorial seas from 3 to 12 nautical miles from the coast of the United States (including its territories). By final rule issued on that same date, the FAA amended parts 71 and 91 of the Federal Aviation Regulations to extend controlled airspace and the applicability of general flight rules to the airspace overlying the waters between 3 and 12 nautical miles from the coast of the United States (54 FR 264; January 4, 1989). The FAA amended part 71 by extending the Continental Control Area, the Alaskan Positive Control Area, and the Continental Positive Control Area to 12 nautical miles from the U.S. Coast. The FAA amended part 91 by extending the applicability of subpart A, sections 91.1 through 91.43, and all of subpart B, to 12 nautical miles from the U.S. coast.

When the airspace was considered to be over international waters, military aircraft were not prohibited from conducting hazardous training activities within this area. Warning areas were designated in this airspace to provide notice to nonparticipating pilots of the location of hazardous military training operations. However, nonparticipating pilots were not restricted from operating in these areas.

Upon the extension of part 91 operating rules to this airspace, the DOD would have been prohibited from hazardous flight activities without an exemption from the regulations or the designation of an airspace category for that purpose. Warning areas established in international airspace, under FAA internal procedures, do not in themselves authorize hazardous activities. An interruption of military operations normally conducted in warning areas would have an adverse impact on national defense. An exemption would permit the continuation of military operations, but would not in itself adequately inform the general flying public of the existence of these activities. Accordingly, by regulation the FAA established warning areas to permit the continuation of existing military training activities in the same areas where those activities were and are still being conducted.

To preclude the interruption of ongoing DOD training activities in that airspace while the issue was studied and resolved, the FAA amended part 73 by promulgating SFAR 53. SFAR 53 established warning areas in the airspace overlying the waters between 3 and 12 nautical miles from the U.S. coast by final rule (54 FR 260; January 4, 1989) for an initial period of 1 year to permit the FAA to consider the need for rulemaking action to meet military training needs in this airspace. The warning areas established by SFAR 53 are unique airspace designations intended solely to allow the continuation of military training activity and to maintain the right of

nonparticipating aircraft to fly through such areas. Controlled flights are not affected by SFAR 53, as such flights will continue to be routed around active warning areas. This action maintains the existing level of safety since it allows military training activity to continue without interruption.

Warning area designations and descriptions are not contained in the Code of Federal Regulations (CFR). For Federal Register citations affecting the warning areas, see the List of CFR Sections Affected in the Finding Aids section of 14 CFR part 73.

On December 27, 1989, the FAA, at the request of the DOD, extended the expiration date of SFAR 53 to December 27, 1990. The DOD stated that this delay would enable it, in consultation with the FAA, to determine the best course of implementation of regulatory special use airspace (54 FR 51286; December 13, 1989).

On May 8, 1990, the DOD submitted a letter to the FAA requesting a legal opinion from the Office of the Chief Counsel regarding the feasibility of creating a new category of airspace to maintain the status quo. The DOD suggested the creation of "domestic warning areas." The DOD claimed that it would incur excessive costs if special use airspace is extended to 12 nautical miles from the U.S. coast in the form of increased fuel costs for transient flight time and costs affiliated with environmental analysis, etc.

On December 27, 1990, the FAA extended the expiration date of SFAR 53 for an additional 3 years to December 27, 1993. The DOD stated it was continuing to assess the impact of the expansion of the territorial airspace on military operations. The DOD had completed a survey of individual command training and operational requirements for this airspace to determine the areas that should be converted to another form of regulatory or nonregulatory special use airspace. However, development of a proposed airspace configuration was incomplete. Preliminary results indicate that, in a number of areas, there will be a continuing need for special use airspace to provide connectivity for hazardous operation, such as DOD and National Aeronautics and Space Administration (NASA) missile launches, and to encompass existing range resources located between 3 and 12 nautical miles offshore.

A number of events have precluded the DOD from completing its study of operational needs in the airspace over the coastal waters. The magnitude of the task of assessing the training needs of the military in the airspace between 3 and 12 nautical miles from the U.S. coast is in itself a formidable task. However, in the past year a significant number of military bases have been targeted for closure further impacting the projected utilization of warning areas as military aviation units are relocated or eliminated. The FAA acknowledges that the long-range effects of the base closures on military training needs and airspace requirements are difficult to assess. The DOD is in the process of identifying warning area segments that are critical to those training needs, as well as those segments that are no longer needed.

Based on representation from the DOD, the FAA expects to see the DOD recommendations for the disposition of the airspace within 3 to 12 miles off the U.S. coast within 6 to 9 months after the date of this extension. This action continues the effectiveness of SFAR 53 for an additional 24 months to: (1) Prevent any interruption of ongoing military training activity; (2) warn nonparticipating aircraft of possible hazardous activities while permitting the aircraft to fly through such areas; (3) permit the DOD additional time to finalize its airspace analysis and usage projections including any environmental assessments that may be necessary; and, (4) allow the FAA sufficient time to effect rulemaking or other action necessary to implement revision to the current warning areas after receipt of the DOD recommendations.

International Civil Aviation Organization and Joint Aviation Regulations

In keeping with U.S. obligations under the Convention on International Civil Aviation, it is FAA policy to comply with International Civil Aviation Organization Standards and Recommended Practices (SARP) to the maximum extent practicable. The FAA has determined that this rule will not present any differences with the SARP.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1980 (Pub. L. 96–511), there are no requirements for information collection associated with this rule.

Regulatory Evaluation

This SFAR does not alter the provision of air traffic control (ATC) services, nor does it have an impact on ATC system users. This special rule merely allows military training activity to continue without interruption, while permitting nonparticipating pilots to fly through such areas. Accordingly, because the costs of the rule are so minimal, further regulatory evaluation has not been prepared. Although the FAA has initially determined that any possible costs imposed by this amendment will be minimal, we seek comments from the public on the possible impact of this rule.

Regulatory Flexibility Act Determination

The Regulatory Flexibility Act of 1980 (RFA) ensures that government regulations do not needlessly and disproportionately burden small businesses. The RFA requires the FAA to review each rule that may have "a significant economic impact on a substantial number of small entities."

The amendment will not alter the provision of air traffic control (ATC) services, nor will it have an impact on ATC system users. Hence, the amendment will not impose a significant cost on a substantial number of small entities.

Federalism Implications

The amendment set forth herein will not have substantial direct effects on the States, on the relationship between the national government and the States or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Conclusion

For the reasons discussed in the preamble, the FAA has determined that this rule is not a significant regulatory action under Executive Order 12866. In addition, the FAA certifies that this regulation will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. This regulation is not considered significant under DOT Order 2100.5, Policies and Procedures for Simplification, Analysis, and Review of Regulations.

Effective Date of Final Rule

Since this action does not involve a change in the actual dimensions, configuration, or operating requirements of airspace, notice and public procedure under 5 U.S.C. 553(b) are unnecessary. Furthermore, I find that good cause exists, pursuant to 5 U.S.C. 553(d), for making this amendment effective in less than 30 days to avoid confusion on the part of pilots operating in the warning areas.

List of Subjects in 14 CFR Part 73

Aviation safety, Special use airspace.

The Amendment

For the reasons set forth above, the FAA is amending 14 CFR part 73 as follows:

1. The authority citation for part 73 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510, 1522; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

2. By amending Special Federal Aviation Regulation No. 53 to revise the Applicability paragraph (which expires December 27, 1993), to read as follows:

Special Federal Aviation Regulation No. 53—Establishment of Warning Areas in the Airspace Overlying the Waters Between 3 and 12 Nautical Miles From the United States Coast

1. Applicability. This rule establishes warning areas in the same location as nonregulatory warning areas previously designated over international waters. This special regulation does not affect the validity of any nonregulatory warning area which is designated over international waters beyond 12 nautical miles from the coast of the United States. This special regulation expires on January 15, 1996.

Department of the Interior

Fish and Wildlife Service

Conservation of the Northern Spotted Owl; Intent to Prepare an Environmental Impact Statement; Notice

VOL 58 ISS 248 DE 29 1993 UMI

VOL 58 ISS 248 DEC 29 1993 UMI

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Intent to Prepare an Environmental Impact Statement on a Proposed Rule Pursuant to Section 4(d) of the Endangered Species Act for the Conservation of the Northern Spotted Owl

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent and invitation to the scoping process.

SUMMARY: This notice advises the public that the Fish and Wildlife Service (FWS) intends to gather information necessary for the preparation of an Environmental Impact Statement (EIS) for a proposed special rule that would redefine the Federal protective measures for the northern spotted owl (*Strix occidentialis caurina*) on non-Federal lands in California, Oregon, and Washington. The FWS is also in the process of developing additional regulatory guidance regarding the incidental take of marbled murrelets and is actively considering the inclusion of such guidance in the proposed special rule for the northern spotted owl. Although the FWS takes the position that the National Environmental Policy Act (NEPA) does not apply to actions it takes under section 4 of the Endangered Species Act of 1973, as amended (ESA) (see *Pacific Legal Foundation v. Andrus*, 654 F.2d 829 (6th Cir. 1981), in this instance the FWS voluntarily has decided to do an EIS to accompany the proposed section 4(d) rule. This notice is being furnished consistent with the NEPA Regulations (40 CFR 1501.7) to obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS. Public comments and participation in this scoping are solicited.

DATES: Written comments should be received by January 31, 1994.

ADDRESSES: Comments should be addressed to Mr. Marvin Plenert, Regional Director, Region 1, U.S. Fish and Wildlife Service, 911 N.E. 11th Avenue, Portland, Oregon 97232–4181.

FOR FURTHER INFORMATION CONTACT: Mr. H. Dale Hall, Assistant Regional Director, Ecological Services, at the above address (503/231–6159); Mr. Kahler Martinson, EIS Team Leader, U.S. Fish and Wildlife Service (503/231–2254); at the above address; Mr. David C. Frederick, Special Rule Team Leader and State Supervisor, Washington State Office, 3704 Griffin Lane SE., suite 102, Olympia, Washington 98501 (206/753–9440); Mr. Russell Petersen, State Supervisor, U.S. Fish and Wildlife Service, 2600 SE. 98th Avenue, Suite 100, Portland, Oregon 97266 (503/231–6179); or Mr. Wayne S. White, State Supervisor, U.S. Fish and Wildlife Service, 2800 Cottage Way, suite E–1803, Sacramento, California 95825 (916/978–4613).

SUPPLEMENTARY INFORMATION:

Definitions

"Activity center" is used to mean a site containing a nest tree or an area of concentrated breeding activity of a pair or resident single spotted owl. Such an activity center may also be called a "breeding or nesting area." For the purposes of this proposed rule, an activity center encompasses an area within a 1,000-foot radius (70 acres) of a nest site. Criteria for determining activity centers may be found in the Service-endorsed owl survey protocol.

"Adaptive management area" means the ten landscape units that were designated in Option 9 of the report, Forest Ecosystem Management: An Ecological, Economic, and Social Assessment, (USDA *et al.* 1993) for development and testing of technical and social approaches to achieving specific ecological, economic, and other social objectives.

"Dispersal" is defined to mean movements by juvenile spotted owls leaving their natal area to establish their own territory, movement of non-territorial singles, or displaced adults searching for new territories. Successful dispersal requires habitat conditions that provide foraging and roosting habitat and protection from predators during this period of movement.

"Federal reserve" is used to mean those Federal lands identified by the report, Forest Ecosystem Management: An Ecological, Economic, and Social Assessment, (USDA *et al.* 1993) in which timber harvests are either not allowed or are severely limited. There are two types of reserves: late-successional reserves, which encompass older forest stands, and riparian reserves, which consist of protected strips along the banks of rivers, streams, lakes, and wetlands which act as a buffer between these water bodies and areas where timber harvesting is allowed.

"Genetic isolation" means geographic conditions where populations of spotted owls are unable to interbreed (a) because of insufficient quality and/or quantity of dispersal habitat (b) because of natural barriers to dispersal such as mountain ranges and large water bodies, or (c) because the numbers of breeding spotted owls within a geographic area are too small.

"Home range area" means the area a spotted owl uses and traverses in the scope of normal activities to fulfill its biological needs during the course of its life span. For the purpose of this proposed rule, the median annual home range area, by province, are: 14,271 acres for the Olympic Peninsula province; 6,657 acres for the Western and Eastern Washington Cascades provinces; 4,766 acres for the Oregon Coast Ranges provinces; 2,955 acres for Western and Eastern Oregon Cascades; and 3,340 acres for the Oregon-Klamath province and the range of the northern spotted owl in California.

"Matrix" is used to mean those Federal lands outside of the Congressionally and Administratively withdrawn areas, Federal reserves and Adaptive Management Areas identified in the report, Forest Ecosystem Management: An Ecological, Economic, and Social Assessment, (USDA *et al.* 1993). The Matrix is important for providing successful dispersal opportunities for northern spotted owls.

"Nesting, roosting, and foraging habitat" is those areas with the vegetative structure and composition necessary to assure successful nesting, roosting, and foraging activities by northern spotted owls and their prey organisms. The spatial area and distribution of this nesting, roosting, and foraging habitat will vary, given the different topographic, vegetational, and climatic conditions of spotted owl provinces. Habitat with these features is normally referred to as "suitable."

"Province" is used to mean one of eleven geographic areas for the northern spotted owl which have similar sets of biological and physical characteristics and processes; they result from the action of climate and geology that produces common patterns of soils and broad-scale vegetative communities.

Overview

The EIS will evaluate the environmental effects of a FWS proposal to issue a "special rule" pursuant to section 4(d) of the Endangered Species Act of 1973, as amended (ESA), for the northern spotted owl. This special rule would revise the incidental take prohibitions currently applicable to the owl on non-Federal lands pursuant to section 9 of the ESA. The FWS has developed a proposed action and three alternatives for a special rule. The primary focus of the alternatives is on take of northern spotted owls incidental to timber harvests on non-Federal lands in California, Oregon, and Washington. The proposed action and each of the alternatives retains existing prohibitions against interstate and foreign commerce and the intentional killing of the northern spotted owl. Each alternative has differing effects on lands within the range of the northern spotted owl.

Under the proposed action, the FWS would issue a section 4(d) rule that would relieve or reduce Federal prohibitions against the take of northern spotted owls incidental to specific forest management activities on non-Federal lands in specifically identified geographic areas across the range of the owl. The section 4(d) rule would also propose to generally defer to Tribal resource regulations for timber management activities on Indian forest lands within Indian reservations. Moreover, in recognition of the State of California's comprehensive efforts to protect northern spotted owls, the FWS proposes to lift Federal prohibitions against incidental take of northern spotted owls from timber harvests in that State. Timber harvest activities that are conducted in accordance with California law would be freed from having to comply with a separate set of Federal prohibitions regarding incidental take of northern spotted owls. The FWS intends to periodically assess the continued adequacy of California law with regard to the northern spotted owl. If at some point in the future, California law became inadequate for maintaining northern spotted owls well distributed across their range, the FWS would reconsider the need for imposing separate Federal restrictions on the incidental take of the owl.

In Oregon and Washington, the proposed action would retain a high level of protection against the incidental take of northern spotted owls located on non-Federal lands in ten Special Emphasis Areas (SEAs). These areas were chosen to fill in gaps in Federal land ownership in support of the Federal owl conservation strategy outlined in Alternative 9 of the Draft Supplemental Environmental Impact Statement on Management of Habitat for Late-Successional and Old-Growth Forest Related Species Within the Range of the Northern Spotted Owl (Draft SEIS) which is the preferred alternative for managing lands administered by the Forest Service and the Bureau of Land Management within the range of the northern spotted owl. Within these Special Emphasis Areas, timber harvests generally would not be prohibited if they retain at least 40 percent of a home range area of a northern spotted owl as suitable nesting, roosting, and foraging habitat and did not otherwise "harm" an owl as that term is defined by the Fish and Wildlife Service at 50 CFR 17.3. Timber harvests that reduce suitable habitat to below 40 percent of a home range area would risk prosecution if "harm" to an owl occurs.

To develop this Notice of Intent, including a proposed action for a special rule for the northern spotted owl, the FWS considered (a) the level of protection the owl would be provided on Federal lands under Alternative 9 of the Draft SEIS; (b) the range, location, and number of northern spotted owls known to exist on non-Federal lands; and (c) the underlying State regulatory programs for forest practices in California, Oregon, and Washington.

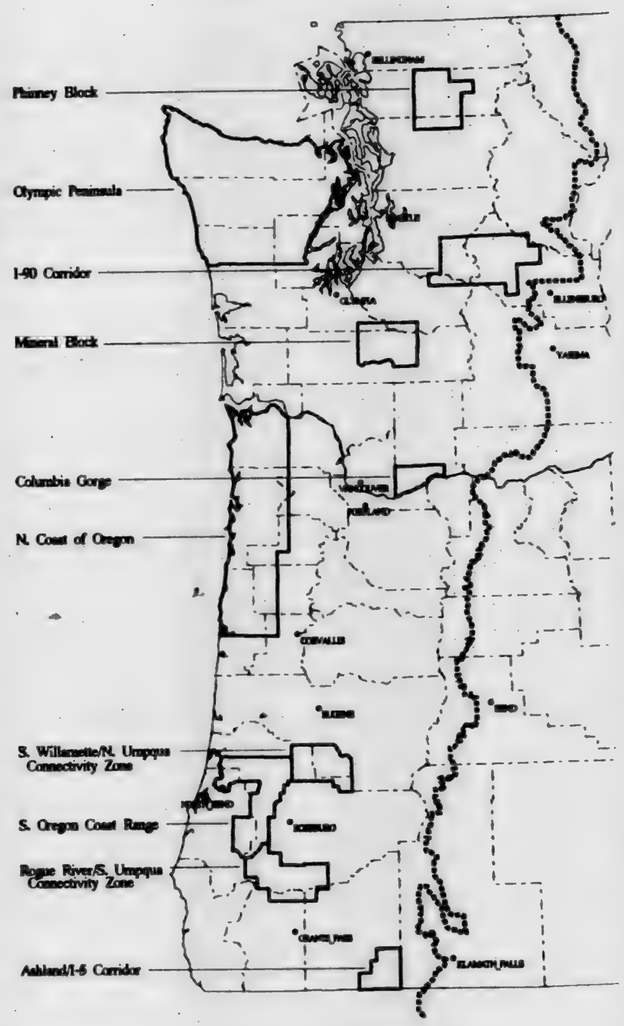
The special rule to be proposed for the northern spotted owl is a direct result of the Forest Conference convened by President Clinton on April 2, 1993. After that conference, the President established a Forest Ecosystem and Management Assessment Team (FEMAT) to develop options for management of forest ecosystems on Federal lands in California, Oregon, and Washington. FEMAT developed ten management options which are outlined in the Team's report, Forest Ecosystem Management: An Ecological, Economic, and Social Assessment (USDA *et al.* 1993). The Bureau of Land Management (BLM), the Forest Service (FS), the Fish and Wildlife Service, the Environmental Protection Agency, and the National Marine Fisheries Service prepared a Draft Supplemental Environmental Impact Statement on Management of Habitat for Late-Successional and Old-Growth Forest Related Species Within the Range of the Northern Spotted Owl (Draft SEIS) on all of the options developed by FEMAT. The Draft SEIS identified Alternative 9 as the preferred alternative.

After assessing the proposed Federal land management strategy outlined in Alternative 9 as it relates to the northern spotted owl, the FWS re-considered the need to maintain existing prohibitions for the northern spotted owl on non-Federal lands. The FWS now intends to propose a special rule that reflects this re-consideration. An environmental impact statement will be prepared for the special rule.

Proposed Action

The FWS has developed a proposed action and three alternative approaches to a special rule for the northern spotted owl. A description of the proposed action and alternatives is included in this notice. Each alternative retains prohibitions against import and export, interstate and foreign commerce, and against the direct take of spotted owls. The alternatives primarily focus on the take of northern spotted owls incidental to timber harvest activities on non-Federal lands in California, Oregon, and Washington. The alternatives differ from each other by the degree to which they retain prohibitions against incidental take of northern spotted owls on non-Federal (that is, State and local government, Tribal, and private) lands.

The proposed action would relieve existing Federal prohibitions against incidental take of northern spotted owls associated with timber harvests on all non-Federal lands in California that are in compliance with State law, and would reduce such prohibitions for non-Federal lands in Oregon and Washington except on lands in ten Special Emphasis Areas (MAP 1). The ten Special Emphasis Areas that are proposed were selected because the Federal land base is inadequate (in terms of habitat quantity, habitat quality, or distribution) in a key area to conserve the northern spotted owl or to connect important populations of northern spotted owls. The Special Emphasis Areas that are proposed would occur in the following areas:



Oregon: The Ashland/I–5 area, south of Ashland, Oregon (MAP 2); the Rogue River/South Umpqua area of Oregon (MAP 3); the South Willamette/Northern Umpqua area (MAP 4); parts of the Southern Oregon Coast Range (MAP 5); and the North Coast Range (MAP 6).

Washington: The Columbia River Gorge (MAP 7); the Mineral Block south of the I–90 corridor (MAP 8); the I–90 corridor where it crosses the Cascade Mountains MAP 9); the Olympic Peninsula (MAP 10); and the Phinney Block (MAP 11).

Special Emphasis Area

BILLING CODE 4310-55-C

On non-Federal lands in these Special Emphasis Areas, timber harvests generally would not be prohibited if they retain at least 40 percent of a home range area of a northern spotted owl as suitable nesting, roosting, and foraging habitat and did not otherwise injure or kill an owl. The sizes of the home ranges to be used, by province, are: 14,271 acres for the Olympic Peninsula province; 6,657 acres for the Western and Eastern Washington Cascades provinces; 4,766 acres for the Oregon Coast Range province; 2,955 acres for Western and Eastern Oregon Cascades, and 3,340 acres for the Oregon Klamath province.

The take of northern spotted owls incidental to timber harvests on non-Federal lands in Oregon and Washington that are located outside of the Special Emphasis Areas would be prohibited if such harvests occurred within the 70 acres surrounding an active northern spotted owl nest. Thus, all existing habitat would have to be retained within 1,000 feet (70 acres) from an active northern spotted owl activity center, and any harvest within 0.25 miles would be subject to seasonal restrictions. Restrictions within the 70 acres would remain in place until surveys indicate that the sites are unoccupied (per Fish and Wildlife Service Owl Survey Protocol).

A different approach would be taken with regard to non-Federal lands in California. California laws that apply to timber harvests in suitable habitat for the northern spotted owl provide significant conservation benefits to the owl. In recognition of the conservation contributions of these laws and regulations, the FWS proposes to impose no separate Federal restrictions or prohibitions for timber harvests that are conducted in accordance with applicable California law.

Similarly, the FWS recognizes the owl conservation contributions of the timber harvest practices of various Indian Nations, such as the Yakima Indian Nation in Washington and the Warm Springs Indian Tribe in Oregon. The FWS also recognizes that other Indian forest lands managed by Indian Nations may provide marginal habitat for the northern spotted owl. In recognition of these circumstances, the Secretary's trust responsibility for Native Americans, and the development and proposal of an unprecedented Federal land based strategy for the conservation of the spotted owl, the FWS proposes generally to eliminate Federal prohibitions against the take of the northern spotted owl incidental to timber harvests on Indian forest lands (as that term is defined at 25 CFR 163.1) in California, Oregon and Washington. Prohibitions under Tribal law would continue to apply.

Incidental Take of Northern Spotted Owls on Federal Lands

Timber harvest activities on Federal lands are subject to the section 7 consultation process of the ESA. Biological opinions under section 7 will deal with the issue of take on Federal lands.

Alternatives Considered

The FWS has identified three alternatives to the proposed action. Each alternative describes a different approach to prohibiting take of the northern spotted owl on Federal and non-Federal lands.

Alternative A (No Action): Retain All Current Prohibitions Against Taking

When the northern spotted owl was listed as a threatened species (on June 26, 1990 (55 FR 26114)), the FWS did not promulgate special regulations for the species under section 4(d) of the ESA. As a result, the prohibitions for endangered species, including prohibitions against take, became applicable to the northern spotted owl pursuant to 50 CFR 17.31. Under this alternative, existing prohibitions against any incidental taking of the northern spotted owl on Federal and non-Federal lands would remain in place and would not be reduced or relieved through the proposed special rule. An incidental take permit could be sought under existing FWS procedures.

For section 7 consultation on Federal actions, the FWS and Federal action agencies use information on the amount and condition of nesting, roosting, and foraging habitat within an area that approximates the home range of resident northern spotted owls in order to anticipate incidental take. Estimated home range areas for northern spotted owls vary by province and are based on local data collected from radio-telemetered spotted owls. Incidental take of northern spotted owls is anticipated when the amount of nesting, roosting, and foraging habitat drops to levels where studies indicate it is likely to affect the survival or reproductive capabilities of the individual spotted owls.

The risk of incidental take from activities on non-Federal lands is evaluated on a case-by-case basis. To evaluate the risk, the FWS examines, among other factors, the effect of the proposed action on habitat condition, habitat quantity, the degree of habitat fragmentation, and the history of known resident spotted owls in the vicinity of the action.

Alternative B: Eliminate All Current Prohibitions Against Taking on All Non-Federal and Some Federal Lands

Under this alternative, the FWS would promulgate a special rule pursuant to section 4(d) under which all take of northern spotted owls incidental to timber harvest activities on non-Federal lands would be authorized under the ESA. The special rule would retain all other prohibitions against import, export, interstate and foreign commerce, and some forms of take (e.g., killing, wounding, hunting, trapping, capture, collection) for the northern spotted owl.

Under Alternative B, prohibitions against taking northern spotted owls incidental to timber harvests would remain for Federal lands contained in the Federal reserves, riparian reserves, and Adaptive Management Areas proposed under Alternative 9 of the Draft SEIS.

Alternative C: Reduce Existing Prohibitions Against Incidental Taking on Non-Federal Lands Except in an Expanded List of Special Emphasis Areas

This alternative differs from the proposed action primarily in the number and location of Special Emphasis Areas in Oregon and Washington. This alternative would retain all existing prohibitions against taking northern spotted owls on Federal lands. This alternative would also retain prohibitions against incidental take on some Indian reservations. This alternative includes the following Special Emphasis Areas:

Oregon: The North Coast Range; parts of the Southern Oregon Coast Range; the South Willamette/North Umpqua area; the Rogue River/South Umpqua area of Oregon; the Ashland/I–5 area, south of Ashland, Oregon; the Santiam Pass area along the Oregon State Highway 20 east of Sweet Home; the Santiam River area east of Stayton; the McKenize River area along McKenize River east of Springfield; the Hood River area south of Hood River; and the Southeast Cascades area west of Klamath Falls.

Washington: The Olympic Peninsula; the Phinney Block; the I–90 corridor where it crosses the Cascade Mountains; the Mineral Block south of the I–90 corridor; the Columbia River Gorge; the Green River area near the Green River within Mount St. Helens National Monument; the Blewett Pass area in the vicinity of Swak Pass along State highway 97; the Southern Puget Sound East area extending east from Interstate

5 through Fort Lewis Military Reservation; the Yakima Indian Reservation area; the Siouxon Creek area along the upper reach of the Lewis River and Swift Creek Reservoir; the Sugarloaf Peak and Leavenworth Reserves area located north of the town of Leavenworth; the Edwards Peak area south of the Town of Leavenworth; the White Salmon area; the Entiat Ridge area; the Southwest Washington Lowlands Province; and the Bowman Mountain East area located east of the Town of Clipper.

On non-Federal lands in these Special Emphasis Areas, timber harvests would be subject to the same incidental take as are described in the proposed action noted previously.

Under this alternative, take of northern spotted owls incidental to timber harvest on non-Federal lands outside of Special Emphasis Areas would be subject to the same reduced restrictions as set forth in the proposed action for such areas.

Significant Issues To Be Addressed in the EIS

The environmental impact statement will discuss the environmental impacts of the proposed and alternate 4(d) rule formulations for the range of the northern spotted owl in California, Oregon, and Washington. The range of the northern spotted owl is the same as that defined in the Draft SEIS, and is the area generally bounded by the Canadian border, the Pacific Ocean, the eastern side of the Cascade Range, and Marin County, California.

A wide number of species are associated with the forests that provide habitat for the northern spotted owl. These species include, among others, such federally-listed species as the marbled murrelet, bald eagle, grizzly bear, and gray wolf, and a large number of additional species that are candidates for Federal listing as threatened or endangered. The EIS will assess the effects of the proposed section 4(d) rule on these species. This assessment will be approached by considering the effects of the proposed section 4(d) rule on the forest ecosystems associated with these species; this approach should help the EIS address concerns about conservation of biodiversity and the need to prevent future imperilment of species that are associated with the late-successional and old-growth forests of the Pacific northwest.

Similarly, a large number of human communities and individuals are dependent upon the forests that provide habitat for the northern spotted owl. The proposed EIS will also address concerns about the social and economic effects of the proposed action and each of the alternatives to the section 4(d) rule for the northern spotted owl.

The FWS has identified the following significant environmental effects of the proposed section 4(d) rule for the northern spotted owl to be addressed in the EIS:

- Effects on the northern spotted owl, including its recovery.
- Effects on late-successional and old growth forests in the range of the northern spotted owl.
- Effects on other listed, proposed, and candidate species associated with late-successional and old growth forests in the range of the northern spotted owl.
- Effects on the conservation of stocks of salmonids (particularly anadromous stocks) within the range of the northern spotted owl.
- Effects on non-listed terrestrial wildlife and their habitats within the range of the northern spotted owl.
- Effects on aquatic species and their habitats within the range of the northern spotted owl.
- Effects on soil conservation in the range of the northern spotted owl.
- Effects on water and air quality in the range of the northern spotted owl.
- Effects on Native American peoples in the range of the northern spotted owl.
- Effects on cultural and historical resources in the range of the northern spotted owl.
- Effects on communities, large or small, that depend upon timber harvests in the range of the northern spotted owl.
- Effects on national, regional, State, and local economies.
- Effects on import and export markets.
- Cumulative effects of the proposed action, with other actions, within the range of the northern spotted owl.

Background

The Northern Spotted Owl

The FWS published a proposal to list the northern spotted owl as a threatened species on June 23, 1989 (54 FR 26666). On June 26, 1990 (55 FR 26114), the FWS listed the northern spotted owl as a threatened species. The northern spotted owl was listed as a threatened species primarily because of the loss and adverse modification of suitable habitat throughout its range. In the early to mid-1800s western Washington and Oregon were covered by an estimated 24 to 28 million acres of forest of which 70 percent may have been old growth (Spies and Franklin 1991). Historical estimates of forested habitat in northern California are 1.3 to 3.2 million acres of old-growth Douglas-fir or mixed conifer forests and about 2.2 million acres of old growth coastal redwood forests.

Over the past 190 years, these forests and suitable habitat for the northern spotted owl are estimated to have declined by as much as 88 percent (Spies and Franklin 1991, Thomas *et al* 1990). When habitat fragmentation, reduction in individual stand size, and edge effects are considered, the amount of nesting, roosting, and foraging habitat remaining may be less than 50 percent of the remaining old growth forest. This reduction in habitat is primarily attributable to timber harvesting and land conversion practices although natural perturbations, such as forest fires, have caused habitat loss as well. Approximately 90 percent of suitable habitat for northern spotted owls now occurs on public land (Thomas *et al.* 1990).

The inadequacy of existing regulatory mechanisms under State and Federal laws and regulations also contributed to the decision to list the northern spotted owl as a threatened species. Even today, the degree of protection accorded the northern spotted owl varies under State laws. The northern spotted owl is listed under Washington law as an endangered species, under Oregon law as threatened, and under California law as a sensitive species.

Overutilization and disease were lesser factors in the decision to list the spotted owl as threatened species under the ESA. However, predation by great horned owls (*Bufo virginianus*) was cited as a major source of mortality in northern spotted owls (Dawson *et al.* 1986, Simberloff 1987). The effects of great horned owls on the northern spotted owl were at least partially related to forest fragmentation: northern spotted owls are exposed to greater predation by great horned owls as they move across open terrain or within forests edges where great horned owls are more numerous.

Critical Habitat for the Northern Spotted Owl

The FWS published a proposed critical habitat designation for the northern spotted owl on May 6, 1991 (56 FR 20816). On August 31, 1991 (56 FR 40001), the FWS published a revised critical habitat proposal which superseded the previous proposal. On January 15, 1992 (57 FR 1796), the FWS designated critical habitat for the northern spotted owl encompassing 6.9 million acres of Federal land in the States of California, Oregon, and Washington. Non-Federal lands were not included in the designation. Identification of critical habitat into discrete units were based, with some modifications, on the conceptual framework in the Interagency Scientific

Committee's report (Thomas *et al.* 1990).

Lands were included in the critical habitat designation when management considerations to benefit the northern spotted owl needed to be given highest priority. The critical habitat designation concentrated on the quantity and quality of habitat that was believed to be suitable for the nesting, roosting, and foraging needs of the northern spotted owl, particularly when that habitat occurred in large, contiguous blocks of land. The areas that were designated critical habitat were also selected to minimize dispersal distances between adjacent units of suitable habitat.

The Proposed Forest Ecosystem Management Plan

After the April 2, 1993, Forest Conference in Portland, Oregon, the President established a Forest Ecosystem Management Assessment Team (FEMAT) to develop options for management of forest ecosystems on Federal lands in California, Oregon, and Washington. FEMAT developed ten management options which are outlined in the Team's report, Forest Ecosystem Management: An Ecological, Economic, and Social Assessment.

On July 1, 1993, the President identified Alternative 9 as his preferred alternative for resource management on Federal lands. A final decision has yet to be made. This awaits completion of the NEPA process. The management strategy proposed under Alternative 9 is based on a system of Congressional reserves, administratively withdrawn areas and late-successional reserves, riparian reserves, Adaptive Management Areas, and a matrix of other Federal lands.

Alternative 9 would change the management prescriptions for Federal forest lands within the range of the northern spotted owl. In most instances, Federal management prescriptions associated with Alternative 9 are much more strict than current land management prescriptions that protect the owl; in other instances, Federal management prescriptions associated with Alternative 9 are less strict than current prohibitions.

The SEIS

The Bureau of Land Management, the Forest Service, the Fish and Wildlife Service, the Environmental Protection Agency, and the National Marine Fisheries Service prepared a Draft Supplemental Environmental Impact Statement on Management of Habitat for Late-Successional and Old-Growth Forest Related Species Within the Range of the Northern Spotted Owl (Draft SEIS) to present the options in the FEMAT report to the public. Each option is presented as an alternative in the Draft SEIS, with disclosure of the environmental consequences of each alternative. The Final SEIS is currently being prepared and will be available in March 1994. The Fish and Wildlife Service intends to closely coordinate the preparation of the draft EIS for the section 4(d) rule with the review of public comments received on the Draft SEIS for FEMAT. To the extent the strategy for Federal lands ultimately adopted differs from the preferred alternative, such differences will be addressed in the EIS on the section 4(d) rule.

Overview of Alternative 9

In its current form, Alternative 9 proposes a network of Federal reserves totalling over 18 million acres of Federal lands in California, Oregon, and Washington. That total includes 7.1 million acres of late-successional reserves, 2.2 million acres of riparian reserves, 7.0 million acres of Congressional reserves, and 1.7 million acres of administratively withdrawn areas.

The Federal reserves proposed with Alternative 9 would provide 5.6 million acres of suitable nesting, roosting, and foraging habitat for the northern spotted owl. The Congressional reserve provide 1.6 million acres, the administratively withdrawn areas provide 0.4 million acres, the late-successional reserves provide 3.0 million acres, and the riparian reserves provide 0.6 million acres. Seventy-three percent of the 7.6 million Federal acres of nesting, roosting, and foraging habitat for the northern spotted owl is in reserve.

Additionally, the Federal reserves proposed with Alternative 9 would provide 2.1 million acres of marbled murrelet nesting habitat. The Congressional reserves provide 0.7 million acres, the administratively withdrawn areas provide 0.1 million acres, the late-successional reserves provide 1.1 million acres, and the riparian reserves provide 0.2 million acres. Eighty-one percent of the 2.6 million Federal acres of nesting habitat for the marbled murrelet is in reserve.

Timber harvests would not be allowed in reserves under Alternative 9, except for some thinning or salvage of timber in the late-successional reserves if it would be beneficial to the maintenance or creation of late-successional forest conditions.

Timber harvests would not be allowed in riparian reserves under Alternative 9, and agencies would be required to minimize the effects of other resource activities in these reserves. These riparian reserves would eventually provide a considerable amount of late-successional forest because they represent approximately 31 percent of the lands in the matrix. Based on current information, approximately 28 percent of the riparian reserves currently provide suitable nesting, roosting, and foraging habitat for spotted owls, and 54 percent of the riparian reserves provide suitable dispersal habitat for spotted owls.

Alternative 9 also proposes placing an additional 1.5 million acres of Federal land in ten special "Adaptive Management Areas." Management activities in these Adaptive Management Areas would emphasize innovative forestry techniques with the goals of speeding attainment of late-successional characteristics and on restoring watersheds. Nesting, roosting, and foraging habitat for the northern spotted owl represents approximately 0.4 million acres of the lands that are proposed for Adaptive Management Areas.

In summary, Alternative 9, as currently proposed, would provide conditions on Federal lands that would contribute significantly to the conservation needs of the northern spotted owl. In areas where the Federal contribution is limited by lack of Federal forest lands, non-Federal forest lands continue to play an important role in the conservation of the species.

The Relationship of the Section 4(d) EIS to the SEIS

The respective proposed actions subject to analysis in the Draft SEIS for Federal lands and EIS for the 4(d) rule are different. The scope of the Draft SEIS is direction concerning old-growth forest management activities on Federal lands within the range of the northern spotted owl. Specifically, the Draft SEIS identifies and analyzes ten alternative strategies for amending management of old-growth forest lands administered by the Bureau of Land Management (BLM) and the Forest Service within the range of the northern spotted owl. The anticipated scope of the 4(d) EIS is direction concerning removal or revision of the incidental take prohibitions currently in place for the northern spotted owl. The alternatives for the 4(d) EIS are set forth above.

Notwithstanding the different proposed actions that are the bases of their preparation, the EIS' both will address, among other things, effects on the northern spotted owl and/or its habitat. Consequently, the EIS' likely will rely upon the same or similar information and overlap to a certain

VOL 58 ISS 248 DEC 29 1993 UMI

degree. To avoid unnecessary repetition and proliferation of paper, the EIS on the 4(d) rule may incorporate by reference some of the analysis contained in the Federal lands SEIS. Nevertheless, both EIS' will reflect consideration of cumulative effects consistent with NEPA regulations on the basis of the best information available at the time of their respective preparation.

Section 4(d) of the Endangered Species Act

Section 9 of the ESA prohibits "take" of endangered species. "Take" is defined in section 3(18) of the ESA to mean "harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct." "Harass" in the definition of "take" in the ESA means an intentional or negligent act or omission which creates the likelihood of injury to wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering (50 CFR 17.3). "Harm" in the definition of "take" has been interpreted in regulation to mean an action that actually kills or injures wildlife. Such an action may include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, or sheltering (50 CFR 17.3).

The ESA automatically provides endangered species with all of the protections against take. However, the FWS has more flexibility to manage threatened species. Section 4(d) and its implementing regulation (50 CFR 17.31) give the FWS authority to issue regulations that provide threatened species with some, all, or different prohibitions than those provided in section 9 of the ESA. Section 4(d) provides:

Whenever any species is listed as a threatened species * * *, the Secretary shall issue such regulations as he deems necessary and advisable to provide for the conservation of such species. The Secretary may by regulation prohibit with respect to any threatened species any act prohibited under section 9(a)(1) * * * with respect to endangered species.

Under 50 CFR 17.31, the prohibitions applicable to endangered species under section 9(a) automatically apply to each threatened species unless the FWS publishes a "special" regulation under section 4(d) of the ESA establishing a different set of prohibitions for the species. Congress intended section 4(d) to provide the Secretary with broad flexibility to tailor protective regulations for a threatened species to suit the particular needs of the species:

"Once an animal is on the threatened list, the Secretary has an almost infinite number of options available to him with regard to the permitted activities for those species. He may, for example, permit taking, but not importation of the species, or he may choose to forbid both taking and importation but allow the transportation of such species." (H.R. Rep. No. 412, 93d Cong. 1st Sess. 12 (1973)).

A section 4(d) rule can be used to secure the protection of a species, while providing needed regulatory flexibility to minimize unnecessary or inappropriate restrictions on otherwise lawful activity. However, that flexibility is not unlimited. The FWS has interpreted the ESA as requiring that section 4(d) regulations advance the conservation of the species, provide a net benefit to the species, and not preclude the recovery of the species.

Previous Section 4(d) Rules

The FWS has issued section 4(d) rules for several threatened species. For example, the FWS permitted a Federal program to control the amount of livestock lost to the threatened population of the gray wolf (*Canis lupus*) in Minnesota. The FWS justified the section 4(d) rule for the wolf because it would lessen public hostility toward the wolf, which would improve the chances of protecting the wolf in the long term (see 50 CFR 17.40(d)).

The FWS issued a section 4(d) rule that allows limited take of the Louisiana black bear (*Ursus americanus*) incidental to normal forest practices on private land and in accordance with a management plan. In this case, removal of mature trees can result in newly opened clearings that help to create food and shelter for the bear, such as meadows, berry patches and young trees (see 50 CFR 17.40(i); 57 FR 588, 593).

More recently, on December 10, 1993 (58 FR 16758), the FWS proposed a section 4(d) rule that would authorize limited take of the threatened coastal California gnatcatcher (*Polioptila californica californica*) incidental to specific activities undertaken in its habitat. To be exempt from the take releases the remainder to other land uses.

To identify a proposed action for a section 4(d) rule for the northern spotted owl, the FWS has considered the benefits that the unprecedented Federal land management scheme recommended by Alternative 9 of the Draft SEIS would provide to the northern spotted owl. The FWS also considered the contribution of other mechanisms to protect the northern spotted owl. Examples of these mechanisms include the critical habitat that has been designated for the northern spotted owl, and Federal, State, and the possibility of private landowner habitat management plans designed to protect and conserve federally listed species within the range of the northern spotted owl.

As with the coastal California gnatcatcher, the FWS has given particular attention to State protective land management plans that affect large portions of the range of the owl. As with the Louisiana black bear, the FWS has also taken into account private landowner management plans that have been developed or are likely to be developed and are protective of the northern spotted owl.

Public Comments Solicited

The FWS solicits public comments on the scope of the issues to be addressed in the EIS for a section 4(d) rule for the northern spotted owl. In particular, the FWS seeks specific comments on:

(1) Biological, commercial, trade, or other relevant data on the distribution and abundance of the northern spotted owl on non-Federal lands in California, Oregon, and Washington;

(2) Biological, commercial, trade, or other relevant data on the distribution and abundance of the northern spotted owl that identifies the effects of the alternatives for a section 4(d) rule on northern spotted owl;

(3) The scope of the issues that have been identified for the environmental impact statement on a proposed special rule;

(4) The range of alternatives that have been identified for the environmental impact statement on a proposed special rule;

(5) The FWS is considering including provisions in a section 4(d) rule which would provide further guidance on avoiding the incidental take of the marbled murrelet (*Brachyramphus marmoratus marmoratus*), which is listed as a threatened species. A special rule that included both the spotted owl and the marbled murrelet would allow the FWS to address two species that are associated with similar forest ecosystems at the same time. The FWS seeks particular input and public comment on how suitable habitat for the marbled murrelet should be identified and how should it be protected, and data on the distribution and abundance of the marbled murrelet on non-Federal land in California, Oregon, and Washington;

(6) The FWS is considering several optional management provisions for non-Federal landowners in Special Emphasis Areas. One would allow them to propose refinements in prohibitions against take of northern spotted owls incidental to timber harvests based on site-specific information. This "local option" would allow individuals to propose adjustment to prohibitions against take of northern spotted owls without going through the normal habitat conservation planning process. If a "local option" is included in a proposed section 4(d) rule for the northern spotted owl, the FWS is likely to propose specific acreage limits and procedural requirements. An additional optional management provision would allow non-Federal landowners in Special Emphasis Areas to adopt the matrix management standards and guidelines applicable to Federal lands in the Special Emphasis Area. The FWS seeks public comment on these options;

(7) The FWS is also considering the implications of a special rule on small, fully independent, private forest land ownerships. There may be situations where it would be warranted to exempt small (e.g., ten acres or smaller) plots of non-commercial forest land from the prohibitions of this proposed rule to avoid undue economic hardship. The FWS solicits comments on this proposal both as to its feasibility and its environmental effects;

(8) The FWS seeks public comment on the boundaries of the Special Emphasis Areas in the proposed action, including impacts and effects of alternative boundaries, if suggested;

(9) The FWS seeks public comment on possible mitigation measures, such as multi-species Habitat Conservation Plans (HCPs) or conservation agreements that provide long-term, enforceable, and protective land management prescriptions for non-Federal lands; and

(10) The FWS seeks public comment on whether to retain Federal incidental take restrictions for Indian forest lands included within the boundary of a Special Emphasis Area.

The environmental review for this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4371 et seq.), NEPA regulations (40 CFR Part 1500–1508), other applicable Federal regulations, and FWS procedures for compliance with those regulations.

The FWS will distribute a flyer summarizing this notice of intent to individuals receiving and commenting on the Draft Supplemental Environmental Impact Statement on Management of Habitat for Late-Successional and Old-Growth Forest Related Species Within the Range of the Northern Spotted Owl. This flyer will contain a comment sheet to facilitate public comments.

Title 3—

The President

Executive Order 12888 of December 23, 1993

Amendments to the Manual for Courts-Martial, United States, 1984

By the authority vested in me as President by the Constitution and the laws of the United States of America, including chapter 47 of title 10, United States Code (Uniform Code of Military Justice, 10 U.S.C. 801–946), in order to prescribe amendments to the Manual for Courts-Martial, United States, 1984, prescribed by Executive Order No. 12473, as amended by Executive Order No. 12484, Executive Order No. 12550, Executive Order No. 12586, Executive Order No. 12708, and Executive Order No. 12767, it is hereby ordered as follows:

Section 1. Part II of the Manual for Courts-Martial, United States, 1984, is amended as follows:

a. R.C.M. 109 is amended to read as follows:

"(a) *In general.* Each Judge Advocate General is responsible for the professional supervision and discipline of military trial and appellate military judges, judge advocates, and other lawyers who practice in proceedings governed by the code and this Manual. To discharge this responsibility each Judge Advocate General may prescribe rules of professional conduct not inconsistent with this rule or this Manual. Rules of professional conduct promulgated pursuant to this rule may include sanctions for violations of such rules. Sanctions may include but are not limited to indefinite suspension from practice in courts-martial and in the Courts of Military Review. Such suspensions may only be imposed by the Judge Advocate General of the armed service of such courts. Prior to imposing any discipline under this rule, the subject of the proposed action must be provided notice and an opportunity to be heard. The Judge Advocate General concerned may upon good cause shown modify or revoke suspension. Procedures to investigate complaints against military trial judges and appellate military judges are contained in subsection (c) of this rule.

(b) *Action after suspension or disbarment.* When a Judge Advocate General suspends a person from practice or the Court of Military Appeals disbars a person, any Judge Advocate General may suspend that person from practice upon written notice and opportunity to be heard in writing.

(c) *Investigation of judges.*

(1) *In general.* These rules and procedures promulgated pursuant to Article 6a are established to investigate and dispose of charges, allegations, or information pertaining to the fitness of a military trial judge or appellate military judge to perform the duties of the judge's office.

(2) *Policy.* Allegations of judicial misconduct or unfitness shall be investigated pursuant to the procedures of this rule and appropriate action shall be taken. Judicial misconduct includes any act or omission that may serve to demonstrate unfitness for further duty as a judge, including but not limited to violations of applicable ethical standards.

(3) *Complaints.* Complaints concerning a military trial judge or appellate military judge will be forwarded to the Judge Advocate General of the service concerned or to a person designated by the Judge Advocate General concerned to receive such complaints.

(4) *Initial action upon receipt of a complaint.* Upon receipt, a complaint will be screened by the Judge Advocate General concerned or by the individual designated in subsection (c)(3) of this rule to receive complaints. An initial inquiry is necessary if the complaint, taken as true, would constitute judicial misconduct or unfitness for further service as a judge. Prior to the commencement of an initial inquiry, the Judge Advocate General concerned shall be notified that a complaint has been filed and that an initial inquiry will be conducted. The Judge Advocate General concerned may temporarily suspend the subject of a complaint from performing judicial duties pending the outcome of any inquiry or investigation conducted pursuant to this rule. Such inquiries or investigations shall be conducted with reasonable promptness.

(5) *Initial inquiry.*

(A) *In general.* An initial inquiry is necessary to determine if the complaint is substantiated. A complaint is substantiated upon finding that it is more likely than not that the subject judge has engaged in judicial misconduct or is otherwise unfit for further service as a judge.

(B) *Responsibility to conduct initial inquiry.* The Judge Advocate General concerned, or the person designated to receive complaints under subsection (c)(3) of this rule, will conduct or order an initial inquiry. The individual designated to conduct the inquiry should, if practicable, be senior to the subject of the complaint. If the subject of the complaint is a military trial judge, the individual designated to conduct the initial inquiry should, if practicable, be a military trial judge or an individual with experience as a military trial judge. If the subject of the complaint is an appellate military judge, the individual designated to conduct the inquiry should, if practicable, have experience as an appellate military judge.

(C) *Due process.* During the initial inquiry, the subject of the complaint will, at a minimum, be given notice and an opportunity to be heard.

(D) *Action following the initial inquiry.* If the complaint is not substantiated pursuant to subsection (c)(5)(A) of this rule, the complaint shall be dismissed as unfounded. If the complaint is substantiated, minor professional disciplinary action may be taken or the complaint may be forwarded, with findings and recommendations, to the Judge Advocate General concerned. Minor professional disciplinary action is defined as counselling or the issuance of an oral or written admonition or reprimand. The Judge Advocate General concerned will be notified prior to taking minor professional disciplinary action or dismissing a complaint as unfounded.

(6) *Action by the Judge Advocate General.*

(A) *In general.* The Judge Advocates General are responsible for the professional supervision and discipline of military trial and appellate military judges under their jurisdiction. Upon receipt of findings and recommendations required by subsection (c)(5)(D) of this rule the Judge Advocate General concerned will take appropriate action.

(B) *Appropriate Actions.* The Judge Advocate General concerned may dismiss the complaint, order an additional inquiry, appoint an ethics commission to consider the complaint, refer the matter to another appropriate investigative agency or take appropriate professional disciplinary action pursuant to the rules of professional conduct prescribed by the Judge Advocate General under subsection (a) of this rule. Any decision of a Judge Advocate General, under this rule, is final and is not subject to appeal.

(C) *Standard of Proof.* Prior to taking professional disciplinary action, other than minor disciplinary action as defined in subsection (c)(5)(D) of this rule, the Judge Advocate General concerned shall find, in writing, that the subject of the complaint engaged in judicial misconduct or is otherwise unfit for continued service as a military judge, and that such misconduct or unfitness is established by clear and convincing evidence.

(D) *Due process.* Prior to taking final action on the complaint, the Judge Advocate General concerned will ensure that the subject of the complaint is, at a minimum, given notice and an opportunity to be heard.

(7) *The Ethics Commission.*

(A) *Membership.* If appointed pursuant to subsection (c)(6)(B) of this rule, an ethics commission shall consist of at least three members. If the subject of the complaint is a military trial judge, the commission should include one or more military trial judges or individuals with experience as a military trial judge. If the subject of the complaint is an appellate military judge, the commission should include one or more individuals with experience as an appellate military judge. Members of the commission should, if practicable, be senior to the subject of the complaint.

(B) *Duties.* The commission will perform those duties assigned by the Judge Advocate General concerned. Normally, the commission will provide an opinion as to whether the subject's acts or omissions constitute judicial misconduct or unfitness. If the commission determines that the affected judge engaged in judicial misconduct or is unfit for continued judicial service, the commission may be required to recommend an appropriate disposition to the Judge Advocate General concerned.

(8) *Rules of procedure.* The Secretary of Defense or the Secretary of the service concerned may establish additional procedures consistent with this rule and Article 6a."

b. R.C.M. 305(f) is amended to read as follows:

"*Military Counsel.* If requested by the prisoner and such request is made known to military authorities, military counsel shall be provided to the prisoner before the initial review under subsection (i) of this rule or within 72 hours of such a request being first communicated to military authorities, whichever occurs first. Counsel may be assigned for the limited purpose of representing the accused only during the pretrial confinement proceedings before charges are referred. If assignment is made for this limited purpose, the prisoner shall be so informed. Unless otherwise provided by regulations of the Secretary concerned, a prisoner does not have a right under this rule to have military counsel of the prisoner's own selection.".

c. R.C.M. 305(h)(2)(A) is amended to read as follows:

"(A) *Decision.* Not later than 72 hours after the commander's ordering of a prisoner into pretrial confinement, or after receipt of a report that a member of the commander's unit or organization has been confined, whichever situation is applicable, the commander shall decide whether pretrial confinement will continue.".

d. R.C.M. 305(i)(1) is amended to read as follows:

"(1) *In general.* A review of the adequacy of probable cause to believe the prisoner has committed an offense and of the necessity for continued pretrial confinement shall be made within 7 days of the imposition of confinement under military control. If the prisoner was apprehended by civilian authorities and remains in civilian custody at the request of military authorities, reasonable efforts will be made to bring the prisoner under military control in a timely fashion. In calculating the number of days of confinement for purposes of this rule, the initial date of confinement shall count as one day and the date of the review shall also count as one day.".

e. R.C.M. 405(i) is amended to read as follows:

"(i) *Military Rules of Evidence.* The Military Rules of Evidence—other than Mil. R. Evid. 301, 302, 303, 305, 412, and Section V—shall not apply in pretrial investigations under this rule.".

f. R.C.M. 701(g)(3)(C) is amended to read as follows:

VOL 58 ISS 248 DEC 29 1993 UMI

"(C) Prohibit the party from introducing evidence, calling a witness, or raising a defense not disclosed; and".

g. R.C.M. 704(e) is amended to read as follows:

"(e) *Decision to grant immunity.* Unless limited by superior competent authority, the decision to grant immunity is a matter within the sole discretion of the appropriate general court-martial convening authority. However, if a defense request to immunize a witness has been denied, the military judge may, upon motion of the defense, grant appropriate relief directing that either an appropriate general court-martial convening authority grant testimonial immunity to a defense witness or, as to the affected charges and specifications, the proceedings against the accused be abated, upon findings that:

(1) The witness intends to invoke the right against self-incrimination to the extent permitted by law if called to testify; and

(2) The Government has engaged in discriminatory use of immunity to obtain a tactical advantage, or the Government, through its own overreaching, has forced the witness to invoke the privilege against self-incrimination; and

(3) The witness' testimony is material, clearly exculpatory, not cumulative, not obtainable from any other source and does more than merely affect the credibility of other witnesses.".

h. R.C.M. 910(a)(1) is amended to read as follows:

"(1) *In general.* An accused may plead as follows: guilty; not guilty to an offense as charged, but guilty of a named lesser included offense; guilty with exceptions, with or without substitutions, not guilty of the exceptions, but guilty of the substitutions, if any; or, not guilty. A plea of guilty may not be received as to an offense for which the death penalty may be adjudged by the court-martial.".

i. R.C.M. 918(a)(1) is amended to read as follows:

"(1) *As to a specification.* General findings as to a specification may be: guilty; not guilty of an offense as charged, but guilty of a named lesser included offense; guilty with exceptions, with or without substitutions, not guilty of the exceptions, but guilty of the substitutions, if any; not guilty only by reason of lack of mental responsibility; or, not guilty. Exceptions and substitutions may not be used to substantially change the nature of the offense or to increase the seriousness of the offense or the maximum punishment for it.".

j. R.C.M. 920(b) is amended to read as follows:

"(b) *When given.* Instructions on findings shall be given before or after arguments by counsel, or at both times, and before the members close to deliberate on findings, but the military judge may, upon request of the members, any party, or sua sponte, give additional instructions at a later time.".

k. R.C.M. 1103(g)(1)(A) is amended to read as follows:

"*In general.* In general and special courts-martial which require a verbatim transcript under subsections (b) or (c) of this rule and are subject to review by a Court of Military Review under Article 66, the trial counsel shall cause to be prepared an original and four copies of the record of trial. In all other general and special courts-martial the trial counsel shall cause to be prepared an original and one copy of the record of trial.".

Sec. 2. Part III of the Manual for Courts-Martial, United States, 1984, is amended as follows:

a. Mil. R. Evid. 311(e)(2) is amended to read as follows:

"(2) *Derivative Evidence.* Evidence that is challenged under this rule as derivative evidence may be admitted against the accused if the military judge finds by a preponderance of the evidence that the evidence was not obtained as a result of an unlawful search or seizure, that the evidence ultimately would have been obtained by lawful means even if the unlawful search or seizure had not been made, or that the evidence was obtained by officials who reasonably and with good faith relied on the issuance of an authorization to search, seize, or apprehend or a search warrant or an arrest warrant. Notwithstanding other provisions of this Rule, an apprehension made in a dwelling in a manner that violates R.C.M. 302(d)(2)&(e) does not preclude the admission into evidence of a statement of an individual apprehended provided (1) that the apprehension was based on probable cause, (2) that the statement was made subsequent to the apprehension at a location outside the dwelling, and (3) that the statement was otherwise in compliance with these rules.".

b. Mil. R. Evid. 505(a) is amended to read as follows:

"(a) *General rule of privilege.* Classified information is privileged from disclosure if disclosure would be detrimental to the national security. As with other rules of privilege this rule applies to all stages of the proceedings.".

c. Mil. R. Evid. 505(g)(1)(D) is amended by adding the following at the end:

"All persons requiring security clearances shall cooperate with investigatory personnel in any investigations which are necessary to obtain a security clearance.".

d. Mil. R. Evid. 505(h)(3) is amended to read as follows:

"(3) *Content of notice.* The notice required by this subdivision shall include a brief description of the classified information. The description, to be sufficient, must be more than a mere general statement of the areas about which evidence may be introduced. The accused must state, with particularity, which items of classified information he reasonably expects will be revealed by his defense.".

e. Mil. R. Evid. 505(i)(3) is amended to read as follows:

"(3) *Demonstration of national security nature of the information.* In order to obtain an in camera proceeding under this rule, the Government shall submit the classified information and an affidavit ex parte for examination by the military judge only. The affidavit shall demonstrate that disclosure of the information reasonably could be expected to cause damage to the national security in the degree required to warrant classification under the applicable executive order, statute, or regulation.".

f. Mil. R. Evid. 505(i)(4)(B) is amended to read as follows:

"*Standard.* Classified information is not subject to disclosure under this subdivision unless the information is relevant and necessary to an element of the offense or a legally cognizable defense and is otherwise admissible in evidence. In presentencing proceedings, relevant and material classified information pertaining to the appropriateness of, or the appropriate degree of, punishment shall be admitted only if no unclassified version of such information is available.".

g. Mil. R. Evid. 505(j)(5) is amended to read as follows:

"(5) *Closed session.* The military judge may exclude the public during that portion of the presentation of evidence that discloses classified information.".

h. Mil. R. Evid. 609(a) is amended to read as follows:

"(a) *General rule.* For the purpose of attacking the credibility of a witness, (1) evidence that a witness other than the accused has been convicted of a crime shall be admitted, subject to Mil. R. Evid. 403, if the crime was punishable by death, dishonorable discharge, or imprisonment in excess

of one year under the law under which the witness was convicted, and evidence that an accused has been convicted of such a crime shall be admitted if the military judge determines that the probative value of admitting this evidence outweighs its prejudicial effect to the accused; and (2) evidence that any witness has been convicted of a crime shall be admitted if it involved dishonesty or false statement, regardless of the punishment. In determining whether a crime tried by court-martial was punishable by death, dishonorable discharge, or imprisonment in excess of one year, the maximum punishment prescribed by the President under Article 56 at the time of the conviction applies without regard to whether the case was tried by general, special, or summary court-martial.".

i. Mil. R. Evid. 1101(d) is amended to read as follows:

"(d) *Rules inapplicable.* These rules (other than with respect to privileges and Mil. R. Evid. 412) do not apply in investigative hearings pursuant to Article 32; proceedings for vacation of suspension of sentence pursuant to Article 72; proceedings for search authorizations; proceedings involving pretrial restraint; and in other proceedings authorized under the code or this Manual and not listed in subdivision (a).".

Sec. 3. Part IV of the Manual for Courts-Martial, United States, 1984, is amended as follows:

a. Paragraph 37c is amended by inserting the following new subparagraphs (10) and (11) at the end thereof:

"(10) *Use.* 'Use' means to inject, ingest, inhale, or otherwise introduce into the human body, any controlled substance. Knowledge of the presence of the controlled substance is a required component of use. Knowledge of the presence of the controlled substance may be inferred from the presence of the controlled substance in the accused's body or from other circumstantial evidence. This permissive inference may be legally sufficient to satisfy the government's burden of proof as to knowledge.

(11) *Deliberate ignorance.* An accused who consciously avoids knowledge of the presence of a controlled substance or the contraband nature of the substance is subject to the same criminal liability as one who has actual knowledge.".

b. The last paragraph of paragraph 37e is amended to read as follows:

"When any offense under paragraph 37 is committed: while the accused is on duty as a sentinel or lookout; on board a vessel or aircraft used by or under the control of the armed forces; in or at a missile launch facility used by or under the control of the armed forces; while receiving special pay under 37 U.S.C. Section 310; in time of war; or in a confinement facility used by or under the control of the armed forces, the maximum period of confinement authorized for such an offense shall be increased by 5 years.".

c. Paragraph 43d is amended to read as follows:

"d. *Lesser included offenses.*

(1) *Premeditated murder and murder during certain offenses.* Article 118(2) and (3)—murder

(2) *All murders under Article 118.*

(a) Article 119—involuntary manslaughter

(b) Article 128—assault; assault consummated by a battery; aggravated assault

(c) Article 134—negligent homicide

(3) *Murder as defined in Article 118(1), (2), and (4).*

(a) Article 80—attempts

(b) Article 119—voluntary manslaughter

(c) Article 134—assault with intent to commit murder

(d) Article 134—assault with intent to commit voluntary manslaughter".

d. Para 45d(1) is amended by adding the following at the end thereof:

"(e) Article 120(b)—carnal knowledge".

e. Para 45f(1) is amended to read as follows:

"(1) *Rape.*

In that _____ (personal jurisdiction data), did, (at/on board—location) (subject-matter jurisdiction data, if required), on or about _____ 19__, rape _____ (a person who had not attained the age of 16 years).".

f. The following new paragraph is inserted after paragraph 96:

"96a. Article 134 (Wrongful interference with an adverse administrative proceeding)

a. *Text. See* paragraph 60.

b. *Elements.*

(1) That the accused wrongfully did a certain act;

(2) That the accused did so in the case of a certain person against whom the accused had reason to believe there were or would be adverse administrative proceedings pending;

(3) That the act was done with the intent to influence, impede, or obstruct the conduct of such adverse administrative proceeding, or otherwise obstruct the due administration of justice;

(4) That under the circumstances, the conduct of the accused was to the prejudice of good order and discipline in the armed forces or was of a nature to bring discredit upon the armed forces.

c. *Explanation.* For purposes of this paragraph "adverse administrative proceeding" includes any administrative proceeding or action, initiated against a servicemember, that could lead to discharge, loss of special or incentive pay, administrative reduction in grade, loss of a security clearance, bar to reenlistment, or reclassification. Examples of wrongful interference include wrongfully influencing, intimidating, impeding, or injuring a witness, an investigator, or other person acting on an adverse administrative action; by means of bribery, intimidation, misrepresentation, or force or threat of force delaying or preventing communication of information relating to such administrative proceeding; and, the wrongful destruction or concealment of information relevant to such adverse administrative proceeding.

d. *Lesser included offenses.* None.

e. *Maximum punishment.* Dishonorable discharge, forfeiture of all pay and allowances, and confinement for 5 years.

f. *Sample specification.* In that _____ (personal jurisdiction data), did, (at/on board—location) (subject-matter jurisdiction data, if required), on or about _____ 19__, wrongfully (endeavor to) [impede (an adverse administrative proceeding) (an investigation) (_____)] [influence the actions of _____, (an officer responsible for making a recommendation concerning the adverse administrative proceeding) (an individual responsible for making a decision concerning an adverse administrative proceeding) (an individual responsible for processing an adverse administrative proceeding) (_____)] [(influence) (alter) the testimony of _____ a witness before (a board established to consider an adverse administrative proceeding or elimination) (an investigating officer) (_____)] in the case of _____, by [(promising) (offering) (giving) to the said _____, (the sum of $_____) (_____, of a value of about $_____)] [commu-

nicating to the said ———————————— a threat to ————————————] [————————————], (if) (unless) the said ————————————, would [recommend dismissal of the action against said ————————————] [(wrongfully refuse to testify) (testify falsely concerning ————————————) (————————————)] [(at such administrative proceeding) (before such investigating officer) (before such administrative board)] [————————————].".

Sec. 4. These amendments shall take effect on January 21, 1994, subject to the following:

a. The amendments made to paragraphs 37c, 37e, 43d(2), 45d(1), and 96a of Part IV shall apply to any offense committed on or after January 21, 1994.

b. The amendments made to Section III shall apply only in cases in which arraignment has been completed on or after January 21, 1994.

c. The amendment made to Rules for Courts-Martial 405(i), 701(g)(3)(C), and 704(e) shall apply only in cases in which charges are preferred on or after January 21, 1994.

d. The amendments made to Rules for Courts-Martial 910, 918, and 920 shall apply only to cases in which arraignment occurs on or after January 21, 1994.

e. The amendments made to Rule for Courts-Martial 305 shall apply only to cases in which pretrial confinement is imposed on or after January 21, 1994.

f. The amendment to Rule for Courts-Martial 1103(g)(1)(A) shall apply only in cases in which the sentence is adjudged on or after January 21, 1994.

g. Nothing contained in these amendments shall be construed to make punishable any act done or omitted prior to January 21, 1994, which was not punishable when done or omitted.

h. The maximum punishment for an offense committed prior to January 21, 1994, shall not exceed the applicable maximum in effect at the time of the commission of such offense.

i. Nothing in these amendments shall be construed to invalidate any nonjudicial punishment proceeding, restraint, investigation, referral of charges, trial in which arraignment occurred, or other action begun prior to January 21, 1994, and any such restraint, investigation, referral of charges, trial, or other action may proceed in the same manner and with the same effect as if these amendments had not been prescribed.

Sec. 5. The Secretary of Defense, on behalf of the President, shall transmit a copy of this order to the Congress of the United States in accord with section 836 of title 10 of the United States Code.

William J. Clinton

THE WHITE HOUSE,
December 23, 1993.

Billing code 3195-01-P

Changes to the Discussion Accompanying the Manual for Courts-Martial, United States, 1984

A. The following Discussion is inserted after R.C.M. 109(c)(2):

"The term 'unfitness' should be construed broadly, including, for example, matters relating to the incompetence, impartiality, and misconduct of the judge. Erroneous decisions of a judge are not subject to investigation under this rule. Challenges to these decisions are more appropriately left to the appellate process.".

B. The following Discussion is inserted after R.C.M. 109(c)(3):

"Complaints need not be made in any specific form, but if possible complaints should be made under oath. Complaints may be made by judges, lawyers, a party, court personnel, members of the general public or members of the military community. Reports in the news media relating to the conduct of a judge may also form the basis of a complaint.

An individual designated to receive complaints under this subsection should have judicial experience. The chief trial judge of a service may be designated to receive complaints against military trial judges.".

C. The following Discussion is inserted after R.C.M. 109(c)(4):

"Complaints under this subsection will be treated with confidentiality. Confidentiality protects the subject judge and the judiciary when a complaint is not substantiated. Confidentiality also encourages the reporting of allegations of judicial misconduct or unfitness and permits complaints to be screened with the full cooperation of others.

Complaints containing allegations of criminality should be referred to the appropriate criminal investigative agency in accordance with Appendix 3 of this Manual.".

D. The following Discussion is inserted after R.C.M. 109(c)(5)(B):

"To avoid the type of conflict prohibited in Article 66(g), the Judge Advocate General's designee should ordinarily not be a member of the same Court of Military Review as the subject of the complaint. If practicable, a former appellate military judge should be designated.".

E. The following Discussion is inserted after R.C.M. 109(c)(6)(B):

"The discretionary reassignment of military trial judges or appellate military judges to meet the needs of the service is not professional disciplinary action.".

F. The following Discussion is inserted after R.C.M. 109(c)(7):

"The Judge Advocate General concerned may appoint an ad hoc or a standing commission.".

G. The Discussion to R.C.M. 701(g)(3) is amended by adding the following after the first paragraph:

"The sanction of excluding the testimony of a defense witness should be used only upon finding that the defense counsel's failure to comply with this rule was willful and motivated by a desire to obtain a tactical advantage or to conceal a plan to present fabricated testimony. Moreover, the sanction of excluding the testimony of a defense witness should only be used if alternative sanctions could not have minimized the prejudice to the Government. Before imposing this sanction, the military judge must weigh the defendant's right to compulsory process against the countervailing public interests, including (1) the integrity of the adversary process; (2) the interest in the fair and efficient administration of military justice; and (3) the potential prejudice to the truth-determining function of the trial process.".

H. The Discussion following R.C.M. 910(a)(1) is amended to read as follows:

"*See* paragraph 2, Part IV, concerning lesser included offenses. When the plea is to a named lesser included offense without the use of exceptions and substitutions, the defense counsel should provide a written revised specification accurately reflecting the plea and request that the revised specification be included in the record as an appellate exhibit. A plea of guilty to a lesser included offense does not bar the prosecution from proceeding on the offense as charged. *See also* subsection (g) of this rule.

VOL 58 ISS 248 DE 29 1993 UMI

A plea of guilty does not prevent the introduction of evidence, either in support of the factual basis for the plea, or, after findings are entered, in aggravation. *See* R.C.M. 1001(b)(4).".

I. The last two paragraphs of the Discussion accompanying R.C.M. 918(a)(1) are amended to read as follows:

"*Lesser included offenses.* If the evidence fails to prove the offense charged but does prove an offense necessarily included in the offense charged, the factfinder may find the accused not guilty of the offense charged but guilty of a named lesser offense, which is included in the offense charged, without the use of exceptions and substitutions. Ordinarily, an attempt is a lesser included offense even if the evidence establishes that the offense charged was consummated. *See* Part IV concerning lesser included offenses.

Offenses arising from the same act or transaction. The accused may be found guilty of two or more offenses arising from the same act or transaction, whether or not the offenses are separately punishable. *But see* R.C.M. 906(b)(12); 907(b)(3)(B); 1003(c)(1)(C).".

J. The Discussion accompanying R.C.M. 920(b) is amended to read as follows:

"After members have reached a finding on a specification, instructions may not be given on an offense included therein which was not described in an earlier instruction unless the finding is illegal. This is true even if the finding has not been announced. When instructions are to be given is a matter within the sole discretion of the military trial judge.".

Changes to the Analysis Accompanying the Manual for Courts-Martial, United States, 1984

1. Changes to Appendix 21, the Analysis accompanying the Rules for Courts-Martial (Part II, MCM, 1984).

a. R.C.M. 109. The Analysis is amended by inserting the following at the end thereof:

"*1993 Amendment*: Subsection (a) was amended to conform with subsection (c). The amendment to subsection (a) clarifies that the Judge Advocates General are responsible for the supervision and discipline of judges and attorneys. The amendment to subsection (a) is not intended to limit the authority of a Judge Advocate General in any way.

New subsection (c) is based on Article 6a, Uniform Code of Military Justice. Article 6a was enacted by the Defense Authorization Act for Fiscal Year 1990. "Military Appellate Procedures," title XIII, § 1303, National Defense Authorization Act for Fiscal Year 1990, Pub. L. No. 101–189, 103 Stat. 1352, 1576 (1989). The legislative history reveals Congressional intent that, to the extent consistent with the Uniform Code of Military Justice, the procedures to investigate and dispose of allegations concerning judges in the military should emulate those procedures found in the civilian sector. *See H.R. Conf. Rep. No. 331, 101st Cong., 1st Sess. 656 (1989) [hereinafter Conf. Rep. No. 331].* The procedures established by subsection (c) are largely patterned after the pertinent sections of the *ABA Model Standards Relating to Judicial Discipline and Disability Retirement (1978) [hereinafter ABA Model Standard]* and the procedures dealing with the investigation of complaints against federal judges in *28 U.S.C. § 372 (1988).* The rule recognizes, however, the overall responsibility of the Judge Advocates General for the certification, assignment, professional supervision and discipline of military trial and appellate military judges. *See* Articles 6, 26 & 66, Uniform Code of Military Justice.

Subsection (c)(2) is based on the committee report accompanying the FY 90 Defense Authorization Act. *See Conf. Rep. No. 331 at 658.* This subsection is designed to increase public confidence in the military justice system while contributing to the integrity of the system. See Landmark Communications v. Virginia, 435 U.S. 829 (1978).

The first sentence of the Discussion to subsection (c)(2) is based on the committee report accompanying the Defense Authorization Act. *Conf. Rep. No. 331 at 358.* The second and third sentences of the discussion are based on the commentary to *ABA Model Standard 3.4. See also Chandler v. Judicial Council,* 398 U.S. 74 (1970).

Subsections (c)(3), (c)(5), and (c)(7) reflect, and adapt to the conditions of military practice, the general principle that judges should investigate judges.

The first paragraph of the Discussion to subsection (c)(3) is based on the commentary to *ABA Model Standard 4.1.*

The discussion to subsection (c)(4) is based on the commentary to *ABA Model Standard 4.6.*

The clear and convincing standard found in subsection (c)(6)(c) is based on *ABA Model Standard 7.10.*

Under subsection (c)(7), the principal purpose of the commission is to advise the Judge Advocate General concerned as to whether the allegations contained in a complaint constitute a violation of applicable ethical standards. This subsection is not intended to preclude use of the commission for other functions such as rendering advisory opinions on ethical questions. *See ABA Model Standard 9* on the establishment and role of an advisory committee.

Subsection (c)(7)(A) is based on *ABA Model Standard 2.3,* which provides that one-third of the members of a commission should be active or retired judges.".

b. R.C.M. 305(f). The Analysis accompanying R.C.M. 305(f) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to subsection (f) provides a specific time period by which to measure compliance. Because it is possible to obtain credit for violations of this section under subsection (k), a standard of compliance was thought necessary. *See, e.g., United States v. Chapman,* 26 M.J. 515 (A.C.M.R. 1988), *pet. denied* 27 M.J. 404 (C.M.A. 1989). This amendment, while protecting the rights of the prisoner, also gives reasonable protection to the Government in those cases where the prisoner is confined in a civilian facility and the request is never, or is belatedly, communicated to military authorities. While it is expected that military authorities will have procedures whereby civilian confinement authorities communicate such requests in a timely fashion, the failure to communicate such a request, or the failure to notify military authorities in a timely manner should be tested for prejudice under Article 59, and should not be considered as invoking the credit provisions of subsection (k) of this rule.".

c. R.C.M. 305(h)(2)(A). The Analysis accompanying R.C.M. 305(h)(2)(A) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to subsection (h)(2)(A) clarifies that the 72 hour period operates in two distinct situations: (a) if the commander orders the prisoner into pretrial confinement, the commander has 72 hours to decide whether pretrial confinement will continue, and (b) if someone other than the prisoner's commander orders the prisoner into pretrial confinement, the prisoner's commander has 72 hours from receipt of a report that the prisoner has been confined to decide whether pretrial confinement will continue.".

d. R.C.M. 305(i)(1). The Analysis accompanying R.C.M. 305(i)(1) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to subsection (i)(1) provides that the required review only becomes applicable whenever the accused is confined under military control. For example, if the prisoner was apprehended and is being held by civilian authorities as a military deserter in another state from where the prisoner's unit is located and it takes three days to transfer the prisoner to an appropriate confinement facility, the seven

day period under this rule would not begin to run until the date of the prisoner's transfer to military authorities. Any unreasonable period of time that it may take to bring a prisoner under military control should be tested for prejudice under Article 59, and should not be considered as invoking the credit provisions of subsection (k) of this rule absent evidence of bad faith by military authorities in utilizing civilian custody. *But see United States v. Ballesteros*, 29 M.J. 14 (C.M.A. 1989). However, any time spent in civilian custody at the request of military authorities would be subject to pretrial confinement credit mandated by *United States v. Allen*, 17 M.J. 126 (C.M.A. 1984).

The amendment further clarifies the method of calculation to determine if the rule has been violated. *See United States v. DeLoatch*, 25 M.J. 718 (A.C.M.R. 1987); *contra, United States v. New*, 23 M.J. 889 (A.C.M.R. 1987).".

e. R.C.M. 405(i). The Analysis accompanying R.C.M. 405(i) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to R.C.M. 405(i) makes the provisions of Mil. R. Evid. 412 applicable at pretrial investigations.".

f. R.C.M. 701(g)(3)(C). The Analysis accompanying R.C.M. 701(g)(3)(C) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to R.C.M. 701(g)(3)(C), based on the decision of *Taylor v. Illinois*, 484 U.S. 400 (1988), recognizes that the Sixth Amendment compulsory process right does not preclude a discovery sanction that excludes the testimony of a material defense witness. This sanction, however, should be reserved to cases where the accused has willfully and blatantly violated applicable discovery rules, and alternative sanctions could not have minimized the prejudice to the Government. *See Chappee v. Commonwealth of Massachusetts*, 659 F.Supp. 1220 (D. Mass. 1988). The Discussion to R.C.M. 701(g)(3)(C) adopts the test, along with factors the judge must consider, established by the *Taylor* decision.".

g. R.C.M. 704(e). The Analysis accompanying R.C.M. 704(e) is amended by inserting the following at the end thereof:

"*1993 Amendment*. Subsection (e) to R.C.M. 704 was amended to make the military practice for granting immunity for defense witnesses consistent with the majority rule within the Federal Courts. *United States v. Burns*, 684 F.2d 1066 (2d Cir. 1982), *cert. denied*, 459 U.S. 1174 (1983); *United States v. Shandell*, 800 F.2d 322 (2d Cir. 1986); *United States v. Turkish*, 623 F.2d 769 (2d Cir. 1980), *cert. denied*, 449 U.S. 1077 (1981); *United States v. Thevis*, 665 F.2d 616 (5th Cir. 1982), *cert. denied*, 459 U.S. 825 (1982); *United States v. Pennell*, 737 F.2d 521 (6th Cir. 1984); *United States v. Taylor*, 728 F.2d 930 (7th Cir. 1984); *United States v. Brutzman*, 731 F.2d 1449 (9th Cir. 1984); *McGee v. Crist*, 739 F.2d 505 (10th Cir. 1984); *United States v. Sawyer*, 799 F.2d 1494 (11th Cir. 1986). The amended rule conforms R.C.M. 704(e) with case law requiring the military judge to consider the Government's interest in not granting immunity to the defense witness. *See United States v. Smith*, 17 M.J. 994, 996 (A.C.M.R. 1984), *pet. denied*, 19 M.J. 71 (C.M.A. 1984); *United States v. O'Bryan*, 16 M.J 775 (A.F.C.M.R. 1983), *pet. denied*, 18 M.J. 16 (C.M.A. 1984).".

The majority rule recognizes that an accused has no Sixth Amendment right to immunized testimony of defense witnesses and, absent prosecutorial misconduct which is intended to disrupt the judicial fact-finding process, an accused is not denied Fifth Amendment due process by the Government's failure to immunize a witness. If the military judge finds that the witness is a target for prosecution, there can be no claim of Government overreaching or discrimination if a grant of immunity is denied. *United States v. Shandell*, *supra*.

The prior military rule was based on *United States v. Villines*, *supra*, which had adopted the minority view espoused in *Government of Virgin Islands v. Smith*, 615 F.2d 964 (3d Cir. 1980). This view permitted the court to also immunize a defense witness when the witness' testimony

was clearly exculpatory, essential to the defense case and there was no strong Government interest in withholding testimonial immunity. This rule has been sharply criticized. *See, e.g., United States v. Turkish, supra; United States v. Taylor, supra; United States v. Pennel, supra; United States v. Zayas*, 24 M.J. 132, 137 (C.M.A. 1987)(dissenting opinion by Judge Cox).

The current rule continues to recognize that a military judge is not empowered to immunize a witness. Upon a finding that all three prerequisites exist, a military judge may only abate the proceedings for the affected charges and specifications unless the convening authority grants immunity to the witness.".

h. R.C.M. 910(a)(1). The Analysis accompanying R.C.M. 910(a)(1) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to R.C.M. 910(a)(1) removed the necessity of pleading guilty to a lesser included offense by exceptions and substitutions. This parallels the amendment to R.C.M. 918(a)(1), allowing a finding of guilty to a named lesser included offense without mandating the use of exceptions and substitutions, made to more closely correspond to verdict practice in federal district courts. *See* Analysis comments for R.C.M. 918(a)(1).".

i. R.C.M. 918(a)(1). The Analysis accompanying R.C.M. 918(a)(1) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to R.C.M. 918(a)(1) allows for a finding of guilty of a named lesser included offense of the charged offense, and eliminates the necessity of making findings by exceptions and substitutions. This serves to conform military practice to that used in criminal trials before federal district courts. *See* Fed. R. Crim. P. 31(c); E. Devitt and C. Blackman, **Federal Jury Practice and Instructions**, 18.07 (1977). The practice of using exceptions and substitutions is retained for those cases in which the military judge or court members must conform the findings to the evidence actually presented, *e.g.*, a larceny case in which the finding is that the accused stole several of the items alleged in the specification but not others.".

j. R.C.M. 920(b). The Analysis accompanying R.C.M. 920(b) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to R.C.M. 920(b) is based on the 1987 amendments to Federal Rule of Criminal Procedure 30. Federal Rule of Criminal Procedure 30 was amended to permit instructions either before or after arguments by counsel. The previous version of R.C.M. 920 was based on the now superseded version of the federal rule.

The purpose of this amendment is to give the court discretion to instruct the members before or after closing arguments or at both times. The amendment will permit courts to continue instructing the members after arguments as Rule 30 and R.C.M. 920(b) had previously required. It will also permit courts to instruct before arguments in order to give the parties an opportunity to argue to the jury in light of the exact language used by the court. *See United States v. Slubowski*, 7 M.J. 461 (C.M.A 1979); *United States v. Pendry*, 29 M.J. 694 (A.C.M.R. 1989).".

k. The Analysis accompanying R.C.M. 1103(g)(1)(A) is amended by inserting the following at the end thereof:

"*1993 Amendment*: Subsection (g)(1)(A) was amended by adding the phrase "and are subject to review by a Court of Military Review under Article 66" to eliminate the need to make four copies of verbatim records of trial for courts-martial which are not subject to review by a Court of Military Review. These cases are reviewed in the Office of the Judge Advocate General under Article 69 and four copies are not ordinarily necessary.".

2. Changes to Appendix 22, the Analysis accompanying the Military Rules of Evidence (Part III, MCM, 1984).

a. The Analysis accompanying M.R.E. 303 is amended by inserting the following at the end thereof:

VOL 58 ISS 248 DE 29 1993 UMI

"*1993 Amendment*: R.C.M. 405(i) and Mil. R. Evid 1101(d) were amended to make the provisions of Mil. R. Evid. 412 applicable at pretrial investigations. These changes ensure that the same protections afforded victims of nonconsensual sex offenses at trial are available at pretrial hearings. *See* Criminal Justice Subcommittee of House Judiciary Committee Report, 94th Cong., 2d Session, July 29, 1976. Pursuant to these amendments, Mil. R. Evid. 412 should be applied in conjunction with Mil. R. Evid. 303. As such, no witness may be compelled to answer a question calling for a personally degrading response prohibited by Rule 303. Mil. R. Evid. 412, however, protects the victim even if the victim does not testify. Accordingly, Rule 412 will prevent questioning of the victim or other witness if the questions call for responses prohibited by Rule 412.".

b. The Analysis accompanying M.R.E. 311(e)(2) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The amendment to Mil. R. Evid. 311(e)(2) was made to conform Rule 311 to the rule of *New York* v. *Harris*, 495 U.S. 14 (1990). The purpose behind the exclusion of derivative evidence found during the course of an unlawful apprehension in a dwelling is to protect the physical integrity of the dwelling, not to protect suspects from subsequent lawful police interrogation. *See id.* A suspect's subsequent statement made at another location that is the product of lawful police interrogation is not the fruit of the unlawful apprehension. The amendment also contains language added to reflect the "good faith" exception to the exclusionary rule set forth in *United States v. Leon*, 468 U.S. 897 (1984), and the "inevitable discovery" exception set forth in *Nix v. Williams*, 467 U.S. 431 (1984).".

c. The Analysis accompanying Mil. R. Evid. 412 is amended by inserting the following at the end thereof:

"*1993 Amendment*. R.C.M. 405(i) and Mil. R. Evid. 1101(d) were amended to make the provisions of Rule 412 applicable at pretrial investigations. Congress intended to protect the victims of nonconsensual sex crimes at preliminary hearings as well as at trial when it passed Fed. R. Evid. 412. *See* Criminal Justice Subcommittee of the House Judiciary Committee Report, 94th Cong., 2d Session, July 1976.".

d. The Analysis accompanying M.R.E. 505(a) is amended by inserting the following at the end thereof:

"*1993 Amendment*: The second sentence was added to clarify that this rule, like other rules of privilege, applies at all stages of all actions and is not relaxed during the sentencing hearing under M.R.E. 1101(c).".

e. The Analysis accompanying M.R.E. 505(g) is amended by inserting the following at the end thereof:

"*1993 Amendment*: Subsection (g)(1)(D) was amended to make clear that the military judge's authority to require security clearances extends to persons involved in the conduct of the trial as well as pretrial preparation for it. The amendment requires persons needing security clearances to submit to investigations necessary to obtain the clearance.".

f. The Analysis accompanying M.R.E. 505(h) is amended by inserting the following at the end thereof:

"*1993 Amendment*: Subsection (h)(3) was amended to require specificity in detailing the items of classified information expected to be introduced. The amendment is based on *United States v. Collins*, 720 F.2d. 1195 (11th Cir. 1983).".

g. The Analysis accompanying M.R.E. 505(i) is amended by inserting the following at the end thereof:

"*1993 Amendment*: Subsection (i)(3) was amended to clarify that the classified material and the government's affidavit are submitted only to the military judge. The word "only" was placed at the end of the sentence to make it clear that it refers to "military judge" rather than to "examination."

The military judge is to examine the affidavit and the classified information without disclosing it before determining to hold an in camera proceeding as defined in subsection (i)(1). The second sentence of subsection (i)(4)(B) was added to provide a standard for admission of classified information in sentencing proceedings.".

h. The Analysis accompanying M.R.E. 505(j) is amended by inserting the following at the end thereof:

"*1993 Amendment*: Subsection (j)(5) was amended to provide that the military judge's authority to exclude the public extends to the presentation of any evidence that discloses classified information, and not merely to the testimony of witnesses. *See generally United States v. Hershey*, 20 M.J. 433 (C.M.A. 1985), *cert. denied*, 474 U.S. 1062 (1986).".

i. The Analysis accompanying Mil. R. Evid. 609(a) is amended by adding the following at the end thereof:

"*1993 Amendment*. The amendment to Mil. R. Evid. 609(a) is based on the 1930 amendment to Fed. R. Evid. 609(a). The previous version of Mil. R. Evid. 609(a) was based on the now superseded version of the Federal Rule. This amendment removes from the rule the limitation that the conviction may only be elicited during cross-examination. Additionally, the amendment clarifies the relationship between Rules 403 and 609. The amendment clarifies that the special balancing test found in Mil. R. Evid. 609(a)(1) applies to the accused's convictions. The convictions of all other witnesses are only subject to the Mil. R. Evid. 403 balancing test. *See Green v. Bock Laundry Machine Co.*, 490 U.S. 504 (1989).".

j. The Analysis accompanying Mil. R. Evid. 1101(d) is amended by inserting the following at the end thereof:

"*1993 Amendment*. Mil. R. Evid. 1101(d) was amended to make the provisions of Mil. R. Evid. 412 applicable at pretrial investigations.".

3. Changes to Appendix 21, the Analysis accompanying the punitive articles (Part IV, MCM, 1984).

a. The Analysis accompanying paragraph 37c, Part IV, is amended by inserting the following at the end thereof:

"*1993 Amendment*. Paragraph c was amended by adding new paragraphs (10) and (11). Subparagraph (10) defines the term "use" and delineates knowledge of the presence of the controlled substance as a required component of the offense. *See United States v. Mance*, 26 M.J. 244 (C.M.A. 1988). The validity of a permissive inference of knowledge is recognized. *See United States v. Ford*, 23 M.J. 331 (C.M.A. 1987); *United States v. Harper*, 22 M.J. 157 (C.M.A. 1986). Subparagraph (11) precludes an accused from relying upon lack of actual knowledge when such accused has purposefully avoided knowledge of the presence or identity of controlled substances. *See United States v. Mance, supra* (Cox, J., concurring). When an accused deliberately avoids knowing the truth concerning a crucial fact (i.e., presence or identity) and there is a high probability that the crucial fact does exist, the accused is held accountable to the same extent as one who has actual knowledge. *See United States v. Newman*, 14 M.J. 474 (C.M.A. 1983). Subsection (11) follows federal authority which equates actual knowledge with deliberate ignorance. *See United States v. Ramsey*, 785 F.2d 184 (7th Cir.), *cert. denied*, 476 U.S. 1186 (1986).".

b. The Analysis accompanying paragraph 43d(2), Part IV, is amended by inserting the following at the end thereof:

"*1993 Amendment*. The listed lesser included offenses of murder under Article 118(3) were changed to conform to the rationale of *United States v. Roa*, 12 M.J. 210 (C.M.A. 1982). Inasmuch as Article 118(3) does not require specific intent, attempted murder, voluntary manslaughter, assault

with intent to murder and assault with intent to commit voluntary manslaughter are not lesser included offenses of murder under Article 118(3).".

c. The Analysis accompanying paragraph 45(d), Part IV, is amended by inserting the following at the end thereof:

"*1993 Amendment.* The amendment to para 45d(1) represents an administrative change to conform the Manual with case authority. Carnal knowledge is a lesser included offense of rape where the pleading alleges that the victim has not attained the age of 16 years. *See United States v. Baker*, 28 M.J. 900 (A.C.M.R. 1989); *United States v. Stratton*, 12 M.J. 998 (A.F.C.M.R. 1982), *pet. denied*, 15 M.J. 107 (C.M.A. 1983); *United States v. Smith*, 7 M.J. 842 (A.C.M.R. 1979).".

d. The Analysis accompanying paragraph 96a, Part IV, is amended by inserting the following after the analysis to paragraph 96:

"*1993 Amendment.* Paragraph 96a is new and proscribes conduct that obstructs administrative proceedings. *See generally* 18 U.S.C. § 1505, *Obstruction of proceedings before departments, agencies, and committees.* This paragraph, patterned after paragraph 96, covers obstruction of certain administrative proceedings not currently covered by the definition of criminal proceeding found in paragraph 96c. This paragraph is necessary given the increased number of administrative actions initiated in each service.".

LIST OF PUBLIC LAWS

Note: The list of Public Laws for the first session of the 103d Congress has been completed and will resume when bills are enacted into law during the second session of the 103d Congress, which convenes on January 25, 1994.

Last List December 23, 1993

Public Laws

103d Congress, 1st Session, 1993

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 103d Congress, 1st Session, 1993.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

The United States Government Manual 1993/94

As the official handbook of the Federal Government, the *Manual* is the best source of information on the activities, functions, organization, and principal officials of the agencies of the legislative, judicial, and executive branches. It also includes information on quasi-official agencies and international organizations in which the United States participates.

Particularly helpful for those interested in where to go and who to see about a subject of particular concern is each agency's "Sources of Information" section, which provides addresses and telephone numbers for use in obtaining specifics on consumer activities, contracts and grants, employment, publications and films, and many other areas of citizen interest. The *Manual* also includes comprehensive name and agency/subject indexes.

Of significant historical interest is Appendix C, which lists the agencies and functions of the Federal Government abolished, transferred, or changed in name subsequent to March 4, 1933.

The *Manual* is published by the Office of the Federal Register, National Archives and Records Administration.

Briefings on How To Use the Federal Register
For information on briefings in Washington, DC, see announcement on the inside cover of this issue.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche format and magnetic tape. The annual subscription price for the **Federal Register** paper edition is $375, or $415 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $353; and magnetic tape is $37,500. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $4.50 for each issue, or $4.50 for each group of pages as actually bound; or $1.50 for each issue in microfiche form; or $175.00 per magnetic tape. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 58 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

Briefings on How To Use the Federal Register
For information on briefings in Washington, DC, see announcement on the inside cover of this issue.

Rules and Regulations

Federal Register
Vol. 58, No. 249
Thursday, December 30, 1993

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 531

RIN 3206–AF46

Pay Under the General Schedule; Locality-Based Comparability Payments

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: The Office of Personnel Management (OPM) is issuing final regulations on locality-based comparability payments for General Schedule employees, as required by the Federal Employees Pay Comparability Act of 1990. The final regulations reflect the determination of the President's Pay Agent concerning the "locality pay areas" within which locality-based comparability payments will be made. In addition, the final regulations provide that the "locality rate of pay" is to be calculated in all cases on the basis of the employee's "scheduled annual rate of pay," which excludes a special salary rate authorized by OPM (whether local, nationwide, or worldwide in coverage). The final regulations also include pay administration rules, as well as conforming changes in the regulations governing interim geographic adjustments and special pay adjustments for law enforcement officers.

EFFECTIVE DATE: The regulations are effective January 1, 1994, and are applicable on the first day of the first pay period beginning on or after January 1, 1994.

FOR FURTHER INFORMATION CONTACT: James Weddel, (202) 606–2858.

SUPPLEMENTARY INFORMATION: On August 31, 1993, the Office of Personnel Management (OPM) published proposed regulations to implement 5 U.S.C. 5304, which provides for the payment of locality-based comparability payments to General Schedule (GS) employees when the rates payable to GS employees are generally lower than the rates paid for the same levels of work by non-Federal workers in the same locality. Interested parties were invited to comment for a 30-day period. During the comment period, OPM received comments from 2 Members of Congress, 12 agencies, 4 labor organizations, 7 professional organizations and associations, and 243 individuals.

On January 8, 1993, OPM published an interim rule implementing certain changes made by the Technical and Miscellaneous Civil Service Amendments Act of 1992 (Public Law 102–378). One of the provisions of the interim rule was that special pay adjustments for law enforcement officers would be paid on top of nationwide or worldwide special salary rates authorized by OPM under 5 U.S.C. 5305. As explained below, OPM proposed a change in this provision when the proposed locality pay regulations were published. The proposed change is made final by these regulations. OPM will publish final regulations implementing other provisions of the Technical and Miscellaneous Civil Service Amendments Act of 1992 in the near future.

Locality Pay Areas

OPM received comments on the establishment of locality pay areas from more than 225 individuals, agencies, and organizations. Section 5304(f)(1) of title 5, United States Code, authorizes the President's Pay Agent (consisting of the Secretary of Labor, the Director of the Office of Management and Budget (OMB), and the Director of OPM) to provide for such pay localities as the Pay Agent considers appropriate. Comments on the establishment of locality pay areas were reviewed by the President's Pay Agent. After considering these comments, the Pay Agent decided to establish the same 28 locality pay areas that were recommended by the Federal Salary Council and included in the proposed locality pay regulations. The final regulations list each of these locality pay areas and are issued by OPM under the authority in 5 U.S.C. 5304(i).

For the most part, the boundaries of the locality pay areas follow those of the corresponding Metropolitan Statistical Areas (MSA's) and Consolidated Metropolitan Statistical Areas (CMSA's). MSA's and CMSA's are defined by OMB and published in OMB Bulletin No. 93–17 (June 30, 1993). One agency suggested that OPM include criteria used by the Federal Salary Council for evaluating proposed exceptions to MSA and CMSA definitions in defining locality pay areas. However, OPM has determined that there is no need to do so.

Locality Pay for Employees Receiving Special Rates

Several commenters objected to OPM's proposal to calculate locality pay on the basis of an employee's scheduled annual rate of pay, excluding a special salary rate authorized by OPM under 5 U.S.C. 5305 (whether local, nationwide, or worldwide in coverage). A labor organization argued that there is no reason for OPM to "divest" special salary rate employees from the benefits of locality-based comparability payments. An organization representing Federal physicians criticized the proposal because the compensation of Federal physicians (many of whom received worldwide special salary rates) is significantly below that of non-Federal physicians. An agency commented that treating newly-hired employees differently than on-board employees who have their adjusted rates of pay continued under § 531.106 or § 531.307 will create recruitment problems.

Section 3 of Executive Order 12748 of February 1, 1991, delegated to OPM the President's authority under 5 U.S.C. 5305(g)(1) to determine the extent to which employees receiving special salary rates will receive locality pay. Section 5 of Executive Order 12786 of December 26, 1991, delegated to OPM the President's authority under section 302(e) of the Federal Employees Pay Comparability Act of 1990 (FEPCA) (Pub. L. 101–509) to determine the extent to which employees receiving special salary rates will receive interim geographic adjustments (IGA's).

After careful consideration of the comments received, OPM has concluded that the rates of pay established under the special salary rate program were established primarily to

VOL 58 ISS 249 DEC 30 1993 UMI

reduce staffing problems caused by differences between Federal and non-Federal pay. To make locality payments on top of such special salary rates would inappropriately pyramid similar pay entitlements. In the final rule, OPM has exercised its authority under section 3 of E.O. 12748 and section 5 of E.O. 12786 by providing that IGA's and locality payments will be based on an employee's scheduled annual rate of pay, excluding a special salary rate established under 5 U.S.C. 5305 (whether local, nationwide, or worldwide in coverage). No employee will suffer a reduction in pay as a result of implementing locality pay.

An agency commented that the pay retention regulations should be reviewed to prevent windfall pay increases when special salary rate authorizations are eliminated because the "locality rate of pay" equals or exceeds the special rate. By law, employees affected by a reduced or terminated special salary rate receive pay retention. Since the retained rate of pay is the employee's rate of basic pay for all purposes, locality pay must be paid on top of the retained rate. However, OPM does not plan to eliminate special salary rate authorizations solely because locality rates of pay overtake special rates.

An agency commented that there is a potential inequity if a promotion is based on a GS rate for an employee who is entitled to a locality rate of pay, but would be based on a special rate if the special rate is higher than the locality rate of pay. Since special salary rates will not be automatically eliminated solely because locality rates of pay overtake special rates, a promotion will continue to be based on the special rate, even if the employee is receiving a higher locality rate of pay.

Other Pay Administration Comments

A Federal managers' association and a labor organization commented that locality pay should be paid in addition to IGA's. OPM has not adopted this recommendation since IGA's were designed to allow the President to provide interim relief, pending implementation of the locality pay system in January 1994. The law (section 302(d)(2) of FEPCA) provides that IGA's may be reduced as the locality pay system takes effect. OPM also has authority under section 5 of E.O. 12786 to reduce the amount of IGA's when employees receive locality pay. Finally, the law requires that IGA's must be administered consistent with the administration of locality payments. Thus, both IGA's and locality payments must be calculated from the same rate of basic pay.

Section 404(a) of FEPCA provides OPM parallel authority to reduce the amount of special pay adjustments for law enforcement officers when such employees receive IGA's, special salary rates, or locality payments. The final regulations reflect OPM's exercise of this authority. (See § 531.304 (a) and (k).) Similarly, the final regulations reflect OPM's exercise of the authority in 5 U.S.C. 5305(g)(1), which provides that the President (or his designee) may determine the amount of a locality payment (if any) that may be granted to an employee who is also receiving a special salary rate authorized by OPM under 5 U.S.C. 5305. (See § 531.606(k).) As noted above, this authority was delegated to OPM by Executive Order 12748. Remarks on Notifications of Personnel Action (SF–50's) will inform employees when an IGA or special pay adjustment for LEO's has been reduced because an employee is entitled to locality pay.

As mentioned above, an agency expressed concern that recruitment problems might result if IGA's are continued for employees on nationwide or worldwide special salary rates when locality pay is implemented, but not permitted on top of special salary rates for new employees. Agencies have pay flexibilities available to them to resolve recruitment and retention problems, such as recruitment and relocation bonuses, retention allowances, and superior qualifications appointments above the minimum rate of the appropriate GS grade.

A professional organization and an agency commented that references to the Performance Management and Recognition System (PMRS) are obsolete, since the PMRS expired on October 31, 1993. We have changed references to PMRS employees to "GM employees (as defined in § 531.202)." This definition, which is incorporated in an interim rule that was published in the **Federal Register** on December 15, 1993 (58 FR 65531), provides that a GM employee is "an employee who was covered by the Performance Management and Recognition System under chapter 54 of title 5, United States Code, on October 31, 1993, and who continues to occupy a position as a supervisor or management official (as defined in paragraphs (10) and (11) of section 7103(a) of title 5, United States Code) in the same grade of the General Schedule and in the same agency without a break in service of more than 3 calendar days. Any reference to employees, grades, positions, or rates of basic pay under the General Schedule shall include GM employees for the purposes of subchapters I and III of chapter 53 of title 5, United States Code."

An employee noted that a GS employee may receive a retained rate of pay under 5 U.S.C. 5334(b)(2) and recommended that this authority be added to the other pay retention authorities cited in the definitions of scheduled annual rate of pay in three sections of the regulations. We have made these changes.

A professional association commented that an employee should be permitted to retain a locality rate of pay when he or she "transfers" into a locality pay area with a lower rate of locality pay. OPM has not adopted this recommendation since the locality pay system is designed to reflect differences in Federal and non-Federal pay in the locality where the employee's official duty station is located.

In addition, it should be noted that an entitlement to an adjusted annual rate of pay continued under § 531.106 or § 531.307 will end when an employee voluntarily or involuntarily moves to an official duty station in a non-IGA or non-special pay adjustment area, as applicable, or to a position that is not covered by a nationwide or worldwide special salary rate. On the other hand, an entitlement to an adjusted annual rate of pay continued under § 531.106 or § 531.307 will continue at the same dollar amount if an employee's official duty station is moved voluntarily or involuntarily to another IGA or special pay adjustment area, as applicable, where the employee's position will be covered by a nationwide or worldwide special salary rate.

An agency suggested that an employee retain a locality rate of pay when involuntarily downgraded within a locality pay area. As noted above under "Locality Pay for Employees Receiving Special Rates," locality pay must be paid on top of a retained rate of pay. The agency's suggestion would pyramid the locality-based comparability payment on top of a retained rate that was itself based on the locality rate of the higher grade. Under the final regulations, the retained rate will be based on the underlying GS rate, and locality pay will then be based on the retained rate of pay.

Two agencies recommended that the final regulations indicate that lump-sum payments for accumulated and accrued annual leave under subchapter VI of chapter 55, United States Code, must include the locality pay an employee would have received had he or she remained in Federal service. OPM has adopted this recommendation and has made conforming amendments to the regulations for interim geographic adjustments and special pay adjustments for law enforcement officers. (See §§ 531.103(d), 531.304(d), and 531.606(d).)

An agency recommended that the regulations specifically state that locality pay will be basic pay for purposes of the Thrift Savings Plan (TSP) under chapter 84 of title 5, United States Code, as well as the premium pay limitations in 5 U.S.C. 5547. The law specifies that locality pay will be basic pay "for purposes of retirement under chapters 83 or 84" (of title 5, U.S.C.), and the TSP is authorized by chapter 84. Although the final regulations do not specifically mention the TSP, they encompass the TSP by referring to chapters 83 or 84 of title 5, United States Code. (See §§ 531.103(b)(1), 531.304(b)(1), and 531.606(b)(1)). With regard to the comment about premium pay limitations, § 531.606(b)(3) of the final regulations states that locality pay will be considered basic pay for premium pay purposes, including the computation of premium pay limitations under 5 U.S.C. 5547.

Two agencies recommended that OPM include a list of personnel actions for which a locality rate of pay is not basic pay. Lists of purposes for which a locality rate of pay is basic pay, and for which IGA adjusted annual rates of pay and special law enforcement adjusted rates of pay are basic pay, are included in the regulations. The regulations have been revised to clarify that the same lists apply for IGA adjusted annual rates of pay and special law enforcement adjusted rates of pay that are continued under §§ 531.106(a) or 531.307(a), respectively. (See §§ 531.103(b) and 531.304(b).) In addition, the final regulations also include a number of technical and editorial corrections intended to clarify the intent of the proposed regulations.

Locality rates of pay, IGA adjusted annual rates of pay, special law enforcement adjusted rates of pay, and IGA or special law enforcement adjusted rates of pay that are continued under § 531.106(a) or § 531.307(a), respectively, are not to be used for any other pay administration purposes, such as setting pay when an employee is promoted, determining an employee's "highest previous rate," administering within-grade increases, determining supervisory differentials, and for grade and pay retention purposes. Instead, GS rates of basic pay, retained rates of pay, LEO special rates under section 403 of FEPCA, or special salary rates authorized by OPM under 5 U.S.C. 5305, as applicable, are used to set pay for these other personnel actions. (Please note, however, that OPM regulations generally preclude using special salary rates to determine an employee's "highest previous rate." See 5 CFR 531.203(d)(2).)

An agency commented that the definition of local special salary rate in § 531.301 did not appear in the January 1, 1993, revision of title 5 Code of Federal Regulations. (The final rule deletes this definition.) The definition was added by interim regulations on special pay adjustments for law enforcement officers that were published in the **Federal Register** on January 8, 1993 (58 FR 3200).

A professional association asked OPM to clarify the phrase "equivalent increase in pay within the meaning of section 5335 of title 5, United States Code" (§ 531.606(h)). An "equivalent increase" means an increase or increases in an employee's rate of basic pay equal to or greater than the difference between the rate of pay for the GS grade and step occupied by the employee and the rate of pay for the next higher step of that grade. (See 5 CFR 531.403.) Under 5 U.S.C. 5335(a), an employee normally begins a new waiting period for within-grade increase purposes when he or she receives an increase in pay equal to or greater than the amount of a within-grade increase.

An agency recommended that the regulations clarify what happens if the locality pay percentage decreases within a locality pay area. In the event of a reduction in the percentage rate of a locality payment, OPM will issue regulations or guidance to agencies as needed.

Comments Beyond the Scope of These Regulations

Several individuals opposed the implementation of locality pay, citing reasons such as the impact on the Federal budget and the adequacy of special salary rates. Since the law mandates a locality pay system for GS employees, such comments are beyond the scope of these regulations.

A professional association raised several questions concerning the precise method of calculating the locality pay percentage for each locality pay area. Such methodological issues were addressed in the report of the President's Pay Agent, which was sent to the President on November 30, 1993.

Several commenters requested the extension of locality payments to employees under non-GS pay systems, such as administrative law judges and members of the Senior Executive Service, the Foreign Service, and members of Boards of Contract Appeals. By Executive Order 12883 of November 29, 1993, the President has delegated to the President's Pay Agent his authority to extend locality-based comparability payments to employees under non-GS pay systems. On December 21, 1993, the Pay Agent determined that locality-based comparability payments should be extended to employees in certain categories of positions covered by non-GS pay systems. Further information about this determination has been provided to Federal agencies separately.

An employee asked whether the "dollar amount" of a pay increase for an employee whose adjusted annual rate of pay is continued under § 531.106(a) is an increase in the GS rate or the nationwide or worldwide special salary rate. The supplementary information for the proposed regulations clarified that this pay increase is the dollar amount of the "general adjustment under 5 U.S.C. 5303,"—i.e., the dollar amount of the increase in the GS rate of basic pay or, if applicable, a special rate for LEO's under section 403 of FEPCA.

Requests for Additional Information and Examples

Several commenters asked OPM to provide additional explanatory and clarifying information—such as training materials and computation and pay administration examples. OPM plans to provide agencies with additional explanatory information in the near future. An agency asked OPM to develop a computer-friendly pay table for each locality pay area. OPM is currently developing such pay tables.

Waiver of Delay in Effective Date

Pursuant to 5 U.S.C. 553(d)(3), I find that good cause exists for making these rules effective in less than 30 days. Section 305(b) of FEPCA provides that "the first calendar year in which comparability payments under section 5304 of title 5, United States Code (as amended by this Act), are paid shall be the calendar year beginning on January 1, 1994." These regulations are being made effective on the first day of the first pay period beginning on or after January 1, 1994, in order to carry out that statutory requirement.

E.O. 12291, Federal Regulation

I have determined that this is not a major rule as defined under section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that these regulations will not have a significant economic impact on a substantial number of small entities because they apply only to Federal agencies and employees.

List of Subjects

5 CFR Part 531

Government employees, Wages.

U.S. Office of Personnel Management.

James B. King,

Director.

Accordingly, OPM is amending 5 CFR part 531 of title 5, Code of Federal Regulations, as follows:

PART 531—PAY UNDER THE GENERAL SCHEDULE

1. The authority citation for part 531 is revised to read as follows:Q04

Authority: 5 U.S.C. 5115, 5307, 5338, and chapter 54; E.O. 12748, 56 FR 4521, February 4, 1991, 3 CFR 1991, Comp., p. 316;

Subpart A also issued under section 302 of the Federal Employees Pay Comparability Act of 1990 (FEPCA), 104 Stat. 1462, 5 U.S.C. 5304, 5305, and 5553, and E.O. 12786, 56 FR 67453, December 30, 1991, 3 CFR 1991 Comp., p 376;

Subpart B also issued under 5 U.S.C. 5303(g), 5333, 5334(a), 5402, and 7701(b)(2);

Subpart C also issued under section 404 of FEPCA, 104 Stat. 1466, section 3(7) of Pub. L. 102–378 (October 2, 1992), section 302 of FEPCA, 104 Stat. 1462, and 5 U.S.C. 5304, 5305, and 5553;

Subpart D also issued under 5 U.S.C. 5335(g), and 7701(b)(2);

Subpart E also issued under 5 U.S.C. 5336;

Subpart F also issued under 5 U.S.C. 5304, 5305(g)(1), and 5553, and E.O. 12883, 58 FR 63281, November 29, 1993.

Subpart A—Interim Geographic Adjustments

2. In § 531.101, the definition of *Local special salary rate* is removed, and the definition of *Scheduled annual rate of pay* is revised to read as follows:

§ 531.101 Definitions.

* * * * *

Scheduled annual rate of pay means—

(1) The General Schedule rate of basic pay for the employee's grade and step (or relative position in the rate range), including a special rate for law enforcement officers under section 403 of the Federal Employees Pay Comparability Act of 1990 (FEPCA) (Pub. L. 101–509), but exclusive of a special salary rate established under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA), an adjusted annual rate of pay continued under § 531.106, a "special law enforcement adjusted rate of pay" under subpart C of this part (including a rate continued under § 531.307), a "locality rate of pay" under subpart F of this part, or additional pay of any kind;

(2) For a GM employee (as defined in § 531.202) who is receiving a special salary rate established under 5 U.S.C. 5305 or similar provision of law, the rate of pay resulting from the following computation—

(i) Using the special salary rate schedule established under 5 U.S.C. 5305 or similar provision of law, subtract the dollar amount for step 1 of the employee's grade on the special salary rate schedule from the dollar amount for the employee's special salary rate; and

(ii) Add the result of paragraph (2)(i) of this definition to the dollar amount for step 1 of the employee's grade on the General Schedule; or

(3) A retained rate of pay under part 536 of this chapter, 5 CFR 359.705, or 5 U.S.C. 5334(b)(2), if applicable.

3. In § 531.103, paragraphs (a), (b) introductory text, (b)(1), (d), and (f) are revised, and a new paragraph (k) is added, to read as follows:

§ 531.103 Administration of adjusted rates of pay.

(a) An employee shall receive the greatest of—

(1) His or her rate of basic pay, including any applicable special salary rate established under 5 U.S.C. 5305 or similar provision of law or special rate for law enforcement officers under section 403 of FEPCA;

(2) An adjusted annual rate of pay under this subpart, where applicable, including an adjusted annual rate of pay continued under § 531.106;

(3) A "special law enforcement adjusted rate of pay" under subpart C of this part, where applicable, including a "special law enforcement adjusted rate of pay" continued under § 531.307; or

(4) A "locality rate of pay" under subpart F of this part, where applicable.

(b) An adjusted annual rate of pay and an adjusted annual rate of pay that is continued under § 531.106(a) are considered basic pay for the purpose of computing—

(1) Retirement deductions and benefits under chapters 83 or 84 of title 5, United States Code;

* * * * *

(d) An adjusted rate of pay is paid only for those hours for which an employee is in a pay status, except that an adjusted rate of pay shall be included in a lump-sum payment for annual leave under 5 U.S.C. 5551 or 5552.

* * * * *

(f) Except as provided in paragraph (g) of this section, entitlement to an adjusted annual rate of pay under this subpart terminates on the date—

(1) An employee's official duty station is no longer located in an interim geographic adjustment area;

(2) An employee is no longer in a position covered by this subpart;

(3) An employee separates from Federal service;

(4) An employee's special salary rate under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA) exceeds his or her adjusted annual rate of pay under this subpart;

(5) An employee's "special law enforcement adjusted rate of pay" under subpart C of this part exceeds his or her adjusted annual rate of pay under this subpart; or

(6) An employee's "locality rate of pay" under subpart F of this part exceeds his or her adjusted annual rate of pay under this subpart.

* * * * *

(k) When a employee's adjusted annual rate of pay under this subpart is greater than any applicable "locality rate of pay" under subpart F of this part or special salary rate under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA), the payment of the rate resulting from the comparison required by paragraph (a) of this section shall be deemed to have reduced the interim geographic adjustment payable under section 302 of FEPCA, as authorized by section 302(d)(2) or 302(e) of FEPCA, as the case may be.

4. A new § 531.106 is added to read as follows:

§ 531.106 Continuation of an adjusted annual rate of pay.

(a) Except as provided in paragraph (c) of this section, the dollar amount of an adjusted annual rate of pay that was calculated under regulations which included nationwide or worldwide special salary rates established under 5 U.S.C. 5305 in the definition of "scheduled annual rate of pay" shall not be reduced.

(b) At the time of an adjustment in pay under 5 U.S.C. 5303, an adjusted annual rate of pay continued under paragraph (a) of this section shall be increased by the lesser of—

(1) The dollar amount of the adjustment (including a zero adjustment) made under 5 U.S.C. 5303 in the General Schedule rate of basic pay for the employee's grade and step (or relative position in the rate range); or

(2) The dollar amount of the adjustment (including a zero adjustment) in the special salary rate applicable to the employee as a result of the annual review of special rates required by 5 CFR 530.304.

(c) An adjusted annual rate of pay that is continued under paragraph (a) of this section terminates on the date any of the conditions specified in § 531.103(f) is satisfied or on the date an employee is reduced in grade or is no longer in a position covered by a nationwide or worldwide special rate authorization (or, in the event of the conversion of a nationwide or worldwide special rate authorization to a local special rate authorization, a position covered by the new local special rate authorization).

Subpart C—Special Pay Adjustments for Law Enforcement Officers

5. In § 531.301, the definition of local special salary rate is removed, and the definition of scheduled annual rate of pay is revised to read as follows:

§ 531.301 Definitions.

* * * * *

Scheduled annual rate of pay means—

(1) The General Schedule rate of basic pay for the employee's grade and step (or relative position in the rate range), including a special rate for law enforcement officers under section 403 of the Federal Employees Pay Comparability Act of 1990 (FEPCA) (Pub. L. 101–509), but exclusive of a special salary rate established under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA), an "adjusted annual rate of pay" under subpart A of this part (including a rate continued under § 531.106), a "locality rate of pay" under subpart F of this part, or additional pay of any kind;

(2) For a GM employee (as defined in § 531.202) who is receiving a special salary rate under 5 U.S.C. 5305 or similar provision of law, the rate of pay resulting from the following computation—

(i) Using the special salary rate schedule established under 5 U.S.C. 5305 or similar provision of law, subtract the dollar amount for step 1 of the employee's grade on the special salary rate schedule from the dollar amount for the employee's special salary rate; and

(ii) Add the result of paragraph (2)(i) of this definition to the dollar amount for step 1 of the employee's grade on the General Schedule; or

(3) A retained rate of pay under part 536 of this chapter, 5 CFR 359.705, or 5 U.S.C. 5334(b)(2), if applicable.

* * * * *

6. In § 531.304, paragraphs (a), (b) introductory text, (b)(1), (d), and (f) are revised, and a new paragraph (k) is added, to read as follows:

§ 531.304 Administration of special law enforcement adjusted rates of pay.

(a) A law enforcement officer shall receive the greatest of—

(1) His or her rate of basic pay, including any applicable special salary rate established under 5 U.S.C. 5305 or similar provision of law or special rate for law enforcement officers under section 403 of FEPCA;

(2) An "adjusted annual rate of pay" under subpart A of this part, where applicable, including an "adjusted annual rate of pay" continued under § 531.106;

(3) A special law enforcement adjusted rate of pay under this subpart, where applicable, including a special law enforcement adjusted rate of pay continued under § 531.307; or

(4) A "locality rate of pay" under subpart F of this part, where applicable.

(b) A special law enforcement adjusted rate of pay and a special law enforcement adjusted rate of pay that is continued under § 531.307(a) are considered basic pay for the purpose of computing—

(1) Retirement deductions and benefits under chapters 83 or 84 of title 5, United States Code;

* * * * *

(d) A special law enforcement adjusted rate of pay is paid only for those hours for which a law enforcement officer is in a pay status, except that a special law enforcement adjusted rate of pay shall be included in a lump-sum payment for annual leave under 5 U.S.C. 5551 or 5552.

* * * * *

(f) Except as provided in paragraph (g) of this section, entitlement to a special law enforcement adjusted rate of pay under this subpart terminates on the date—

(1) An employee's official duty station is no longer located in a special pay adjustment area;

(2) An employee is no longer in a position covered by this subpart;

(3) An employee separates from Federal service;

(4) An employee's special salary rate under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA) exceeds his or her special law enforcement adjusted rate of pay under this subpart; or

(5) An employee's "locality rate of pay" under subpart F of this subpart exceeds his or her special law enforcement adjusted rate of pay under this subpart.

* * * * *

(k) When an employee's special law enforcement adjusted rate of pay under this subpart is greater than any applicable "adjusted annual rate of pay" under subpart A of this part, "locality rate of pay" under subpart F of this part, or special salary rate under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA), the payment of the rate resulting from the comparison required by paragraph (a) of this section shall be deemed to have reduced the special pay adjustment for law enforcement officers payable under section 404 of FEPCA, as authorized by section 404(a) of FEPCA.

7. A new § 531.307 is added to read as follows:

§ 531.307 Continuation of a special law enforcement adjusted rate of pay.

(a) Except as provided in paragraphs (c) and (d) of this section, the dollar amount of a special law enforcement adjusted rate of pay that was calculated under regulations which included nationwide or worldwide special salary rates established under 5 U.S.C. 5305 in the definition of "scheduled annual rate of pay" shall not be reduced.

(b) At the time of an adjustment in pay under 5 U.S.C. 5303, a special law enforcement adjusted rate of pay continued under paragraph (a) of this section shall be increased by the lesser of—

(1) The dollar amount of the adjustment (including a zero adjustment) made under 5 U.S.C. 5303 in the General Schedule rate of basic pay for the employee's grade and step (or relative position in the rate range); or

(2) The dollar amount of the adjustment (including a zero adjustment) in the special salary rate applicable to the employee as a result of the annual review of special rates required by 5 CFR 530.304.

(c) When an employee who is receiving a special law enforcement adjusted rate of pay continued under paragraph (a) of this section moves to a position in another special pay adjustment area to which a lesser special pay adjustment factor is applicable under § 531.302(a), the continued rate shall be reduced. The reduced continued rate shall be derived by—

(1) Determining the special law enforcement adjusted rate of pay to which the employee would have been entitled immediately before the employee's continued rate was first established if the special pay adjustment factor for the new area had been applicable; and

(2) Adjusting that rate as required under paragraph (b) of this section during the intervening period.

(d) A special law enforcement adjusted rate of pay that is continued under this section terminates on the date any of the conditions specified in § 531.304(f) is satisfied or on the date an employee is reduced in grade or is no longer in a position covered by a

nationwide or worldwide special rate authorization (or, in the event of the conversion of a nationwide or worldwide special rate authorization to a local special rate authorization, a position covered by the new local special rate authorization).

8. A new subpart F is added to read as follows:

Subpart F—Locality-Based Comparability Payments

Sec.

531.601 Purpose.
531.602 Definitions.
531.603 Locality pay areas.
531.604 Determining locality rates of pay.
531.605 Computation of hourly, daily, weekly, and biweekly locality rates of pay.
531.606 Administration of locality rates of pay.
531.607 Reports.

Subpart F—Locality-Based Comparability Payments

§ 531.601 Purpose.

This subpart provides regulations to implement 5 U.S.C. 5304, which authorizes locality-based comparability payments to reduce pay disparities with non-Federal workers within each locality when the locality is determined to have a pay disparity of greater than 5 percent. These regulations must be read together with 5 U.S.C. 5304.

§ 531.602 Definitions.

In this subpart:

CMSA means a Consolidated Metropolitan Statistical Area, as defined by the Office of Management and Budget (OMB).

Continental United States means the several States and the District of Columbia, but does not include Alaska or Hawaii.

Employee means—

(1) An employee in a position to which subchapter III of chapter 53 of title 5, United States Code, applies and whose official duty station is located in a locality pay area within the continental United States, including a GM employee (as defined in § 531.202) and an employee in a position authorized by 5 CFR 213.3102(w) whose rate of basic pay is established under the General Schedule; and

(2) An employee in a category of positions described in 5 U.S.C. 5304(h)(1) (A), (B), (D), or (E) for which the President (or his designee) has authorized locality-based comparability payments under 5 U.S.C. 5304(h)(2) and whose official duty station is located in a locality pay area.

General Schedule means the basic pay schedule established under 5 U.S.C. 5332, as adjusted by the President under 5 U.S.C. 5303.

Locality pay area means an area listed in § 531.603 of this part, as established and modified under 5 U.S.C. 5304 by the Pay Agent designated by the President under 5 U.S.C. 5304(d)(1).

Locality rate of pay means an employee's scheduled annual rate of pay increased by the percentage determined under § 531.604(a) and rounded to the nearest whole dollar, counting 50 cents and over as the next higher dollar.

MSA means a Metropolitan Statistical Area, as defined by the Office of Management and Budget (OMB).

Official duty station means the duty station for an employee's position of record as indicated on his or her most recent notification of personnel action.

Scheduled annual rate of pay means—

(1) The General Schedule rate of basic pay for the employee's grade and step (or relative position in the rate range), including a special rate for law enforcement officers under section 403 of the Federal Employees Pay Comparability Act of 1990 (FEPCA) (Pub. L. 101–509), but *exclusive of* a special salary rate established under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA), an "adjusted annual rate of pay" under subpart A of this part (including a rate continued under § 531.106), a "special law enforcement adjusted rate of pay" under subpart C of this part (including a rate continued under § 531.307), or additional pay of any kind;

(2) For a GM employee (as defined in § 531.202) who is receiving a special salary rate under 5 U.S.C. 5305 or similar provision of law, the rate of pay resulting from the following computation—

(i) Using the special salary rate schedule established under 5 U.S.C. 5305 or similar provision of law, subtract the dollar amount for step 1 of the employee's grade on the special salary rate schedule from the dollar amount for the employee's special salary rate; and

(ii) Add the result of paragraph (2)(i) of this definition to the dollar amount for step 1 of the employee's grade on the General Schedule;

(3) The retained rate of pay under part 536 of this chapter, 5 CFR 359.705, or 5 U.S.C. 5334(b)(2), if applicable; or

(4) The rate of basic pay for an employee in a category of positions described in 5 U.S.C. 5304(h)(1) (A), (B), (D), or (E) for which the President (or his designee) has authorized locality-based comparability payments under 5 U.S.C. 5304(h)(2).

§ 531.603 Locality pay areas.

(a) Locality rates of pay under this subpart shall be payable to employees whose official duty stations are located in the locality pay areas listed in paragraph (b) of this section.

(b) The following are locality pay areas for the purpose of this subpart:

(1) Atlanta, GA—consisting of the Atlanta, GA MSA;

(2) Boston-Worcester-Lawrence, MA–NH–ME–CT—consisting of the Boston-Worcester-Lawrence, MA–NH–ME–CT CMSA;

(3) Chicago-Gary-Kenosha, IL–IN–WI—consisting of the Chicago-Gary-Kenosha, IL–IN–WI CMSA;

(4) Cincinnati-Hamilton, OH–KY–IN—consisting of the Cincinnati-Hamilton, OH–KY–IN CMSA;

(5) Cleveland-Akron, OH—consisting of the Cleveland-Akron, OH CMSA;

(6) Dallas-Fort Worth, TX—consisting of the Dallas-Fort Worth, TX CMSA;

(7) Dayton-Springfield, OH—consisting of the Dayton-Springfield, OH MSA;

(8) Denver-Boulder-Greeley, CO—consisting of the Denver-Boulder-Greeley, CO CMSA;

(9) Detroit-Ann Arbor-Flint, MI—consisting of the Detroit-Ann Arbor-Flint, MI CMSA;

(10) Houston-Galveston-Brazoria, TX—consisting of the Houston-Galveston-Brazoria, TX CMSA;

(11) Huntsville, AL—consisting of the Huntsville, AL MSA;

(12) Indianapolis, IN—consisting of the Indianapolis, IN MSA;

(13) Kansas City, MO–KS—consisting of the Kansas City, MO-KS MSA;

(14) Los Angeles-Riverside-Orange County, CA—consisting of the Los Angeles-Riverside-Orange County, CA CMSA, plus Santa Barbara County, CA, and that portion of Edwards Air Force Base, CA, not located within the Los Angeles-Riverside-Orange County, CA CMSA;

(15) Memphis, TN–AR–MS—consisting of the Memphis, TN–AR–MS MSA;

(16) New York-Northern New Jersey-Long Island, NY–NJ–CT–PA—consisting of the New York-Northern New Jersey-Long Island, NY–NJ–CT–PA CMSA;

(17) Norfolk-Virginia Beach-Newport News, VA–NC—consisting of the Norfolk-Virginia Beach-Newport News, VA–NC MSA;

(18) Oklahoma City, OK—consisting of the Oklahoma City, OK MSA;

(19) Philadelphia-Wilmington-Atlantic City, PA–NJ–DE–MD—consisting of the Philadelphia-Wilmington-Atlantic City, PA–NJ–DE–MD CMSA;

(20) Sacramento-Yolo, CA—consisting of the Sacramento-Yolo, CA CMSA;

(21) St. Louis, MO–IL—consisting of the St. Louis, MO–IL MSA;

(22) Salt Lake City-Ogden, UT—consisting of the Salt Lake City-Ogden, UT MSA;

(23) San Antonio, TX—consisting of the San Antonio, TX MSA;

(24) San Diego, CA—consisting of the San Diego, CA MSA;

(25) San Francisco-Oakland-San Jose, CA—consisting of the San Francisco-Oakland-San Jose, CA CMSA;

(26) Seattle-Tacoma-Bremerton, WA—consisting of the Seattle-Tacoma-Bremerton, WA CMSA;

(27) Washington-Baltimore, DC–MD–VA–WV—consisting of the Washington-Baltimore, DC–MD–VA–WV CMSA, plus St. Mary's County, MD; and

(28) Rest of U.S.—consisting of those portions of the continental United States not located within another locality pay area.

§ 531.604 Determining locality rates of pay.

(a) To determine the locality rate of pay payable to an employee, the applicable scheduled annual rate of pay shall be increased by the percentage authorized by the President for the locality pay area in which the employee's official duty station is located.

(b) Except as provided in paragraph (c) of this section, locality rates of pay may not exceed the rate of basic pay payable for level IV of the Executive Schedule.

(c) The locality rates of pay approved by the President for an employee in a position described in 5 U.S.C. 5304(h)(1) (A)–(E), or in a position under 5 U.S.C. 5304(h)(1)(F) which the President or his designee may determine, may not exceed the rate of basic pay payable for level III of the Executive Schedule.

§ 531.605 Computation of hourly, daily, weekly, and biweekly locality rates of pay.

When it is necessary to convert an annual locality rate of pay to an hourly, daily, weekly, or biweekly rate, the following methods apply:

(a) To derive an hourly rate, divide the annual locality rate of pay by 2,087 and round to the nearest cent, counting one-half cent and over as the next higher cent;

(b) To derive a daily rate, multiply the hourly rate by the number of daily hours of service required by the employee's basic daily tour of duty;

(c) To derive a weekly or biweekly rate, multiply the hourly rate by 40 or 80, as the case may be.

§ 531.606 Administration of locality rates of pay.

(a) An employee shall receive the greatest of—

(1) His or her rate of basic pay, including any applicable special salary rate established under 5 U.S.C. 5305 or similar provision of law or special rate for law enforcement officers under section 403 of FEPCA;

(2) An "adjusted annual rate of pay" under subpart A of this part, where applicable, including an "adjusted annual rate of pay" continued under § 531.106;

(3) A "special law enforcement adjusted rate of pay" under subpart C of this part, where applicable, including a "special law enforcement adjusted rate of pay" continued under § 531.307; or

(4) A locality rate of pay under this subpart, where applicable.

(b) A locality rate of pay is considered basic pay for the purpose of computing—

(1) Retirement deductions and benefits under chapters 83 or 84 of title 5, U.S. Code;

(2) Life insurance premiums and benefits under parts 870, 871, 872, and 873 of this chapter;

(3) Premium pay under subparts A and I of part 550 of this chapter (including the computation of limitations on premium pay under 5 U.S.C. 5547, overtime pay under 5 U.S.C. 5542(a), compensatory time off under 5 U.S.C. 5543, and standby duty pay under 5 U.S.C. 5545(c)(1));

(4) Severance pay under subpart G of part 550 of this chapter; and

(5) Advances in pay under subpart B of part 550 of this chapter.

(c) When an employee's official duty station is changed to a different locality pay area, the employee's entitlement to the locality rate of pay for the new locality pay area begins on the effective date of the change in official duty station.

(d) A locality rate of pay is paid only for those hours for which an employee is in a pay status, except that a locality rate of pay must be included in a lump-sum payment for annual leave under 5 U.S.C. 5551 or 5552.

(e) A locality rate of pay shall be adjusted as of the effective date of any change in the applicable scheduled annual rate of pay.

(f) Except as provided in paragraph (g) of this section, entitlement to a locality rate of pay established for a locality pay area under this subpart terminates on the date—

(1) An employee's official duty station is no longer in the locality pay area;

(2) An employee is no longer in a position covered by this subpart;

(3) An employee separates from Federal service; or

(4) An employee's special salary rate under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA) exceeds his or her locality rate of pay.

(g) In the event of a change in the geographic coverage of a locality pay area (as a result of a change made by OMB in the definition of an MSA or CMSA or as a result of a change made by the President's Pay Agent in the definition of a locality pay area), the effective date of the change in an employee's entitlement to a locality rate of pay under this subpart shall be the first day of the first applicable pay period beginning on or after the date on which the change in geographic coverage is made effective.

(h) Payment of, or an increase in, a locality rate of pay is not an equivalent increase in pay within the meaning of section 5335 of title 5, United States Code.

(i) A locality rate of pay is included in an employee's "total remuneration," as defined in 5 CFR 551.511(b), and "straight time rate of pay," as defined in 5 CFR 551.512(b), for the purpose of computations under the Fair Labor Standards Act of 1938, as amended.

(j) Reduction or termination of a locality rate of pay under paragraph (f) of this section is not an adverse action for the purpose of subpart D of part 752 of this chapter or an action under 5 CFR 930.214.

(k) When an employee's locality rate of pay under this subpart is greater than any applicable special salary rate under 5 U.S.C. 5305 or similar provision of law (other than section 403 of FEPCA), the payment of the rate resulting from the comparison required by paragraph (a) of this section is deemed to have reduced the locality rate of pay payable under 5 U.S.C. 5304, as authorized by 5 U.S.C. 5305(g)(1).

§ 531.607 Reports.

The Office of Personnel Management may require agencies to report pertinent information concerning the administration of payments under this subpart.

BILLING CODE 6325–01–M

OFFICE OF GOVERNMENT ETHICS

5 CFR Parts 2600, 2636, 2637, and 2638

RINs: 3209–AA13, 3209–AA14

Corrections and Updating to Certain Regulations of the Office of Government Ethics

AGENCY: Office of Government Ethics (OGE).

ACTION: Final rule; technical amendments.

SUMMARY: The Office of Government Ethics is correcting and updating some of its regulations.

EFFECTIVE DATE: December 30, 1993.

FOR FURTHER INFORMATION CONTACT: William E. Gressman, Office of Government Ethics, telephone: 202–523–5757, FAX: 202–523–6325.

SUPPLEMENTARY INFORMATION: The Office of Government Ethics (OGE) is amending certain of its regulations, codified at 5 CFR parts 2600, 2636, 2637, and 2638, to correct a few minor typographical errors and update two authority citations.

Administrative Procedure Act

Pursuant to 5 U.S.C. 553 (b) and (d), as Director of the Office of Government Ethics, I find good cause exists for waiving the general notice of proposed rulemaking and 30-day delay in effectiveness as to these minor revisions. The notice and delayed effective date are being waived because these regulations concern matters of agency organization, practice and procedure and because it is in the public interest that correct and up-to-date information be contained in OGE's regulations in time for inclusion in the 1994 edition of title 5 of the CFR, if possible.

Regulatory Flexibility Act

As Director of the Office of Government Ethics, I certify under the Regulatory Flexibility Act (5 U.S.C. chapter 6) that this rulemaking will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. chapter 35) does not apply because this rulemaking does not contain information collection requirements that require the approval of the Office of Management and Budget.

List of Subjects in 5 CFR Parts 2600, 2636, 2637, and 2638

Administrative practice and procedure, Conflict of interests, Government employees, Reporting and recordkeeping requirements.

Approved: December 23, 1993.

Stephen D. Potts,

Director, Office of Government Ethics.

Accordingly, the Office of Government Ethics pursuant to its authority under title IV of the Ethics in Government Act is amending and correcting 5 CFR parts 2600, 2636, 2637, and 2638 as follows:

PART 2600—[AMENDED]

1. The authority citation for part 2600 is revised to read as follows:

Authority: 5 U.S.C. App. (Ethics in Government Act of 1978); E.O. 12674, 54 FR 15159, 3 CFR, 1989 Comp., p. 215, as modified by E.O. 12731, 55 FR 42547, 3 CFR, 1990 Comp., p. 306.

PART 2636—[CORRECTED]

2. The authority citation for part 2636 continues to read as follows:

Authority: 5 U.S.C. App. (Ethics in Government Act of 1978); E.O. 12674, 54 FR 15159, 3 CFR, 1989 Comp., p. 215, as modified by E.O. 12731, 55 FR 42547, 3 CFR, 1990 Comp., p. 306.

§ 2636.305 [Corrected]

3. In § 2636.305, the heading of paragraph (b) *"Definitons"* is revised to read *"Definitions"*.

PART 2637—[AMENDED]

4. The authority citation for part 2637 is revised to read as follows:

Authority: 5 U.S.C. App. (Ethics in Government Act of 1978); 18 U.S.C. 207 (1988).

PART 2638—[CORRECTED]

5. The authority citation for part 2638 continues to read as follows:

Authority: 5 U.S.C. App. (Ethics in Government Act of 1978); E.O. 12674, 54 FR 15159, 3 CFR, 1989 Comp., p. 215, as modified by E.O. 12731, 55 FR 42547, 3 CFR, 1990 Comp., p. 306.

§ 2638.203 [Corrected]

6. In § 2638.203, the cross-reference in paragraph (b)(3) "§ 2634.604(c)" is revised to read "§ 2634.605(c)" and the word "effectivelly" in paragraph (b)(4) is revised to read "effectively".

§ 2638.204 [Amended]

7. In § 2638.204, the respective second cross-references in both paragraphs (a) and (b) "§ 2634.604(c)(2)" are revised to read "§ 2634.605(c)(2)".

BILLING CODE 6345–01–U

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 319

[Docket No. 92–177–4]

Importation of Fruits and Vegetables

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: We are allowing a number of previousiy prohibited fruits and vegetables to be imported into the United States from certain parts of the world. All of the fruits and vegetables, as a condition of entry, will be subject to inspection, disinfection, or both, at the port of first arrival as may be required by a U.S. Department of Agriculture inspector. In addition, some of the fruits and vegetables will be required to undergo prescribed treatments for fruit flies or other injurious insects as a condition of entry, or to meet other special conditions. This action will provide the United States with additional kinds and sources of fruits and vegetables while continuing to provide protection against the introduction and dissemination of injurious plant pests by imported fruits and vegetables.

EFFECTIVE DATE: December 30, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. Frank E. Cooper, Senior Operations Officer, Port Operations, Plant Protection and Quarantine, APHIS, USDA, room 635, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–8295.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 7 CFR 319.56 through 319.56–8 (referred to below as the regulations) prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of injurious insects that are new to or not widely distributed within and throughout the United States.

On August 10, 1993, we published a document in the **Federal Register** (58 FR 42504–42513, Docket No. 92–177–1) in which we proposed to amend the regulations to allow additional fruits and vegetables to be imported into the United States from certain parts of the world under specified conditions. The importation of those fruits and vegetables had been prohibited because of the risk that the fruits and vegetables could introduce injurious insects into the United States. We proposed to allow those importations at the request of various importers and foreign ministries of agriculture, and after determining that the fruits or vegetables could be imported under certain conditions without significant pest risk. In the proposed rule, we also proposed to modify the format of one section of the regulations for the sake of clarity.

We solicited comments on the proposed rule for a 30-day period ending on September 9, 1993. We received two comments by that date, from a State agricultural agency and a foreign embassy. One comment supported the proposed importation of peppers from Israel without commenting on any other aspect of the proposed rule. The other commenter had two concerns regarding our proposal.

First, the commenter pointed out the need for the Animal and Plant Health Inspection Service (APHIS) to constantly monitor and review the fruit fly detection programs used by other countries to establish designated fruit fly-free areas. We fully recognize this need, and have APHIS personnel stationed overseas to evaluate the effectiveness of the survey and regulatory programs that are used by foreign plant protection organizations to maintain recognized plant pest-free areas. APHIS has had experience with plant pest-free areas in several countries, and we believe that such areas are an important part of our approach to preventing the introduction of plant pests while allowing international trade in produce.

The commenter was also concerned that the burden of inspection and pest detection has been placed on APHIS inspectors who, due to a lack of resources, have only a limited ability to thoroughly inspect commodities arriving in the United States. Inspection at the port of first arrival is only one aspect of APHIS' approach to plant pest exclusion, and is never the sole means of plant pest exclusion for any commodity. Before a fruit or vegetable is approved for importation into the United States, a plant pest risk analysis is conducted for the commodity. If a plant pest risk is found to be associated with a commodity proposed for importation, APHIS then determines what, if any, measures can be taken to reduce the risk to a level that would allow the commodity to be safely imported into the United States. For example, in certain cases our regulations impose restrictions such as specific growing and shipping requirements or inspection in the country of origin. Certain commodities are required to be treated for pests at the point of origin, while in transit, or upon arrival in the United States. As a final precaution, all fruits and vegetables are subject to inspection at the port of first arrival. APHIS inspectors are aware of potential pest risks associated with a particular commodity and conduct their inspections accordingly. We consider the measures taken in the exporting countries, coupled with the safeguards required by the regulations, to be adequate to prevent the introduction of injurious plant pests into the United States.

Therefore, based on the rationale set forth in the proposed rule, we are adopting the provisions of the proposal as a final rule.

Executive Order 12866 and Regulatory Flexibility Act

This rule has been reviewed under Executive Order 12866.

This rule amends the regulations governing the importation of fruits and vegetables by allowing a number of previously prohibited fruits and vegetables to be imported into the United States under specified conditions. The importation of these fruits and vegetables had been prohibited because of the risk that they could introduce injurious plant pests into the United States. This rule revises the status of certain commodities from certain countries, allowing their importation into the United States for the first time.

Our changes are based on biological risk assessments that were conducted by APHIS at the request of various importers and foreign ministries of agriculture. The risk assessments indicate that the fruits or vegetables listed in this rule can, under certain conditions, be imported into the United States without significant plant pest risk. All of the fruits and vegetables, as a condition of entry, will be subject to inspection, disinfection, or both, at the port of first arrival as may be required by a U.S. Department of Agriculture (USDA) inspector. In addition, some of the fruits and vegetables in this rule will be required to undergo mandatory treatment for fruit flies or other injurious insects as a condition of entry, or to meet other special conditions. Thus, this action will provide the United States with additional kinds and sources of fruits and vegetables while continuing to provide protection against the introduction of injurious plant pests by imported fruits and vegetables.

Of the fruits and vegetables included in this rule, domestic production information is available only for basil, blueberries, carrots, limes, peppers, tomatoes, and watermelon.

Basil

Domestic commercial production of basil is centered largely in California, Florida, and Hawaii. Only Hawaii, however, reports its herb production. A total of 390,000 pounds of basil, with an estimated value of $715,000, was produced in Hawaii in 1991 (Hawaii Agriculture Statistics Service, Hawaii Department of Agriculture, "Hawaii Herbs," November 19, 1992). The number of farms producing basil is not known, nor is it known how many of the producers are considered to be small entities (annual gross receipts of $0.5 million or less, according to Small Business Administration (SBA) criteria).

This rule allows basil from Chile to be imported into the United States under certain conditions. Although Chile has not indicated the amount of basil it plans to export to the United States, we do not expect the importation of basil from Chile to have a significant economic impact on U.S. producers of the herb.

Blueberries

In the United States in 1987, 109.4 million pounds of cultivated blueberries were harvested on nearly 4,000 farms in 36 States. An additional 32.6 million pounds of wild blueberries were harvested on about 500 farms in 6 of those States (U.S. Department of Commerce, "1987 Census of Agriculture," Table 29). The total value of the 1987 blueberry harvest and the number of producers that meet the SBA's criteria for a small business (annual gross receipts of less than $0.5 million) are not known.

This rule allows blueberries from Bolivia and Mexico to be imported into the United States under certain conditions. APHIS does not anticipate that high volumes of blueberries will be imported from Bolivia and Mexico, so the economic impact of those importations on domestic blueberry producers is expected to be small.

Carrots

In 1987, a total of 1,580 U.S. farms harvested carrots (U.S. Department of Commerce, "1987 Census of Agriculture," Table 29); 960 of those farms were located in the 10 States that accounted for nearly 99 percent of domestic carrot production (USDA, National Agricultural Statistics Service [NASS], Agricultural Statistics Board [ASB], "1992 Vegetable Summary"). In 1991, domestic producers of carrots harvested approximately 1.9 billion pounds of carrots for sale as fresh,

VOL 58 ISS 249 DEC 30 1993 UMI

which is about 69 percent of total domestic carrot production. The remaining carrots were sold for processing. The total value of the fresh carrot production was estimated at $281.6 million (USDA, NASS, ASB, "1992 Vegetable Summary"). The number of domestic carrot producers meeting SBA criteria for small entities—annual gross receipts of less than $0.5 million—is not known, but given the number of producers and the value of production, it is likely that most carrot producers could be classified as small entities.

This rule allows carrots from Peru to be imported into the United States under certain conditions. According to the United Nations Food and Agriculture Organization (FAO), Peru produced approximately 121.3 million pounds of carrots in 1991, which is about 6.3 percent of U.S. production (FAO, "FAO Production Year 1991," Volume 45). The United States imported approximately 137 million pounds of carrots in 1991, with about 23 percent (31.3 million pounds) coming from Mexico. Even if the volume of carrots imported into the United States from Peru approaches the level of carrot imports from Mexico—which is unlikely—that volume equals only 1.6 percent of domestic production and about 1.5 percent of the total carrot supply (domestic and imported) in the United States. Assuming that a 1.5 percent increase in the total carrot supply will lead to a 1.5 percent decrease in domestic carrot prices (i.e., unitary price elasticity), there would be a price decrease of about $0.22 per hundredweight, or $0.0022 per pound, from an original price of $14.60 per hundredweight (USDA, NASS, ASB, "1992 Vegetable Summary"). As a result, again assuming unitary price elasticity, domestic carrot production would decrease by about 29.2 million pounds, resulting in a revenue decrease of $8.5 million (less than a 3 percent decrease in total revenue) for domestic producers. Therefore, we expect that allowing carrots to be imported into the United States from Peru will have a negligible economic impact on U.S. carrot producers.

Limes

From April 1990 to March 1991, 127.6 million pounds of limes, with an estimated value of $27.9 million, were harvested in the United States (USDA, "Agricultural Statistics, 1991," Table 277). Ninety percent of domestically produced limes are grown in Florida, with the remainder being grown in Arizona, California, and Hawaii. It is likely that most U.S. lime producers could be considered small entities using SBA size criteria of annual gross receipts of less than $0.5 million.

This rule allows limes from Chile to be imported into the United States under certain conditions. APHIS experts expect that Chile will export no more than 4.4 million pounds of limes to the United States, which is about 4.5 percent of total U.S. lime imports, about 3.4 percent of domestic production, and about 2.0 percent of the total lime supply. Assuming unitary price elasticity, a 2.0 percent increase in the total lime supply will lead to a 2.0 percent decrease in the domestic price of limes, or about $0.38 per box on an original price of $19.21 per box (USDA, "Agricultural Statistics, 1991," Table 277). The corresponding decrease in U.S. lime production would be 125 million pounds, resulting in a maximum revenue decrease of $1.1 million (less than 4 percent) for domestic producers. Therefore, we anticipate that allowing the importation of limes from Chile will not have a significant economic impact on U.S. lime producers.

Peppers

In 1992, 1.3 billion pounds of bell peppers, with an estimated value of $368 million, were produced domestically for the fresh market (USDA, NASS, ASB, "1992 Vegetable Summary"). In 1987, a total of 9,403 farms reported harvesting peppers on a total of 100,521 acres. It is likely that most U.S. pepper producers could be considered small entities using SBA size criteria of annual gross receipts of less than $0.5 million.

This rule allows peppers from Israel and Poland to be imported into the United States under certain conditions. In 1991, Israel reported producing approximately 116.8 million pounds of green chilies and peppers (FAO, "FAO Production Yearbook, 1991"), which is roughly 8.7 percent of U.S. production. We anticipate that Israel will export no more than 400,000 pounds of peppers, which equals approximately 0.14 percent of current U.S. pepper imports, about 0.03 percent of current U.S. production, and about 0.02 percent of the total pepper supply in the United States (USDA, Economic Research Service [ERS], "Foreign Agricultural Trade of the United States [FATUS], Calendar Year 1991 Supplement"). Assuming that a 0.02 percent increase in the pepper supply will lead to corresponding 0.02 percent decreases in domestic price and production, there would be a $0.0068 per hundredweight price decrease (from an original price of $27.41 per hundredweight) and a production drop of about 330,000 pounds, which equals a revenue decrease of $180,000 or 0.05 percent. Therefore, we anticipate that allowing the importation of peppers from Israel will not have a significant economic impact on U.S. pepper producers.

Data regarding Polish pepper production and exports are not available. We anticipate, however, that Poland will not export significantly more peppers than are expected from Israel, so it is likely that allowing peppers to be imported into the United States from Poland will have only a negligible economic impact on U.S. pepper producers.

Tomatoes

In 1987, a total of 14,542 U.S. farms harvested tomatoes (U.S. Department of Commerce, "1987 Census of Agriculture"). The number of domestic tomato producers that meet SBA criteria for small entities—annual gross receipts of less than $0.5 million—is not known, but it is likely that most tomato producers could be classified as small entities. In 1991, domestic producers of tomatoes harvested approximately 3.4 billion pounds of tomatoes for sale as fresh, which makes up about 13 percent of total domestic tomato production. (The remaining 87 percent of tomatoes were sold for processing.) The total value of the fresh tomato production was estimated at $1.1 billion, about 57 percent of the total value of domestic tomato production (USDA, NASS, ASB, "1992 Vegetable Summary").

This rule allows tomatoes from Poland to be imported into the United States under certain conditions. According to FAO data, Poland produced approximately 913 million pounds of tomatoes in 1991, which is about 26.9 percent of U.S. fresh production (FAO, "FAO Production Yearbook, 1991"). The United States imported approximately 795.5 million pounds of fresh tomatoes in 1991, with about 98 percent coming from Mexico (USDA, ERS, "FATUS, Calendar Year 1991 Supplement"). Poland exported 3.3 million pounds of tomatoes in 1990, which is roughly 0.36 percent of its total production (FAO, "FAO Trade Yearbook, 1990"). We do not expect the volume of tomatoes imported into the United States from Poland to exceed 3.3 million pounds, which is about 0.42 percent of total U.S. tomato imports, about 0.10 percent of domestic production, and about 0.08 percent of the total tomato supply. Assuming that a 0.08 percent increase in the total tomato supply will lead to a 0.08 percent decrease in domestic tomato prices, there would be a price decrease of about $0.025 per hundredweight, or $0.00025 per pound, from an original price of $31.80 per hundredweight (USDA, NASS, ASB, "1992 Vegetable Summary"). As a result, again assuming unitary price elasticity, there would be a decrease in domestic tomato production of about 2.7 million pounds, which would result in a revenue decrease of $1.7 million (less than a 0.16 percent decrease in total revenue) for domestic producers. Therefore, it is expected that allowing tomatoes to be imported into the United States from Poland will have a negligible economic impact on U.S. tomato producers.

Watermelon

In 1992, 3.5 billion pounds of watermelon, with an estimated value of $198.9 million, were produced domestically for the fresh market (USDA, NASS, ASB, "1992 Vegetable Summary"). In 1987, a total of 10,324 farms reported harvesting watermelon (U.S. Department of Commerce, "1987 Census of Agriculture"). It is likely that most U.S. watermelon producers could be considered small entities using SBA size criteria of annual gross receipts of less than $0.5 million.

This rule allows watermelon from Ecuador to be imported into the United States under certain conditions. According to FAO data, Ecuador produced approximately 132.3 million pounds of watermelon in 1990, which is about 3.8 percent of U.S. production (FAO, "FAO Production Yearbook, 1991"). The United States imported approximately 230.9 million pounds of fresh watermelon in 1991 (USDA, ERS, "FATUS, Calendar Year 1990 Supplement"). We do not expect the volume of watermelon imported into the United States from Ecuador will exceed 4.0 million pounds, which is about 1.73 percent of total U.S. watermelon imports, about 0.11 percent of domestic production, and about 0.11 percent of the total watermelon supply. Assuming a 0.11 percent increase in the total watermelon supply will lead to a 0.11 percent decrease in domestic watermelon prices, there would be a price decrease of about $0.0061 per hundredweight from an original price of $5.70 per hundredweight. As a result, again assuming unitary price elasticity, there would be a decrease in domestic watermelon production of about 3.8 million pounds, which would result in a revenue decrease of about $430,000 (less than 0.22 percent of total revenue) for domestic producers. Additionally, we expect that imports of watermelon from Ecuador will not occur during the domestic watermelon growing season, thus lessening the impact even more. Therefore, it is expected that allowing watermelon to be imported into the United States from Ecuador will have a negligible economic impact on U.S. watermelon producers.

The aggregate economic impact of this rule is expected to be positive. U.S. consumers will benefit from greater availability of fruits and vegetables. It is not likely that any U.S. producers, large or small, of fruits and vegetables will be affected in a significant way by the easing of importation restrictions on these particular commodities.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Executive Order 12778

This rule allows certain fruits and vegetables to be imported into the United States from certain parts of the world. State and local laws and regulations regarding the importation of fruits and vegetables under this rule will be preempted while the fruits and vegetables are in foreign commerce. Fresh fruits and vegetables are generally imported for immediate distribution and sale to the consuming public, and will remain in foreign commerce until sold to the ultimate consumer. The question of when foreign commerce ceases in other cases must be addressed on a case-by-case basis. No retroactive effect will be given to this rule, and this rule will not require administrative proceedings before parties may file suit in court challenging this rule.

National Environmental Policy Act

An environmental assessment and finding of no significant impact have been prepared for this rule. The assessment provides a basis for the conclusion that the importation of fruits and vegetables under the conditions specified in this rule will not present a risk of introducing or disseminating plant pests and will not have a significant impact on the quality of the human environment. Based on the finding of no significant impact, the Administrator of the Animal and Plant Health Inspection Service has determined that an environmental impact statement need not be prepared.

The environmental assessment and finding of no significant impact were prepared in accordance with:

(1) The National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*),

(2) Regulations of the Council on Environmental Quality for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500–1508),

(3) USDA Regulations Implementing NEPA (7 CFR part 1b), and

(4) APHIS Guidelines Implementing NEPA (44 FR 50381–50384, August 28, 1979, and 44 FR 51272–51274, August 31, 1979).

Copies of the environmental assessment and finding of no significant impact may be obtained by writing to the individual listed under "FOR FURTHER INFORMATION CONTACT."

Paperwork Reduction Act

This rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

List of Subjects in 7 CFR Part 319

Bees, Coffee, Cotton, Fruits, Honey, Imports, Incorporation by reference, Nursery Stock, Plant diseases and pests Quarantine, Reporting and recordkeeping requirements, Rice, Vegetables.

Accordingly, 7 CFR part 319 is amended as follows:

PART 319—FOREIGN QUARANTINE NOTICES

3. The authority citation for part 319 continues to read as follows:

Authority: 7 U.S.C. 150dd, 150ee, 150ff, 151–167, 450; 21 U.S.C. 136 and 136a; 7 CFR 2.17, 2.51, and 371.2(c).

4. In § 319.56–2, paragraph (j), the second and third sentences are removed and a new second sentence is added to read as follows:

§ 319.56–2 Restrictions on entry of fruits and vegetables.

* * * * *

(j) * * * Fruits and vegetables from Chile otherwise eligible for importation under this subpart may be imported from these areas without treatment for Medfly.

* * * * *

§ 319.56–2m [Amended]

5. In § 319.56–2m, in the section heading, the introductory text of the section, and paragraphs (a)(2), (c), and (e), the word "plumcot," is added immediately after the word "peaches," each time it appears.

§ 319.56–2s [Amended]

6. In § 319.56–2s, in the section heading; paragraphs (a), (b), (c)(1), and (c)(2); the introductory text of paragraph (d); paragraphs (d)(1)(ii), (e), and (f)(1); the introductory text of paragraph (g); and paragraph (g)(3), the word "plumcot," is added immediately after the word "peaches," each time it appears.

7. In § 319.56–2t, the table is amended by revising the heading in the first column to read "Country/locality"; revising the entry for "Korea" in the first column to read "South Korea" and moving that entry to the appropriate alphabetical order; revising the entry for "Trinidad" in the first column to read "Trinidad and Tobago"; and by adding, in alphabetical order, the following:

§ 319.56–2t Administrative instructions: conditions governing the entry of certain fruits and vegetables.

* * * * *

Country/locality	Common name	Botanical name	Plant part(s)
Belize	Bay leaf	*Laurus nobilis*	leaf and stem
	Tarragon	*Artemisia dracunculus*	above ground parts
Chile	Basil	*Ocimum* spp.	above ground parts
	Lucuma	*Manilkara sapota (=Lucuma mammosa)*	fruit (From Medfly-free areas only—see § 319.56–2[j].)
	Mountain papaya	*Carica pubescens (=C. candamarcensis).*	fruit (From Medfly-free areas—see § 319.56–2[j]. Fruit from outside Medfly-free areas must be treated in accordanc with § 319.56–2x.)
	Oregano	*Origanum* spp.	leaf and stem
	Sandpear	*Pyrus pyrifolia*	fruit (From Medfly-free areas—see § 319.56–2[j]. Fruit from outside Medfly-free areas must be treated in accordance with § 319.56–2x.)
	Tarragon	*Artemisia dracunculus*	above ground parts
Colombia	Tarragon	*Artemisia dracunculus*	above ground parts
Ecuador	Banana	*Musa* spp.	flower
	Chervil	*Anthriscus* spp.	leaf and stem
Mexico	Bay leaf	*Laurus nobilis*	leaf and stem
	Blueberry	*Vaccinium* spp.	fruit
	Lambsquarters	*Chenopodium* spp.	above ground parts
Peru	Carrot	*Daucus carota*	root
Philippines	Yam bean	*Pachyrhizus tuberosus* or *P. erosus*	root
Poland	Pepper	*Capsicum* spp.	fruit
	Tomato	*Lycopersicon esculentum*	fruit
South Korea	Chinese bellflower	*Platycodon grandiflorum*	root
Thailand	Turmeric	*Curcuma domestica*	leaf and stem

Country/locality	Common name	Botanical name	Plant part(s)
Trinidad and Tobago	Lemongrass	*Cymbopogon citratus*	leaf and stem
	Shield leaf	*Cecropia peltata*	leaf and stem

8. Section 319.56–2u is amended as follows:

a. The section heading is revised as set forth below.

b. The text is designated as paragraph (a).

c. A new paragraph (b) is added to read as set forth below.

§ 319.56–2u Conditions governing the entry of pummelo and peppers from Israel.

* * * * *

(b) Peppers (fruit) (*Capsicum* spp.) from Israel may be imported into the United States only under the following conditions:

(1) The peppers have been grown in the Paran region of the Arava Valley by growers registered with the Israeli Department of Plant Protection and Inspection (DPPI).

(2) Malathion bait sprays shall be applied in the residential areas of Paran at 6- to 10-day intervals beginning not less than 30 days before the harvest of backyard host material in residential areas and shall continue through harvest.

(3) The peppers have been grown in insect-proof plastic screenhouses approved by the DPPI and APHIS. Houses shall be examined periodically by DPPI or APHIS personnel for tears in either plastic or screening.

(4) Trapping for Mediterranean fruit fly (Medfly) shall be conducted by DPPI throughout the year in the agricultural region along Arava Highway 90 and in the residential area of Paran. The capture of a single Medfly in a screenhouse will immediately cancel export from that house until the source of the infestation is delimited, trap density is increased, pesticide sprays are applied, or other measures acceptable to APHIS are taken to prevent further occurrences.

(5) Signs in English and Hebrew shall be posted along Arava Highway 90 stating that it is prohibited to throw out/discard fruits and vegetables from passing vehicles.

(6) The cartons in which the peppers are packaged must be stamped "Peppers not to be distributed outside of the following States: CT, DC, DE, IA, IL, IN, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VT, WI, and WV."

(7) Sorting and packing of peppers shall be done in the insect-proof screenhouses in Paran.

(8) Transportation of the peppers from Paran to Tel Aviv Airport for export shall be in fruit fly-proof containers.

(9) The peppers shall be exported directly from Tel Aviv, by air, to the United States.

9. In § 319.56–2x, paragraph (a) is revised to read as follows:

§ 319.56–2x Administrative instructions; conditions governing the entry of certain fruits and vegetables for which treatment is required.

(a) The following fruits and vegetables may be imported into the United States only if they have been treated in accordance with the Plant Protection and Quarantine Treatment Manual, which is incorporated by reference at § 300.1 of this chapter:

Country/locality	Common name	Botanical name	Plant part(s)
Bolivia	Blueberry	*Vaccinium* spp.	fruit
Chile	Lime	*Citrus aurantifolia* and *C. latifolia*	fruit
	Mountain papaya	*Carica pubescens (=C. candamarcensis).*	fruit (Treatment for Mediterranean fruit fly [Medfly] not required if fruit is grown in Medfly free area [see § 319.56–2(j)].)
	Sandpear	*Pyrus pyrifolia*	fruit (Treatment for Mediterranean fruit fly [Medfly] not required if fruit is grown in Medfly free area [see § 319.56–2(j)].)
Greece	Kiwi	*Actinidia deliciosa*	fruit
	Tangerine	*Citrus reticulata*	fruit
Guatemala	Tuna	*Opuntia* spp.	fruit
Guyana	Apple	*Malus domestica*	fruit
Israel	Litchi	*Litchi chinensis*	fruit
	Loquat	*Eriobotrya japonica*	fruit
Jordan	Apple	*Malus domestica*	fruit
	Grape	*Vitis* spp.	fruit
	Persimmon	*Diospyros* spp.	fruit
Lebanon	Apple	*Malus domestica*	fruit
Panama	Bean, green and lima	*Phaseolus vulgaris* and *P. lunatus*	pod
Taiwan	Mango	*Mangifera indica*	fruit
Zimbabwe	Apple	*Malus domestica*	fruit
	Kiwi	*Actinidia deliciosa*	fruit
	Pear	*Pyrus communis*	fruit

* * * * *

10. Section 319.56–2y is amended as follows:

a. The section heading is revised as set forth below.

b. In the introductory text of paragraph (a), the words "and watermelon (fruit) (*Citrullus lanatus*)" are added immediately after the words "(*Cucumis melo*)".

c. In paragraphs (a)(1) and (a)(2), and in the first sentence of paragraph (a)(4), the words "or watermelon" are added immediately after the word "cantaloupe".

d. The second sentence of paragraph (a)(4) is revised to read as set forth below.

§ 319.56–2y Administrative instructions; conditions governing the entry of cantaloupe and watermelon from Ecuador.

(a) * * *

(4) * * * The boxes in which the cantaloupe or watermelon is packed must be stamped with the name of the commodity followed by the words "Not to be distributed in the following States or territories: AL, AS, AZ, CA, FL, GA, GU, HI, LA, MS, NM, PR, SC, TX, VI."

Done in Washington, DC, this 22nd day of December 1993.

Patricia Jensen,

Deputy Assistant Secretary, Marketing and Inspection Services.

Exemptions From Import Regulations for Specified Fruit Commodities

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This rule exempts imported avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes, and Tokay grapes from grade, size, quality, and maturity requirements if those commodities are to be used in certain specified outlets. These exemptions correspond to exemptions in effect for the same commodities under Federal marketing orders. Safeguards are specified to assure that such imports are utilized in a specified exempt outlet. This rule is being implemented in accordance with the North American Free Trade Agreement and under section 8e of the Agricultural Marketing Agreement Act of 1937, and makes the import regulations more consistent with applicable domestic marketing order regulations. Exempt uses include, but are not limited to, processing, livestock feed and donations to charity.

DATES: This interim final rule is effective January 1, 1994. Comments received by February 28, 1994, will be considered prior to finalization of the rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule to: Docket Clerk, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2523–S, Washington, DC 20090–6456 or by FAX at (202) 720–5698. Three copies of all written material shall be submitted. Copies will be made available for public inspection at the Office of the Docket Clerk during regular business hours. All comments should reference the docket number and the date and page number of this issue of the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Mark A. Hessel, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2523–S, Washington, DC 20090–6456, telephone (202) 720–5127.

SUPPLEMENTARY INFORMATION: This action is being taken under Annex 703.2(23) of the North American Free Trade Agreement (NAFTA). This provision states that when domestic agricultural commodities have to meet quality requirements and processed forms are exempted from those requirements, the same treatment is to be provided to imports destined for processing as provided for domestic product destined for processing.

This action is also being taken under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act, which provides that whenever certain specified commodities, including avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes, and Tokay grapes, are regulated under a Federal marketing order, imports of those commodities must meet the same or comparable grade, size, quality, and maturity requirements as those in effect for the domestically produced commodities.

The Act further provides that when two or more marketing orders for the same commodity produced in different areas are in effect, the imported commodity must meet the same grade, size, quality, and maturity requirements as the commodity produced in the area which the imported commodity is in most direct competition.

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility. Import regulations issued under the Act are based on those established under Federal marketing orders.

The following are the approximate number of importers of the listed commodities who will be affected by this action: avocados—20, grapefruit—20, kiwifruit—75, limes—25, olives—25, oranges—20, table grapes—70, Tokay grapes—none. Small agricultural service firms, which include importers, have been defined by the Small Business Administration (13 CFR 121.601) as those having annual receipts of less than $3,500,000. The majority of these importers may be classified as small entities.

This interim final rule has been reviewed under Executive Order 12778, Civil Justice Reform. This action is not intended to have retroactive effect. This action will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule. There are no administrative procedures which must be exhausted prior to any judicial challenge to the provisions of this interim final rule.

The Department is taking this action primarily because NAFTA provides that imported goods destined for processing must be given no less favorable treatment than that afforded to domestic goods destined for processing. Under the Federal marketing orders covering avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes, and Tokay grapes, these commodities are exempt from established quality and size requirements if they are to be used in certain processing outlets. This rule provides similar exemptions for imported product destined for processing, consistent with NAFTA.

This rule also provides exemptions for these imported commodities to be

utilized in other exempt outlets. These additional exemptions are consistent with section 8e of the Act which requires imported avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes, and Tokay grapes to meet the same or comparable requirements established under domestic marketing orders for these commodities.

Some marketing orders provide additional exemptions for commodities sold at roadside stands, shipped directly to consumers, or exported. However, such exemptions are not issued for commodities offered for importation because such handling is impracticable for, or not applicable to, the importation process.

This rule revises the following 7 CFR sections:

944.28	Avocado Import Grade Regulation.
944.106	Grapefruit Regulation 6.
944.209	Lime Import Regulation 10.
944.312	Orange Import Regulation.
944.401	Olive Regulation 1.
944.503	Table Grape Import Regulation 4.
944.550	Kiwifruit Import Regulation.
944.605	Tokay Grape Import Regulation.

The avocado import grade regulation (7 CFR 944.28) is based on those in effect for avocados grown in Florida under Marketing Order No. 915 throughout the year. Under Marketing Order No. 915 any person may handle avocados without regard to established grade, size, quality, or maturity requirements provided that such avocados are handled for (1) consumption by charitable institutions; (2) distribution by relief agencies; (3) commercial processing into products; (4) seed; or (5) individual shipments of up to 55 pounds. Prior to issuance of this rule, the only exemption allowed under the avocado import regulation was that for individual shipments of up to 55 pounds. Thus, this action adds consumption by charitable institutions, distribution by relief agencies, seed, and commercial processing into products to the list of exemptions allowed under the avocado import regulation.

The grapefruit import regulation (7 CFR 944.106) is based on those in effect for grapefruit grown in Florida under Marketing Order No. 905 throughout the year. Under Marketing Order No. 905, any person may handle grapefruit without regard to established grade, size, quality, or maturity requirements provided that such grapefruit are handled for (1) consumption by charitable institutions; (2) distribution by relief agencies; (3) commercial processing into canned or frozen products or into a beverage base; (4) animal feed; or (5) individual shipments of up to 15 standard packed cartons (12 bushels). Prior to issuance of this rule, the only exemption allowed under the grapefruit import regulation was that for individual shipments of up to 15 standard packed cartons (12 bushels). Thus, this action adds consumption by charitable institutions, distribution by relief agencies, commercial processing into canned or frozen products or into a beverage base, and animal feed to the list of exemptions allowed under the grapefruit import regulation.

The lime import regulation (7 CFR 944.209) is based on those in effect for limes grown in Florida under Marketing Order No. 911 throughout the year. Under Marketing Order No. 911 any person may handle limes without regard to established grade, size, quality, or maturity requirements provided that such limes are handled for (1) consumption by charitable institutions; (2) distribution by relief agencies; (3) commercial processing into products; or (4) individual shipments of up to 55 pounds. Prior to issuance of this rule, the only exemption allowed under the lime import regulation was that for individual shipments of up to 250 pounds. Thus, this action adds consumption by charitable institutions, distribution by relief agencies, and commercial processing into products to the list of exemptions allowed under the lime import regulation.

The orange import regulation (7 CFR 944.312) is based on those in effect for oranges grown in Texas under Marketing Order No. 906 throughout the year. Under Marketing Order No. 906 any person may handle oranges without regard to established grade, size, quality, or maturity requirements provided that such oranges are handled for (1) consumption by charitable institutions; (2) distribution by relief agencies; (3) commercial processing into products; or (4) individual shipments of up to 400 pounds. Prior to issuance of this rule, the only exemption allowed under the orange import regulation was that for individual shipments of up to ten 7/10 bushels (400 pounds). Thus, this action adds consumption by charitable institutions, distribution by relief agencies, and commercial processing into products to the list of exemptions allowed under the orange import regulation.

The olive import regulation (7 CFR 944.401) is based on those in effect for olives grown in California under Marketing Order No. 932 throughout the year. Under Marketing Order No. 932 any person may handle olives without regard to established grade, size, quality, or maturity requirements provided that such olives are handled for processing into oil or donations to charitable institutions. Although there is no minimum quantity exemption for olives regulated under Marketing Order No. 932, an exemption is allowed under the olive import regulation for individual shipments up to 100 pounds. This action adds processing into oil and donations to charitable institutions to the list of exemptions allowed under the olive import regulation.

The table grape import regulation (7 CFR 944.506) is based on those in effect for table grapes grown in southeastern California under Marketing Order No. 925 from April 20 through August 15. Under Marketing Order No. 925 any person may handle table grapes without regard to established grade, size, quality, or maturity requirements provided that such table grapes are handled for processing into products. Currently, no imported shipments of table grapes are exempt from the import regulations. Thus, this action adds processing into products as an exemption allowed under the table grape import regulation.

The kiwifruit import regulation (7 CFR 944.550) is based on those in effect for kiwifruit grown in California under Marketing Order No. 920 throughout the year. Under Marketing Order No. 920 any person may handle kiwifruit without regard to established grade, size, quality, or maturity requirements provided that such kiwifruit is handled for (1) consumption by charitable institutions; (2) distribution by relief agencies; (3) commercial processing into products; or (4) individual shipments of up to 200 pounds. Prior to issuance of this rule, the only exemption allowed under the kiwifruit import regulation was that for individual shipments of up to 200 pounds. Thus, this action adds consumption by charitable institutions, distribution by relief agencies, and commercial processing into products to the list of exemptions allowed under the kiwifruit import regulation.

The Tokay grape import regulation (7 CFR 944.605) is based on those in effect for Tokay grapes grown in San Joaquin County, California under Marketing Order No. 926 from August 12 through November 15. Under Marketing Order No. 926 any person may handle Tokay grapes without regard to established grade, size, quality, or maturity requirements provided that such Tokay grapes are handled for (1) consumption by charitable institutions; (2) distribution by relief agencies; (3) conversion into by-products, including wine and juice; or (4) individual shipments of five standard packages or less. Prior to issuance of this rule, the only exemption allowed under the Tokay grape import regulation was that for individual shipments of up to 250 pounds. Thus, this action adds

consumption by charitable institutions, distribution by relief agencies, and conversion into by-products to the list of exemptions allowed under the Tokay grape import regulation.

The respective marketing order committees have developed methods to monitor the marketing of the domestically produced exempt commodities from handlers to points of final disposition. Safeguard procedures in the form of reporting requirements are used to ensure that domestic products are used for the intended exempt outlets.

Two such safeguard requirements are:

(1) A certificate of privilege, issued by a committee upon application by a handler, in which a handler notifies the appropriate marketing order committee of the handler's intent to ship that commodity to a processor, livestock feeder, charity, or other exempted outlet; and

(2) A special purpose shipment report, furnished by a handler and forwarded to a committee at the time of shipment, which provides information about the shipment necessary to determine compliance. The receiver or processor subsequently returns a signed copy of the special purpose shipment report to the respective committee office.

Because of the ease with which imported commodities can enter fresh market channels of trade, this rule establishes a process to monitor exempt, imported commodities from the port of importation to the point of final disposition. A safeguard procedure, in the form of importer and receiver reporting requirements, is established to ensure that imported products are shipped to intended exempt outlets. The safeguard procedures are similar to the certificates of privilege and special purpose shipment reports currently in effect under most domestic marketing orders.

To provide consistency and ease the reporting burden on importers that deal in several commodities, this rule establishes a single set of safeguard procedures and a standardized form that can be used for imported avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes and Tokay grapes. The procedure is added in § 944.350, and is referenced in individual commodity import regulations.

An importer wishing to import commodities covered herein for uses in other than regulated commercial channels, shall complete in triplicate, prior to importation, an Importer's Exempt Commodity form. One copy notifies the Marketing Order Administration Branch (MOAB) of the Fruit and Vegetable Division, AMS, and the second copy notifies the U.S. Customs Service of the importer's intent to import a commodity under an exemption. The third copy will accompany the exempt lot to the receiver.

The form may be obtained from either the inspection or customs offices serving the port of entry. The form may also be obtained from the MOAB in Washington, DC or from its Marketing Field Offices in Fresno, California; Portland, Oregon; McAllen, Texas; or Winter Haven, Florida.

The form must be completed at the time the commodity enters the United States. Copies must be returned to the U.S. Customs Service upon completion and to MOAB within 15 days after completion of the form. Information called for on the Importer's Exempt Commodity form includes:

(1) The commodity and the variety (if known) being imported,

(2) The date and place of inspection, if applicable,

(3) Identifying marks or numbers on the containers,

(4) Identifying numbers on the railroad car, truck or other transportation vehicle transporting product to the receiver,

(5) The name and address of the importer,

(6) The place and date of entry,

(7) The quantity imported,

(8) The name and address of the intended receiver (processor, feeder, charity, or other exempt receiver),

(9) Intended use of the exempt commodity,

(10) The U.S. Customs Service entry number and harmonized tariff code number, and

(11) Such other information as may be necessary to ensure compliance with this regulation.

For purposes of this regulation, a lot is considered to be imported when it is released by the Customs Service for entry into commercial markets or other channels. Lots that are exempt from grade, size, quality, and maturity requirements of the import regulations are not subject to the inspection and certification requirements in such regulations. An imported lot intended for normal commercial channels, or any portion of such a lot, that fails established grade, size, quality, and maturity requirements, may be disposed of in exempt outlets, as specified in the pertinent import requirements for the specific commodity.

The third copy of the form will accompany the exempt lot to its intended destination. The receiver will certify that the lot has been received and it will be utilized in an exempt outlet. After the certification is signed by the receiver, the form must be returned to MOAB by the receiver, within 15 days of receipt of the lot.

The burden on both importers and receiving entities is minimal and the reporting requirements are consistent with safeguard procedures imposed on the handling of domestically-produced, exempt commodities. In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35), these reporting requirements have been submitted to the Office of Management and Budget (OMB) for approval.

This rule will increase the reporting burden on approximately 235 importers of avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes, and Tokay grapes who will complete the Importer's Exempt Commodity Form. The estimated time to complete the form is 10 minutes. It will take receivers an estimated 5 minutes to sign the certification on the form.

In accordance with section 8e of the Act, the United States Trade Representative has concurred with the issuance of this interim final rule.

Based on the above, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

This interim final rule reflects the Department's appraisal of the need to relax the import requirements, as hereinafter set forth, to comply with the terms of NAFTA and to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is found and determined upon good cause that it is impracticable, unnecessary and contrary to the public interest to give preliminary notice prior to putting this rule relaxing import requirements into effect and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register**. This rule should become effective on January 1, 1994, to be consistent with the provision of NAFTA which states that imported goods destined for processing receive no less favorable treatment than that afforded domestic goods destined for processing. In addition, avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes and Tokay grapes that are currently being imported into the United States are now being marketed, subject to established grade, size, quality and maturity requirements. To be consistent with section 8e of the Act, which provides that domestic and imported avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes, and Tokay grapes be subject to comparable

requirements, this relaxation in the import requirements should become effective as soon as possible. A 60-day comment period is provided to allow interested persons to respond to this interim final rule. All written comments received within the comment period will be considered before a final determination is made on this matter.

List of Subjects in 7 CFR Part 944

Avocados, Food grades and standards, Grapefruit, Grapes, Imports, Kiwifruit, Limes, Olives, Oranges.

For the reasons set forth in the preamble, 7 CFR part 944 is amended as follows:

PART 944—FRUITS; IMPORT REGULATIONS

1. The authority citation for 7 CFR part 944 continues to read as follows:

Authority: 7 U.S.C. 601–674.

2. Section 944.28 is amended by revising paragraphs (c) and (e) and adding paragraph (f) to read as follows:

§ 944.28 Avocado import grade regulation.

* * * * *

(c) The term *importation* means release from custody of the United States Customs Service. The term *commercial processing into products* means the manufacture of avocado product which is preserved by any recognized commercial process, including canning, freezing, dehydrating, drying, the addition of chemical substances, or by fermentation.

* * * * *

(e) Any lot or portion thereof which fails to meet the import requirements, and is not being imported for purposes of consumption by charitable institutions, distribution by relief agencies, seed, or commercial processing into products; prior to or after reconditioning may be exported or disposed of under the supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of such lot borne by the importer.

(f) The grade, size, and quality requirements of this section shall not be applicable to avocados imported for consumption by charitable institutions, distribution by relief agencies, seed, or commercial processing into products, but shall be subject to the safeguard provisions contained in § 944.350.

3. Section 944.106 is amended by revising paragraph (e) and adding paragraph (h) to read as follows:

§ 944.106 Grapefruit Regulation 6.

* * * * *

(e) Any lot or portion thereof which fails to meet the import requirements, and is not being imported for purposes of consumption by charitable institutions, distribution by relief agencies, animal feed, or commercial processing into canned or frozen products or into a beverage base; prior to or after reconditioning may be exported or disposed of under the supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of said lot borne by the importer.

* * * * *

(h) The grade, size, quality, and maturity requirements of this section shall not be applicable to grapefruit imported for consumption by charitable institutions, distribution by relief agencies, animal feed, or commercial processing into canned or frozen products or into a beverage base, but shall be subject to the safeguard provisions contained in § 944.350.

4. Section 944.209 is amended by revising paragraphs (c) and (d) and adding paragraph (f) to read as follows:

§ 944.209 Lime import Regulation 10.

* * * * *

(c) The term *importation* means release from custody of the United States Customs Service. The term *commercial processing into products* means the manufacture of lime product which is preserved by any recognized commercial process, including canning, freezing, dehydrating, drying, the addition of chemical substances, or by fermentation. Limes handled for conversion into juice without further processing or preservative treatment, as herein described, shall be deemed fresh limes subject to all regulation under this section.

(d) Any lot or portion thereof which fails to meet the import requirements, and is not being imported for purposes of consumption by charitable institutions, distribution by relief agencies, or commercial processing into products; prior to or after reconditioning may be exported or disposed of under supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of said lot borne by the importer.

* * * * *

(f) The grade, size, quality and maturity requirements of this section shall not be applicable to limes imported for consumption by charitable institutions, distribution by relief agencies, or commercial processing into products, but shall be subject to the safeguard provisions contained in § 944.350.

5. Section 944.312 is amended by revising paragraph (f) and adding paragraph (h) to read as follows:

§ 944.312 Orange import Regulation.

* * * * *

(f) Any oranges which fail too meet the import requirements, and is not being imported for purposes of consumption by charitable institutions, distribution by relief agencies, or processing into products; prior to or after reconditioning may be exported or disposed of under the supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of such oranges borne by the importer.

* * * * *

(h) The grade, size, quality, and maturity requirements of this section shall not be applicable to grapefruit imported for consumption by charitable institutions, distribution by relief agencies, or processing into products, but shall be subject to the safeguard provisions contained in § 944.350.

6. Section 944.350 is added to read as follows:

Note: This section will appear in the annual Code of Federal Regulations.

§ 944.350 Safeguard procedures for avocados, grapefruit, kiwifruit, limes, olives, oranges, table grapes, and Tokay grapes exempt from grade, size, quality, and maturity requirements.

(a) Each person who imports:

(1) Avocados, grapefruit, kiwifruit, limes, olives, oranges, and Tokay grapes for consumption by charitable institutions or distribution by relief agencies;

(2) Avocados, grapefruit, kiwifruit, limes, oranges, table grapes, and Tokay grapes for processing;

(3) Olives for processing into oil;

(4) Grapefruit for animal feed; or

(5) Avocados for seed shall obtain a copy of an "Importer's Exempt Commodity Form" from the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, or from the Fresh Products Inspection Office, Customs Office, or Processed Products Inspection Office serving the intended port of entry, and shall present the completed "Importer's Exempt Commodity Form" to the U.S. Customs Service Regional Director or District Director, as applicable, at the port at which the customs entry is filed.

One additional copy shall accompany the lot and another copy shall be filed with the Marketing Order Administration Branch, Fruit and

Vegetable Division, AMS, USDA within 15 days of the date of importation.

(b) Each person who receives an exempt commodity for the purposes specified in paragraph (a) of this section shall obtain a copy of the Importer's Exempt Commodity form from the importer and shall certify by signing, and return to the Marketing Order Administration Branch within 15 days of the receipt of the exempt lot, that such lot has been received and will be utilized in the exempt outlet.

7. Section 944.401 is amended by revising paragraph (c) and adding paragraph (j) to read as follows:

§ 944.401 Olive Regulation 1.

* * * * *

(c) The Processed Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, is hereby designated as the governmental inspection service for the purpose of certifying the grade and size of processed olives from imported bulk lots for use in canned ripe olives and the grade and size of imported canned ripe olives. Inspection by said inspection service with appropriate evidence thereof in the form of an official inspection certificate, issued by the service and applicable to the particular lot of olives is required. With respect to imported bulk olives, inspection and certification shall be completed prior to use as packaged ripe olives. With respect to canned ripe olives, inspection and certification shall be completed prior to importation. Any lot of olives which fails to meet the import requirements and is not being imported for purposes of contribution to a charitable organization or processing into oil may be exported or disposed of under the supervision of the Processed Products Branch, Fruit and Vegetable Division, AMS, USDA, with the cost of certifying the disposal borne by the importer.

* * * * *

(j) The grade, size, quality, and maturity requirements of this section shall not be applicable to olives imported for charitable organizations or processing for oil, but shall be subject to the safeguard provisions contained in § 944.350.

8. Section 944.503 is amended by revising paragraph (d) and adding paragraph (f) to read as follows:

§ 944.503 Table Grape Import Regulation 4.

* * * * *

(d) Any lot or portion thereof which fails to meet the import requirements, and is not being imported for purposes of processing, prior to or after reconditioning may be exported or disposed of under the supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of said lot borne by the importer.

* * * * *

(f) The grade, size, quality and maturity requirements of this section shall not be applicable to grapes imported for processing, but shall be subject to the safeguard provisions contained in § 944.350.

9. Section 944.550 is amended by revising paragraphs (c) and (d) and adding paragraph (f) to read as follows:

§ 944.550 Kiwifruit Import Regulation.

(c) The term *importation* means release from custody of the United States Customs Service. The term *commercial processing into products* means that the kiwifruit is physically altered in form or chemical composition through freezing, canning, dehydrating, pulping, juicing, or heating of the product. The act of slicing, dicing, or peeling shall not be considered commercial processing into products.

(d) Any lot or portion thereof which fails to meet the import requirements and is not being imported for purposes of consumption by charitable institutions, distribution by relief agencies, or commercial processing into products may be reconditioned or exported. Any failed lot which is not reconditioned or disposed of under supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of said lot borne by the importer.

* * * * *

(f) The grade, size, quality, and maturity requirements of this section shall not be applicable to kiwifruit imported for consumption by charitable institutions, distribution by relief agencies, or commercial processing into products, but shall be subject to the safeguard provisions contained in § 944.350.

10. Section 944.605 is amended by revising paragraph (d) and adding paragraph (g) to read as follows:

§ 944.605 Tokay Grape Import Regulation 5.

* * * * *

(d) Any lot or portion thereof which fails to meet the import requirements and is not being imported for purposes of consumption by charitable institutions, distribution by relief agencies, or conversion into by-products, including wine and juice may be reconditioned or exported. Any failed lot which is not reconditioned or exported shall be disposed of under supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of said lots borne by the importer.

* * * * *

(g) The grade, size, quality, and maturity requirements of this section shall not be applicable to Tokay grapes imported for consumption by charitable institutions, distribution by relief agencies, or conversion into by-products, including wine and juice, but shall be subject to the safeguard provisions contained in § 944.350.

Dated: December 23, 1993.

Robert C. Keeney,

Deputy Director, Fruit and Vegetable Division.

[FR Doc. 93-31878 Filed 12-29-93; 8:45 am]

BILLING CODE 3410-02-P

7 CFR Parts 980 and 999

[Docket Nos. FV93-980-1 IFR and FV93-999-1 IFR]

Exemptions From Import Regulations for Specified Vegetable and Specialty Crop Commodities

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This rule exempts imported potatoes, onions, tomatoes, dates and walnuts from grade, size, quality, and maturity requirements if those commodities are to be used in certain specified outlets. These exemptions correspond to exemptions in effect for the same commodities under Federal marketing orders. Safeguard provisions are added to assure that such imports are utilized in a specified exempt outlet. This rule is being implemented in accordance with the North American Free Trade Agreement and under section 8e of the Agricultural Marketing Agreement Act of 1937, and makes the import regulations more consistent with applicable domestic marketing order exemptions. Exempt uses include, but are not limited to, processing, livestock feed, and donation to charity.

DATES: This interim final rule is effective on January 1, 1994. Comments received by February 28, 1994, will be considered prior to finalization of the rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this interim rule. Comments must be sent in triplicate to the Docket Clerk, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2523-S, Washington, DC 20090-6456, Fax (202) 720-5698. Comments should reference the docket number and the date and page number of this issue of the Federal Register and will be made available for public inspection at the Office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Tom Tichenor, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2523-S, Washington, DC 20090-6456, telephone (202) 720-6862, or Fax (202) 720-5698.

SUPPLEMENTARY INFORMATION: This action is being taken under Annex 703.2(23) of the North American Free Trade Agreement (NAFTA). This provision states that when domestic agriculture commodities have to meet quality requirements, and processed forms are exempt from those requirements, the same treatment is to be provided to imports destined for processing as provided for domestic product destined for processing.

This action is also being issued under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674) (Act), which provides that whenever certain specified commodities, including potatoes, onions, tomatoes, dates and walnuts, are regulated under a Federal marketing order, imports of those commodities must meet the same or comparable grade, size, quality, and maturity requirements as those in effect for the domestically produced commodities.

The Act further provides that when two or more marketing orders for the same commodity produced in different areas are in effect, the imported commodity must meet the same grade, size, quality, and maturity requirements as the commodity produced in the area which the imported commodity is in most direct competition. Some marketing orders provide exemptions for commodities sold at roadside stands, shipped directly to consumers, or exported. However, such exemptions are not issued for commodities offered for importation because such handling is impracticable for, or not applicable, to the importation process.

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility. Import regulations issued under the Act are based on those established under Federal marketing orders.

The following are the approximate number of importers who may be affected by this interim rule: potatoes—20, onions—40, tomatoes—70, dates—25, and walnuts—15. Small agricultural service firms, which include importers of these commodities, have been defined by the Small Business Administration (13 CFR 121.601) as those having annual receipts of less than $3,500,000. The majority of these importers may be classified as small entities.

This interim rule has been reviewed under Executive Order 12778, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule would not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule. There are no administrative procedures which must be exhausted prior to any judicial challenge to the provisions of this rule.

The Department is taking this action primarily because NAFTA provides that imported goods destined for processing must be given no less favorable treatment than that afforded to domestic goods destined for processing. Under the Federal marketing orders covering potatoes, onions and tomatoes, these commodities are exempt from established quality and size requirements if they are to be used in processing outlets. This rule provides similar exemptions for imported product destined for processing, consistent with NAFTA.

This rule also provides exemptions for these imported commodities to be utilized in other exempt outlets. These exemptions are consistent with section 8e of the Act which requires imported commodities to meet the same or comparable requirements established under the domestic marketing orders for the commodities. This rule amends the following 7 CFR sections:

980.1 Import regulations; Irish potatoes,
980.117 Import regulations; onions,
980.212 Import regulations; tomatoes,
999.1 Regulation governing the importation of dates, and
999.100 Regulation governing imports of walnuts.

Safeguard provisions are added as sections 980.501 and 999.500 to assure that such imports are utilized in a specified exempt outlet.

Potatoes

The import grade regulation for potatoes (7 CFR 980.1) is based on marketing orders in effect for potatoes grown in five different potato production areas in Idaho and Oregon (MO 945), Washington (MO 946), Oregon-California (MO 947), Colorado (MO 948), and the Southeastern United States (MO 953). Under one or more of these orders, any person may handle potatoes exempt from established grade, size, quality, and maturity requirements, provided that such potatoes are used for (1) processing, (2) livestock feed, (3) charity or relief, (4) certified seed, (5) export, or (6) limited quantity shipments ranging from 500 to 1,000 pounds, depending on the individual order. Processing includes canning, freezing, dehydration, chips, shoestrings, starch and flour. Processing does not include potatoes that are only peeled, or cooled, sliced, diced, or treated to prevent oxidation. Prior to the issuance of this rule, the potato import regulation provided exemptions only for certified seed and minimum quantity shipments of 500 pounds. Thus, this interim rule adds year-round exemptions, subject to certain safeguard provisions, for potatoes that are used for: (1) Canning, freezing, or other processing, (2) livestock feed, and (3) charity or relief. The safeguard provisions are specified in section 980.501.

Onions

The import grade regulation for onions (7 CFR 980.117) is based on marketing orders in effect for onions grown in two different onion production areas in Idaho and Oregon (MO 958), and Texas (MO 959). Under one or both of these orders, any person may handle onions exempt from established grade, size, quality, and maturity requirements, provided that such onions are used for (1) processing, (2) livestock feed, (3) charity and relief, (4) plantings, (5) limited quantity shipments ranging from 110 to 2,000 pounds, depending on the individual order, or (6) pearl onions not exceeding a maximum size. Processing includes canning, freezing, dehydration, extraction (juice) and pickling in brine. Prior to the issuance of this interim rule, the onion import regulation provided exemptions for processed onions (dehydrated, canned, frozen and pickled in brine), green onions, onion sets (plantings), braided red onions, and for minimum quantity shipments of 110

pounds. Thus, this rule adds year-round exemptions, subject to certain safeguard provisions, for onions used for livestock feed, charity or relief, processing, and pearl onions. Marketing Order 958 exempts pearl onions which are smaller sized onions produced using specific cultural practices and are not larger than 1–3/4 inches in diameter. The safeguard provisions are specified in section 980.501.

Tomatoes

The import grade regulation for tomatoes (7 CFR 980.212) is based on the marketing order in effect for tomatoes grown in Florida (MO 966). Under that order, any person may handle tomatoes exempt from established grade, size, and maturity requirements, provided that such tomatoes are used for (1) processing, (2) charity, (3) relief, (4) export, (5) experimental purposes, (6) pear shaped (elongated), cherry, green house or hydroponic tomatoes, or (7) limited quantity shipments of 50 pounds per day. Prior to issuance of this interim rule, the tomato import regulation provided exemptions for experimental purposes, shipments of 60 pounds, and pear shaped, cherry, hydroponic, and greenhouse tomatoes. Thus, this rule adds exemptions, subject to certain safeguard provisions, for tomatoes used for processing (canning and pickling), charity and relief. The safeguard provisions are specified in section 980.501.

Dates

The import regulation for dates (7 CFR 999.1) is based on the marketing order in effect for dates produced or packed in Riverside County, California (MO 987). Under that order, any person may handle dates exempt from established grade requirements, if such dates are donated to "needy persons, prisoners, or Indians on reservations." Prior to issuance of this interim rule, the date import regulation provided exemptions for: (1) Processing (preparing and preserving dates into confection, coating to alter color, chopping, slicing or other processing which alters the form), (2) denatured dates unfit for human consumption, and (3) minimum quantity shipments of 70 pounds. Thus, this rule adds exemptions, subject to certain safeguard provisions, for dates donated to charity, prisoners, and Native Americans on reservations. The safeguard provisions are specified in section 999.500.

Walnuts

The import grade regulation for walnuts (7 CFR 999.100) is based on the marketing order in effect for walnuts grown in California (MO 984). Under that order, any person may handle walnuts exempt from established grade and size requirements, if such walnuts are: (1) Green (immature), (2) used by charitable institutions, relief agencies or government agencies for school lunch programs, or diverted for animal feed, or oil manufacture, or other noncompetitive outlets. Prior to issuance of this interim rule, the walnut import regulation provided exemptions from grade and size requirements for minimum quantity shipments of 60 pounds shelled or 115 pounds inshell. Thus, this rule adds exemptions, subject to certain safeguard provisions, for green walnuts, and walnuts for charity, relief, school lunch programs, animal feed or oil. The safeguard provisions are specified in section 999.500.

Exemptions for raisin imports specified under current import regulations for raisins (7 CFR Part 999.300) are consistent with exemptions under the raisin marketing order and are not affected by this interim rule.

Exemptions for filbert imports specified under current import regulations for filberts (7 CFR Part 999.400) are consistent with exemptions under the filbert/hazelnut marketing order and are not affected by this interim rule.

Exemptions for dried prune imports specified under current import regulations for prunes (7 CFR Part 999.200) are consistent with exemptions under the dried prune marketing order and are not affected by this interim rule.

The respective marketing order committees have developed methods to monitor the marketing of the domestically produced exempt commodities from handlers to points of final disposition. Safeguard procedures in the form of reporting requirements are used to ensure that domestic products are used for the intended exempt outlets.

Two such safeguard requirements are:

(1) A certificate of privilege, issued by a committee upon application by a handler, in which a handler notifies the appropriate marketing order committee of the handler's intent to ship that commodity to a processor, livestock feeder, charity, or other exempted outlet; and

(2) A special purpose shipment report, furnished by a handler and forwarded to a committee at the time of shipment, which provides information about the shipment necessary to determine compliance. The receiver or processor subsequently returns a signed copy of the special purpose shipment report to the respective committee office.

Because of the ease with which imported commodities can enter fresh market channels of trade, this rule establishes a process to monitor exempt, imported commodities from the port of importation to the point of final disposition. A safeguard procedure, in the form of importer and receiver reporting requirements, is established to ensure that imported products are shipped to intended exempt outlets. The safeguard procedures are similar to the certificates of privilege and special purpose shipment reports currently in effect under most domestic marketing orders.

To provide consistency and ease the reporting burden on importers that deal in several commodities, this rule establishes a single set of safeguard procedures and a standardized form that can be used for imported potatoes, onions, tomatoes, dates and walnuts. The procedure is added in §§ 980.501 and 999.500, and is referenced in individual commodity import regulations.

An importer wishing to import commodities covered herein for uses in other than regulated commercial channels shall complete, in triplicate, prior to importation, an Importer's Exempt Commodity form. One copy notifies the Marketing Order Administration Branch (MOAB) of the Fruit and Vegetable Division, AMS, and the second copy notifies the U.S. Customs Service of the importer's intent to import a commodity under an exemption. The third copy will accompany the exempt lot to the receiver.

The form may be obtained from either the inspection or customs offices serving the port of entry. The form may also be obtained from the MOAB in Washington, DC or from its Marketing Field Offices in Fresno, California; Portland, Oregon; McAllen, Texas; or Winter Haven, Florida.

The form must be completed at the time the commodity enters the United States. Copies must be returned to the U.S. Customs Service upon completion and to MOAB within 15 days after completion of the form. Information called for on the Importer's Exempt Commodity form includes:

(1) The commodity and the variety (if known) being imported,

(2) The date and place of inspection, if applicable,

(3) Identifying marks or numbers on the containers,

(4) Identifying numbers on the railroad car, truck or other transportation vehicle transporting product to the receiver,

(5) The name and address of the importer,

(6) The place and date of entry,

(7) The quantity imported,

(8) The name and address of the intended receiver (processor, feeder, charity, or other exempt receiver),

(9) Intended use of the exempt commodity,

(10) The U.S. Customs Service entry number and harmonized tariff code number, and

(11) Such other information as may be necessary to ensure compliance with this regulation.

For purposes of this regulation, a lot is considered to be imported when it is released by the Customs Service for entry into commercial markets or other channels. Lots that are exempt from grade, size, quality, and maturity requirements of the import regulations are not subject to the inspection and certification requirements in such regulations. An imported lot intended for normal commercial channels, or any portion of such a lot, that fails established grade, size, quality, and maturity requirements, may be disposed of in exempt outlets, as specified in the pertinent import requirements for the specific commodity.

The third copy of the form will accompany the exempt lot to its intended destination. The receiver will certify that the lot has been received and it will be utilized in an exempt outlet. After the certification is signed by the receiver, the form must be returned to MOAB by the receiver, within 15 days of receipt of the lot.

The burden on both importers and receiving entities is minimal and consistent with safeguard procedures imposed on the handling of domestically-produced exempt commodities. In accordance with the Paperwork Reduction Act of 1980 [44 U.S.C. chapter 35], this additional burden has been submitted to the Office of Management and Budget (OMB) for approval.

This rule increases the reporting burden on approximately 170 importers of potatoes, onions, tomatoes, dates and walnuts who will complete the Importer's Exempt Commodity form. The estimated time for importers to complete the form is 10 minutes. The estimated time for receivers to sign the certification is 5 minutes.

In accordance with section 8e of the Act, the United States Trade Representative has concurred with the issuance of this interim rule.

Based on the above, the Administrator of the AMS has determined that this interim rule will not have a significant economic impact on a substantial number of small entities.

This interim rule reflects the Department's appraisal of the need to relax the import requirements, as hereinafter set forth, to comply with the terms of NAFTA and to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is found and determined upon good cause that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule relaxing import requirements into effect and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register**. This rule should become effective on January 1, 1994, to be consistent with the provision of NAFTA, which states that imported goods destined for processing receive no less favorable treatment than that afforded domestic goods destined for processing. In addition, potatoes, onions, tomatoes, dates and walnuts currently being imported into the U.S. are now being marketed, subject to established grade, size, quality, and maturity requirements. To be consistent with section 8e of the Act, which provides that such domestic and imported commodities be subject to comparable requirements, this relaxation in the import requirements should become effective as soon as possible.

A 60-day period is provided to allow interested persons an opportunity to comment on this interim rule. All written comments timely received, will be considered before a finalization of this rule.

List of Subjects

7 CFR Part 980

Import regulations, Onions, Potatoes, Tomatoes.

List of Subjects

7 CFR Part 999

Import regulations, Dates, Filberts, Prunes, Raisins, Walnuts.

For the reasons set forth in the preamble, 7 CFR parts 980 and 999 are amended as follows:

PART 980—VEGETABLES; IMPORT REGULATIONS

PART 999—SPECIALTY CROPS; IMPORT REGULATIONS

1. The authority citation for 7 CFR parts 980 and 999 are revised to read as follows:

Authority: 7 U.S.C. 601–674.

2. Section 980.1 is amended by adding a new paragraph (i) to read as follows:

§ 980.1 Import regulations, Irish potatoes.

* * * * *

(i) *Exemptions.* The grade, size, quality and maturity requirements of this section shall not be applicable to potatoes imported for canning, freezing, other processing, livestock feed, charity, or relief, but such potatoes shall be subject to the safeguard provisions contained in § 980.501.

3. Section 980.117 is amended by adding a definition for pearl onions at the end of paragraph (h) and adding a new paragraph (i) to read as follows:

§ 980.117 Import regulations; onions.

* * * * *

(h) *Definitions.* * * * The term *pearl onions* means onions produced using specific cultural practices that limit growth to 1¾ inches in diameter or less.

(i) *Exemptions.* The grade, size, quality and maturity requirements of this section shall not be applicable to pearl onions, or onions imported for processing, livestock feed, charity, or relief, but such onions shall be subject to the safeguard provisions in § 980.501.

4. Section 980.212 is amended by adding a new paragraph (i) to read as follows:

§ 980.212 Import regulations; tomatoes.

* * * * *

(i) *Exemptions.* The grade, size, quality and maturity requirements of this section shall not apply to tomatoes for charity, relief, canning or pickling, but such tomatoes shall be subject to the safeguard provisions contained in § 980.501.

5. A new § 980.501 is added to read as follows:

§ 980.501 Safeguard procedures for potatoes, onions, and tomatoes exempt from grade, size, quality, and maturity requirements.

(a) Each person who imports (1) potatoes, onions or tomatoes for consumption by charitable institutions or distribution by relief agencies; (2) potatoes, onions, or tomatoes for processing; (3) potatoes or onions for livestock feed; or (4) pearl onions, shall obtain a copy of Importer's Exempt Commodity form from the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, or from the Fresh Products Inspection Office, the Processed Products Inspection Office, or the U.S. Customs Service serving the intended port of entry, and shall present, the completed Importer's Exempt Commodity form to the U.S. Customs Service Regional

Director or District Director, as applicable, at the port at which the customs entry is filed. One additional copy shall accompany the lot and another copy shall be filed with the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, within 15 days of the date of importation.

(b) Each person who receives an exempt commodity for the purposes specified in paragraph (a) of this section shall obtain a copy of the Importer's Exempt Commodity form from the importer and shall certify by signing, and return to the Marketing Order Administration Branch within 15 days of receipt of the exempt lot, that such lot has been received and will be utilized in the exempt outlet.

6. Section 999.1 is amended by removing paragraph (d), "Reconditioning prior to importation;" redesignating paragraph (d), as an untitled "Exemptions" paragraph (d)(1); and by adding a new paragraph (d)(2) to read as follows:

§ 999.1 Regulation governing the importation of dates.

* * * * *

(d)(1) * * *

(2) *Exemptions.* The grade, size, quality and maturity requirements of this section shall not apply to dates which are donated to needy persons, prisoners or Native Americans on reservations, but such dates shall be subject to the safeguard provisions contained in § 999.500.

* * * * *

7. Section 999.100 is amended by redesignating paragraph (e) as paragraph (e)(1) and by adding a new paragraph (e)(2) to read as follows:

§ 999.100 Regulation governing imports of walnuts.

* * * * *

(e)(1) * * *

(2) *Exemptions.* The grade, size, quality and maturity requirements of this section shall not apply to walnuts which are: green walnuts (so immature that they cannot be used for drying and sale as dried walnuts); walnuts used in non-competitive outlets such as use by charitable institutions, relief agencies, governmental agencies for school lunch programs, and diversion to animal feed or oil manufacture, but such walnuts shall be subject to the safeguard provisions contained in § 999.500.

* * * * *

8. Section 999.500 is added to read as follows:

§ 999.500 Safeguard procedures for walnuts and certain dates exempt from grade, size, quality, and maturity requirements.

(a) Each person who imports: (1) Dates which are donated to needy persons, prisoners or Native Americans on reservations; or (2) walnuts which are: green walnuts (so immature that they cannot be used for drying and sale as dried walnuts); walnuts used in non-competitive outlets such as use by charitable institutions, relief agencies, governmental agencies for school lunch programs, and diversion to animal feed or oil manufacture, shall obtain a copy of an "Importer's Exempt Commodity Form" from the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, or from the Fresh Products Inspection Office, Customs Office, or Processed Products Inspection Office serving the intended port of entry, and shall present the completed "Importer's Exempt Commodity Form" to the U.S. Customs Service Regional Director or District Director, as applicable, at the port at which the customs entry is filed. One additional copy shall accompany the lot and another copy shall be filed with the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA within 15 days of the date of importation.

(b) Each person who receives an exempt commodity for the purposes specified in paragraph (a) of this section shall obtain a copy of the Importer's Exempt Commodity form from the importer and shall certify by signing, and return to the Marketing Order Administration Branch within 15 days of the receipt of the exempt lot, that such lot has been received and will be utilized in the exempt outlet.

Dated: December 23, 1993.

Robert C. Keeney,

Deputy Director, Fruit and Vegetable Division.

BILLING CODE 3410-02-P

Farmers Home Administration

7 CFR Parts 1910, 1924, 1941, 1943, 1945, 1951, and 1980

RIN 0575-AB13

Borrower Training

AGENCY: Farmers Home Administration, USDA.

ACTION: Interim rule with request for comments.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations to require certain guaranteed and direct Farmer Programs loan applicants and borrowers to obtain training in production and financial management concepts. This action is necessary due to provisions in the Food, Agriculture, Conservation, and Trade Act of 1990, dated November 28, 1990 (hereinafter referred to as "the 1990 FACT Act"), that require the Agency to enter into contracts to provide educational training in financial and farm management concepts associated with commercial farming to all borrowers with Farmer Programs direct and guaranteed loans. The intended effect is to improve the borrowers' production and financial management ability, thereby increasing the number of borrowers who become successful and thus able to move to commercial credit sources.

DATES: Effective February 28, 1994. Written comments must be submitted on or before April 29, 1994.

ADDRESSES: Submit written comments, in duplicate, to the Chief, Regulations Analysis and Control Branch, Farmers Home Administration, USDA, room 6348, South Agriculture Building, 14th and Independence Avenue, SW., Washington, DC 20250. All written comments will be available for public inspection during regular working hours at the above address.

FOR FURTHER INFORMATION CONTACT: Kay M. Callin, Loan Officer, Farmer Programs Loan Making Division, Farmers Home Administration, USDA, South Building, 14th and Independence Avenue SW., Washington, DC 20250, telephone (202) 720-1186.

SUPPLEMENTARY INFORMATION:

Classification

We are issuing this interim rule in conformance with Executive Order 12866, and we have determined that it is not a "significant regulatory action." Based on information compiled by the Department, we have determined that this interim rule:

(1) Will have an effect on the economy of less than $100 million;

(2) Will not adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;

(3) Will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(4) Will not alter the budgetary impact of entitlements, grants, user fees, or loan programs or rights and obligations of recipients thereof; and

(5) Will not raise novel legal or policy issues arising out of legal mandates, the President's priorities, or principles set forth in Executive Order 12866.

Intergovernmental Consultation

1. For the reasons set forth in the final rule related to 7 CFR part 3015, subpart V (48 FR 29115, June 24, 1983) and FmHA Instruction 1940-J, "Intergovernmental Review of Farmers Home Administration Programs and Activities" (December 24, 1983), Farm Operating Loans and Farm Ownership Loans are excluded with the exception of nonfarm enterprise activity from the scope of Executive Order 12372, which requires intergovernmental consultation with State and local officials.

2. The Soil and Water Loan Program is subject to the provisions of Executive Order 12372 and FmHA Instruction 1940-J.

Programs Affected

These changes affect the following FmHA programs as listed in the Catalog of Federal Domestic Assistance:

10.404 Emergency Loans
10.406 Farm Operating Loans
10.407 Farm Ownership Loans
10.416 Soil and Water Loans

Environmental Impact Statement

This document has been reviewed in accordance with 7 CFR part 1940, subpart G, "Environmental Program." It is the determination of FmHA that this interim action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Public Law 91-190, an Environmental Impact Statement is not required.

Civil Justice Reform

This document has been reviewed in accordance with Executive Order (E.O.) 12778. FmHA has determined that this action does not unduly burden the Federal Court System since it meets all applicable standards provided in section 2 of the E.O.

Paperwork Reduction Act

The information collection requirements contained in these regulations have been approved by the Office of Management and Budget (OMB) under the provisions of 44 U.S.C. chapter 35 and have been assigned OMB control numbers 0575-0134, 0575-0141, 0575-0085, 0575-0083, 0575-0090, 0575-0133, and 0575-0086 in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3507). The revised information collection contained in 0575-0061 and 0575-0079 will not become effective until approved by OMB. Please send written comments to the Office of Information Regulatory Affairs, OMB, Attention: Desk Officer for USDA, Washington, DC 20503. Please send a copy of your comments to Jack Holston, Agency Clearance Officer, USDA, FmHA, AG Box 0743, Washington, DC 20250.

Discussion of the Interim Rule

On November 25, 1992, FmHA published a proposed rule in the **Federal Register** (57 FR 55473-55483) with a comment period ending December 28, 1992. The purpose of this interim rule is to provide a way for FmHA to assist borrowers in obtaining the financial and production management skills necessary to successfully operate a farm, gain equity in the farm operation, and graduate from FmHA programs and enable them to obtain private credit. The 1990 FACT Act (Pub.L. 101-624) amended the Consolidated Farm and Rural Development Act (CONACT) by adding Section 359. This section established the requirement that a borrower must obtain training in farm and financial management concepts appropriate to the borrower's management ability, as determined by the County Committee, to obtain a direct or guaranteed Farmer Programs loan. This interim rule defines the borrower training program and establishes procedures for implementing and administering the program.

The Agency is delaying implementation of this interim rule for 60 days after the date of publication. In addition, because of the large number of comments received and the wide range of views expressed in those comments, the Agency is requesting further comments to provide the opportunity for interested parties to suggest additional alternate courses of action in implementing the program.

Discussion of Comments

In response to the proposed rule, 224 individual written comments were received from 48 respondents. In some cases, multiple employees sent in copies of the same comments. The comments were divided into seven major categories as follows: Reduce the scope of borrowers for whom training will be required; provide clearer guidance to the County Committee on implementation of borrower training; eliminate training requirement for guaranteed borrowers; revise extent, content, and format of training; revise scoring system; make decision to require training appealable; and general comments. Several comments were general in nature and not specifically related to the proposed regulation.

Comments were received from ten FmHA employees, three lenders and one from a farm advocacy group regarding farmers who have experience that would exceed the degree of training to be provided. They suggested that these should be excepted from the training requirement. In response to these comments, a revision is being made to allow the County Committee to waive the production training requirement for applicants who demonstrate the abilities of a successful and efficient producer based on past management performance. To receive such a waiver, applicants must provide documentation which, at a minimum, includes the applicant's production records for the past five years and a statement explaining how the records demonstrate production ability. Five years of production history is already a requirement for a Farmer Programs loan application, so no new burden is created. Even if these applicants receive a waiver for production training, they still must meet the financial training requirement.

Three lenders and 11 FmHA employees submitted comments that new guaranteed borrowers and borrowers requesting subordinations should not automatically be required to receive training. The statute requires that guaranteed borrowers complete training unless a waiver is granted; therefore, no change is being made in this regard. However, a revision is being made to eliminate the training requirement for borrowers requesting subordinations. In light of the comments, the Agency believes that requiring training at the point of loan making and loan servicing is sufficient. While those borrowers in loan servicing are most needy, those requesting subordinations to other lenders are often progressing towards graduation to commercial credit. The Agency does not want to interfere with this progress by unnecessarily requiring borrower training.

Three commenters requested that training be required for guaranteed borrowers. This provision was included in the proposed rule and is not being changed in the interim rule.

Comments were received from four FmHA employees that the training requirement should be restricted to limited resource and 1951-S borrowers. As stated above, the statute applies to all direct and guaranteed Farmer Programs borrowers. Therefore, no changes are being made as a result of these comments.

VOL 58 ISS 249 DEC 30 1993 UMI

Two commenters expressed concern that FmHA does not have the authority to require training for borrowers requesting loan servicing. The statute authorizes the Secretary to issue regulations establishing guidelines for the borrower training program. CONACT section 359 specifically directs the Secretary to enter into contracts to provide training to all borrowers of Farmer Programs loans made under the CONACT. The legislative history of the provision further indicates Congressional intent that FmHA assist financially troubled borrowers in obtaining the financial and farm management skills necessary to successfully operate a farm, gain equity in the operation, and graduate to private credit. Therefore, requiring an existing borrower to obtain training in order to receive debt restructuring under 1951–S is allowable and consistent with legislative intent. Consequently, no changes have been made in response to these comments.

Six respondents suggested that the County Committee should be authorized to waive borrower training for any case as they determine appropriate. However, this degree of discretion is inconsistent with the statute which permits waiver only if the County Committee has determined that the borrower demonstrates adequate knowledge in financial and farm management concepts. The proposed rule provided for a waiver of the training requirement if the applicant had completed an approved course or a similar course. Revisions have been made by this interim rule to also include a provision to allow a waiver to be granted by the County Committee based on the applicant's production experience.

Comments were received from nine individuals stating that the process for granting waivers is too subjective and may place the County Committee in an awkward position. By statute, the County Committee has the responsibility of reviewing documentation provided by the applicant to determine if a waiver should be granted. Because the County Committee serves as a representative sample of the farmers in the area, they are assumed to be qualified to make determinations based on local conditions. County Committees already must make subjective eligibility determinations in accordance with statutory and regulatory authority. Therefore, no changes are being made in response to these comments.

Four comments were received requesting clarification of the County Committee guidelines to encourage consistency when granting waivers. The guidelines for granting a waiver were written to provide flexibility for the County Committee to use their knowledge of the conditions in the area and the documentation submitted by the applicant to determine if a waiver should be granted. Therefore, no changes are being made to the regulation in response to these comments.

Comments were received from three individuals stating that the County Committee should not be provided the authority to modify the evaluation score determined by the course instructor. Revisions have been made to eliminate the County Committee's review of the instructor's evaluation. It was determined that this review was not necessary if a qualified instructor provided the evaluation. In addition, a revision was made to require the County Supervisor to review the evaluation to determine if the borrower has satisfied the training requirements or if further training should be recommended or special servicing actions required based on the borrower's score.

Three lenders expressed concern that a borrower with impeccable history who failed to attend training would be denied future credit because of the failure to attend training. If the borrower's history and past performance are outstanding, it is possible he/she would be eligible for a waiver. If a waiver is not granted, however, the borrower would be required to attend training. This is required by the statute and, therefore, no changes were made based on these comments.

Comments were received from three respondents who felt that at least one County Committee member should be required to attend the training session, at FmHA's expense, so they would be knowledgeable of the training requirements. FmHA will make the County Committee aware of the availability of training sessions. County Committee members will have the option of attending the courses at their own expense. However, a change was made based on these comments that requires the vendor to submit information regarding the policy for allowing individuals to audit the course.

One commenter suggested that the County Committee should be authorized to give partial waivers. The Agency agrees and has revised the interim rule to provide the opportunity for the applicant/borrower to receive a waiver for either production management training or financial management training or for both. For example, the Agency has found that many of its borrowers are good producers but need help in the area of financial management. A partial waiver system will be fairer and less costly to such applicants and borrowers.

Comments were received from 13 lenders and eight FmHA employees expressing concern that lenders will not participate in the guaranteed program because of added servicing requirements and additional FmHA interference. Because the statute specifically includes guaranteed borrowers in the training requirements, no changes have been made to the regulation based on these comments.

Twelve respondents felt that the training should be offered, but not required for loans because they felt borrowers must be self-motivated to improve and enhance their abilities. No changes have been made to the regulation based on these comments because training is required by statute. To be eligible for FmHA assistance, training must be completed unless a waiver is granted.

Five commenters suggested that training should be required before assistance is provided. The statutory language and legislative history indicate that Congress did not intend the training requirement to change FmHA's current consideration of a borrower's eligibility for direct or guaranteed loans. Furthermore, loan eligibility and the need for training are independent determinations made by the County Committee. If the borrower is required to complete training prior to assistance being provided, this independent determination is lost. Therefore, no changes are being made based on these comments.

Nine lenders expressed concern that guaranteed lenders would be responsible for monitoring borrower training. Respondents felt the training should be monitored by FmHA. FmHA, however, wants to limit its direct dealing with the loan applicant since the lender is responsible for servicing the account. The Agency agrees, however, that FmHA needs to be involved in the process. The regulations, therefore, are being revised to require lenders to monitor the borrowers' progress and periodically report back to FmHA. This procedure for FmHA and lender involvement is consistent with the procedure for requiring the vendor to provide the lender and FmHA with periodic progress reports.

One comment was received from a lender concerned that the Guaranteed Overview Task Force did not have input on development of borrower training for guaranteed borrowers. All interested individuals were encouraged to provide written comments on the proposed rule. This provided all members of the task force a chance to express any opinions on the development of the training program. No changes were made to the regulation based on this comment.

One lender suggested that FmHA should provide a list of vendors and courses available in each location. Because this list was provided for in the proposed rule, no changes need to be made to incorporate this recommendation.

Five comments were received regarding the length of time allowed for borrowers to complete the training program. Two commenters felt the time allowed (2 years) was too long and three felt it was not long enough. The Agency originally determined that training should be completed within two years after the agreement to complete training is signed. However, the borrower will still have the option to request a 1-year extension if the training could not be completed as anticipated. This policy was adopted in the proposed rule after consulting with experts in agricultural education and several farm advocates on training curriculum. It was determined that two years was a reasonable amount of time allowing for the usual one year training program with some leeway for late starters, longer training courses, etc. Therefore, no revisions were made based on these comments.

Two respondents felt that borrowers should be required to attend future training sessions to keep up with changes in technology and production methods. Training will be available for those borrowers who would like to attend additional courses, but the courses will be entirely optional. No changes are being made to the regulations based on these comments.

Comments from five FmHA employees suggested that the Extension Service should be given all of the vendor training responsibility. The statute lists the Extension Service as one option among several to provide training. The statute specifically says that State or private providers of farm management and counseling services may be utilized to provide training. Therefore, no changes are being made based on these comments.

Comments from two FmHA employees suggested that training should be based on FmHA forms and procedures. The ultimate goal of supervised credit is to assist borrowers in graduating from FmHA programs to private credit. Restricting training to FmHA credit situations would be a great disservice to the borrower. For that reason, no changes are being made in response to these comments.

Five commenters suggested that the curriculum should be established in terms of "hours" rather than "years" for consistency in implementation and monitoring. The curriculum was not established based on hours to allow flexibility in the training program to meet the needs of borrowers in specific areas. Therefore, no changes are being made based on these comments.

One FmHA employee stated the regulations should be written to include various methods of delivery of training, such as telenet and satellite, as acceptable methods of providing and receiving training. The proposed rule provides the opportunity for States to review the proposed vendor's methods of training prior to approval of the vendor. If the State Director feels the vendor's method of delivery of the training is acceptable for the area, the vendor may be approved. No change to the regulation is necessary to respond to this comment.

Four respondents expressed concern that it would be extremely difficult to provide production training for many different enterprises in relatively small locales, particularly if the borrower had several different enterprises. However, the proposed rule only required that borrowers complete production management courses in crop or livestock enterprises which constituted 20% or more of the projected cash farm operating costs for the coming production cycle as determined by the County Committee. The interim rule nonetheless revises this policy to require such courses only in those crop or livestock enterprises which constitute 20% or more of the total projected cash farm income. Income is a better indicator than costs of which crop or livestock production will significantly affect the overall operation. The interim rule also provides for a 1-year extension of the 2-year period in which training must be completed for circumstances beyond the control of the borrower, such as discontinuance of the necessary approved courses. This extension, therefore, would be appropriate if needed courses are unavailable. Under the interim rule, vendors' proposed sites for training should be within a reasonable commuting distance to meet approval by State Directors.

Comments were received from four individuals who suggested that the course requirements should be outlined in segments for consistency between vendors in a specific area. The proposed rule provided the opportunity for the State Director to review the vendor's proposed course outline prior to approval. The State Director can determine if the vendor's outline will allow for consistency between vendors. Flexibility is important at the State level. Therefore, no changes are being made based on these comments.

Two individuals suggested that the requirements for instructors should be more flexible. The regulations, therefore, are being revised to allow instructors and vendors with three years experience in conducting training courses or teaching to be eligible to conduct borrower training. The proposed rule required instructors and vendors to have a minimum of three years experience in training and working specifically with farmers. The requirement that the instructor have a bachelor's degree or comparable experience will remain in effect.

Three commenters requested that the training language include production training. This requirement was implied in the proposed rule although it was not mentioned specifically. Revisions are made to specifically mention production management training in the interim rule.

Comments were received from two individuals who felt that production training should be excluded from the requirement. The intent of the law was to provide borrowers training in farm management concepts as well as financial management. Therefore, production training is also required.

However, the interim regulations do provide the option of a waiver from production training.

One commenter suggested that training sources should be limited to non-profit entities only. The statute specifically allows State or private providers of farm management and counseling services to be utilized to provide training. This would include vendors who are in business to make a profit. Because Congress intended to provide as many options for training vendors as possible, no revisions are being made based on this comment.

One commenter requested clarification of who would be required to attend training in the case of a husband/wife operation. The proposed regulations required the individual who holds a majority interest or who operates the farm to complete the training. If these are different individuals, both would have to meet the training requirements in financial and production management. The intent of the regulations, however, was to allow the individual who has full responsibility for the various functions of the farm operation, particularly financial and production management, to either be granted a waiver or to be required to complete training in the specific area of responsibility. Thus, in

a husband and wife operation, if the wife solely attended to the farm's financial management and the husband solely attended to production, she would be required to receive training in financial management for the entity, and he for production management, if they did not qualify separately for partial waivers. If the husband and wife shared responsibility for financial and production management, their experience would be considered in the aggregate to determine whether a waiver or training was appropriate. The regulations are being revised to clarify this issue in response to this comment.

One comment was received regarding the determination of separate enterprises. The State Director has the opportunity to determine which enterprises will be covered by the course when approval for the course is granted. No changes are being made to the regulations in response to this comment.

One commenter suggested that the vendor should not be required to specify the training location until after approval has been granted to allow the vendor to locate training in the areas of greatest need. The regulations are being revised to require that vendors specify proposed locations for training when an application for approval is submitted, rather than the specific training sites.

Three individuals commented that training should be provided within a reasonable commuting distance for borrowers. The Agency has accepted this recommendation and the regulation is being revised.

Comments were received from two individuals who stated that the regulations needed a provision to decertify training vendors. The regulations are being revised to allow the State Director or the vendor to revoke the agreement to conduct training in writing giving 30 days notice. The State Director may revoke the agreement if the vendor fails to comply with responsibilities listed in the agreement. Such revocation is nonappealable under FmHA appeal regulations.

One commenter suggested that the final rule should require the State Director to obtain input from a committee comprised of individuals listed in the proposed rule (Chief Executive Officer of a State, State Department of Agriculture, State Extension Service, community college, and non-profit organization) to tailor the training agenda to the needs of the State. The State Director has the option of consulting with individuals from the various organizations, but is not required to do so. No change is being made in response to this comment.

One FmHA employee suggested that the system used to assign scores to the borrower should be reversed. A score of 1 would be given to borrowers who have met the training requirements and a 3 would be given to those borrowers who have not met the training requirements. The Agency has accepted this recommendation and the regulation is being revised.

One commenter requested that the notification to trainees include a description of the scoring system to be used. The Agency has accepted this recommendation and the change is being made in the interim rule.

Comments were received from four individuals suggesting that Form FmHA 440–2, "County Committee Certification or Recommendation," be revised to include an appropriate section for training and/or waivers. The Agency is adopting this recommendation.

One commenter suggested that FmHA pay for the cost of training rather than the borrower. The statute requires that the borrower pay the cost of the training. However, operating loan funds may be used to pay this expense as it is considered a farm operating expense. Therefore, no changes are being made based on this comment.

Two FmHA employees expressed concern that the extra cash cost of the training may make the borrower's plan unfeasible and requested that the County Committee have the latitude to waive the requirement in these situations. According to the statute, the County Committee may grant waivers only if the borrower demonstrates the knowledge and experience to warrant a waiver. No revision is necessary based on this comment.

Four respondents indicated that the comment period should be extended. It should be noted that written comments were accepted after the closing date of the comment period and were considered when drafting the interim rule. However, the comment period was not officially extended. A 120-day comment period is being provided with this interim rule.

Two individuals suggested that vendors would need money to prepare to provide training to FmHA borrowers. The commenters did not indicate who should provide these funds. Therefore, no response is necessary.

Thirty-four commenters felt that requiring borrower training was not going to be beneficial. Comments ranged from the training being an imprudent requirement and a waste of taxpayer money to being an additional burden imposed on borrowers, lenders, FmHA and taxpayers. Because borrower training was mandated by Congress, no revisions are being made based on these comments.

Eight individuals felt the concept was commendable but did not feel it was realistic. In developing the proposed regulations, the Agency consulted with experts in agricultural education to develop an effective training program. As previously discussed, the regulations are being revised based on comments from various individuals to make the program as efficient and realistic as possible.

Three respondents expressed strong opposition to the section of the proposed regulation dealing with appeals. Respondents felt that denial of a waiver should be considered an adverse decision and therefore appealable. Because loans will be made or serviced upon the condition that training is obtained, no adverse decision has been made which "directly and adversely affects" the borrower. Under FmHA appeal regulations, 7 CFR part 1900, subpart B, one is "directly and adversely affected" when a request for assistance is denied, or assistance is reduced, cancelled, or not reviewed. The nonappealable matter, however, would be reviewable under the appeal regulations. If a loan or loan guarantee is ultimately denied, then appeal rights will be given. Therefore, no change is being made to the regulations based on this comment.

In addition to changes made in response to public comments, other administrative changes have been made. References to "insured loans" in the regulation text are changed to read "direct loans" to reflect changes in terminology required by the Credit Reform Act of 1990. Regulation exhibits also have been revised in order to reflect changes made to the regulation text.

The regulations also are revised to exempt applicants for youth operating loans from the borrower training requirements. Though the statute states that the Secretary shall enter into contracts to provide training to all Farmer Programs borrowers, it also states that the need of a borrower who satisfies the training or farm experience requirement of CONACT section 302(a)(2) or section 312(a)(2) for borrower training will not be cause for denial of a loan or guarantee. Borrowers with Youth Loans are specifically excepted from the training or farm experience requirement by CONACT section 302(b); therefore, it appears that Congress did not intend the borrower training requirement to apply to youth loan applicants. Furthermore, application of the borrower training

requirement to youth applicants would yield ludicrous results. Youth applicants already are in training through their participation in 4–H Clubs, Future Farmers of America, and similar organizations as required by CONACT section 302(B).

List of Subjects

7 CFR Part 1910

Applications, Credit, Loan programs—Agriculture, Loan programs—Housing and community development, Low and moderate income housing, Marital status discrimination, Sex discrimination.

7 CFR Part 1924

Agriculture, Construction management, Construction and repair, Energy conservation, Housing, Loan programs—Agriculture, Loan programs—Housing and community development, Low and moderate income housing.

7 CFR Part 1941

Account servicing, Credit, Loan programs—Agriculture, Loan programs—Housing and community development, Low and moderate income housing loans—Servicing, Debt restructuring.

7 CFR Part 1980

Agriculture, Loan programs—Agriculture.

Therefore, Chapter XVIII, Title 7, Code of Federal Regulations is amended as follows:

PART 1910—GENERAL

1. The authority citation for part 1910 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23 and 2.70.

Subpart A—Receiving and Processing Applications

2. Section 1910.4 is amended by revising paragraph (b)(3) to read as follows:

§ 1910.4 Processing Applications.

* * * * * *

(b) * * *

(3) A brief written description as to the farm training and/or experience of the applicant and the individual members of an entity applicant (new applicants only). If a waiver from the training required in § 1924.74 of subpart B of part 1924 of this chapter is requested, provide verification of any courses taken which covered production and/or financial management concepts, and/or a statement explaining how the applicant's proven performance based on 5-year production records demonstrates production ability.

* * * * *

PART 1924—CONSTRUCTION AND REPAIR

3. The authority citation for part 1924 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart B—Management Advice to Individual Borrowers and Applicants

4. Section 1924.59 is amended by adding paragraph (e)(7) to read as follows:

§ 1924.59 Supervision.

* * * * * *

(e) * * *

(7) Complete any training required by § 1924.74 of this subpart.

* * * * * *

§ 1924.73 [Amended]

5. Section 1924.73 is amended in paragraphs (a), (b)(2), and (b)(3) by revising the reference "§ 1924.60(d)" to read "§ 1924.60(c)."

6. Section 1924.74 is added to read as follows:

§ 1924.74 Borrower Training program.

(a) *Introduction.* (1) Supervised credit includes helping borrowers to develop the skills necessary for successful, efficient production and financial management of a farm business. An effective, formal training program provides a solid foundation on which borrowers can build the skills which will enable them to become efficient, financially sound producers who can obtain commercial financing. The goal of this training is for borrowers to develop and improve the financial and production management skills necessary to successfully operate a farm, build equity in the farm business, and become financially successful to graduate from FmHA programs to commercial sources of credit.

(2) The authorities contained in this section require certain Farmer Programs borrowers to obtain training in production and financial management concepts. Unless waived, this training will be an eligibility requirement for all Farmer Programs direct and guaranteed loans. The training requirement will also apply to all direct borrowers who receive Primary Loan Servicing actions approved under subpart S of part 1951 of this chapter, with the exception of net recovery buyout offers. Borrowers who do not request new loans or servicing actions will be notified during farm visits and annual analyses of approved courses in their area. Also, a current list of approved courses will be posted in the County Office.

(3) The training will be carried out by public and/or private sector providers of farm management and credit counseling services (including, but not limited to, community colleges, the Extension Service, State Departments of Agriculture, farm management firms, lenders, and similar qualified organizations).

(4) State Directors will enter into agreements with one or more qualified providers in each State to conduct the training.

(b) *Processing*—(1) *County Committee review.* The determination of an applicant/borrower's need for enhanced training in production and financial management concepts will be made by the County Committee. To make this determination, the Committee will review the case file (in the case of borrowers) and the complete application package for the assistance requested. A decision that the applicant/borrower needs such training cannot be used as a basis for rejecting the request for assistance. In the case of a cooperative, corporation, partnership, or joint operation, any individual member, stockholder, partner, or joint operator holding a majority interest in the entity or who is operating the farm must agree to complete the training on behalf of the entity. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities for production and/or financial management. This training must be completed within 2 years after Form FmHA 1924–23, "Agreement to Complete Training," is signed if a

waiver is not granted. The Committee's decision as to the requirement of training will be documented on Form FmHA 440–2, "County Committee Certification or Recommendation." When production training is required, a borrower must complete course work covering production management in crop or livestock enterprises which constitute twenty percent of the projected cash farm income for the coming production cycle, as determined by the County Committee. Borrowers who are adding a new enterprise must agree to complete any required production training in that enterprise unless a waiver is granted by the County Committee. The areas of production training will be specified on Form FmHA 440–2. Borrowers must also complete financial management training unless a waiver has been granted by the County Committee.

(i) *Loan applicants.* After the County Committee has determined that the applicant meets all eligibility criteria for the type of assistance requested, the Committee will consider the applicant's need for enhanced training in production and financial management concepts. Eligibility determinations and borrower training determinations should be made during the same Committee meeting. If the Committee determines the applicant is ineligible for assistance, the training requirement will not be considered.

(ii) *Requests for Primary Loan Servicing.* Prior to FmHA's offer of any Primary Loan Servicing action, the County Committee must determine whether the borrower must complete a training program or qualifies for a waiver. This determination should be made after a feasible plan has been developed using consolidation, rescheduling, reamortization, deferral, softwood timber, and/or writedown, but prior to FmHA's actual offer to restructure the borrower's accounts. This training requirement does not apply to those borrowers offered net recovery buyout or preservation loan servicing. If the borrower must complete a training program, fees will be included in the plan as an operating expense.

(2) *Waivers.* Applicants for loans and Primary Loan Servicing programs may request a waiver from the training requirement by submitting Form FmHA 1924–27, "Request for Waiver of Borrower Training Requirements," with the application for assistance. The waiver request must include the required documentation and records as specified in paragraphs (b)(2)(i) and (b)(2)(ii) of this section. A waiver is not required for those applicants who have previously received a waiver, or who have previously satisfied the training requirements. The applicant/borrower must meet all training requirements for both production and financial management if no waiver is granted. If the borrower receives a waiver for production training, the requirements for financial management training must still be met. Conversely, if the borrower receives a waiver for financial management training, the requirements for production training must still be met. In the case of entity applicants, only those entity members who hold a majority interest in the operation or who operate the farm must meet the waiver conditions for the entity to qualify for a waiver. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities for production and/or financial management. The County Committee may waive the financial and/or production training requirements under the following conditions:

(i) The applicant has successfully completed an equivalent training program. To meet this requirement, the applicant must submit evidence of completion of a production and/or financial management course similar to a course approved under this section. The submission must include a description of the content and subjects covered in the course(s) completed by the applicant or entity members. The submission must also include evidence of completion, such as a grade report, certificate of completion, or written certification by the course instructor. The program must have covered subject areas in paragraph (d)(3)(iii) of this section. The County Committee will review the documentation submitted by the applicant(s) for assistance to determine whether the training completed satisfies the training requirements of this section; or

(ii) The applicant has the experience and/or training which demonstrates the abilities necessary for successful, efficient production as determined by the County Committee based on documentation provided by the applicant with the request for the waiver. This documentation must include, at a minimum, the applicant's production records for the past 5 years and a statement explaining how the records demonstrate production ability.

(3) *Notifying applicants/borrowers of the County Committee's decision regarding training.* The applicant/borrower will be informed of the County Committee's decision as follows:

(i) Loan applicants receiving a waiver from the training will be notified in the letter of eligibility, required under § 1910.6 of subpart A of part 1910 of this chapter. Applicants for Primary Loan Servicing actions who are receiving a waiver will be notified through exhibit B or exhibit F to subpart S of part 1951 of this chapter, as appropriate.

(ii) Loan applicants required to complete the training will be notified in the letter of eligibility. Applicants for Primary Loan Servicing actions who are required to complete the training will be notified through exhibit B or exhibit F to subpart S of part 1951 of this chapter, as appropriate. The notification will include the name(s) of the approved vendor(s) in the applicant/borrower's area and the specific courses required. The notification to the applicant/borrower will also include a description of the scoring system to be used to determine if the applicant/borrower has successfully met the training requirements. In both loan making and servicing cases, the decision to require certain training is not appealable. However, the decision is reviewable.

(4) *Notification of applicants determined ineligible for assistance.* In the letter informing them of the County Committee's decision, applicants determined ineligible for assistance due to lack of management training and experience will be notified, for their information, of training programs approved under this section. If the ineligible applicant chooses to enroll in a training program, eligibility for future assistance will not be automatic upon completion of the course. Applicants who complete an approved course and later apply for a new loan must still demonstrate that they possess sufficient training and experience to assure reasonable prospects of success and meet other eligibility requirements for the assistance requested.

(5) *Contacting vendor and payment.* Upon receiving the notification of the training requirement, the borrower is responsible for selecting and contacting a vendor(s), and making all arrangements to begin the training. FmHA is not a party to fee or other agreements between the borrower and the vendor. Training fees must be included in the plan of operation as a farm operating expense. Payment of training fees is an authorized use of operating loan funds.

(6) *Training agreement.* Prior to closing the loan or Primary Loan Servicing action, the applicant/borrower must sign Form FmHA 1924–23. This agreement will be placed in position 2 of the borrower case file.

(7) *Automated tracking system.* Field offices will process certain data to the automated Finance Office records in order to properly track borrower training-related information. Reference the automated system user manuals for more specific information on this automated tracking system.

(8) *County Office monitoring.* Required training will be included in Table C of Form FmHA 431–2. FmHA personnel will monitor borrower progress during farm visits and analyses in accordance with this subpart. The County Supervisor will also contact the borrower to follow up on unsatisfactory training progress reports. All contacts with the borrower will be noted in the running case record, together with the topics discussed and agreements reached.

(c) *Vendor's evaluation of borrower progress.*—(1) All required training must be completed within 2 years after the borrower signs Form FmHA 1924–23. The County Supervisor may grant a 1-year written extension to the agreement in cases where the borrower demonstrates he/she was unable to complete the training due to circumstances beyond his/her control, such as poor health or discontinuance of the necessary approved courses. Refusal to grant a 1-year extension is not an appealable decision.

(2) The vendor will provide FmHA with periodic progress reports. The frequency of these reports will be determined by the State Director. These reports are not intended to reflect a grade or score, but to indicate whether the borrower is attending sessions and honestly endeavoring to complete the training program. Upon completion of the training, the vendor will provide the County Office with an evaluation of the borrower's knowledge of the course material. This evaluation shall specifically address the borrower's improvement toward meeting the goals outlined in this section. The instructor will also assign the borrower a score according to the following criteria:

Score

1 The borrower attended classroom sessions as agreed, satisfactorily completed all assignments, and demonstrated an understanding of the course material.

2 The borrower attended classroom sessions as agreed and attempted to complete all assignments; however, the borrower does not demonstrate an understanding of the course material.

3 The borrower did not attend classroom sessions as agreed and/or did not attempt to complete assignments. In general, the borrower did not make a good faith effort to complete the training.

(i) Borrowers receiving a score of 1 will have met the requirements of the agreement. The accounts of these borrowers will be serviced in accordance with existing regulations.

(ii) Borrowers receiving a score of 2 will have met the requirements of the agreement. However, since these borrowers do not adequately demonstrate an understanding of the course material, the County Supervisor will develop a plan outlining the additional supervision the borrower will require to accomplish the objectives of FmHA assistance, such as recommending further training, more frequent farm visits, or retaining professional services of an accountant, farm management consultant, or similar expert based upon the borrower's abilities.

(iii) Borrowers receiving a score of 3 will not have met the requirements of the agreement for training. Failure to complete the training as agreed will cause the borrower to be ineligible for future FmHA benefits including future direct and guaranteed loans, Primary Loan Servicing, Interest Assistance renewals, and restructuring of guaranteed loans.

(d) *Selection and approval of organizations and courses.*—(1) *Identification of potential vendors.* Prior to the initial approval of vendors and prior to renewal of approved vendor's training agreements, the State Director or designee shall solicit applications from all interested organizations, keeping in mind its cultural diversity responsibilities. The State Director shall contact the Chief Executive Officer of the State and appropriate officials from the State Department of Agriculture, the State Extension Service, community colleges, and other private or nonprofit organizations which may be interested in conducting this training.

(2) *Application.* The vendor must submit the following items prior to consideration for approval:

(i) A sample of the course materials and a description of the method(s) of training to be used.

(ii) Specific training objectives for each section of the course. These objectives should relate to the general objectives outlined in paragraph (d)(3)(i) of this section.

(iii) A detailed course agenda specifying the topics to be covered, the time to be devoted to each topic, and the number of sessions to be attended.

(iv) A list of instructors and their qualifications, and the criteria by which additional instructors will be selected.

(v) The proposed locations where training will take place. These sites should be within a reasonable commuting distance for borrowers to be served by the vendor.

(vi) Cost per participant and/or cost per organization, *i.e.*, cost for husband/wife joint operation; father/son partnership; or multiple members of a corporation.

(vii) Minimum and/or maximum class size.

(viii) A description of the organization's experience in developing and administering training to farmers.

(ix) A description of the monitoring and/or quality control methods the organization intends to use.

(x) A description of the policy on allowing FmHA employees to attend the course for monitoring purposes, *i.e.*, the number of employees authorized to attend; the cost (if any); and the number of classes each employee can attend.

(xi) A description of how the needs of borrowers with physical and/or mental handicaps or learning disabilities will be met.

(xii) A plan of how the needs of borrowers for whom English is not their primary language will be met.

(3) *State Office review and recommendation.* Upon receipt of the application packages from the potential vendors, the State Director will review the material to assure the vendor's proposal meets the following minimum criteria for accomplishment of educational objectives, instructor qualifications, curriculum content, and vendor qualification:

(i) *Educational objectives.* Upon completion of the course, the borrower shall be able to:

(A) Describe the specific goals of the business, describe what changes are required to attain the business goals, and outline how these changes will occur using present and projected enterprise budgets.

(B) Maintain and utilize a financial management information system which includes financial and production records, a household budget, a statement of financial condition, and an accrual adjusted income statement. The borrower shall also be able to use this system when making financial and production decisions.

(C) Understand and utilize an income statement. Specifically, the borrower must understand the structure and

VOL 58 ISS 249 DEC 30 1993 UMI

VOL 58 ISS 249 DE 30 1993 UMI

major components of an income statement and its role in analyzing the performance of a business, be familiar with the cash and accrual methods of determining net farm income, and understand the relationship between a balance sheet and an income statement.

(D) Understand and utilize a balance sheet. Specifically, the borrower must understand the major components of a balance sheet and its role in analyzing the business, be familiar with the categories of assets and liabilities and be able to provide examples of entries under each, and be familiar with the cost and market methods of valuing assets and liabilities and the advantages of each method.

(E) Understand and utilize a cash flow budget. Specifically, the applicant must be able to explain and justify estimates for production and expenses, and analyze the cash flow to identify potential problems.

(F) Using production records and other production information, be able to identify problems, evaluate alternatives, and make needed corrections to current production practices to achieve greater efficiency and profitability.

(ii) *Instructor qualifications.* Instructor qualifications will be reviewed to assure sufficient knowledge of the material and sufficient experience in adult education. The instructors must have a bachelor's degree or comparable experience in the subject area they will teach and a minimum of three years experience in conducting training courses or teaching. Also, the instructors must successfully complete any instructor training which may be associated with the FmHA-approved course.

(iii) *Curriculum.* The curriculum shall be reviewed to assure that the following subject matter is sufficiently addressed. A single vendor is not required to provide all the courses necessary to cover the entire curriculum; however, to the extent practicable, all topics must be available for all FmHA districts. The State Director shall identify the specific crop or livestock enterprises for which training must be available in a given area or district, and any additional subject matter to be covered for each.

(A) *Business Planning.* The course(s) shall cover the general areas of goal setting, risk management, and planning. Goal setting will include identification of personal and family goals, business goals, and short- and long-term goals. Risk management concepts will include the sources, magnitude and frequency of risk, risk tolerance, risk-taking ability of the business, and strategies for managing risk such as use of credit, marketing, production practices, and insurance. Finally, the course(s) will guide the borrower through the formulation of a long-term business plan for the farm and presentation of this plan to a lender.

(B) *Financial Management Systems.* The course(s) shall cover all aspects of farm accounting, specifically: Instruction in financial record keeping, preparation of a household budget, development and analysis of accrual adjusted income statements, balance sheets, and cash flow budgets. The course(s) shall focus on integrating these elements into a financial management system which enables the borrower to make business decisions based on his/her analysis of financial information.

(C) *Crop Production.* The course(s) shall focus on improving the profitability of the borrower's crop enterprises. Specifically, the course shall address keeping and analyzing production records, identifying problems in current production practices, identifying sources of production information and assistance, and using production information to analyze alternatives and identify the most profitable solution.

(D) *Livestock Production.* The course(s) shall focus on improving the profitability of the borrower's livestock enterprises. Specifically, the course shall address keeping and analyzing production records, identifying problems in current production practices, identifying sources of production information and assistance, and using production information to analyze alternatives and identify the most profitable solution.

(iv) *Vendor.* The proposed vendor of the training must have demonstrated a minimum of three years experience in conducting training courses or teaching the proposed subject matter.

(4) *Approval.* After review of the applications, the State Director shall determine which vendors should be recommended for final approval. Complete application packages from the selected vendors should be submitted to the National Office for concurrence prior to final approval. Applications from accredited colleges (including community colleges) or universities, however, do not require National Office concurrence prior to final approval. If all of the instructors have not been selected at the time of request for approval of the vendor, the vendor may be approved with the condition that instructors will meet the criteria set out in paragraph (d)(3)(ii) of this section. After approval, the State Director and the vendor(s) will sign Form FmHA 1924–24, "Agreement to Conduct Production and Financial Management Training for Farmers Home Administration Borrowers." This agreement will be valid for three years, unless revoked in writing and giving 30 days notice by the State Director or the vendor. The State Director may revoke the agreement if the vendor does not comply with the responsibilities listed in the agreement. Such revocation is nonappealable. The State Director will issue a State supplement to this subpart listing the approved vendor(s), the contact person for the vendor, the terms of the vendor agreements, and the subject matter in which each vendor is approved to conduct training.

(5) *Renewals.* Renewal of agreements to conduct training will not be automatic. The vendor must request renewal in writing, provide updates to any changes in curricula, and provide information which indicates the training provided by the vendor is effective. Such information may include course evaluations, test scores, or statistics on the improvement of borrowers who have completed the course. The State Director must obtain National Office concurrence on any decisions to deny renewal of a vendor's agreement. A decision to deny renewal of a vendor's agreement is nonappealable.

(e) *Vendor monitoring.* An operational file will be maintained in the State Office for each approved vendor. This file will include the application, National Office concurrence (if required), the signed Form FmHA 1924–24, documentation of FmHA's monitoring of the vendor, and any further documentation to determine the success of the vendor's program. To assure the training organization is correctly and effectively implementing the training as proposed, the State Director or designee will be responsible for monitoring the vendor. This monitoring shall, as a minimum, consist of:

(1) Attendance at selected training sessions for each vendor to verify that the agreed-upon subject matter is being covered in sufficient detail and to assess the effectiveness of the training provided by the instructors.

(2) Review of course and instructor evaluations. Course and instructor evaluations will be completed by the borrowers on Form FmHA 1924–22, "Borrower Training Course Evaluation." This form will be provided to the borrowers by the instructor as they complete the course. The evaluations will be forwarded to the State Director for review. The results will be summarized and made part of the operational file on each vendor.

(3) Monitoring of borrowers' improvement upon completion of a course. The State Director will analyze statistics regarding borrower performance, such as the graduation and delinquency of borrowers who have completed the required training course.

PART 1941—OPERATING LOANS

7. The authority citation for part 1941 continues to read as follows:

Authority: 7 U.S.C. 1989; 5 U.S.C. 301; 7 CFR 2.23 and 2.70.

Subpart A—Operating Loan Policies, Procedures, and Authorizations

8. Section 1941.12 is amended by adding paragraph (c) to read as follows:

§ 1941.12 Eligibility requirements.

* * * * *

(c) *Borrower training.* Except for applicants for youth loans, all applicants must agree to meet the training requirements of § 1924.74 of subpart B of part 1924 of this chapter unless a waiver is granted in accordance with that section. In the case of a cooperative, corporation, partnership, or joint operation, any individual member, stockholder, partner, or joint operator holding a majority interest in the operation or who is operating the farm must agree to complete the training or qualify for the waiver on behalf of the entity. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities. If the applicant has previously been required to obtain training, the applicant must be enrolled in and attending, or have satisfactorily completed, the training required.

§ 1941.14 [Amended]

9. Section 1941.14 is amended by revising in paragraph (a)(3) the words "Item D" to read "Table C."

PART 1943—FARM OWNERSHIP, SOIL AND WATER AND RECREATION

10. The authority citation for part 1943 continues to read as follows:

Authority: 7 U.S.C. 1989; 5 U.S.C. 301; 7 CFR 2.23 and 2.70.

Subpart A—Insured Farm Ownership Loan Policies, Procedures, and Authorizations

11. Section 1943.12 is amended by adding paragraph (c) to read as follows:

§ 1943.12 Farm ownership loan eligibility requirements.

* * * * *

(c) *Borrower training.* The applicant must agree to meet the training requirements of § 1924.74 of subpart B of part 1924 of this chapter unless a waiver is granted in accordance with that section. In the case of a cooperative, corporation, partnership, or joint operation, any individual member, stockholder, partner, or joint operator holding a majority interest in the operation or who is operating the farm must agree to complete the training or qualify for the waiver on behalf of the entity. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities. If the applicant has previously been required to obtain training, the applicant must be enrolled in and attending, or have satisfactorily completed, the training required.

Subpart B—Insured Soil and Water Loan Policies, Procedures and Authorizations

12. Section 1943.62 is amended by adding paragraph (c) to read as follows:

§ 1943.62 Soil and water loan eligibility requirements.

* * * * *

(c) *Borrower training.* The applicant must agree to meet the training requirements of § 1924.74 of subpart B of part 1924 of this chapter unless a waiver is granted in accordance with that section. In the case of a cooperative, corporation, partnership, or joint operation, any individual member, stockholder, partner, or joint operator holding a majority interest in the operation or who is operating the farm must agree to complete the training or qualify for the waiver on behalf of the entity. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities. If the applicant has previously been required to obtain training, the applicant must be enrolled in and attending, or have satisfactorily completed, the training required.

PART 1945—EMERGENCY

13. The authority citation for part 1945 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23 and 2.70.

Subpart D—Emergency Loan Policies, Procedures, and Authorizations

14. Section 1945.162 is amended by adding paragraph (m) to read as follows:

§ 1945.162 Eligibility requirements.

* * * * *

(m) *Borrower training.* The applicant must agree to meet the training requirements of § 1924.74 of subpart B of part 1924 of this chapter unless a waiver is granted in accordance with that section. In the case of a cooperative, corporation, partnership, or joint operation, any individual member, stockholder, partner, or joint operator holding a majority interest in the operation or who is operating the farm must agree to complete the training or qualify for the waiver on behalf of the entity. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities. If the

applicant has previously been required to obtain training, the applicant must be enrolled in and attending, or have satisfactorily completed, the training required.

PART 1951—SERVICING AND COLLECTIONS

15. The authority citation for part 1951 is revised to read as follows:

Authority: 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23 and 2.70.

Subpart S—Farmer Program Account Servicing Policies

16. Section 1951.909 is amended by adding paragraphs (a)(3) and (c)(5) to read as follows:

§ 1951.909 Processing Primary Loan Service Programs requests.

(a) * * *

(3) If the borrower's completed application for Primary Loan Servicing includes a request for a waiver from the training required in paragraph (c)(5) of this section, the County Committee will, prior to the County Supervisor's offer of any Primary Loan Servicing, evaluate the borrower's knowledge and ability in production and financial management and determine the need for additional training as set forth in § 1924.74 of subpart B of part 1924 of this chapter.

* * * * *

(c) * * *

(5) The borrower must agree to meet the training requirements of § 1924.74 of subpart B of part 1924 of this chapter unless a waiver is granted in accordance with that section. The training requirement applies to all primary loan servicing programs, except for net recovery buyout offers. In the case of a cooperative, corporation, partnership, or joint operation, any individual member, stockholder, partner, or joint operator holding a majority interest in the operation or who is operating the farm must agree to complete the training or qualify for the waiver on behalf of the entity. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities. If the borrower has previously been required to obtain training, the borrower must be enrolled in and attending, or have satisfactorily completed, the training required to be considered eligible.

* * * * *

17. Attachment 1 of exhibit A of subpart S is amended by adding paragraph II (4) to read as follows:

Attachment 1 of Exhibit A of Subpart S—Primary and Preservation Loan Service and Debt Settlement Programs Purpose

* * * * *

II. * * *

(4) You must agree to meet, at your own cost, FmHA's training requirements in production and financial management. The cost will be included in your farm plan as an operating expense. The training must be completed within 2 years from the date of restructuring. The County Committee may waive this requirement if you are able to demonstrate that you have adequate training in this area. To request a waiver of this training requirement, complete Form FmHA 1924–27, "Request for Waiver of Borrower Training Requirements," and submit with your request for FmHA servicing. This training requirement is not applicable if you have previously received a waiver or you have successfully completed the required FmHA Borrower Training program.

* * * * *

18. Exhibit B of subpart S is amended by adding four paragraphs between the paragraphs beginning with the words "The attached computer printout * * *" and "If you want * * *" to read as follows:

Exhibit B of Subpart S—Notification of Offer To Restructure Debt for Financially Distressed Borrowers Current on Their Loan Payments

* * * * *

(If production and/or financial management training is to be required, insert the following paragraphs and attach a list of the courses the borrower is required to complete and a list of approved vendors in the borrower's area for these courses:)

As a condition of this restructuring, you must agree to meet, at your own cost, FmHA's training requirements which provide instruction in production and financial management within 2 years of the date your loans are restructured. The cost will be included in your farm plan as an operating expense. Upon completion of the training course(s), the instructor will assign a score according to the following criteria:

Score

1 The borrower attended classroom sessions as agreed, satisfactorily completed all assignments, and demonstrated an understanding of the course material.

2 The borrower attended classroom sessions as agreed and attempted to complete all assignments; however, the borrower does not demonstrate an understanding of the course material.

3 The borrower did not attend classroom sessions as agreed and/or did not attempt to complete assignments. In general, the borrower did not make a good faith effort to complete the training.

Attached is a list of courses you will be required to complete to fulfill the training requirement. A list of approved vendors in your area for these courses is also attached. Any denial of a request for a waiver of the training requirement is not appealable. If you fail to complete the training as agreed, you will be ineligible for future FmHA benefits including future Farmer Programs direct and guaranteed loans, Primary Loan Servicing, Interest Assistance renewals, and restructuring of guaranteed loans.

(If production and/or financial management training is being waived, insert the following sentence:)

The County Committee has waived the training requirement for the restructuring offered in this notice.

* * * * *

19. Exhibit F of Subpart S is amended by adding, in the section titled "Offer", four paragraphs between the paragraphs beginning with the words "The attached computer * * *" and "If you want * * *" to read as follows:

Exhibit F of Subpart S—Notification of Offer to Restructure Debt

* * * * *

Offer

* * * * *

(If production and/or financial management training is to be required, insert the following paragraphs and attach a list of the courses the borrower is required to complete and a list of approved vendors in the borrower's area for these courses:)

As a condition of this restructuring, you must agree to meet, at your own cost, FmHA's training requirements which provide instruction in production and financial management within 2 years of the date your loans are restructured. The cost will be included in your farm plan as an operating expense. Upon completion of the training course(s), the instructor will assign a score according to the following criteria:

Score

1 The borrower attended classroom sessions as agreed, satisfactorily completed all assignments, and demonstrated an understanding of the course material.

2 The borrower attended classroom sessions as agreed and attempted to complete all assignments; however, the borrower does not demonstrate an understanding of the course material.

3 The borrower did not attend classroom sessions as agreed and/or did not attempt to complete assignments. In general, the borrower did not make a good faith effort to complete the training.

Attached is a list of courses you will be required to complete to fulfill the training requirement. A list of approved vendors in your area for these courses is also attached. Any denial of a request for a waiver of the training requirement is not appealable. If you fail to complete the training as agreed, you will be ineligible for future FmHA benefits including future Farmer Programs direct and guaranteed loans, Primary Loan Servicing, Interest Assistance renewals, and restructuring of guaranteed loans.

(If production and/or financial management training is being waived, insert the following sentence:)

The County Committee has waived the training requirement for the restructuring offered in this notice.

* * * * *

PART 1980—GENERAL

20. The authority citation for part 1980 is revised to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart B—Farmer Program Loans

21. Section 1980.115 is amended by adding Administrative paragraph B. 3. d. to read as follows:

§ 1980.115 County Committee Review.

* * * * *

ADMINISTRATIVE

* * * * *

B. * * *

3. * * *

d. If training is required under § 1980.191 of this subpart, the lender will be required to have the borrower sign Form FmHA 1924–23, "Agreement to Complete Training." The lender will forward the signed form to the County Office.

* * * * *

22. Section 1980.124 is amended by revising paragraph (a)(4) to read as follows:

§ 1980.124 Consolidation, rescheduling, reamortizing and deferral.

(a) * * *

(4) The borrower has acted in good faith by demonstrating sincerity and honesty in meeting agreements with, and promises made to, the lender and/or FmHA. This includes cooperating in servicing the account, maintaining the security, and satisfactorily completing the Borrower Training program, if required.

* * * * *

23. Section 1980.175 is amended by reserving paragraph (b)(3) and by adding paragraph (b)(4) to read as follows:

§ 1980.175 Operating loans.

* * * * *

(b) * * *

(3) [Reserved]

(4) The loan applicant must agree to meet the training requirements of § 1980.191 of this subpart unless a waiver is granted as set forth in that section. In the case of a cooperative, corporation, partnership, or joint operation, any individual member, stockholder, partner, or joint operator holding a majority interest in the operation or who is operating the farm must agree to complete the training or qualify for the waiver on behalf of the entity. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities. If the loan applicant has previously been required to obtain training, the loan applicant must be enrolled in and attending, or have satisfactorily completed, the training required. Borrowers applying for restructuring of guaranteed loans will not be required to complete training; however, if training has been required as part of a previous loan making action, the borrower must be enrolled and attending, or have satisfactorily completed, the training required.

* * * * *

24. Section 1980.191 is added to read as follows:

§ 1980.191 Borrower Training program.

(a) *Introduction.* (1) Supervised credit includes helping borrowers to develop the skills necessary for successful, efficient production and financial management of a farm business. An effective, formal training program provides a solid foundation on which borrowers can build the skills which will enable them to become efficient, financially sound producers who can obtain commercial financing. The goal of this training is for borrowers to develop and improve the financial and production management skills necessary to successfully operate a farm, build equity in the farm business, and graduate from FmHA programs to commercial sources of credit.

(2) The authorities contained in this section require borrowers with Farmer Programs loans from lenders guaranteed by FmHA to obtain training in production and financial management concepts. Unless waived, this training will be an eligibility requirement for all Farmer Programs direct and guaranteed loans.

(3) The training will be carried out by public and/or private sector providers of farm management and credit counseling services (including, but not limited to, community colleges, the Extension Service, State Departments of Agriculture, farm management firms, lenders, and similar qualified organizations).

(4) State Directors will enter into agreements with one or more qualified providers in each State to conduct the training.

(b) *Processing.* (1) *County Committee review.* The determination of an applicant/borrower's need for enhanced training in production and financial management concepts will be made by the County Committee. To make this determination, the Committee will review the case file (in the case of borrowers) and the complete application package for the assistance requested. A decision that the applicant/borrower needs such training cannot be used as a basis for rejecting the request for assistance. In the case of a cooperative, corporation, partnership, or joint operation, any individual member, stockholder, partner, or joint operator holding a majority interest in the operation or who is operating the farm must agree to complete the training on behalf of the entity. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities for production and/or financial management. This training must be completed within 2 years after Form FmHA 1924–23 is signed if a waiver is not granted. The Committee's decision as to the requirement of training will be documented on Form FmHA 440–2. When production training is required, a borrower must complete course work covering production management in crop or livestock enterprises which constitute twenty percent of the cash farm income for the coming production cycle, as determined by the County Committee. Borrowers who are adding a new enterprise must agree to complete

VOL 58 ISS 249 DEC 30 1993 UMI

any required production training in that enterprise unless a waiver is granted by the County Committee. The areas of production training will be specified on Form FmHA 440–2. Borrowers must also complete financial management training unless a waiver has been granted by the County Committee. In the case of loan applicants, the training requirement will be considered after the County Committee has determined that the applicant meets all eligibility criteria for the type of assistance requested. Eligibility determinations and borrower training determinations should be made during the same Committee meeting. If the Committee determines the applicant is ineligible for assistance, the training requirement will not be considered.

(2) *Waivers.* Lenders may request a waiver from the training requirement on behalf of the loan applicant by submitting Form FmHA 1980–83, "Request for Waiver of Borrower Training Requirements for Guaranteed Loan Applicants," or a written request which includes evidence that the loan applicant meets at least one of the waiver conditions listed in paragraphs (b)(2)(i) and (b)(2)(ii) of this section. The request should be submitted as part of a complete application for the assistance requested. However, lenders do not need to provide this information for loan applicants who have previously received a waiver or who have previously satisfied the training requirements. The loan applicant/borrower must meet all training requirements for both production and financial management if no waiver is granted. If the loan applicant/borrower receives a waiver for production training, the requirements for financial management training must still be met. Conversely, if the loan applicant/borrower receives a waiver for financial management training, the requirements for production training must still be met. In the case of entity applicants, only those entity members holding a majority interest in the entity or operating the farm must meet the waiver conditions for the entity to qualify for a waiver. However, if one entity member is solely responsible for financial or production management, then only that entity member will be required to complete the training in that area for the entity or qualify for a partial waiver. If the financial and production functions of the farming operation are shared, the knowledge and skills of the individual(s) with the responsibility of production and/or financial management of the operation will be considered in the aggregate for granting a waiver or requiring that training be completed. If a waiver is not granted, these individuals will be required to complete the training in accordance with their responsibilities for production and/or financial management. The County Committee may waive the financial and/or production training requirements under the following conditions:

(i) The loan applicant has successfully completed an equivalent training program. To meet this requirement, the loan applicant must submit via the lender evidence of completion of a program similar to a course approved under this section. The submission must include a description of the content and subjects covered in the program completed by the applicant or entity members. The submission must also include evidence of completion, such as a grade report, certificate of completion, or written certification by the course instructor. The program must have covered all subject areas in paragraph (d)(3)(iii) of this section, including the appropriate production management courses. If applicable, CLP lenders will certify that loan applicants have completed a program similar to a course approved under this section and will assemble the necessary documentation. However, CLP lenders will not be required to submit the documentation to FmHA with the request for assistance. The County Committee will review the documentation submitted by the lender for assistance to determine whether the training completed satisfies the training requirements of this section; or

(ii) The loan applicant has demonstrated adequate knowledge and ability in the subject areas covered under this training program by performing the tasks described under paragraph (d)(3)(i) of this section and the guaranteed lender has recommended a waiver. To recommend a waiver, the lender must prepare a brief narrative describing the loan applicant's past production and/or financial management performance specifically related to satisfaction of the course objectives. The County Committee will review the loan narrative and other available information to determine if the loan applicant has demonstrated adequate knowledge and ability in the subject areas covered by the training program.

(3) *Notifying lenders and loan applicants of the County Committee's decision regarding training.* The lender and loan applicant will be informed of the County Committee's decision as follows:

(i) Loan applicants receiving a waiver from the training and the lender requesting the guarantee will be notified in the letter of eligibility required under § 1980.115 of this subpart.

(ii) Loan applicants required to complete the training and their lenders will be notified in the letter of eligibility. The requirement will also be specified in Form FmHA 1980–15. The notification will include the name(s) of the approved vendor(s) in the loan applicant's area and the specific production courses required. The notification will also include a description of the scoring system to be used to determine if the loan applicant has successfully met the training requirements. The decision to require training is not appealable. However, the decision is reviewable.

(4) *Notification of loan applicants determined ineligible for assistance.* In the letter informing them of the County Committee's decision, applicants determined ineligible for assistance due to lack of management training and experience will be notified, for their information, of training programs approved under this section. If the ineligible applicant chooses to enroll in a training program, eligibility for future assistance will not be automatic upon completion of the course. Loan applicants who complete an approved course and later apply for a new loan must still demonstrate that they possess sufficient training and experience to assure reasonable prospects of success and meet other eligibility requirements for the assistance requested.

(5) *Contacting vendor and payment.* Upon receiving the notification of the training requirement, the loan applicant is responsible for selecting and contacting a vendor(s), and making all arrangements to begin the training. The lender may recommend an approved vendor. FmHA is not a party to any agreements between the loan applicant and the vendor. Training fees must be included in the plan of operation as a farm operating expense. Payment of training fees is an authorized use of operating loan funds.

(6) *Training agreement.* Before the lender closes the loan, the loan applicant must sign Form FmHA 1924–23. The lender will return the signed agreement to FmHA along with the other closing documents associated with the guaranteed loan. The agreement will be placed in position 2 of the case file.

(7) *Automated tracking system.* A training code for each borrower must be entered into the automated tracking system at the time the loan is obligated. This code is necessary in all cases, even if the County Committee granted the borrower a waiver from the

requirements of the Borrower Training program.

(8) *County Office Monitoring.* FmHA personnel will monitor borrower progress in the training program based on periodic progress reports from the lender. If an unsatisfactory progress report is received, FmHA will schedule a meeting with the lender. The meeting will be documented in the running case record and will include the topics discussed and agreements reached. Copies of this documentation will be provided to the lender and the borrower.

(c) *Vendor's evaluation of borrower progress.* (1) All required training must be completed within 2 years after the borrower signs Form FmHA 1924–23. The County Supervisor may grant a 1-year written extension to the agreement, upon recommendation by the lender, in cases where the borrower demonstrates he/she was unable to complete the training due to circumstances beyond his/her control, such as poor health, or discontinuance of the necessary approved courses. Refusal to grant a 1-year extension is not an appealable decision.

(2) The vendor will provide the lender and FmHA with periodic progress reports. The frequency of these reports will be determined by the State Director. These reports are not intended to reflect a grade or score, but to indicate whether the borrower is attending sessions and honestly endeavoring to complete the training program. Upon completion of the training, the vendor will provide the lender and FmHA with an evaluation which shall specifically address the borrower's improvement toward meeting the goals outlined in this section. The instructor will also assign the borrower a recommended score according to the following criteria:

Score

1 The borrower attended classroom sessions as agreed, satisfactorily completed all assignments, and demonstrated an understanding of the course material.

2 The borrower attended classroom sessions as agreed and attempted to complete all assignments; however, the borrower does not demonstrate an understanding of the course material.

3 The borrower did not attend classroom sessions as agreed and/or did not attempt to complete assignments. In general, the borrower did not make a good faith effort to complete the training.

(i) Borrowers receiving a score of 1 will have met the requirements of the agreement. The accounts of these borrowers will be serviced in accordance with existing regulations.

(ii) Borrowers receiving a score of 2 will have met the requirements of the agreement. However, since these borrowers do not adequately understand the course material, the lender and the County Supervisor will develop a plan outlining the additional supervision the borrower will require to accomplish the objectives of FmHA assistance.

(iii) Borrowers receiving a score of 3 will not have met the requirements of the agreement for training. Failure to complete the training as agreed will cause the borrower to be ineligible for future FmHA benefits including future direct and guaranteed loans, Primary Loan Servicing of direct Farmer Programs loans, Interest Assistance renewals, and restructuring of guaranteed loans.

(d) *Selection and approval of organizations and courses.* (1) *Identification of potential vendors.* Prior to the initial approval of vendors and prior to renewal of approved vendor's training agreements, the State Director or designee shall solicit applications from all interested organizations, keeping in mind its cultural diversity responsibilities. The State Director shall contact the Chief Executive Officer of the State and appropriate officials from the State Department of Agriculture, the State Extension Service, community colleges, and other private or nonprofit organizations which may be interested in conducting this training.

(2) *Application.* The vendor must submit the following items prior to consideration for approval:

(i) A sample of the course materials and a description of the method(s) of training to be used.

(ii) Specific training objectives for each section of the course. These objectives should relate to the general objectives outlined in paragraph (d)(3)(i) of this section.

(iii) A detailed course agenda specifying the topics to be covered, the time to be devoted to each topic, and the number of sessions to be attended.

(iv) A list of instructors and their qualifications, and the criteria by which additional instructors will be selected.

(v) The proposed locations where the training will take place. The sites should be within a reasonable commuting distance for borrowers to be served by the vendor.

(vi) Cost per participant and/or cost per organization, *i.e.* cost for husband/wife joint operation; father/son partnership; or multiple members of a corporation.

(vii) Minimum and/or maximum class size.

(viii) A description of the organization's experience in developing and administering training to farmers.

(ix) A description of the monitoring and/or quality control methods the organization intends to use.

(x) A description of the policy on allowing FmHA employees to attend the course for monitoring purposes, *i.e.*, the number of employees authorized to attend; the cost (if any); and the number of classes each employee can attend.

(xi) A description of how the needs of borrowers with physical and/or mental handicaps or learning disabilities will be met.

(xii) A plan of how the needs of borrowers for whom English is not their primary language will be met.

(3) *State Office review and recommendation.* Upon receipt of the application packages from the potential vendors, the State Director will review the material to assure the vendor's proposal meets the following minimum criteria for accomplishment of educational objectives, instructor qualifications, curriculum content, and vendor qualification:

(i) *Educational objectives.* Upon completion of the course, the borrower shall be able to:

(A) Describe the specific goals of the business, describe what changes are required to attain the business goals, and outline how these changes will occur using present and projected enterprise budgets.

(B) Maintain and utilize a financial management information system which includes financial and production records, a household budget, a statement of financial condition, and an accrual adjusted income statement. The borrower shall also be able to use this system when making financial and production decisions.

(C) Understand and utilize an income statement. Specifically, the borrower must understand the structure and major components of an income statement and its role in analyzing the performance of a business, be familiar with the cash and accrual methods of determining net farm income, and understand the relationship between a balance sheet and an income statement.

(D) Understand and utilize a balance sheet. Specifically, the borrower must understand the major components of a balance sheet and its role in analyzing the business, be familiar with the categories of assets and liabilities and be able to provide examples of entries under each, and be familiar with the cost and market methods of valuing assets and liabilities and the advantages of each method.

(E) Understand and utilize a cash flow budget. Specifically, the applicant must be able to explain and justify estimates for production and expenses, and

analyze the cash flow to identify potential problems.

(F) Using production records and other production information, be able to identify problems, evaluate alternatives, and make needed corrections to current production practices to achieve greater efficiency and profitability.

(ii) *Instructor qualifications.* Instructor qualifications will be reviewed to assure sufficient knowledge of the material and sufficient experience in adult education. The instructors must have a bachelor's degree or comparable experience in the subject area which they will teach and a minimum of three years experience in conducting training courses or teaching. Also, the instructors must successfully complete any instructor training which may be associated with the FmHA approved course.

(iii) *Curriculum.* The curriculum shall be reviewed to assure that the following subject matter is sufficiently addressed. A single vendor is not required to provide all the courses necessary to cover the entire curriculum; however, to the extent practicable, all topics must be available for all FmHA districts. The State Director shall identify the specific crop or livestock enterprises for which training must be available in a given area or district, and any additional subject matter to be covered for each.

(A) *Business Planning.* The course(s) shall cover the general areas of goal setting, risk management, and planning. Goal setting will include identification of personal and family goals, business goals, and short- and long-term goals. Risk management concepts will include the sources, magnitude and frequency of risk, risk tolerance, risk taking ability of the business, and strategies for managing risk such as use of credit, marketing, production practices, and insurance. Finally, the course(s) will guide the borrower through the formulation of a long term business plan for the farm and presentation of this plan to a lender.

(B) *Financial Management Systems.* The course(s) shall cover all aspects of farm accounting, specifically: instruction in financial record keeping, preparation of a household budget, development and analysis of accrual adjusted income statements, balance sheets, and cash flow budgets. The course(s) shall focus on integrating these elements into a financial management system which enables the borrower to make business decisions based on his/her analysis of financial information.

(C) *Crop Production.* The course(s) shall focus on improving the profitability of the borrower's crop enterprises. Specifically, the course shall address keeping and analyzing production records, identifying problems in current production practices, identifying sources of production information and assistance, and using production information to analyze alternatives and identify the most profitable solution.

(D) *Livestock Production.* The course(s) shall focus on improving the profitability of the borrower's livestock enterprises. Specifically, the course shall address keeping and analyzing production records, identifying problems in current production practices, identifying sources of production information and assistance, and using production information to analyze alternatives and identify the most profitable solution.

(iv) *Vendor.* The proposed vendor of the training must have demonstrated a minimum of 3 years experience in conducting training courses of similar scope or teaching in the proposed subject matter.

(4) *Approval.* After review of the applications, the State Director shall determine which vendors should be recommended for final approval. Complete application packages from the selected vendors should be submitted to the National Office for concurrence prior to final approval. Applications from accredited colleges (including community colleges) or universities, however, do not require National Office concurrence prior to final approval. If all of the instructors have not been selected at the time of request for approval of the vendor, the vendor may be approved with the condition that instructors will meet the criteria set out in paragraph (d)(3)(ii) of this section. After approval, the State Director and the vendor(s) will sign Form FmHA 1924–24, "Agreement to Conduct Production and Financial Management Training for Farmers Home Administration Borrowers." This agreement will be valid for three years, unless revoked in writing, giving 30 days notice by the State Director or the vendor. The State Director may revoke the agreement if the vendor does not comply with the responsibilities listed in the agreement. Such revocation is nonappealable. The State Director will issue a State supplement to this subpart listing the approved vendor(s), the contact person for the vendor, the terms of the vendor agreements, and the subject matter in which each vendor is approved to conduct training.

(5) *Renewals.* Renewal of agreements to conduct training will not be automatic. The vendor must request renewal in writing, provide updates to any changes in curricula, and provide information which indicates the training provided by the vendor is effective. Such information may include course evaluations, test scores, or statistics on the improvement of borrowers who have completed the course. The State Director must obtain National Office concurrence in any decisions to deny renewal of a vendor's agreement. A decision to deny renewal of a vendor's agreement is nonappealable.

(e) *Vendor monitoring.* An operational file will be maintained in the State Office for each approved vendor. This file will include the application, National Office concurrence (if required), the signed Form FmHA 1924–24, documentation of FmHA's monitoring of the vendor, and any further documentation to determine the success of the vendor's program. To assure the training organization is correctly and effectively implementing the training as proposed, the State Director or designee will be responsible for monitoring the vendor. This monitoring shall, as a minimum, consist of:

(1) Attendance at selected training sessions for each vendor to verify that the agreed-upon subject matter is being covered in sufficient detail and to assess the effectiveness of the training provided by the instructors.

(2) Review of course and instructor evaluations. Course and instructor evaluations will be completed by the borrowers on Form FmHA 1924–22, "Borrower Training Course Evaluation." This form will be provided to the borrowers by the instructor as they complete the course. The evaluations will be forwarded to the State Director for review. The results will be summarized and made part of the operational file on each vendor.

(3) Monitoring of borrowers' improvement upon completion of a course. The State Director will analyze statistics regarding borrower performance, such as the graduation and delinquency of borrowers who have completed the required training course.

25. Exhibit D to subpart B is amended by adding paragraph IV. J. to read as follows:

Exhibit D to Subpart B—Interest Assistance Program

* * * * *

IV. * * *

J. If the loan applicant has previously been required to obtain training in accordance with § 1980.191 of this subpart, the loan applicant must be enrolled in and attending, or have satisfactorily completed, the training required.

* * * * *

Dated: November 24, 1993.

Bob J. Nash,

Under Secretary for Small Community and Rural Development.

[INS No. 1611–93]

RIN 1115–AB72

Temporary Entry of Business Persons Under the North American Free Trade Agreement (NAFTA)

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Interim rule with request for comments.

SUMMARY: This rule implements provisions of the North American Free Trade Agreement (NAFTA) by amending the Immigration and Naturalization Service (Service) regulations to establish procedures for the temporary entry of Canadian and Mexican citizen business persons into the United States. This rule will facilitate temporary entry on a reciprocal basis among the United States, Canada, and Mexico, while recognizing the continued need to ensure border security, and to protect indigenous labor and permanent employment in all three countries.

DATES: The effective date is January 1, 1994. Written comments must be submitted on or before February 28, 1994.

ADDRESSES: Please submit written comments, in triplicate, to the Records Systems Division, Director, Policy Directives and Instructions Branch, Immigration and Naturalization Service, 425 I Street, NW., room 5307, Washington, DC 20536. To ensure proper handling, please reference INS number 1611–93 on your correspondence.

FOR FURTHER INFORMATION CONTACT: Jacquelyn A. Bednarz, Chief, Nonimmigrant Branch, Immigration and Naturalization Service, 425 I Street, NW., room 7122, Washington, DC 20536, telephone (202) 514–5014.

SUPPLEMENTARY INFORMATION: On December 17, 1992, the Presidents of the United States and Mexico and the Prime Minister of Canada entered into the North American Free Trade Agreement (NAFTA). Implementation of this agreement has been provided for by the North American Free Trade Agreement Implementation Act (NAFTA Implementation Act), Public Law 103–182. The NAFTA Implementation Act was signed into law by the President of the United States on December 8, 1993. The NAFTA is currently set to enter into force on January 1, 1994.

This rule pertains to Canadian and Mexican citizen temporary visitors for business seeking classification under section 101(a)(15)(B) of the Immigration and Nationality Act (Act), to Canadian and Mexican citizen treaty traders and investors seeking classification under section 101(a)(15)(E) of the Act, to Canadian and Mexican citizen temporary workers seeking classification under section 101(a)(15)(L) of the Act, and to Canadian and Mexican citizens seeking classification for engagement in activities at a professional level under section 214(e) of the Act, as amended by section 341(b) of the NAFTA Implementation Act.

This rule establishes procedures for the temporary entry of Canadian and Mexican citizen business persons as provided in chapter 16 of the NAFTA and subtitle D of title III of the NAFTA Implementation Act. Chapter 16, subtitle D of title III, and this rule reflect the special trading relationship now established between the United States, Canada, and Mexico, and recognize the desirability of facilitating temporary entry on a reciprocal basis and of establishing transparent criteria and procedures for such temporary entry. At the same time, full recognition is given to the continued need to ensure border security while protecting the domestic labor force and permanent employment in all three countries.

The immigration-related provisions of the NAFTA are similar to those contained within the United States-Canada Free Trade Agreement (CFTA), which has been in force since January 1, 1989. The CFTA will be suspended when the NAFTA enters into force. The NAFTA provisions relate to the same four nonimmigrant classifications which were impacted by the CFTA: B–1, E, L–1, and Professional (previously designated TC for Canadian citizens under CFTA and redesignated TN for Canadian and Mexican citizens under NAFTA).

Section D of Annex 1603 of the NAFTA, however, permits the United States to establish a numerical limit with respect to professionals from Mexico for a transition period of up to ten years. Under Appendix 1603.D.4 of the NAFTA, beginning on the date of entry into force of the NAFTA, the numerical limit is set at 5,500 for such Trade Professionals annually. The United States and Mexico may mutually agree to increase the numerical limit or eliminate it entirely prior to the end of the ten year period.

Along with the numerical limit, citizens of Mexico who seek classification as a professional must do so on the basis of a petition filed by a United States employer. Before the employer may file the petition, it will be required to meet the labor attestation requirements of section 212(m) of the Act in the case of a registered nurse, and the application requirement of section 212(n) of the Act in the case of all other professionals set out in Appendix 1603.D.1 of the NAFTA.

Additionally, Article 1603 of the NAFTA states that each party to the agreement may refuse to issue an immigration document to a NAFTA business person where the temporary entry of that person may affect adversely the settlement of any labor dispute in progress at the place or intended place of employment, or if temporary entry would affect adversely the employment of any person involved in such dispute. The regulations relating to classification and admission of citizens of Canada and Mexico in the E, L–1, and Professional categories have been amended to reflect this provision. These provisions are designed to protect the domestic labor force of each signatory country.

Specific changes to 8 CFR are as follows:

8 CFR 103.1(f)(2)

Paragraphs (f)(2)(X) and (f)(2)(xxiii) of § 103.1 have been amended to include within the appellate jurisdiction of the Associate Commissioner, Examinations, those petitions filed by United States employers in behalf of citizens of Mexico seeking classification as professionals under Appendix 1603.D.1 to Annex 1603 of the NAFTA.

8 CFR 103.7(b)

Section 103.7(b) is amended to allow for the entry of citizens of Canada to engage in business activities at a professional level pursuant to chapter 16 of the NAFTA, rather than pursuant to chapter 15 of the CFTA, which will be suspended with entry into force of the NAFTA. The processing fee to be remitted upon entry remains $50.00. It should be noted that no fee is to be remitted by a citizen of Canada who has been previously admitted in TC status and is seeking readmission to the United States in TN status for the remainder of the period authorized on Form I–94 (Arrival-Departure Record).

No fee is to be remitted by a citizen of Mexico who is entering to engage in business activities at a professional level.

8 CFR 212.1(1)

Section B to Annex 1603 of the NAFTA provides for the temporary entry of Canadian and Mexican citizens as treaty traders and investors. Section 341(a) of the NAFTA Implementation Act provides that such persons are considered to be classifiable as a nonimmigrant under section 101(a)(15)(E) of the Act. (Canadians were previously classifiable as treaty traders and investors under the CFTA.) Paragraph (1) is amended to replace the reference to the CFTA with a reference to the NAFTA. The requirement that an alien seeking admission as a treaty trader or investor be in possession of a nonimmigrant visa is maintained.

8 CFR 214.2(b)(1)

Section 214.2(b)(1) is amended to remove the language authorizing the admission in B–2 visitor status of the dependents of Canadian citizens admitted as TC professionals under the CFTA. A separate nonimmigrant visa classification has been established for the dependents of Professionals seeking entry under the NAFTA and has been designated TD (Trade Dependent).

8 CFR 214.2(b)(4)

Section 214.2(b)(4) is amended to provide for the entry in B–1 nonimmigrant classification of citizens of Mexico and Canada pursuant to Section A of Annex 1603 of the NAFTA. Additionally, Schedule 1 to Annex 1502.1 of the CFTA is replaced with Appendix 1603.A.1 to Annex 1603 of the NAFTA. Appendix 1603.A.1 is a list of business activities representative of a complete business cycle in which a B–1 business visitor seeking entry under the NAFTA may engage. Appendix 1603.A.1 is not an exhaustive list. Nothing precludes a citizen of Mexico or Canada from seeking entry to engage in traditional B–1 activities which are not included within Appendix 1603.A.1., provided they meet all requirements for entry in such status, including restrictions on sources or remuneration.

Appendix 1603.A.1 as it is contained within paragraph (b)(4)(i) of this section is almost identical with Schedule 1. The language has been amended to include citizens of Mexico. It should be noted that, during the course of negotiations relating to the NAFTA immigration provisions, Mexico decided not to be a Party to the language involving temporary entry of customs brokers into the signatory countries. Therefore, Mexican citizen customs brokers are not referenced in Appendix 1603.A.1 nor are they included in this regulatory amendment. A citizen of Mexico is not, however, precluded from seeking entry into the United States in B–1 status to perform the functions of a customs broker, provided that the individual meets all existing requirements for B–1 admission. Also, specific reference to the allowable activities of tour bus operators has been included at paragraph (b)(4)(i)(G)(*6*).

8 CFR 214.2(e)

A new paragraph (e)(3) sets in regulation the language regarding the denial of E treaty trader or investor classification to a citizen of Canada or Mexico in the case of certain labor disputes. Article 1603(2) of the NAFTA permits the United States to deny E classification where the temporary entry of the citizen of Canada or Mexico may affect adversely the settlement of a labor dispute or the employment of a person involved in such a dispute.

A strike or other work stoppage of workers must be first certified to or otherwise be made known to the Attorney General by the Secretary of Labor before a citizen of Canada or Mexico seeking E classification maybe denied entry under this paragraph.

Regulations pertaining to the denial of issuance of E visas will be provided by the Department of State.

The Service is not, at this time, amending section 248 of this chapter relating to change of nonimmigrant classification. Citizens of Canada and Mexico are, however, classifiable as treaty traders and investors under the NAFTA and may, therefore, seek to change status to E–1 or E–2 classification while in the United States. If such change of status is granted to a citizen of Canada or Mexico and he or she subsequently departs the United States, he or she must obtain a valid E–1 or E–2 visa from a consular officer in order to seek reentry into the United States in that status.

8 CFR 214.2(l)(17)

Paragraph (1)(17)(i) is revised to limit the ports of entry which will accept and adjudicate Form I–129 (Petition for a Nonimmigrant Worker) filed in behalf of a Canadian citizen beneficiary seeking classification as an L–1 intracompany transferee. In order to provide more efficient service, it was decided to limit port adjudication of Form I–129 to those ports of entry located along the U.S.-Canadian border and at pre-flight/pre-clearance stations located in Canada. It is at these ports of entry where, since entry into force of the CFTA, the vast majority of Forms I–129 have been filed, rather than at ports along the U.S.-Mexican border or at international airports within the U.S. Also, most ports of entry along the U.S.-Canadian border have Free Trade Examiners on staff who have expertise in the adjudication of such forms.

It was determined to be more beneficial to the public to concentrate such adjudication along the U.S.-Canadian land border and at pre-flight stations within Canada. Those few individuals who would have filed a Form I–129 at either a port of entry on the U.S.-Mexican border or at an international airport located within the U.S. may do so with the Director of the appropriate Service Center.

8 CFR 212.2(l)(18)

A new paragraph (1)(18) has been added to provide for denial of L–1 classification for a citizen of Mexico or Canada if there is a labor dispute in progress at the place of current or intended employment. If a strike or work stoppage of workers has been certified by or otherwise made known by the Secretary of Labor to the Attorney General, the Service may deny a petition for L–1 classification, suspend an approved petition, or deny entry to a citizen of Canada or Mexico seeking L–1 classification at a port of entry.

A citizen of Canada or Mexico who has been admitted for employment in L–1 classification at a location where a labor dispute has been certified by the Secretary of Labor shall not be deemed to be failing to maintain status solely on account of participation in the strike or other labor dispute. Additionally, participation in a strike or work stoppage does not extend or modify in any way the L–1's period of authorized stay in the United States.

8 CFR 214.6

Section 214.6 was added to 8 CFR when the CFTA entered into force on January 1, 1989 and provided for the classification and admission of Canadian citizens seeking temporary entry to engage in business activities at a professional level. The classification was designated TC (Trade Canada). Chapter Sixteen of the NAFTA allows citizens of Mexico to seek temporary entry to engage in business activities at a professional level as well as citizens of Canada. The nonimmigrant classification has been redesignated TN (Trade NAFTA), and specific requirements for citizens of Mexico have been set forth in this revision of § 214.6. As with the CFTA, admission as a TN under this section does not imply

that the citizen of Canada or Mexico would otherwise qualify as a professional under sections 101(a)(15)(H)(i) or 203(b)(3) of the Act.

Paragraph (a) is amended to replace the reference to the CFTA with reference to the NAFTA and include citizens of Mexico among those business persons who can seek entry to engage in business activities at a professional level.

Paragraph (b) contains definitions of terms used within § 214.6. Definitions of the terms "business person", "business activities at a professional level", and "temporary entry" were not substantively modified except to replace references to the CFTA with the NAFTA. A new definition of the term "engage in business activities at a professional level" has been included and does not allow for entry in TN status of those business persons who are seeking entry to engage in self-employment. Such self-employment was never specifically addressed under the regulations promulgated by the Service in response to the CFTA.

Annex 1603, Section B, establishes the appropriate category of temporary entry for a Party citizen seeking to develop and direct investment operations in another Party country, while Annex 1603, Section D, provides for the entry of a Party citizen seeking to render professional level services for an entity in another Party country. As stated in the NAFTA Implementation Act Statement of Administrative Action at page 178, "Section D of Annex 1603 does not authorize a professional to establish a business or practice in the United States in which the professional will be self-employed." Canadian or Mexican citizens seeking to engage in self-employment in trade or investment activities in this country must seek classification under section 101(a)(15)(E) of the Act.

Paragraph (c) sets in regulation Appendix 1603.D.1 to Annex 1603 of the NAFTA which is a listing of occupations agreed upon by the three signatory countries. Appendix 1603.D.1 replaces Schedule 2 to Annex 1502.1 of the CFTA at 8 CFR 214.6(d)(2)(ii). A baccalaureate or Licenciatura degree is the minimum requirement for these professions unless an alternative credential is otherwise specified. In the case of a Canadian or Mexican citizen whose occupation does not appear on Appendix 1603.D.1 or who does not meet the transparent criteria specified, nothing precludes the filing of a petition for classification under another existing nonimmigrant classification.

A footnote to Appendix 1603.D.1 allows for temporary entry to perform training functions relating to any of the cited occupations or professions, including conducting seminars. However, these training functions must be conducted in the manner of prearranged activities performed for a United States entity and the subject matter to be proffered must be at a professional level. The training function does not allow for the entry of a business person to conduct seminars which do not constitute the performance of prearranged activities for a United States entity.

Paragraph (d) sets forth procedures for the classification of a citizen of Mexico as a TN professional under the NAFTA. Paragraphs (4) and (5) of Annex 1603(D) and of the NAFTA permit the establishment of an annual numerical limit on the number of persons seeking entry to engage in Appendix 1603.D.1 professions in the United States, with consideration given to raising the limit each year thereafter. Appendix 1603.D.4 of Annex 1603 sets the limit for the first year following entry into force of the NAFTA at 5,500 initial petitions for citizens of Mexico seeking TN classification.

Additionally, Annex 1603(D)(5) states that a Part, after establishing a numerical limit, may require the business person subject to the numerical limit to comply with other procedures in place for the temporary entry of professionals. It should be noted that, under Appendix 1604.D.4(3), the provisions of paragraphs (4) and (5) of Annex 1603(D) shall apply no longer than ten years after the date of entry into force of the NAFTA.

Paragraph (d)(1) requires the prospective United States employer of a Mexican citizen seeking classification as a TN to file a petition on Form I–129 with the Northern Service Center. This is the only Service Center designated by Headquarters Service Center Operations to accept Form I–129 filed on behalf of a citizen of Mexico seeking such classification. This limitation on filing will allow for specialization at the Northern Service Center and will improve adjudication efficiency.

Supporting documentation requirements are contained in paragraph (d)(2). Section 341(b)(5) of the NAFTA Implementation Act provides that, while the numerical limit is in place for citizens of Mexico, entry of such persons shall be subject to the attestation requirements of section 212(m) of the Act, in the case of a registered nurse, or the application requirement of section 212(n) of the Act, in the case of all other professionals set out in Appendix 1603.D.1 of Annex 1603 of the NAFTA. Therefore, Form I–129 shall be filed in conjunction with evidence that the employer has filed with the Secretary of Labor either Form ETA 9029 in the case of a registered nurse, or Form ETA 9035 in the case of all other Appendix 1603.D.1 professionals.

Additionally, the employer must submit evidence that the beneficiary meets the minimum education requirements or alternative credentials requirements set forth in Appendix 1603.D.1. The regulation requires that degrees, diplomas, or certificates received by the beneficiary from an educational institution located outside of the United States, Canada, or Mexico must be accompanied by an evaluation by a reliable credentials evaluation service which specializes in such evaluations. Experiential evidence should be in the form of letters from former employers. If the beneficiary was formerly self-employed, business records should be submitted attesting to that self-employment.

Also, the petition must be accompanied by a separate statement from the United States employer specifically stating the Appendix 1603.D.1 profession in which the beneficiary will be engaging and giving a detailed description of the duties to be performed on a regular basis by the beneficiary. The Appendix 1603.D.1 profession is to be specifically set forth so that it may be noted for statistical purposes and to provide for more accurate adjudication of the petition in light of the proposed job duties.

Evidence of appropriate licensure must accompany the petition if the beneficiary will be engaging in an occupation or profession for which the particular state or locality has set forth licensing requirements.

The remainder of paragraph (d) contains Service procedural requirements relating to the approval, validity, denial, revocation and appeal of a petition. A petition classifying a citizen of Mexico as a TN professional may be approved for up to one year. Full appeal rights through the Administrative Appeals Unit are available to the petitioner in the case of a petition denial.

Finally, paragraph (d) sets forth the procedures for maintenance of the annual numerical limitation of 5,500 petition approvals for citizens of Mexico seeking TN classification.

Paragraph (e) sets forth the procedures for the classification of a citizen of Canada as a TN professional under the NAFTA. The requirements of this paragraph are substantially similar to those previously contained in § 214.6 (c) and (d). References to the CFTA have

been replaced with references to the NAFTA and the TC nonimmigrant classification has been replaced by the TN classification.

The documentary requirements at paragraph (e)(3)(ii) have been revised to more clearly state what is required to be included in the documentation provided to the TN applicant by the alien's United States employer or the alien's foreign employer, in the case of a Canadian citizen who is seeking entry in TN status to provide prearranged services to a United States entity. Specifically, the documentation must state the Appendix 1603.D.1 profession in which the applicant will be engaging and a description of his or her professional activities, including a brief summary of the daily job duties to be performed. As with the Mexican TN, educational credentials obtained outside of the United States, Canada, or Mexico shall be accompanied by an evaluation by a qualified credentials evaluator. Also, if state or local licensing requirements are in place for the professional activity in which the Canadian citizen will be engaging, evidence must be provided that those licensing requirements have been met prior to application for admission.

Paragraph (f) sets forth the procedures for admission of Canadian and Mexican citizens in TN classification. The Canadian citizen shall be required to remit the fee prescribed in 8 CFR 103.7 upon admission. That fee has been $50.00 (U.S) since implementation of the CFTA and will not be raised at this time. The applicant will be given a Service fee receipt and a Form I–94 showing admission in the classification TN for the period requested up to one year. The Form I–94 shall bear the legend "multiple entry". (Additional requirements relating to issuance of Form I–94 are contained in § 235.1(f), discussed below.)

Citizens of Mexico seeking admission in TN classification are required to present a valid TN visa issued by a United States consular officer. The maintenance of visa requirements by parties to the Agreement is authorized in Annex 1603(D)(3) of the NAFTA. In addition to the visa requirement, the Mexican citizen shall present at the time of application for initial admission a copy of the employer's statement described in this section at paragraph (d)(2)(iii). Presentation of this statement is required to facilitate the inspection procedure.

An applicant for admission as a TN professional shall be treated as if seeking classification as a nonimmigrant pursuant to section 101(a)(15) of the Act and, therefore, the presumption of immigrant intent applicable through section 214(b) of the Act shall apply to that citizen of Canada or Mexico seeking such classification. At the time of application for entry, the citizen of Canada or Mexico will be subject to inspection to determine the applicability of section 214(b) of the Act to that applicant.

Paragraph (g) provides for the readmission to the United States of Canadian and Mexican citizens in TN status. Readmission procedures for Canadian citizens have not been amended. The citizen of Mexico who is in possession of a valid Form I–94 may be readmitted for the remainder of the time authorized provided that the original intended professional activities and employer(s) have not changed and should retain possession of that original Form I–94. If no longer in possession of a valid Form I–94 (e.g., a citizen of Mexico seeking readmission upon return from a business trip to Europe), the citizen of Mexico may be readmitted upon presentation of a valid TN visa and evidence of prior admission. That evidence of prior admission may include, but is not limited to, a Service fee receipt from a prior entry or an admission stamp in the applicant's passport. Upon readmission, a new I–94 shall be issued bearing the legend "multiple entry".

Paragraph (h) contains the procedures to be followed if the citizen of Mexico or Canada wishes to apply for an extension of his or her stay in TN status. A citizen of Mexico seeking an extension of stay in the United States in TN status shall be applied for on Form I–129 to the Northern Service Center. Documentary requirements include evidence that Department of Labor certification requirements continue to be met by the employer. Provision is included for consular notification should the applicant leave the United States during the pendency of the application. A petition extension and extension of the applicant's stay may be granted for up to one year.

A citizen of Canada may seek an extension of stay through the filing of Form I–129 to the Northern Service Center. No Department of Labor certification requirements apply to a Canadian citizen in TN status who is seeking to extend that status. Provision is made for port of entry notification should the applicant depart the United States during the pendency of the application. An extension may be granted for up to one year.

Additionally, a citizen of Canada is not precluded from departing the United States and applying for admission with documentation from a United States employer or foreign employer, in the case of a Canadian citizen who is seeking to provide prearranged services at a profession level to a United States entity, which specifies that the applicant will be employed in the United States for an additional period of time. The evidentiary requirements set forth in paragraph (e)(3) shall be met by the applicant and the fee prescribed in 8 CFR 103.7 shall be remitted upon admission.

At the present time, there is no specified upper limit on the number of years a citizen of Mexico or Canada may remain in the United States in TN classification, as there is with most of the other nonimmigrant classes contained within section 101(a)(15) of the Act. However, section 214(b) of the Act is applicable to citizens of Canada or Mexico who seek an extension of stay in TN status and applications for extension or readmission must be examined in light of this statutory provision.

Paragraph (i) allows the Canadian or Mexican citizen to change or add employers while in the United States through the filing of a Form I–129 to the Northern Service Center. Also, the Canadian citizen may depart the United States and apply for reentry for the purpose of obtaining additional employment authorization with a new or an additional employer. Documentary requirements are prescribed in paragraph (e)(3)(ii) and the prescribed fee must be remitted upon admission.

Paragraph (j) provides for the admission of spouses and minor children who are accompanying or following to join TN professionals. They are to be accorded admission in TD (Trade Dependent) classification and are required to present a valid, unexpired nonimmigrant visa unless otherwise exempt under 8 CFR 212.1. For purposes of clarification, those persons who are normally exempt from nonimmigrant visa requirements include citizens of Canada and residents (Landed Immigrants) of Canada having a common nationality with Canadian citizens (British Commonwealth citizens).

No fee is required for the admission of dependents in TD status and they are to be issued a Form I–94 bearing the legend "multiple entry". Spouses and minor children are not authorized to accept employment while they are in the United States in TD status. If a TD dependent wishes to be employed, he or she must independently seek change of status to an employment-authorized nonimmigrant classification. Dependents in TD status may attend school in the United States on a full-time basis, as such attendance is deemed to be incidental to their purpose for being in the United States, which is to accompany the TN alien.

Paragraph (k) provides for denial of TN classification of a citizen of Canada or Mexico if there is a labor dispute in progress at the place of current or intended employment. This provision is substantively identical to that which is applicable to the Canadian or Mexican L–1 applicant cited at 8 CFR 214.2(l)(18) and discussed above.

Paragraph (l) provides for automatic conversion from TC to TN classification for Canadian citizen professionals in TC classification as of January 1, 1994, as well as automatic conversion from B–2 to TD classification for the spouses and unmarried minor children of such TC nonimmigrants as of the effective date of the NAFTA Implementation Act. In addition, beginning on January 1, 1994, TC principal aliens and their B–2 spouses and unmarried minor children will be readmitted in TN or TD classification respectively, without being required to submit additional paperwork or payment of the normal application fee for the remainder of the period authorized on their Form I–94. TC or B–2 spouses and minor children seeking to extend their stay beyond this period are required to comply with the normal filing requirements of paragraph (h), including submission of appropriate paperwork and the prescribed application fee. This paragraph also provides that any applications for extension of stay in TC or B–2 classification as the spouse of a TC nonimmigrant which are pending on January 1, 1994 will be treated as if they were for TN or TD classification respectively.

Paragraph (l) specifically makes unavailable these transitional benefits to Canadian professionals who were admitted in TC classification in order to engage in self-employment in a business or practice in this country, and to their B–2 spouses and/or children. Although such self-employment was never specifically addressed in the regulations promulgated by the Service in response to the CFTA, the NAFTA Implementation Act Statement of Administrative Action at page 178 clarifies that, "It should be noted that while there are many similarities between this NAFTA category and the categories relating to professionals set out in INA section 101(a)(15), a determination of admissibility under the NAFTA neither forecloses nor establishes eligibility for entry under such other categories. Further, Section D of Annex 1603 does not authorize a professional to establish a business or practice in the United States in which the professional will be self-employed." Consistent with the intent of the signatories of the CFTA and NAFTA, the interim regulation specifically precludes readmitting Canadian professionals who were previously admitted in TC classification from engaging in self-employment and from extending their stay in TC or TN (or in the case of spouses and/or children, B–2 or TD) nonimmigrant classification. Canadian citizens seeking to engage in trade or investment activities in this country under the NAFTA Implementation Act must do so pursuant to section 101(a)(15)(E) of the Act.

235.1(d)

A new paragraph (d)(8) has been added to provide for the denial of entry in E, L–1, or TN status of any citizen of Canada if the Secretary of Labor has certified to or otherwise informed the Commissioner that a strike or work stoppage of workers is occurring at the place of current or intended employment and the temporary entry of the applicant would affect adversely either settlement of the labor dispute or the employment of any person involved in the dispute. Additionally, the paragraph requires notification in writing to the applicant of the reason(s) for the refusal. Also, a designated representative of the applicant's home country government must be promptly notified in writing of the reasons for the refusal.

Additional instructions will be forthcoming from the Service regarding the appropriate methods and channels for notification of Party governments.

8 CFR 235.1(f)

Paragraph (f)(1) has been amended to include specific requirements regarding the completion of Form I–94 issued to a citizen of Canada or Mexico in TN status. Specifically, item 18 on the reverse of Form I–94 must be completed and the occupation stated must be contained within Appendix 1603.D.1 of Annex 1603 of the NAFTA. This requirement reflects the need to collect and maintain accurate statistics for reporting purposes to both the United States Congress and signatory governments.

Also, the name of the TN nonimmigrant's employer must be endorsed on both the Arrival and Departure portions of Form I–94 in order to comport with the requirements of section 274A of the Act.

8 CFR 274a.12(b) (19) and (20)

Paragraph (b)(19) is amended to include citizens of Mexico and Canada engaged in business activities at a professional level pursuant to Chapter 16 or the NAFTA to the classes of aliens authorized employment with a specific employer incident to status. Paragraph (b)(20) is amended to provide employment authorization to a citizen of Canada or Mexico in TN status in whose behalf an application for extension of stay has been timely filed.

The Service's implementation of this rule as an interim rule, with provisions for post-promulgation public comment, is based upon the "good cause" exceptions found at 5 U.S.C. 553 (b)(B) and (d)(3). The reasons and the necessity for immediate implementation of this interim rule without prior notice and comment are as follows: The NAFTA Implementation Act was signed by the President on December 8, 1993 and the NAFTA goes into force on January 1, 1994. There is a clear necessity for immediate implementation of this provision so that the admission to the United States of Canadian and Mexican citizen business persons pursuant to Chapter 16 of the NAFTA may be facilitated by this Service on the date of entry into force of the Agreement. Under these circumstances, providing a notice and comment period in advance of publication of this interim rule would have been impracticable and contrary to Congressional intent. It is imperative that this interim rule become effective on January 1, 1994 so that those persons who are entitled to the benefits of the NAFTA Implementation Act may apply accordingly.

In accordance with 5 U.S.C. 605(b), the Commissioner of the Immigration and Naturalization Service certifies that this rule will not have a significant adverse economic impact on a substantial number of small entities. This certification is made in light of the fact that the regulation substantially retains current standards for the admission of Canadians formerly provided for under the CFTA, and that, under this regulation, only 5,500 petitions may initially be approved annually in behalf of citizens of Mexico seeking classification as TN professionals. Additionally, it is anticipated that only a limited number of citizens of Mexico will seek classification as treaty traders and investors pursuant to this regulation. For the same reasons, this is not considered a "significant regulatory action" under Executive Order 12866. Further, this rule does not have Federalism implications warranting the

preparation of a Federal Assessment in accordance with Executive Order 12612.

The information collection requirements contained in this rule have been cleared by the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act and are cited under 8 CFR 299.5, Display of Control Numbers.

The additional instructions for Form I–129 are printed at the end of this regulation.

Administrative practice and procedure, Aliens, Employment, Penalties, Reporting and recordkeeping requirements.

Accordingly, chapter I of title 8 of the Code of Federal Regulations is amended as follows:

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

1. The authority citation for part 103 continues to read as follows:

Authority: 5 U.S.C. 552, 552(a); 8 U.S.C. 1101, 1103, 1201, 1252 note, 1252b, 1304, 1356; 31 U.S.C. 9701; E.O. 12356, 47 FR 14874, 15557, 3 CFR, 1982 Comp., p. 166; 8 CFR part 2.

2. In § 103.1, paragraph (f)(2) (x) and (xxiii) are revised to read as follows:

§ 103.1 Delegations of authority.

* * * * *

(f) * * *

(2) * * *

(x) Petitions for temporary workers or trainees and fiancees or fiancés of U.S. citizens under §§ 214.2 and 214.6 of this chapter;

* * * * *

(xxiii) Revoking approval of certain petitions, as provided in §§ 214.2 and 214.6 of this chapter;

* * * * *

3. In § 103.7, paragraph (b)(1) is amended by revising the entry "Request", the third time it is listed, to read as follows:

§ 103.7 Fees.

* * * * *

(b) * * *

(1) * * *

Request. For classification of a citizen of Canada to be engaged in business activities at a professional level pursuant to section 214(e) of the Act (Chapter 16 of the North American Free Trade Agreement)—$50.00

* * * * *

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

4. The authority citation for part 212 continues to read as follows:

Authority: 8 U.S.C. 1101, 1102, 1103, 1182, 1184, 1225, 1226, 1228, 1252; 8 CFR part 2.

5. In § 212.1, paragraph (1) is revised to read as follows:

§ 212.1 Documentary requirements for nonimmigrants.

* * * * *

(l) *Treaty traders and investors.* Notwithstanding any of the provisions of this part, an alien seeking admission as a treaty trader or investor under the provisions of Chapter 16 of the North American Free Trade Agreement (NAFTA) pursuant to section 101(a)(15)(E) of the Act, shall be in possession of a nonimmigrant visa issued by an American consular officer classifying the alien under that section.

* * * * *

PART 214—NONIMMIGRANT CLASSES

6. The authority citation for part 214 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1182, 1184, 1186a, 1187, 1221, 1281, 1282; 8 CFR part 2.

7. Section 214.2 is amended by:

a. Revising paragraphs (b)(1) and (b)(4);

b. Adding a new paragraph (e)(3);

c. Revising paragraph (l)(17) heading;

d. Revising paragraph (l)(17)(i); and by

e. Adding a new paragraph (l)(18), to read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance status.

* * * * *

(b) *Visitors*—(1) *General.* any B–1 visitor for business or B–2 visitor for pleasure may be admitted for not more than one year and may be granted extensions of temporary stay in increments of not more than six months each, except that alien members of a religious denomination coming temporarily and solely to do missionary work in behalf of a religious denomination may be granted extensions of not more than one year each, provided that such work does not involve the selling of articles or the solicitation or acceptance of donations. Those B–1 and B–2 visitors admitted pursuant to the waiver provided at § 212.1(e) of this chapter may be admitted to and stay on Guam for period not to exceed fifteen days and are not eligible for extensions of stay.

* * * * *

(4) *Admission of aliens pursuant to the North American Fee Trade Agreement (NAFTA).* A citizen of Canada or Mexico seeking temporary entry for purposes set forth in paragraph (b)(4)(i) of this section, who otherwise meets existing requirements under section 101(a)(15)(B) of the Act, including but not limited to requirements regarding the source of remuneration, shall be admitted upon presentation of proof of such citizenship in the case of Canadian applicants, and valid entry documents such as a passport and visa or Mexican Border Crossing Card (Form I–186 or I–586) in the case of Mexican applicants, a description of the purpose of entry, and evidence demonstrating that he or she is engaged in one of the occupations or professions set forth in paragraph (b)(4)(i) of this section. Existing requirements, with respect to Canada, are those requirements which were in effect at the time of entry into force of the CFTA and, with respect to Mexico, are those requirements which are in effect at the time of entry into force of the NAFTA. Additionally, nothing shall preclude the admission of a citizen of Mexico or Canada who meets the requirements of paragraph (b)(4)(ii) of this section.

(i) *Occupations and professions set forth in Appendix 1603.A.1 to Annex 1603 of the NAFTA.*—(A) *Research and design.* Technical scientific and statistical researchers conducting independent research or research for an enterprise located in the territory of another Party.

(B) *Growth, manufacture and production* (1) Harvester owner supervising a harvesting crew admitted under applicable law. (Applies only to harvesting of agricultural crops: Grain, fiber, fruit and vegetables.)

(2) Purchasing and production management personnel conducting commercial transactions for an enterprise located in the territory of another Party.

(C) *Marketing.* (1) Market researchers and analyst conducting independent research or analysis, or research or analysis for an enterprise located in the territory of another Party.

(2) Trade fair and promotional personnel attending a trade convention.

(D) *Sales.* (1) Sales representatives and agents taking orders or negotiating contracts for goods or services for an enterprise located in the territory of another Party but not delivering goods or providing services.

(2) Buyers purchasing for an enterprise located in the territory of another Party.

(E) *Distribution.* (1) Transportation operators transporting goods or passengers to the United States from the territory of another Party or loading and transporting goods or passengers from the United States to the territory of another Party, with no unloading in the United States, to the territory of another Party. (These operators may make deliveries in the United States if all goods or passengers to be delivered were loaded in the territory of another Party. Furthermore, they may load from locations in the United States if all goods or passengers to be loaded will be delivered in the territory of another Party. Purely domestic service or solicitation, in competition with the United States operators, is not permitted.)

(2) Customs brokers performing brokerage duties associated with the export of goods from the United States to or through Canada.

(F) *After-sales service.* Installers, repair and maintenance personnel, and supervisors, possessing specialized knowledge essential to the seller's contractual obligation, performing services or training workers to perform services, pursuant to a warranty or other service contract incidental to the sale of commercial or industrial equipment or machinery, including computer software, purchased from an enterprise located outside the United States, during the life of the warranty or service agreement. (For the purposes of this provision, the commercial or industrial equipment or machinery, including computer software, must have been manufactured outside the United States.)

(G) *General service.* (1) Professionals engaging in a business activity at a professional level in a profession set out in Appendix 1603.D.1 to Annex 1603 of the NAFTA, but receiving no salary or other remuneration from a United States source (other than an expense allowance or other reimbursement for expenses incidental to the temporary stay) and otherwise satisfying the requirements of Section A to Annex 1063 of the NAFTA.

(2) Management and supervisory personnel engaging in commercial transactions for an enterprise located in the territory of another Party.

(3) Financial services personnel (insurers, bankers or investment brokers) engaging in commercial transactions for an enterprise located in the territory of another Party.

(4) Public relations and advertising personnel consulting with business associates, or attending or participating in conventions.

(5) Tourism personnel (tour and travel agents, tour guides or tour operators) attending or participating in conventions or conducting a tour that has begun in the territory of another Party. (The tour may begin in the United States; but must terminate in foreign territory, and a significant portion of the tour must be conducted in foreign territory. In such a case, an operator may enter the United States with an empty conveyance and a tour guide may enter on his or her own and join the conveyance.)

(6) Tour bus operators entering the United States:

(*i*) With a group of passengers on a bus tour that has begun in, and will return to, the territory of another Party.

(*ii*) To meet a group of passengers on a bus tour that will end, and the predominant portion of which will take place, in the territory of another Party.

(*iii*) With a group of passengers on a bus tour to be unloaded in the United States and returning with no passengers or reloading with the group for transportation to the territory of another Party.

(7) Translators or interpreters performing services as employees of an enterprise located in the territory of another Party.

(ii) Occupations and professions not listed in Appendix 1603.A.1 to Annex 1603 of the NAFTA. Nothing in this paragraph shall preclude a business person engaged in an occupation or profession other than those listed in Appendix 1603.A.1 to Annex 1603 of the NAFTA from temporary entry under section 101(a)(15)(B) of the Act, if such person otherwise meets the existing requirements for admission as prescribed by the Attorney General.

* * * * *

(e) * * *

(3) *Denial of treaty trader or investor status to citizens of Canada or Mexico in the case of certain labor disputes.* A citizen of Canada or Mexico may be denied E treaty trader or investor status as described in section 101(a)(15)(E) of the Act and section B of Annex 1603 of the NAFTA if:

(i) The Secretary of Labor certifies to or otherwise informs the Commissioner that a strike or other labor dispute involving a work stoppage of workers is in progress at the place where the alien is or intends to be employed; and

(ii) Temporary entry of that alien may affect adversely either:

(A) The settlement of any labor dispute that is in progress at the place or intended place of employment, or

(B) The employment of any person who is involved in such dispute.

* * * * *

(l) * * *

(17) *Filing of individual petitions and certifications under blanket petitions for citizens of Canada under the North American Free Trade Agreement (NAFTA).* (i) *Individual petitions.* Except as provided in paragraph (l)(2)(ii) of this section (filing of blanket petitions), a United States or foreign employer seeking to classify a citizen of Canada as an intracompany transferee may file an individual petition in duplicate on Form I–129 in conjunction with an application for admission of the citizen of Canada. Such filing may be made with an immigration officer at a Class A port of entry located on the United States-Canada land border or at a United States pre-clearance/pre-flight station in Canada. The petitioning employer need not appear, but Form I–129 must bear the authorized signature of the petitioner.

* * * * *

(18) *Denial of intracompany transferee status to citizens of Canada or Mexico in the case of certain labor disputes.* (i) If the Secretary of Labor certifies to or otherwise informs the Commissioner that a strike or other labor dispute involving a work stoppage of workers is in progress where the beneficiary is to be employed, and the temporary entry of the beneficiary may affect adversely the settlement of such labor dispute or the employment of any person who is involved in such dispute, a petition to classify a citizen of Mexico or Canada as an L–1 intracompany transferee may be denied. If a petition has already been approved, but the alien has not yet entered the United States, or

has entered the United States but not yet commenced employment, the approval of the petition may be suspended, and an application for admission on the basis of the petition may be denied.

(ii) If there is a strike or other labor dispute involving a work stoppage of workers in progress, but such strike or other labor dispute is not certified under paragraph (l)(18)(i) of this section, or the Service has not otherwise been informed by the Secretary that such a strike or labor dispute is in progress, the Commissioner shall not deny a petition or suspend an approved petition.

(iii) If the alien has already commended employment in the United States under an approved petition and is participating in a strike or other labor dispute involving a work stoppage of workers, whether or not such strike or other labor dispute has been certified by the Department of Labor, the alien shall not be deemed to be failing to maintain his or her status solely on account of past, present, or future participation in a strike or other labor dispute involving a work stoppage of workers, but is subject to the following terms and conditions.

(A) The alien shall remain subject to all applicable provisions of the Immigration and Nationality Act, and regulations promulgated in the same manner as all other L nonimmigrants;

(B) The status and authorized period of stay of such an alien is not modified or extended in any way by virtue of his or her participation in a strike or other labor dispute involving work stoppage of workers; and

(C) Although participation by an L nonimmigrant alien in a strike or other labor dispute involving a work stoppage of workers will not constitute a ground for deportation, any alien who violates his or her status or who remains in the United States after his or her authorized period of stay has expired will be subject to deportation.

* * * * *

8. Section 214.6 is revised to read as follows:

§ 214.6 Canadian and Mexican citizens seeking temporary entry to engage in business activities at a professional level.

(a) *General.* Under section 214(e) of the Act, a citizen of Canada or Mexico who seeks temporary entry as a business person to engage in business activities at a professional level may be admitted to the United States in accordance with the North American Free Trade Agreement (NAFTA).

(b) *Definitions.* As used in this section the terms:

Business activities at a professional level means those undertakings which require that, for successful completion, the individual has at least a baccalaureate degree or appropriate credentials demonstrating status as a professional.

Business person, as defined in the NAFTA, means a citizen of Canada or Mexico who is engaged in the trade of goods, the provision of services, or the conduct of investment activities.

Engage in business activities at a professional level means the performance of prearranged business activities for a United States entity, including an individual. It does not authorize the establishment of a business or practice in the United States in which the professional will be self-employed.

Temporary entry, as defined in the NAFTA, means entry without the intent to establish permanent residence.

(c) *Appendix 1603.D.1 to Annex 1603 of the NAFTA.* Pursuant to the NAFTA, an applicant seeking admission under this section shall demonstrate business activity at a professional level in one of the professions set forth in Appendix 1603.D.1 to Annex 1603. The professions in Appendix 1603.D.1 and the minimum requirements for qualification for each are as follows: [1]

Appendix 1603.D.1 (Annotated)

—Accountant—Baccalaureate or Licenciatura Degree; or C.P.A., C.A., C.G.A., or C.M.A.

—Architect—Baccalaureate or Licenciatura Degree; or state/provincial license.[2]

—Computer Systems Analyst—Baccalaureate or Licenciatura Degree; or Post-Secondary Diploma [3] or Post Secondary Certificate [4] and three years' experience.

—Disaster relief insurance claims adjuster (claims adjuster employed by an insurance company located in the territory of a Party, or an independent claims adjuster)—Baccalaureate or Licenciatura Degree and successful completion of training in the appropriate areas of insurance adjustment pertaining to disaster relief claims; or three years experience in claims adjustment and successful completion of training in the appropriate areas of insurance adjustment pertaining to disaster relief claims.

—Economist—Baccalaureate or Licenciatura Degree.

—Engineer—Baccalaureate or Licenciatura Degree; or state/provincial license.

—Forester—Baccalaureate or Licenciatura Degree; or state/provincial license.

—Graphic Designer—Baccalaureate or Licenciatura Degree; or Post-Secondary Diploma or Post-Secondary Certificate and three years experience.

—Hotel Manager—Baccalaureate or Licenciatura Degree in hotel/restaurant management; or Post-Secondary Diploma or Post Secondary Certificate in hotel/restaurant management and three years experience in hotel/restaurant management.

—Industrial Designer—Baccalaureate or Licenciatura Degree; or Post-Secondary Diploma or Post Secondary Certificate, and three years experience.

—Interior Designer—Baccalaureate or Licenciatura Degree or Post-Secondary Diploma or Post-Secondary Certificate, and three years experience.

—Land Surveyor—Baccalaureate or Licenciatura Degree or state/provincial/federal license.

—Landscape Architect—Baccalaureate or Licenciatura Degree.

—Lawyer (including Notary in the province of Quebec)—L.L.B., J.D., L.L.L., B.C.L., or Licenciatura degree (five years); or membership in a state/provincial bar.

—Librarian—M.L.S., or B.L.S. (for which another Baccalaureate or Licenciatura Degree was a prerequisite).

—Management Consultant—Baccalaureate or Licenciatura Degree; or equivalent professional experience as established by statement or professional credential attesting to five years experience as a management consultant, or five years experience in a field of specialty related to the consulting agreement.

—Mathematician (including Statistician)—Baccalaureate or Licenciatura Degree.

—Range Manager/Range Conservationist—Baccalaureate or Licenciatura Degree.

—Research Assistant (working in a post-secondary educational institution)—Baccalaureate or Licenciatura Degree.

[1] A business person seeking temporary employment under this Appendix may also perform training functions relating to the profession, including conducting seminars.

[2] The terms "state/provincial license" and "state/provincial/federal license" mean any document issued by a state, provincial, or federal government, as the case may be, or under its authority, but not by a local government, that permits a person to engage in a regulated activity or profession.

[3] "Post Secondary Diploma" means a credential issued, on completion of two or more years of post secondary education, by an accredited academic institution in Canada or the United States.

[4] "Post Secondary Certificate" means a certificate issued, on completion of two or more years of post secondary education at an academic institution, by the federal government of Mexico or a state government in Mexico, an academic institution recognized by the federal government or a state government, or an academic institution created by federal or state law.

—Scientific Technician/Technologist [5]—Possession of (a) theoretical knowledge of any of the following disciplines: agricultural sciences, astronomy, biology, chemistry, engineering, forestry, geology, geophysics, meteorology, or physics; and (b) the ability to solve practical problems in any of those disciplines, or the ability to apply principles of any of those disciplines to basic or applied research.

—Social Worker—Baccalaureate or Licenciatura Degree.

—Sylviculturist (including Forestry Specialist)—Baccalaureate or Licenciatura Degree.

—Technical Publications Writer—Baccalaureate or Licenciatura Degree, or Post-Secondary Diploma or Post-Secondary Certificate, and three years experience.

—Urban Planner (including Geographer)—Baccalaureate or Licenciatura Degree.

—Vocational Counselor—Baccalaureate or Licenciatura Degree.

Medical/Allied Professionals

—Dentist—D.D.S., D.M.D., Doctor en Odontologia or Doctor en Cirugia Dental or state/provincial license.

—Dietitian—Baccalaureate or Licenciatura Degree; or state/provincial license.

—Medical Laboratory Technologist (Canada)/Medical Technologist (Mexico and the United States) [6]—Baccalaureate or Licenciatura Degree; or Post-Secondary Diploma or Post-Secondary Certificate, and three years experience.

—Nutritionist—Baccalaureate or Licenciatura Degree.

—Occupational Therapist—Baccalaureate or Licenciatura Degree; or state/provincial license.

—Pharmacist—Baccalaureate or Licenciatura Degree; or state/provincial license.

—Physician (teaching or research only)—M.D. Doctor en Medicina; or state/provincial license.

—Physiotherapist/Physical Therapist—Baccalaureate or Licenciatura Degree; or state/provincial license.

—Psychologist—state/provincial license; or Licenciatura Degree.

—Recreational Therapist-Baccalaureate or Licenciatura Degree.

—Registered nurse—state/provincial license or Licenciatura Degree.

—Veterinarian—D.V.M., D.M.V., or Doctor en Veterinaria; or state/provincial license.

—SCIENTIST

—Agriculturist (including Agronomist)—Baccalaureate or Licenciatura Degree.

—Animal Breeder—Baccalaureate or Licenciatura Degree.

—Animal Scientist—Baccalaureate or Licenciatura Degree.

—Apiculturist—Baccalaureate or Licenciatura Degree.

—Astronomer—Baccalaureate or Licenciatura Degree.

—Biochemist—Baccalaureate or Licenciatura Degree.

—Biologist—Baccalaureate or Licenciatura Degree.

—Chemist—Baccalaureate or Licenciatura Degree.

—Dairy Scientist—Baccalaureate or Licenciatura Degree.

—Entomologist—Baccalaureate or Licenciatura Degree.

—Epidemiologist—Baccalaureate or Licenciatura Degree.

—Geneticist—Baccalaureate or Licenciatura Degree.

—Geochemist—Baccalaureate or Licenciatura Degree.

—Geologist—Baccalaureate or Licenciatura Degree.

—Geophysicist (including Oceanographer in Mexico and the United States)—Baccalaureate or Licenciatura Degree.

—Horticulturist—Baccalaureate or Licenciatura Degree.

—Meteorologist—Baccalaureate or Licenciatura Degree.

—Pharmacologist—Baccalaureate or Licenciatura Degree.

—Physicist (including Oceanographer in Canada—Baccalaureate or Licenciatura Degree.

—Plant Breeder—Baccalaureate or Licenciatura Degree.

—Poultry Scientist—Baccalaureate or Licenciatura Degree.

—Soil Scientist—Baccalaureate or Licenciatura Degree.

—Zoologist—Baccalaureate or Licenciatura Degree.

—TEACHER

—College—Baccalaureate or Licenciatura Degree.

—Seminary—Baccalaureate or Licenciatura Degree.

—University—Baccalaureate or Licenciatura Degree.

(d) *Classification of citizens of Mexico as TN professionals under the NAFTA*—(1) *General.* A United States employer seeking to classify a citizen of Mexico as a TN professional temporary employee shall file a petition on Form I–129, Petition for Nonimmigrant Worker, with the Northern Service Center, even in emergent circumstances. The petitioner may submit a legible photocopy of a document in support of the visa petition in lieu of the original document. The original document shall be submitted if requested by the Service.

(2) *Supporting documents.* A petition in behalf of a citizen of Mexico seeking classification as a TN professional shall be accompanied by:

(i) A certification from the Secretary of Labor that the petitioner has filed the appropriate documentation with the Secretary in accordance with section (D)(5)(b) of Annex 1603 of the NAFTA.

(ii) Evidence that the beneficiary meets the minimum education requirements or alternative credentials requirements of Appendix 1603.D.1 of Annex 1603 of the NAFTA as set forth in § 214.6(c). This documentation may consist of licenses, degrees, diplomas, certificates, or evidence of membership in professional organizations. Degrees, diplomas, or certificates received by the beneficiary from an educational institution not located within Mexico, Canada, or the United States must be accompanied by an evaluation by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials. Evidence of experience should consist of letters from former employers or, if formerly self-employed, business records attesting to such self-employment; and

(iii) A statement from the prospective employer in the United States specifically stating the Appendix 1603.D.1 profession in which the beneficiary will be engaging and a full description of the nature of the duties which the beneficiary will be performing. The statement must set forth licensure requirements for the state or locality of intended employment or, if no license is required, the non-existence of such requirements for the professional activity to be engaged in.

(iv) *Licensure for TN classification*—(A) *General.* If the profession requires a state or local license for an individual to fully perform the duties of that profession, the beneficiary for whom TN classification is sought must have that license prior to approval of the petition and evidence of such licensing must accompany the petition.

(B) *Temporary licensure.* If a temporary license is available and the beneficiary would be allowed to perform the duties of the profession without a permanent license, the director shall examine the nature of the duties, the level at which the duties are performed, the degree of supervision received, and any limitations which would be placed upon the beneficiary. If an analysis of the facts demonstrates that the beneficiary, although under supervision, would be fully authorized to perform the duties of the profession, TN classification may be granted.

(C) *Duties without licensure.* In certain professions which generally require licensure, a state may allow an individual to fully practice a profession under the supervision of licensed senior or supervisory personnel in that profession. In such cases, the director shall examine the nature of the duties and the level at which they are to be performed. If the facts demonstrate that the beneficiary, although under

[5] A business person in this category must be seeking temporary entry for work in direct support of professionals in agricultural sciences, astronomy, biology, chemistry, engineering, forestry, geology, geophysics, meteorology or physics.

[6] A business person in this category must be seeking temporary entry to perform in a laboratory chemical, biological, hematological, immunologic, microscopic or bacteriological tests and analyses for diagnosis, treatment, or prevention of diseases.

supervision, would fully perform the duties of the profession, TN classification may be granted.

(D) *Registered nurses.* The prospective employer must submit evidence that the beneficiary has been granted a permanent state license, a temporary state license or other temporary authorization issued by a State Board of Nursing authorizing the beneficiary to work as a registered or graduate nurse in the state of intended employment in the United States.

(3) *Approval and validity of petition*—(i) *Approval.* The director shall notify the petitioner of the approval of the petition on Form I–797, Notice of Action. The approval notice shall include the beneficiary's name, classification, Appendix 1603.D.1 profession, and the petition's period of validity.

(ii) *Recording the validity of petitions.* Procedures for recording the validity period of petitions are:

(A) If the petition is approved before the date the petitioner indicates that employment will begin, the approved petition and approval notice shall show the actual dates requested by the petitioner as the validity period, not to exceed the limits specified by paragraph (d)(3)(iii) of this section.

(B) If the petition is approved after the date the petitioner indicates employment will begin, the approved petition and approval notice shall show a validity period commencing with the date of approval and ending with the date requested by the petitioner, as long as that date does not exceed the limits specified by paragraph (d)(3)(iii) of this section.

(C) If the period of employment requested by the petitioner exceeds the limit specified in paragraph (d)(3)(iii) of this section, the petition shall be approved only up to the limit specified in that paragraph.

(iii) *Validity.* An approved petition classifying a citizen of Mexico as a TN nonimmigrant shall be valid for a period of up to one year.

(4) *Denial of petition*—(i) *Notice of intent to deny.* When an adverse decision is proposed on the basis of derogatory information of which the petitioner is unaware, the director shall notify the petitioner of the intent to deny the petition and the basis for the denial. The petitioner may inspect and rebut the evidence and will be granted a period of thirty days in which to do so. All relevant rebuttal material will be considered in making a final decision.

(ii) *Notice of denial.* The petitioner shall be notified of the decision, the reasons for the denial, and the right to appeal the denial under part 103 of this chapter.

(5) *Revocation of approval of petition*—(i) *General.* (A) The petitioner shall immediately notify the Service of any changes in the terms and conditions of employment of a beneficiary which may effect eligibility under section 214(e) of the Act or § 214.6. An amended petition should be filed when the petitioner continues to employ the beneficiary. If the petitioner no longer employs the beneficiary, the petitioner shall send a letter explaining the change(s) to the director who approved the petition.

(B) The director may revoke a petition at any time, even after the validity of the petition has expired.

(ii) *Automatic revocation.* The approval of an unexpired petition is automatically revoked if the petitioner goes out of business, files a written withdrawal of the petition, or notifies the Service that the beneficiary is no longer employed by the petitioner.

(iii) *Revocation on notice*—(A) *Grounds for revocation.* The director shall send to the petitioner a notice of intent to revoke the petition in relevant part if he or she finds that:

(*1*) The beneficiary is no longer employed by the petitioner in the capacity specified in the petition;

(*2*) The statement of facts contained in the petition were not true and correct;

(*3*) The petitioner violated the terms or conditions of the approved petition;

(*4*) The petitioner violated requirements of section 214(e) of the Act or § 214.6; or

(*5*) The approval of the petition violated § 214.6 or involved gross error.

(B) *Notice and decision.* The notice of intent to revoke shall contain a detailed statement of the grounds for the revocation and the time period allowed for the petitioner's rebuttal. The petitioner may submit evidence in rebuttal within thirty days of the date of the notice. The director shall consider all relevant evidence presented in deciding whether to revoke the petition.

(6) *Appeal of a denial or revocation of a petition*—(i) *Denial.* A denied petition may be appealed under part 103 of this chapter.

(ii) *Revocation.* A petition that has been revoked on notice may be appealed under part 103 of this chapter. Automatic revocations may not be appealed.

(7) *Numerical limit*—(i) *Limit on number of petitions to be approved in behalf of citizens of Mexico.* Beginning on the date of entry into force of the NAFTA, not more than 5,500 citizens of Mexico can be classified as TN nonimmigrants annually.

(ii) *Procedures.* (A) Each citizen of Mexico issued a visa or otherwise provided TN nonimmigrant status under section 214(e) of the Act shall be counted for purposes of the numerical limit. Requests for petition extension or extension of the alien's stay and submissions of amended petitions shall not be counted for purposes of the numerical limit. The spouse and children of principal aliens classified as TD nonimmigrants shall not be counted against the numerical limit.

(B) Numbers will be assigned temporarily to each Mexican citizen in whose behalf a petition for TN classification has been filed. If a petition is denied, the number originally assigned to the petition shall be returned to the system which maintains and assigns numbers.

(C) When an approved petition is not used because the beneficiary does not apply for admission to the United States, the petitioner shall notify the service center director who approved the petition that the number has not been used. The petition shall be revoked pursuant to paragraph (d)(5)(ii) of this section and the unused number shall be returned to the system which maintains and assigns numbers.

(D) If the total annual limit has been reached prior to the end of the year, new petitions and the accompanying fee shall be rejected and returned with a notice stating that numbers are unavailable for Mexican citizen TN nonimmigrants and the date when numbers will again become available.

(e) *Classification of citizens of Canada as TN professionals under the NAFTA*—(1) *General.* Under section 214(e) of the Act, a citizen of Canada who seeks temporary entry as a business person to engage in business activities at a professional level may be admitted to the United States in accordance with the NAFTA.

(2) *Application for admission.* A citizen of Canada seeking admission under this section shall make application for admission with an immigration officer at a United States Class A port of entry, at a United States airport handling international traffic, or at a United States pre-clearance/pre-flight station. No prior petition, labor certification, or prior approval shall be required.

(3) *Evidence.* A visa shall not be required of a Canadian citizen seeking admission as a TN nonimmigrant under section 214(e) of the Act. Upon application for admission at a United States port of entry, an applicant under this section shall present the following:

(i) Proof of Canadian citizenship. Unless travelling from outside the Western hemisphere, no passport shall be required; however, an applicant for admission must establish Canadian citizenship.

(ii) Documentation demonstrating engagement in business activities at a professional level and demonstrating professional qualifications. The applicant must present documentation sufficient to satisfy the immigration officer at the time of application for admission, that the applicant is seeking entry to the United States to engage in business activities for a United States employer(s) or entity(ies) at a professional level, and that the applicant meets the criteria to perform at such a professional level. This documentation may be in the form of a letter from the prospective employer(s) in the United States or from the foreign employer, in the case of a Canadian citizen seeking entry to provide prearranged services to a United States entity, and may be required to be supported by licenses, diplomas, degrees, certificates, or membership in a professional organization. Degrees, diplomas, or certificates received by the applicant from an educational institution not located within Canada, Mexico, or the United States must be accompanied by an evaluation by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials. The documentation shall fully affirm:

(A) The Appendix 1603.D.1 profession of the applicant;

(B) A description of the professional activities, including a brief summary of daily job duties, if appropriate, which the applicant will engage in for the United States employer/entity;

(C) The anticipated length of stay;

(D) The educational qualifications or appropriate credentials which demonstrate that the Canadian citizen has professional level status;

(E) The arrangements for remuneration for services to be rendered; and

(F) If required by state or local law, that the Canadian citizen complies with all applicable laws and/or licensing requirements for the professional activity in which they will be engaged.

(f) *Procedures for admission*—(1) *Canadian citizens.* A Canadian citizen who qualifies for admission under this section shall be provided confirming documentation (Service Form I–94) and shall be admitted under the classification symbol TN for a period not to exceed one year. Form I–94 shall bear the legend "multiple entry". The fee prescribed under § 103.7(b) of this chapter shall be remitted upon admission to the United States pursuant to the terms and conditions of the NAFTA. Upon remittance of the prescribed fee, the Canadian citizen applicant shall be provided a Service receipt (Form G–211, Form G–711, or Form I–797).

(2) *Mexican citizens.* The Mexican citizen beneficiary of an approved Form I–129 granting classification as a TN professional shall be admitted to the United States for the validity period of the approved petition upon presentation of a valid TN visa issued by a United States consular officer and a copy of the United States employer's statement as described in paragraph (d)(2)(iii) of this section. The Mexican citizen shall be provided Form I–94 bearing the legend "multiple entry".

(g) *Readmission*—(1) *Canadian citizens.* A Canadian citizen in this classification may be readmitted to the United States for the remainder of the period authorized on Form I–94, without presentation of the letter or supporting documentation described in paragraph (e)(3) of this section, and without remittance of the prescribed fee, provided that the original intended professional activities and employer(s) have not changed. If the Canadian citizen seeking readmission to the United States is no longer in possession of a valid, unexpired Form I–94, and the period of initial admission has not lapsed, he or she shall present alternate evidence in order to be readmitted in TN status. This alternate evidence may include, but is not limited to, a Service fee receipt for admission as a TN or a previously issued admission stamp as TN in a passport, and a confirming letter from the United States employer(s). A new Form I–94 shall be issued at the time of readmission bearing the legend "multiple entry".

(2) *Mexican citizens.* A Mexican citizen in this classification may be readmitted for the remainder of the period of time authorized on Form I–94 provided that the original intended professional activities and employer(s) have not changed. If the Mexican citizen seeking readmission to the United States is no longer in possession of a valid, unexpired Form I–94, he or she may be readmitted upon presentation of a valid TN visa and evidence of a previous admission. A new Form I–94 shall be issued at the time of readmission bearing the legend "multiple entry".

(h) *Extension of stay*—(1) *Mexican citizen.* The United States employer shall apply for extension of the Mexican citizen's stay in the United States by filing Form I–129 with the Northern Service Center. The applicant must also request a petition extension. The request for extension must be accompanied by either a new or a photocopy of the prior certification on Form ETA 9029, in the case of a registered nurse, or Form ETA 9035, in all other cases, that the petitioner continues to have on file with the Department of Labor for the period of time requested. The dates of extension shall be the same for the petition and the beneficiary's extension of stay. The beneficiary must be physically present in the United States at the time of the filing of the extension of stay. Even though the requests to extend the petition and the alien's stay are combined on the petition, the director shall make a separate determination on each. If the citizen of Mexico is required to leave the United States for business or personal reasons during the pendency of the extension request, the petitioner may request the director to cable notification of the approval of the petition to the consular office abroad where the beneficiary will apply for a visa. An extension of stay may be authorized for up to one year. There is no specific limit on the total period of time a citizen of Mexico may remain in TN status.

(2) *Canadian citizen*—(i) *Filing at the service center.* The United States employer of a Canadian citizen in TN status or United States entity, in the case of a Canadian citizen in TN status who has a foreign employer, may request an extension of stay by filing Form I–129 with the prescribed fee, with the Northern Service Center. The beneficiary must be physically present in the United States at the time of the filing of the extension of stay. If the alien is required to leave the United States for business or personal reasons while the extension request is pending, the petitioner may request the director to cable notification of approval of the application to the port of entry where the Canadian citizen will apply for admission to the United States. An extension of stay may be authorized for up to one year. There is no specific limit on the total period of time a citizen of Canada may remain in TN status.

(ii) *Readmission at the border.* Nothing in paragraph (h)(2)(i) of this section shall preclude a citizen of Canada who has previously been in the United States in TN status from applying for admission for a period of time which extends beyond the date of his or her original term of admission at any United States port of entry. The application for admission shall be supported by a new letter from the United States employer or the foreign employer, in the case of a Canadian citizen who is providing prearranged services to a United States entity, which meets the requirements of paragraph

(e)(3)(ii) of this section. The fee prescribed under § 103.7(b) of this chapter shall be remitted upon admission to the United States pursuant to the terms and conditions of the NAFTA.

(i) *Request for change or addition of United States employer(s)*—(1) *Mexican citizen.* A citizen of Mexico admitted under this paragraph who seeks to change or add a United States employer must have the new employer file a Form I–129 petition with appropriate supporting documentation, including a letter from the new employer describing the services to be performed, the time needed to render such services, and the terms for remuneration for services and evidence of required filing with the Secretary of Labor. Employment with a different or with an additional employer is not authorized prior to Service approval of the petition.

(2) *Canadian citizen*—(i) *Filing at the service center.* A citizen of Canada admitted under this paragraph who seeks to change or add a United States employer during this period of admission must have the new employer file a Form I–129 petition with appropriate supporting documentation, including a letter from the new employer describing the services to be performed, the time needed to render such services, and the terms for remuneration for services. Employment with a different or with an additional employer is not authorized prior to Service approval of the petition.

(ii) *Readmission at the border.* Nothing in paragraph (l)(2)(i) of this section precludes a citizen of Canada from applying for readmission to the United States for the purpose of presenting documentation from a different or additional United States or foreign employer. Such documentation shall meet the requirements prescribed in paragraph (e)(3)(ii) of this section. The fee prescribed under § 103.7(b) of this chapter shall be remitted upon admission to the United States pursuant to the terms and conditions of the NAFTA.

(3) No action shall be required on the part of a Canadian or Mexican citizen who is transferred to another location by the United States employer to perform the same services. Such an acceptable transfer would be to a branch or office of the employer. In the case of a transfer to a separately incorporated subsidiary or affiliate, the requirements of paragraphs (i) (1) and (2) of this section would apply.

(j) *Spouse and unmarried minor children accompanying or following to join.* (1) The spouse of unmarried minor child of a citizen of Canada or Mexico admitted in TN nonimmigrant status shall be required to present a valid, unexpired nonimmigrant TD visa unless otherwise exempt under § 212.1 of this chapter.

(2) The spouse and dependent minor children shall be issued confirming documentation (Form I–94) bearing the legend "multiple entry". There shall be no fee required for admission of the spouse and dependent minor children.

(3) The spouse and dependent minor children shall not accept employment in the United States unless otherwise authorized under the Act.

(k) *Effect of a strike.* If the Secretary of Labor certifies to or otherwise informs the Commissioner that a strike or other labor dispute involving a work stoppage of workers is in progress, and the temporary entry of a citizen of Mexico or Canada in TN nonimmigrant status may affect adversely the settlement of any labor dispute or the employment of any person who is involved in such dispute:

(1) The United States may refuse to issue an immigration document authorizing entry or employment to such alien.

(2) A Form I–129 seeking to classify a citizen of Mexico as a TN nonimmigrant may be denied. If a petition has already been approved, but the alien has not yet entered the United States, or has entered the United States but not yet commenced employment, the approval of the petition may be suspended.

(3) If the alien has already commenced employment in the United States and is participating in a strike or other labor dispute involving a work stoppage of workers, whether or not such strike or other labor dispute has been certified by the Department of Labor, or whether the Service has been otherwise informed that such a strike or labor dispute is in progress, the alien shall not be deemed to be failing to maintain his or her status solely on account of past, present, or future participation in a strike or other labor dispute involving a work stoppage of workers, but is subject to the following terms and conditions:

(i) The alien shall remain subject to all applicable provisions of the Immigration and Nationality Act and regulations promulgated in the same manner as all other TN nonimmigrants;

(ii) The status and authorized period of stay of such an alien is not modified or extended in any way by virtue of his or her participation in a strike or other labor dispute involving a work stoppage of workers; and

(iii) Although participation by a TN nonimmigrant alien in a strike or other labor dispute involving a work stoppage of workers will not constitute a ground for deportation, any alien who violates his or her status or who remains in the United States after his or her authorized period of stay has expired will be subject to deportation.

(4) If there is a strike or other labor dispute involving a work stoppage of workers in progress, but such strike or other labor dispute is not certified under paragraph (k)(1) of this section, or the Service has not otherwise been informed by the Secretary that such a strike or labor dispute is in progress, the Commissioner shall not deny a petition, suspend an approved petition, or deny entry to an applicant for TN status.

(l) *Transition for Canadian Citizen Professionals in TC classification and their B–2 spouses and/or unmarried minor children*—(1) *Canadian citizen professionals in TC Classification*—(i) *General.* Canadian citizen professionals in TC classification as of the effective date of the NAFTA Implementation Act (January 1, 1994) will automatically be deemed to be in valid TN classification. Such persons may be readmitted to the United States in TN classification for the remainder of the period authorized on their Form I–94, without presentation of the letter or supporting documentation described in paragraph (e)(3) of this section, and without remittance of the prescribed fee, provided that the original intended professional activities and employer(s) have not changed. Properly filed applications for extension of stay in TC classification which are pending on January 1, 1994 will be deemed to be, and adjudicated as if they were applications for extension to stay in TN classification.

(ii) *Procedure for Canadian citizens admitted in TC classification in possession of Form I–94 indicating admission in TC classification.* At the time of readmission, such professionals shall be required to surrender their old Form I–94 indicating admission in TC classification. Upon surrender of the old Form I–94, such professional will be issued a new Form I–94 bearing the legend "multiple entry" and indicating that he or she has been readmitted in TN classification.

(iii) *Procedure for Canadian citizen admitted in TC classification who are no longer in possession of Form I–94 indicating admission in TC classification.* If the Canadian citizen seeking readmission to the United States is no longer in possession of an unexpired Form I–94, and the period of initial admission has not lapsed, he or she shall present alternate evidence described in paragraph (g)(1) of this section in order to be readmitted in TN status. A Canadian professional seeking to extend his or her stay beyond the period indicated on the new Form I–94 shall be required to comply with the requirements of paragraph (h)(2) of this section, including remittance of the fee prescribed under § 103.7 of this chapter.

(iv) *Nonapplicability of this section to self-employed professionals in TC nonimmigrant classification.* The provisions in paragraphs (l)(1) (i), (ii), and (iii) of this section shall not apply to professionals in TC nonimmigrant classification who are self-employed in this country on January 1, 1994. Effective January 1, 1994, such professionals are not authorized to engage in self-employment in this country, and may not be admitted in TN or readmitted in TC classification.

(2) *Spouses and/or unmarried minor children of Canadian citizen professionals in TC classification*—(i) *General.* Effective January 1, 1994, the nonimmigrant classification of a spouse and/or unmarried minor child of a Canadian citizen professional in TC classification will automatically be converted from B–2 to TD nonimmigrant classification. Effective January 1, 1994, the spouse and/or unmarried minor child of a Canadian citizen professional whose TC status has been automatically converted to TN, or the spouse and/or unmarried minor child of such professional whose status has been changed to TN pursuant to paragraph (1) of this section, who is seeking admission or readmission to this country, may be readmitted in TD classification for the remainder of the period authorized on their Form I–94, without presentation of the letter or supporting documentation described in paragraph (e)(3) of this section, and without remittance of the prescribed fee, provided that the original intended professional activities and employer(s) of the Canadian citizen professional have not changed. Properly filed applications for extension of stay in B–2 classification as the spouse and/or unmarried minor children of a Canadian citizen professional in TC classification which are pending on January 1, 1994 will be deemed to be, and adjudicated as if they were applications for extension of stay in TD classification.

(ii) *Procedure for spouses and/or unmarried minor children of Canadian citizens admitted in TC classification who are in possession of Form I–94 indicating admission in B–2 classification.* Upon surrender of the Form I–94 indicating that the alien has been admitted as the B–2 spouse or unmarried minor child of a TC alien valid for "multiple entry," such alien shall be issued a new Form I–94 indicating that the alien has been readmitted in TD classification. The new Form I–94 shall bear the legend "multiple entry."

(iii) *Procedure for spouses and/or unmarried minor children of Canadian citizens admitted in TC classification who are no longer in possession of Form I–94 indicating admission in B–2 classification.* If the Canadian citizen seeking readmission to the United States is no longer in possession of an unexpired Form I–94, and the period of initial admission has not lapsed, he or she shall present alternate evidence described in paragraph (g)(1) of this section in order to be readmitted in TN status. Spouses and/or children of Canadian citizen professionals seeking to extend their stay beyond the period indicated on the new Form I–94 shall be required to comply with the requirements of paragraph (h)(2) of this section, including remittance of the fee prescribed under § 103.7 of this chapter.

(iv) *Nonapplicability of this section to spouses and/or unmarried minor children of self-employed professionals admitted in TC nonimmigrant classification.* Paragraphs (l)(2) (i), (ii), and (iii) of this section shall not apply to the spouses and/or unmarried minor children of Canadian citizen professionals in TC nonimmigrant classification who are self-employed in this country on January 1, 1994. Effective January 1, 1994, such persons are not eligible for TD classification.

PART 235—INSPECTION OF PERSONS APPLYING FOR ADMISSION

9. The authority citation for part 235 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1182, 1183, 1201, 1224, 1225, 1226, 1227, 1228, 1252.

10. Section 235.1 is amended by adding a new paragraph (d)(8), and by revising paragraph (f)(1) introductory text, to read as follows:

§ 235.1 Scope of examination.

* * * * *

(d) * * *

(8) Any citizen of Canada or Mexico seeking to enter the United States as a principal alien E–1 or E–2, or as an L–1 or TN, for the purpose of employment at a site where the Secretary of Labor has certified to or otherwise informed the Commissioner that there is a strike or other labor dispute involving a work stoppage of workers in progress, and the temporary entry of that citizen of Canada or Mexico may affect adversely either the settlement of any such labor dispute or the employment of any person who is involved in any such dispute, may be refused entry in the classification sought. The applicant shall be advised in writing of the reason(s) for the refusal. A designated representative of the government of Canada or Mexico shall be promptly notified in writing of the reason(s) for the refusal of entry.

* * * * *

(f) *Arrival/Departure Record, Form I–94*—(1) *Nonimmigrants.* Each nonimmigrant alien except as indicated below, who is admitted to the United States shall be issued a completely executed Form I–94 which must be endorsed to show: date and place of admission, period of admission, and nonimmigrant classification. A nonimmigrant alien who will be making frequent entries into the United States over its land borders may be issued a Form I–94 which is valid for any number of entries during the validity of the form. In the case of a nonimmigrant alien admitted as a TN under the NAFTA, the specific occupation of such alien as set forth in Appendix 1603.D.1 of the NAFTA shall be recorded in item number 18 on the reverse side of the arrival portion of Form I–94, and the name of the employer shall be notated on the reverse side of both the arrival and departure portions of Form I–94. The departure portion Form I–94 shall bear the legend "multiple entry". A Form I–94 is not required by: * * *

* * * * *

PART 274a—CONTROL OF EMPLOYMENT OF ALIENS

11. The authority citation for part 274a continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1324a; 8 CFR part 2.

12. In § 274a.12, paragraphs (b) (19) and (20) are revised to read as follows:

§ 274a.12 Classes of aliens authorized to accept employment.

* * * * *

(b) * * *

(19) A nonimmigrant pursuant to section 214(e) of the Act. An alien in this status must be engaged in business activities at a professional level in accordance with the provisions of Chapter 16 of the North American Free Trade Agreement (NAFTA); or

(20) A nonimmigrant alien within the class of aliens described in paragraphs (b)(2), (b)(5), (b)(8), (b)(9), (b)(10), (b)(11), (b)(12), (b)(13), (b)(14), (b)(16), and (b)(19) of this section whose status has expired but who has filed a timely application for an extension of such stay pursuant to §§ 214.2 or 214.6 of this chapter. These aliens are authorized to continue employment with the same

employer for a period not to exceed 240 days beginning on the date of the expiration of the authorized period of stay. Such authorization shall be subject to any conditions and limitations noted on the initial authorization. However, if the district director or service center director adjudicates the application prior to the expiration of this 240 day period and denies the application for extension of stay, the employment authorization under this paragraph shall automatically terminate upon notification of the denial decision.

Dated: December 23, 1993.

Doris Meissner,

Commissioner, Immigration and Naturalization Service.

Note: This appendix will not appear in the Code of Federal Regulations.

Appendix to the Preamble—Additional Instructions for Form I–129.

U.S. Department of Justice

Immigration and Naturalization Service, OMB No. 1115–0168 Additional Instructions for Form I–129

Temporary Entry Under the North American Free Trade Agreement

The North American Free Trade Agreement (NAFTA) entered into force on January 1, 1994. Chapter 16, *Temporary Entry*, of the Agreement exclusively covers four nonimmigrant classifications:

(1) B–1, Visitor for Business;

(2) E–1/E–2, Treaty Trader and Investor;

(3) L–1, Intracompany Transferee; and

(4) TN, Business Professional.

This form is for an employer to petition for initial classification, change of status, or extension of stay of a Mexican or Canadian citizen as an L–1; for an employer to request an extension of stay or change of status of a Mexican or Canadian citizen to the E–1 or E–2 classification; for the employer to request an extension of stay or change of status of a Canadian citizen to the NAFTA Professional classification (TN) or the change/addition of employers for a Canadian TN; and for an employer to petition for classification of a Mexican citizen as a NAFTA Professional (TN).

Regular instructions for Form I–129 shall be followed to petition for L classification and E–1/E–2 classification. The following additional instructions are provided to file for a TN.

Filing for a Canadian TN

No Form I–129 is required for Canadian citizens applying for admission to the U.S. in TN status. Form I–129 is used by an employer to request an extension of stay for a Canadian to TN, a change of status for a Canadian to TN classification, or the change/addition of employers for a Canadian TN.

On Form I–129, Part 2, Item 1, insert the classification symbol TN–1.

A U.S. employer/entity must file the Form I–129 with the following:

(1) a statement of the activity listed in Appendix 1603.D.1 (see the back of this form) in which the beneficiary will be engaging and a full description of the nature of the duties the beneficiary will be performing, the anticipated length of stay, and the arrangements for remuneration;

(2) evidence that the beneficiary meets the educational and/or alternative credentials for the activity listed in Appendix 1603.D.1;

(3) evidence of Canadian citizenship; and

(4) evidence that all licensure requirements, where applicable to the activity, have been satisfied.

Filing for a Mexican TN

Form I–129 is required for Mexican citizens applying for initial TN classification, extension of TN stay, change/addition of employers and change of classification to TN.

On Form I–129, Part 2, Item 1, insert the classification symbol TN–2.

A U.S. employer must file the petition with the following:

(1) a statement of the activity listed in Appendix 1603.D.1 (see the back of this form) in which the beneficiary will be engaging, a full description of the nature of the duties the beneficiary will be performing, the anticipated length of stay, and the arrangements for remuneration;

(2) evidence that the beneficiary meets the educational and/or alternative credentials for the activity listed in Appendix 1603.D.1;

(3) evidence of Mexican citizenship;

(4) evidence that all licensure requirements where applicable to the activity, have been satisfied; and

(5) a certification from the Secretary of Labor that the petitioner has filed the appropriate labor condition application or labor attestation for the specified activity.

When To File

File Form I–129 as soon as possible, but no more than 4 months before the proposed employment will begin or the extension of stay is required. If you do not submit Form I–129 at least 45 days before the employment will begin, processing and subsequent visa issuance may not be completed before the alien's services are require or previous employment authorization ends.

Where To File

When filing for a Mexican or Canadian TN, Form I–129 shall be filed with the Director of the Northern Service Center. In all other instances, Form I–129 shall be filed with the appropriate Service center per the instructions to Form I–129.

Fee

See general instructions for Form I–129.

BILLING CODE 4410–01–M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 20

RIN 3150–AE84

Standards for Protection Against Radiation; NRC Operations Center Telephone Number

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: This final rule amends the NRC's revised standards for protection against radiation to include the telephone number for the NRC Operations Center. The final rule is necessary to correct the inadvertent omission of this telephone number when the revised standards were issued.

EFFECTIVE DATE: December 30, 1993.

FOR FURTHER INFORMATION CONTACT: James Lieberman, Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 504–2741.

SUPPLEMENTARY INFORMATION: On May 21, 1991 (56 FR 23360), the Nuclear Regulatory Commission (NRC) published its revised standards for protection against radiation (10 CFR 20.1001–20.2401 and the associated appendices). The revised standards for protection against radiation incorporated scientific information and reflected changes in the basic philosophy of radiation protection that had occurred since the promulgation of the original regulations. The revisions conformed the Commission's regulations to the Presidential Radiation Protection Guidance to Federal Agencies for Occupational Exposure and to recommendations of national and international radiation protection organizations. The revised standards for protection against radiation became effective on June 20, 1991. However, NRC licensees were permitted to defer the mandatory implementation of these regulations until January 1, 1993. The deferred implementation date was later extended to January 1, 1994 (August 26, 1992; 57 FR 38586).

However, the May 21, 1991, final rule did not include the telephone number for the NRC Operations Center in the text of the revised standards for protection against radiation. When the superseded standards for protection against radiation are removed from the regulations on January 1, 1994, the phone number will not be contained in the regulatory text of part 20. This final rule will correct this inadvertent omission by inserting the NRC Operations Center telephone number in the text of §§ 20.2201 and 20.2202.

Because these amendments make a minor procedural change that adds a telephone number to an earlier rulemaking action for which public comment was solicited (May 21, 1991; 56 FR 23360), the NRC has determined that good cause exists to dispense with the notice and comment provisions of the Administrative Procedure Act (APA) pursuant to 5 U.S.C. 553(b)(B). For the same reason, the NRC has determined that good cause exists to waive the 30-day deferred effective date provisions of the APA (5 U.S.C. 553(d)).

Environmental Impact: Categorical Exclusion

The NRC has determined that this rule is the type of action described in categorical exclusion 51.22(c)(2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

Paperwork Reduction Act Statement

This final rule does not contain a new or amended information collection requirement subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). Existing requirements were approved by the Office of Management and Budget, approval number 3150–0014.

Regulatory Analysis

This final rule is administrative in that it adds an inadvertently omitted telephone number to the text of an existing regulation. These amendments will not have a significant impact. Therefore, the NRC has not prepared a separate regulatory analysis for this final rule. The final regulatory analysis for the May 21, 1991, final rule examined the costs and benefits of the alternatives considered by the Commission in developing the revised standards for protection against radiation and is available for inspection in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington DC.

Backfit Analysis

The NRC has determined that the backfit rule, 10 CFR 50.109, does not apply to this final rule and, therefore, that a backfit analysis is not required for this final rule because these amendments do not involve any provision that would impose backfits as defined in 10 CFR 50.109(a)(1).

List of Subjects in 10 CFR Part 20

Byproduct material, Criminal penalties, Licensed material, Nuclear materials, Nuclear power plants and reactors, Occupational safety and health, Packaging and containers, Radiation protection, Reporting and recordkeeping requirements, Special nuclear material, Source material, Waste treatment and disposal.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 552 and 553, the NRC is adopting the following amendments to 10 CFR part 20.

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

1. The authority citation for part 20 is revised to read as follows:

Authority: Secs. 53, 63, 65, 81, 103, 104, 161, 182, 186, 68 Stat. 930, 933, 935, 936, 937, 948, 953, 955, as amended (2 U.S.C. 2073, 2093, 2095, 2111, 2133, 2134, 2201, 2232, 2236), secs. 201, as amended, 202, 206, 88 Stat. 1242, as amended, 1244, 1246 (42 U.S.C. 5841, 5842, 5846).

2. In § 20.2201, paragraph (a)(2)(ii) is revised to read as follows:

§ 20.2201 Reports of theft or loss of licensed material.

(a) * * *

(2) * * *

(ii) All other licensees shall make reports by telephone to the NRC Operations Center (301–951–0550).

* * * * *

3. In § 20.2202, paragraph (d)(2) is revised to read as follows:

§ 20.2202 Notification of incidents.

* * * * *

(d) * * *

(2) All other licensees shall make the reports required by paragraphs (a) and (b) of this section by telephone to the NRC Operations Center (301–951–0550) and by telegram, mailgram, or facsimile to the Administrator of the appropriate NRC Regional Office listed in appendix D to this part.

* * * * *

Dated at Rockville, Maryland, this 22nd day of December 1993.

For the Nuclear Regulatory Commission.

James M. Taylor,

Executive Director for Operations.

[FR Doc. 93–31844 Filed 12–29–93; 8:45 am]

10 CFR Part 52

RIN 3150–AE42

Combined Licenses; Conforming Amendments; Response to Post-Promulgation Comment

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule: comment response.

SUMMARY: The Nuclear Regulatory Commission (NRC or Commission) is addressing the one comment that was received after issuance of the final rule that amended the regulations concerning combined licenses to incorporate changes required by licensing reform legislation. This notice is necessary to inform the public of the NRC's response to this post-promulgation comment.

DATES: The final rule became effective January 22, 1993. Comments were due by February 22, 1993.

FOR FURTHER INFORMATION CONTACT: Grace H. Kim, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone 301–504–3605.

SUPPLEMENTARY INFORMATION:

Background

In 1992 Congress passed, and the President signed, the Energy Policy Act of 1992 (Pub. L. 102–486, 106 Stat. 2776). Title XXVIII of that Act amended (in part) the nuclear power plant licensing provisions of the Atomic Energy Act. The new legislation largely codified existing NRC regulations in 10 CFR part 52. It also made several changes in the part 52 licensing process.

Accordingly, on December 23, 1992 (57 FR 60975), the Commission issued a final rule amending part 52 to "incorporate[] all the changes to these provisions that are necessary because of the enactment of licensing reform legislation." The Commission found prior public comment on the new amendments unnecessary because the "changes are limited to incorporating the language of [the Energy Policy Act] into the regulations." *Id.* The Commission invited comment by "any interested member of the public who believes that the Commission has not accurately conformed part 52 to the Energy Policy Act." *Id.*

When the Commission issues a final rule without notice and comment it is required, under 10 CFR 2.804(f), to provide a 30-day "post-promulgation" comment period and to publish, in the **Federal Register**, an evaluation of the comments and any revisions of the rule made as a result of the comments and their evaluation.

Only one comment was received. It was submitted on February 22, 1993, by the Nuclear Management and Resources Council ("NUMARC"). The NUMARC comment, while "agree[ing]" that the part 52 amendments "incorporate the relevant language of title XXVIII of the Energy Policy Act," sought "clarification" of "certain ambiguities" created by the "literal transcription." The NRC is not revising 10 CFR part 52 as a result of the comment and its evaluation.

Analysis of Public Comment

The Commission sees no need to alter the amended part 52; but, pursuant to 10 CFR 2.804(f), offers the following response to the four points made in NUMARC's comment letter.

1. Section 52.99, Inspection During Construction

NUMARC is concerned that the amended language of 10 CFR 52.99, which incorporates section 2801 of title XXVIII of the Energy Policy Act of 1992, will require the Commission itself, rather than the NRC staff, to oversee the ITAAC process (*i.e.*, the inspections, tests, analyses and acceptance criteria required for plant operation under part 52). The statutory language and the amended regulation state that after issuance of a combined license, "the Commission shall ensure that the required inspections, tests and analyses are performed, as well as find, prior to operation of the facility, that the prescribed acceptance criteria are met." The original part 52 specified that the NRC staff would oversee the ITAAC process.

Statutory or regulatory references to the "Commission" are commonly understood to allow the Commission to act through its staff. Here, NUMARC is correct in its understanding that the change in the wording of § 52.99 to incorporate the language of the Energy Policy Act does not alter the role of the NRC staff. The NRC staff will have principal responsibility for overseeing the ITAAC process. Assigning this day-to-day role to the Commissioners themselves would be entirely unworkable. The Commission itself remains responsible under the amended § 52.99, as it was under the original part 52, for the ultimate finding that the acceptance criteria have been met. See 10 CFR 52.103(g).

2. Section 52.103, Operation Under Combined License

NUMARC requested that the Commission amend 10 CFR 52.103 to specifically incorporate 5 U.S.C. 554(a)(3), a section of the Administrative Procedure Act (APA) exempting certain agency decisions (those resting "solely on inspections, tests, or elections") from formal APA procedural requirements. That provision was cited in the original version of part 52.

In revising § 52.103, the Commission essentially tracked the language used by Congress in the Energy Policy Act. Congress did not cross-reference the APA in that Act, and neither does the revised § 52.103. No cross-reference is necessary to invoke the APA, which unquestionably applies to NRC licensing proceedings under part 52. See 42 U.S.C. 2231. Thus, § 52.103's failure to mention the APA's "inspections or tests" exemption does not prevent applying the exemption in appropriate situations.

3. Section 52.97, Issuance of Combined License

NUMARC agrees that the NRC properly interpreted section 2804 of the Energy Policy Act to make the so-called "Sholly" procedure applicable to combined licenses. The "Sholly" approach allows the Commission to make an amendment to a combined license immediately effective (*i.e.*, prior to a hearing) if it makes a finding that there are no significant hazards considerations. The Commission altered the language of 10 CFR 52.97 to reflect this express statutory authority. Because NUMARC's comment embraces § 52.97 as sound law, and suggests no change in it, no further response is necessary.

4. Statement of Considerations on § 52.97

NUMARC expresses reservations about language in the statement of considerations on the revised 10 CFR 52.97 stating that the Commission "will not look with favor upon license amendments to the combined license filed shortly before planned operation that could have the effect of undermining standardization or changing the scope of imminent or pending hearings on conformance issues." 57 FR at 60976. NUMARC agrees that the "Sholly provisions should not * * * be used as a subterfuge for eliminating contested issues in a pending § 52.103 hearing on acceptance criteria performance," but fears that the Commission's "overly broad" language may discourage a licensee from applying for a license amendment to permit "a late-occurring minor noncompliance" with an acceptance criterion. NUMARC indicates that reworking the project to avoid the minor noncompliance may be undesirable "from both a cost and safety standpoint."

The Commission finds the language in the statement of considerations appropriate. It merely reiterates the Commission's longstanding commitment to standardization evident throughout the statement of considerations on the original part 52. See 54 FR 15372 (1989). The language does not disfavor all license amendments, only those that would undermine standardization or change the scope of pending hearings. A license amendment to deal with a "minor noncompliance" likely would not fall in those categories.

List of Subjects in 10 CFR Part 52

Administrative practice and procedure, Antitrust, Backfitting, Combined license, Early site permit, Emergency planning, Fees, Inspection, Limited work authorization, Nuclear power plants and reactors, Probabilistic risk assessment, Prototype, Reactor siting criteria, Redress of site, Reporting and recordkeeping requirements, Standard design, Standard design certification.

Dated at Rockville, Maryland, this 22d day of December 1993.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590–01–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 93–NM–102–AD; Amendment 39–8772; AD 93–25–06]

Airworthiness Directives; Boeing Model 767 Series Airplanes Equipped With Over-Wing Escape Slides

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Boeing Model 767 series airplanes equipped with over-wing escape slides, that requires modification of the trailing edge panels and the aft flaps. This amendment is prompted by the results of functional tests of over-wing escape slides, which revealed that some slides were damaged when they were deployed across sharp corners on the trailing edge of the wing and the large gaps between the trailing edge panels of the wing. The actions specified by this AD are intended to prevent damage to the over-wing escape slide, which could hinder inflation of the slide to a usable configuration during an emergency evacuation.

DATES: Effective January 31, 1994.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of January 31, 1994.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124–2207. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Jayson Claar, Aerospace Engineer, Airframe Branch, ANM–120S, FAA, Transport Airplane Directorate, Seattle Aircraft Certification Office, 1601 Lind Avenue, SW., Renton, Washington 98055–4056; telephone (206) 227–2784; fax (206) 227–1181.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Boeing Model 767 series airplanes equipped with over-wing escape slides was published in the **Federal Register** on August 10, 1993 (58 FR 42513). That action proposed to require modification of the trailing edge panels and the aft flaps.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter supports the proposed rule.

The manufacturer states that the proposed rule is unwarranted because, contrary to the statement of unsafe condition in the proposal, in all five instances in which sharp corners caused damage to the over-wing escape slides, none of the escape slides was rendered unusable. From that comment, the FAA infers that the commenter is requesting that the proposal be withdrawn. The FAA does not concur. Although there have been no reported cases of unusable escape slides, the potential for escape slides to deploy into an unusable configuration still exists until the sharp corners on the wing are eliminated. Furthermore, in the event of damage to either the lower or the upper inflation chamber, the effectiveness of the slide would be severely reduced since only the remaining chamber would be capable of full inflation. This AD action addresses that potential unsafe condition.

One commenter requests that the proposed 15-month compliance time to accomplish the modification of the trailing edge panels and the aft flaps be shortened to six months. This commenter suggests that the proposed compliance time may be too long to fly with a potential for damaged over-wing escape slides that may delay or impede passengers during an emergency evacuation. The FAA does not concur with the need for a shorter compliance time. In developing an appropriate compliance time, the FAA considered the safety implications, parts availability, and normal maintenance schedules for timely accomplishment of the modifications. The proposed compliance time of 15 months was determined to be appropriate in consideration of these factors.

Two commenters request that the 15-month proposed compliance time be extended to coincide with operators'

regularly scheduled maintenance, which ranged from 18 months to 24 months. The FAA does not concur with these commenters' requests to extend the compliance time. In developing an appropriate compliance time for this action, the FAA considered the degree of urgency associated with addressing the subject unsafe condition, the availability of required parts, the practical aspect of installing the required modification within a maximum interval of time allowable for all affected airplanes to continue to operate without compromising safety, and the average regular maintenance interval for the majority of the affected operators. In consideration of these items, as well as the reports of damage to slides during functional tests, the FAA has determined that 15 months represents the maximum interval of time allowable wherein the modifications can reasonably be accomplished and an acceptable level of safety can be maintained. However, under the provisions of paragraph (b) of the final rule, operators may apply for an alternative method of compliance or adjustment of the compliance time by presenting data to the FAA to justify such an extension.

One commenter requests clarification as to how the requirements of Airworthiness Directive (AD) 91–15–13, Amendment 39–7077 (56 FR 34019, July 25, 1991) relate to the requirements of this AD. Specifically, AD 91–15–13, which references Boeing Service Bulletin 767–27–0104, requires modification of the inboard edges of the rub strip on the inboard spoilers. This modification is also described in Boeing Service Bulletin 767–57–0043, which is referenced in the proposal. The FAA concurs that clarification is necessary. On April 13, 1992, the FAA issued AD 92–10–01, Amendment 39–8234 (57 FR 19529, May 7, 1992) to supersede AD 91–15–13. Note 1 in paragraph (a) of the final rule has been revised to clearly state that modification of the inboard edges of the rub strip on the inboard spoilers, previously accomplished in accordance with AD 92–10–01, does not have to be repeated to comply with the requirements of this AD.

Since the issuance of the Notice of Proposed Rulemaking (NPRM), the FAA has reviewed and approved Boeing Service Bulletin 767–57–0043, Revision 2, dated September 16, 1993. This revision to the service bulletin merely corrects minor typographical errors contained in Revision 1, dated May 6, 1993, that was referenced in the NPRM. Therefore, paragraph (a) of the final rule has been revised to reference Revision 2 as an additional source of service information.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 476 Boeing Model 767 series airplanes of the affected design in the worldwide fleet. The FAA estimates that 166 airplanes of U.S. registry will be affected by this AD, that it will take approximately 40 work hours per airplane to accomplish the required actions, and that the average labor rate is $55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $365,200, or $2,200 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

93–25–06 Boeing: Amendment 39–8772. Docket 93–NM–102–AD.

Applicability: Model 767 series airplanes, equipped with over-wing escape slides, line positions 1 through 476 inclusive; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent damage to the over-wing escape slide, which could hinder inflation of the slide to a usable configuration during an emergency evacuation, accomplish the following:

(a) Within 15 months after the effective date of this AD, modify the trailing edge panels and the aft flaps, in accordance with Boeing Service Bulletin 767–57–0043, Revision 1, dated May 6, 1993; or Revision 2, dated September 16, 1993.

Note 1: Portions of the modification required by this AD (to modify the inboard edges of the rub strip on the inboard spoilers) are required by AD 92–10–01, Amendment 39–8234, which references Boeing Service Bulletin 767–27–0104, Revision 2, dated September 12, 1991. As allowed by the phrase, "unless accomplished previously," if the requirements of that AD have already been accomplished, this AD does not require that those portions of the modification be repeated.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The modification shall be done in accordance with Boeing Service Bulletin 767–57–0043, Revision 1, dated May 6, 1993; or Boeing Service Bulletin 767–57–0043, Revision 2, dated September 16, 1993. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124–2207. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on January 31, 1994.

Issued in Renton, Washington, on December 13, 1993.

Bill R. Boxwell,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

FEDERAL TRADE COMMISSION

16 CFR Part 436

Trade Regulation Rule; Disclosure Requirements and Prohibitions Concerning Franchising and Business Opportunity Ventures

AGENCY: Federal Trade Commission.

ACTION: Notice of Commission action to vacate extension effecting stay.

SUMMARY: After reviewing the evidence and comment submitted in response to an Advance Notice of Proposed Rulemaking (ANPR), the Federal Trade Commission has decided not to initiate a rulemaking to amend the earnings claim and preemption provisions of its Franchise Rule (16 CFR part 436). The ANPR was published on February 16, 1989 (54 FR 7041), and the record for public comment was reopened for receipt of additional evidence and comment on September 22, 1989 (54 FR 39000), and again on February 13, 1991 (56 FR 5783).

The Commission has also determined that the extension of time issued on February 16, 1989 (54 FR 7041) which effected a stay of its order published June 15, 1987 (52 FR 22686), requiring franchisors that have chosen to use the Uniform Franchise Offering Circular ("UFOC") to comply with the Franchise Rule to follow the revised UFOC earnings claim requirements by January 1, 1989, is no longer necessary to prevent inconsistent state and federal compliance obligations. Accordingly, the Commission is vacating the stay, and franchisors wishing to use the UFOC to comply with the Franchise Rule must now comply with the UFOC Guidelines as revised by the North American Securities Administrators' Association on November 21, 1986.

DATES: The Commission's action vacating the extension is effective as of December 30, 1993, and applies to any annual revision, amendment to reflect a material change, or quarterly update prepared on or after December 30, 1993.

ADDRESSES: Any questions about Franchise Rule compliance obligations arising from this notice should be addressed to Franchise Rule Staff, Division of Marketing Practices, Federal Trade Commission, Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: Lawrence H. Norton, Assistant Director, Division of Marketing Practices, PC–H–238, Federal Trade Commission, Washington, DC 20580 (202) 326–3128.

SUPPLEMENTARY INFORMATION: On February 16, 1989, the Commission issued an Advance Notice of Proposed Rulemaking ("ANPR") requesting public comment on whether or not it should initiate a rulemaking proceeding to amend the earnings claim and preemption provisions of its Trade Regulation Rule on Disclosure Requirements and Prohibitions Concerning Franchising and Business Opportunity Ventures ("Franchise Rule") (16 CFR part 436). The Commission extended the initial 60-day comment period for an additional 60 days on April 12, 1989 (54 FR 14662), and granted a request from the International Franchise Association ("IFA") for a subsequent reopening of the record for an additional 60 days on September 22, 1989 (54 FR 39000). After reviewing the 220 submissions received, the Commission was not persuaded that an amendment proceeding on either the earnings claim or preemption issue would be in the public interest, but decided to reopen the record once more to obtain additional evidence not then available

In a notice issued February 13, 1991 (56 FR 5783), the Commission announced a reopening of the record for receipt of further evidence and comment until August 6, 1992, to permit sufficient time for studies to be conducted and submitted on the effect of new streamlined earnings claim requirements of the Uniform Franchise Offering Circular ("UFOC"), a disclosure format franchisors may use in lieu of the Franchise Rule disclosure format to comply with federal and state disclosure requirements. The Commission also requested "the best evidence available" of "the nature and pervasiveness of any inconsistencies in state [registration and disclosure] requirements," and sought to encourage the submission of deficiency letters that would demonstrate any conflicts or inconsistencies by authorizing their inclusion in the record in redacted form to shield the identity of the franchisor, its law firm and the state official who issued the letter.

Ten submissions were received during the reopening, six of which provided new data or evidence. One, a study which included comparative data on the use of earnings claims in disclosures filed in the State of Maryland before and after the streamlined UFOC earnings claim requirements took effect, showed what the authors termed a "modest" three percent increase overall in the availability of pre-sale earnings information to potential franchise purchasers that might be attributed to the revised UFOC earnings disclosure requirements.[1] The reopening produced no other studies or comments relevant to the question of whether the public interest would be served by amendment of the Franchise Rule to provide a comparable simplification of its earnings claim disclosure provisions, as the initial comments had advocated.

Three submissions on the preemption issue during the reopening provided a total of only seven deficiency letters to support the contention of the American Bar Association and others that pervasive conflicts and inconsistencies in state registration and disclosure requirements create a compelling need for amendment of the preemption provision of the Franchise Rule.[2] None of the deficiency letters, nor any of the other evidence and comment submitted prior to or during the reopening, demonstrates that a direct conflict exists in which one state requires a disclosure that another will not permit. To the extent that the submissions demonstrate any inconsistencies among state laws, the laws involved primarily deal with the franchise relationship rather than pre-sale disclosure.

The one conflict of record occurred between federal and state disclosure requirements. It arose when two states did not adopt the revised UFOC earnings claim requirements by January 1, 1991, the date on which franchisors using the UFOC for compliance with the Franchise Rule were required to use only the revised requirements. The two states have since acted to permit the use of the revised earnings claim requirements in their respective jurisdictions, and the conflict is now moot.

[1] W. Lewis & M. Forseth, Earnings Claim Study (1987–1991): A Study of Franchisors Registered in Illinois and Maryland (Final Report, May 11, 1992).

[2] The comment, prepared by the ABA Antitrust Section, was endorsed by the House of Delegates as ABA policy, and by the Governing Committee of the ABA Forum Committee on Franchising. The IFA, a trade association representing some 650 business-format franchisors, advanced similar arguments in a prior submission, but did not submit evidence or comment during the reopening.

VOL 58 ISS 249 DEC 30 1993 UMI

Accordingly, the Commission is vacating the stay issued to permit franchisors to avoid the conflict by continuing to use the original UFOC earnings claim requirements to comply with the Rule. All new franchise disclosures, annual revisions, amendments to reflect a material change and quarterly updates prepared on or after December 30, 1993, must comply with the revised earnings claim requirements in Item 19 of the UFOC Guidelines issued by the North American Securities Administrators' Association on November 21, 1986.

Having reviewed the entire record, the Commission is not persuaded that a rulemaking to amend the earnings claim or preemption provisions of the Franchise Rule would be in the public interest. The available evidence does not indicate that revision of the earnings claim requirements of the Franchise Rule would be reasonably likely to enhance the accessibility of franchise earnings information in the marketplace to a significant extent, and there is no evidence of a direct conflict among state registration and disclosure requirements. Moreover, the very limited response to the Commission's invitation to the industry to develop an evidentiary record of deficiency letters suggests that any inconsistencies in state registration and disclosure requirements are neither so significant nor pervasive as to be reasonably likely to demonstrate a compelling need for preemption.

By direction of the Commission.

Donald S. Clark,

Secretary.

BILLING CODE 6750–01–M

16 CFR Part 436

Trade Regulation Rule; Disclosure Requirements and Prohibitions Concerning Franchising and Business Opportunity Ventures

AGENCY: Federal Trade Commission.

ACTION: Authorization for use of disclosures prepared in compliance with amended Uniform Franchise Offering Circular Guidelines in lieu of disclosures required by the Commission's Franchise Rule.

SUMMARY: The Commission has approved the use, as of January 1, 1994, of disclosures prepared in accordance with amended Uniform Franchise Offering Circular Guidelines adopted by the North American Securities Administrators Association on April 25, 1993, for compliance with the pre-sale disclosure requirements of the Commission's Franchise Rule (16 CFR 436.1(a)–(e)).

DATES: Franchisors may use disclosures prepared in accordance with either the present or amended Uniform Franchise Offering Circular Guidelines as of January 1, 1994. Authorization to prepare disclosures that comply with the present UFOC Guidelines is revoked effective six months to the day after the date on which the last state requiring pre-sale registration of a franchise permits the use of the amended Guidelines. UFOC disclosures required to be prepared, amended, revised or filed on and after the revocation date by the Rule or state law must satisfy the requirements of the UFOC Guidelines as amended by NASAA on April 25, 1993, for use in compliance with the Franchise Rule.

ADDRESSES: Questions about Franchise Rule compliance obligations arising from this notice should be addressed to Franchise Rule Staff, Division of Marketing Practices, Federal Trade Commission, Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: Lawrence H. Norton, Assistant Director, Division of Marketing Practices, PC–H–238, Federal Trade Commission, Washington, DC 20580 (202) 326–3128.

SUPPLEMENTARY INFORMATION: The Commission's trade regulation rule entitled "Disclosure Requirements and Prohibitions Concerning Franchising and Business Opportunity Ventures" ("Franchise Rule" or "Rule") (16 CFR part 436) requires franchisors to provide pre-sale disclosures of material information to prospective franchisees. The form and content of the required disclosures is prescribed by §§ 436.1(a)–(e) of the Rule.

When the Rule was issued, the Commission authorized the use of an alternative disclosure format, known as the Uniform Franchise Offering Circular ("UFOC"), in lieu of the disclosures required by §§ 436.1(a)–(e) of the Rule (43 FR 59614, 59722). The UFOC had been prepared by state franchise law administrators to enable franchisors to use a single document to comply with the differing pre-sale disclosure requirements of the franchise registration and disclosure laws in their jurisdictions.

The Commission's initial approval of the UFOC extended only to disclosures that complied with the UFOC Guidelines as adopted by the Midwest Securities Commissioners Association ("MSCA") on September 5, 1975 (44 FR 49966, 49970). The Commission subsequently granted a petition from the MSCA's successor, the North American Securities Administrators Association (NASAA), for approval of amendments to the UFOC Guidelines that NASAA had adopted on November 27, 1986 (52 FR 22686).

In a request filed July 2, 1993, NASAA now has asked that the Commission approve new amendments to the UFOC Guidelines adopted on April 25, 1993 (Extra Edition, Bus. Fran. Guide (CCH), Rpt. No. 161 (May 25, 1993)). Unlike the limited 1986 revisions, which principally affected the UFOC earnings claim requirements, the new amendments are the product of a comprehensive revision of the UFOC Guidelines. They include significant changes and additions to the present Guidelines, most notably the requirement that UFOC disclosure documents use "plain English."

In issuing the Franchise Rule, the Commission recognized that although the UFOC and the Rule are "substantively similar in content," there are "certain areas in which the UFOC requires more disclosure than the Commission's Rule, and certain areas where the Commission's Rule requires more disclosure than the UFOC." After analyzing the differences between the two disclosure formats, however, the Commission proceeded to approve the present UFOC upon finding that, "viewed as a whole, * * * compliance with the UFOC disclosures results in protection to prospective franchisees equal to or greater than that provided by [the] Rule" (43 FR at 59722).

Having conducted a thorough review and analysis of the new amendments to the UFOC Guidelines, the Commission finds that, viewed as a whole, they provide prospective franchisees with protection equal to or greater than that provided by the Franchise Rule. Accordingly, the Commission is authorizing the use of disclosures prepared in accordance with the UFOC Guidelines, as amended by NASAA on April 25, 1993, in lieu of the disclosures required by Sections 436.1(a)–(e) of the Franchise Rule, as of January 1, 1994. This authorization remains subject to the conditions the Commission previously has articulated for use of the UFOC disclosure format for compliance with the Franchise Rule (43 FR at 59723 n.232; 44 FR at 49970–71).

Section 265 of the General Instructions to the amended UFOC Guidelines provides that the new requirements will take effect "six months after the Federal Trade Commission and each NASAA member whose jurisdiction requires pre-sale registration of a franchise adopts them," but "no late than January 1, 1995." The provision specifies that, thereafter, "all

initial franchise applications, renewals and re-registrations must comply with these Guidelines."

In the interest of uniformity, the Commission is accommodating the implementation timetable provided by the amended UFOC Guidelines by authorizing the use, as of January 1, 1994, of disclosures prepared in accordance with the amended UFOC Guidelines, and revoking its prior authorization for preparation of disclosures in accordance with the present UFOC Guidelines effective six months to the day after the date on which the last state requiring pre-sale registration of a franchise adopts the amended UFOC Guidelines. UFOC disclosures required to be prepared, amended, revised or filed on and after the revocation date by the Rule or state law must satisfy the requirements of the UFOC Guidelines as amended by NASAA on April 25, 1993, for use in compliance with the Franchise Rule.

By direction of the Commission.

Donald S. Clark,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 240

[Release No. 34–33371; IC–19881]

RIN 3235–AG01

Elimination of Filing Requirements for Preliminary Proxy Materials Under Certain Circumstances

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Securities and Exchange Commission ("Commission") has adopted amendments to the proxy and information statement filing requirements. The amendments broaden the exclusion from the preliminary filing requirement to include shareholder action on new compensation plans as well as amendments to existing plans. These amendments codify a prior interpretation regarding amendments to existing plans and extend this position to the submission of new compensation plans for shareholder action. The amendments relieve registrants and the Commission of unnecessary administrative burdens and processing costs associated with the filing and processing of proxy materials currently the subject of selective review procedures, but which are not ordinarily selected for review in preliminary form.

EFFECTIVE DATE: These rules are effective on December 30, 1993.

FOR FURTHER INFORMATION CONTACT: Gregg W. Corso, Paula Dubberly, Brian L. Henry or Thomas D. Twedt, (202) 272–3097, Division of Corporation Finance, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549.

SUPPLEMENTARY INFORMATION: The Commission has adopted an amendment to Rule 14a–6[1] and Rule 14c–5[2] of the Securities Exchange Act of 1934 ("Exchange Act").[3] These amendments modify the preliminary filing requirements for proxy and information statements.

I. Amendments to Rule 14a–6 and 14c–5

In a companion release to the recently enacted refining amendments to the executive compensation rules, the Commission proposed to codify a prior interpretation that a proxy or information statement is not subject to the preliminary filing requirement because it relates to shareholder action on amendments to an existing employee benefit plan.[4] In addition, the Commission asked whether this exclusion should be extended to shareholder action on new plans.[5]

This proposal was intended to relieve registrants and the Commission of unnecessary administrative burdens and processing costs associated with the filing and processing of proxy materials currently the subject of selective review procedures, but which are not ordinarily selected for review in preliminary form. In light of the support expressed by commenters for these rule changes, the Commission today is adopting the proposed change and extending its scope to include new plans.[6] The amendments revise Rule 14a–6 and Rule 14c–5 specifically to include approval or ratification of compensation plans or amendments to such plans as exclusions from the preliminary filing requirements.

In responding to the Commission's request for comments on extending the exclusion to new plans, many commenters observed that there is no reason to differentiate between shareholder action on an amendment to an existing plan and action on a new plan. The disclosure requirements for both matters under Regulations 14A and 14C are virtually identical.[7] Moreover, the objectives sought by the adoption of a new plan can generally be achieved through amendment of an existing plan.

The amendment adopted today affects only filing requirements; it does not affect disclosure requirements. As under current practice, definitive materials will still be subject to being selected for review. As previously announced, the staff during the 1994 proxy season plans to review the proxy statements of those registrants who were requested last year to make changes in future filings, as well as proxy statements of additional registrants.[8]

II. Cost Benefit Analysis

No specific data were provided in response to the Commission's request regarding the costs and benefits of these amendments. The Commission believes that the benefits to be gained by amending the proxy and information statement filing requirements outweighs the costs, if any, associated with implementing the proposals.

III. Final Regulatory Flexibility Analysis

The Commission has prepared the following Final Regulatory Flexibility Analysis in accordance with 5 U.S.C. 604.

1. The Commission is proposing amendments to Rules 14a-6 and 14c-5 under the Exchange Act to codify an interpretive position and to eliminate the necessity to file a preliminary proxy or information statement when a new compensation plan is submitted for shareholder approval.

2. No comments were received with respect to the Initial Regulatory Flexibility Analysis.

3. A number of significant alternatives to the proposed amendments have been considered. One alternative would be to provide differing or simplified requirements for small businesses that are based on performance rather than design standards. However, the adoption of performance standards

[4] Release No. 34–33232 (November 29, 1993) (58 FR 63017). The interpretive position extending the exclusion to amendments of existing employee benefit plans was articulated in 1991. Release No. 34–28869 (58 FR 7242) at note 244. See also *Thompson Hine and Flory* (avail. March 29, 1991) (affirming that plan amendments do not trigger the preliminary filing requirements of Rule 14a–6).

[5] *Id.*

[6] The Commission received 12 letters of comment, which may be inspected and copied at the Commission's Public Reference Room, 450 Fifth Street, NW., Washington, DC 20549, File No. S7–31–93.

[7] Item 10, Schedule 14A (17 CFR 240.14a-101).

[8] Release No. 33–7032 (November 29, 1993) (58 FR 63010); see also *Procedures for Early Staff Review of Executive Compensation Disclosure*, SEC News Digest, Issue 93–235 (December 8, 1993).

would not be consistent with the Commission's statutory mandate to require disclosure to investors of material information necessary to make informed investment decisions. The amendments clarify and broaden an interpretation that simplifies reporting requirements for all registrants, including small businesses. Other alternatives would involve the establishment of different compliance or reporting requirements or timetables to take into account the resources available to small businesses and to provide an exemption from coverage of the provisions for small businesses. Since the amendments impose no added burden on small business issuers, different treatment is not warranted.

IV. Effective Date

The amendments to Rules 14a–6 and 14c–5 shall be effective upon publication in the **Federal Register**. This date is less than 30 days after publication in the **Federal Register** in accordance with the Administrative Procedures Act, which allows effectiveness in less than 30 days after publication for, *inter alia*, "a substantive rule which grants or recognizes an exemption or relieves a restriction." 5 U.S.C. 553(d)(1).

V. Statutory Basis

The amendments contained herein are being proposed pursuant to sections 12, 13, 14(a), 15(d) and 23(a) of the Exchange Act.

Reporting and recordkeeping requirements, Securities.

Text of Amendment

In accordance with the foregoing, title 17, chapter II of the Code of Federal Regulations is amended as follows:

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

1. The authority citation for part 240 continues to read in part as follows:

Authority: 15 U.S.C. 77c, 77d, 77g, 77j, 77s, 77eee, 77ggg, 77nnn, 77sss, 77ttt, 78c, 78d, 78i, 78j, 78l1, 78m, 78n, 78o, 78p, 78s, 78w, 78x, 78l/(d), 79q, 79t, 80a–20, 80a–23, 80a–29, 80a–37, 80b–3, 80b–4 and 80b–11, unless otherwise noted.

* * * * *

2. By amending § 240.14a–6 by revising paragraph (a) and the undesignated paragraph preceding the notes to read as follows:

§ 240.14a–6 Filing requirements.

(a) *Preliminary proxy statement.* Five preliminary copies of the proxy statement and form of proxy shall be filed with the Commission at least 10 calendar days prior to the date definitive copies of such material are first sent or given to security holders, or such shorter period prior to that date as the Commission may authorize upon a showing of good cause thereunder. A registrant, however, shall not file with the Commission a preliminary proxy statement, form of proxy or other soliciting material to be furnished to security holders concurrently therewith if the solicitation relates to an annual (or special meeting in lieu of the annual) meeting, or for an investment company registered under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) or a business development company, if the solicitation relates to any meeting of security holders at which the only matters to be acted upon are:

(1) The election of directors;

(2) The election, approval or ratification of accountant(s);

(3) A security holder proposal included pursuant to Rule 14a–8 (§ 240.14a–8 of this chapter);

(4) The approval or ratification of a plan as defined in paragraph (a)(7)(ii) of Item 402 of Regulation S–K (§ 229.402(a)(7)(ii) of this chapter) or amendments to such a plan;

(5) With respect to an investment company registered under the Investment Company Act of 1940 or a business development company, a proposal to continue, without change, any advisory or other contract or agreement that previously has been the subject of a proxy solicitation for which proxy material was filed with the Commission pursuant to this section; and/or

(6) With respect to an open-end investment company registered under the Investment Company Act of 1940, a proposal to increase the number of shares authorized to be issued.

This exclusion from filing preliminary proxy material does not apply if the registrant comments upon or refers to a solicitation in opposition in connection with the meeting in its proxy material.

* * * * *

3. By amending § 240.14c–5 to revise paragraph (a) and the undesignated paragraph preceding the notes to read as follows:

§ 240.14c–5 Filing requirements.

(a) *Preliminary information statement.* Five preliminary copies of the information statement shall be filed with the Commission at least 10 calendar days prior to the date definitive copies of such statement are first sent or given to security holders, or such shorter period prior to that date as the Commission may authorize upon a showing of good cause therefor. In computing the 10-day period, the filing date of the preliminary copies is to be counted as the first day and the 11th day is the date on which definitive copies of the information statement may be mailed to security holders. A registrant, however, shall not file with the Commission a preliminary information statement if it relates to an annual (or special meeting in lieu of the annual) meeting, of security holders at which the only matters to be acted upon are:

(1) The election of directors;

(2) The election, approval or ratification of accountant(s);

(3) A security holder proposal identified in the registrant's information statement pursuant to Item 4 of Schedule 14C (§ 240.14c–101); and/or

(4) The approval or ratification of a plan as defined in paragraph (a)(7)(ii) of Item 402 of Regulation S–K (§ 229.402(a)(7)(ii) of this chapter) or amendments to such a plan.

This exclusion from filing a preliminary information statement does not apply if the registrant comments upon or refers to a solicitation in opposition in connection with the meeting in its information statement.

* * * * *

Dated: December 23, 1993.

By the Commission.

Margaret H. McFarland,

Deputy Secretary.

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Part 655

RIN 1205–AA89

Wage and Hour Division

29 CFR Part 507

RIN 1215–AA69

Labor Condition Applications and Requirements for Employers Using Aliens on H–1B Visas in Specialty Occupations and as Fashion Models

AGENCIES: Employment and Training Administration, Labor, and Wage and Hour Division, Employment Standards Administration, Labor.

ACTION: Interim final rule.

SUMMARY: In order to implement procedural requirements applicable to the temporary entry of nonimmigrant professionals into the United States from Mexico pursuant to transition provisions of the North American Free Trade Agreement (NAFTA), the Department of Labor (Department or DOL) is amending its regulations promulgated under the Immigration and Nationality Act (INA). Under the terms of NAFTA, employers will be required to file an attestation, in the case of registered nurses, and a labor condition application, in the case of all other professions set out in Appendix 1603.D.1 of Annex 1603 of NAFTA, supplying the information mandated under INA section 212 ((m) and (n), respectively).

This rule implements the provisions of NAFTA pertaining to the employment of Mexican citizens as professionals other than registered nurses, pursuant to the regulations implementing section 212(n) of the INA. By a separate rule to be published in the **Federal Register**, the regulations promulgated under section 212(m) of the INA, pertaining to facilities using nonimmigrants as registered nurses under H–1A visas, are also being amended to implement these provisions of NAFTA.

EFFECTIVE DATE: Effective on the date the NAFTA enters into force with respect to the United States, which is January 1, 1994, on an exchange of written notifications certifying completion of necessary legal procedures. The Department will publish a document in the **Federal Register** confirming the effective date.

FOR FURTHER INFORMATION CONTACT: On 20 CFR part 655, subpart H, and 29 CFR part 507, subpart H, regarding the labor attestation and labor condition application procedures, contact Patrick Stange, Division of Foreign Labor Certification, U.S. Employment Service, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW., room N–4456, Washington, DC 20210. Telephone: (202) 219–5263 (this is not a toll-free number).

On 20 CFR part 655, subpart I, and 29 CFR part 507, subpart I, regarding the enforcement process, contact Solomon Sugarman, Wage and Hour Division, Employment Standards Administration, Department of Labor, 200 Constitution Avenue, NW., room S–3510, Washington, DC 20210. Telephone: (202) 219–7605 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION:

I. Paperwork Reduction Act

This regulation contains no reporting or recordkeeping requirements subject to the Paperwork Reduction Act. The information collection requirements contained in the regulations currently in effect under the Department's H–1B program were previously submitted to the Office of Management and Budget (OMB) and assigned OMB Control No. 1205–0310.

II. Background

The North American Free Trade Agreement (NAFTA) has been implemented by the U.S. Congress through legislation. NAFTA Implementation Act, Pub. L. 103–182, 107 Stat. 2057 (December 8, 1993). This legislation prescribes certain procedures for the temporary entry of Mexican professionals as nonimmigrants for employment in the United States. *Ibid.* at section 341(a) and (b).

Under the provisions of Appendix 1603.D.4 of Annex 1603 of the NAFTA, the number of Mexican professionals entering the United States pursuant to Annex 1603, Section D, of the NAFTA is limited to 5,500 annually. This limit may be increased by agreement between Mexico and the United States and will expire 10 years after NAFTA enters into effect, unless the two countries decide to remove the limit earlier. This limit is separate from the 65,000 annual limit on admissions under H–1B visas established by section 214(g)(1)(A) of the INA.

As authorized by Annex 1603, Section D, paragraph 5(b), of the NAFTA and section 341 of the NAFTA Implementation Act, during the period that the transition provisions of Appendix 1603.D.4 of Annex 1603 of the NAFTA are in effect, Mexican professionals will be subject to the attestation requirements of section 212(m) of the INA in the case of a registered nurse, and the labor condition application requirements of section 212(n) of the INA in the case of all other professionals as set out in Appendix 1603.D.1 of Annex 1603 of NAFTA. See 8 U.S.C. 1182(m) and § 1182(n). Mexican professionals' entry into the United States under these provisions of NAFTA neither forecloses nor establishes their eligibility for entry under other similar provisions of the INA.

In order to implement its responsibilities with respect to the admission of Mexican professionals during the transition period provided under the NAFTA, the Department will require health care facilities seeking to use the services of Mexican registered nurses to file H–1A labor attestations, and employers seeking to employ Mexican citizens in other professions set out in Appendix 1603.D.1 to file H–1B labor condition applications, under and pursuant to applicable regulations implementing section 212(m) and section 212(n) of the INA, at 20 CFR part 655, subparts D and H; 29 CFR part 504, subpart D; and 29 CFR part 507, subpart H (as appropriate). Complaints regarding such attestations and labor condition applications will be processed under and pursuant to existing regulations at 20 CFR part 655, subparts E and I; 29 CFR part 504, subpart E; and 29 CFR part 507, subpart I (as appropriate).

This rule amends the applicability section of the regulations promulgated pursuant to section 212(n) of the INA pertaining to employers using nonimmigrants on H–1B visas in specialty occupations and as fashion models, to extend the procedures to Mexican professionals temporarily entering the United States under the transition provisions of the NAFTA.

Executive Order 12866

This rule is not a "significant regulatory action" within the meaning of Executive Order 12866, in that it is not likely to result in a rule that may: (1) Have an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in Executive Order 12866. Therefore, no regulatory impact analysis has been prepared.

Regulatory Flexibility Analysis

The Department has determined that this regulation will not have a significant economic impact on a substantial number of small entities. The rule is required to implement statutory provisions enacted by the Congress pursuant to the NAFTA, which are largely procedural in nature, or which narrowly extend the scope of the rule to include filing requirements for the temporary entry of Mexican professionals during the transition

period of NAFTA. The Department has certified to this effect to the Chief Counsel for Advocacy of the Small Business Administration. Therefore, no regulatory flexibility analysis is required.

Publication as an Interim Final Rule

The Department has determined that the public interest requires the immediate issuance of this interim final rule. Under the terms of the NAFTA and its enacting legislation, the provisions extending the attestation requirement of section 212(m) of the INA (in the case of a registered nurse) and the labor condition application requirement of section 212(n) of the INA (in the case of all other professions set out in Appendix 1603.D.1 of Annex 1603 of NAFTA) to the temporary entry of Mexican professionals during the transition period under NAFTA take effect on the date the Agreement enters into force with respect to the United States (January 1, 1994, upon an exchange of written notifications certifying the completion of necessary legal procedures). Insufficient time existed since the enactment of the implementing provisions for the Department to issue a proposal for comments, review the comments, and promulgate a final rule to be effective when the underlying statutory provisions take effect. Moreover, under the Administrative Procedure Act, procedural amendments to regulations do not require prior public notice and an opportunity for public comment. The changes being made by this rule do not affect the substantive requirements of the underlying laws or rules; nor do they modify or revoke existing rights or obligations, or create new ones. These technical changes merely apply the applicable regulations in accordance with statutory provisions enacted with respect to NAFTA that extend the scope of the rule to include the temporary entry to Mexican professionals during NAFTA's transition period. Therefore, there is good cause to dispense with public comment on this rule under 5 U.S.C. 553(b)(3)(B).

In addition, for these same reasons, it has been determined that good cause exists for waiving the requirements to delay the effective date of these technical amendments under 5 U.S.C. 553(d). It is impracticable and unnecessary to provide for a delayed effective date because the statutory amendments extending the procedural filing requirements of section 212(m) and section 212(n) of the INA under NAFTA are effective upon NAFTA's entry into force.

Catalog of Federal Domestic Assistance Number

Text of the Interim Final Joint Rule

The text of the interim final joint rule as adopted by ETA and the Wage and hour Division, ESA, appears below:

In § ____.700, paragraph (c) after the heading, "*Applicability*", is redesignated as new paragraph (c)(1) and a new paragraph (c)(2) is added to read as follows:

§ ____.700 Purpose, procedure, and applicability of subparts H and I.

* * * * *

(c) *Applicability.* (1) * * *

(2) During the period that the provisions of Appendix 1603.D.4 of Annex 1603 of the North American Free Trade Agreement (NAFTA) apply, subparts H and I of this part shall apply to the entry of a nonimmigrant who is a citizen of Mexico under and pursuant to the provisions of section D of Annex 1603 of NAFTA in the case of all professions set out in Appendix 1603.D.1 of Annex 1603 of NAFTA other than registered nurses. In the case of a registered nurse, the provisions of 20 CFR part 655, subparts D and E, and 29 CFR part 504, subparts D and E, shall apply.

Adoption of the Interim Final Joint Rule

Accordingly, part 655 of chapter V of title 20, and part 507 of chapter V of title 29 of the Code of Federal Regulations, are amended as follows:

TITLE 20—EMPLOYEES' BENEFITS

PART 655—TEMPORARY EMPLOYMENT OF ALIENS IN THE UNITED STATES

1. The authority citation for 20 CFR part 655 is revised to read as follows:

Authority: Section 655.0 issued under 8 U.S.C. 1101(a)(15)(H) (i) and (ii), 1182(m) and (n), 1184, 1188, and 1288(c); 29 U.S.C. 49 *et seq.*; sec. 3(c)(1), Pub. L. 101–238, 103 Stat. 2099, 2103 (8 U.S.C. 1182 note); sec. 221(a), Pub. L. 101–649, 104 Stat. 4978, 5027 (8 U.S.C. 1184 note); and 8 CFR 214.2(h)(4)(i).

Section 655.00 issued under 8 U.S.C. 1101(a)(15)(H)(ii), 1184, and 1188; 29 U.S.C. 49 *et seq.*; and 8 CFR 214.2(h)(4)(i).

Subparts A and C issued uder 8 U.S.C. 1101(a)(15)(H)(ii)(b) and 1184; 29 U.S.C. 49 *et seq.*; and 8 CFR 214.2(h)(4)(i).

Subpart B issued under 8 U.S.C. 1101(a)(15)(H)(ii)(a), 1184, and 1188; and 29 U.S.C. 49 *et seq.*

Subparts D and E issued under 8 U.S.C. 1101(a)(15)(H)(i)(a), 1182(m), and 1184; 29 U.S.C. 49 *et seq.*; sec. 3(c)(1), Pub. L. 101–238, 193 Stat. 2099, 2103 (8 U.S.C. 1182 note); and sec. 341 (a) and (b), Pub. L. 103–182, 107 Stat. 2057.

Subparts F and G issued under 8 U.S.C. 1184 and 1288(c); and 29 U.S.C. 49 *et seq.*

Subparts H and I issued under 8 U.S.C. 1101(a)(15)(H)(i)(b), 1182(n), and 1184; 29 U.S.C. 49 *et seq.*; sec. 303(a)(8), Pub. L. 102–232, 105 Stat. 1733, 1748 (8 U.S.C. 1182 note); and sec. 341 (a) and (b), Pub. L. 103–182, 107 Stat. 2057.

Subparts J and K issued under 29 U.S.C. 49 *et seq.*; and sec. 221(a), Pub. L. 101–649, 104 Stat. 4978, 5027 (8 U.S.C. 1184 note).

2. Part 655 is amended as set forth in the interim final joint rule above in this document.

TITLE 29—LABOR

CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

PART 507—ENFORCEMENT OF H–1B LABOR CONDITION APPLICATIONS

3. The authority citation for 29 CFR part 507 is revised to read as follows:

Authority: 8 U.S.C. 1101(a)(15)(H)(i)(b), 1182(n), and 1184, and 29 U.S.C. 49 *et seq.*; Pub. L. 102–232, 105 stat. 1733, 1748 (8 U.S.C. 1182 note); and sec. 341 (a) and (b), Pub. L. 103–182, 107 Stat. 2057.

4. Part 507 is amended as set forth in the interim final joint rule above in this document.

Signed at Washington, DC, this 27th day of December, 1993.

Doug Ross,

Assistant Secretary for Employment and Training.

John R. Fraser,

Acting Assistant Secretary for Employment Standards.

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 375

[DoD Directive 5122.5]

Assistant to the Secretary of Defense for Public Affairs; Office Organization and Functions

AGENCY: Office of the Secretary, DoD.

ACTION: Final rule.

SUMMARY: This rule identifies and reflects new organizational and functional arrangements within the Office of the Secretary of Defense.

EFFECTIVE DATE: December 2, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. R. Kennedy, Office of Organizational and Management Planning, 703–697–1142.

SUPPLEMENTARY INFORMATION:

List of Subjects in 32 CFR Part 375

Organizations and functions (government agencies).

Accordingly, 32 CFR part 375 is revised to read as follows:

PART 375—ASSISTANT TO THE SECRETARY OF DEFENSE FOR PUBLIC AFFAIRS

Sec.

375.1 Purpose.
375.2 Applicability.
375.3 Responsibilities and functions.
375.4 Relationships.
375.5 Authorities.

Appendix A to Part 375—Principles of Information

Appendix B to Part 375—Statement of DoD Principles for News Media Coverage of DoD Operations

Authority: 10 U.S.C. 113.

§ 375.1 Purpose.

Pursuant to the authority vested in the Secretary of Defense by 10 U.S.C. 113, this part establishes the position of ATSD(PA), with responsibilities, functions, and authorities of the ATSD(PA) as prescribed in this part.

§ 375.2 Applicability.

This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Unified and Specified Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as "the DoD Components").

§ 375.3 Responsibilities and functions.

The Assistant to the Secretary of Defense (Public Affairs) is the principal staff advisor and assistant to the Secretary and Deputy Secretary of Defense for DoD public information, internal information, the Freedom of Information Act, mandatory declassification review and clearance of DoD information for public release, community relations, information training, and audiovisual matters. In the exercise of this responsibility, the ATSD(PA) shall:

(a) Develop policies, plans, and programs in support of DoD objectives and operations.

(b) Ensure a free flow of news and information to the media, the general public, the internal audiences of the Armed Forces, and other appropriate forums, limited only by national security constraints as authorized by E.O. 12356, 3 CFR, 1982 Comp., p. 166, and statutory mandates. Appendices A and B to this part delineate principles that guide the Department of Defense with respect to media coverage of DoD activities.

(c) Act as the spokesperson and releasing agency for DoD information and audiovisual materials to news media representatives. Evaluate news media requests for DoD support and cooperation and determine appropriate level of DoD participation.

(d) Monitor, evaluate, and develop systems, standards, and procedures for the administration and management of approved policies, plans, and programs.

(e) Issue policy guidance to the DoD Components.

(f) As required, participate with the Comptroller of the Department of Defense in planning, programming, and budgeting activities.

(g) Promote coordination, cooperation, and mutual understanding among DoD Components and with other Federal, State, and local agencies and the civilian community.

(h) Serve on boards, committees, and other groups, and represent the Secretary of Defense outside of the Department of Defense.

(i) Conduct security reviews, consistent with E.O. 12356 and DoD Directives 5230.9[1] and 5400.4,[2] of all material prepared for public release and publication originated by the Department of Defense, including testimony before congressional committees, or by its contractors, DoD employees as individuals, and material submitted by sources outside the Department of Defense for such review.

(j) Review for conflict with established DoD and national security policies or programs, official speeches, news releases, photographs, films, and other information originated within the Department of Defense for public release, or similar material submitted for review by other executive agencies of the U.S. Government.

(k) Oversee the provision of news analysis and news clipping services for the OSD, Chairman of the Joint Chiefs of Staff and the Joint Staff, and the Military Departments' headquarters.

(l) As required, prepare speeches, public statements, congressional testimony, articles for publication, and other materials for public release by selected DoD and White House officials.

(m) Serve as official point of contact for public and media appearances by DoD officials, and conduct advanced planning and coordination, as required, with private, public, and media organizations for such events.

(n) Receive, analyze, and reply to inquiries regarding DoD policies, programs, or activities that are received from the general public either directly or from other Government Agencies. Prepare and provide to the referring office replies to inquiries from the general public that are forwarded from the Congress and the White House.

(o) Evaluate and approve:

(1) Requests for DoD cooperation in programs involving relations with the public consistent with DoD Directive 5410.18[3] and DoD Instruction 5410.19.[4]

(2) Requests by news media representatives or other non-DoD personnel for travel in military carriers for public affairs purposes.

(p) Establish policy for the Department of Defense Freedom of Information Act Program consistent with 5 U.S.C. 552 and DoD Directive 5400.7.[5]

(q) Direct and administer the Freedom of Information Act Program consistent with DoD Directive 5400.7 and DoD Instruction 5400.10,[6] and the access portion of the DoD Privacy Act consistent with DoD Directive 5400.11[7] for the OSD, Chairman of the Joint Chiefs of Staff and the Joint Staff, and other DoD Components as may be assigned.

(r) Direct and administer the Mandatory Declassification Review Program consistent with E.O. 12356 and

[1] Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

[2] See footnote 1 to § 375.3.

[3] See footnote 1 to § 375.3.

[4] See footnote 1 to § 375.3.

[5] See footnote 1 to § 375.3.

[6] See footnote 1 to § 375.3.

[7] See footnote 1 to § 375.3.

Program consistent with E.O. 12356 and DoD Directive 5200.1[9] for the OSD, Chairman of the Joint Chiefs of Staff and the Joint Staff, and other DoD Components as may be assigned.

(s) Provide DoD assistance to non-Government, entertainment-oriented motion picture, television, and video productions consistent with DoD Instruction 5410.16.[9]

(t) Evaluate and coordinate the DoD response to requests for speakers received by the Department of Defense and, as required, assist in scheduling, programming, and drafting speeches for the participation of qualified personnel.

(u) Perform such other functions as the Secretary of Defense may assign.

§ 375.4 Relationships.

(a) In the performance of assigned functions and responsibilities, the ATSD(PA) shall:

(1) Report directly to the Secretary and Deputy Secretary of Defense.

(2) Exercise direction, authority, and control over the American Forces Information Service (AFIS) in accordance with DoD Directive 5122.10.[10]

(3) Coordinate and exchange information with other OSD officials, heads of the DoD Components, and Federal officials having collateral or related functions.

(4) Use existing facilities and services of the Department of Defense and other Federal Agencies to avoid duplication, and achieve maximum efficiency and economy.

(5) Maintain liaison with and provide assistance to the general public, representatives of the news media, and private organizations seeking information relating to the activities of the Department of Defense.

(b) Other OSD officials and heads of the DoD Components shall coordinate with the ATSD(PA) on all matters related to the functions cited in § 375.3.

§ 375.5 Authorities.

The ATSD(PA) is hereby delegated authority to:

(a) Issue DoD Instructions, publications, and one-time directive-type memoranda, consistent with DoD 5025.1–M,[11] which carry out policies approved by the Secretary of Defense in assigned fields of responsibility. Instructions to the Military Departments shall be issued through the Secretaries of those Departments, or their designees. Instructions to Unified and Specified Commands regarding public affairs matters shall be issued directly to the Commanders of the Unified and Specified Commands. Instructions that have operational implications shall be coordinated with the Chairman of the Joint Chiefs of Staff, consistent with DoD Directive 5105.35.[12]

(b) Obtain reports, information, advice, and assistance, consistent with the policies and criteria of DoD Directive 8910.1.[13]

(c) Communicate directly with the DoD Components. The channel of communications with the Unified and Specified Commands regarding public affairs matters shall be between the ATSD(PA) and the Commanders of the Unified and Specified Commands. Communications that have operational implications shall be coordinated with the Chairman of the Joint Chiefs of Staff consistent with DoD Directive 5105.35.

(d) Communicate with other Government Agencies, representatives of the legislative branch, and members of the public.

(e) Establish arrangements for DoD participation in those non-DoD Government programs for which the ATSD(PA) has been assigned primary staff cognizance.

(f) Act as the sole agent at the Seat of Government for the release of official DoD information for dissemination through any form of public information media.

(g) Establish accreditation criteria and serve as the approving and issuing authority for credentials for news gathering media representatives traveling in connection with coverage of official DoD activities.

(h) Approve military participation in public exhibitions, demonstrations, and ceremonies of national or international significance.

(i) In the absence of a known DoD originator of classified information, declassify official information submitted for security review, mandatory declassification review, and in response to Freedom of Information Act actions.

Appendix A to Part 375—Principles of Information

It is the policy of the Department of Defense to make available timely and accurate information so that the public, Congress, and the news media may assess and understand the facts about national security and defense strategy. Requests for information from organizations and private citizens will be answered in a timely manner. In carrying out this policy, the following principles of information will apply:

1. Information will be made fully and readily available, consistent with statutory requirements, unless its release is precluded by current and valid security classification. The provisions of the Freedom of Information Act will be supported in both letter and spirit.

2. A free flow of general and military information will be made available, without censorship or propaganda, to the men and women of the Armed Forces and their dependents.

3. Information will not be classified or otherwise withheld to protect the government from criticism or embarrassment.

4. Information will be withheld only when disclosure would adversely affect national security or threaten the safety or privacy of the men and women of the Armed Forces.

5. The Department's obligation to provide the public with information on its major programs may require detailed public affairs planning and coordination within the Department and with other government agencies. The sole purpose of such activity is to expedite the flow of information to the public; propaganda has no place in Department of Defense public affairs programs.

Appendix B to Part 375—Statement of DoD Principles for News Media Coverage of DoD Operations

1. Open and independent reporting will be the principal means of coverage of U.S. military operations.

2. Pools are not to serve as the standard means of covering U.S. military operations. Pools may sometimes provide the only feasible means of early access to a military operation. Pools should be as large as possible and disbanded at the earliest opportunity—within 24 to 36 hours when possible. The arrival of early-access pools will not cancel the principle of independent coverage for journalists already in the area.

3. Even under conditions of open coverage, pools may be appropriate for specific events, such as those at extremely remote locations or where space is limited.

4. Journalists in a combat zone will be credentialed by the U.S. military and will be required to abide by a clear set of military security ground rules that protect U.S. forces and their operations. Violation of the ground rules can result in suspension of credentials and expulsion from the combat zone of the journalist involved. News organizations will make their best efforts to assign experienced journalists to combat operations and to make them familiar with U.S. military operations.

5. Journalists will be provided access to all major military units. Special operations restrictions may limit access in some cases.

6. Military public affairs officers should act as liaisons but should not interfere with the reporting process.

7. Under conditions of open coverage, field commanders should be instructed to permit journalists to ride on military vehicles and aircraft whenever feasible. The military will be responsible for the transportation of pools.

8. Consistent with its capabilities, the military will supply PAOs with facilities to enable timely, secure, compatible transmission of pool material and make these facilities available whenever possible for filing independent coverage. In cases when government facilities are unavailable, journalists will, as always, file by any other means available. The military will not ban communications systems operated by news organizations, but electromagnetic operational security in battlefield situations may require limited restrictions on the use of such systems.

9. These principles will apply as well to the operations of the standing DoD National Media Pool system.

Dated: December 22, 1993.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 162

[CGD 93–016]

RIN 2115–AE49

Ambrose Channel Navigation Restrictions

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is deleting the inland waterways navigation regulations for Ambrose Channel, Lower New York Bay. The regulation has become outdated and no longer serves a useful safety purpose. In addition, the navigation restrictions have proven to be an administrative burden for the mariner and the Coast Guard.

EFFECTIVE DATE: February 14, 1994.

FOR FURTHER INFORMATION CONTACT: Irene Hoffman, Project Manager, Vessel Traffic Services Division. The telephone number is 202–267–6277.

SUPPLEMENTARY INFORMATION:

Drafting Information

The principal persons involved in drafting this document are Irene Hoffman, Project Manager, Vessel Traffic Services Division and Mr. Nicholas Grasselli, Project Counsel, Office of Chief Counsel.

Regulatory History

On September 1, 1993, the Coast Guard published a notice of proposed rulemaking entitled "Ambrose Channel Navigation Restrictions" in the **Federal Register** (58 FR 46144). The Coast Guard received two letters commenting on the proposal. A public hearing was not requested and one was not held.

Background and Purpose

The Ambrose Channel navigation restriction was originally established by an order issued by the United States Army Corps of Engineers on March 28, 1924. As published on September 29, 1977 (42 FR 51758), the Coast Guard assumed responsibility for this navigational restriction.

This navigation regulation restricted the use of Ambrose Channel to certain vessels. The class of vessels prohibited from transiting the channel were those vessels not under sufficient power and control, sailing vessels, and other vessels engaged in towing. However, sailing vessels and other vessels engaged in towing could obtain permission to navigate the channel from Vessel Traffic Service New York (VTSNY).

These navigation restrictions have become outdated due to numerous channel improvements. The Ambrose Channel was widened to 2000 feet, dredged to over 45 feet in depth, and is well marked. It is the main channel and the only practical access to or egress from the Port of New York. It is heavily traveled, but not congested. By removing the navigation restriction for certain vessels in Ambrose Channel, the level of vessel safety is not diminished. In addition, requiring sailing and towing vessels to obtain prior approval and a transit permit from VTSNY for entry and exit has proven to be an administrative burden to the mariner and the Coast Guard.

Discussion of Comments and Changes

This final rule will lift navigation restrictions prohibiting certain vessels from navigation within the channel, as well as removing requirements for sailing and towing vessels to acquire prior transit approval from VTSNY. The Coast Guard believes that eliminating these restrictions will not have an adverse impact on navigation safety. The Coast Guard received two letters in response to the NPRM. These comments supported the removal of the Ambrose Channel, Lower New York Bay navigation restrictions (33 CFR 162.25) but one comment expressed concerns about the level of safety associated with the joint use of Ambrose Channel by ship and barge traffic.

The comment identified the following three additional restrictions which should be considered in place of the existing restrictions:

(1) Limiting the length of the towing hawser allowed in Ambrose Channel to 150 meters (500 feet) or some lesser amount;

(2) Prohibiting sailing vessels, tugs, and tows with a draft of 15 feet or less from transiting Ambrose Channel; and

(3) Amending the boundaries for bunching of tows and adjusting of tow lengths and making up of tows for sea, so as to prohibit such activities north of the Verrazano-Narrows Bridge.

With reference to the first two safety issues addressed above (i.e. length of tow and use of Ambrose Channel for sailing vessels, tugs and tows), the International Regulations for the Prevention of Collisions at Sea, 1972 (72 COLREGS), 33 U.S.C. foll. 1602 and Inland Navigation Rules set out responsibilities and operating guidelines and requirements for vessels. Specifically, COLREGS and Inland Rule 9 set out rules pertaining to the conduct of vessels while operating in or near narrow channels. Rule 9 prohibits sailing vessels and vessels less than 20 meters from impeding the passage of vessels that can safely navigate only within a narrow channel, such as Ambrose Channel. Additionally, 33 CFR 165.05 sets out requirements for the length of tows of seagoing barges within inland waters. As such, implementing regulations which address these two safety issues would be redundant.

In addition, the third safety issue (limits for bunching of tows) has previously been examined by the Coast Guard. 33 CFR 163.20 defines the areas where it is safe to undertake the operation of bunching of tows and where it is required before entry. However, the Coast Guard will reexamine the existing limits for bunching of tows in the New York Harbor area. If it is determined that these boundaries should be modified, a separate rulemaking will be initiated.

Additionally, the Corp of Engineers' noted that by removing this Coast Guard navigation restriction, their authority to regulate the Ambrose Channel under 33 U.S.C. 453 is not diminished.

Regulatory Evaluation

This rule is not a significant regulatory action under Executive Order 12866 is not significant under "Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). The Coast Guard expects the economic impact of this rule to be so minimal that a full Regulatory Evaluation is unnecessary. The removal of the Ambrose Channel navigation regulations will have no foreseeable economic impact.

Small Entities

The final rule reduces the overall number of individuals or entities affected by the existing regulations. Therefore, the Coast Guard certifies under section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that this rule will not have a significant

economic impact on a substantial number of small entities.

Collection of Information

This rule contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). It removes the requirement for certain vessels to obtain Coast Guard approval to transit the Ambrose Channel.

Federalism

The Coast Guard has analyzed this rule in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. The authority to regulate concerning the navigable waters of the United States is committed to the Coast Guard by statute.

Environment

The Coast Guard considered the environmental impact of this rule and concluded that, under section 2.B.2(c) and (1) of Commandant Instruction M16475.1B, this rule is categorically excluded from further environmental documentation. The deletion of the Ambrose Channel Regulation will not affect the environment or vessel safety. A Categorical Exclusion Determination is available in the docket for inspection or copying where indicated under "ADDRESSES."

List of Subjects in 33 CFR Part 162

Navigation (water), Waterways.

For the reasons set out in the preamble, the Coast Guard amends 33 CFR part 162 as follows:

PART 162—INLAND WATERWAYS NAVIGATION REGULATIONS

1. The authority citation for part 162 continues to read as follows:

Authority: 33 U.S.C. 1231; 49 CFR 1.46.

§ 162.25 [Removed]

2. Section 162.25 is removed.

Dated: December 22, 1993.

[CGD01–93–144]

RIN 2115–AA97

Safety Zone; New Years Eve, South Street Seaport Fireworks, East River, NY

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone for a New Years Eve fireworks program located in the East River. This event is sponsored by South Street Seaport, Inc., and will take place from 11:30 p.m. on Friday, December 31, 1993 until 12:30 a.m. on Saturday, January 1, 1994. A rain date is scheduled from 11:30 p.m. on January 1, 1994, until 12:30 a.m. on January 2, 1994. This safety zone is needed to protect the boating public from the hazards associated with fireworks exploding in the area.

EFFECTIVE DATES: This rule is effective from 11:30 p.m. on December 31, 1993 until 12:30 a.m. on January 1, 1994. A rain date is scheduled from 11:30 p.m. on January 1, 1994, until 12:30 a.m. on January 2, 1994.

FOR FURTHER INFORMATION CONTACT: LT R. Trabocchi, Project Manager, Captain of the Port, New York (212) 668–7933.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of this notice are LT R. Trabocchi, Project Manager, Captain of the Port, New York and CDR J. Astley, Project Attorney, First Coast Guard District, Legal Office.

Regulatory History

Pursuant to 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective less than 30 days after **Federal Register** publication. Due to the date this application was received, there was not sufficient time to publish a proposed rule in advance of the event. Publishing a NPRM and delaying the event would be contrary to public interest since the fireworks display is for public viewing.

Background and Purpose

On November 3, 1993, South Street Seaport, Inc. submitted an application to hold a fireworks program in the East River off of South Street Seaport, Manhattan, New York. This regulation establishes a temporary safety zone in the East River between a line drawn along the Brooklyn Bridge and a line drawn from Pier 9, Manhattan to Pier 3, Brooklyn. This safety zone is being established to protect boaters from the hazards associated with fireworks exploding in the area. No vessel will be permitted to enter or move within this safety zone unless authorized to do so by the Coast Guard Captain of the Port, New York.

Regulatory Assessment

This regulation is not considered a significant regulatory action under Executive Order 12866 and not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11040; February 26, 1979). No vessel traffic will be permitted to transit the East River south of the Brooklyn Bridge at any time the safety zone is in effect. Though there is a regular flow of traffic through this area, there is not likely to be a significant impact on business, recreational, or commercial traffic for several reasons. Due to the limited duration of the event, the late hour of the event, the extensive advisories that will be made to the affected maritime community, and that commercial and pleasure craft can take an alternate route via the Hudson and Harlem Rivers, the Coast Guard expects the economic impact of this regulation to be so minimal that a full Regulatory Evaluation is unnecessary.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this regulation will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632).

For the reasons given in the Regulatory Evaluation, the Coast Guard expects the impact of this regulation to be minimal. The Coast Guard certifies under 5 U.S.C. 605(b) that this regulation will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This regulation contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501).

Federalism

The Coast Guard has analyzed this action in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this regulation does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard has considered the environmental impact of these regulations and concluded that under section 2.B.2.c. of Commandant Instruction M16475.1B, it is an action under the Coast Guard's statutory authority to promote maritime safety and protect the environment, and thus is categorically excluded from further environmental documentation. A Categorical Exclusion Determination is included in the docket.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

Regulations

For reasons set out in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5; 49 CFR 1.46.

2. A temporary § 165.T01–144 is added to read as follows:

§ 165.T01–144 New Years Eve, South Street Seaport Fireworks, East River, New York.

(a) *Location.* This temporary safety zone includes all waters of the East River south of the Brooklyn Bridge and north of a line drawn from Pier 9 Manhattan to Pier 3 Brooklyn.

(b) *Effective period.* This section is effective from 11:30 p.m. on December 31, 1993 until 12:30 a.m. on January 1, 1994. A rain date is scheduled from 11:30 p.m. on January 1, 1994, until 12:30 a.m. on January 2, 1994.

(c) *Regulations.* (1) The general regulations contained in § 165.23 apply to this safety zone.

(2) All persons and vessels shall comply with the instructions of the Coast Guard Captain of the Port or the designated on scene patrol personnel. U.S. Coast Guard patrol personnel include commissioned, warrant, and petty officers of the Coast Guard. Upon being hailed by a U.S. Coast Guard vessel via siren, radio, flashing light, or other means, the operator of a vessel shall proceed as directed. Coast Guard Auxiliary members may be present to inform vessel operators of this regulation and other applicable laws.

Dated: December 14, 1993.

T.H. Gilmour,

Captain, U.S. Coast Guard, Captain of the Port, New York.

33 CFR Part 165

[CGD01 93–401]

RIN 165–AA97

Safety Zone Regulation; Boston Inner Harbor, Boston, MA

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone in the Main Ship Channel, Boston Inner Harbor, in the vicinity of the New England Aquarium on New Year's Eve for the First Night 1994 Fireworks Display. The zone is needed to protect the fireworks barge OCEAN 125 and its attending tugs, and persons viewing the display, from the safety hazard associated with the explosives on board the fireworks barge and with the fireworks display. This zone will close the affected portion of the Boston Harbor Main Ship Channel to vessel traffic while this zone is in effect. Entry into the zone is prohibited unless authorized by the Captain of the Port (COTP) Boston.

EFFECTIVE DATES: This regulation becomes effective on December 31, 1993 at 11 p.m. local time when the fireworks barge OCEAN 125 proceeds by tow from Massport Pier 1, East Boston to a location just off the New England Aquarium in approximate position 42°-21'-38"N, 071°-02'-48"W. It terminates on January 1, 1994 at 12:30 a.m. local time or when the tug and barge are safely moored at Massport Pier 1, East Boston, unless terminated sooner by the Captain of the Port Boston.

FOR FURTHER INFORMATION CONTACT: LTJG Paul Gerecke or MSTC Daniel Dugery, USCG Marine Safety Office Boston, at (617) 223–3000.

SUPPLEMENTARY INFORMATION:

Drafting Information

The principal persons involved in drafting this document are LTJG Paul Gerecke, Vessel and Waterways Management Officer and MSTC Daniel Dugery, Assistant Vessel and Waterways Management Officer for the Captain of the Port Boston, and LCDR Jeffrey Stieb, project attorney, First Coast Guard District Legal Office.

Regulatory History

As authorized by 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation, and good cause exits for making it effective in less than 30 days after **Federal Register** publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest. The fireworks display is for public viewing and is to celebrate the New Year's holiday.

Background and Purpose

Responding to the request of event organizers as contained in a permit application submitted to the Coast Guard on October 29, 1993, the Captain of the Port (COTP) Boston is implementing this safety zone to protect mariners and the viewing public from the inherent hazards associated with the movement of a barge laden with explosives and with a fireworks display. The specific events requiring this regulation are the movement of the fireworks barge OCEAN 125 and its attending tugs in Boston Harbor between Massport Pier 1, East Boston and the New England Aquarium and the First Night 1994 Fireworks Display itself. The display is scheduled to take place on January 1, 1994, from 12 a.m. to 12:10 a.m. local time in the vicinity of the New England Aquarium in approximate position 42°-21'-38"N, 071°-02'-48"W. The safety zone will extend for two hundred yards in all directions around the fireworks barge OCEAN 125 and its attending tugs while the vessels proceed to and from, and are on site for the fireworks display. The zone will be in effect from 11 p.m. local time December 31, 1993, to 12:30 a.m. local time, January 1, 1994 or when the tug and barge are safely moored at Massport Pier 1, East Boston, unless terminated sooner by the Captain of the Port Boston. Implementation of this zone will close the affected portion of the 40 foot Boston Harbor Main Ship Channel directly off the New England Aquarium pier, to vessel traffic, and entry into the zone is prohibited unless authorized by the COTP Boston. A Coast Guard patrol craft will be on scene to enforce the safety zone. Details of this event will published in the Local Notice to Mariners and in a Safety Marine Information Broadcast.

Regulatory Evaluation

This rule is not a significant regulatory action under Executive Order 12866 and not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11040; February 26, 1979). The Coast

Guard expects the economic impact of this rule to be so minimal that a Regulatory Evaluation is unnecessary. Delays to the shipping industry from these regulations, if any, should be minor due to the short duration of the event and extensive advisories that will be made. Commercial vessel traffic and fishing vessels may experience slight delays in departures or arrivals during the display; however, mariners can time their movements just ahead or just after the fireworks display has been completed.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this proposal will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632).

For the reasons discussed in the Regulatory Evaluation, the Coast Guard expects the impact of this proposal to be minimal. Therefore, the Coast Guard certifies under section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that this final rule will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This rule contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

The Coast Guard has analyzed this rulemaking in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this proposal does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard considered the environmental impact of this rule and concluded under section 2.B.2.c of Commandant Instruction M16475.1B this proposal is categorically excluded from further environmental documentation. In fact, implementation of this rulemaking should help to reduce the risk of collision or other marine accidents. A Categorical Exclusion Determination will be made available in the docket for inspection or copying where indicated under "ADDRESSES".

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and record keeping requirements, Security measures, Waterways.

Regulation

For the reasons set out in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.549; 49 CFR 1.46

2. A temporary § 165.T01–401 is added to read as follows:

§ 165.T01–401 Safety Zone: Fireworks Display, Boston Main Channel, Boston Inner Harbor, Boston, MA.

(a) *Location.* The following area is a safety zone:

All waters of Boston Harbor within a 200 yard radius around the fireworks barge OCEAN 125 and its attending tugs while these vessels proceed from Massport Pier 1, East Boston, to a location 200 yards off the New England Aquarium in approximate position 42°–21′–38″N, 071°–02′–48″W, during the First Night 1994 Fireworks Display in Boston Harbor, and while returning to Pier 1, East Boston.

(b) *Effective date.* This section becomes effective on December 31, 1993, at 11 p.m. local time or when the fireworks barge OCEAN 125 and its attending tugs depart Massport Pier 1, East Boston. It terminates on January 1, 1994, at 12:30 a.m. local time or when the vessels return and are safely moored at Massport Pier 1, East Boston, unless terminated sooner by the Captain of the Port Boston.

(c) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into or movement within this zone is prohibited unless authorized by the Captain of the Port Boston.

(2) All persons and vessels shall comply with the instructions of the COTP or the designated on scene personnel. U.S. Coast Guard patrol personnel include commissioned, warrant, and petty officers of the Coast Guard.

(3) The general regulations covering security zones in § 165.33 of this part apply.

Dated: December 17, 1993.

G.W. Abrams,

Captain, U.S. Coast Guard, Captain of the Port, Boston, Massachusetts.

BILLING CODE 4910–14–M

33 CFR Part 165

[COTP St. Louis Regulation 93–036]

RIN 2115–AA97

Safety Zone; Upper Mississippi River

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone on the Upper Mississippi River. This regulation is needed to control vessel traffic in the regulated area to provide safe working conditions and navigation within the affected area. The regulation will prohibit navigation in the regulated area for the safety of vessel traffic and the protection of life and property associated with bridge span replacement.

EFFECTIVE DATES: This regulation is effective December 17, 1993 and will terminate on January 16, 1994 unless sooner terminated by the Captain of the Port.

FOR FURTHER INFORMATION CONTACT: LT Timothy Deal, Operations Officer, Captain of the Port, St. Louis, Missouri at (314) 539–3823.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of this regulation are ENS Andrew B. Cheney, Project Officer, Marine Safety Office, St. Louis, Missouri and LCDR A. O. Denny, Project Attorney, Second Coast Guard District Legal Office.

Regulatory History

In accordance with 5 U.S.C. 553, a notice of proposed rulemaking has not been published for this regulation and good cause exists for making it effective in less than 30 days from the date of publication. Following normal rulemaking procedures would have been impracticable. Specifically, the nature of repairs to the Hannibal Railroad Bridge at mile 309.9 Upper Mississippi River leaves insufficient time to publish a notice of proposed rulemaking. The Coast Guard deems it to be in the public's best interest to issue a regulation without waiting for a comment period since the conditions present an immediate hazard.

Background and Purpose

Extensive damage resulting from numerous allisions with vessels has made repairs to the bridge structure necessary. Contractor vessels will be working in the navigation channel and will impede normal traffic flow. As a result of these conditions this regulation is necessary to provide safe working conditions and navigation within the affected area.

Regulatory Evaluation

This regulation is not considered a significant regulatory action under Executive Order 12866 and not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11040; February 26, 1979), it will not have a significant economic impact on a substantial number of small entities, and it contains no collection of information requirements.

The Coast Guard expects the impact of this regulation to be so minimal that a Regulatory Evaluation is unnecessary. The imposed restrictions are anticipated to be of short duration. To avoid any unnecessary adverse economic impact on businesses which use the river for commercial purposes, Captain of the Port, St. Louis, Missouri will monitor the situation and will authorize entry into the closed area as conditions warrant. Changes will be announced by Marine Safety Information Radio Broadcast on VHF Marine Band Radio, Channel 22 (157.1 MHZ). Mariners may also call the Port Operations Officer, Captain of the Port, St. Louis, Missouri at (314) 539–3823 for current information.

Federalism Assessment

Under the principles and criteria of Executive Order 12612, this regulation does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environmental Assessment

The Coast Guard considered the environmental impact of this regulation and concluded that, under section 2.B.2 of Commandant Instruction M16475.1B, this regulation is categorically excluded from further environmental documentation as an action required to protect public safety.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Records and recordkeeping, Security measures, Waterways.

Temporary Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 49 CFR 1.46 and 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5.

2. A temporary § 165.T02–076 is added, to read as follows:

§ 165.T02–076 Safety Zone: Upper Mississippi River.

(a) *Location.* The Upper Mississippi River between mile 308.9 and 310.9 is established as a safety zone.

(b) *Effective dates.* This section becomes effective on December 17, 1993 and will terminate on January 16, 1994.

(c) *Regulations.* The general regulations under § 165.23 of this part which prohibit entry into the described zones without authority of the Captain of the Port apply. The Captain of the Port, St. Louis, Missouri will notify the maritime community of river conditions affecting the areas covered by this safety zone by Marine Safety Information Radio Broadcast on VHF Marine Band Radio, Channel 22 (157.1 MHZ).

Dated: December 17, 1993.

Scott P. Cooper,

Commander, U.S. Coast Guard, Captain of the Port, St. Louis, Missouri.

BILLING CODE 4910–14–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 81

[FRL–4819–4]

Designation of Areas for Air Quality Planning Purposes; Tennessee; Correction of NO_2 Designation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Correcting amendment.

SUMMARY: This action corrects a typographical error in the Code of Federal Regulations. On March 3, 1978, the U.S. Environmental Protection Agency published rulemaking setting forth the attainment status of all States in relation to the national ambient air quality standards. (See 43 FR 8962.) The State of Tennessee was classified as "Cannot Be Classified or Better Than National Standards" for nitrogen dioxide (NO_2). At some point in time this designation was erroneously changed to "Does Not Meet Primary standards". This action corrects this typographical error.

EFFECTIVE DATE: This action is effective December 30, 1993.

FOR FURTHER INFORMATION CONTACT: Additional information concerning this notice can be obtained by contacting: Richard Schutt, Regulatory Planning and Development Section, Air Programs Branch, Air, Pesticides & Toxics Management Division, Region IV Environmental Protection Agency, 345 Courtland Street, NE., Atlanta, Georgia 30365. The telephone number is 404/347–2864.

List of Subjects in 40 CFR Part 81

Air pollution control, National Parks, Wilderness areas.

Dated: December 13, 1993.

Patrick M. Tobin,

Acting Regional Administrator.

Therefore, 40 CFR part 81, subpart C, is amended by making a correcting amendment as follows:

PART 81—[AMENDED]

1. The authority citation for part 81 continues to read as follows:

Authority: 42.U.S.C. 7401–7671q.

2. Section 81.343 is amended by revising the attainment status designation table for NO_2 to read as follows:

§ 81.343 Tennessee.

* * * * *

TENNESSEE—NO_2

BILLING CODE 6560–50–P

40 CFR Part 82

[FRL–4819–7]

Protection of Stratospheric Ozone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: With this action, EPA is establishing baseline production and consumption allowances for chemicals that EPA has added to the list of class I ozone-depleting substances in a **Federal Register** notice signed by the Administrator on November 30, 1993. These substances are methyl bromide

and hydrobromofluorocarbons (HBFCs). EPA is now establishing baseline production and consumption allowances for producers and importers of methyl bromide and HBFCs derived from data submitted to the Agency in response to a section 114 data collection request issued on July 27, 1993. The data collection request required companies to report the amounts of these substances that they produced, imported, exported, transformed or destroyed in 1991.

EFFECTIVE DATE: This rule is effective on January 1, 1994.

ADDRESSES: Public materials relevant to this rulemaking are contained in Air Docket No. A–92–13 at: U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20640. The public docket room is located in room M–1500, Waterside Mall (Ground Floor). Docket No. A–92–13 is the same docket as that used for the rule to add methyl bromide and the HBFCs to the class I list, which was published on December 10, 1993. Materials relevant to the allowances rulemaking have been placed in a new and separate section of Docket No. A–92–13, which is segregated from the sections of the docket containing material relevant to the December 10 listing rule. The data on which the consumption and production allowances promulgated in this allowances rule are based were submitted under a claim of confidentiality. That data is therefore confidential, pending final determination by the Administrator, and, therefore, is not available in the docket for public inspection.

FOR FURTHER INFORMATION CONTACT: Peter Voigt at (202) 233–9185, Program Implementation Branch, Stratospheric Protection Division, Office of Atmospheric Programs, Office of Air and Radiation, 6205J, 401 M Street SW., Washington DC 20460.

SUPPLEMENTARY INFORMATION:

I. Background
A. Newly Listed Substances
B. Baseline Production and Consumption Allowances
II. Statutory Authority
III. Notice Prior to Effective Date
IV. Summary of Supporting Analyses
A. Executive Order 12866
B. Regulatory Flexibility Act
C. Paperwork Reduction Act

I. Background

A. Newly Listed Substances

EPA has added methyl bromide and HBFCs to the list of class I substances under section 602 of the Clean Air Act in a final rule signed by the Administrator of EPA on November 30, 1993, 58 FR 65018 (December 10, 1993). As explained in the listing regulation, under title VI of the Clean Air Act, a newly listed substance is automatically subject to the section 604(a) phaseout schedule unless:

(1) The Administrator accelerates that schedule pursuant to section 606; or

(2) The Administrator determines that the section 604(a) schedule is unattainable and extends that schedule pursuant to section 602(d).

For reasons explained in the final rule, the Agency determined that the section 604(a) schedule is unattainable for methyl bromide and extended that schedule under section 602(d) to a freeze until the termination date. The regulations freeze production and consumption levels of methyl bromide at 1991 levels beginning on January 1, 1994 until January 1, 2001, when production and consumption will be eliminated. For HBFCs, the regulations freeze production and consumption at 1991 baseline levels beginning on January 1, 1994 until January 1, 1996, when production and consumption will be eliminated.

Under EPA's rules, controls on the production and consumption of regulated substances operates through a company-specific allowance system. Companies are prohibited from production and consumption beyond the amount for which they hold unexpended allowances. See 40 CFR 82.4. Section 607 of the Clean Air Act provides that the Administrator, by September 15, 1991, was to promulgate rules providing for the issuance of allowances for the production and consumption of class I and II substances and governing the transfer of such allowances. EPA promulgated rules issuing allowances for then-listed substances on March 6, 1991 (56 FR 9518). Section 607(b) and (c) specify that EPA's rules are to provide for trading of allowances on an ozone depletion weighted basis.

EPA's obligation to issue company-specific allowances is inherent in the allowance and trading scheme under the Act. As explained in the July 27 information collection request (58 FR 40048), the section 604 phaseout provision and the section 607 allowance and trading provision were drafted against the regulatory backdrop of EPA's implementation of the Montreal Protocol under authority existing prior to the Clean Air Act Amendments of 1990 (formerly section 151(b)). The Agency had implemented the Protocol production and consumption limits through company-specific allowances. See 53 FR 30566 (August 12, 1988). Enactment of sections 604 and 607 continued this approach, and the Agency's current regulations comport with it. (See regulation to implement 1992 and later production and consumption limits under section 604 (57 FR 33754, July 30, 1992)). EPA, through recent rulemaking, has adopted the same approach for methyl bromide and the HBFCs in its final listing regulation. EPA must issue company-specific allowances for methyl bromide and the HBFCs in order to implement the production and consumption freeze applicable to these substances. EPA received no comments on the November 9, 1993 allowances proposal.

B. Baseline Production and Consumption Allowances

To establish these allowances, EPA exercised its information collection authority under section 114(a) of the Clean Air Act to require companies to submit information on the amount of methyl bromide and HBFCs that they produced, imported, exported, transformed or destroyed in 1991. 58 FR 40048 (July 27, 1993). EPA has used the information collected to calculate the company-specific production and consumption allowances. On November 9, 1993, EPA proposed baseline production and consumption allowances for methyl bromide and HBFCs (58 FR 59630). EPA received no comments on the November 9 proposal. EPA has taken final action adding methyl bromide and the HBFCs to the class I list of ozone-depleting substances, 58 FR 65018 (December 10, 1993). With this rule, EPA is establishing the company-specific production and consumption allowances for these substances in order to implement the production and consumption limitations beginning January 1, 1994.

A company's production allowances are equal to its domestic production minus the amount that is transformed and destroyed by it or by other companies. Amounts of class I substances that are recycled are also excluded from the calculation of production allowances. For producers that also import, transformation is allocated proportionately between domestic production and imports. Second-party transformation not attributed to a specific producer is allocated proportionately among all producers, based on production share.

Company-specific consumption allowances for each chemical consist of a company's production allowances, as calculated above, plus its imports, minus its exports. Amounts imported for transformation and for destruction are excluded from the import total.

Exports that are not attributable to a specific company are proportionately allocated among all producers based on production share. In addition, imports of used and recycled ozone-depleting substances are excluded from the calculation of allowances.

II. Statutory Authority

EPA is authorized by section 604(c) of the Act to promulgate regulations implementing the phaseout of ozone-depleting substances, 57 FR 33754 (July 30, 1992). Pursuant to section 607, the phaseout is to be implemented through an allowance system. EPA also has broad authority under section 301(a) "to prescribe such regulations as are necessary to carry out [its] functions under this chapter" and broad authority under section 615 to promulgate regulations respecting the control of substances that may reasonably be anticipated to affect the stratosphere.

As explained above, EPA must promulgate company-specific production and consumption allowances in order to implement controls on methyl bromide and the HBFCs under title VI of the Clean Air Act. In addition, such controls are necessary to implement the controls on these substances that will become mandatory under the Montreal Protocol beginning in 1995. The reader is referred to the March 18 notice proposing to add these substances to the class I list for a full discussion of the Protocol Parties' agreement to controls on these substances at their Copenhagen meeting. See 58 FR 15014. Section 614(b) provides that title VI "shall not be construed, interpreted or applied to abrogate the responsibilities or obligations of the United States to implement fully the provisions of the Montreal Protocol."

III. Notice Prior to Effective Date

The effective date of this rule is January 1, 1994. Since title VI controls on production and consumption are implemented on an annual basis, the allowances must be effective January 1, 1994 in order to achieve the environmental benefits associated with controls in the 1994 calendar year.

EPA believes that the time between publication of this final rule and January 1, 1994 is sufficient for industry to comply with the annual production and consumption limits beginning January 1, 1994. EPA believes that the amount of time provided before the rule becomes effective is appropriate for several reasons.

First, EPA explained in its November 9 proposal that it was proposing production and consumption allowances at that time in order that the allowances would be available in time if the Agency were to establish a freeze beginning January 1, 1994. The comment period was to close no earlier than December 9, 1993, making it clear that EPA intended to provide less than 30 days notice of the final allowances prior to January 1, 1994. EPA received no comments on this or any other aspect of the November 9 proposal.

Second, only very small changes to the proposed allowances have been made, based on late receipts of data from companies that transformed methyl bromide in 1991. As a result, the affected companies had reasonably precise information regarding the anticipated level of allowances since the November 9 proposal, and they have been on notice since November 30, 1993, (when the Administrator signed the final rule listing methyl bromide and the HBFCs) that EPA was freezing production beginning January 1, 1994. The allowances contained in the final rule do not reflect substantial changes.

Third, EPA believes that compliance with the annual production controls necessitates less advance notice than other regulations for which compliance is required on a continuous basis or over a shorter period. Compliance with an annual limit on production and consumption is not likely to be violated until a significant part of a given year has elapsed. Steps during the first few days of 1994 that will prove necessary to comply for the entire calendar year should be minimal.

EPA notes that the general requirement under 5 U.S.C. 553(d) (the Administrative Procedure Act), that publication or service of a substantive rule be made not less than 30 days before it becomes effective does not apply here. Section 307(d)(1) of the Clean Air Act specifically applies to regulations under title VI of the Clean Air Act and provides that "[t]he provisions of sections 553 through 557 and section 706 of title 5 shall not, except as expressly provided in this subsection, apply to actions to which this subsection applies." Nowhere does subsection 307(d) expressly provide that section 553(d) of title 5 applies. Even if section 553(d) were to apply, EPA believes that the environmental benefits associated with controls in 1994 and the limited need for advance notice in this situation constitute good cause under section 553(d)(3) of title 5 to provide less than 30 days notice following publication. In any case, EPA has taken steps to provide notice of this final action to the regulated industry as soon as possible upon signature of the rule and prior to publication.

IV. Summary of Supporting Analyses

A. Executive Order 12866

Under Executive Order 12866 (58 FR 51,735 (10/4/94)) the Agency must determine whether the regulatory action is "significant" and therefore subject to OMB review and the requirements of the Executive Order. The Order defines "significant regulatory action" as one that is likely to lead to a rule that may:

(1) have an annual effect on the economy of $100 million or more or adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;

(2) create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof;

(4) raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

EPA has determined that this rule is not a "significant regulatory action" under the terms of Executive Order 12866 and is therefore not subject to OMB review.

B. Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. 601–612, requires that federal agencies examine the impact of their regulations on small entities. Under 5 U.S.C. 604(a), whenever an agency is required to publish a general notice of proposed rulemaking, it must prepare and make available for public comment an initial regulatory flexibility analysis. Such an analysis is not required if the head of the agency certifies that a rule will not have a significant economic impact on a substantial number of small entities, pursuant to 5 U.S.C. 605(b). The Administrator believes that this regulation will not have a significant impact on a substantial number of small entities and has concluded that a formal regulatory flexibility analyses is unnecessary.

This regulation establishes allowance levels for the production and consumption of the newly listed class I ozone-depleting chemicals. Baseline allowances in and of themselves do not impose any adverse costs on producers or importers. As the administrative mechanism for implementing regulations that are effective on January 1, 1994, the overall regulatory impacts on small business are impacts of the scheme as a whole and have been addressed in that rulemaking. See 58 FR 65018 at 65060 (December 10, 1993).

The Administrator certifies that this rule will not have a significant impact on a substantial number of small entities.

C. Paperwork Reduction Act

The information collection requirements governing the addition of newly listed substances to the list of class I ozone-depleting substances and the regulatory changes to section 604 of the Act has been submitted to OMB as required by section 35D of the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. Comments regarding these requirements have been received and considered in the development of the final rule to implement changes in section 604.

The promulgation of the regulation establishing company-specific allowance levels will not generate additional recordkeeping and reporting requirements. As a result, no information collection request was prepared and submitted to OMB.

National Oil and Hazardous Substances Contingency Plan; National Priorities List Update

AGENCY: Environmental Protection Agency.

ACTION: Notice of deletion of the Mowbray Engineering Company Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) announces the deletion of Mowbray Engineering Company Superfund Site in Greenville, Alabama from the National Priorities List (NPL). The NPL is Appendix B of the National Oil and Hazardous Substances Contingency Plan (NCP), which EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. EPA and the State of Alabama have determined that the responsible parties have implemented all the appropriate response actions under CERCLA and that no further cleanup by the responsible parties is appropriate. Moreover, EPA and the State of Alabama have determined that the remedial actions conducted at the site to date have been protective of public health, welfare, and the environment.

EFFECTIVE DATE: December 30, 1993.

FOR FURTHER INFORMATION CONTACT: Timothy R. Woolheater, Remedial Project Manager, or Betty L. Winter, Community Relations, at 404–347–2643 in the South Superfund Branch, Waste Management Division, U.S. Environmental Protection Agency (Region IV), 345 Courtland Street, NE., in Atlanta, GA 30365.

ADDRESSES: Comprehensive information on this site is available at the following addresses:

EPA Region IV Public Docket, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street, NE., Atlanta, Georgia 30365, Hours: Mon.–Fri. 8:00 a.m.–4:00 p.m.; and

Greenville Public Library, 309 Fort Dale Street, Greenville, Alabama 36037, 205–382–3216.

SUPPLEMENTARY INFORMATION: The site to be deleted from the NPL is: Mowbray Engineering Company Superfund Site, Greenville, Alabama. A Notice of Intent to Delete for this site was published (58 FR 45082) on August 8, 1993. The closing date for comments on the Notice of Intent to Delete was September 26, 1993. EPA received no comments; and, therefore, no responsiveness summary is necessary. The EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and maintains the NPL as the list of those sites. Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund-financed remedial actions. Any site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. Section 300.425(e)(3) of the NCP provides that Fund-financed actions may be taken at the sites deleted from the NPL when conditions warrant.

Deletion of a site from the NPL does not affect the responsible party liability or impede agency efforts to recover costs associated with response efforts.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous substances, Hazardous waste, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: November 17, 1993.

Dan Guinyard,

Acting Regional Administrator, Environmental Protection Agency—Region 4.

For the reasons set out in the preamble, 40 CFR part 300 is amended as follows:

PART 300—[AMENDED]

1. The authority citation for part 300 continues to read as follows:

Authority: 42 U.S.C. 9601–9657; 33 U.S.C. 1321(c)(2); E.O. 12777, 56 FR 54757, 3 CFR, 1991 Comp.: p. 351; E.O. 12580, 52 FR 2923, 3 CFR, 1987 Comp.: p. 193.

Appendix B [Amended]

2. Table 1 of appendix B to part 300 is amended by removing the Site "Mowbray Engineering Company, Greenville, Alabama" and by revising the total number of sites from 1,073 to read 1,072.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 7024

[ID–943–4210–06; IDI–08047 01]

Partial Revocation of Public Land Order No. 1770; Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a public land order insofar as it affects 1,120 acres of public land withdrawn by the Department of Energy for the Idaho National Engineering Laboratory. The land is no longer needed for the purpose for which it was withdrawn. This action will open 1,120 acres to public sale and will permit the disposal of the land to Jefferson County for a multi-county landfill.

EFFECTIVE DATE: January 31, 1994.

FOR FURTHER INFORMATION CONTACT: Larry R. Lievsay, BLM Idaho State Office, 3380 Americana Terrace, Boise, Idaho 83706–2500, 208–384–3166.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988), it is ordered as follows:

1. Public Land Order No. 1770, which withdrew public land for the Department of Energy's Idaho National Engineering Laboratory, is hereby revoked insofar as it affects the following described land:

Boise Meridian

T. 6 N., R. 33 E.,
Sec. 14;
Sec. 15, E½ and SW¼.

The area described contains 1,120 acres in Jefferson County.

2. At 9 a.m. on January 31, 1994, the land will immediately become available for sale to Jefferson County pursuant to Section 203 of the Federal Land Policy and Management Act of 1976, for a multi-county landfill.

Dated: December 21, 1993.

Bob Armstrong,

Assistant Secretary of the Interior.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 36

[CC Docket No. 80–286; FCC 93–549]

Establishment of a Joint Board

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: These revised rules adopt an indexed cap upon the Universal Service Fund ("USF"), which is derived from jurisdictional separations expense adjustments allowed under part 36 of the Commission's rules. The rules are changed in order to moderate growth in the USF during the next two years, while permanent changes in the USF mechanisms are under consideration.

EFFECTIVE DATE: January 1, 1994.

FOR FURTHER INFORMATION CONTACT: Deborah A. Dupont, Common Carrier Bureau, Accounting and Audits Division, (202) 632–7500.

SUPPLEMENTARY INFORMATION:

I. Introduction

1. On November 16, 1993, the Federal-State Joint Board adopted a recommended decision in CC Docket No. 80–286[1] The *Interim Recommendation*, addressing the issues raised in our *Interim Notice*,[2] concludes that this Commission should adopt rules to moderate growth in the Universal Service Fund ("USF") during a two-year interim period, while a rulemaking proceeding on permanent USF changes is pending. The Joint Board recommended that the interim rules employ an indexed cap approach, whereunder the total USF in a given year would not be allowed to exceed a specified amount, increased by an index factor equal to the increase in total working loops for the previous year. For the reasons discussed in this report and order and in the Joint Board's Interim Recommendation, we adopt the recommendations of the Joint Board and the interim rules set forth below.

II. Background

2. In the Interim Notice, we stated our intention to initiate a reevaluation of the current part 36 rules governing high cost assistance and we referred the issue of possible changes in those rules to the Federal-State Joint Board in this proceeding.[3] At the same time, we proposed interim modifications of the USF assistance mechanisms and requested the Joint Board to prepare a recommended decision regarding those proposals.

3. In the Interim Notice, we observed that growth in the USF since its implementation of 1986 has been pronounced, increasing from $445 million to more than $700 million.[4] We expressed particular concern over the wide fluctuations in the rate of annual USF growth, which has ranged from approximately one percent to more than 19 percent.[5] We stated our desire to hold the USF to a moderate rate of growth while we and the Joint Board are in the process of studying and perhaps revising the current high cost mechanisms. For that reason, we proposed interim measures to moderate USF growth during the pendency of our proceeding to make permanent changes to the USF mechanisms. We indicated that interim rules would remain in effect for a maximum of two years and would not constitute prejudgment of the issues for purposes of the permanent rulemaking.

4. We proposed two primary alternatives for interim measures to moderate USF growth for the next two years. First, we proposed to index the

[1] "Recommended Decision," Amendment of Part 36 of the Commission's Rules and Establishment of a Joint Board", FCC 93J–3 (released December 10, 1993) ("Interim Recommendation").

[2] "Notice of Proposed Rulemaking," Amendment of part 36 and Establishment of a Joint Board, 58 FR 48815 (September 20, 1993) ("Interim Notice").

[3] See the Interim Notice, and decisions cited therein, for a brief history of the part 36 high cost assistance measures.

[4] We cited data submitted by the National Exchange Carrier Association ("NECA") in CC Docket No. 93–123 (filed July 21, 1993) indicating that the total level of payments into the USF during 1993 will be approximately $741 million.

[5] Interim Notice at ¶13 and n.16. As we explained, our calculation of the USF annual amounts and growth rates were based upon the data for projected USF payments at full transition.

threshold for receiving USF assistance to the rate of growth in the average cost per loop for non-price cap carriers. We stated our expectation that this method could be effective in moderating USF growth by preventing growth in the fund attributable primarily to a disparity between the growth in costs per loop for price cap and no-price cap carriers. Under the second alternative, maximum growth in the total USF would be indexed to the rate of growth in the total number of working loops in the nation. If the current rules would cause the USF to exceed the indexed cap, we proposed two means of adjusting USF assistance in order to ensure that the USF does not exceed the indexed cap.

5. The first means of implementing the indexed cap would involve adjusting each USF recipient's assistance by the same proportionate amount. The second means of implementation would require adjusting the threshold for receiving assistance in order to produce a total USF at the indexed cap level. We indicated that adjusting the threshold would actually be accomplished by adjusting the nationwide average cost per loop for purposes of determining USF assistance.[6]

6. We expressed our intention to implement interim measures that would not have a significant adverse impact upon the highest-cost carriers most in need of assistance. We requested comment upon the effect that each of the proposed alternatives would have on recipients of high cost assistance. We also invited comment upon the effectiveness of the alternatives in moderating USF growth during the two-year interim period.

7. Comments were filed on October 6, 1993, and reply comments were submitted on October 18, 1993.[7] On November 16, 1993, the Joint Board met in New York City and adopted its recommendations regarding interim measures. The Joint Board recommended that we adopt rules to implement an indexed cap to moderate USF growth, adjusting the threshold for receiving assistance if the current rules would cause the total USF to exceed the indexed cap. The Interim Recommendation was released on December 10, 1993.

[6] See discussion in Interim Notice at ¶¶ 22–25.

[7] A number of late-filed comments and reply comments were submitted in this proceeding and are cited by the Joint Board in its decision. Because these comments essentially concur in comments submitted on a timely basis by other parties, we believe that all parties had adequate opportunity to respond to the arguments presented. We therefore have included the late-filed comments and reply comments in the record of this proceeding.

III. Summary of Joint Board's Interim Recommendation

8. In its Interim Recommendation, the Joint Board found that concern regarding the reasonableness of the overall rate of increase in the USF is well-founded. The Joint Board rejected suggestions that the burden on interstate telecommunications should be evaluated in terms of the USF cost per minute of interstate toll usage, explaining that the loop costs on which USF assistance is based are not generally usage sensitive. In addition, the Joint Board disagreed with some commenters' argument that the Joint Board's determination in 1984 not to recommend a $1 billion cap established that the current size of the USF, and hence the rate of increase to date, is reasonable. The Joint Board explained that reluctance to set an absolute cap on the USF bears little or no relation to the reasonableness of the rate of growth over a particular time period. Further, the Joint Board noted that circumstances, including the transition away from rate of return regulation for the largest local exchange carriers ("LECs"), have changed significantly since implementation of the USF nearly eight years ago.

9. The Joint Board determined that USF growth has been erratic and found unconvincing the explanations tendered by commenters for the wide fluctuations in annual growth. The Joint Board stated its belief that a sudden, large-scale increase in the USF during the pendency of our permanent USF rulemaking would significantly impede efforts to reevaluate the high cost assistance rules and, if necessary, revise them. The Joint Board explained that in the past, changes in jurisdictional separations methodologies frequently have involved lengthy transition periods to ameliorate shifts in jurisdictional cost allocations. If the USF were to increase significantly during the next two years, while a permanent USF rulemaking is in progress, the transition process would be rendered more difficult, particularly if any LECs whose assistance increased pronouncedly during that interim period were to receive less assistance under the new permanent rules. The Joint Board reasoned that some moderate USF growth while the permanent rulemaking is in progress will ensure adequate support for the highest cost LEC study areas while, at the same time, protecting against sudden large increases in the fund that could make retargeting or restructuring of the USF assistance mechanisms more difficult.

10. The Joint Board rejected the indexed threshold proposal, which would involve determining each year's nationwide average cost per loop by indexing the prior year's average cost per loop to the rate of growth in the average cost per loop for all non-price cap carriers. The Joint Board found that the indexed threshold presented no degree of certainty regarding the total USF level and, in addition, had the potential for significant volatility because it excluded price cap carriers, which provide the predominant portion of subscriber loops nationwide, from calculation of the proposed index.

11. The Joint Board recommended, instead, the use of an indexed cap, which affords a greater degree of certainty in the total USF size. The Joint Board determined that indexing growth in the USF to growth in the total number of working loops would produce stable, moderate USF growth during the two-year interim period while still preserving adequate assistance for the recipients most in need of assistance. The Joint Board decided that several alternatives proposed in the comments were not suitable as interim index factors. For example, the proposal to index the size of the USF to growth in interstate toll minutes of use was found to be inconsistent with the fact that USF loop costs are not generally traffic sensitive. In addition, the Joint Board indicated that the proposals of the Florida and Illinois commissions, designed to address undue fluctuations in USF revenues on a study area-specific basis and to reduce possible uneconomic incentives, raised broad issues more appropriately addressed in the long-term, permanent USF rulemaking. The Joint Board therefore did not recommend that the Commission adopt those alternative index factors for the two-year interim period.[8]

12. The Joint Board recommended that the indexed cap should be implemented by adjusting the threshold for receiving assistance to ensure that the total USF does not exceed the indexed cap amount.[9] The Joint Board determined that the differences between 1994 assistance per loop under the current rules and under the recommended alternative would be very small and should have no potential to affect adversely the continued availability of local telephone service at reasonable rates. In contrast, another option under consideration, involving proportionate reduction of all

[8] Interim Recommendation at ¶¶ 44–45.

[9] See discussion of this methodology, *supra* at ¶¶ 4–5 and in the Interim Notice at ¶¶ 22–25.

recipients' assistance levels, was judged inadvisable because it would impose the largest decreases upon the highest cost study areas most in need of assistance. The Joint Board also rejected a proposal to adjust each recipient's assistance by the same dollar amount per loop. The Joint Board explained that such a method would have an unfairly large effect upon large study areas, because large study areas receive a smaller percentage of USF assistance per loop than small study areas at the same cost level.[10]

13. Addressing procedural issues raised in the comments, the Joint Board rejected the argument that interested parties were not afforded adequate opportunity to comment upon the proposed interim measures. The Joint Board noted that numerous comments, many of them lengthy, were submitted by parties representing a wide variety of viewpoints and interests. In addition, the Joint Board explained, the proposed measures would not be permanent and would not prejudge the issues for purposes of the permanent rulemaking.[11] The Joint Board also rejected the argument that limiting USF growth for two years would amount to retroactive ratemaking because the recovery of USF costs has a built-in lag of two years. The Joint Board pointed out that the interim measures would not change the USF rates paid by interstate interexchange carriers during prior periods, nor would USF recipients be precluded from recovering all of their loop costs through current or future rates.[12]

IV. Discussion

14. In its Interim Recommendation, the Joint Board carefully considered the effects of any interim USF changes upon recipients of high cost assistance. Throughout that decision, the Joint Board stated its desire to maintain adequate USF support for high cost LECs, particularly those highest-cost LEC study areas most in need of assistance, during the pendency of the rulemaking on permanent USF changes. We are in full accord with that goal. Universal availability of telephone service at reasonable rates continues to be an important policy for us as well as for the Joint Board.

15. At the same time, as the Joint Board observed, numerous regulatory, technological, and market changes in the telecommunications industry strongly suggest that a fresh look at the goals and effects of the USF high cost assistance mechanisms would serve the public interest.[13] Moreover, the conclusion of the eight-year USF transition period further warrants reevaluation of the existing USF rules.

16. It is unfortunate that some commenters in this proceeding appear to have interpreted the Interim Notice as a sign that we have lessened our commitment to universal service goals, for that is most assuredly not the case. On the contrary, our intention to proceed with a permanent rulemaking on USF support reflects our desire to ensure that our rules provide assistance fairly, effectively, efficiently, and in a manner consistent with technological and competitive advancements within the telecommunications industry. As we undertake this evaluation of our support mechanisms, we cannot foreclose the possibility of revisions that may retarget assistance, resulting in some carriers or subscribers receiving more assistance and others receiving less.

17. We therefore agree with the Joint Board's determination that it would be prudent to implement interim measures to moderate USF growth during the pendency of the permanent USF rulemaking. As the Joint Board aptly observed, past efforts to revise jurisdictional separations procedures have involved lengthy transition periods to ease carriers' adjustment to potential jurisdictional shifts caused by the separations changes. These transition periods have significantly delayed full implementation of new methodologies. Because we shall soon initiate a rulemaking to evaluate the current high cost assistance mechanisms and, perhaps, to revise those procedures, it is sensible to adopt interim rules to prevent large increases in the USF during the pendency of the permanent rulemaking.

18. We believe that these interim measures should reduce difficulties that might otherwise be experienced in implementing new permanent assistance mechanisms on a timely basis. This prophylactic approach is particularly appropriate because, in the past, the USF has manifested an erratic pattern of growth. The Joint Board correctly observed that the comments provided no real basis for assurance that another sudden increase in the USF will not occur within the next two years. Indeed, explanations proffered by commenters for sudden surges of the USF level in the past are notably speculative and unconvincing.[14] We therefore agree with the Joint Board that measures to moderate USF growth would facilitate our ability to revise the USF mechanisms, if necessary, without jeopardizing the continued availability of local telephone service at reasonable rates.

19. We also concur in the Joint Board's finding that the indexed cap represents an effective means of moderating USF growth during the interim period. The Joint Board explained that the indexed cap approach affords a degree of certainty regarding the total level of the USF that is lacking in the proposal to index the threshold for USF assistance to the rate of growth in non-price cap carrier costs per loop. That certainty is important, because ensuring moderate USF growth is the very rationale for adopting interim measures.

20. Using the rate of growth in the total number of loops nationwide as an index factor will ensure a stable, moderate rate of growth during the interim period.[15] Although the adoption of an absolute cap (or "freeze") pending further rulemaking has precedent in this proceeding,[16] we do not believe that a freeze is essential to accomplish our goal of preventing sudden, pronounced increases in the USF during the interim period. Allowing a moderate rate of growth in the USF is sufficient to avoid impedence of the permanent rulemaking, and subsequent implementation of its conclusions. At the same time, allowing some USF growth represents an attempt to accommodate the concerns of commenters who argue that additional funds are needed for carriers that plan to replace facilities in the short-term or that may expand service to additional customers. The rate of growth in total loops is a suitable index factor, not only because it has a demonstrated history of stable, moderate growth, but also because it reflects expansion in the subscriber base of the nationwide network. Using the rate of growth in the total number of loops as the index factor for the USF cap will accomplish our goal of avoiding pronounced USF growth during the two-year interim period while continuing to ensure the availability of basic local telephone service at reasonable rates.

21. Contrary to the contentions of some commenters, the Joint Board's determination, some years ago, not to recommend a cap on the total USF

[10] Interim Recommendation at ¶ 46.

[11] *Id.* at ¶¶ 57–61.

[12] *Id.* at ¶ 63.

[13] See Interim Recommendation at ¶¶ 10–11.

[14] See discussion in the *Interim Recommendations* at ¶ 21 and 25, and citations to the record contained therein.

[15] As we explained in the Interim Notice, data submitted on the public record annually by NECA indicate growth in the total number of loops ranging from two to 3.6 percent from 1984 to 1991, the most recent year for which data are available.

[16] See n.33 in the *Interim Recommendation*.

should not preclude a different conclusion under the present circumstances. As AT&T explained, and the Joint Board reiterated in its Interim Recommendation, regulatory changes such as the freezing of study areas boundaries and the initiation of price cap incentive regulation for the interstate rates of most large LECs bear on the issue of what constitutes a reasonable USF level.[17] Moreover, it is important to recall neither the Joint Board nor this Commission ever determined that $1 billion would constitute a reasonable USF total for a particular point in time. During the first year of the USF transition, the fully phased-in USF amount would have been only $445 million, and only one-eighth of that amount was reflected in interstate rates. Thus, consideration of a USF cap may not have been of primary importance in 1984, prior to the beginning of USF implementation and before there was any basis for evaluating the reasonableness of USF growth.

22. Circumstances have changed considerably since initial consideration of the USF high cost mechanisms. During the past eight years, the USF has grown by approximately 60 percent, with annual rates of growth ranging from one percent to more than 19 percent. In light of our experience with the USF since initial consideration of the issues in 1984, the changed regulatory environment and other circumstances, and our desire to prevent excessive USF growth during the pendency of the permanent USF rulemaking, we believe that the Joint Board's recommendation for an indexed USF cap should be adopted.

23. We also concur in the Joint Board's recommendation that the indexed cap should be implemented by adjusting the threshold for receiving USF assistance. The Joint Board pointed out that the effects of this means of implementation upon recipient carriers during 1994 would be extremely small, and found that it has no potential to diminish the continued availability of local telephone service at reasonable rates.[18] We agree. Changes of this magnitude would have a *de Minimis* effect, and even somewhat larger changes should not cause significant harm. Moreover, if circumstances change, the Joint Board encouraged recipients who would experience a significant adverse impact per loop per month to submit waiver requests, and we support that means of addressing any unforeseeable problems that may occur during the interim period.

24. We agree with and hereby adopt as our own the Joint Board's analysis of the procedural issues, specifically the adequacy of the opportunity for comment and the retroactive ratemaking issue, raised in the comments. We likewise adopt the Joint Board's conclusion that the determinations of the Interim Recommendation and the Interim Order should not prejudge the issues for purposes of the permanent USF rulemaking. Finally, we concur with the Joint Board's position that, should the permanent USF rulemaking conclude sooner than expected, the new rules should replace the interim rules as soon as practicable. In sum, we adopt the recommendations of the Joint Board in its Interim Recommendation, as well as the Joint Board's reasoning in support of those recommendations.

25. We indicated in the Interim Notice our intention to put interim rules into effect on January 1, 1994, explaining that new USF tariffs generally go into effect at the beginning of each year. Because the recommended indexed cap approach which we are adopting requires the calculation of USF totals and index factors on a calendar year basis, there is additional reason to implement the interim rules at the beginning of the year. Accordingly, we find good cause for making the rule amendments effective on less than 30 days notice[19] and shall require that the interim rules become effective on January 1, 1994.

V. Ordering clauses

26. Accordingly, pursuant to sections 1, 4(i), 221(c), and 410(c) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 221(c), and 410(c), It is hereby ordered, that part 36 of the Commission's rules and regulations, 47 CFR part 36 Subpart F—Universal Service Fund, is amended as shown below, effective January 1, 1994.

[17] Interim Recommendation at ¶ 17–19.

[18] See discussion in the Interim Recommendation at ¶ 52 and in n. 104, citing NECA's projection that for 1994 the approximate maximum difference between USF assistance under the current rules and under the indexed cap approach recommended by the Joint Board should be 16 cents per loop per month. Those calculations were based on a 1993 total that did not include prior period adjustments nor administrative costs. For that reason, and because the derivation of the USF under our part 36 rules does not, strictly speaking, include costs other than current period expense adjustments, we have decided to exclude prior period adjustments and administrative costs from the indexed USF cap. Compare Interim Recommendation at n. 105. We emphasize, however, that we shall carefully monitor any changes in those excluded costs during the interim period, in order to ensure that the purpose underlying adoption of the indexed cap is not undermined.

[19] See 5 U.S.C. 553(d)(3).

List of Subjects in 47 CFR, Part 36

Communications common carriers, Reporting and recordkeeping requirements. Telephone.

Federal Communications Commission,
William F. Caton,
Acting Secretary.

Part 36 of title 47 of the Code of Federal Regulations is amended as follows:

PART 36—JURISDICTIONAL SEPARATIONS PROCEDURES; STANDARD PROCEDURES FOR SEPARATING TELECOMMUNICATIONS PROPERTY COSTS, REVENUES, EXPENSES, TAXES AND RESERVES FOR TELECOMMUNICATIONS COMPANIES

1. The authority citation for part 36 continues to read as follows:

Authority: 47 U.S.C. 151, 154 (i) and (j), 205, 221(c), 403 and 410.

2. Section 36.601 is amended by adding a new paragraph (c) to read as follows:

§ 36.601 General.

* * * * *

(c) During an interim period commencing on January 1, 1994, and terminating on January 1, 1996, the annual amount of the total Universal Service Fund shall not exceed the amount of the total Universal Service Fund for the immediately preceding calendar year, increased by a rate equal to the rate of increase in the total number of working loops during the calendar year preceding the June filing. The total Universal Service Fund shall consist of the Universal Service expense adjustments, including amounts calculated pursuant to §§ 36.612(a) and 36.631. The rate of increase in total working loops shall be based upon the difference between the number of total working loops on December 31 of the year preceding the June filing and the number of total working loops on December 31 of the second year preceding that filing, both calculated pursuant to § 36.611(a)(8).

3. Section 36.622 is amended by revising the first sentence of paragraph (a) and by adding a new paragraph (c) to read as follows:

§ 36.622 National and study area average unseparated loop costs.

(a) National Average Unseparated Loop Cost per Working Loop. Except as provided in paragraph (c) of this section, this is equal to the sum of the Loop Costs for each study area in the country as calculated pursuant to § 36.621(a) divided by the sum of the working loops reported in § 36.611(a)(8) for each study area in the country.* * *

* * * * *

(c) During an interim period commencing on January 1, 1994, and terminating on January 1, 1996, the National Average Unseparated Loop Cost per Working Loop shall be the greater of:

(1) The amount calculated pursuant to the method described in paragraph (a) of this section; or

(2) An amount calculated to produce the maximum total Universal Service Fund allowable pursuant to § 36.601(c).

GENERAL SERVICES ADMINISTRATION

48 CFR Parts 525 and 552

[Acquisition Circular AC–93–1]

General Services Administration Acquisition Regulation; Implementation of the Memorandum of Understanding Between the United States of America and the European Economic Community (EC) on Government Procurement and the North American Free Trade Agreement

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Temporary rule.

SUMMARY: This Acquisition Circular temporarily amends the General Services Administration Acquisition Regulation to implement the Memorandum of Understanding between the United States and the European Economic Community (EC) on Government Procurement and the North American Free Trade Agreement (NAFTA) as approved by Congress.

DATES: Effective Date: January 1, 1994. This amendment to the GSAR applies to solicitations issued on or after January 1, 1994.

Expiration Date: December 31, 1994.

Comment Date: February 28, 1994.

ADDRESSES: Comments should be submitted to Marjorie Ashby, Office of GSA Acquisition Policy (VP), 18th and F Streets, NW, Room 4006, Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Edward J. McAndrew, Office of GSA Acquisition Policy, (202) 501–1224.

SUPPLEMENTARY INFORMATION:

A. Background

a. The United States has entered into agreements with EC and NAFTA countries which provide, among other things, for offers of EC and NAFTA country end products over certain thresholds without regard to the Buy American Act. In addition, these agreements provide an exemption from the Buy American Act for EC and NAFTA construction materials furnished under construction contracts with an estimated value of $6,500,000 or more. Consequently, no price differential is to be applied to EC and NAFTA country construction materials, nor to offers of EC and NAFTA country end products.

b. The evaluation criteria in GSAR 552.225–75, Buy American Act Notice-Construction Materials, are modified to eliminate the use of the 6 percent evaluation factor where EC and NAFTA country construction materials are proposed for use under such contracts.

c. The provision at 552.225–8 and the clause at 552.225–9 which implement the General Services Administration Board of Contract Appeals (GSBCA) decision in *International Business Machines Corporation*, GSBCA No. 10532–P, May 18, 1990, are revised to reflect the NAFTA Implementation Act's definition of Mexican or Canadian end products as eligible products.

d. Section 525.402 is revised to reflect the change in the threshold for application of the Trade Agreements Act.

B. Determination to Issue a Temporary Regulation

A determination has been made to issue a temporary rule in order to meet the January 1, 1994, effectivity date for implementation of NAFTA. However, pursuant to Public Law 98–577 and FAR 1.501, public comments are solicited and will be considered in formulating a final rule.

C. Executive Order 12866.

This temporary rule was not submitted to the Office of Management and Budget because it is not a significant rule as defined in Executive Order 12866, Regulatory Planning and Review.

D. Regulatory Flexibility Act

The changes do not appear to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et sequentia* because they permit offerors to use EC and NAFTA country end products or construction materials above certain thresholds without application of Buy American Act preference. For this reason, a regulatory flexibility analysis has not been prepared. However, comments from small entities concerning this temporary change will be considered in accordance with 5 U.S.C. 610. Such comments must be submitted separately and cite 5 U.S.C. 601 *et sequentia* (Acquisition Circular AC–93–1) in correspondence.

E. Paperwork Reduction Act

The provision at 552.225–75, Buy American Act Notice-Construction Materials, which is being modified by this rule, does contain an information collection requirement. However, the revision does not affect the information collection requirements which have previously been approved by OMB and assigned Control Number 3090–0198.

Government procurement.

PARTS 525 AND 552—[AMENDED]

Accordingly, 48 CFR parts 525 and 552 are temporarily amended as follows:

1. The authority citation for 48 CFR parts 525 and 552 continues to read as follows:

Authority: 40 U.S.C. 486(c).

2. Section 525.203 is revised effective January 1, 1994 through December 31, 1994 to read as follows:

525.203 Evaluation of offers.

(a) The HCA or a designee may authorize the use of a particular foreign construction material when the use of a comparable domestic construction material would unreasonably increase the cost of the contract. The cost of a particular domestic construction material shall be determined to be reasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent. The cost of construction material includes all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

(b) The evaluation process described in paragraph (a) of this section does not apply to:

(1) Excepted materials listed in the solicitation; or

(2) European Community (EC) and North American Free Trade Agreement (NAFTA) country construction materials offered in response to solicitations for construction contracts with an estimated value of $6,500,000 or more.

(c) Offerors proposing to use foreign construction materials (other than EC or NAFTA country construction materials on contracts with an estimated value of $6,500,000 or more) are required to provide adequate information for Government evaluation under paragraph

(a) of this section. Offerors may submit alternate offers for comparable domestic construction materials at stated prices. When foreign construction material (other than EC or NAFTA country construction materials on contracts with an estimated value of $6,500,000 or more) is not authorized under paragraph (a), evaluation of the offer must be based on the stated price, if any, for comparable domestic material. If an offeror proposing to use foreign construction materials (other than EC or NAFTA country construction materials on contracts with an estimated value of $6,500,000 or more) does not furnish data on the cost of comparable domestic construction materials, and the use of foreign construction material is not authorized, such offer must be rejected, unless the contracting officer is able to obtain prices on comparable domestic material which verifies that domestic prices are unreasonable.

(d) The contracting officer shall add 6 percent to the cost of foreign construction materials (other than EC or NAFTA country construction materials on contracts with an estimated value of $6,500,000 or more) authorized for use in accordance with paragraph (a) of this section, to the prices offered, if applicable, for evaluation purposes only.

3. Section 525.205 is revised effective January 1, 1994 through December 31, 1994 to read as follows:

525.205 Solicitation provision and contract clause.

The contracting officer shall insert the provision at 552.225–75, Buy American Act Notice—Construction Materials in solicitations for construction that include the Buy American Act—Construction Materials clause at FAR 52.225–5 and have an estimated value less than $6,500,000. Alternate I shall be used for construction contracts with an estimated value of $6,500,000 or more that include the Buy American Act—Construction Materials Under European Community Agreement and NAFTA clause at FAR 52.225–15.

4. Section 525.402 is amended effective January 1, 1994 through December 31, 1994 by removing "$176,000" from the last sentence of paragraph (a) and substitute "$182,000".

5. Section 552.225–8 is revised effective January 1, 1994 through December 31, 1994 to read as follows:

552.225–8 Trade Agreements Act Certificate.

As prescribed in 525.407(a), insert the following provision:

Trade Agreements Act Certificate (Jan 1994) (Deviation FAR 52.225–8)

(a) The Offeror, by signing this offer, certifies that each end product to be delivered under this contract is a U.S. made end product, a designated country end product, a Caribbean Basin country end product, a Canadian end product or a Mexican end product as defined in the clause entitled "Trade Agreements Act" at 48 CFR 552.225–9.

(b) Offers will be evaluated in accordance with subpart 25.4 of the Federal Acquisition Regulation except that offers of U.S. made end products, designated country end products, Caribbean Basin end products, Canadian end products, or Mexican end products shall be evaluated without the restrictions of the Buy American Act or the Balance of Payments Program.

(End of Provision)

6. Section 552.225–9 is revised effective January 1, 1994 through December 31, 1994 to read as follows:

552.225–9 Trade Agreements Act.

As prescribed in 525.407(a), insert the following clause.

Trade Agreements Act (Jan 1994) (Deviation FAR 52.225–9)

(a) This clause implements the Trade Agreements Act of 1979 (19 U.S.C. 2501–2582) by providing a preference for U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products or Mexican end products over other products.

"Caribbean Basin country end products," as used in this clause, means an article that: (1) Is wholly the growth, product, or manufacture of a Caribbean Basin country (as defined in section 25.401 of the Federal Acquisition Regulation (FAR)), or (2) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term includes services (except transportation services) incidental to its supply; provided that the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such. The term excludes products that are excluded from duty free treatment from Caribbean countries under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)). These exclusions presently consist of: (i) Textiles and apparel articles that are subject to textile agreements; (ii) footwear, handbags, luggage, flat goods, work gloves, and leather wearing apparel not designated as eligible articles for the purpose of the Generalized System of Preference under title V of the Trade Act of 1974; (iii) tuna, prepared or preserved in any manner in airtight containers; (iv) petroleum, or any product derived from petroleum; and (v) watches and watch parts (including cases, bracelets and straps) of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the Tariff Schedule of the United States (TSUS) column 2 rates of duty apply.

"Designated country end product," as used in this clause, means an article that: (1) Is wholly the growth, product, or manufacture of the designated country (as defined in section 25.401 of the Federal Acquisition Regulation (FAR)), or (2) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such.

"Canadian end product," as used in this clause, means an article that: (1) Is wholly the growth, product, or manufacture of Canada, or (2) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed in Canada into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term includes services (except transportation services) incidental to its supply; provided, that the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such.

"Mexican end product," as used in this clause, means an article that: (1) Is wholly the growth, product, or manufacture of Mexico, or (2) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed in Mexico into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such.

"End products," as used in this clause, means those articles, materials, and supplies to be acquired under this contract for public use.

"U.S. made end product," as used in this clause, means an article which: (1) Is wholly the growth, product, or manufacture of the United States, or (2) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed.

"Nondesignated country end products," as used in this clause, means any end product which is not a U.S. made end product, designated country end product, Caribbean Basin Country end product, Canadian end product or Mexican end product.

"United States," as used in this clause, means the United States, its possessions,

Puerto Rico, and any other place which is subject to its jurisdiction, but does not include leased bases or trust territories.

(b) The Contractor agrees to deliver under this contract only U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products or Mexican end products or, if a national interest waiver is granted under section 302 of the Trade Agreements Act of 1979, nondesignated country end products. Only if such waiver is granted may a nondesignated country end product be delivered under this contract(s).

(c) Offers will be evaluated in accordance with the policies and procedures of Part 25 of the FAR except that offers of U.S. made end products, designated country end products, Caribbean Basin end products, Canadian end products or Mexican end products shall be evaluated without the restrictions of the Buy American Act or the Balance of Payments Program.

(End of Clause)

7. Section 552.225–75 is revised effective January 1, 1994 through December 31, 1994 to read as follows:

552.225–75 Buy American Act Notice—construction materials.

As prescribed in 525.205, insert the following provision:

Buy American Act Notice—Construction Materials (Jan 1994)

(a) The Buy American Act (41 U.S.C. 10) generally requires that only domestic construction material be used in performing this contract (See the clause entitled "Buy American Act—Construction Materials"). This requirement does not apply to the excepted construction material or components listed below:

(List Applicable Excepted Materials or Indicate "None.")

(b) Offers based on the use of other foreign construction material may be acceptable for award if the Government determines that—

(1) Comparable domestic construction material in sufficient and reasonably available quantities, of a satisfactory quality, is unavailable; or

(2) Use of comparable domestic construction material is impracticable or would unreasonably increase the cost of this contract.

(c) Any offer based on the use of one or more other foreign construction materials shall include current data, based on a reasonable canvass of suppliers, in the format listed in paragraph (g) below, clearly demonstrating that the cost of each other foreign construction material, plus 6 percent, is less than the cost of each comparable domestic construction material. The cost of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate may be issued).

(d) For evaluation purposes, the Government will add to the offer 6 percent of the cost of other foreign construction material that qualifies for acceptance under paragraph (c) above.

(e) When offering other foreign construction material, offerors may also offer, at stated prices, any available comparable domestic construction material to avoid the possibility that the entire offer will be rejected if the other foreign construction material is not accepted under (c) above. If any other foreign construction material does not qualify for acceptance under paragraph (c) above, the Government will evaluate the offer on the basis of the stated price for comparable domestic construction material, and the Offeror shall be required to furnish such domestic construction material at that price. If the Offeror does not state a price for a comparable domestic construction material, and the other foreign construction material does not qualify for acceptance under paragraph (c) above, the offer will be rejected in sealed bid procurements and may be rejected in negotiated procurements.

(f) If the foregoing procedure results in a tie between a foreign offer as evaluated and a domestic offer, award shall be made on the domestic offer. In such case, offers proposing to use any foreign construction material will be considered to be foreign offers.

(g) For evaluation purposes under paragraph (c) above, the following information and any applicable supporting data based on the canvass of suppliers shall be included in the offer for the use of one or more other foreign construction materials:

FOREIGN AND DOMESTIC CONSTRUCTION MATERIALS COST COMPARISON

Construction material description	Unit of measure	Quantity	Cost (dollars)*
Item 1:			
Foreign construction material.			
Comparable domestic construction material.			
Item 2:			
Foreign construction material.			
Comparable Domestic construction material.			

*Include all delivery costs to the construction site and any applicable duty.

(End of Provision)

Alternate I (JAN 1994). If Alternate I is used, paragraphs (a) and (f) of the basic clause should be deleted and the following paragraphs (a) and (f) substituted. In addition, two asterisks should be inserted after the phrase "Foreign construction material" each time it appears in the chart in paragraph (g) and the following explanation added at the bottom of the chart "** Do not include EC or NAFTA country construction materials."

(a) The Buy American Act (41 U.S.C. 10) generally requires that only domestic construction material be used in performing this contract. However, the Memorandum of Understanding between the United States of America and the European Community (EC) on Government procurement and the North American Free Trade Agreement (NAFTA) exempt EC and NAFTA country construction material from application of the Buy American Act. (See FAR 52.225–15 "Construction Materials under European Community and NAFTA Agreements"). Therefore, the Contractor shall use only domestic construction material, EC construction materials, or NAFTA country construction materials in the performance of this contract except for other foreign construction materials, if any, listed below. "Other foreign construction material," as used in this provision, means construction material that is not EC or NAFTA country construction material as defined in FAR 52.225–15.

(List Applicable Excepted Materials or Indicate "None.")

(f) If the foregoing procedure results in a tie between an offer that includes other foreign construction material as evaluated and an offer that includes domestic, EC or NAFTA construction material, award shall be made on the offer providing domestic, EC or NAFTA construction material.

Dated: December 22, 1993.

Richard H. Hopf, III,

Associate Administrator for Acquisition Policy.

BILLING CODE 6820–61–M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Part 1805

[NFS Case No. 941414]

Expedited Implementation of the North American Free Trade Agreement; NASA FAR Supplement Synopsizing Requirements

AGENCY: Office of Procurement, Procurement Policy Division, NASA.

ACTION: Interim rule with request for comments.

SUMMARY: The North American Free Trade Agreement (NAFTA) requires that all procurements covered by it must be synopsized in the Commerce Business Daily. In this rule, NASA is implementing internal regulations concerning synopses of requirements where contract award and performance will take place outside the U.S.

DATES: This interim rule is effective January 1, 1994; comments must be received on or before February 28, 1994.

ADDRESSES: Comments may be submitted to Mr. William T. Childs, NASA Headquarters, Office of Procurement (Code HP), Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: William T. Childs, (202) 358–0454.

SUPPLEMENTARY INFORMATION: The North American Free Trade Agreement (NAFTA) requires that all procurements covered by it must be synopsized in the Commerce Business Daily. This requirement may be impractical for some procurements made in overseas locations. Therefore, the FAR provides that defense agencies may develop internal regulations concerning synopses of requirements where contract award and performance will take place outside the U.S.

NAFTA applies to procurements of supplies and services (with some exceptions, such as R&D). Although there are several different dollar thresholds in NAFTA, it is generally not possible to know at the time of synopsis which threshold applies, or whether a NAFTA-covered firm will propose. Therefore, all actions must be synopsized at the lowest applicable threshold.

Impact

NASA certifies that this regulation will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The regulation imposes no new burdens on the public under the Paperwork Reduction Act, as implemented at 5 CFR part 1320.

List of Subjects in 48 CFR Part 1805

Government procurement.

Tom Luedtke,

Acting Deputy Associate Administrator for Procurement.

PART 1805—PUBLICIZING CONTRACT ACTIONS

1. The authority citation for 48 CFR part 1805 continues to read as follows:

Authority: 42 U.S.C. 2473(c)(1).

2. In section 1805.202, the existing paragraph is designated as paragraph (a), and a new paragraph (b) is added as follows:

1805.202 Exceptions.

* * * * *

(b) In accordance with FAR 5.202(a)(12), unless another exception applies, contract actions that will be made and performed outside the United States shall be synopsized in the Commerce Business Daily as follows: The contracting officer shall synopsize: (1) All contract actions for supplies or services (other than R&D and construction) with an estimated value above $25,000, and (2) all contract actions for construction with an estimated value above $6,500,000.

BILLING CODE 7510–01–M

GENERAL SERVICES ADMINISTRATION

Board of Contract Appeals

48 CFR Part 6101

Rules of Procedure of the General Services Administration Board of Contract Appeals

AGENCY: Board of Contract Appeals, General Services Administration.

ACTION: Final rule.

SUMMARY: This document contains final revisions to the rules governing proceedings before the General Services Administration Board of Contract Appeals (Board). It supersedes the current rules of procedure of the Board in their entirety. The Board by majority vote has adopted these revised rules pursuant to its authority contained in section 111 of the Federal Property and Administrative Services Act of 1949 (commonly known as the Brooks Act) and the Contract Disputes Act of 1978. The revised rules will govern bid protest proceedings before the Board pursuant to the Brooks Act and contract appeals pursuant to the Contract Disputes Act of 1978, as well as any applications for costs incurred with regard to such protests and appeals. These revisions will clarify the Board's procedures in certain respects, as well as streamline those procedures to ensure that cases are processed in the most efficient possible manner.

EFFECTIVE DATE: January 3, 1994.

FOR FURTHER INFORMATION CONTACT: Wilbur T. Miller, Chief Counsel, GSA Board of Contract Appeals, (202) 501–0891. Copies of the rules may be obtained from: Office of the Clerk of the Board, (202) 501–0116.

SUPPLEMENTARY INFORMATION:

Regulatory Flexibility Act

The General Services Administration certifies that these revisions will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Background

On December 22, 1992, the Board published in the **Federal Register** (57 FR 60783) a notice inviting written comments on proposed revisions to its rules of procedure. This notice announced the Board's intention to revise its existing rules of procedure, 48 CFR part 6101, and explained that the purpose of the proposed revisions was to clarify the Board's procedures in certain respects, as well as to streamline those procedures so as to ensure that cases are processed in the most efficient possible manner. The notice explained how to obtain copies of the proposed rules and invited interested persons to submit comments by February 12, 1993.

The Board received extensive comments from the public and from federal agencies. After consideration of these comments, the Board's members adopted the proposed rules, as revised, by majority vote.

The most significant changes made by the Board's new rules are highlighted in the next section of the preamble. Following that, the preamble summarizes the more significant comments received by the Board during the comment period and indicates how these comments were addressed in preparing the final version of the rules.

Highlights of Significant Changes Contained in the New Rules

The new rules contain several significant refinements of the Board's prior procedures. The definition of "filing" (section 6101.1(b)) has been changed to provide that all materials except a notice of appeal and an application for costs are filed when received by the Office of the Clerk during working hours. Specific rules are provided for the two mentioned exceptions. In addition, a new subparagraph is added to provide guidance for filing of pleadings by facsimile transmission, and the working hours of the Board for filing purposes are specifically noted (section 6101.1(b)(15)); section 6101.38(a) contains related changes specifying the hours of the Clerk.

The rule relating to the computation of time (section 6101.2) has been revised

to provide for situations where the Board is required to close due to inclement weather or other emergency. In addition, changes have been made to the method of calculating short time deadlines. Weekends and holidays under the proposed change would count only when a time deadline is eleven or more days, rather than seven as formerly, and the number of exceptions to this rule has been reduced.

The Board has made several changes in the rule pertaining to the filing of cases (section 6106.5). A category of participation in a case has been added, as the Board may, in its discretion, permit an entity to participate in a special or limited way, such as by filing an amicus curiae brief. Section 6101.5(b)(3)(iii) includes changes governing timeliness of a protest where a protester first protests to the procuring agency. A denial of an agency protest based on an alleged impropriety apparent on the face of the solicitation (or amendment) would give the protester no more than ten working days to protest to the Board, even if more than ten days are available after the agency denial before submission of bids or proposals. This proposed rule alters the practice under the existing rule and case law. Section 6101.5(b)(4) provides that an intervention filed after an amendment to a protest will be timely within four working days of receipt of the amendment, but such intervention may relate only to the newly raised ground of protest added by the amendment. Section 6101.5(d) contains more specificity as to the requirements placed on the contracting officer to give notice of the protest.

With regard to appearances before the Board, the rules have been revised to provide expressly that business entities may be represented only by an attorney or by an appropriate official or employee (section 6101.6(a)). Entities may not be represented by a non-attorney consultant. A motion to withdraw an appearance is now required and the contents of such a motion are stated.

With regard to pleadings, the rules have been revised to provide that in an appeal, a dispositive motion or a motion for a more definite statement may be filed in lieu of the answer only with the permission of the Board (section 6101.7(c)). Protest answers are now due no later than ten working days after the filing of the protest, rather than fifteen calendar days, and the time limits for filing amendments to a protest have been clarified.

The rule governing summary relief motions (section 6101.8(g)) has been substantially revised. Reference to such motions being available only in appeals has been deleted. Parties are advised that a motion for summary relief should be filed only when a party believes that based upon uncontested material facts, it is entitled to relief in whole or in part as a matter of law. Both the moving and opposing parties must file separate documents in addition to their briefs detailing the alleged uncontested facts and material facts which allegedly remain in dispute. The opposing party is cautioned that it may not rest upon the mere allegations or denials of its pleadings; if its response contests facts asserted by the movant, it must set forth specific facts showing that there is a genuine issue of material fact. If the adverse party does not so respond, summary relief, if appropriate, shall be entered against it. For good cause shown, if an opposing party cannot present facts essential to justify its opposition, the Board may defer ruling on the motion to permit affidavits to be obtained or other discovery to be conducted.

The rule governing conferences (section 6101.10) has been revised to provide expressly for the possibility of employment of alternative dispute resolution techniques. The possibilities include appointment of a neutral from within the Board to conduct the alternate proceedings.

The rules governing the Board's small claims and accelerated procedures (sections 6101.13, 6101.14) have been entirely rewritten. The changes are intended to clarify and simplify the rules, not substantively alter the practice in these areas. References to specific deadlines in such cases have been deleted; the new rules state that the Board will establish in each case such procedures as are appropriate for resolution of the case within the applicable time frame.

The Board made several revisions to the rules relating to discovery (sections 6101.15, 6101.16, and 6101.17). Discovery will be available in all cases only to the extent incorporated into a discovery plan that is approved by the Board. Permissive intervenors and other persons granted limited rights of participation may be permitted rights of discovery in accordance with an order of the Board. Time limits for raising objections to discovery requests are established in section 6101.15(f)(2), and a requirement is added that parties attempt to resolve discovery disputes before bringing such disputes to the attention of the Board. The parties must now ask the Board for an order authorizing the taking of depositions in appeals as well as protests (section 6101.16).

Answers in protest cases must be amended within five working days after service, and the rules contain a new requirement that a party that has responded to written interrogatories, requests for admission, or requests for production of documents, upon becoming aware of deficiencies or inaccuracies in its original responses, or upon acquiring additional information or additional relevant documents, shall supplement its responses (section 6101.17(f)).

Sanctions and disciplinary proceedings are governed by an entirely new section 6101.18. (Former section 6101.18, permitting the appointment of hearing examiners in certain cases, has been eliminated.) Parties and their representatives are advised to adhere to the Board's orders and to applicable statutes and regulations providing standards of conduct. Attorneys are advised to adhere to the rules of professional conduct and ethics of the jurisdictions in which they are licensed. Specific sanctions, such as preclusion of issues or evidence or dismissal of a case, are provided for misconduct by a party. The rule also provides for further disciplinary proceedings in appropriate circumstances.

The rule addressing dismissals (section 6101.28) has been completely rewritten. It now specifies that every dismissal will be with prejudice to reinstatement, unless otherwise requested. The rule also shortens the period of time after which a dismissal without prejudice will convert to one with prejudice, unless otherwise provided by the Board.

The new rules contain a number of changes to the rules dealing with Board decisions and reconsideration of those decisions (sections 6101.29, 6101.30, and 6101.32). Section 6101.29(b)(2) now advises the parties that in a protest, the Board ordinarily will, within the forty-five-day period applicable to the original protest, decide all issues, including those raised by amendment or intervention. However, in instances when the decision cannot be rendered within that period, the Board will whenever possible notify the parties prior to the originally-scheduled hearing date, or date for record submission, if it believes that because of a new ground of protest raised by an amendment or by an intervention, the protest might not be decided within the original forty-five-day period.

Section 6101.30 has been substantially rewritten to clarify conditions for making a request for full Board consideration and has been changed to provide for full Board consideration upon majority vote of the

Board's judges. The time limits for and effect of filing a motion for reconsideration have also been clarified. The limits are thirty calendar days in an appeal and seven working days in a protest after the date of receipt by the moving party of the decision or order (section 6101.32(c)). A pending motion for reconsideration does not affect the finality of a decision or suspend its operation.

Section 6101.35 has been rewritten to provide guidelines and time limits for the filing of cost applications. These include the submission of exhibits documenting the claimed costs, signed and verified by appropriate persons. Applications may now be filed with regard to protests as well as appeals, within thirty calendar days after a final disposition (including the running of the period for appeal).

Summary of Comments

The Board received written comments from twenty-seven commentators. Commentators included federal agencies, components of federal agencies, two bar association groups, four attorneys in private practice who have practiced before the Board, and one corporation. Four commentators had only brief, general comments on the rules; the other twenty-three addressed twenty-nine of the forty rules. The Board carefully considered each comment, and many suggestions contained in the comments were adopted. The more significant comments are discussed below in a section-by-section format.

Section 6101.1 (Scope of Rules; Definitions; Construction; Rulings and Orders; Panels; Situs)

At the suggestion of one commentator, the statement that an appeal may be filed by submitting a written notice of appeal to the contracting officer has been deleted from section 6101.1(b)(5). An appeal is to be filed with the Clerk of the Board. At the suggestion of two commentators, a new subparagraph is added to section 6101.1(b)(5) to provide guidance on filing pleadings by facsimile transmission, and section 6101.1(b)(15) now provides the working hours of the Board for filing purposes.

Section 6101.2 (Time: Enlargement; Computation)

All four commentators who addressed this rule suggested that it should clarify the exceptions to the time computation rules and address situations when the Clerk's Office closes early. Section 6101.2(c), relating to the computation of time, has been amended to provide for situations where the Board is required to close due to inclement weather or other emergency. In addition, changes have been made to the method of calculating short time deadlines. Weekends and holidays would count only when a time deadline is eleven or more days, rather than seven as formerly, so as to conform to the Federal Rules of Civil Procedure, and the number of exceptions to this rule has been reduced.

Section 6101.3 (Service of Papers)

At the suggestion of two commentators, the current practice regarding the filing of discovery papers with the Board has been changed. Now, discovery requests and responses are not to be filed with the Board, unless the Board orders otherwise.

Section 6101.4 (Appeal File; Protest File)

Pagination requirements are included in section 6101.4(d). At the suggestion of five commentators, the requirement that the entire file be consecutively paginated has been dropped. Instead, the pages within each exhibit shall be numbered consecutively unless the exhibit already is paginated in a logical manner.

Section 6101.5 (Filing Cases; Time Limits for Filing; Docketing; Notice of Protest by Contracting Officer)

Two commentators suggested that an intervenor should be required to support any additional grounds of protest it might assert in the same manner as a protester. (Indeed, one commentator suggested that protesters be held to a higher standard than that set for intervenors.) Section 6106.5(a)(4) now provides that all new grounds of protest asserted by intervenors must be described in the same manner as those supporting a protest (section 6101.7(b)(2)(v)).

Four commentators supported the change to section 6101.5(b)(3)(iii) governing timeliness of a protest where a protester first protests to the procuring agency. A denial of an agency protest based on an alleged impropriety apparent on the face of the solicitation (or amendment) would give the protester no more than ten working days to protest to the Board, even if more than ten days are available after the agency denial before submission of bids or proposals. This rule alters the practice under the existing rule and case law, to require protesters to pursue matters promptly once they have been raised.

Section 6101.5(b)(4) provides that an intervention filed after an amendment to a protest will be timely within four working days of receipt of the amendment, but such intervention may relate only to the newly raised ground of protest added by the amendment. Two commentators specifically supported this change.

Section 6101.5(d) contains more specificity as to the requirements placed on the contracting officer to give notice of the protest, and shortens from five to three working days the time in which the contracting officer must notify the Board that all interested parties have been notified of the protest. The proposed version of this rule shortened the time period from five days to one day; in response to the concerns of three commentators that their agencies would be hard pressed to comply, the final version specifies three-day notice.

Section 6101.6 (Appearances; Notice of Appearance)

Section 6101.6 has been amended to provide expressly that business entities may be represented only by an attorney or by an appropriate official or employee. Entities may not be represented by a non-attorney consultant. One commentator questioned whether this limitation was consistent with the Board's statutory obligation to provide, to the extent practicable, the informal, expeditious, and inexpensive resolution of disputes. The purpose of section 6101.6 is to provide to corporations and other business entities a parallel privilege of pro se representation. Such a party is not permitted under the rule to retain a non-party, non-attorney representative, such as a consultant, which could be construed as the unauthorized practice of law.

Section 6101.7 (Pleadings)

Section 6106.7(c)(1) has been amended to provide that, in an appeal, a dispositive motion or a motion for a more definite statement may be filed in lieu of the answer only with permission of the Board. The proposed version of this section provided that a dispositive motion or motion for a more definite statement could not be filed in lieu of an answer. Six commentators objected to the change, noting that agency counsel sometimes receive appeals that are subject to summary dismissal, and, in such situations, drafting an answer is a waste of agency resources. The Board is concerned that the filing of dispositive motions in lieu of answers at the last allowable moment slows appeal proceedings. It recognizes, however, that some appeals are proper subjects for dispositive motions. The rule has been revised in response to the comments received.

Pursuant to section 6101.7(c)(2), protest answers are now due no later than ten working days after the filing of the protest, rather than fifteen working days. Three agency counsel objected to the shortening of this time period; however, the Board concluded that the prompt filing of answers is helpful to the development of a case.

Section 6101.7(f)(2) clarifies the time limits for filing amendments to a protest and reflects the suggestions of five commentators that leave of the Board not be required to amend a protest to include an additional ground of protest.

Section 6101.8 (Motions)

Section 6106.8(g), governing summary relief motions, has been substantially revised along lines proposed by five commentators. Reference to such motions being available only in appeals has been deleted. Parties are advised that a motion for summary relief should be filed only when a party believes that based upon uncontested material facts, it is entitled to relief in whole or in part as a matter of law. Both the moving and opposing parties must file separate documents in addition to their briefs detailing the alleged uncontested facts and material facts which allegedly remain in dispute. The opposing party is cautioned that it may not rest upon the mere allegations or denials of its pleadings; if its response contests facts asserted by the movant, it must set forth specific facts showing that there is a genuine issue of material fact. If the adverse party does not so respond, summary relief, if appropriate, shall be entered against it. For good cause shown, if an opposing party cannot present facts essential to justify its opposition, the Board may defer ruling on the motion to permit affidavits to be obtained or other discovery to be conducted.

Section 6101.10 (Conferences; Conference Memorandum; Prehearing Order; Prehearing and Presubmission Briefs)

This section has been amended to provide expressly for the possibility of employment of alternative dispute resolution techniques. At the suggestion of five commentators, the possibilities include appointment of a neutral from within the Board, including the panel chairman, to conduct the alternate proceedings.

Section 6101.15 (General Provisions Governing Discovery)

Under changes to section 6106.15(d), discovery will be available in all cases only to the extent incorporated into a discovery plan that is approved by the Board. One commentator actively supported this change, and none criticized it. Similarly well-received was the new provision that permissive intervenors and other persons granted limited rights of participation may be permitted rights of discovery in accordance with an order of the Board. Time limits for raising objections to discovery requests are established in section 6101.15(f)(2). The proposed rule required objections to discovery requests in appeals to be filed within ten working days. Four commentators requested a longer time period. The rule now provides that such objections must be filed in fifteen calendar days. The limited period is intended to promote identification and resolution of objections sufficiently early that they will not delay responses to discovery requests. Finally, at the suggestion of two commentators, section 6101.15(f)(3) adds a requirement that parties attempt to resolve discovery disputes before bringing such disputes to the attention of the Board.

Section 6101.16 (Depositions)

The parties must now ask the Board for an order authorizing the taking of depositions in appeals as well as protests. One commentator felt this unnecessarily involved the Board in a matter easily resolved by the parties; another commentator supported the change. The Board adopted the change in an effort to focus the parties' attention on the necessity for specific depositions, and to increase control against excessive discovery.

Section 6101.17 (Interrogatories)

Section 6101.17(a) is revised to require answers to interrogatories in protest cases within five working days after service. The Board's current rule requires answers within ten calendar days, and five commentators suggested that the more liberal time period be maintained. The revised rule retains the five-day filing requirement, but provides that the time period established in the rules may be altered by the panel chairman in any case in which a different period is requested.

At the suggestion of two commentators, section 6101.17(f) contains a new requirement that a party that has responded to written interrogatories, requests for admission, or requests for production of documents, upon becoming aware of deficiencies or inaccuracies in its original responses, or upon acquiring additional information or additional relevant documents, shall supplement its responses.

Section 6101.18 (Sanctions and Other Proceedings)

Section 6101.18, permitting the appointment of hearing examiners in certain case, has been eliminated in its entirety. The one comment received on this change was supportive. A new section 6101.18 is added to govern sanctions and disciplinary proceedings. Portions of this rule replace former provisions that appeared in sections 6101.10(d) and 6101.15(g). Parties and their representatives are advised to adhere to the Board's orders and to applicable statutes and regulations providing standards of conduct. In the proposed version of section 6101.18(a), attorneys were to required to follow the American Bar Association's Model Rules of Professional Conduct. In response to the concerns of six commentators, that subsection advises attorneys to the rules of professional conduct and ethics of the jurisdictions in which they are licensed. The rule also states that the Board will also look to voluntary professional guidelines in evaluating an individual's conduct.

Section 6101.28 (Dismissals)

In response to five comments received, section 6101.28 has been completely rewritten. Every commentator suggested that the proposed rule lacked clarity, and one noted that grounds for dismissal should not be mixed with types of dismissals. The current rule specifies that every dismissal will be with prejudice to reinstatement, unless otherwise requested. The rule also shortens the period of time after which a dismissal without prejudice will convert to one with prejudice, unless otherwise provided by the Board.

Section 6101.29 (Decisions)

Section 6101.29(b)(2) now advises the parties that in a protest, the Board ordinarily will, within the forty-five-day period applicable to the original protest, decide all issues, including those raised by amendment or intervention. However, in instances when the decision cannot be rendered within that period, the Board will whenever possible notify the parties prior to the originally-scheduled hearing date, or date for record submission, if it believes that because of a new ground of protest raised by an amendment or by an intervention, the protest might not be decided within the original forty-five-day period. This addition to section 6101.29 was supported by all three commentators commenting on this rule.

Section 6101.30 (Full Board Consideration)

This section has been substantially rewritten to clarify conditions for making a request for full Board consideration. Section 6101.30(a) requires that a request for full Board consideration must be made after the panel to which the case is assigned has issued its decisions on a motion for reconsideration or relief from decision. Two commentators suggested that this entailed too much delay; however, the Board determined that it was useful to an informed consideration of such a request. Section 6101.30(b) has been changed to provide for full Board consideration upon majority vote of the Board's judges. This change was strongly supported by three of the four commentators commenting on this rule.

Section 6101.32 (Reconsideration; Amendment of Decisions; New Hearings)

Section 6101.32(c) clarifies time limits for filing a motion for reconsideration. The limits are thirty calendar days in an appeal and seven working days in a protest after the date of receipt by the moving party of the decision or order. At the suggestion of one commentator, section 6101.32(d) has been added to clarify that a motion pending under this rule does not affect the finality of a decision or suspend its operation.

Section 6101.35 (Award of Costs)

Section 6101.35 has been rewritten to provide guidelines and time limits for the filing of cost applications. These include the submission of exhibits documenting the claimed costs, signed and verified by appropriate persons. Applications may now be filed with regard to protests as well as appeals, within thirty calendar days after a final disposition (including the running of the period for appeal). All three commentators commenting on this rule supported the guidelines and time limits.

List of Subjects in 48 CFR Part 6101

Administrative practice and procedures, Government procurement.

Adoption of Revised Rules

For the reasons set out in the preamble, 48 CFR part 6101 is revised to read as follows:

PART 6101—RULES OF THE GENERAL SERVICES ADMINISTRATION BOARD OF CONTRACT APPEALS

Sec.

6101.0 Foreword.
6101.1 Scope of rules; definitions; construction; rulings and orders; panels; situs [Rule 1].
6101.2 Time: Enlargement; computation [Rule 2].
6101.3 Service of papers [Rule 3].
6101.4 The appeal file; protest file [Rule 4].
6101.5 Filing cases; time limits for filing; docketing; notice of protest by contracting officer [Rule 5].
6101.6 Appearances; notice of appearance [Rule 6].
6101.7 Pleading [Rule 7].
6101.8 Motions [Rule 8].
6101.9 Election of hearing or record submission [Rule 9].
6101.10 Conferences; conference memorandum; prehearing order; prehearing and presubmission briefs [Rule 10].
6101.11 Submission on the record without a hearing [Rule 11].
6101.12 Record of Board proceedings [Rule 12].
6101.13 Small claims procedure in appeals [Rule 13].
6101.14 Accelerated procedure in appeals [Rule 14].
6101.15 General provisions governing discovery [Rule 15].
6101.16 Depositions [Rule 16].
6101.17 Interrogatories to parties; requests for admission; requests for production of documents [Rule 17].
6101.18 Sanctions and other proceedings [Rule 18].
6101.19 Hearings: scheduling; notice; unexcused absences; suspension; decision [Rule 19].
6101.20 Subpoenas [Rule 20].
6101.21 Hearing procedures [Rule 21].
6101.22 Admissibility and weight of evidence [Rule 22].
6101.23 Exhibits [Rule 23].
6101.24 Transcripts of proceedings; corrections [Rule 24].
6101.25 Briefs and memoranda of law [Rule 25].
6101.26 Consolidation; separate hearings; separate determination of liability [Rule 26].
6101.27 Stay or suspension of proceedings; dismissals in lieu of stay or suspension [Rule 27].
6101.28 Dismissals [Rule 28].
6101.29 Decisions [Rule 29].
6101.30 Full Board consideration [Rule 30].
6101.31 Clearical mistakes [Rule 31].
6101.32 Reconsideration; amendment of decisions; new hearings [Rule 32].
6101.33 Relief from decision or order [Rule 33].
6101.34 Harmless error [Rule 34].
6101.35 Award of costs [Rule 35].
6101.36 Payment of Board awards [Rule 36].
601.37 Record on review of a Board decision [Rule 37].
601.38 Office of the Clerk of the Board [Rule 38].
601.39 Seal of the Board [Rule 39].
601.40 Forms [Rule 40].

Form 5—Appellant/Protester/Intervenor/Applicant Certificate of Finality

Authority: 41 U.S.C. 601–613; 40 U.S.C. 759(f)(8).

6101.0 Foreword.

The General Services Administration Board of Contract Appeals was established under the Contract Disputes Act of 1978, 41 U.S.C. 601–613, as an independent tribunal to hear and decide contract disputes between government contractors and the General Services Administration (GSA) and other executive agencies of the United States. The Board also hears and decides protests filed under the Brooks Act, 40 U.S.C. 759(f), which involve procurements subject to that Act, and conducts proceedings as required under other laws. The Board will act in accordance with the rules in this part and applicable standards of conduct so that the integrity, impartiality, and independence of the Board are preserved.

6101.1 Scope of rules; definitions; construction; rulings and orders; panels; situs [Rule 1].

(a) *Scope.* The rules in this part govern proceedings in all cases filed with the Board on or after January 3, 1994, and all further proceedings in cases then pending, except to the extent that in the opinion of the Board, their use in a particular case pending on the effective date would be infeasible or would work an injustice, in which event the former procedure applies. The Board will look to the rules in this part for guidance in conducting other proceedings authorized by law.

(b) *Definitions*—(1) *Appeal; appellant.* The term "appeal" means a contract dispute filed with the Board. The term "appellant" means a party filing an appeal.

(2) *Application; applicant.* The term "application" means a submission to the Board of a request for reimbursement of costs, under the Equal Access to Justice Act, 5 U.S.C. 504, or the Brooks Act, 40 U.S.C. 759(f)(5)(C), pursuant to 6101.35. The term "applicant" means a party filing an application.

(3) *Board judge; judge.* The term "Board judge" or "judge" means a member of the Board.

(4) *Case.* The term "case" means an appeal, protest, petition, or application.

(5) *Filing.* (i) Any document, other than a notice of appeal or an application for costs, is filed when it is received by the Office of the Clerk of the Board during the Board's working hours. A notice of appeal or an application for costs is filed upon the earlier of (A) its receipt by the Office of the Clerk of the Board or (B) if mailed, the date on which it is mailed. A United States Postal Service postmark shall be prima facie evidence that the document with which it is associated was mailed on the date thereof.

(ii) Facsimile transmissions to the Board and the parties are permitted. Parties are expected to submit their facsimile machine numbers with their filings. The Board's facsimile machine number is: (202) 501–0664. The filing of a document by facsimile transmission occurs upon receipt by the Board of the entire printed submission. Parties are specifically cautioned that deadlines for the filing of cases will not be extended merely because the Board's facsimile machine is busy or otherwise unavailable at the time on which the filing is due.

(6) *Interested party.* The term "interested party" means an actual or prospective bidder or offeror whose direct economic interest would be affected by the award of the contract or by failure to award the contract.

(7) *Intervening agency.* The term "intervening agency" means either (i) the General Services Administration, (ii) the agency for which GSA or another agency is conducting the procurement, or (iii) any other agency, when the agency seeking to intervene has submitted a motion to intervene in a protest in accordance with 6101.5(a)(4)(ii) and the motion has been granted. An intervening agency described in paragraph (b)(7) (i) or (ii) will be accorded the same rights as an intervenor of right; an intervening agency described in paragraph (b)(7)(iii) will be accorded the same rights as a permissive intervenor.

(8) *Intervenor of right.* The term "intervenor of right" means (i) an interested party who files with the Board a notice of intervention in accordance with 6101.5(a)(4)(i) and who has not filed a protest concerning the same procurement with the United States General Accounting Office (GAO), or (ii) in a protest involving a procurement being conducted by an entity other than a Federal agency, the entity conducting the procurement.

(9) *Intervenor, permissive.* The term "permissive intervenor" means any entity that (i) is an interested party and has filed a protest concerning the same procurement at the GAO, has submitted a motion to intervene in a protest in accordance with 6101.5(a)(4)(iii), and whose motion has been granted, or (ii) has been permitted by the Board in its discretion to intervene in a case.

(10) *Party.* The term "party" means an appellant, applicant, petitioner, protester, respondent, intervenor of right, intervening agency, or permissive intervenor.

(11) *Petition; petitioner.* The term "petition" means a request filed under 41 U.S.C. 605(c)(4) that the Board direct a contracting officer to issue a written decision on a claim. The term "petitioner" means a party submitting a petition.

(12) *Protest; protester.* The term "protest" means a written objection by an interested party to a solicitation by a Federal agency for bids or proposals for a proposed contract for the procurement of property or services or a written objection to a proposed award or the award of such a contract. The term "protester" means an interested party who files a protest with the Board and who has not filed a protest with the GAO concerning the same procurement.

(13) *Respondent.* The term "respondent" means the Government agency whose decision, action, or inaction is the subject of an appeal, protest, petition, or application.

(14) *Working day.* The term "working day" means any day other than a Saturday, Sunday, or Federal holiday.

(15) *Working hours.* The Board's working hours are 8 a.m. to 4:30 p.m., Eastern Time, on each working day.

(c) *Construction.* The rules in this part shall be construed to secure the just, speedy, and inexpensive resolution of every case. The Board looks to the Federal Rules of Civil Procedure for guidance in construing those Board rules which are similar to Federal Rules.

(d) *Rulings, orders, and directions.* The Board may apply the rules in this part and make such rulings and issue such orders and directions as are necessary to secure the just, speedy, and inexpensive resolution of every case before the Board. Any ruling, order, or direction that the Board may make or issue pursuant to the rules in this part may be made on the motion or request of any party or on the initiative of the Board. The Board may also amend, alter, or vacate a ruling, order, or direction upon such terms as are just. In making rulings and issuing orders and directions pursuant to the rules in this part, the Board takes into consideration those Federal Rules of Civil Procedure which address matters not specifically covered herein.

(e) *Panels.* Each case will be assigned to a panel consisting of three judges, with one member designated as the panel chairman, in accordance with such procedures as may be established by the Board. The panel chairman is responsible for processing the case, including scheduling and conducting proceedings and hearings. In addition, the panel chairman may, without participation by other panel members, decide an appeal under the small claims procedure (6101.13), suspend procurement authority in a protest (6101.19(d)), rule on nondispositive motions (except for amounts in controversy under 6101.13(a)(2)), and dismiss a case if no party objects (6101.28(c)). All other matters, except for those before the full Board under 6101.30, are decided for the Board by a majority of the panel.

(f) *Situs.* The address of the Office of the Clerk of the Board is: Room 7022, General Services Administration Building, 18th and F Streets, NW., Washington, DC 20405. The Clerk's telephone number is: (202) 501–0116. The Clerk's facsimile machine number is (202) 501–0664.

6101.2 Time: enlargement; computation [Rule 2].

(a) *Time for performing required actions.* All time limitations prescribed in the rules in this part or in any order or direction given by the Board are maximums, and the action required should be accomplished in less time whenever possible.

(b) *Enlarging time.* Upon request of a party for good cause shown, the Board may enlarge any time prescribed by the rules in this part or by an order or direction of the Board. The exceptions are the time limits for filing appeals and protests (6101.5(b)(1) and (3)) and for convening the suspension hearing (6101.19(a)(2)). A written request is required, but in exigent circumstances an oral request may be made and followed by a written request. An enlargement of time may be granted even though the request was filed after the time for taking the required action expired, but the party requesting the enlargement must show good cause for its inability to make the request before that time expired.

(c) *Computing time.* Except as otherwise required by law, in computing a period of time prescribed by the rules in this part or by order of the Board, the day from which the designated period of time begins to run shall not be counted, but the last day of

VOL 58 ISS 249 DEC 30 1993 UMI

the period shall be counted unless that day is (i) a Saturday, a Sunday, or a Federal holiday, or (ii) a day on which the Office of the Clerk of the Board is required to close earlier than 4:30 p.m., or does not open at all, as in the case of inclement weather, in which event the period shall include the next working day. When the period of time prescribed or allowed is less than 11 days, any intervening Saturday, Sunday, or Federal holiday shall not be counted. When the period of time prescribed or allowed is 11 days or more, intervening Saturdays, Sundays, and Federal holidays shall be counted except as otherwise provided. The exceptions are the 10-day period after contract award for filing a protest which requests a suspension hearing (6101.19(a)(2)), the 25-day period for commencement of the hearing on the merits of the protest (6101.19(a)(3)), and the 45-day period for deciding the protest (6101.29(b)). Time for filing any document or copy thereof with the Board expires when the Office of the Clerk of the Board closes on the last day on which such filing may be made.

6101.3 Service of papers [Rule 3].

(a) *On whom service must be made.* When a party sends a document to the Board it must at the same time send a copy to any other party in the manner provided in paragraph (b) of this section. Subpoenas (6101.20) and documents filed *in camera* (6101.12(h)) are exceptions to this requirement. Any papers required to be served on a party (except requests for discovery and responses thereto, unless ordered by the Board to be filed) shall be filed with the Board before service or within a reasonable time thereafter.

(b) *When service must be made*—(1) *Appeals, applications, and petitions.* When a party to an appeal, application, or petition files a document with the Board, it must serve a copy on the other party by mail or some other equally or more expeditious means of transmittal.

(2) *Protests.* When a protest is filed with the Board, the protester must serve a copy on the contracting officer whose decision or action is being protested by means reasonably calculated to effect delivery on the same day the protest is filed with the Board. When a party to a protest files with the Board any other document, it must serve a copy on every other party by means reasonably calculated to effect delivery within 1 day after the document is filed with the Board.

(c) *Proof of service.* Except when service is not required, a party sending a document to the Board must indicate to the Board that a copy has also been sent to every other party. This may be done by certificate of service, by the notation of a photostatic copy (cc:), or by any other means that can reasonably be expected to indicate to the Board that other parties have received a copy.

(d) *Failure to make service.* If a document sent to the Board by a party does not indicate that a copy has been served on every other party, the Board may return the document to the party that submitted it with such directions as it considers appropriate, or the Board may inquire whether a party has received a copy and note on the record the fact of inquiry and the response, and may also direct the party that submitted the document to serve a copy on any other party. In the absence of proof of service a document may be treated by the Board as not properly filed.

6101.4 The appeal file; protest file [Rule 4].

(a) *Submission to the Board by the contracting officer.* Within 30 calendar days from receipt of notice that an appeal has been filed or, in a protest, within 10 working days after its filing, or within such time as the Board may allow, the contracting officer shall file with the Board appeal or protest file exhibits consisting of all documents and other tangible things relevant to the claim or protest and to the contracting officer's decision which has been appealed or protested, including:

(1) The contracting officer's decision, if any, from which the appeal or protest is taken;

(2) The contract, if any, including amendments, specifications, plans, and drawings;

(3) All correspondence between or among the parties that is relevant to the appeal or protest, including the written claim or claims that are the subject of the appeal, and evidence of their certification, if any;

(4) Affidavits or statements of any witnesses on the matter in dispute or under protest and transcripts of any testimony taken before the filing of the notice of appeal or protest;

(5) All documents and other tangible things on which the contracting officer relied in making the decision or in taking the action protested, including a copy of the agency procurement request, the delegation of procurement authority, if any, and any correspondence relating thereto;

(6) The abstract of bids, if any;

(7) In a protest, a copy of the solicitation, protester's bid or proposal, and, if bid opening has occurred and no contract has been awarded, a copy of any bid relevant to the protest;

(8) In a protest of a negotiated procurement when no award has been made, a copy of any offer or proposal being considered for award and which is relevant to the protest (ordinarily, these documents will be submitted under a protective order issued by the Board); and

(9) Any additional existing evidence or information deemed necessary to determine the merits of the appeal or protest.

The contracting officer shall serve a copy of the appeal or protest file on all parties at the same time that the contracting officer files it with the Board, except that (i) the contracting officer need not serve on any party those documents furnished the Board *in camera* pursuant to 6101.12(h) and (ii) the contracting officer shall serve documents submitted under protective order only on those individuals who have been granted access to such documents by the Board. However, the contracting officer must serve on all parties a list identifying the specific documents filed with the Board, giving sufficient details necessary for their recognition. The list must not reveal the number and identity of the offerors whose proposals are filed in *in camera* and should include an identifying statement, e.g., "proposal(s) being considered for award." This list must also be filed with the Board as an exhibit to the appeal or protest file.

(b) *Submission to the Board by any other party.* Within 30 calendar days after filing of the respondent's appeal file exhibits, within 5 working days after receipt of the respondent's protest file exhibits, or within such time as the Board may allow, any other party shall file with the Board for inclusion in the appeal or protest file documents or other tangible things relevant to the appeal or protest that have not been submitted by the contracting officer. Any other party shall serve a copy of its additional exhibits upon the respondent and every other party at the same time as it files them with the Board.

(c) *Submissions on order of the Board.* The Board may, at any time during the pendency of the appeal or protest, require any party to file other documents and tangible things as additional exhibits.

(d) *Organization of the appeal and protest files.* Appeal and protest file exhibits may be originals or true, legible, and complete copies. They shall be arranged in chronological order within each submission, earliest documents first; bound in a looseleaf binder on the left margin except where size or shape makes such binding impracticable; numbered; tabbed; and indexed. The numbering shall be consecutive, in whole arabic numerals (no letters, decimals, or fractions), and continuous from one submission to the next, so that the complete file, after all submissions, will consist of one set of consecutively numbered exhibits. In addition, the pages within each exhibit shall be numbered consecutively unless the exhibit already is paginated in a logical manner. Consecutive pagination of the entire file is not required. The index should include the date and a brief description of each exhibit and shall indicate which exhibits, if any, have been filed with the Board *in camera* or under protective order or otherwise have not been served on every other party.

(e) *Lengthy or bulky documents.* The Board may waive the requirement to furnish other parties copies or duplicates of bulky, lengthy, or outsized documents submitted to the Board as exhibits.

(f) *Use of appeal or protest file as evidence.* All exhibits in the appeal or protest file are part of the record upon which the Board will render its decision, except for those as to which an objection has been sustained. Unless otherwise ordered by the Board, objection to any exhibit may be made at any time before the first witness is sworn or, if the appeal or protest is submitted on the record pursuant to 6101.11, at any time prior to or concurrent with the first record submission. The Board may enlarge the time for such objections and will consider an objection made during a hearing if the ground for objection could not reasonably have been earlier known to the objecting party. If an objection is sustained, the Board will so note in the record.

(g) *When appeal or protest file not required.* Upon motion of a party, the Board may postpone or dispense with the submission of any or all appeal or protest file exhibits.

6101.5 Filing cases; time limits for filing; docketing; notice of protest by contracting officer [Rule 5].

(a) *Filing cases.* Filing of a case occurs as provided 6101.1(b)(5).

(1) *Notice of appeal.* (i) A notice of appeal shall be in writing and should be signed by the appellant or by the appellant's attorney or authorized representative. If the appeal is from a contracting officer's decision, the notice of appeal should describe the decision in enough detail to enable the Board to differentiate that decision from any other; the appellant can satisfy this requirement by attaching to the notice of appeal a copy of the contracting officer's decision. If an appeal is taken from the failure of a contracting officer to issue a decision, the notice of appeal should describe in detail the claim that the contracting officer has failed to decide; the appellant can satisfy this requirement by attaching a copy of the written claim submission to the notice of appeal.

(ii) A written notice in any form, including the one specified in the appendix to this part, is sufficient to initiate an appeal. The notice of appeal should include the following information:

(A) The number and date of the contract;

(B) The name of the agency and the component thereof against which the claim has been asserted;

(C) The name of the contracting officer whose decision or failure to decide is appealed and the date of the decision, if any;

(D) A brief account of the circumstances giving rise to the appeal; and

(E) An estimate of the amount of money in controversy, if any and if known.

(iii) The appellant must send a copy of the notice of appeal to the contracting officer whose decision is appealed or, if there has been no decision, to the contracting officer before whom the appellant's claim is pending.

(2) *Petition.* (i) A petition shall be in writing and should be signed by the petitioner or by the petitioner's attorney or authorized representative. The petition should describe in detail the claim that the contracting officer has failed to decide; the contractor can satisfy this requirement by attaching to the petition a copy of the written claim submission.

(ii) The petition should include the following information:

(A) The number and date of the contract;

(B) The name of the agency and the component thereof against which the claim has been asserted; and

(C) The name of the contracting officer whose decision is sought.

(3) *Protest.* The form for a protest is the pleading prescribed in 6101.7(b)(2), which must be filed with the Board, with a copy to the contracting officer as prescribed in 6101.3(b)(2). A protest may not be filed with the Board by an interested party who has proceeded with a protest of the same procurement at the GAO.

(4) *Intervention.* Intervention as a party in a protest is permitted, as follows:

(i) *Notice of intervention by intervenor of right.* An intervenor of right may intervene in a protest by filing a notice of intervention with the Board and serving copies upon all known parties, including any intervening parties. It shall be the responsibility of the intervenor to contact the Board or the respondent to obtain any information it requires for filing its notice of intervention and for serving it upon other parties. The notice shall set forth the name, address, telephone number, and facsimile machine number of the person signing the notice, the nature of the party's direct economic interest that would be affected by the award of the contract or by failure to award the contract, the party's statement of position regarding each issue of protest, and any other grounds for protest or defenses to the protest. All new grounds must be fully described in accordance with 6101.7(b)(2)(v) and must be timely asserted as provided in paragraph (b)(3) of this section. Receipt of such notice will be acknowledged by the Board, and it shall be the responsibility of the intervenor to contact the Board to ascertain the status of the protest, including the time and place of any hearings or other proceedings.

(ii) *Motion to intervene by intervening agency.* The Board may permit an intervening agency, upon motion timely filed pursuant to paragraph (b)(4) of this section, to intervene in a protest, provided that the intervention will not unduly delay or prejudice the adjudication of the rights of the original parties.

(iii) *Motion to intervene by permissive intervenor.* The Board may permit any entity defined in 6101.1(b)(9), upon motion timely filed pursuant to paragraph (b)(4) of this section, to intervene in a protest. Such entity is eligible to intervene only on the issues already under protest and only if its participation will not unduly delay or prejudice the rights of the original parties. This limited participation may affect the movant's rights of discovery and cross-examination and involvement in any hearing or settlement of the protest. A permissive intervenor will not be permitted to elect a hearing (6101.9). A motion to intervene must include the information described in paragraph (a)(4)(i) of this section, and must be served upon all parties.

(5) *Application.* An application for costs shall meet all requirements specified in 6101.35(c).

(6) *Other participation.* The Board may, in its discretion, permit an entity to participate in a case in a special or limited way, such as filing an *amicus curiae* brief.

(b) *Time limits for filing appeals, petitions, protests, interventions, and applications*—(1) *Appeals.* (i) An appeal from a decision of a contracting officer

VOL 58 ISS 249 DEC 30 1993 UMI

shall be filed no later than 90 calendar days after the date the appellant receives that decision.

(ii) An appeal may be filed with the Board should the contracting officer fail or refuse to issue a timely decision on a claim submitted in writing, properly certified if required.

(2) *Petitions.* A contractor may file with the Board a petition that the Board direct a contracting officer to issue a written decision on a claim.

(3) *Protests.* A protest will be considered by the Board if it includes the information required by 6101.7(b)(2) and is timely filed.

(i) A ground of protest based upon alleged improprieties in any type of solicitation which are apparent before bid opening or the closing time for receipt of initial proposals shall be filed before bid opening or the closing time for receipt of initial proposals. In the case of negotiated procurements, alleged improprieties which do not exist in the initial solicitation but which are subsequently incorporated therein must be protested no later than the next closing time for receipt of proposals following the incorporation.

(ii) A ground of protest, other than one covered in paragraph (b)(3)(i) of this section, shall be filed no later than 10 working days after the basis for the ground of protest is known or should have been known, whichever is earlier.

(iii) If a party initially files a protest with an agency within the time limits prescribed in paragraphs (b)(3) (i) and (ii) of this section, it may file a protest with the Board raising the same ground(s) not later than 10 working days after formal notification, or actual or constructive knowledge, of initial adverse agency action.

(iv) A protest which is timely under this section but is filed more than 10 calendar days after contract award will not be subject to the procedure in 6101.19 for suspension hearing and decision.

(4) *Intervention.* Any intervenor of right or intervening agency receiving notice of a protest as provided in paragraph (d) of this section may, by intervening within 4 working days after receipt of notice, participate fully as a party to a protest. When such a party intervenes, it may raise at the time it files its notice or motion any new ground concerning the protested procurement, provided that the new ground is timely raised under paragraph (b)(3) of this section and further that the notice or motion complies fully with the pertinent requirements of paragraph (a)(3) of this section. An intervenor of right or an intervening agency may also file a motion to intervene within 4 working days of receipt of an amendment to the protest which raises a new ground. Such intervention shall be limited to the newly raised ground.

(5) *Applications.* An application for costs shall be filed within 30 calendar days of a final disposition in the underlying appeal or protest, as provided in 6101.35(b).

(c) *Notice of docketing.* Notice of appeal, petitions, protests, and applications will be docketed by the Office of the Clerk of the Board, and a written notice of docketing will be sent promptly to all parties.

(d) *Notice of protest by contracting officer.* Within 1 working day after receipt of a copy of the protest, the contracting officer shall give oral or written notice of the protest: to all firms solicited who appear to be affected by the protest, if sealed bids or initial offers or proposals have not been opened; to all bidders or offerors, if no award has been made and bids have been opened or the date for receipt of initial proposals has passed; or, if award has been made, to the contractor and all bidders or offerors. This notice shall be provided to an officer, a managing agent, or the individual who has signed the bid or proposal. If the procuring entity is other than the GSA, notice shall also be given to the Director, Authorizations and Management Reviews Division (KMA) or the GSA official who delegated procurement authority to the entity. If the GSA is procuring on behalf of another agency, notice shall also be given by the contracting officer to the specific office of the agency for which GSA is conducting the procurement, and to the legal office with responsibility for Board protests involving that agency. If only written notice is provided under this paragraph it must be provided by means reasonably calculated to effect delivery within 1 working day after the copy of the protest is received by the contracting officer. If oral notice is given, it shall be confirmed in writing or by telegram or by electronic means on the same date the oral notice is provided. The contracting officer will confirm by written notification to the Board within 3 working days after receipt of the protest whether the requisite notice was provided and list all persons and agencies to whom such notice was given. This submission may be *in camera* or under protective order.

6101.6 Appearances; notice of appearance [Rule 6].

(a) *Appearances before the Board—(1) Appellant; petitioner; protester; applicant; intervenor.* Any appellant, petitioner, protester, applicant, or intervenor may appear before the Board by an attorney at law licensed to practice in a state, commonwealth, or territory of the United States, in the District of Columbia, or in a foreign country. An individual appellant, petitioner, protester, applicant, or intervenor may appear in his own behalf; a corporation, trust, or association may appear by one of its officers or by any other authorized employee; and a partnership may appear by one of its members or by any other authorized employee.

(2) *Respondent; intervening agency.* The respondent and any intervening agency may appear before the Board by an attorney at law licensed to practice in a state, commonwealth, or territory of the United States, in the District of Columbia, or in a foreign country. Alternatively, the respondent may appear by the contracting officer or by the contracting officer's authorized representative.

(b) *Notice of appearance.* Unless a notice of appearance is filed by some other person, the person signing the notice of appeal, petition, protest, application, notice of intervention, or motion to intervene shall be deemed to have appeared on behalf of the appellant, petitioner, protester, or intervenor, and the head of the respondent agency's or the intervening agency's litigation office shall be deemed to have appeared on behalf of the respondent. A notice of appearance in the form specified in the appendix to this part is sufficient.

(c) *Withdrawal of appearance.* Any person who has filed a notice of appearance and who wishes to withdraw from a case must file a motion stating the grounds for withdrawal. Any such motion shall, whenever possible, provide the name, address, telephone number, and facsimile machine number of the person who is proposed to succeed the movant in representing the party.

6101.7 Pleadings [Rule 7].

(a) *Pleadings required and permitted.* Except as the Board may otherwise order, the Board requires the submission of a complaint or a protest and an answer. In appropriate circumstances, the Board may order or permit a reply to an answer.

(b) *Complaint; protest—(1) Complaint.* No later than 30 calendar days after the docketing of the appeal, the appellant shall file with the Board a complaint setting forth its claim or claims in simple, concise, and direct terms. The complaint should set forth the factual basis of the claim or claims, with appropriate reference to the contract provisions, and should state the amount in controversy, or an estimate thereof, if any and if known. No particular form is prescribed for a complaint, and the board may designate the notice of appeal, a claim submission, or any other document as the complaint, either on its own initiative or on request of the appellant.

(2) *Protest.* A protest is commenced by filing it with the Board. The initial filing in a protest shall be in writing and signed by the protester or by the protester's attorney or authorized employee. It shall include:

(i) The name, address, telephone number, and facsimile machine number of the person signing the protest;

(ii) The number and date of the solicitation and the date for submission of sealed bids or initial proposals;

(iii) If a contract has been awarded, the number and date of the contract, and to whom awarded (if known);

(iv) The name and component of the agency or agencies involved, and the name of the contracting officer whose decision the Board is being asked to review;

(v) A simple, concise, and direct statement of the grounds for protest;

(vi) Citations to provisions of statute, regulation, or the delegation of procurement authority that the protester alleges were violated;

(vii) A statement of facts establishing that the protest complies with the timeliness requirements of 6101.5(b)(3); and

(viii) If a hearing is sought to determine whether procurement authority should be suspended, a specific request for such a hearing.

A protest timely filed which does not include the information required by this action will not be considered unless it is timely amended as permitted by paragraph (f)(2)(i) of this section.

(c) *Answer—(1) Appeal answer.* No later than 30 calendar days after the filing of the complaint or of the Board's designation of a complaint, the respondent shall file with the Board an answer setting forth simple, concise, and direct statements of its defenses to the claim or claims asserted in the complaint, as well as any affirmative defenses it chooses to assert. A dispositive motion or a motion for a more definite statement may be filed in lieu of the appeal answer only with the permission of the Board. If no answer is timely filed, the Board may enter a general denial, in which case the respondent may thereafter amend the answer to assert affirmative defenses only by leave of the Board and as otherwise prescribed by paragraph (f)(1) of this section. The Board will inform the parties when it enters a general denial on behalf of the respondent.

(2) *Protest answer.* No later than 10 working days after the filing of the protest, the respondent shall file its answer with the Board setting forth its defenses to the protest, and its findings, actions, and recommendations in the matter. A dispositive motion or a motion for a more definite statement may not be filed in lieu of the protest answer.

(d) *Reply to an answer or response to a notice of intervention or motion to intervene.* If the Board orders or permits a reply to an answer or a response to a notice of intervention or motion to intervene, it shall be filed as directed by the Board.

(e) *Modifications to requirement for pleadings.* If the appellant has elected the small claims procedure provided by 6101.13 or the accelerated procedure provided by 6101.14, the submission of pleadings shall be governed by the applicable rule.

(f) *Amendment of pleadings—(1) Appeals.* Each party to an appeal may amend its pleadings once without leave of the Board at any time before a responsible pleading is filed; if the pleading is one to which no responsive pleading is permitted, such amendment may be made at any time within 20 calendar days after it is served or, in small claims proceedings under 6101.13, within 10 working days after it is served. The Board may permit the parties to amend pleadings further on conditions fair to both parties. If a response to the amended pleading was required by these rules or by an order of the Board, a response to the amended pleading shall be filed no later than 30 calendar days after the filing of the amended pleading or, in small claims proceedings, no later than 15 calendar days after the filing of the amended pleading. 6101.12(e) concerns amendments to pleadings to conform to the evidence.

(2) *Protests* (i) If a timely protest does not include all the information required by paragraph (b)(2) of this section, the Board may, in its discretion, so inform the protester and grant it leave to amend the protest to supply the missing information required by paragraphs (b)(2) (i), (ii), (iii), (iv) and (vi) of this section. A protest may be amended to include an additional ground of protest only if the amendment is filed in writing with the Board and served upon the contracting officer within the time limits of 6101.5(b)(3). Enlargement of time (6101.2(b)) will not be granted to comply with this requirement. As to any other information required in paragraph (b)(2) of this section, the Board will ordinarily grant such additional time for the filing of an amendment to the protest as is reasonable and fair in the circumstances. Except for purposes of determining the timeliness of the initial filing, the filing date of a protest which is amended by leave of the Board shall be the date of the filing of the amendment.

(ii) The notice of intervention or motion to intervene provided for in 6101.5(a)(4) may not be amended after the time limits set in 6101.5(b)(4) for filing such notice or motion.

6101.8 Motions [Rule 8].

(a) *How motions are made.* Motions may be oral or written. A written motion shall indicate the relief sought and, either in the text of the motion or in an accompanying legal memorandum, the grounds therefor. In addition, a motion for summary relief shall comply with the requirements or paragraph (g) of this section. 6101.25 prescribes the form and content of legal memoranda. Oral motions shall be made on the record and in the presence of the other party.

(b) *When motions may be made.* A motion filed in lieu of an answer pursuant to 6101.7(c)(1) shall be filed no later than the date on which the answer is required to be filed or such later date as may be established by the board. Any other dispositive motion shall be made as soon as practicable after the grounds therefor are known, except that all dispositive motions in a protest shall be filed no later than 15 calendar days after the filing of the protest. Any other motion shall be made promptly or as required by these rules.

(c) *Dispositive motions.* The following dispositive motions may properly be made before the Board:

(1) Motions to dismiss for lack of jurisdiction or for failure to sate a claim upon which relief can be granted or for failure to state a valid basis for protest;

(2) Motions to dismiss for failure to prosecute;

(3) Motions for summary relief (analogous to summary judgment);

(4) Motions to dismiss a protest which is frivolous or untimely filed; and

(5) Any other motion to dismiss with prejudice.

(d) *Other motions.* Other motions may be made in good faith and in proper form.

(e) *Jurisdictional questions.* The Board may at any time consider the issue of its jurisdiction to decide a case. When all facts touching upon the Board's jurisdiction are not of record, or in other appropriate circumstances, a decision on a jurisdictional question may be deferred pending a hearing on the

merits or the filing of record submissions.

(f) *Procedure.* Unless otherwise directed by the Board, a party may respond to a written motion other than a motion pursuant to 6101.30, 6101.31, 6101.32, or 6101.33 at any time within 3 working days after the filing of the motion in a protest, and within 20 calendar days after the filing of the motion in any other kind of case. Responses to motions pursuant to 6101.30, 6101.31, 6101.32, or 6101.33 may be made only as permitted or directed by the Board. The Board may permit hearing or oral argument on written motions and may require additional submissions from any of the parties. Procedure on oral motions made at hearing shall be determined as necessary in the course of their consideration.

(g) *Motions for summary relief.* (1) A motion for summary relief should be filed only when a party believes that based upon uncontested material facts, it is entitled to relief in whole or in part as a matter of law. A motion for summary relief should be filed as soon as feasible, to allow the Board to rule on the motion in advance of a scheduled hearing date.

(2) With each motion for summary relief, there shall be served and filed a separate document titled Statement of Uncontested Facts containing in separately numbered paragraphs all of the material facts upon which the moving party bases its motion as to which the moving party contends there is no genuine issue. This statement shall include references to the supporting affidavits or declarations and documents, if any, and to the 6101.4 appeal or protest file exhibits relied upon to support such statement.

(3) An opposing party shall file with its opposition (or cross-motion) a separate document titled Statement of Genuine Issues. This document shall identify, by reference to specific paragraph numbers in the moving party's Statement of Uncontested Facts, those facts as to which the opposing party claims there is a genuine issue necessary to be litigated. An opposing party shall state the precise nature of its disagreement and give its version of the facts, supported by citations to the supporting affidavits and documents, if any, and to the 6101.4 appeal or protest file exhibits relied upon to support the existence of a genuine dispute. An opposing party may also file a Statement of Uncontested Facts as to any relevant matters not covered by the moving party's statement.

(4) When a motion for summary relief is made and supported as provided in this section, an opposing party may not rest upon the mere allegations or denials of its pleadings, but the opposing party's response, by affidavits or as otherwise provided by this section, must set forth specific facts showing that there is a genuine issue of material fact. If the adverse party does not so respond, summary relief, if appropriate, shall be entered against the adverse party. For good cause shown, if an opposing party cannot present facts essential to justify its opposition, the Board may defer ruling on the motion to permit affidavits to be obtained or depositions to be taken or other discovery to be conducted, or may make such other order as is just.

(h) *Effect of pending motion.* Except as this part provides or the Board may order, a pending motion shall not excuse the parties from proceeding with the appeal or protest in accordance with this part and the orders and directions of the Board.

6101.9 Election of hearing or record submission [Rule 9].

Each party shall inform the Board, in writing, whether it elects a hearing or submission of its case on the record pursuant to 6101.11. Such an election may be filed at any time unless a time for filing is prescribed by the Board. A party electing to submit its case on the record pursuant to 6101.11 may also elect to appear at a hearing solely to cross-examine any witness presented by an opposing party, provided that the Board is informed of that party's intention within 10 working days of its receipt of notice of the election of hearing by another party. If a hearing is elected, the election should state where and when the electing party desires the hearing to be held and should explain the reasons for its choices. A hearing will be held if one of the parties elects one. If a party's decision whether to elect a hearing is dependent upon the intentions of another party or parties, it shall consult with such other party or parties before filing its election. If there is to be a hearing, it will be held at a time and place prescribed by the Board after consultation with the party or parties electing the hearing. The record submissions from a party that has elected to submit on the record shall be due as provided in 6101.11.

6101.10 Conferences; conference memorandum; prehearing order; prehearing and presubmission briefs [Rule 10].

(a) *Conferences.* The Board may convene the parties in conference, either by telephone or in person, for any purpose. In protests, a conference will ordinarily be held within 6 working days after the filing of the protest. The conference may be stenographically or electronically recorded, at the discretion of the Board. Matters to be considered and actions to be taking at a conference may include:

(1) Simplifying, clarifying, or severing the issues;

(2) Stipulations, admissions, agreements, and rulings to govern the admissibility of evidence, understanding on matters already of record, or other similar means of avoiding unnecessary proof;

(3) Plans, schedules, and rulings to facilitate discovery;

(4) Limiting the number of witnesses and other means of avoiding cumulative evidence;

(5) Stipulations or agreements disposing of matters in dispute; or

(6) Ways to expedite disposition of the case or to facilitate settlement of the dispute, including, if the parties and the Board agree, the use of alternative dispute resolution techniques, such as mediation, minitrials, and summary hearings.

(b) *Conference memorandum.* The Board may prepare a memorandum of the results of a conference or issue an order reflecting any actions taken, or both. Any memorandum or order so issued shall be placed in the record of the case. A copy of each memorandum will be sent to each party, and each party shall have 5 working days after receipt of the memorandum to object to the memorandum to object to the substance of it.

(c) *Prehearing order.* The Board may issue a prehearing or presubmission order to govern the proceedings in a case.

(d) *Alternative dispute resolution.* If alternative dispute resolution (ADR) is agreed to by the parties and the Board, a "Board Neutral" (either a judge or an attorney employed by the Board) will be appointed by the chairman of the Board or a designee to conduct the agreed upon proceedings. Alternatively, the parties may request that the panel chairman serve as the Board Neutral, in which case, if the ADR is unsuccessful, the panel chairman will retain the case. The panel chairman may suspend proceedings for a short period of time while the parties and the Board attempt to resolve the dispute, but the use of an ADR technique will not toll the relevant statutory time limit for deciding the case. This procedure is not intended to preclude use by the parties of other ADR techniques that do not require direct Board involvement.

(e) *Prehearing or presubmission briefs.* A party may, by leave of the Board, file a prehearing or presubmission brief at any time before

the hearing or upon or before the date on which first record submissions are due.

6101.11 Submission on the record without a hearing [Rule 11].

(a) *Submission on the record.* A party may elect to submit its case on the record without a hearing. A party submitting its case on the record may include in its written record submission or submissions:

(1) Any relevant documents or other tangible things it wishes the Board to admit into evidence;

(2) Affidavits, depositions, and other discovery materials that set forth relevant evidence; and

(3) A brief or memorandum of law.

The Board may require the submission of additional evidence or briefs and may order oral argument in a case submitted on the record.

(b) *Time for submission.* (1) If all parties have elected to submit the case on the record, the Board will issue an order prescribing the time for initial and, if appropriate, reply record submissions.

(2) If at least one party has elected a hearing and any other party has elected to submit its case on the record, any party submitting on the record shall make its initial submission no later than the commencement of the hearing or at an earlier date if the Board so orders, and a further submission in the form of a brief at the time for submission of posthearing briefs. The Board will accept a further record submission in the form of a reply brief if a party that attended the hearing is permitted to submit a reply brief; such a record submission will be due at the same time as the reply brief of the party or parties that attended the hearing. Submission of record submissions in the form of briefs is governed by 6101.25.

(c) *Objections to evidence.* Unless otherwise directed by the Board, objections to evidence (other than the appeal or protest file and supplements thereto) in a record submission may be made within 3 working days after the filing of the submission in a protest, and within 10 working days after the filing of the submission in any other kind of case. Replies to such objections, if any, may be made within 2 working days after the filing of the objection in a protest, and within 10 working days after the filing of the objection in any other kind of case. The Board may rule on such objections in its opinion deciding the merits or otherwise disposing of the case.

6101.12 Record of Board proceedings [Rule 12].

(a) *Composition of the record for decision.* The record upon which any decision of the Board will be rendered consists of:

(1) The notice of appeal, petition, protest, or application;

(2) Appeal or protest file exhibits other than those as to which an objection has been sustained;

(3) Hearing exhibits other than those as to which an objection has been sustained;

(4) Pleadings;

(5) Motions and responses thereto;

(6) Memoranda, orders, rulings, and directions to the parties issued by the Board;

(7) Documents and other tangible things admitted in evidence by the Board;

(8) Written transcripts or electronic recordings of proceedings;

(9) Stipulations and admissions by the parties;

(10) Depositions, or parts thereof, received in evidence;

(11) Written interrogatories and responses received in evidence;

(12) Briefs and memoranda of law; and

(13) Anything else that the Board may designate.

All other papers and documents in a case are part of the administrative record of the proceedings. The administrative record shall include file and hearing exhibits offered but not received in evidence in a case; it may also include correspondence with and among the parties, and depositions, interrogatories, offers of proof contained in the transcript, and other documents that are not part of the record for decision.

(b) *Time for entry into the record.* Except as the Board may otherwise order, nothing other than posthearing briefs will be received into the record after a hearing is completed. In cases submitted on the record without a hearing, nothing will be received into the record after the time for filing of the last record submission. Briefs will be due as provided in 6101.25(b).

(c) *Closing of the record.* Except as the Board may otherwise order, no proof shall be received in evidence after a hearing is completed or, in cases submitted on the record without a hearing, after notice by the Board to the parties that the record is closed and that the case is ready for decision.

(d) *Notice that the case is ready for decision.* The Board will give written notice to the parties when the record is closed and the case is ready for decision.

(e) *Amendments to conform to the evidence.* When issues within the proper scope of a case, but not raised in the pleadings, have been raised without objection or with permission of the Board at a hearing (see 6101.21h)) or in record submissions, they shall be treated in all respects as if they had been raised in the pleadings. The Board may formally amend the pleadings to conform to the proof or may order that the record be deemed to contain pleadings so amended.

(f) *Enlargement of the record.* The Board may at any time require or permit enlargement of the record with additional evidence and briefs. It may reopen the record to receive additional evidence and oral argument at a hearing.

(g) *Inspection of the record of proceedings; release of any paper, document, or tangible thing prohibited.* Except for any part thereof that is subject to a protective order or deemed an *in camera* submission, the record of proceedings in a case shall be made available at the office of the Board during the Board's normal working hours, as soon as practicable given the demands on the Board of processing the subject case and other cases. Except as provided in 6101.23(c) and 6101.37(d), no paper, document, or tangible thing which is part of the record of proceedings in a case may be released from the offices of the Board. Copies may be obtained by any person as provided in 6101.38(d). If such inspection or copying involves more than minimal costs to the Board, reimbursement will be required.

(h) *Protected and in camera submissions.* (1) a party may by motion request that the Board receive and hold materials under conditions that would limit access to them on the ground that such documents are privileged or confidential, or sensitive in some other way. The moving party must state the grounds for such limited access. The Board may also determine on its own initiative to hold materials under such conditions. The manner in which such materials will be held, the persons who shall have access to them, and the conditions (if any) under which such access will be allowed will be specified in an order of the Board. If the materials are held under such an order, they will be part of the record of the case. If the Board denies the motion, the materials may be returned to the moving party. If that party asks, however, that the materials be placed in the administrative record, in camera, for the purpose of possible later review of the Board's denial, the Board will comply with the request.

VOL 58 ISS 249 DEC 30 1993 UMI

VOL 58 ISS 249 DEC 30 1993 UMI

(2) A party may also ask, or the Board may direct, that testimony be received under protective order or in camera. The procedures under paragraph (h)(1) of this section shall be followed with respect to such request or direction.

6101.13 Small claims procedures in appeals [Rule 13].

(a) *Election.* (1) The small claims procedure is available solely at the appellant's election, and only when there is a monetary amount in dispute and that amount is $10,000 or less. Such election shall be made no later than 30 calendar days after the appellant's receipt of the agency answer, unless then panel chairman enlarges the time for good cause shown.

(2) At the request of the Government, or on its own initiative, the Board may determine whether the amount in dispute is greater than $10,000, such that the election is inappropriate. The Government shall raise any objection to the election no later than 10 working days after receipt of a notice of election.

(b) *Decision.* The panel chairman may issue a decision, which may be in summary form, orally or on writing. A decision which is issued orally shall be reduced to writing; however, such a decision takes effect at the time it is rendered, prior to being reduced to writing. A decision shall be final and conclusive and shall not be set aside except in case of fraud. A decision shall have no value as precedent.

(c) *Procedure.* Promptly after receipt of the appellant's election of the small claims procedure, the Broad shall establish a schedule of proceedings that will allow the timely resolution of the appeal. Pleadings, discovery, and other prehearing activities may be restricted or eliminated.

(d) *Time of decision.* Whenever possible, the panel chairman shall resolve an appeal under this procedure within 120 calendar days from the Board's receipt of the election. The time for processing an appeal under this procedure may be extended if the appellant has not adhered to the established schedule. Either party's failure to abide by the Board's schedule may result in the Board drawing evidentiary inferences adverse to the party at fault.

6101.14 Accelerated procedure in appeals [Rule 14].

(a) *Election.* (1) The accelerated procedure is available solely at the appellant's election, and only when there is a monetary amount in dispute and that amount is $50,000 or less. Such election shall be made no later than 30 calendar days after the appellant's receipt of the agency answer, unless the panel chairman enlarges the time for good cause shown.

(2) At the request of the Government, or on its own initiative, the Board may determine whether the amount in dispute is greater than $50,000, such that the election is inappropriate. The Government shall raise any objection to the election no later than 10 working days after receipt of a notice of election.

(b) *Decision.* Each decision shall be rendered by the panel chairman with the concurrence of one of the other judges assigned to the panel; in the event the two judges disagree, the third judge assigned to the panel will participate in the decision.

(c) *Procedure.* Promptly after receipt of the appellant's election of the accelerated procedure, the Board shall establish a schedule of proceedings that will allow for the timely resolution of the appeal. Pleadings may be simplified, and discovery and other prehearing activities may be restricted or eliminated.

(d) *Time of decision.* Whenever possible, the panel chairman shall resolve an appeal under this procedure within 180 calendar days from the Board's receipt of the election. The time for processing an appeal under this procedure may be extended if the appellant has not adhered to the established schedule. Either party's failure to abide by the Board's schedule may result in the Board drawing evidentiary inferences adverse to the party at fault.

6101.15 General provisions governing discovery [Rule 15].

(a) *Discovery methods.* The parties may obtain discovery by one or more of the following methods:

(1) Depositions upon oral examination or written questions;

(2) Written interrogatories;

(3) Requests for production of documents or other tangible things; and

(4) Requests for admission.

(b) *Scope of discovery.* Except as otherwise limited by order of the Board in accordance with this part, the parties may obtain discovery regarding any matter, not privileged, which is relevant to the subject matter involved in the pending case, whether it relates to the claim or defense of a party, including the existence, description, nature, custody, condition, and location of any books, documents, or other tangible things, and the identity and location of persons having knowledge of any discoverable matter. It is not a ground for objection that the information sought will be inadmissible if the information sought appears reasonably calculated to lead to the discovery of admissible evidence.

(c) *Discovery limits.* The Board may limit the frequency or extent of use of the discovery methods set forth in this section if it determines that:

(1) The discovery sought is unreasonably cumulative or duplicative, or is obtainable from some other source that is more convenient, less burdensome, or less expensive;

(2) The party seeking discovery has had ample opportunity by discovery in the case to obtain the information sought; or

(3) The discovery is unduly burdensome and expensive, taking into account the needs of the case, the amount in controversy, limitations on the parties' resources, and the importance of the issues at stake.

(d) *Conduct of discovery.* Parties may engage in discovery only to the extent the Board enters an order which either incorporates an agreed plan and schedule acceptable to the Board or otherwise permits such discovery as the moving party can demonstrate is required for the expeditious, fair, and reasonable resolution of the case and, in a protest, is consistent with the requirements of 6101.19(a)(3). Permissive intervenors and other persons granted limited rights of participation may be permitted rights of discovery in accordance with an order of the Board.

(e) *Discovery conference.* At any time after a case has been filed (ordinarily within 6 working days after the filing of a protest) upon request of a party or on its own initiative, the Board may hold an informal meeting or telephone conference with the parties to identify the issues for discovery purposes; establish a plan and schedule for discovery; set limitations on discovery, if any; and determine such other matters as are necessary for the proper management of discovery. The Board may include in the conference such other matters as it deems appropriate in accordance with 6101.10.

(f) *Discovery objections.* (1) In connection with any discovery procedure, the Board, on motion or on its own initiative, may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following:

(i) That the discovery not be had;

(ii) That the discovery may be had only on specified terms and conditions, including a designation of the time and place, or that the scope of discovery be limited to certain matters;

(iii) That discovery be conducted with no one present except persons designated by the Board;

(iv) That confidential information not be disclosed or that it be disclosed only in a designated way; and

(v) Such other matters as justice may require.

(2) Unless otherwise ordered by the Board, any objection to a discovery request must be filed within 2 working days after receipt in a protest, or within 15 calendar days after receipt in any other kind of case. A party shall fully respond to any discovery request to which it does not file a timely objection. The parties are required to make a good faith effort to resolve objections to discovery requests.

(3) A party receiving an objection to a discovery request, or a party which believes that another party's response to a discovery request is incomplete or entirely absent, may file a motion to compel a response, but such a motion must include a representation that the moving party has tried in good faith, prior to filing the motion, to resolve the matter informally. The motion to compel shall include a copy of each discovery request at issue and the response, if any.

(g) *Failure to make or cooperate in discovery; sanctions.* If a party fails (i) to appear for a deposition, after being served with a proper notice; (ii) to serve answers or objections to interrogatories submitted under 6101.17, after proper service of interrogatories; or (iii) to serve a written response to a request for inspection, production, and copying of any documents and things under 6101.17, the party seeking discovery may move the Board to impose appropriate sanctions under 6101.18.

(h) *Subpoenas.* A party may request the issuance of a subpoena in aid of discovery under the provision of 6101.20.

6101.16 Depositions [Rule 16].

(a) *When depositions may be taken.* Upon request of a party, the Board may order the taking of testimony of any person by deposition upon oral examination or written questions before an officer authorized to administer oaths at the place of examination. Attendance of witnesses may be compelled by subpoena as provided in 6101.20, and the Board may upon motion order that the testimony at a deposition be recorded by other than stenographic means, in which event the order may designate the manner of recording, preserving, and filing the deposition and may include other provisions to assure that the recorded testimony will be accurate and trustworthy. If the order is made, a party may, nevertheless, arrange to have a stenographic transcription made at its own expense.

(b) *Depositions: time; place; manner of taking.* The time, place, and manner of taking depositions, including the taking of depositions by telephone, shall be as agreed upon by the parties or, failing such agreement, as ordered by the Board. A deposition taken by telephone is taken at the place where the deponent is to answer questions propounded to him.

(c) *Use of depositions.* At a hearing on the merits or upon a motion or interlocutory proceeding, any part or all of a deposition, so far as admissible and as though the witness were then present and testifying, may be used against a party who was present or represented at the taking of the deposition or who had reasonable notice thereof, in accordance with any of the following provisions:

(1) Any deposition may be used by a party for the purpose of contradicting or impeaching the testimony of the deponent as a witness.

(2) The deposition of a party or of anyone who at the time of taking the deposition was an officer, director, or managing agent, or a person designated to testify on behalf of, a public or private corporation, partnership or association, or governmental agency, which is a party, may be used by an adverse party for any purpose.

(3) The deposition of a witness, whether or not a party, may be used by a party for any purpose in its own behalf if the Board finds that:

(i) The witness is dead;

(ii) The attendance of the witness at the place of hearing cannot be reasonably obtained, unless it appears that the absence of the witness was procured by the party offering the deposition;

(iii) The witness is unable to attend or testify because of illness, infirmity, age, or imprisonment;

(iv) The party offering the deposition has been unable to procure the attendance of the witness by subpoena; or

(v) Upon request and notice, exceptional circumstances exist which make it desirable in the interest of justice and with due regard to the importance of presenting the testimony of witnesses orally in open hearing, to allow the deposition to be used.

(4) If only part of a deposition is offered in evidence by a party, an adverse party may require the offering party to introduce any other part which in fairness ought to be considered with the part introduced.

(d) *Depositions pending appeal from a decision of the Board.* If an appeal has been taken from a decision of the Board, or before the taking of an appeal if the time therefor has not expired, the Board may allow the taking of depositions of witnesses to perpetuate their testimony for use in the event of further proceedings before the Board. In such case, the party that desires to perpetuate testimony may make a motion before the Board for leave to take the depositions as if the action was pending before the Board. The motion shall show:

(1) The names and addresses of the persons to be examined and the substance of the testimony which the moving party expects to elicit from each; and

(2) The reasons for perpetuating the testimony of the persons named.

If the Board finds that the perpetuation of testimony is proper to avoid a failure or a delay of justice, it may order the depositions to be taken and may make orders of the character provided for in 6101.15 and in this section. Thereupon, the depositions may be taken and used as prescribed in this part for depositions taken in actions pending before the Board. Upon request and for good cause shown, a judge may issue or obtain a subpoena, in accordance with 6101.20, for the purpose of perpetuating testimony by deposition during the pendency of an appeal from a Board decision.

6101.17 Interrogatories to parties; requests for admission; requests for documents [Rule 17].

Upon order from the Board permitting such discovery, a party may serve on another party written interrogatories, requests for admission, and requests for production of documents.

(a) *Written interrogatories.* Written interrogatories shall be answered separately in writing, signed under oath or accompanied by a declaration under penalty of perjury, and answered in a protest, within 5 working days after service, and in any other kind of case, within 30 calendar days after service. Objections shall be filed within the time limits set forth in 6101.15(f)(2). An interrogatory otherwise proper is not necessarily objectionable merely because an answer to the interrogatory may involve an opinion or contention that relates to fact or the application of law to fact, but the Board may order that such an interrogatory need not be answered until after designated discovery has been completed or until a conference has been held, or some other event has occurred.

(b) *Option to produce business records.* Where the answer to an interrogatory may be derived or ascertained from the business records of

VOL 58 ISS 249 DEC 30 1993 UMI

the party upon which the interrogatory has been served or from an examination, audit, or inspection of such business records, including a compilation, abstract, or summary thereof, and the burden of deriving or ascertaining the answer is substantially the same for the party serving the interrogatory as for the party served, it is a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party serving the interrogatory reasonable opportunity to examine, audit, or inspect such records and to make copies, compilations, abstracts, or summaries thereof. Such specification shall be in sufficient detail to permit the interrogating party to locate and to identify, as readily as can the party served, the records from which the answer may be ascertained.

(c) *Written requests for admission.* A written request for the admission of the truth of any matter, within the proper scope of discovery, that relates to statements or opinions of fact or of the application of law to fact, including the genuineness of any documents, is to be answered in writing and signed in a protest, within 5 working days after service, and in any other kind of case, within 30 calendar days after service. Objections shall be filed within the time limits set forth in 6101.15(f)(2). Otherwise, the matter therein may be deemed to be admitted.

(d) *Written requests for production of documents.* A written request for the production, inspection, and copying of any documents and things shall be answered in a protest, within 5 working days after service, and in any other kind of case, within 30 calendar days after service. Objections shall be filed within the time limits set forth in 6101.15(f)(2).

(e) *Change in time for response.* Upon request of a party, or on its own initiative, the Board may prescribe a period of time other than that specified in this section.

(f) *Responses.* A party that has responded to written interrogatories, requests for admission, or requests for production of documents, upon becoming aware of deficiencies or inaccuracies in its original responses, or upon acquiring additional information or additional documents relevant thereto, shall, as quickly as practicable, and as often as necessary, supplement its responses to the requesting party with correct and sufficient additional information and such additional documents as are necessary to give a complete and accurate response to the request.

6101.18 Sanctions and other proceedings [Rule 18].

(a) *Standards.* All parties and their representatives, attorneys, and any expert/consultant retained by them or their attorneys, must obey directions and orders prescribed by the Board and adhere to standards of conduct applicable to such parties and persons. As to an attorney, the standards include the rules of professional conduct and ethics of the jurisdictions in which an attorney is licensed to practice, to the extent that those rules are relevant to conduct affecting the integrity of the Board, its process, and its proceedings. The Board will also look to voluntary professional guidelines in evaluating an individual's conduct.

(b) *Sanctions affecting cases.* When a party or its representative or attorney or any expert/consultant fails to comply with any direction or order issued by the Board (including an order to provide or permit discovery), or engages in misconduct affecting the Board, its process, or its proceedings, the Board may make such orders as are just, including the following:

(1) Taking the facts pertaining to the matter in dispute to be established for the purpose of the case in accordance with the contention of the party submitting discovery requests;

(2) Forbidding challenge of the accuracy of any evidence;

(3) Refusing to allow the disobedient party to support or oppose designated claims or defenses;

(4) Prohibiting the disobedient party from introducing in evidence designated documents or items of testimony;

(5) Striking pleadings or parts thereof, or staying further proceedings until the order is obeyed;

(6) Dismissing the case or any part thereof;

(7) Enforcing the protective order and disciplining individuals subject to such order for violation thereof, including disqualifying a party's representative, attorney, or expert/consultant from further participation in the case; or

(8) Imposing such other sanctions as the Board deems appropriate.

(c) *Denial of access to protected material for prior violations of protective orders.* The Board may in its discretion deny access to protected material to any person found to have previously violated the Board's protective order.

(d) *Disciplinary proceedings.* (1) In addition to the above procedures, the Board may discipline individual party representatives, attorneys, and experts/consultants for a violation of any board order or direction or standard of conduct applicable to such individual where the violation seriously affects the integrity of the Board's processes or proceedings. Sanctions may be public or private, and may include admonishment, disqualification from a particular matter, referral to an appropriate licensing authority, or such other action as circumstances may warrant.

(2) The Board in its discretion may suspend an individual from appearing before the Board as a party representative, attorney, or expert/consultant if, after affording such individual notice and an opportunity to be heard, a majority of the members of the full Board determines such a sanction is warranted.

6101.19 Hearings: scheduling; notice; unexcused absences; suspension decision [Rule 19].

(a) *Scheduling of hearings*—(1) *In general.* Hearings will be held at the time and place ordered by the Board and will be scheduled at the discretion of the Board. In scheduling hearings, the Board will consider the requirements of the rules in this part, the need for orderly management of the Board's caseload, and the stated desires of the parties as expressed in their elections filed pursuant to 6101.9 or otherwise. The time or place for hearing may be changed by the Board at any time.

(2) *Protest suspension hearing.* If an interested party in a protest filed either before or after contract award requests a hearing for the Board to determine whether to suspend procurement authority pending a decision on the merits of the protest, such hearing shall be held, whenever practicable, so that the determination whether to suspend will be made before bid opening or the closing date for receipt of initial proposals or, if bids have been opened or initial proposals received, before the anticipated award of the contract, and in any event no later than 10 calendar days after the filing of the protest. A request for a suspension hearing will be denied if the protest is filed more than 10 calendar days after contract award.

(3) *Protest hearing on merits.* Any hearing on the merits of a protest will commence no later than 25 working days after the filing of the protest.

(b) *Notice of hearing.* Notice of hearing will be by written order of the Board, except that it may be oral for a suspension hearing held under paragraph (a)(2) of this section. Notice of changes in the hearing schedule will also be by written order when practicable but may be oral in exigent circumstances. Except as the Board may otherwise order, each party that plans to attend the hearing in an appeal shall, within 10 working days of receipt of (1) a written notice of hearing or (2) any notice of a change in hearing schedule stating that an acknowledgment is required, notify the Board in writing that it will attend the hearing. Acknowledgement of a notice of hearing in a protest may be written or oral and shall be given within such time as the notice prescribes.

(c) Unexcused absence from hearing. In the event of the unexcused absence of a party from a hearing, the hearing will proceed, and the absent party will be deemed to have elected to submit its case on the record pursuant to 6101.11.

(d) *Suspension decision.* The Board shall suspend the respondent's procurement authority, or a delegation thereof, pending a decision on the merits of the protest, unless the respondent establishes at hearing that: (1) absent suspension, contract award, if not already made, is likely to occur within 30 calendar days; and (2) urgent and compelling circumstances which significantly affect interests of the United States will not permit waiting for the decision of the Board. The decision regarding suspension will be by order of the panel chairman and may be oral, to be reduced to writing as soon as practicable.

6101.20 Subpoenas [Rule 20].

(a) *Voluntary cooperation in lieu of subpoena.* Each party is expected to:

(1) Cooperate by making available witnesses and evidence under its control, when requested by another party, without issuance of a subpoena; and

(2) Secure voluntary attendance of third-party witnesses and production of evidence by third parties, when practicable, without issuance of a subpoena.

(b) *General.* Upon the written request of any party filed with the Office of the Clerk of the Board, or on the initiative of a judge, a subpoena may be issued that commands the person to whom it is directed to:

(1) Attend and give testimony at a deposition in a city or county where that person resides or is employed or transacts business in person or at another location convenient to that person that is specifically determined by the Board;

(2) Attend and give testimony at a hearing; and

(3) Produce the books, papers, documents, and other tangible things designated in the subpoena.

(c) *Request for subpoena.* A request for a subpoena shall state the reasonable scope and general relevance to the case of the testimony and of any documentary evidence sought. A request for a subpoena shall be filed at least 5 working days in a protest, or 15 calendar days in any other kind of case, before the testimony of a witness or documentary evidence is to be provided. The Board may, in its discretion, honor requests for subpoenas not made within these time limitations.

(d) *Form; issuance.* (1) Every subpoena shall be in the form specified in the appendix to this part. Unless a party has the approval of a judge to submit a subpoena in blank (in whole or in part), a party shall submit to the judge a completed subpoena (save the "Return on Service" portion). In issuing a subpoena to a requesting party, the judge shall sign the subpoena. The party to whom the subpoena is issued shall complete the subpoena before service.

(2) If the person subpoenaed is located in a foreign country, a letter rogatory or a subpoena may be issued and served under the circumstances and in the manner provided in 28 U.S.C. 1781–1784.

(e) *Service.* (1) The party requesting a subpoena shall arrange for service. Service shall be made as soon as practicable after the subpoena has been issued.

(2) A subpoena requiring the attendance of a witness at a deposition or hearing may be served at any place. A subpoena may be served by a United States marshal or deputy marshal, or by any other person who is not a party and not less than 18 years of age. Service of a subpoena upon a person named therein shall be made by personal delivery of a copy to that person and tender of the fees for one day's attendance and the mileage allowed by 28 U.S.C. 1821 or other applicable law; however, where the subpoena is issued on behalf of the Government, money payments need not be tendered in advance of attendance.

(f) *Proof of service.* The person serving the subpoena shall make proof of service thereof to the Board promptly and in any event before the date on which the person served must respond to the subpoena. Proof of service shall be made by completion and execution and submission to the Board of the "Return on Service" portion of a duplicate copy of the subpoena issued by a judge. If service is made by a person other than a United States marshal or his deputy, that person shall make an affidavit as proof by executing the "Return on Service" in the presence of a notary.

(g) *Motion to quash or to modify.* Upon written motion by the person subpoenaed or by a party, made within 14 calendar days after service, but in any event not later than the time specified in the subpoena for compliance, the Board may (1) quash or modify the subpoena if it is unreasonable and oppressive or for other good cause shown or (2) require the party in whose behalf the subpoena was issued to advance the reasonable cost of producing subpoenaed documentary evidence. Where circumstances require, the Board may act upon such a motion at any time after a copy has been served upon opposing parties.

(h) *Contumacy or refusal to obey a subpoena.* In a case of contumacy or refusal to obey a subpoena by a person who resides, is found, or transacts business within the jurisdiction of a United States district court, the Board shall apply to the court through the Attorney General of the United States for an order requiring the person to appear before the Board to give testimony, produce evidence or both. If a person fails to obey such an order, the court may punish that person for contempt of court.

6101.21 Hearing procedures [Rule 21].

(a) *Nature and conduct of hearings.* Except when necessary to maintain the confidentiality of protected material or testimony, or material submitted in camera, all hearings on the merits of cases shall be open to the public and conducted insofar as is convenient in regular hearing rooms. All other acts or proceedings may be done or conducted by the Board either in its offices or at other places.

(b) *Continuances; change of location.* Whenever practicable, a hearing will be conducted in one continuous session or a series of consecutive sessions at a single location. However, the Board may at any time continue the hearing to a future date and may arrange to conduct the hearing in more than one location. The Board may also continue a hearing to permit a party to conduct additional discovery on conditions established by the Board. In exercising its discretion to continue a hearing or to change its location, the Board will give due consideration to the same elements (set forth in 6101.19(a)) that it considers in scheduling hearings.

(c) *Availability of witnesses, documents, and other tangible things.* It is the responsibility of a party desiring to call any witness, or to use any document or other tangible thing as an exhibit in the course of a hearing, to ensure that whoever it wishes to call and whatever it wishes to use is available at hearing.

(d) *Enlargement of the record.* The Board may at any time during the

conduct of a hearing require evidence or argument in addition to that put forth by the parties.

(e) *Examination of witnesses.* Witnesses before the Board will testify under oath or affirmation. A party or the Board may obtain an answer from any witness to any question that is not the subject of an objection that the Board sustains.

(f) *Refusal to be sworn.* If a person called as a witness refuses to be sworn or to affirm before testifying, the Board may direct that witness to do so and, in the event of continued refusal, the Board may permit the taking of testimony without oath or affirmation. Alternatively, the Board may refuse to permit the examination of that witness, in which event it may state for the record the inferences it draws from the witness's refusal to testify under oath or affirmation. Alternatively, the Board may issue a subpoena to compel that witness to testify under oath or affirmation and, in the event of the witness's continued refusal to swear or affirm, may seek enforcement of that subpoena pursuant to 6101.20(h).

(g) *Refusal to answer.* If a witness refuses to answer a question put to him in the course of his testimony, the Board may direct that witness to answer and, in the event of continued refusal, the Board may state for the record the inferences it draws from the refusal to answer. Alternatively, the Board may issue a subpoena to compel that witness to testify and, in the event of the witness's continued refusal to testify, may seek enforcement of that subpoena pursuant to 6101.20(h).

(h) *Issues not raised by pleadings.* If evidence is objected to at a hearing on the ground that it is not within the issues raised by the pleadings, it may nevertheless be admitted by the Board if it is within the proper scope of the case. If such evidence is admitted, the Board may grant the objecting party a continuance to enable it to meet such evidence. If such evidence is admitted, the pleadings may be amended to conform to the evidence, as provided by 6101.12(e).

(i) *Delay by parties.* If the Board determines that the hearing is being unreasonably delayed by the failure of a party to produce evidence, or by the undue prolongation of the presentation of evidence, it may, by written order or by ruling from the bench, prescribe a time or times within which the presentation of evidence must be concluded, establish time limits on the direct or cross-examination of witnesses, and enforce such order or ruling by appropriate sanctions.

6101.22 Admissibility and weight of evidence [Rule 22].

(a) *Admissibility.* Any relevant evidence may be received. The Board may exclude relevant evidence to avoid unfair prejudice, confusion of the issues, undue delay, waste of time, or needless presentation of cumulative evidence. Hearsay evidence is admissible unless the Board finds it unreliable or untrustworthy.

(b) *Federal Rules of Evidence.* As a general matter, and subject to the other provisions of this section, the Board will base its evidentiary rulings on the Federal Rules of Evidence.

(c) *Weight and credibility.* The Board will determine the weight to be given to evidence and the credibility to be accorded witnesses.

(d) *Submission of evidence in camera.* 6101.12(h) governs submissions *in camera.*

6101.23 Exhibits [Rule 23].

(a) *Marking of exhibits.* (1) Documents and other tangible things offered in evidence by a party will be marked for identification by the Board during the hearing or, if it is convenient for the Board and the parties, before the commencement of the hearing. They will be numbered consecutively as the exhibits of the party offering them.

(2) If a party elects to proceed on the record without a hearing pursuant to 6101.11, documentary evidence submitted by that party will be numbered consecutively by the Board as appeal or protest file exhibits.

(b) *Copies as exhibits.* Except upon objection sustained by the Board for good cause shown, copies of documents may be offered and received into evidence as exhibits, provided they are of equal legibility and quality as the originals, and such copies shall have the same force and effect as if they were the originals. If the Board so directs, a party offering a copy of a document as an exhibit shall have the original available at the hearing for examination by the Board and any other party. When the original of a document has been received into evidence as an exhibit, an accurate copy thereof may be substituted in evidence for the original by leave of the Board at any time.

(c) *Withdrawal of documentary exhibits and other papers.* With the permission of the Board, a party may remove an exhibit during the course of a proceeding. Otherwise, except as provided in 6101.37(d), no withdrawal of any papers in the Board's file is permitted. Inspection of the file at the Board's offices is permitted by 6101.12(g).

(d) *Disposition of physical exhibits.* Any physical (as opposed to documentary) exhibit may be disposed of by the Board at any time more than 90 calendar days after the expiration of the period for appeal from the decision of the Board, unless it has been earlier withdrawn by the party that submitted it.

6101.24 Transcripts of proceedings; corrections [Rule 24].

(a) *Transcripts.* Except as the Board may otherwise order, all hearings of appeals or petitions other than those under the small claims procedure prescribed by 6101.13, and all hearings in connection with protests, will be stenographically or electronically recorded and transcribed. Any other hearing or conference will be recorded or transcribed only by order of the Board. Copies or transcriptions of stenographic or electronic recordings not ordered to be transcribed by the Board will be furnished to the parties or other persons only on conditions prescribed by the Board, which may include the payment of the costs of copying or transcription. Each party is responsible for obtaining its own copy of the transcript if one is prepared.

(b) *Corrections.* Corrections to an official transcript will be made only when they involve errors affecting its substance. The Board may order such corrections on motion or on its own initiative, and only after notice to the parties giving them opportunity to object. Such corrections will ordinarily be made either by hand with pen and ink or by the appending of an errata sheet, but when no other method of correction is practicable the Board may require the reporter to provide substitute or additional pages.

6101.25 Briefs and memoranda of law [Rule 25].

(a) *Form and content of briefs and memoranda of law.* Briefs and memoranda of law shall be typewritten on standard size 8½ by 11-inch paper. Otherwise, no particular form or organization is prescribed. Posthearing briefs should, at a minimum, succinctly set forth (1) the facts of the case with citations to those places in the record where supporting evidence can be found and (2) argument with citations to supporting legal authorities. Memoranda of law should generally adhere as closely as practicable to the form and content of briefs.

(b) *Submission of posthearing briefs.* Except as the Board may otherwise order, posthearing briefs shall be filed in an appeal 30 calendar days after the Board's receipt of the transcript and in a protest 5 working days after the Board's receipt of the transcript; reply briefs in an appeal, if filed, shall be filed 15 calendar days after the parties' receipt of the initial posthearing briefs. The Board will notify the parties of the date of its receipt of the transcript. In the event one party has elected a hearing and any other party has elected to submit its case on the record pursuant to 6101.11, the filing of record submissions in the form of briefs shall be governed by 6101.11.

6101.26 Consolidation; separate hearings; separate determination of liability [Rule 26].

(a) *Consolidation.* When cases involving common questions of law or fact are pending, the Board may:

(1) Order a joint hearing of any or all of the matters at issue in the cases;

(2) Order the cases consolidated; or

(3) Make such other orders concerning the proceedings therein as are intended to avoid unnecessary costs or delay.

(b) *Separate hearings.* The Board may order a separate hearing of any case or cases or of any claims or issues or number of claims or issues therein. The Board may enter appropriate orders or decisions with respect to any claims or issues that are heard separately.

(c) *Separate determinations of liability.* The Board may:

(1) Limit a hearing to those issues of law and fact relating to the right of a party to recover, reserving the determination of the amount of recovery, if any, for other proceedings; and

(2) In its decision of an appeal, irrespective of whether there is evidence in the record concerning the amount of recovery, and whether or not a stipulation or order has been made, reserve determination of the amount of recovery for other proceedings. In any instance in which the Board has reserved its determination of the amount of recovery for other proceedings, its decision on the question of the right to recover shall be final, subject to the provisions of 6101.30 through 6101.33.

6101.27 Stay or suspension of proceedings; dismissals in lieu of stay or suspension [Rule 27].

(a) *Stay of proceedings to obtain contracting officer's decision.* The Board may in its discretion stay proceedings to permit a contracting officer to issue a decision when an appeal has been taken from the contracting officer's alleged failure to render a timely decision.

(b) *Suspension for other cause.* The Board may suspend proceedings in a case for good cause. The order suspending proceedings will prescribe the duration of the suspension or the conditions on which it will expire. The order may also prescribe actions to be taken by the parties during the period of suspension or following its expiration.

(c) *Dismissal in lieu of stay or suspension.* When circumstances beyond the control of the Board prevent the continuation of proceedings in a case, the Board may, in lieu of issuing an order suspending proceedings, dismiss the case without prejudice to reinstatement. Such a dismissal may require reinstatement by a date certain or within a certain period of time after the occurrence of a specified event. If the order of dismissal does not otherwise provide, it will be subject to the provisions of 6101.28(b).

6101.28 Dismissals [Rule 28].

(a) *Generally.* A case may be dismissed by the Board on motion of any party. A case may also be dismissed for reasons cited by the Board in a show cause order to which response has been permitted. Every dismissal shall be with prejudice to reinstatement of the case unless a dismissal without prejudice has been requested by a party or specified in a show cause order.

(b) *Dismissal without prejudice.* When a case has been dismissed without prejudice to its reinstatement and no party has requested, within the period of time specified in this paragraph, that the case be reinstated, the case shall be deemed to have been dismissed with prejudice as of the expiration of 10 working days of the date of dismissal in a protest, 180 calendar days of the date of dismissal in any other kind of case, or such other period as the Board may prescribe.

(c) *Issuance of order.* An order of dismissal shall be issued by the panel of judges to which the case has been assigned if the motion is contested or if the Board is acting consequent to its own show cause order. An order of dismissal may be issued by the panel chairman alone if the motion to dismiss is not contested.

6101.29 Decisions [Rule 29].

(a) *Format; procedure.* Except as provided in 6101.19(d) (protest suspension decision) and 6101.13 (small claims procedure), decisions of the Board will be made in writing upon the record as prescribed in 6101.12. Each of the parties will be furnished a copy of the decision certified by the Office of the Clerk of the Board, and the date of the receipt thereof by each party will be established in the record.

(b) *Timing of protest decisions.* (1) A decision on the merits of a protest will be issued within 45 working days after the filing of the protest, unless the chairman of the Board determines that the specific and unique circumstances of the protest require a longer period. In that event, the Board shall issue a decision within the longer period determined by the chairman of the Board.

(2) In a protest, the Board ordinarily will, within the 45-day period applicable to the original protest, decide all issues, including those raised by amendment or intervention, that are necessary to the resolution of the case. The Board will whenever possible notify the parties prior to the originally scheduled hearing date, or date for record submission, if it believes that because of a new ground of protest raised by an amendment or by an intervention, the protest might not be decided within the original 45-day period.

6101.30 Full Board consideration [Rule 30].
